The touch of Yinghuhuhu's stockings sometimes feels rough and sometimes delicate, when the tips of my toes brush across my foreskin. A burst of electricity flashed through my scrotum

What about this? Use the soles of your feet and use your flexible toes to move back and forth. The edge of your hard electric head rubs. How do you feel?

The left and right feet interact like this. What will happen if you stir your big cock? Actually I'm very curious today

SP_XXX

TG:@ansou

It's really strange. Playing with the cock with my feet like this, Q's body's vagina becomes itchy. I really want to poke and rub it with something

SP_XXX

The human female body is so mysterious. Every orgasm will be different. People are deeply fascinated by the feeling of being penetrated

A woman with long, dark, wavy hair is shown from the waist up, shirtless, in a gym environment. She is looking down and slightly to her left. A speech bubble in the top right corner contains text about dizziness. In the bottom left, there is a label 'SP_XXX' and a Telegram handle 'TG:@ansou'.

Dizziness
spreads
throughout
the body.
Suddenly
my hands
and feet
became
weak. I just
want to
rest for a
while

body was
numb. Even
though I

can't

SP-XXX

I have no
choice. I
didn't think
so much on
impulse.
Now I
express my
hope that
she can still
recover.
This is part
of the
experiment
and can be
regarded as
a bet.

SP_XXX

I'm right here, watching you put on your skin. If anything happens, I can deal with it directly.

The best thing is having you by my side. If something really happens, I'd better have someone to take care of me.

SP_XXX

Put it
on
quickly
in case
something
unexpected
happens.
Or it
would
be bad
if
someone
breaks
in
suddenly.

SP_LXXX

Well,
it's time
to leave.
Just put it
on
quickly.

SP_XXX

Once it was
inserted
into the
legs, it was
covered
with
Sihan's
skin. Slowly

the

Still very

SP_XXX

Although it is tightly wrapped, you still need to use your hands to fine-tune it.

SP_XXX

Once
the
feet

hands.

But you

probably

SP_XXX

Use your
gloved
hands. After
the final
fine-tuning
of the face,
there is no
abnormality
so far.

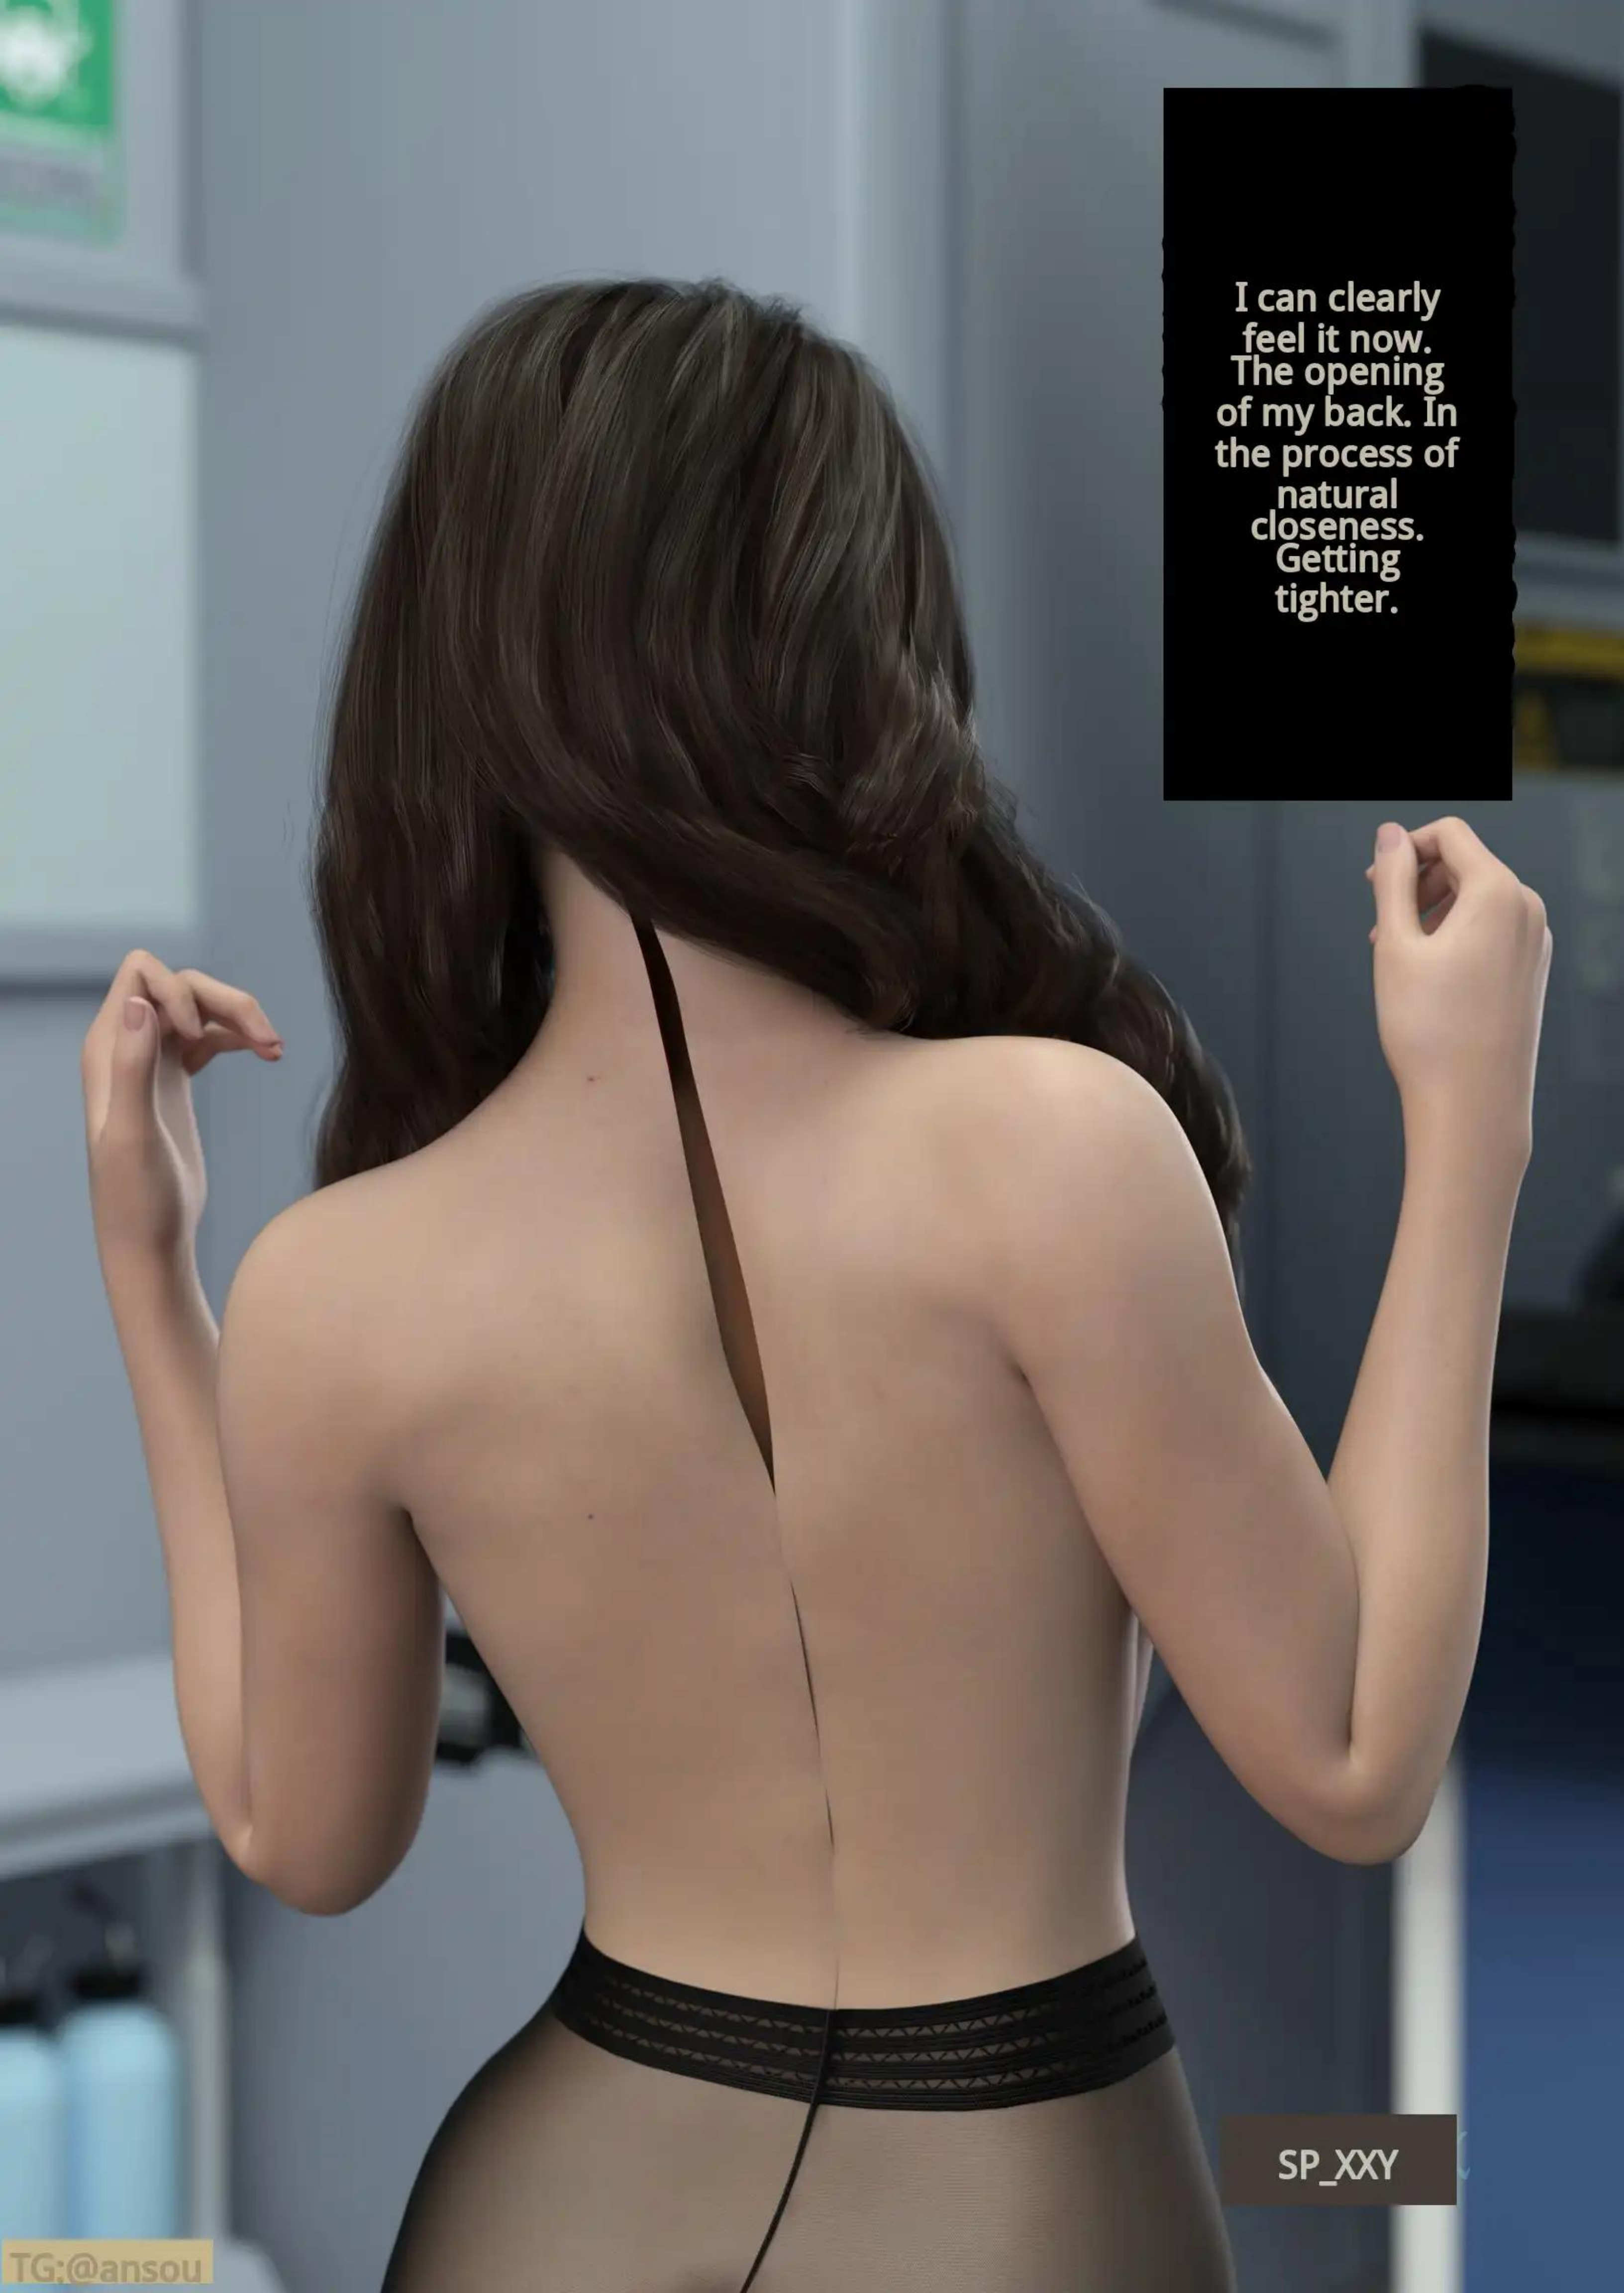

SP_XXX

That would
be great for
me to use
in my
research
journal.
Write down
that the
face can
recover
normally
after being
separated
from the
body

SP_XXX

I can clearly
feel it now.
The opening
of my back. In
the process of
natural
closeness.
Getting
tighter.

SP_XXY

Although
the head
and face
adsorption
has been
adjusted.
As the
back
tightens.
Suddenly
I feel so
tight that
I feel
dizzy.

SP_XXX
