Go straight ahead from the second aisle...for the fourth cabinet, go over there and look again.

Okay, okay, I'm looking for the fourth cabinet myself and walked over." Wow, it turns out that the female librarians are all reading nerds and have no warmth in their speech.

That's right? If you can't find it, ask me again. I'll take you there again. This man has an uncomfortable and disgusting feeling. I hope he doesn't cause trouble here. I have to keep an eye on him.

Okay: Thank

Sure enough, I can't do it without staring at him. This guy in a suit dares to flirt with me on my mother's territory.

In the past, I was so busy with experiments in the laboratory that I watched my senior sister from a distance and had no time to spare to chat. However, up close, the senior sister was indeed flawless and looked like a fairy descending from the earth.

What happened to this gentleman? Can't find the bookcase in the quantum area? I think you're just a pervert

I'm a special assistant at Weiss Pharmaceuticals. This lady is my senior in my former research lab. I happened to meet her here and say hello.

Okay, I understand the rules of the library. It's just that I haven't seen my senior sister for a long time. Is she too excited? So I just went up to chat. That's it. I'll look for books first.

I'm really sorry.

After the lower body is completely put into the leather, the long and delicate fingers of the upper hand gradually overlap with my fingers.

It feels like my fingers are tightly intertwined with this young lady. I feel extremely excited today.

waves of
