Wow!
She is huge!

Do you think that will do for your advertisement plans?
I don't know, Your Majesty. I feel like something is missing.
Yeah.
It needs something that screams car-wash...

Well then, I wish it was more "carwashy".

Giant Nell Doll adapts her pose, pointing towards the car wash station, and a real-sized car appears in her hand!

Hurray!
Glad I could help out two lovely ladies in need.
Thank you, my liege!
With this, our car-wash enterprise will surely flourish!

Attracted by the huge statue of a woman in a bikini holding a real car hundreds of people flocked to the car wash station in the coming days and it turned into a worldwide known tourist attraction!
It was high time fairy land got a huge Landmark anyway! *chuckle*

To be continued

Hello, Hexxet here.

A small step for Erik, but a huge step for Car-Wash! Again King Erik, makes fairyland a more… interesting place! ^^

Next chapter we will finish the Sex-Romp Bonus Arc by revisiting a certain coffee shop that serves the **breast** milk in town!

Hello, Sir! Are you here for a car wash? If you are on foot we can just wash our car!
Hey, girls! Long time no see.
Shut up, sis!

What?
Eh!! Again?!
That's the fairy king!
I told you this car-wash-gig would get us far!

The GPS signal leads here...
At about the same time another "tourist" is cruising through town. But she is not here to enjoy the sights of town... She is looking for something... or rather someone.

Abruptly the woman hits the breakes, bringing her fancy sports car to a hold.

Alright!
I found the car. First step's done...

But where are those two...

I hope they did not sell the car off...

Let's ask around. Those floozies look like they belong with the gas station
Maybe they have seen them...

Mrs. Jackson, we've been worried sick for you.
When you did not return from your vacation I was sent out to track you down.
She's like from HR. You know, from my last work.

Collaboration Notice

This comic is a collaboration between **3D-Swede** and myself. I‘ve commissioned 3D-Swede to create the renders for this comic, while I‘ve provided the script and added the text. I‘ve also bought the rights to sell the finished piece from 3D-Swede. Note that the base idea for the script was derived from my Patrons who could put options to vote and the most voted options were turned into this script.

If you want to know more about 3D-Swede, have a look at his Deviant Art Page. He has already created a lovely story about mannequins that is over 300 pages long and I‘m looking forward to anything new he might create in the future:

What are you doing out here, Mrs. Jackson.
Your company needs you!
Big decisions are to be made.
The Charlson deal needs signing.
And the Valon Project came in. It's a billion-dollar deal!!
I don't like her.
Don't worry, sis. No one does.

Are you Mrs Jackson's daughter?
We are sisters now!
This guy helped us embrace our new lives!
We are building a car wash business here!
My liege. I'm very sorry for this delay of our service.
She's my underling from a previous life.
If there was a way for you to shut her up, It'd be very appreciated.

Mrs Jackson. I have to insist you come with me.
What's this idiot to do with all of this!?
How dare you!
I can see why nobody likes her.
Did she really just call the fairy king an idiot?!

Car Wash Mascot

After his adventures in the local park, King Erik continues his stroll around town and it so happens that he walks by the local gas station where our two car wash girls are looking for customers!

Cast of Characters:

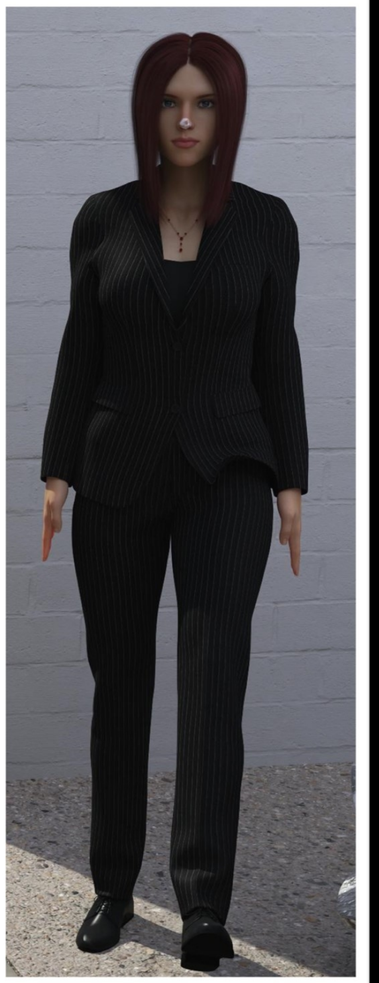

Erik … **The Fairy King**

Car Wash Girls… The mother and sister (previously tourists) who were turned into more like sister-elf girls working at the gas station – washing cars – and loving it!

You sure about this?
Yup. The car wash business is not going so well...
That way the stupid cunt can finally be of some use to me.
And we don't think we are qualified to look after a human pet.

Alright... Girl! Get in front of the car.

I can't wait to see her change!
This should be fun!
Yes, Master!

Under the watchful eyes of our two car wash girls and King Erik, Nell moves in a very robotic fashion until she stands in front of the car...

You ready girls?

Do it!
