INJECTION

THE ART OF ANGRBODA

NOTES + ACKNOWLEDGEMENTS

Okay so, this took me five years to make; no joke.

Yeah... what can I say? I'm slow.

I worked on this book from fall of 2008 to fall of 2013 on and off (mostly off). About half of the work was finished by 2009, and the rest has trickled in bits and pieces since then, whenever I felt like I had a decent idea. Throughout that time I stressed about the old art, re-doing parts at times to try to fix them up. There are pages of the main sequence I've drawn (and finished) three times at this point, just to make sure they were what I wanted.

This book is dedicated to all the people who ever told me to finish it. Thank you to everyone I've shown WIPs of it to over the years. Thank you for liking the old stuff, even though it's old. Thank you for digging the new stuff, even though it's different.

Thanks for sticking with me. It means a lot.
