This disaster... came to Earth. One of its tasks was to test the first-generation experimental machine... this skin-transforming device.

The head is streamlined and sleek TG: @ansou0000000 It is easy to insert into the body. It looks like a mushroom but can shrink. It is a bit like the golden cudgel of 00000 Ai Xue's Journey to the West

If human beings really have a Creator, these two parts of their genitals must have been specially designed to be just right.
000000000000

Pull up...

Thinking about it this way, the 00000 skin remover only has the single item of testing skin change. I remember there should be a reverse recovery option

Do you still have memories of the time when you just came back from the skin recuperation? What did you do before being skinned?

TG: @ansou Yes, what did I do before? Hey, hey, why can't I remember clearly? I vaguely remember seeing a mysterious metal rod on the ground and then a flash of light.

So it can be studied and judged. Your memory before you turned into skin is basically unremarkable. But is there anything strange about your body now?

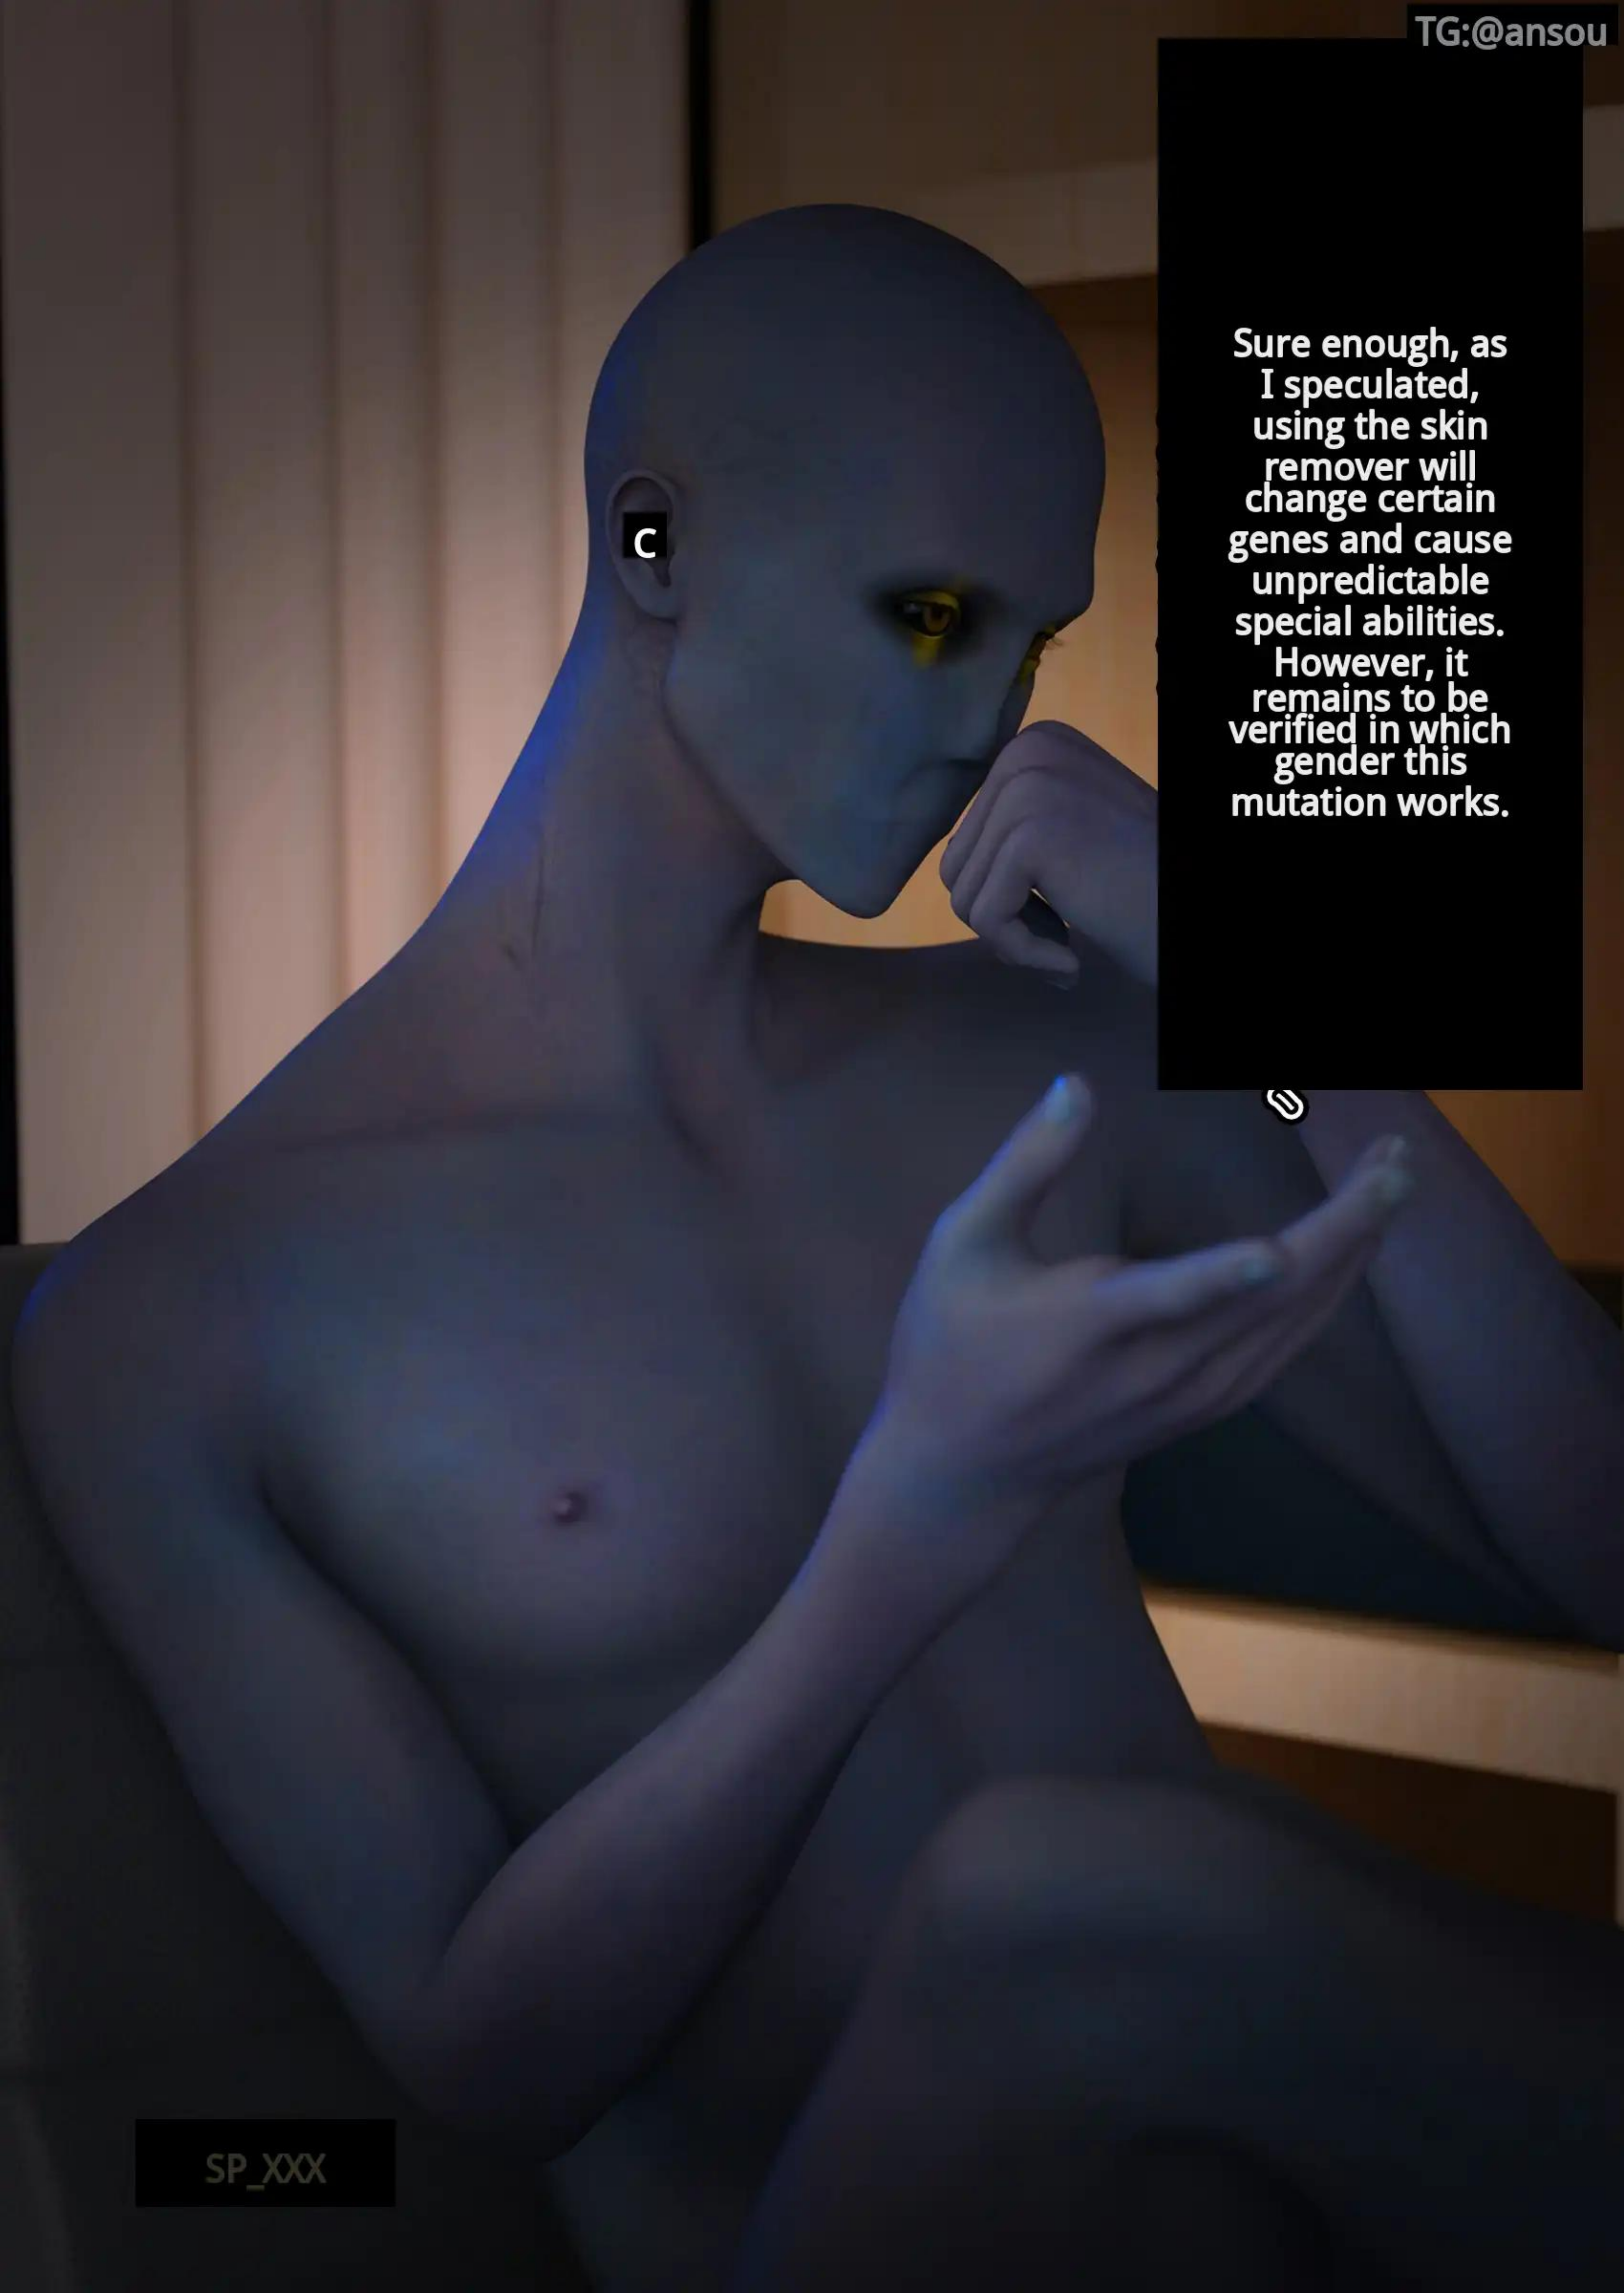

How come my...my...hands are glowing? Is there something wrong with my eyes? There's an electric current pulsing in my hands, and there's an energy flowing through my body.

It turns out that it really benefited me a lot. It seems that the metal rod called the skin-changing device is a rare treasure.

Can you help me test the performance of the skin remover? And record the secondary reaction after use

Can you lend me this skin remover for a while? So that I can take it with me to study and observe at any time. I also notice and record myself. Are there any other special functions in the body?

After entering teaching work. Every day is very busy. Scheduling courses, writing tutorials, marking scores, etc., the power of these two days never stops.

In order to squeeze into teaching in this university, I also studied hard when I was a student just to grab the limited quota.

Just living a busy life like this. I have gradually forgotten to manage my emotional life. Unknowingly, I got older too.

Of course, I haven't had sex for a long time. He always looks serious when working in school. Students all privately call me Da Ling Sheng (Saint Girl)

Phew~ The hair smells so good! Put your hand into Ozawa's head. A little moist and sticky with a smooth and tender feeling

Come on?
Let's take a
good look,
classmates.
First, open
the skin
from behind.

Yes..very good. In this way, insert the leather brace starting from the feet. Don't worry, it will get tight at first and it will be difficult to put on. Just be patient.

Wow~ It's really tight. One set of people is sucked tightly, very tight and obedient, and you can feel the body temperature of Teacher Xiaoyan

The skin clings to my cock. There is an indescribable sense of security

像穿连身工作裤一样◎

The next thing the students have to do is to put on both feet together.

(Ah} The lower body was slowly covered with skin. The slight friction RQ from the tight fit stimulated my glans.

It's like dancing a close-fitting pas de deux. My lower body is tightly attached to my partner's genitals while dancing and rubbing, increasing my hunger level.

Students...
please
wait
patiently.
At this
time,
the skin
will
shrink
and fit.
And
slowly
and
automatically
discharge
the air

SP_XXX

The students waited until the skin was almost shrunk before quickly putting it on their hands. I won't slow the operation at this step 0

Then
put
the
head
on

SP_XXX

Then
remove
the skin
from the
back of the
neck. Make
it as big as
possible.
This will
make it
easier for
the head
to enter

When the teacher Xiaoyan's face was put on, it was wet, smooth and soft against my face. From top to bottom, it felt like I was kissing the teacher face to face.

Then
adjust
the
position
twice
and
you
can
release
your
hand.

Awesome,
