

www.lhart.com

"You mean I could be as muscular as I want, and then, even more? And more still?"

"It's the principle of muscle growth, sweetie.."

"Awesome! Let's go! What are we waiting for?"

"Good, so if you're ready ... here we go!"

Musculina then stood in front of Cindy, and a burst of blinding light spurted out of her and her magic wand, covering the young girl, who seemed to enjoy it ...

"Wow! What an extraordinary sensation! I feel so good!"

Immediately after, she felt the first effects of the ray of light...

Cind' was overwhelmed with a feeling totally new, intoxicating and... exciting!

She began to moan with pleasure:

"My God, it is incredible... It works! My muscles are growing! I feel my clothes shrinking! I feel alive for the first time in my life! And this is only the beginning! I want to explode with muscular power!"

Indeed, the small teen body of Cind' now resembled that of a champion fitness competitor... It was quite strange to see a young girl's face on such a firm and toned body!

And that was only the beginning!

When her muscles really started to grow, Cind' flexed her biceps... For the first time in her life, she could see a muscle swell when she bent her arm! She loved it! Hard, ripped, big... her biceps fascinated her! She was a woman! And what a woman!

"Cool! My muscles are almost as big as those of a beginner body-builder!"

Soon, it was not true anymore: her muscles were much bigger than those of a novice!

With surprising ease, she began to make some poses to highlight her incredible physique...

"I practised for hours in front of the mirror to make these poses for the day I will be up on stage... but I have never done them with such pleasure! Look at my arms, Musculina! They are huge! And my pecs! They look so big! So firm!"

While she flexed her new muscles, she began to hear her clothes rip off...

"I'm beginning to feel cramped in my clothes ... My cute little girly t-shirt can no longer contain my huge muscles... My God! My arm is so big! I want to see what my massive chest looks like! "

Cindy then raised her arm, and in a quick and sharp movement, she flexed it... The mountain of muscles formed by her biceps and her triceps literally exploded through the fabric like if it was tissue... In a loud tearing, the t-shirt's sleeve disappeared to give way to monstrous muscles, absolutely against nature on the body of a 12 years old girl...

Their size was impressive: the flesh freshly emerged foreshadowed an arm that would have shamed a female bodybuilding champion... Although bigger than that of Colette Guimond or Tina Locwood... It was closer to that of a male bodybuilder!

Cindy seemed to enjoy the situation tremendously...

"Yes! I've always dreamed to do that! Like the Hulk! A big, sexy monster who explodes out of her clothes!"

www.lhart.com

Cindy was now almost bare... Only a few pieces of fabric had survived the explosion of muscles caused by the teen... The little skirt had not resisted either, facing the onslaught of the girl's huge muscular thighs... It was almost indecent to see a little girl like her this muscular and half naked!

However, this did not seem to bother Cindy. On the contrary, she was jubilant with pleasure... She kept stroking her new muscles .. She was in ecstasy in over of her newly muscular body...

"Mmm... It's soooo good... How could I live without knowing this delicious shiver? This fantastic feeling of power? Look at the size of my thighs! They look like tree trunks! "

As she said, she wildly shook her disproportionate legs, causing each time a wave of muscles who submerged her with joy...

www.lhart.com

She held out her arms before her, and began to bounce her delicious pecs... She had waited for so long to do this she was almost crying with pleasure!

"I never thought things could be this good... I've never had any breasts, but now I discover the joy of having chest! "

She was mesmerized by the spectacle of these huge balls of muscle that danced madly under her eyes...

Yet this did not prevent Cindy from continuing to grow her muscles! The few shreds of surviving fabric would soon give up the ghost... They tore visibly! She looked like a Mr. Olympia who was dressed in the clothes of an 8 years old girl!

The sexy little freak then slowly raised her arms which were outrageously muscular even for a man, and looked at her divine chest in wonder... Through the torn fabric, you could almost see her entire torso... What a shock! Where you should find a cute girl's chest, were monstrous pecs, veiny, puffy, male... It was hard to believe it was the chest of a girl! Cindy was speechless... A nipple made its appearance, when a final piece of cloth cracked tore open, confirming the complete lack of breasts or female form on this phenomenal torso: nothing that you could see recalled the sweet curves of a woman or a girl ...

Cindy took a deep breath and said:

"I think it's time to blow off the remains of this unfortunate t-shirt and that poor skirt!"

www.jhart.com

With a sweeping but quick gesture, she brought her arms back up before her, and flexed every muscle in her body... The poor remaining pieces of fabric were obliterated with a massive tearing sound... At this moment, Cindy no longer resembled anything like the little innocent girl that she was barely a few hours ago! She looked like an experiment that has gone wrong: a cute girl's face, on the top of a monstrous body, devilishly masculine, morbidly muscular... It should have been scary, but instead, she was even more sexy!

Of all the poses performed on stage, the crab pose was her favorite... With this position, the muscles seem to spring from everywhere and explode! So with this new body that was so monstrous, Cindy took great pleasure in bringing out the beast that was in her: the muscles did not stop growing or hardening as she flexed them! Her thirst for muscle seemed limitless!

The cute little panties and the sweet face of Cindy were the only things who recalled that the error of nature we had before us was a little girl of 12 years:

Once almost completely naked, Cindy's body was neither more nor less than a monstrously muscled man's body... No bodybuilder could have competed with her at that moment! She would have outmuscled them all! Even her movements had become those of a man, made heavier and more ponderous by the abnormal size of her muscles... She moved slowly, discovering a new way to move... Unable to jump and run as before with a body like that! Each step, each breath revealed an ocean of masculinity, totally incongruous on a girl aged 12...

"My God! I'm so big that I can barely walk! My thighs are constantly touching each other! And my triceps! Even at rest, they are huge! Incredible! I feel like someone else!"

And this was the case, as she went with difficulty over to the mirror, and when she looked at her reflection, she had to admit the obvious: what she had before her eyes was no longer the teen she was this morning...

Actually, Cindy's first impression, uncovering herself in the mirror was a feeling of revulsion and horror: how could such a thing exist? How could a cute little girl like her could end up with a body like this one, so huge and masculine?

www.ihart.com

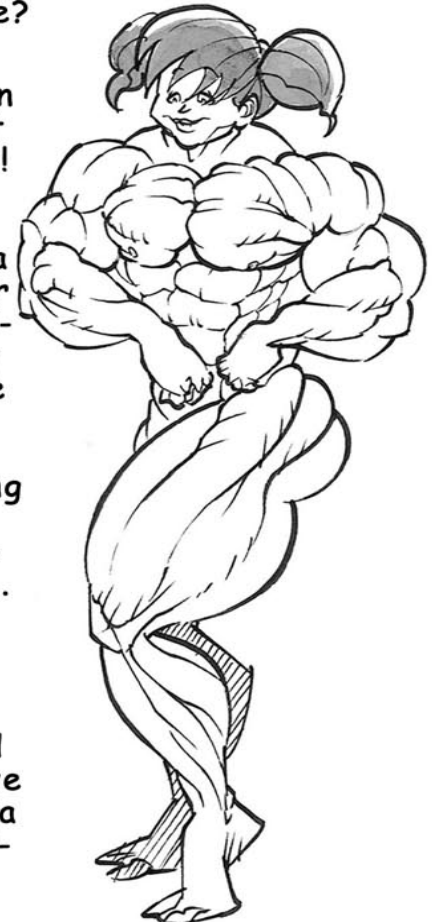

She wondered for a second if she had not going too far in her quest of muscle: she, who had wanted to be the most muscular woman in the world, now had the body of a man! But finally, this is precisely what seduced her...

So this feeling of disgust quickly gave way to pride and a genuine love of what she had before her: she would never have imagined being so sexy! The complete lack of femininity in this phenomenal body, loaded with muscles, manly and unnatural, made her incredibly alluring and seductive

She flexed her pecs, gently then quickly, with great pleasure... They were so big and so heavy that were making knocking noise, like if we were to hit two soccer balls against each other! Each wave of manly muscles contracting, huge and hard, gave her a happiness without name ...

The small head, on top of the most masculine body that could exist, smiled:

"Can you see? Look at me! I am monstrous! No woman and no man is more muscular than me! And I'm only 12! I'd love to show this body to everyone! Colette Guimond and Marja Lehtonen, crushed! Aleesha Young and Maria Calo, forgotten! Renee Toney and Andrulla Blanchette, out of here! Here is Cindy, the new Goddess of muscle! Able to beat even Mr. Olympia! "

Cindy began to fully realize the incredible sensuality that radiated from her body that was an error of genetics... Despite the incredible virility that emanated from each of her movements, the young girl could not be more sexy... Her monstrous muscles made her absolutely irresistible!

She slowly put her hand behind her neck, to better admire her extraordinary abs... Her head then seemed to disappear behind her biceps and pecs... Lost amidst this sea of muscles, her delicate face made her look like a phenomenon Fair... You could not imagine that this frightening creature was a little girl!

She raised the brawny barrel that used to be her thigh and flexed abs violently... The sound produced by the rubbing sounded like the rubbing of a finger on a balloon... And Cindy almost died upon hearing that noise!

"Unbelievable... They are so hard! So big!"

www.lhart.com

Musculina then spoke:

"Well? Are you satisfied? Now here you are as you have always dreamed! Muscular to death! "

Cindy turned to her, by contracting the arm and pointing to her biceps:

"Are you kidding? Are these those small things what you call muscles? I am far from finished growing, believe me!"

The wonderful and beautiful she-male stood up, confident, and her muscles, already huge, resumed their growth... It was amazing to see this body, already more muscular than it was possible to imagine, become bigger again... While her muscles pumped up, Cindy moaned louder... It was as if she was making love for the first time! Of course, she was unable to make the comparison. For her it was just a new, incredible pleasure, which tied her stomach in knots, and made her mad with desire!

While continuing her astonishing growth, Cind' started her poses once again. It was increasingly difficult for her to move, as her muscles far exceeded the limits imposed by the human body. And the more the movements became difficult, the more she smiled!

"Look at me, she said while she flexed her pecs again, have you ever seen anything so fabulous? I will never understand women who get fake breasts... When a chest like this is so sexy!"

Yet, it was difficult to match up her words with what she called a "chest": what she admired so much was nothing less than an aberration, a sickening nightmare straight out of a sick mind...

How dared she call these two monstrous, muscular, shredded, cut to death balls, a "chest"? They looked more like a battlefield, covered with veiny trenches, bloated, nightmarish... A vision that could haunt a persons mind for years! Only tiny nipples, straight, tight, almost erect, lost amidst this massacre, indicated that we were dealing with a human being... And God, that was so exciting!

Cindy continued her fantastic journey to muscular atrocity, her muscles would now have sickened any bodybuilding champion, doped to death...

She then assumed the biceps cage pose, so dear to her as a classic pose performed on stage... But never any of her past idols, nor man could have imagined that this pose would be with muscles the size of Cindy's! The mountain formed by her towering biceps would have nauseated any member of a jury of a male bodybuilding competition, however accustomed to seeing all of those animals on steroids!

The girl, however, seemed quite at ease when looking at her arm swelling visibly... And so happy!

"More! I want more! I'm not big enough!"

www.jhart.com

Musculina was stunned by what she saw: the vision of this frail young girl becoming this hunk was absolutely surreal!

"My God! I never saw so much desire and lust for big muscles!"

But Cindy was not listening: she was becoming hypnotized by the increasing swelling of her muscles... Nothing seemed to be able to stop it!

www.lhart.com

Her eyes shone with a strange brightness, almost a glimmer of madness, frightening: nothing seemed more important to her than the size of her muscles! Totally obsessed with her biceps, which she never ceased to flex, the one who used to be a little girl didn't realize the horror she had become, at least for most people: for them it was probably impossible to watch her without nausea, without vomiting or without crying! Nothing could have prepared their minds for such a nightmare! I must say she was no more like a human being, she was much more than that! Her deformed muscles made her ... irresistible! The unthinkable combination of youthful freshness, female charm and monstrous virility made her so sexy! Despite the appalling and staggering lack of feminine features on this grotesque body, it was impossible to doubt that she was a woman!

Any kind of movement was almost impossible now, she almost didn't move, simply watching herself growing, by flexing her muscles... The sound of their friction increased with each breath, the thin skin covering them seemed about to tear at any second... Never a human body reached such limits!

The superhuman creature who continually grew sweated manhood through every pore of her skin, the gushing effluvia of manliness was almost palpable...

When she looked again into the mirror, Little Cindy didn't recognize herself, even her cute face of innocent little girl was different: her look was that of a woman, hard, determined, attractive and confident in her powers of seduction ... No one could resist her!

With a step made slow by the size of her thighs, Cind' began a new series of poses... She put her tiny hands on her abnormally large hips, and contracted every muscle in her body: a wave of power sprang instantly to each of these monstrous muscles!

The spread of her back was enough to make even the most insane fan of muscular women crazy: nothing could exceed the thickness of this back, too muscular for a girl her age! The atrocious drought of her body, where the smallest trace of fat had vanished long ago, was almost frightening: how a human body could look like such a horror?

The most surprising thing was probably to see a little girl's panties lost in this tumult of muscles... The hurricane of masculinity caused by the avalanche of misshapen muscles simply swallowed up this tiny piece of fabric, lost between two massive thighs and wonderful abs... This spectacle, which might be disgusting, was actually very exciting!

Actually, Cindy was at this moment the sexiest woman in the world! The total disappearance of feminine features was the best thing that could happen to her! This overly male torso made it useless and absurd to wear a bra! How could such huge pecs, dug, cut to death, swollen, ready to explode, could claim to be a woman's breasts? The presence of the panties was enough to remind us that we were dealing with a woman! There was no need for more...

to be continued...
