

Moms, Boys and Sex Toys – Part 3

The Toy Party

"Hey, guys!" stated Tanya, a beautiful blonde headed thirty-two-year-old. "I'm so glad you could make it."

Tanya hugged her friend, Suzette, as she stepped inside the foyer of Tanya's home with her son, Kyle.

"Hi, Mrs. Griffith," uttered the boy, feeling a little intimidated by the gorgeous blonde. She was younger than his mom, but had been his fourth grade teacher when he was ten-years-old. Even at that age he remembered being struck by the size of her tits and the roundness of her ass.

"Kyle, you're not in fourth grade anymore. Call me Tanya."

"Got it!" he nodded.

"I'll take a hug too," she smiled, stepping towards him with open arms.

Kyle sighed as he melted against the squishy softness of her huge, meaty breasts. "Mmm, God, you've gotten so tall and handsome," she purred.

"Thanks."

"Help yourself to some refreshments," Tanya told them. "We'll get things started in just a few minutes."

"We were beginning to think you two changed your minds," said Brittany as her and her son, Cameron, lingered in the living room. They were visiting with Lauren and her son, Brent. A couple other mothers, without sons, were in attendance and chatted with each other.

"No chance!" said Suzette. "I've been looking forward to this sex toy party all week."

"Me too!" added Lauren. "I sure hope my husband doesn't notice the dent in our credit card tomorrow."

The three boys, Kyle, Brent and Cameron gathered together away from their chatting moms. "I sure didn't think I'd ever be talked into going to a sex toy party with my own mom," Brent confessed.

"Me neither," Kyle added, "especially one hosted by my forth grade teacher."

"I didn't think my mom and I would ever do a lot of the things we've been doing lately," confessed Cameron, reflecting on how his mom had helped him milk his cock by using a fake vagina.

"Did you guys get vaginal sleeves too?" Brent asked.

"Yeah, but I need a new one, since my dick ripped right through the sleeve that my mom was using on me," said Kyle.

"Mine did too!" laughed Brent. "They definitely need to buy industrial-strength toys for OUR dicks."

"I should have yanked one out before I came over here," stated Cameron, gazing around at all the beautiful, heavy-titted moms. "I've never seen a collection of huge boobs like this in one place before."

"I'd like to sink my cock into every one of them," Brent confessed. "Even MY mom."

"It's good to hear I'm not the only one who thinks about boning my mother," said Kyle.

They noticed another woman arrive. "Who's the pregnant chick with purple hair?" Brent asked.

"That's my Aunt Penny," Kyle answered. "My mom invited her to come."

"Dude, she has some HUGE fucking milk-cannons! You could get lost under those things."

"Trust me, I agree. I've been obsessed with them since grade-school. Now that she's pregnant, they've gotten even bigger!"

"You can even see her nipples through dress...look at that!" Cameron added.

Brent looked over at his own pregnant mom swollen udders. "My moms have too," he sighed. "I'd give anything to nurse on those tig-bitties!"

Penny noticed the three sets of eyes that were glued to her ginormous tits. "Well, the boys certainly don't look like they feel awkward being at a sex toy party with a group of grown women," she said to her sister.

"We've been helping them milk their cocks off for almost two weeks," stated Suzette. "They should certainly be over their shyness at this point."

"How big IS my nephew's cock anyway?" Penny casually asked. "Does he have enough meat on the bone to curl a woman's toes?"

"He's plenty big, trust me," answered Suzette. "When word of his size gets out among the girls at his school, he won't be needing sex toys anymore, I can guarantee that."

"Is everyone ready to get started?" shouted Tanya, who was hosting the party.

The group let out a collective "yes" and had a seat in the living room. Tanya stood in front of them, setting a big pink box down in front of her. "Thanks for coming everyone. I'm excited to show you some new toys that are designed to enhance your sex and masturbation."

The busty blonde shifted her focus to just the boys. "Something that you boys may not realize is that we moms use sex toys A LOT! If your mom tells you she's going in her bedroom to read, she's probably really going in there to get off while using one of her toys. In fact, I'd be willing to bet there are several moms using them right now, even as we speak," she stated.

The boys looked over at their grinning moms curiously. "How would they be using them now?" Brent asked.

"Is there any mom among us who has a butt-plug in right now?" Tanya asked.

One of the ladies, Brent's pregnant mom, Lauren, raised her hand. "I do!" she confessed.

"How about any Ben Wa balls? Are there any moms using them right now?"

"Guilty!" Suzette stated, raising her hand. One of the other moms in attendance raised their hand also. "Me too!" she grinned.

Since his mom was using them, and he had no idea what Ben Wa balls were, Kyle had to ask. "What are Ben Wa balls?"

Tanya was eager to answer. "Kyle, Ben Wa balls or Kegel balls are round objects that a woman puts inside her vagina. They use them to do exercises that tone and strengthen their pelvic floor muscles, giving them tighter pussies for sex."

"Nice!" the boy stated, sharing a smile with his mom.

"How does that make you feel, Kyle," teased his Aunt Penny, "knowing your mom has a nice, tight pussy?"

Suzette nudged her sister with her elbow. "Penny!" she giggled.

"What?! What's wrong with your boy knowing you have a well-conditioned cunt?"

The other mothers laughed, then Tanya continued. "From what I understand, some of you boys have been experiencing masturbation lately with the help of vaginal sleeves."

"More like ripping them to pieces from fucking them so hard," said Lauren, gazing over at her son teasingly.

"Vaginal sleeves are another common sex toy, especially among young men, and yes, they can be hard on them. What I have today though are toys that are a little less common, but can bring increased sensations to our sexual body parts."

Tanya reached down into her box of goodies. "Let's start with one for the moms. These are the first-ever app-controlled nipple clamps, and these bad boys are seriously smart, and fun! This vibrating set allows your husbands, or maybe even your sons, to tease you from anywhere by controlling its three vibrational speeds and ten patterns. You'll also love how you can adjust the tightness of the clamps around your teats through the screws for a comfy or not-so-comfy fit. Who wants to volunteer to try them?"

"I do!" Penny blurted, raising her hand excitedly.

"Come on up."

The boys glanced at each other anxiously as Penny stood before the group next to Tanya. She wasted no time shedding her blouse, then removing her tit-stuff bra. Her giant mammary meat sprung out onto her huge pregnant belly, causing all three boys to gasp out loud. It was a sight Kyle had dreamed of seeing for years. His Aunt Penny's areolas were huge and thickly textured. Her nipples were plump and rubbery; a deep purple in color from all the extra blood being pumped to her tits in preparation for breastfeeding.

"Ok, just place one on each nipple and adjust them to your liking. While you're doing that, who would you like to download the app and use the vibrating function on you?" Tanya asked.

"How about my cute nephew, Kyle," Penny answered, winking over at him.

"Kyle, are you good with that?" The hostess asked.

"Sure!"

The teen quickly downloaded the nipple clamp app on his phone, then began experimenting with the speeds and patterns of vibration. He knew it was working when his Aunt Penny let out a delightful squeal. "I looks like it's working, Kyle," Tanya giggled. "We women enjoy squeezing and pulling on our engorged nipples during sex and this toy will allow us moms to go hands-free. How's it feel, Penny?"

"Incredible!" Penny answered, glancing naughtily over at her nephew.

"The pinching that comes from nipple clamps can heighten sensation to this already sensitive spot and help enhance the female orgasm," Tanya explained, then smiled over at Penny. "Would you like to keep them on for a little while?"

"Can I?"

"Of course. Try them out as long as you want."

Penny's big milkers bobbed deliciously as she waddled back to her seat. Her eyes met Kyle's and she bit her bottom lip in ecstasy, showing her approval of what he was doing by way of the app.

"The next toy we have is for the boys," said Tanya, pulling a device from her box. "It's the newest innovation in penis pumps. Now, boys, men your dad's age probably use this strictly for erectile dysfunction issues, but guys your age like to use penis pumps to enhance their erections, increasing its size and rigidity for a session of hot sexual intercourse. Which one of you guys would like to demonstrate how it works?"

"I will!" volunteered Brent.

"Awesome! Get undressed and lay here across the coffee table." Tanya instructed, then looked over at his mother. "Lauren, would you like to assist him in using it?"

"Um...sure," said the pregnant mother, making her engorged breasts quiver as she shrugged her shoulders.

Brent quickly stripped. He had a lean, chiseled body and an oversized penis so he certainly had no reason to be shy. Every woman in the room's eyes were fixed on his bobbing erection as he sprawled out on his back on the coffee table. Tanya and Lauren knelt down next to him. "The first step is to check if the penis pump is able to fit your cock. Most penis pumps are designed with the average erection-size in mind. If your penis is on the smaller or larger size, you may need to purchase one that is designed within your dimensions. I have the largest model they make here that's made specifically for teenage boys," said Tanya as she squirted some lube onto Lauren's hand.

"Lauren will be adding a form of lubrication to her son's penis that'll help create an organic layer between the pump and the skin. The glistening effect that it creates around a boy's boner, enhancing its details, are really something to enjoy looking at."

Brent shivered excitedly as his mom coated his already erect dick with heated lubricant.

"So, Lauren...now you'll place his boner into the clear cylinder. Once the penis is snug inside the pump and the vacuum has been sealed down around his cock-base, you'll start slowly pumping."

"Got it!" stated Lauren, taking a gulp as she fed her boy's impressive prick into the pump. Then, she clicked it on.

"To start, you'll do quick pump-sessions, thirty-seconds in duration," Tanya instructed. "While the penis is slowly getting bigger inside the tube, take note of how the tube envelopes it. You ladies may want to come down and get a closer view," she told the other moms. They eagerly accepted the suggestion, kneeling next to the table so Brent was surrounded by beautiful moms who were all staring intently at his cock.

The teen's already rigid dick expanded even larger inside the tube. "Oh my God...look how much bigger it's getting!" his mother exclaimed in fascination.

"Does it hurt at all?" Brittany asked Brent.

"No, not really. My dick just feels tighter and harder."

After two pump-cycles of thirty-seconds each Brent's knob was as big around as a fat, juicy plumb and his shaft was easily ten inches in length.

One of the neighborhood moms licked her lips, gazing at all the thick, blue cock-veins criss crossing along Brent's meaty stalk. "It looks so strong!" she uttered, marveling at how it must be twice the size of her husband's cock.

"After the penis is pumped, a cock ring is placed around the base of the shaft," said Tanya. "This helps keeps the blood inside the penis so the erection can be maintained for prolonged sexual intercourse."

"How prolonged?" asked Suzette, suddenly conscious of how her erect nipples were throbbing beneath her bra.

"It depends on the make, but I do know that a cock ring can be VERY effective at delaying ejaculation. And speaking of 'cock ring,' this is a great time to transition to our next toy, which is the duel vibrating cock-ring."

"Duel vibrators?" Penny asked, her eyes lighting up. The nipple clamps were still attached to the hardened teats of her enormous breast and were BUZZING away.

"That's right," Tanya smiled, pulling one from her toy box and pointing out its features. "It has two stretchable silicone rings for a boy's shaft and testicles, helping him achieve and maintain long-lasting erections and prolonged ejaculation. For doubly-powerful stimulation, the dual vibrating bullets that are attached in these textured sleeves target multiple erogenous zones. The clitoris, the anus and the testicles, and they boast ten different vibrating functions."

"Wow!" Brittany exclaimed, her cunt-hole tingling. "That sounds amazing!"

"Can I try one on?" asked Brent.

"Certainly!" answered Tanya. Then, she looked over at Kyle and Cameron. "Would you boys like to pump up your cocks and try one on too?"

Kyle looked over at Suzette. "Can I, mom?" he asked.

"Of course you can, hunny. That's why we're here...to try some new toys," she replied.

"Sweet!" the teen grinned as he and Cameron quickly stood up and stripped off the clothes. Their boners sprung from their underwear, drawing the attention of all the women in the room.

"Their dicks certainly don't look like they need pumped up at all," Penny stated. "They're already rock hard."

The other moms giggled. "They're teenage boys so they probably spend the majority of their day that way," stated Brittany.

"Is that true, sweetheart?" Lauren asked her son, glancing down at the hunky slab of meat still encased within the cylinder of the pump. "Do you spend most of your day with a big, hard dick?"

"Yeah, unsually."

"Maybe you should stop spending so much time thinking about big tits and dripping pussies," stated Suzette, grinning teasingly at her own son.

"Lauren, why don't you slip your son's erection from the cylinder and place a cock-ring around him, then we'll get the other two boys pumped up," Tanya suggested.

The mothers watched in lewd fascination as the suction was released from the penis pump and Brent's swollen cock-meat was slipped from the tube. "You'll wanna get the ring on quickly to trap all the extra blood inside his cock," Tanya advised, handing Lauren the cock ring.

"Ok, so the back ring goes behind his balls, like this, right?" Lauren asked lifting her son's nuts and fitting the tight silicone ring against his perineum.

"Exactly, one ring behind his balls and the other in front around the base of his shaft," Tanya directed.

"There!" Lauren smiled. "Now what about the bullet vibrators?"

"You'll want one positioned on the top of his shaft for clitoral stimulation and the other behind his scrotum to arouse his testicles," Tanya answered.

While Lauren adjusted the vibrators on her son's cock, Kyle stood in front of his mom and Aunt Penny as Suzette fit the penis pump over the length of his boner. They both gazed at his big teenage prick adoringly. "God, I love how he's hairless down there," Penny sighed. "That is so fucking sexy!"

"What I can't get over is the slight upward curve of the shaft," Suzette pointed out. "I mean, my God...could you get a more perfect cock?!"

Kyle smiled proudly, listening to them dot over his oversized prick, while staring at their heaving tits. His eyes widened even more as he felt the seal tighten around his cock-root and his boner began to pump-up even larger within the cylinder.

Both women's wonder-stricken eyes traveled back and forth from the boy's face to his swelling boner. "How does that feel, hunny? Is that enough?" his mom asked.

"I think so. It feels REALLY huge and strong!" he proudly answered.

"It LOOKS really huge and strong!" his Aunt Penny answered. "That has to be over ten inches, and SO thick! Look at how all those cock-veins are popping out."

"It's incredible!" Kyle's mom exhaled, releasing the suction pressure. "I don't think I've ever seen one so big."

"I've got the cock-ring ready," stated Penny as she watched her sister slip the cylinder from her nephew's giant sex organ. Together, the two of them fit the ring on, positioning it just how Tanya had showed them.

Next, Brittany pumped her son, Cameron, up, with the help of another mom in attendance. They fit the duel ring over his swollen dong and under his nuts so now all three boys were nude with their humongous erections sticking out in front of them. "Well, if THAT isn't the most beautiful sight I've ever seen!" stated Penny, which drew giggles from the other moms.

"I agree," said Suzette, biting her bottom lip and her clit tingled beneath its fleshy hood.

Tanya stood near the boys and continued to point out features of the cock-rings. "Do you see how the rings are keeping the blood trapped in their dongs?"

"It's amazing! How long can they stay that way?" a local mother asked.

"They recommend to not have the penis restricted for longer than an hour. However, after the band is removed and normal blood flow is restored, you can pump a boy's cock back up, put the band back on and enjoy another hour-long round of sex."

"God, that sounds so fucking good right now!" Penny whispered to her sister, making her giggle.

"What are all those things sticking out of the top of the vibrator?" Cameron asked, staring down at the bullet situated atop his shaft.

"The top vibrator is studded with pleasure nubs that are designed to dig beneath a woman's clitoral hood and stimulate her most sensitive nerve endings," Tanya answered.

"So, will the rings really help delay a boy's ejaculation that much?" Suzette asked, obsessed with how long she could actually be fucked by someone who was wearing one.

"Yes, definitely. The constriction effect of the band replicates the kegel exercises that many boys consciously perform during sex, in an attempt to delay their ejaculation," Tanya answered. She stepped over and reached down into her box again. "Now we have a toy for you moms to wear."

The women all gasped and giggled as they looked at what Tanya had in her hand. "Since we moms can be as wild as animals in bed, it's only fitting that we wear these animal tail vibrating anal plugs," stated the hostess. "The tails are made from soft, plush fur that's very realistic. They're only nine-inches in length and flexible enough to sway and dance about with every movement of your butt."

"Oh my God, I want one!" shouted Lauren.

"Me too!" said Penny.

"I have a momma racoon tail," Tanya stated, showing them the three choices, "a brown female fox with a pink plug, or a white, round bunny tail. They even come with ears attached to a headband that clip right on."

"I want the bunny!" Suzette shouted excitedly.

"Same!" another mom rang in.

"Fox tail!" Lauren requested.

Tanya looked at the three hard-dicked boys. "Since we helped you boys pump your dicks up, would you like to help us moms put our butt plugs in?" she candidly asked.

The three teens looked at each other, nodding and smiling from ear to ear. "Absolutely!" stated Brent. They stood there in wide-eyed disbelief as all the moms in attendance began undressing.

"Dude, am I really seeing this?" Cameron uttered to the other two boys. He felt like he was a fly on the wall in the lady's locker room.

"You sure are!" Kyle replied, as he watched his mom reach back to unclasp her bra. She shared a blushing smile with him as her oversized tit-melons spilt out onto her rib cage. Her thick nipples were hardened from arousal.

Brent's cock flexed on his loins as he watched his pregnant red-headed mom slip out of her dainty panties. Her breasts were ginormous and milk-swollen, since she was only days away from her expected due-date.

"Fuck!" Cameron uttered, staring at his own mom's shaved pussy. The plump fleshy dome of her prepuce protruded deliciously from her puffy labial flanges. Her bra was unfastened, drawing his eyes to her fat, rounded tits. They were capped with wide areola and plump, suckable nipples.

Soon, all the moms were bare naked, including Tanya. Her heavy hooters bobbed as she stepped over and handed Kyle a bottle of lubricant. "So, most moms love anal sex, so butt plugs are a great way to get her ass ready to be penetrated by a penis. Remember, boys...unlike the vagina, the rectum doesn't self-lubricate. This is why it's important to warm up a girl's butthole with plenty of lube and smaller objects, such as fingers and butt plugs like these, before you fuck her up the ass."

"So...you're gonna let US lube them up?" Brent asked.

"Sure. Why don't we start with your moms."

Lauren, Suzette and Brittany stepped over in front of their hard-cocked boys and leaned forward, pointing their luscious, rounded mommy-asses back at them.

"Look at that!" Cameron exclaimed, his eyes nearly popping out of his skull, making all the moms giggle.

"That's so sexy!" Kyle added, staring at Suzette's naked derriere. Her meaty ass-globes were slightly splayed, allowing him to see the pink, crinkled ring of her butthole. It was certainly a surreal moment for all involved, but also extremely thrilling.

"Why don't you boys start by giving your mom's asshole a little kiss."

"A kiss?" Cameron asked, licking his lips.

That's right. The asshole is a vulnerable part of a woman's body so kissing it before you play with it is a way of showing a woman she can trust you," Tanya suggested.

Kyle leaned down, as did the other two boys, and kissed the ring of his mom's buttole. He felt it pucker against his lips upon contact. That, along with the wonderful cuntal aroma wafting up from her overheated pussy, made his steely hardon twitch excitedly.

Tanya lingered beside them, eager to provide further instruction. "Now, lube up your finger and circle the ring of her anus with it. Then, glide it gently in and out of her asshole."

Brent's heart raced as he slipped his lubricated middle finger into his mom's butt. He felt her spongy ass-walls squeeze around him with sucking pressure, as if trying to draw his finger deeper inside her ass-tract.

"Now add a second finger," said Tanya. "Use them to coat her anal walls with lubricant so the plug will slide in easily.

Cameron felt like he was finger fucking his mom's ass. Her heated tract clenched around his fingers tightly, enjoying the delightful friction his digits were creating against her anal glands.

"Do we put some on the plug too?" the boy asked.

"Yes, slather your mom's butt plug up with lube, then slowly insert it inside of her."

Kyle could hardly contain his excitement as he pushed the slimy tip of the plug against Suzette's buttole, watching her elastic ass-ring expand around the thickness of the plug.

"Push it in slowly, boys, and let your mom relax her sphincter muscles around the plug," Tanya advised.

Brittany's buttole clenched and released without her conscious knowledge, but once her sphincter relaxed, her son was able to push the plug through. "That's soooo cool!" uttered Cameron, watching his mom ass-ring clench tightly around the narrow neck near the stem of the plug.

For a moment, he imagined what it would be like to have his super-sized erection buried in the hot, squeezing furnace of her ass.

Once all of the plugs were in, the mom's straightened upright and swayed their buns, making their cute animal tails wiggle around playfully. Suzette put on her bunny ears and peered back at her son in a flirty manner. "How do I look, hunny?" she asked.

"Like the hottest bunny I've ever seen!" he answered.

"Well, you know what they say about bunnies...we love to fuck," she winked.

Penny looked at her sister with an exaggerated pouty face. "Hey, we momma racoons like to fuck too!"

Lauren giggled and chimed in. "I'm sure any type of momma likes to fuck."

"You mean 'loves to fuck,' Brittany corrected.

"Here are the remotes, boys," said Tanya, handing one to each of them. "Let's make those cute tail plugs vibrate."

The three teenagers turned them on, then watched their moms squirm and squeal in front of them as the vibrating plugs BUZZED delightfully against their tightly-clenched ass-walls.

"Ohhh, shit!" Suzette exclaimed, her face filling with ecstasy as she looked over at Lauren, who was reacting much the same way. "That DOES feel good in my ass!"

"Doesn't it?!" her friend answered. "I may never wanna take this thing out."

"Next set of moms...step right up," Tanya stated. Penny and two other mothers stepped over in front of the lucky boys, then bent over.

Kyle licked his lips as he stared at his Aunt Penny's big, lovely ass. He looked up for a moment to find her peering back anxiously. "About that 'kiss of trust,'" she whispered, referring to how Tanya had suggested kissing a woman's ass first. "Feel free to use a French kiss if you need to."

The boy took that as an invitation to lean over and lick on his Aunt Penny's anal rosebud. He felt it throb against his tongue as he lashed his lick on her rounded, rubbery ring for nearly half a minute. Then, he lubed his fingers and slipped them inside her ass-tunnel.

Cameron's heart pounded excitedly as he finger fucked the ass of the mom in front of him. He recognized her as one of the moms of the cheerleaders at school. He knew she was married, as were the other moms in the room, which only added to the thrill of what he was doing. He squeezed the butt-plug into her ass and watched as she wagged her fox tail at him teasingly.

"There's one more mom to help out," said Tanya, coming over in front of Kyle and leaning over. The boy gasped as he stared at her smooth shaved vulva. Tanya's butt looked like a big, juicy peach set atop her luscious tan legs. Kyle leaned over, shoving his face between her buns and lapping at her ass-ring. He gave it a sensual kiss before lubing up his fingers and penetrating her asshole. He loved the feel of a woman's hot, rectal tunnel clenching around his fingers, but finally he inserted her butt plug and watched her ass-ring seal closed around them neck of it.

Tanya stood and flashed him a smile, putting on her cute momma racoon ears as she felt the plug begin to vibrate exquisitely inside her ass-tunnel. "Shall we shake our new tails at these cute boys?" she asked the other moms.

The row of standing mothers wagged their meaty, naked behinds, making their cute, animal tails bounce and swing around playfully. Their eyes lingered on the boys' cocks. "You were right about the cock rings trapping the blood inside," stated Lauren. "The boys dicks are still as hard as they were inside the pumps."

"And the've turned a beautiful shade of pinkish-purple," Suzette noted, staring at her son's sturdy love-organ. She could see a fat bead of bubbling pre-cum forming on the slit of his meatus.

"They definitely look eager for action," Tanya stated. "One of the things women love about wearing a butt-plug is it allows them to experience double-penetration, without bringing another man into the bedroom. Boys,

when you fuck a girl who has a vibrating ass-plug inside of her, you'll be able to feel the same pulsations she is, while you're pumping your cock through her vagina. So, just like your cock ring, with its bullet vibrators, is made for the both of you, so also is a pulsating butt-plug."

"You mean...I could actually feel the vibrations in my mom's ass if I was inside her pussy?" Kyle asked.

"That's right, Kyle. That's why it's really a sex toy for both of you."

"Do we get to try them out now?" Cameron eagerly asked, making the moms laugh and look around at each other, as if considering the idea.

"Well, I really didn't intend for this to become a mother and son orgy, but if your moms are willing, and committed to buy the products I showed you, then why not."

"I'm buying one of everything!" Penny stated, her whole body tingling from the pulsating plug wedged inside her shitter.

"Me too!" said her sister, followed by a verbal commitment from all the other moms.

Tanya shrugged her shoulders, making her boobies jostle. "I'm ok with letting you test the product here as long as Kyle agrees squirt his load inside my unprotected womb," Tanya stated, looking over at her former student.

"Me?" asked the boy.

"Yes, you! Do you wanna cum inside your forth grade teacher's pussy, Kyle?"

Kyle looked over at his mom blushing as if to get her permission.

"Don't look at me, hunny. You're a man now," Suzette smiled. "You're free to cum inside whoever you want...even someone who used to be your fourth grade teacher."

"Alright," Kyle uttered, looking back at Tanya. "Deal."

"Excellent! You boys sit on the couch and switch on the two bullet vibrators attached to your cock rings," Tanya directed. "I'll turn on some music and we'll have some fun."

Kyle, Brent and Cameron took a seat on the sofa, evenly spaced apart. They reclined back so their huge slabs of super-erect cock meat rested back against their abdomens. They followed Tanya's instructions by switching on the vibrating bullets attached to their cock-rings.

"Whoa...that feel cool!" Cameron sighed. He especially enjoying the vibrator BUZZING against his cum-filled nuts.

Penny licked her lips lustfully, then looked over at her sister. "As greedy as I am...it wouldn't be right for me to soak a boy's cock before his mom did," she stated.

"I guess that means we're first then," Suzette grinned, looking over at Lauren and Brittany.

Lauren looked over at Brent sternly. "Not a word about this to anyone! If your father finds out that I let you fuck me, he'll kick us both out."

"Got it!" Brent answered.

"The same goes for you other boys," Suzette warned.

"We know, mom," her son replied.

They boys' cocks flexed on their loins as they each watched their naked, heavy-titted mother step towards them. Suzette straddled her teen, planting her knees astride his hips on the sofa. The other two moms did the same to their boys.

"Hold on a second," said the mother, the Kyle watched in fascination as she squeezed the two stainless steel Ben Wa balls out of her pussy. Kyle couldn't believe how soaking wet they were. "sorry, we definitely don't need those getting in our way," said Suzette.

It was the most surreal moment of Kyle's life as he watched his mom lift his cock, pointing it up toward her naked pubis. He gasped as she drug his

swollen, tapered tip along the slit of her cunt, wetting his glans with the slippery secretions that had seeped from her fuck-orifice.

Suzette couldn't believe how incredibly hard and thick her son's penis felt in her hand. She knew this was partly due to him just being a healthy, horny teenager, but also because she had pumped his cock to its bursting point with blood and caused it to remain in his boner with the use of cock rings that fit snugly to his hilt and around his balls. She slightly lowered her hips, letting his knob sink down into her labial fissure.

Kyle tensed up as he split his mom's twat with the tip of his cock and felt the warm fleshy heat envelop his swollen knob.

Brent couldn't see his mom's pussy like Kyle could, since she had a huge, round baby-orb resting right on his chest, but he could feel his bell tip being rubbed through the wet folds of her cunt. Finally, Lauren fit the throbbing crown into the socket of her vestibule. Brent tilted his hips beneath her and she sighed sharply as Lauren felt his huge, teenage fuck-muscle sink inside up into her eager pussy.

Cameron was already balls deep inside Brittany's cunt. Her flanges were mashed open around his cock-root and she pivoted her wide hips up and back, letting her vaginal tube adjust to the immense size of his prick.

Cameron's eyes were as big as golf balls as he stared at the humongous tits dangling inches from his face. "You were right," the boy said to Tanya. "I can feel the vibrating plug in my mom's ass."

"Me too!" Kyle added. Suzette's vagina was now fully sleeved around his tender cock, wetting it with the hot, lubricating juices that had seeped from her sex glands. Her corrugated walls clung to the pinkish-purple meat of her boy's prick using her pelvic floor muscles to squeeze on its rock-hard girth. Kyle's engorged knob was crushed against the rounded head of her cervix, stretching her uteri back as far as it could possibly go. The vibrator at the top of his shaft pressed up against his mom's hooded clitoris, immediately sending tingles down her spine. Like the two other moms, Suzette set her hips in motion and began bouncing on her son's love-organ.

"Good grief, these are big cocks!" Lauren exclaimed as she fucked her son in a steady rhythm, feeling his strong phallic spear carve stiffly through her birthing tube.

"It's been a lot of years since I've had a teenage dick inside me," Brittany panted, her stiff-nippled boobies jumping up and down. "I forgot just how hard they get."

"Goddamn!" Brent sighed, feeling the incredibly tight friction around his penile flesh. Increased blood flow to Lauren's genital region, in preparation for childbirth, had caused the pleats along her vaginal lining to engorge, creating ball-tingling sensations on her boy's erection as it pumped through her. Like his other two friends, Brent was treated to quite a show as his mom's milk-swollen tits bounced around on her chest while she fucked him.

The room filled with the lewd sounds of the three mothers' asses beating against their sons' upper thighs. Their cute, furry tails flew up down behind their rippling ass-meat as the moms fucked their sons' steely dicks with heated vigor.

Knowing what a tit-hound her son was, Suzette leaned down slightly while she skillfully fucked, letting her heavy jugs bobble softly all around her boy's face. She immediately felt the muscle and sinew in his cock tighten in response and her pussy walls stretched out even further around the outline of his bulging erectile tissue. Between the divine cock that was thundering through her pussy and the exquisite vibrations of the plug inside her asshole, it didn't take the mother long to achieve a powerful body-trembling climax.

"Auuugh, damn!" Kyle gasped, feeling his mom's vagina ripple tightly around his prick. Listening to her pretty voice cry out in climax was pretty damn thrilling for the teen. He experienced his first rush of hot female ejaculate cascading down the sides of his nuts. Paired with the pulsing vibration of the bullet below his balls, it was pleasure unlike the boy had ever experienced before.

Lauren and Brittany weren't far behind. When their orgasms crested, the living room became filled with the obscene screams of three, trembling middle-aged women, cumming on the cocks of boys half their age.

For several minutes the teens jabbed their meaty boners up into their writhing, whimpering moms. They enjoyed the warm, squishy softness of their tit-melons as they jostled heavily against them.

"I suppose you three want a turn now?" Lauren asked, looking back at Penny and the other two mothers.

"Whatever gave you that idea?" Penny sarcastically asked, standing there rubbing her clit shamelessly as she watched.

The boys dicks were soaking wet as they slipped out of the sheaths that had once birthed them, and slapped obscenely against their abdomens. The three other women quickly moved forward to have their turn. Their large, stiff-nippled breasts wobbled deliciously as they mounted their eager, horny boys.

Penny smiled lasciviously at her nephew as she grasped his rigid cock without hesitation and slipped it inside her cunt. They both let out a pleasurable gasp as their genitals joined in a snug, smoldering union.

"Damn!" Penny whimpered, feeling how completely packed her pussy was. She'd fucked more than her share of guys in her lifetime, but never anyone with Kyle's size and incredible rigidity.

"Are you ok?" Kyle whispered. His entire lower body was nearly swallowed up by the huge, round baby-orb of his sexy Aunt.

"Are you fucking kidding? I'm MORE than ok, sweet nephew!" she breathlessly replied. "And now I'm probably gonna shock you by what a complete cock-fucking slut I am!"

Penny's ass began to rise and fall as she rode the spike of Kyle's unyielding cock. She leaned down and locked lips with him, sandwiching her tits and baby-meat between them as she gave her nephew the wildest French kiss he'd ever experienced. "Squeeze my tits!" she gasped as they finally broke their smooch.

Kyle grasped on to his Aunt's giant bra-busters, sinking his fingers into their supple, fatty flesh. He clamped her rubbery nipples between his fingers, feeling her react by flexing her pelvic floor muscles. This caused the walls of her cunt to chew on his penile meat as she fucked him with greater intensity.

Next to him, Brent was being fucked by another local mother, as was Cameron. The womens' dripping cunts slipped exquisitely up and down their teenage cock-flesh, crushing their leaking knobs against their wombs with every thrust. The collection of vibrations by the sex toys only added to the divine sensations experienced by all.

Penny swiveled her hips skillfully, grinding their heated fuck organs together in full penetration. Having her pussy plowed by such a strong, sturdy cock-muscle like her nephew's made a juicy orgasm swell in her loins ten times faster that it would with her husband.

"Oh fuck! FUCK, FUCK, FUCK...I'M CUMMING!!" she cried out.
"CUUUMMMIIINNNGGGG!!"

Kyle felt the quivering tube of her pussy contract spastically around his throbbing cock. The friction on his knob and shaft was out of this world, but because he wore the double cock-ring, he was able to fuck for longer that he normally would without cumming.

Tanya crawled onto the couch next to them and Penny knew that was her cue to climb off and let the blonde-haired hostess have a turn. Kyle shared a quick, but passionate kiss with his Aunt before she moved to the side. "Mmm, who knew my cute nephew could be such an incredible fuck," she sighed.

The teenager's cock flopped from her cunt. It was glistening with frothy fuck juices; a combination of his mom's cum, his Aunt's cum and his own pre-ejaculate. Tanya was ready to add her cream to the mix as she mounted her former student's midsection and guided his penis into her overheated vagina.

"Oh, yes...pound that fucker up into meeee!" she cried out as she began riding his cock like a whore. Their wet crotches beat lewdly together as

they found a fervent rhythm, making Tanya's thirty-eight double-H cup breasts jump around wildly in front of the boy's ogling eyes.

They shared a lusty, almost sentimental gaze. Tanya knew she must have been quite the sex object to Kyle, when he was younger and she was his sexy teacher in her early twenties. Now, he was barely a man, and he could make all those wicked dreams come true by fucking her brains out.

"Come on, Kyle...show 'Mrs. Griffith' what you can do to her! Smash my tight pussy with that huge cock!" Tanya exclaimed.

The teen humped his ass from the couch cushion, meeting her downward thrusts with one's of his own. Holding Kyle's shoulders for support, Tanya grinded, wiggled and humped, guiding her tight, slippery pussy along the length of his up-thrust shaft. The pulsating bullet vibrator that rested along the top of Kyle's cock dug against her fat clit with her every downward lunge.

"Damn...you've really got a tight one!" Kyle panted, basking in the divine friction that Tanya's pussy-sleeve was providing for his cock.

"I do!" she breathlessly agreed, "and it loves teenage cock!"

The couch springs squeaked as the three couples fucked tirelessly. "Fuck me hard! Fuck me, fuck me, fuck meeee!" cried the pretty mother who was riding Brent's cock. She showed no shame at the fact that she had a loving husband at home. In fact, it made fucking a young, big dickd stud like Brent even more thrilling for her.

All three mothers' tits were leaping around wildly, slapping together every time they pumped their horny fuck-slits onto the root of the boys' cocks. Cameron moaned as load of jizz churned deep inside his balls. He started fucking the brunette beauty on top of him as hard as he could, savagely pounding his throbbing prick in and out of her clutching cunt. The two of them crested at once, their faces contorting with ecstasy as they shared a powerful mutual orgasm.

"Unnggghhh! I'm cumming now, Kyle!" Tanya cried out. "Oh, fuck, you're making me cum!"

Tanya pussy erupted with juices as she experienced the most tremendous orgasm she'd ever had. Her cunt-hole spewed out ejaculatory-juice as it pumped and contracted around the youth's pummeling cock. Kyle gasped as a powerful load of hot, creamy jism hosed from his piss-slit. "OH, FUCK, YESSS!" Tanya's voice quivered as she felt the boy's semen squirting heavily into her unprotected pussy, bathing the inner walls of her vagina with a furious tide of cum. Kyle didn't know this, but it was a wicked fantasy of hers to have a former student get her pregnant when they came of age. Wantonly, Tanya continued to hump on top of him, using the powerful cuntal contractions of her own orgasm to help Kyle spurt out every drop of hot semen she could.

"Does that thing ever go down?!" Suzette joked as she stared at her teen's cock, just after Tanya had climbed off of him. It was soaking wet and still enormously erect.

"Not hardly," her son answered.

"Your boner is looking awfully purple, hunny. Why don't we take the rings off of you, like Tanya suggested. Then, after a few minutes, we can pump you back up so you can fuck some more."

Meanwhile, next to Kyle, Brent was grunting and writhing as he ejaculated inside the quivering pussy of the mom that was tirelessly riding him.

Suzette and Penny helped remove Kyle's cock-ring. "Suck on our titties while you recover, hunny," Suzette whispered. The boy groaned in delight as his mom and Aunt brought the heavy, squishy weight of their warm mammaries down on his face.

The awe-stricken teen kissed his way around the melonous flesh of their tits, delighting in their spongy softness. He latched his mouth around his mom's hardened nipple, spreading his lips out along the fringe of her areola as he suctioned her tit-cap into his greedy mouth. Kyle felt their hands tenderly stroking his cock, keeping it rigid for another round of hot sex.

The boy moved his attention to his Aunt Penny's nipple, sucking it in and sinking his face up into the fatty meat of her pendulous breast. He knew

that soon her tits would be spurting out warm breast milk by the gallons, and he hoped she'll let him give them attention then too. After gorging himself on the peak of her tit for a few minutes he felt the cylinder of the penis-pump slip over his cock.

"Let's pump him up and let him fuck us doggy-style," Penny suggested to her sister.

"Ohhh, doggy-fucking! Do I get a turn too?" Tanya asked, watching them pump the boy's cock up.

"Since he just got a nice hard cum out of his system, he should have no problem fucking the shit out of all three of us," Kyle's mother stated.

Penny's grape-sized clit throbbed beneath its hood and her asshole clenched tightly around the vibrating plug inside her. "Fuck, this butt-plug feels amazing in my ass!" she expressed.

"And don't you just love the cute little tails that are attached to them?" Tanya smiled as she wagged her luscious ass, making her fox-tail sway back and forth.

"I do...although I think cougar tails would have been more appropriate," Penny replied, making them all laugh.

They wasted no time removing the cylinder from Kyle's 'fully enhanced' cock and placing his double cock-ring back on, trapping all of the engorged blood in his appendage. All three moms lowered onto all-fours on the floor, wagging their meaty bubble butts at the boy invitingly. "Come get you some tail, hunny," said Suzette.

Kyle didn't think twice, climbing down onto his knees and mounting his mom's haunches first. His huge cock was throbbing like an iron pipe, eager to once again feel the tube of a hot, tight pussy sheathing his flesh. Suzette gazed back with equal anticipation. "Slide your dick in and slam my butt back against you, baby!" she wantonly requested.

The teen grasped her lush hips, staring down at the fuzzy, rounded bunny-tail that was connected to the vibrating plug in his mom's ass. He grasped his cock at the base and rubbed its bulbous tip through her juicy cuntal

folds. His mom gasped as his knob scraped deliciously against her engorged clit. The boy's face winced in delight as his achy cock sunk inside her vaginal orifice. His hips set in motion and he started humping behind her, groaning with pleasure as he drove his giant cock deeper and deeper up the slippery, clinging tunnel of her pussy.

Suzette threw her ass back, anxious to feel every inch of his love-muscle inside of her. The mother's rounded butt-meat rippled as it slapped obscenely against the boy's groin again and again.

"Damn! You really do know how to stretch a pussy with that tool, don't you, hunny?!" the mother stated, slamming her ass back against him.

"Your pussy feels amazing, mom!" he panted, leaning his head out so he could watch her huge, dangling udders quiver and swing to the rhythm of his every thrust.

"Maybe we'll skip buying another sleeve and just let you use my horny cunt instead," she wickedly suggested.

"Fine by me!"

He punched his steely sex organ in as far as it could go and held it there for a moment in full penetration. His leaky crown was sunk into the mouth of his mom's puffy cervical ring. It felt like a set of wet lips pursed tightly around his bell-glans. Her pleated cuntal walls swathed his tender, pink shaft with spongy, smoldering heat. The sensational vibration that the plug was causing in the wall that separated Suzette's pussy and asshole, felt absolutely exquisite on Kyle's penile meat. The teen started thrusting again, his cock thundering through his mom's birthing tube like a battering ram.

"Fuck me fast and hard, hunny! I'm gonna cum!" his mother whimpered, clawing at the rug on the floor.

Kyle provided the type of thrusts that every woman dreams of receiving when they get fuck. She bucked, squealed and trembled in a mindless climax, soaking her boy's dick with fuck-oil once again.

"Make me cum now, sweet nephew!" requested his Aunt Penny, wagging her meaty derriere anxiously. Doggy-style was her referred way to have her husband fuck her, but she knew it would be a lot more intense with her nephew and his huge, raging cock.

Kyle pulled his dick from his mom's pussy and moved back behind his Aunt. He loved how she squealed as he squeezed his fleshy cock-pipe into her baby-chute. Her slippery secretions allowed him to immediately begin pumping his cock fluidly through her sex chamber. Her pink, ribbed walls clung to its meaty outline, feeling Kyle's flaring coronal ridge stimulate nearly every nerve ending within her experienced cunt.

"Holy fuck, you feel good!" Penny whimpered, beating the rounded globes of her ass back on the boy. Her Prenatal body was horny as fuck and she'd let him pound her all fucking night if she could.

"You feel pretty damn good too, Aunt Penny!" Kyle panted, feeling her hot, snug walls encapsulate his tender boner on every thrust, stimulating his glans.

Having gotten one orgasm out of his system earlier, and with the aid of the cock rings, Kyle was really able to fuck her pussy good and hard, making her finally cry out with orgasmic delight. He loved seeing his Aunt cum and doubted that his Uncle ever made her scream and tremble this way.

By this time, Brent and Cameron were also fucking their moms doggy-style. Tanya's entire living room was filled with the lewd sounds of panting mothers and wet, slapping flesh.

Kyle lifted Tanya's racoon-tail up out of the way and split her twat with his cock from behind. He began humping, and she thrust back in counterpoint, making their crotches collide repeatedly in a feverish doggy-fuck.

Suzette noticed her son watching his former teachers tits swing wildly off her chest. "Reach down and squeeze them while you fuck her, hunny. Women love that!" she urged.

Kyle lowered his chest onto Tanya's back, then reached down and cupped her large, dangling breasts. He loved how fat and rubbery her nipples were and gave them a good pinch with his fingers. It was difficult for him to

thrust this way, but that was OK. The experienced mother kept her hips moving, pumping her cunt on his satisfying stiffness.

Suzette moved to Tanya's side so her son could suck on her giant tits, while squeezing on those of his former teacher. "Mmm, that's it, baby...suck on those swollen teats," she cooed.

After gorging himself on the spongy peaks of his mother's tits for a few minutes, Kyle straightened upright and began to quicken the pace of his thrusts. The women could tell he was close to cumming.

"Blow your wad all over our tits this time, hunny," his mom requested.

"Ok...I'm close!" he gasped, his cock pumping rhythmically deep inside Tanya's buttery fuck tunnel. He simply loved watching that same butt he stared at when he was younger, slam back again him, making the meat of Tanya's ass quiver wonderfully. He clutched her hips with both hands and started pounding into her juicy pussy as fast as he could, ramming up to her womb with every fuck-stroke.

His former teacher could only endure this type of sex for so long before she cried out in orgasmic delight. Her hips bucked wildly to meet his fuck-thrusts, her ass jiggling deliciously as it bounced off the boy's upper thighs.

"Auggh, fuck...I'm cumming!!" the teen announced.

"Spray it on our tits!" shouted Penny.

Tanya quickly slipped her cuntal sleeve off the boy's prick, turning on her knees and pressing her oversized tits together, just like the other two women were doing.

Female ejaculate dripped from the boy's bobbing erection as he turned towards them, grasped his cock and began beating its throbbing length.

"Auugh, shit...here I cum!" he groaned, his face wincing with pleasure.

"Cum all over us, baby!" his mom encouraged, pressing her hands around the outsides of her king-sized tit-melons, creating a naughty target for her boy to paint with spunk.

Fat ropes of pearly-white semen erupted from the tip of Kyle's spear, splattering all over the three sets of giant mommy-tits in front of him. The women squealed in delight, feeling his slimy boy-goo run down into the canyon between their jugs. "Mmm, so hot n creamy!" said his Aunt Penny..

Meanwhile, in the background, it seemed as if both sets of moms and sons were cumming at once. Brent and Cameron's cunt-smothered cocks were quivering in delight as they each hosed out long jets of teenage jism into their mothers. The feel of Lauren and Brittany's tightly-contracting cunts, milking the shafts of their own sons was mind-blowing.

"Wow, what a sex toy party!" Penny sighed, still breathless from the thrill of being fucked so good. "Not only did we get new toys, but we got to try them out on some hot, young studs."

"And the fact that we purchased them means that we get to use them on these big-dicked cuties again and again," Suzette added, then gave her boy a wink.

"I'm down with that," said Lauren, hugging Brent tight so her boobs and pregnant belly were crushed against his lean chest.

"Mmm, me too!" Brittany chimed in, still bent over, with Cameron's twitching cock buried to the hilt inside her. She gave it a tender love-squeeze with her strong pussy-muscles.

Tanya's lips curled into a big smile. "Well, I may have to host these types of parties more often then."
