The men carefully approached the center of the room, where the colossal legs of the women looked like the columns of a building.

*We are ready,
Monica. You
can activate
the video.*

Yes, of course...

CLICK

Instead of a video, a very realistic hologram of Dr. Arroway appeared before the group, and everyone listened carefully to what Monica and Leonard had previously heard.

PANT

Fucking Feminist!
Screw you!

You're not going to
get away with this,
I'll kill you!

RUUUN

PUNCH

*Take this!
Damn you!*

*Mr. Bellick, please
calm down, it's just a
hologram. Dr. Arroway
is on Earth and we
can't do anything..*

Ouch!

TUMP

*Damn it! What
the Fuck is this!?
Sooner or later I'll
get you, Arroway!*

SWOOOM

SWOOOM

What the hell!?

Ahhhhh!
What's going on
here? I'm Floating!

Woow!

Arroway! You are huge! How can that be possible!?

Colonel Bellick,
I remind you that
you accepted and
signed contracts For
this mission, please
try not to ruin it...

FLOOR 76

Excuse... Excuse me,
Dr. Arroway, how is it
possible that you
are speaking to us?

*What you saw before
was a hologram recorded
in the AI of the ship; what
you are seeing now is a
hard hologram or a live
broadcast from Earth,
and this is my new size.
With this I just want to
show you that I'm
following the mission
closely...*

Argh!

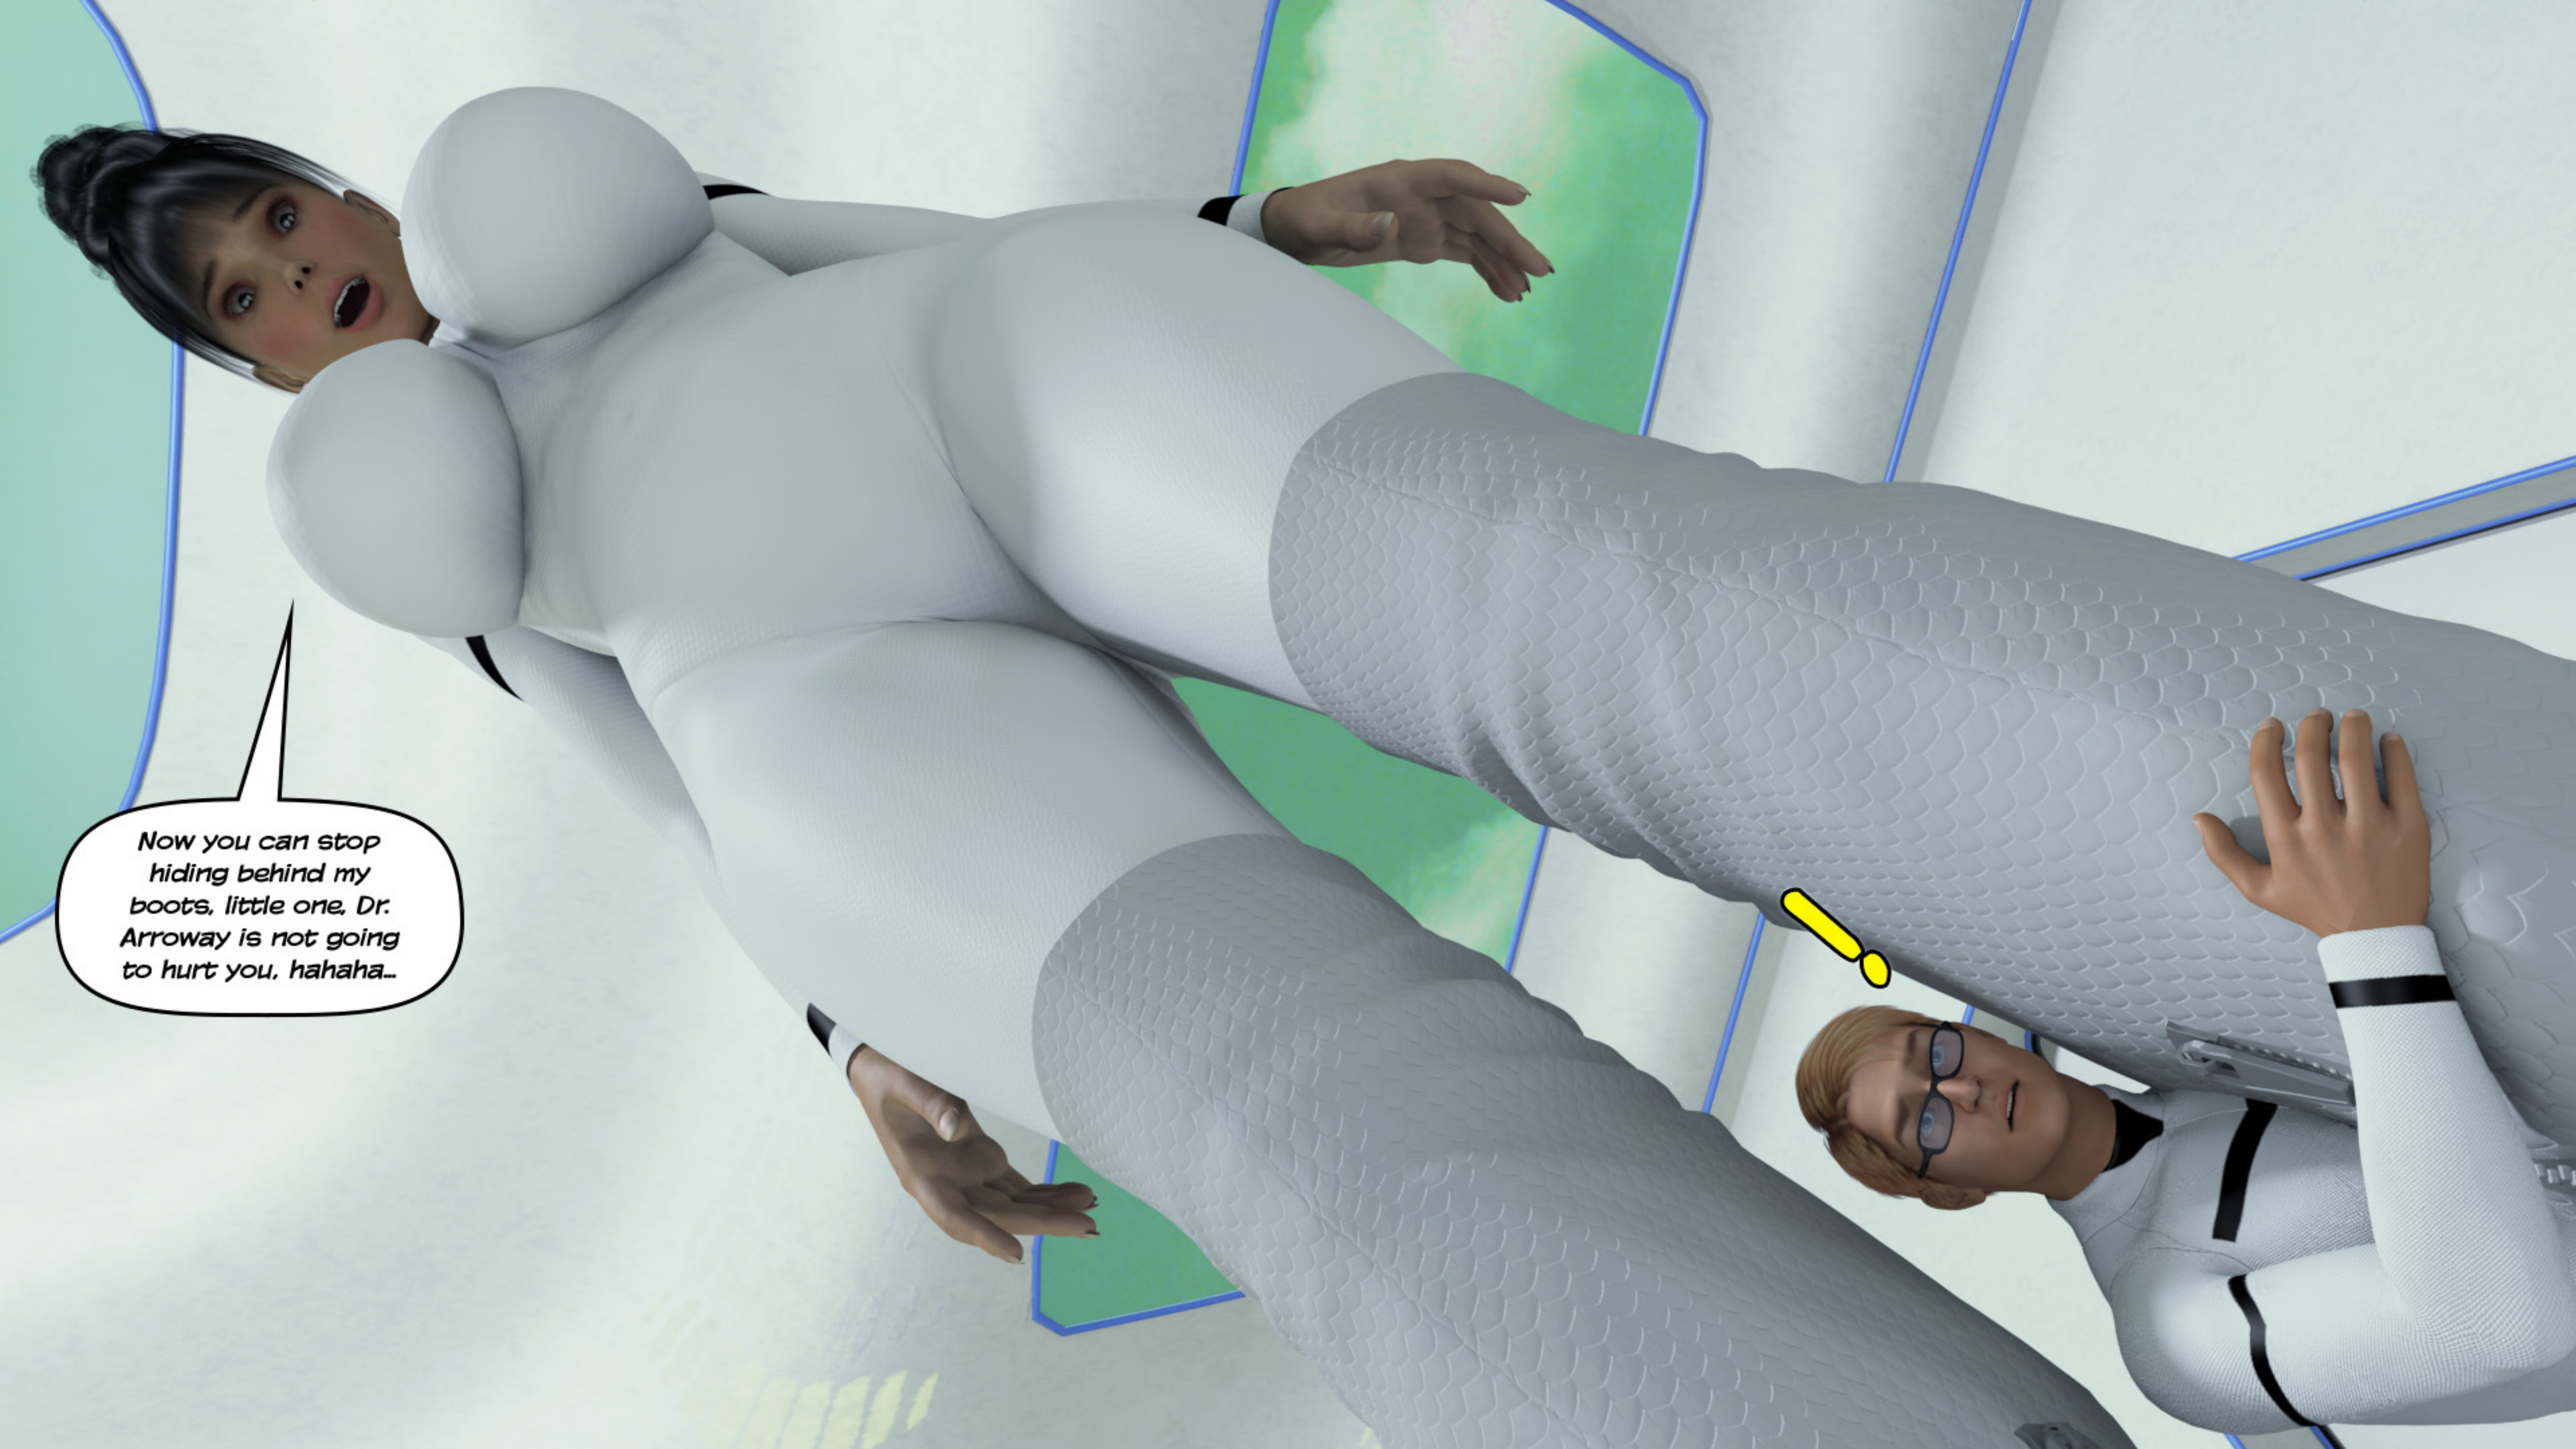

TUMP

I hope you will
behave properly and
don't try anything
Foolish, Colonel
Bellick. We will be in
contact. End of
transmission...

Wooow!

Now you can stop
hiding behind my
boots, little one, Dr.
Arrowway is not going
to hurt you. hahaha...

Uh... I, I'm...
I'm sorry...

Bellick was Furious, he could not bear this new reality, and he Felt humiliated by the enormous women; he had to Find a solution to be able to make life on the new planet bearable...

*Listen up, little girls...
This doesn't change
anything! The hierarchical
order of the mission
continues as planned.
I have the highest military
rank and I'm the highest
authority here!*

DD-FE FLOOR 76

Colonel Bellick's rant surprised the five colossal women who looked at him as if he were the grumpy smurf. Before the aggressive reaction of the officer, all were silent, except for Elena, who giggled, observing what for her was a harmless tantrum of a tiny man.

*You are Sgt.
Sonia Wilson,
aren't you?*

PAFF

PAFFFF

Oh!

Y... Yes sir...
Sergeant Sonia
Wilson of the 172nd
American Space
Corps at your
service.

Very well, blonde...
Good girl. You will
transmit my
orders to the rest
of the women.

Yes sir.

HAHAHAHA!!!!

What the Fuck do you
Find so Funny, girl?

YOU look Funny to me... you are just a bossy dwarf who tries to impose himself in Front of the new owners of Neweden...

SLEEPINGROOM

What did
you say...?

BOOM

!

Elena took a step toward him, evidencing that her knees were well above the colonel's small head. There was a brief, tense silence as they both looked at each other. Bellick was visibly nervous, his hands trembling.

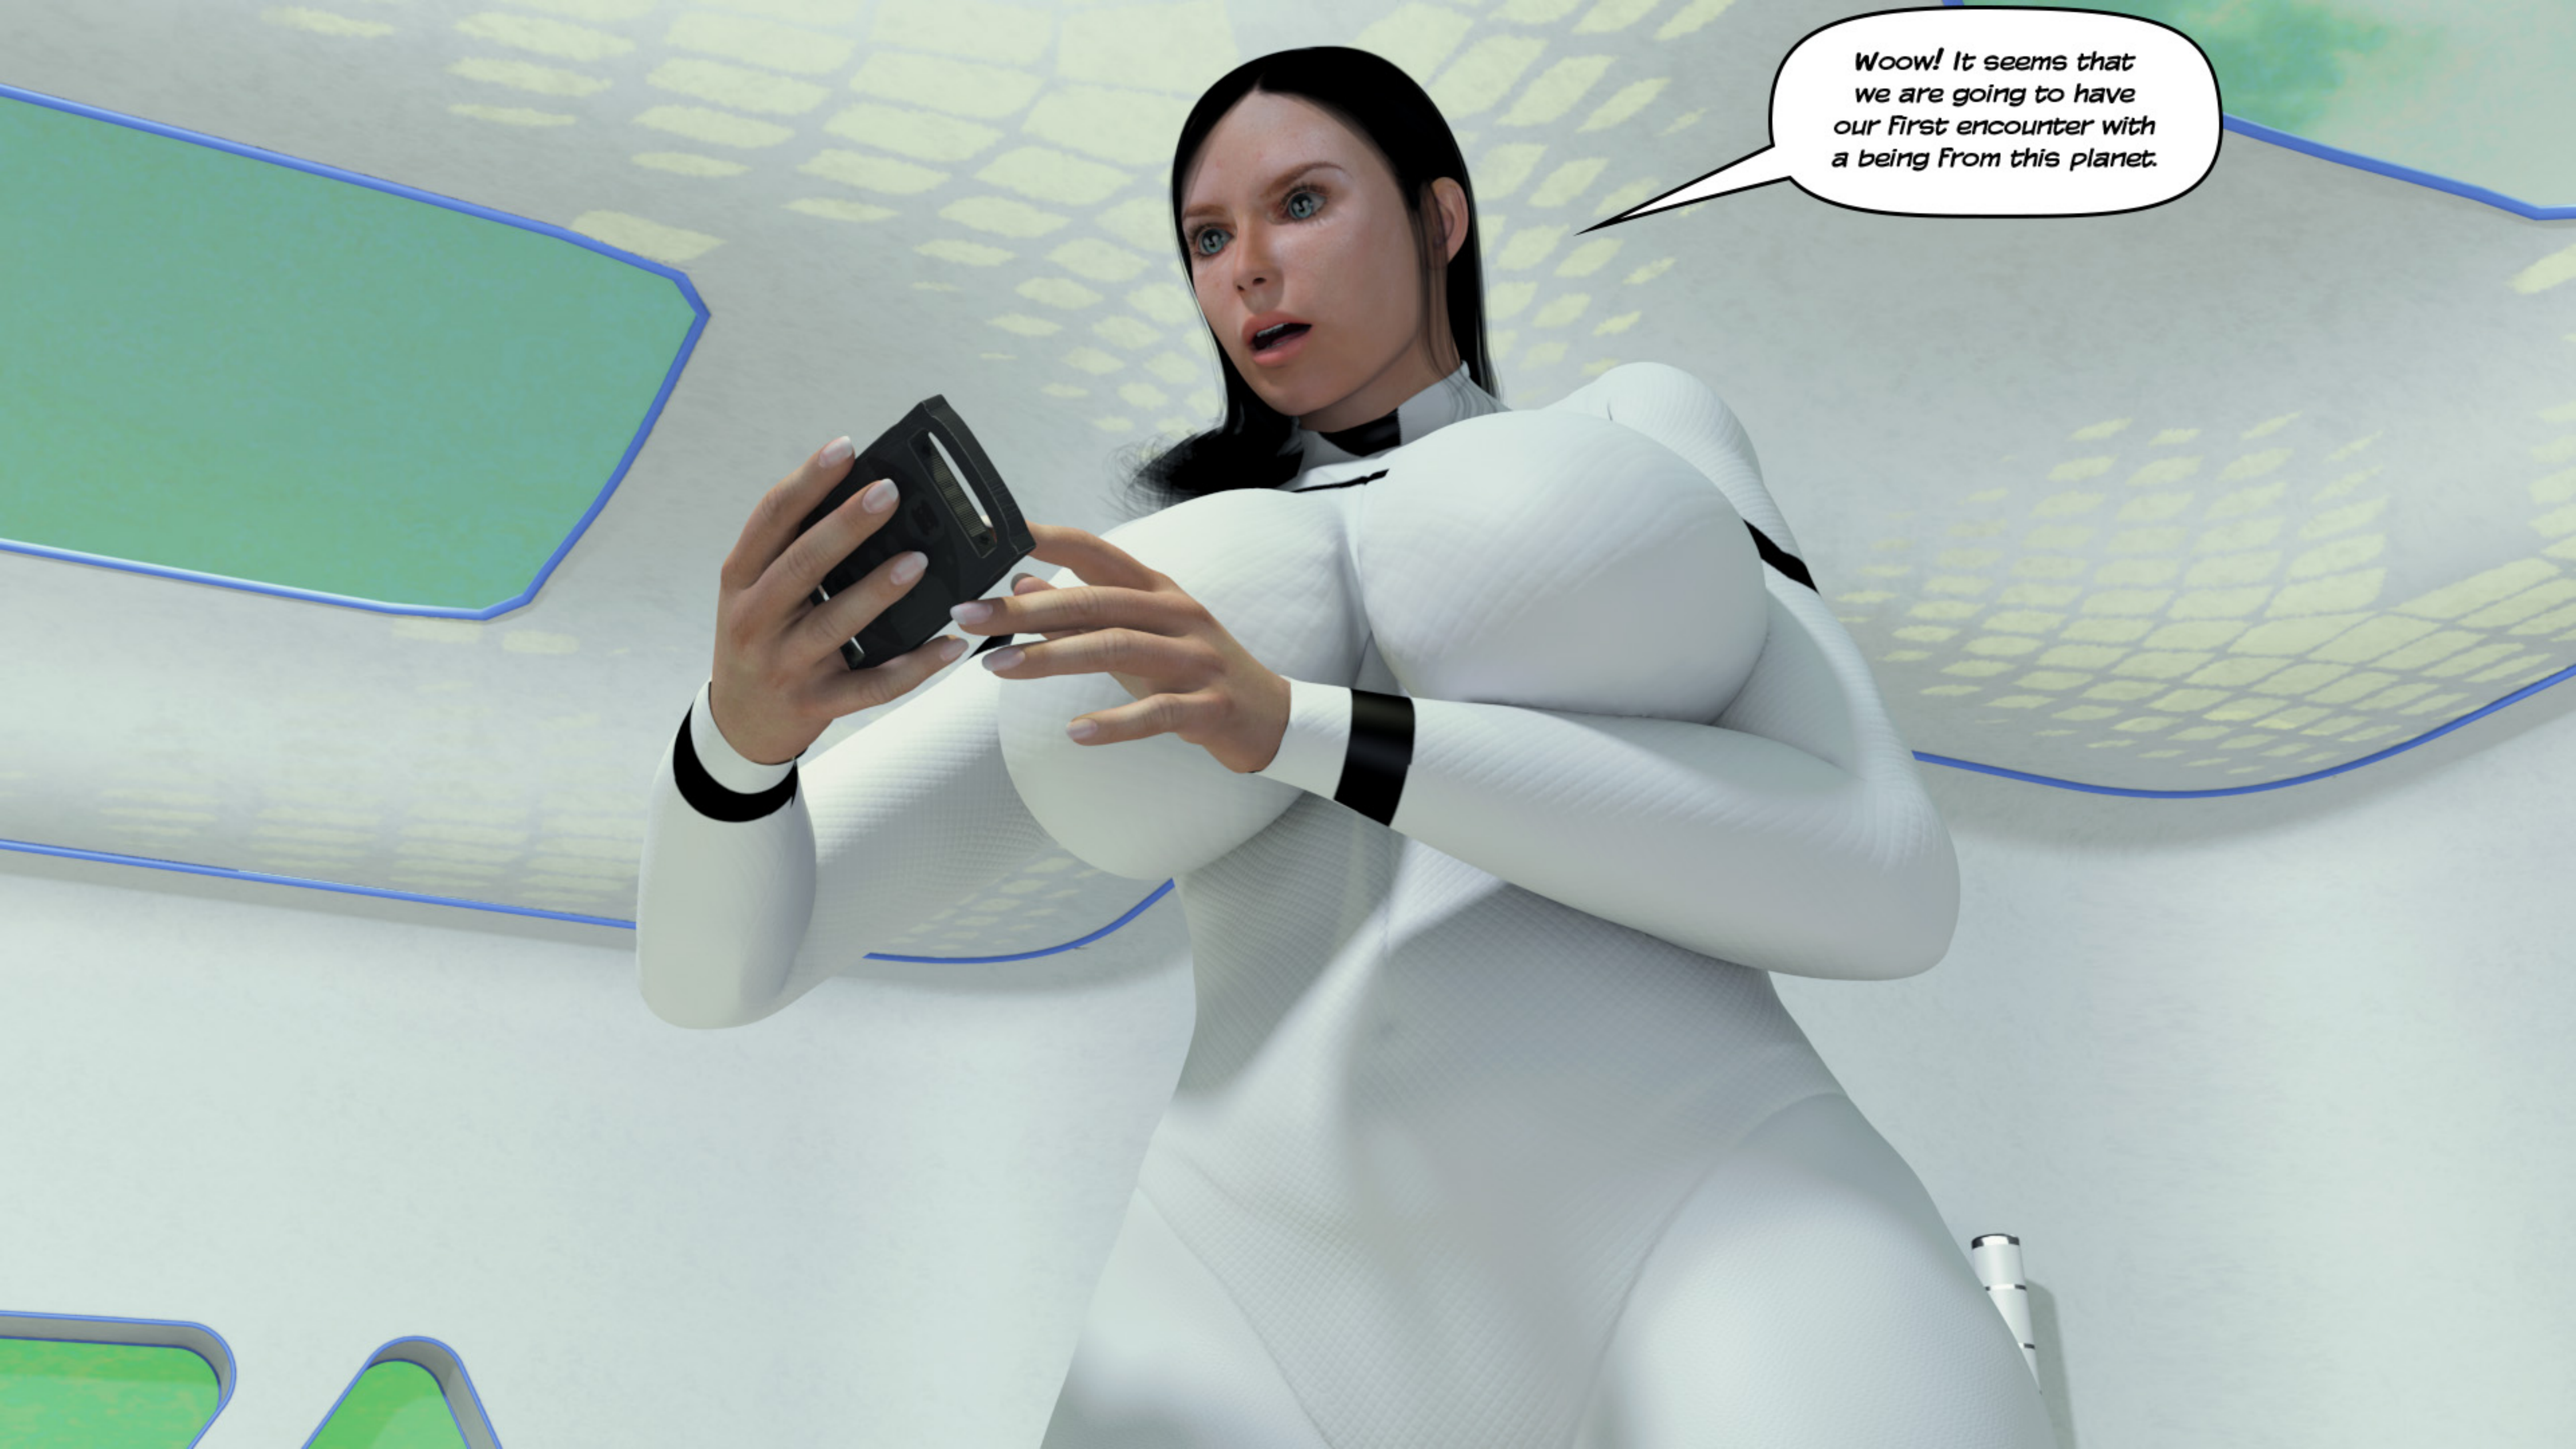

Suddenly, a thunderous sound interrupted that moment of tension and made everyone jump.

CRUNCH
CLANCK

BB-FE FLOOR 76

Something is
knocking on the
outer door!

Woow! It seems that
we are going to have
our First encounter with
a being From this planet.

It has a reptile-like appearance but much larger. Luckily, the gate protects us. It will not be able to enter. We will wait until it gets tired and leaves...

I... I don't think it's a good idea. From what we know of these creatures, they usually act like ants: an explorer locates the Food and many more arrive later... IF we wait too long, we might have hundreds of bugs like this at our doorstep.

Well, let's go
and rip it
Fucking open!

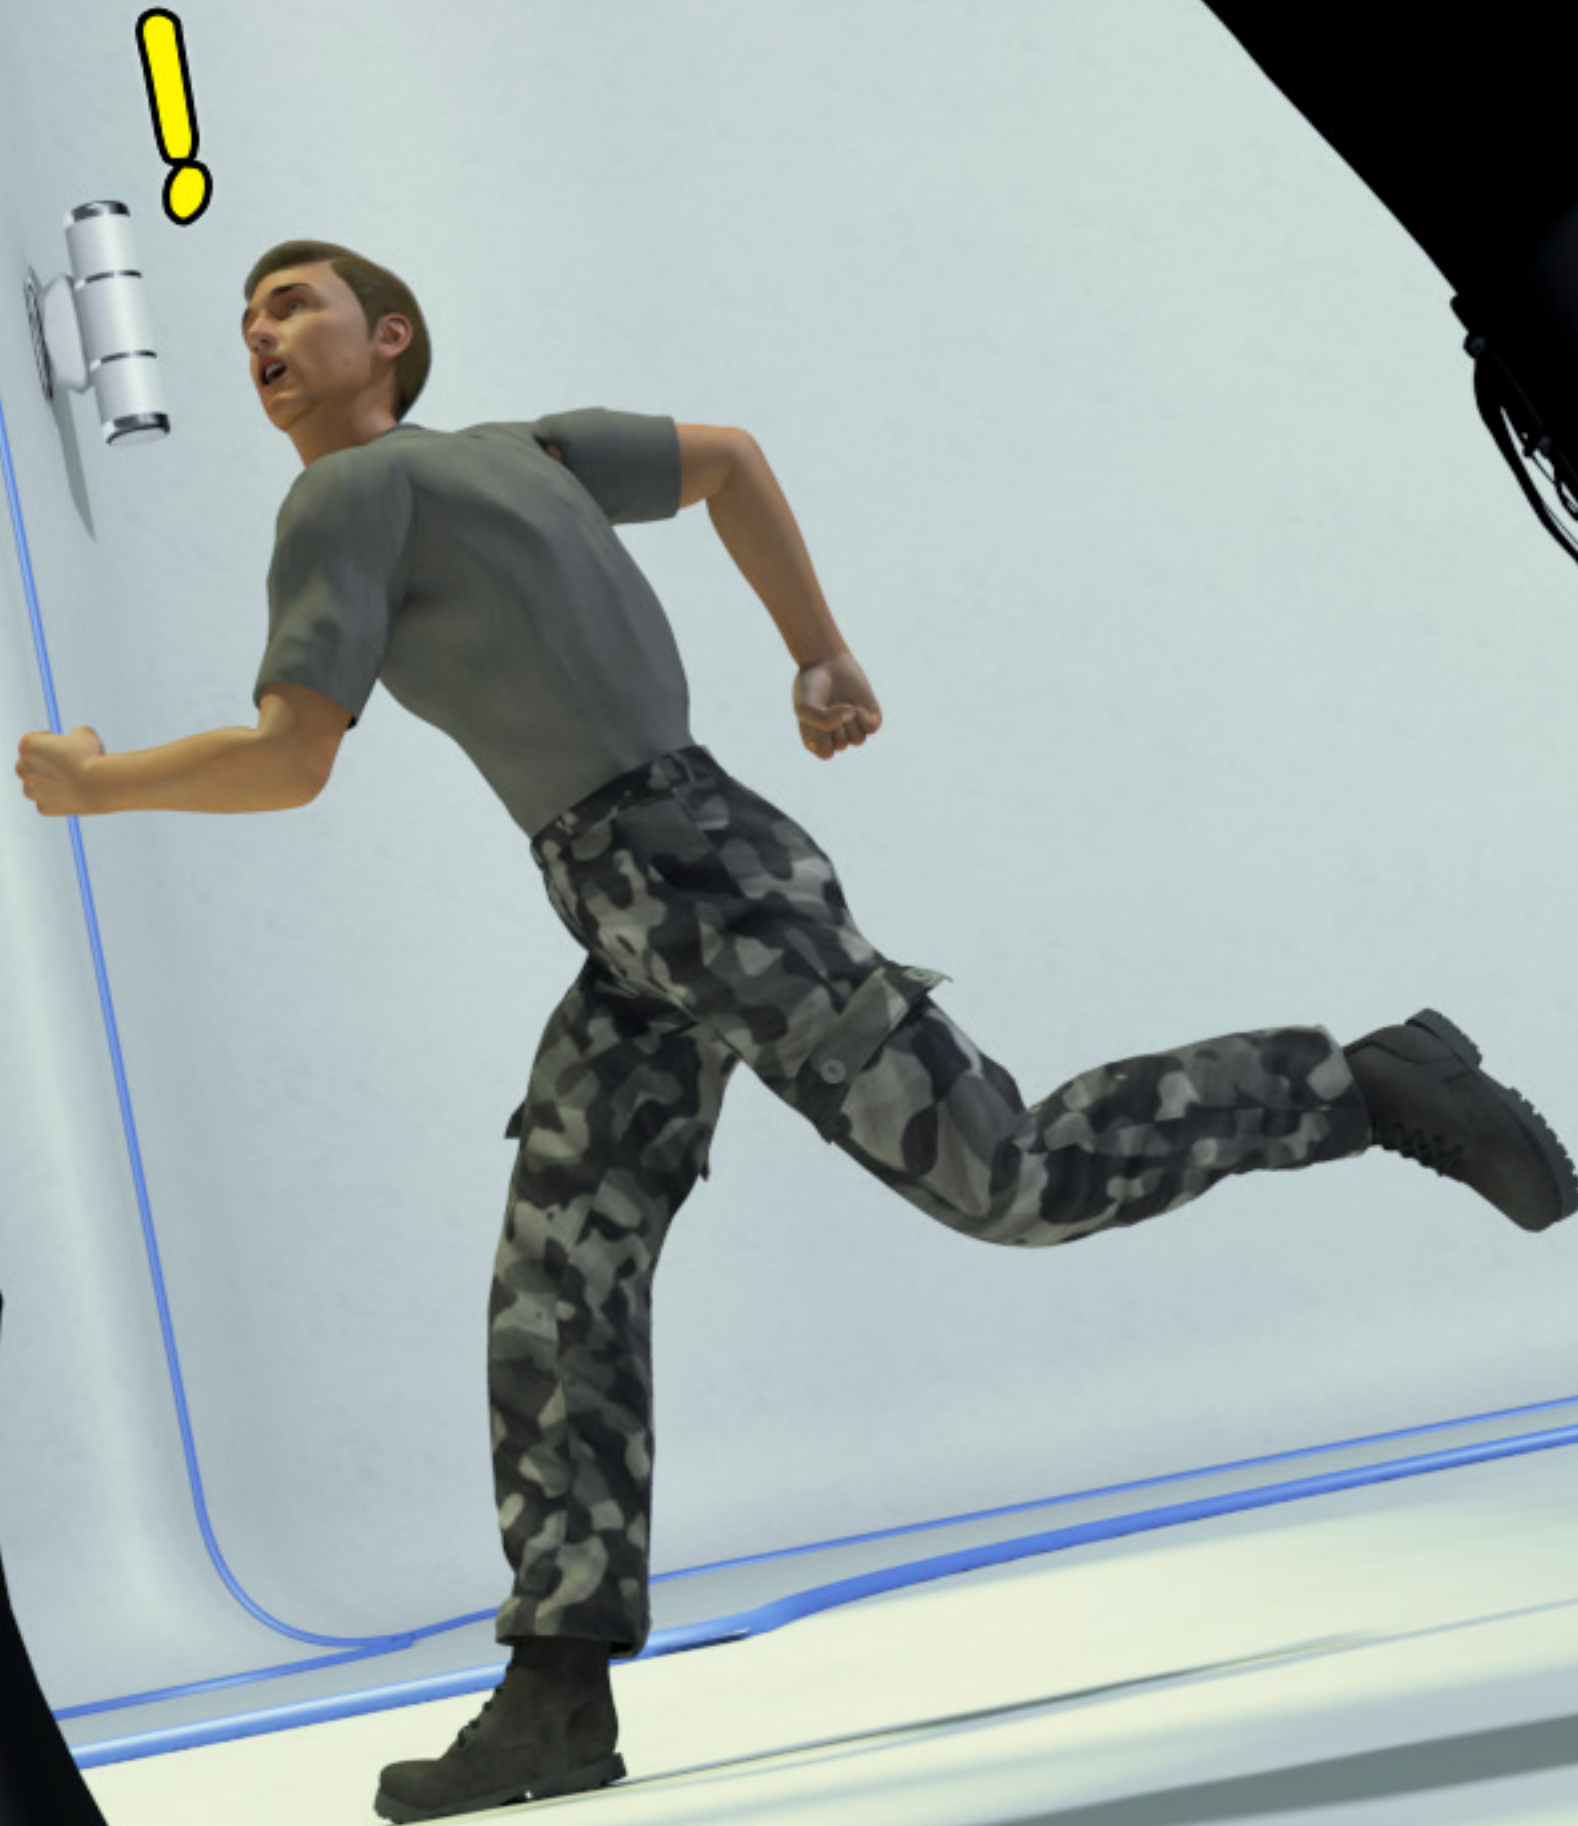

RUUUN

!

I'll help you,
colonel.

BOOOOM

Also, here I have
my personal
weapon, sir...

Tha... Thanks
Sergeant...

Bellick was almost terrified by the force of the stomping of Sergeant Wilson, a woman who from his perspective looked like a real war tank.

SLEEPING ROOM

Give me your
gun. I'll stuff that
Fucking thing with
lead...

SWOON

DD-FE FLOOR 76

Yes sir! At your command I'll open the hatch...

What the Fuck!
This rifle is huge!

Awwww, it's just a small thing. It doesn't seem dangerous: I'll close the gate so that it doesn't escape...

CLICK

The biped entered and Faced Colonel Bellick, who prepared to attack him with its sharp Fangs. The monster could actually eat the little man in one bite.

How am I going to use this rifle? It is so heavy that I can't even handle it!

*Hey! You are the
exobiologist and you
know these creatures.
Please help the Colonel,
we cannot let one of
us die!*

SLEEP

Elena, seeing Leonard imploring, Felt like a true goddess, to whom her subjects have to beg For her protection...

BROOOOOM

RAAAAWL

Woah!

RAAAAWL

!

hhhh... Ahhhh... That was close... I thought I was going to die...

PANT

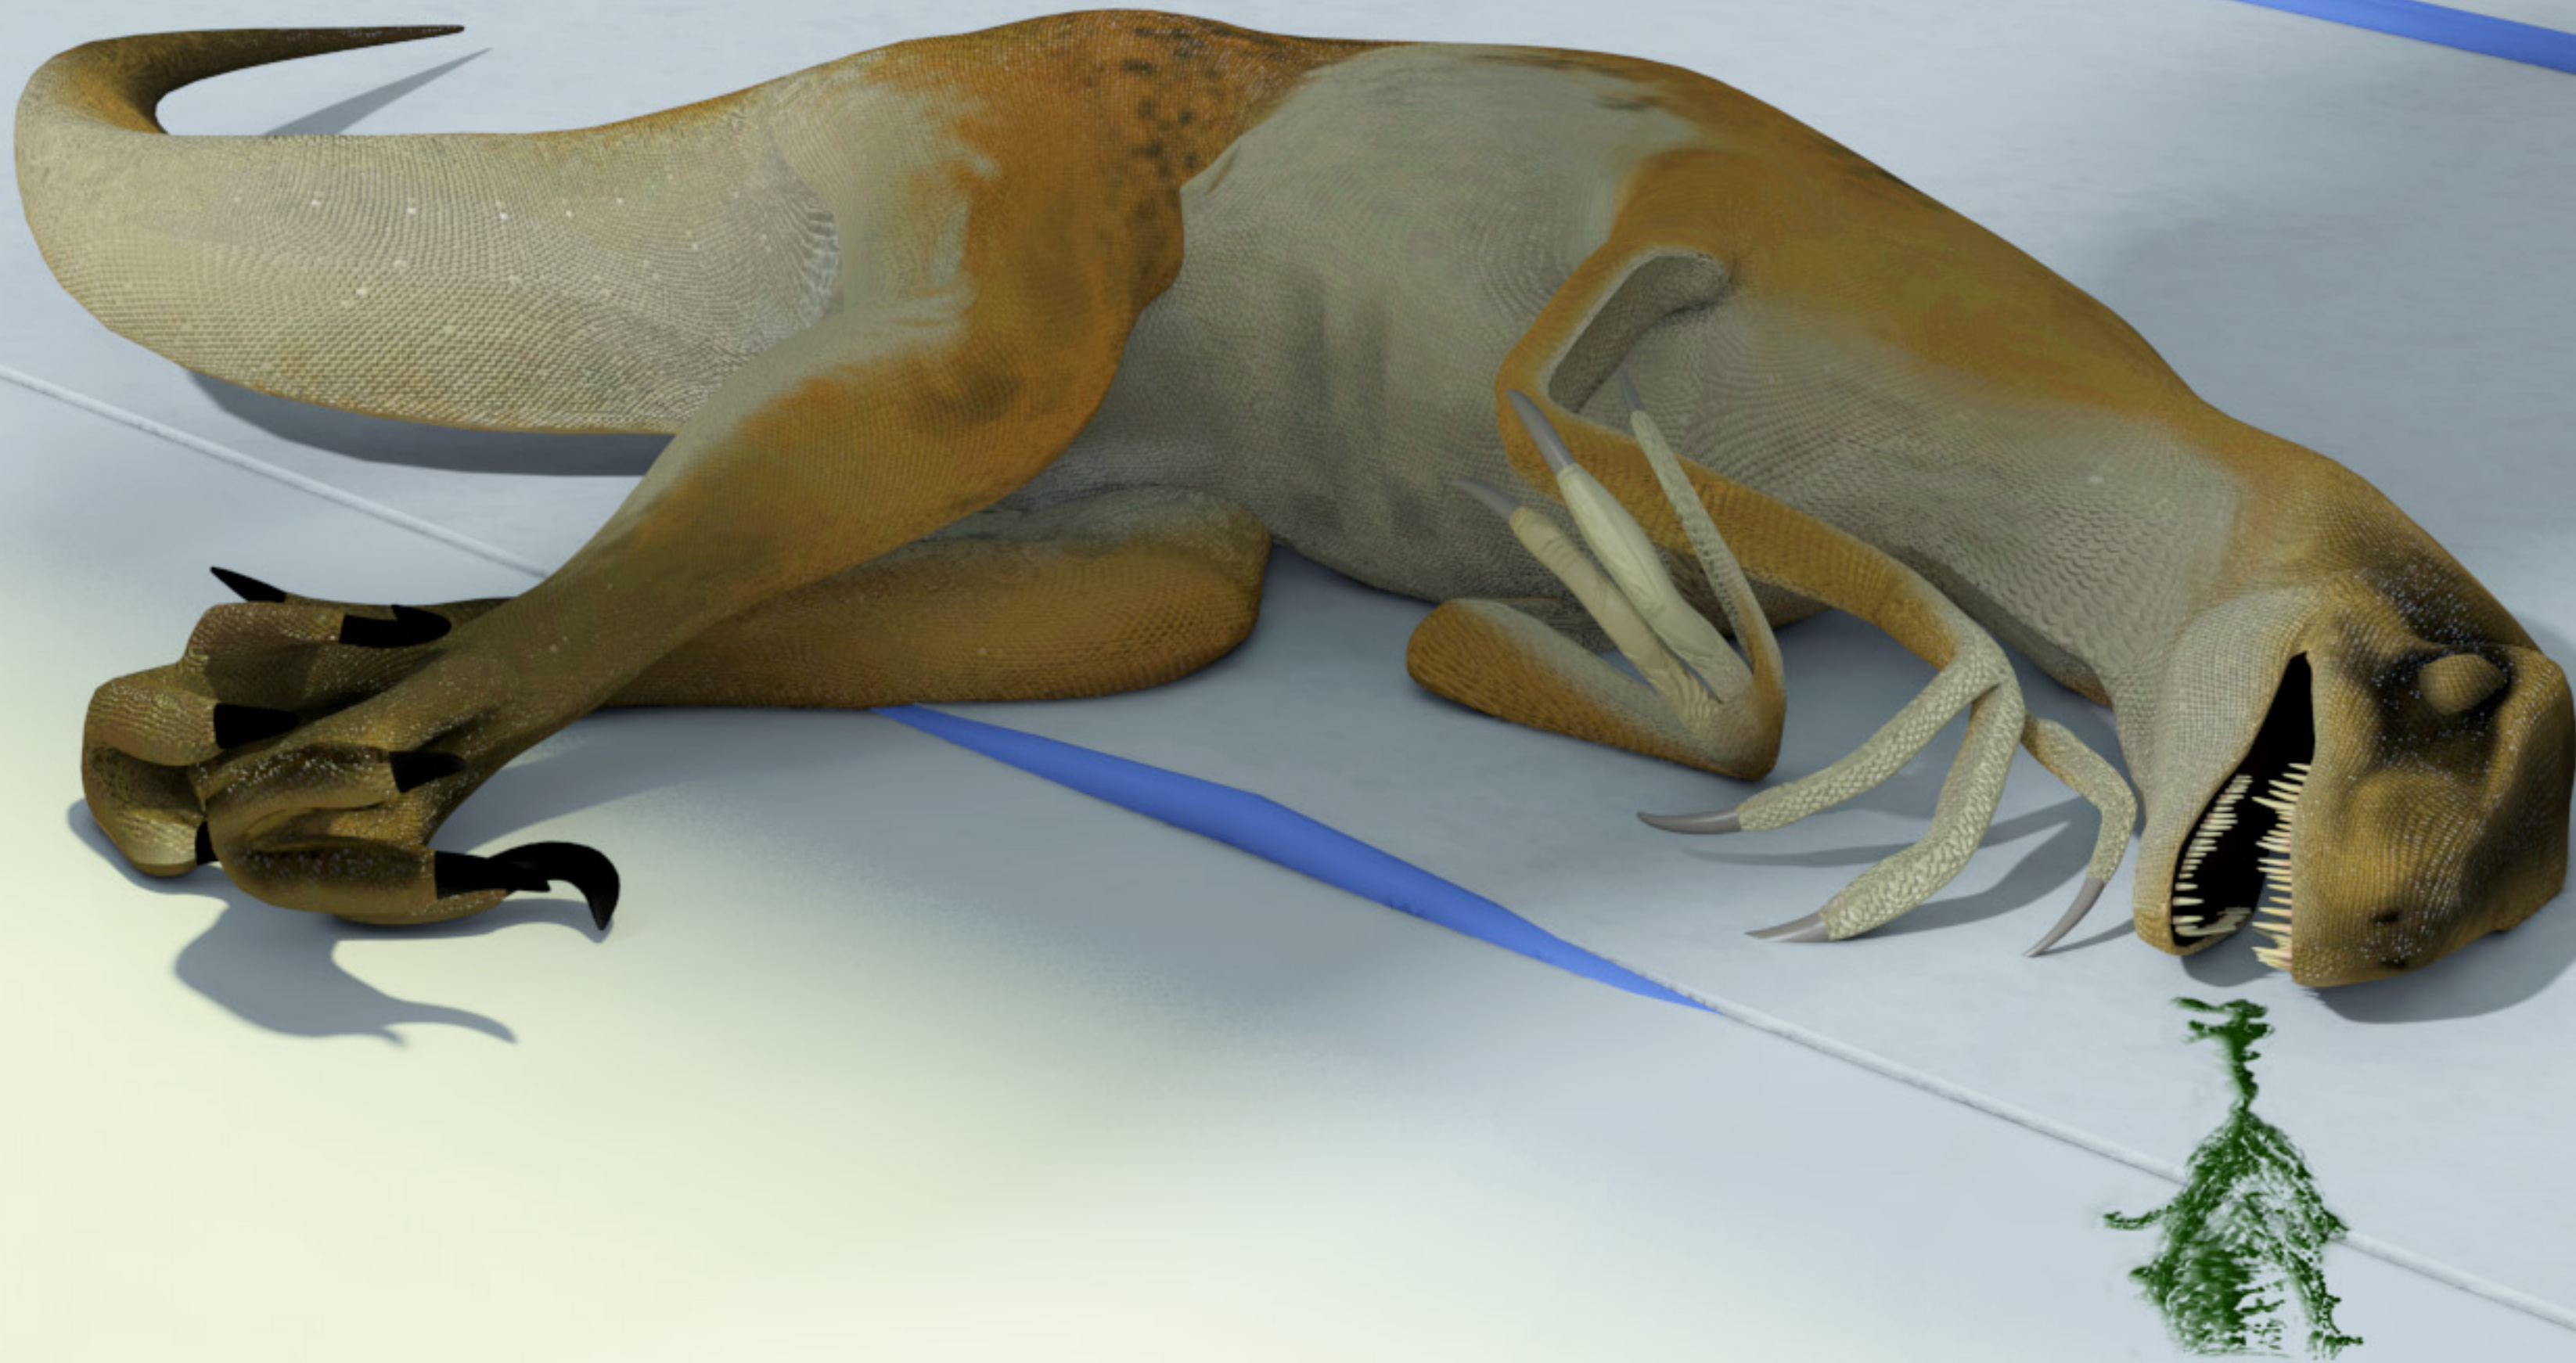

PANT

PANT

*Are you okay, Smurf?
It was very easy...*

... I only hit its weak
point, since I need his
living body to study it...

Well, now they
know us...

Wow! How strong
you are, Elena!

*We all are, silly. Dr.
Arroway modified our
bodies so that no
creature on this planet
is a threat to us.*

And...to us?

Ah, you... The males...
You little children, you are
going to stay close to
the women if you want to
stay alive... And you are
going to be... obedient.

Saying that last word, Elena looked maliciously at Colonel Bellick. He looked away, rage invading him, but he was aware that there was nothing he could do about it. The woman before him had just easily defeated a monster that was twice his size.

Okay, girls. We are going to Form pairs now: each one of you should choose a little man to take care of. Remember that we are going to need them to procreate and save our species.

Moni!

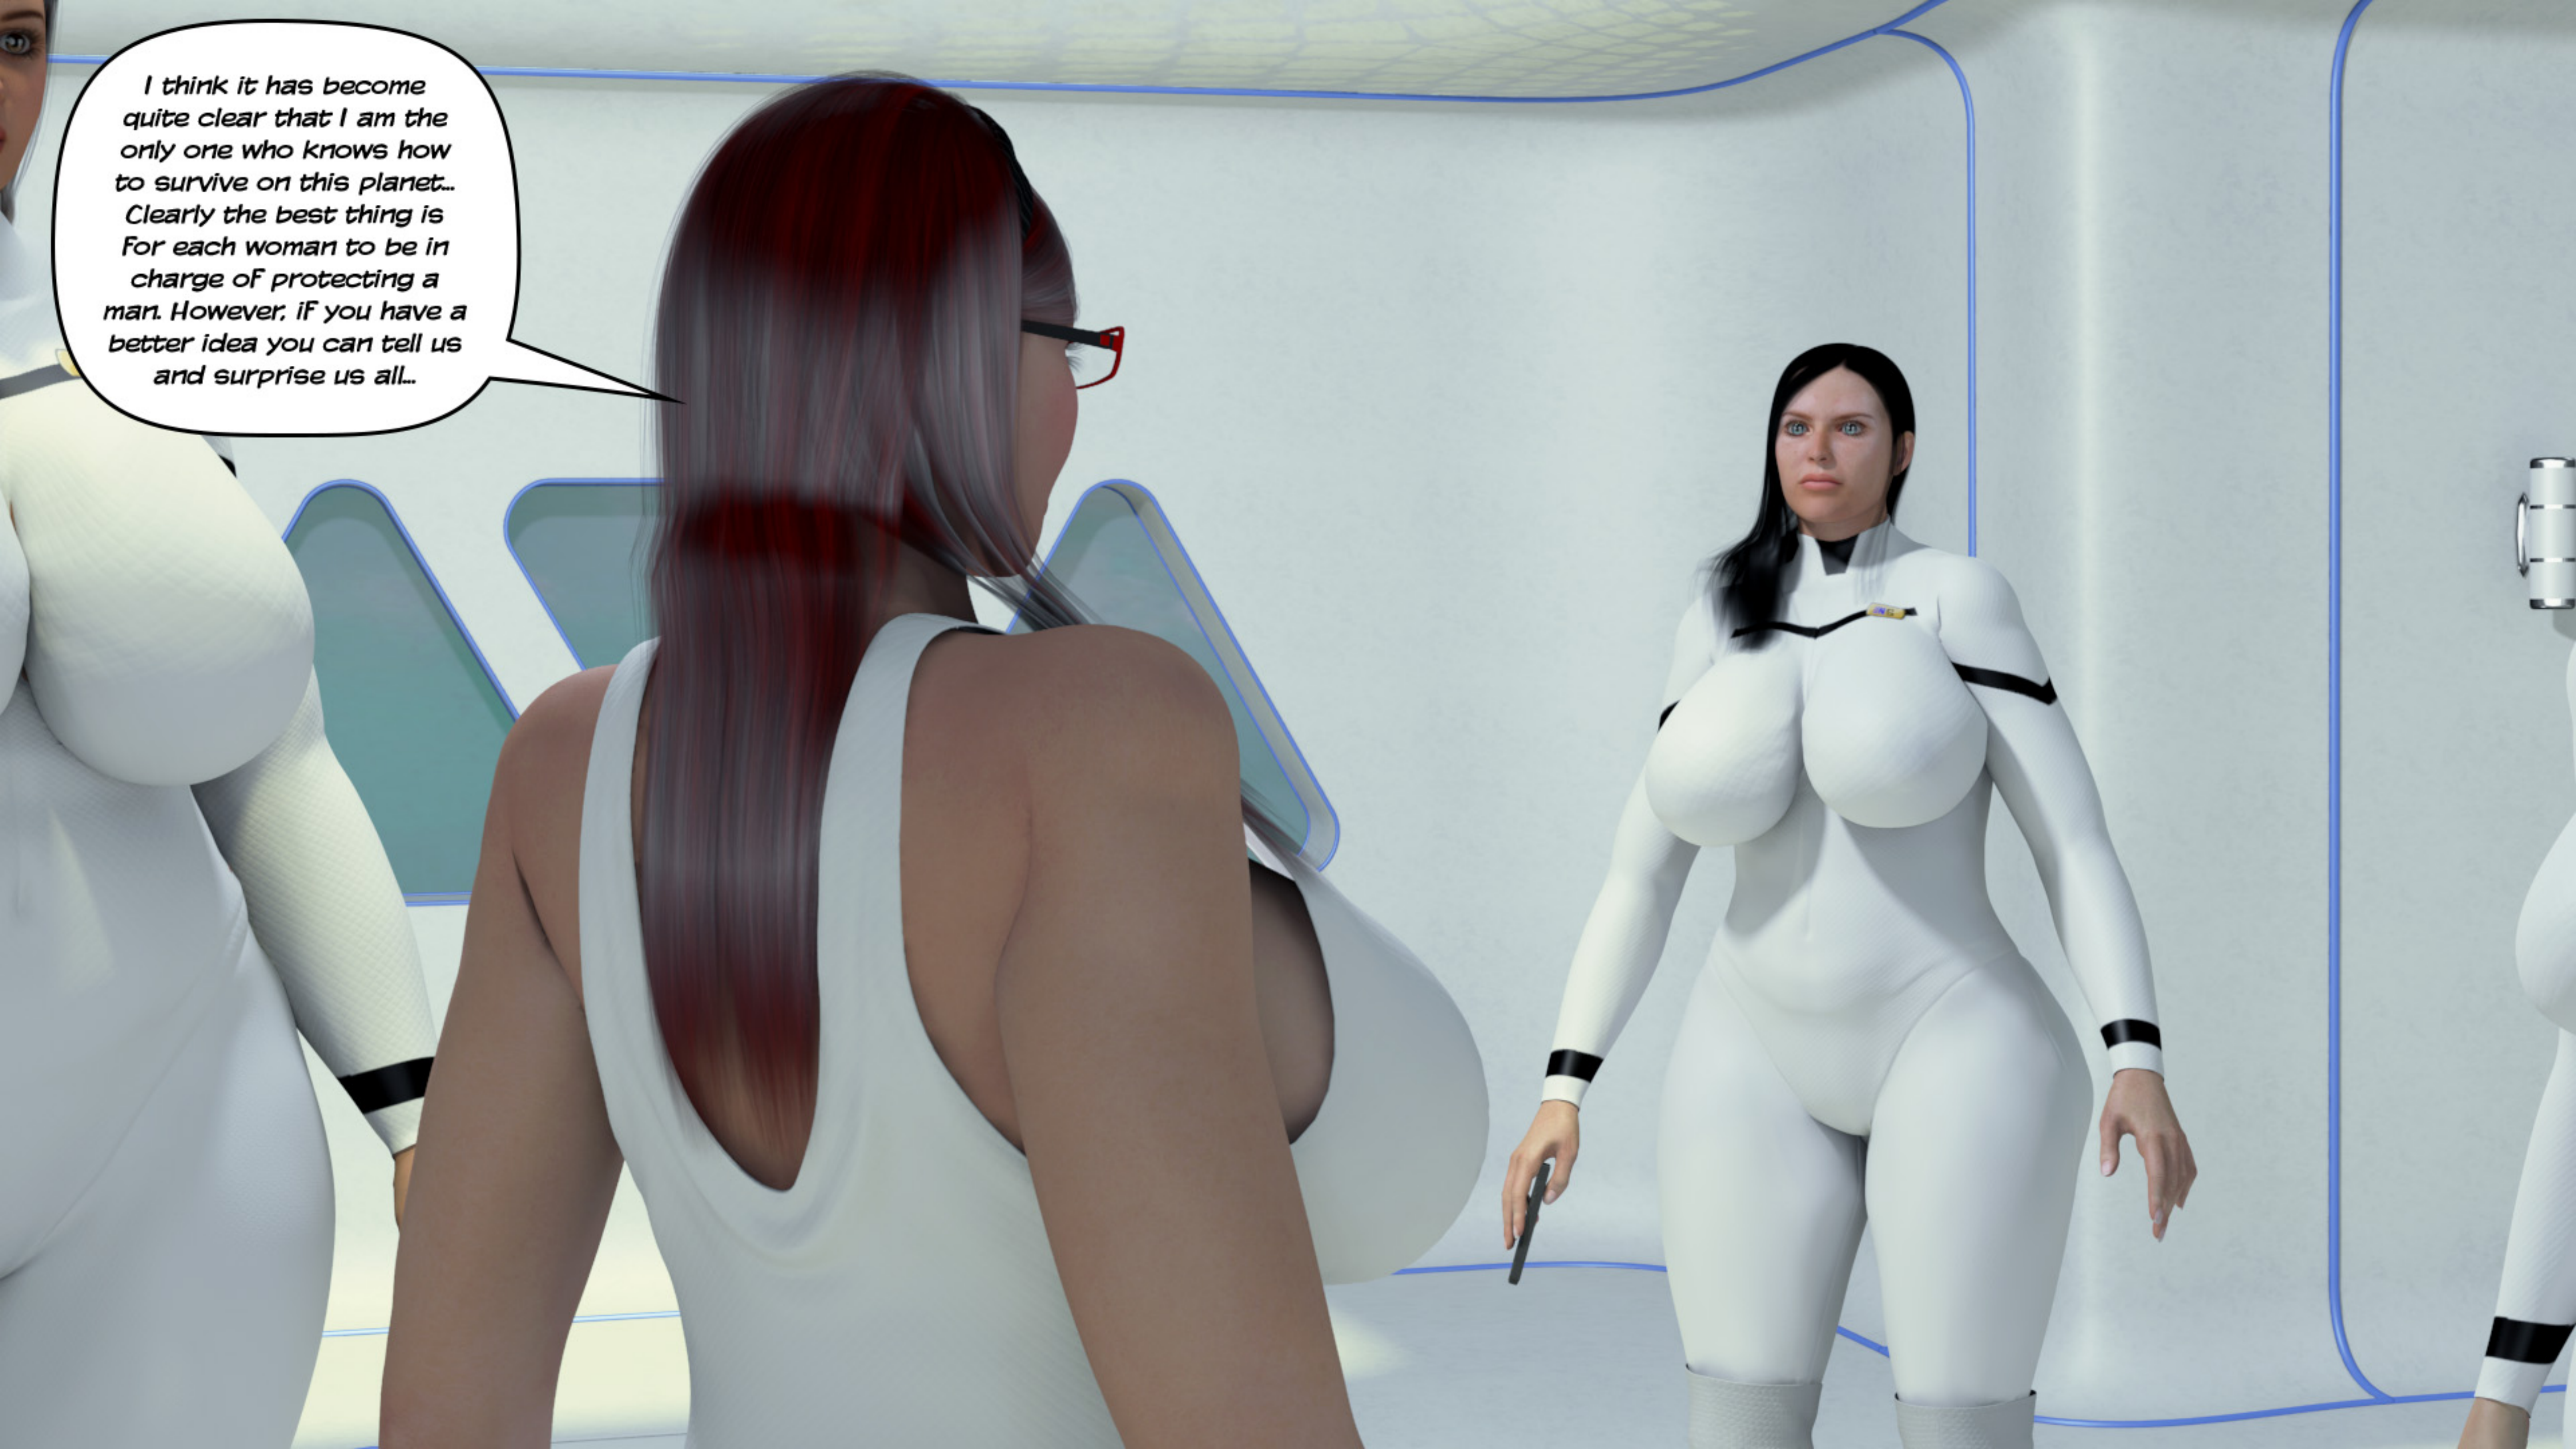

HUG

Hey, wait a second...
Who has chosen you
as leader of the
group?

I think it has become quite clear that I am the only one who knows how to survive on this planet... Clearly the best thing is for each woman to be in charge of protecting a man. However, if you have a better idea you can tell us and surprise us all...

Well... I have
already chosen...

BOOOOOM

*I will protect
the colonel...*

!

*I will protect this
little hottie...*

*I'll protect this one!
I was always curious
to be with someone
much older than me
hehehe...*

... Please... be
careful, young
lady!

PANT

PANT

PANT

*Most already have
a partner. I must
make a decision,
and quickly!*

*Pick me, baby, please!
I won't let you down!
I promise!*

Oh... OF
course...
Come here...

*Nice to meet you..
I'm Hector, nice to
meet you..*

Elena then cast a wicked glance at the only man left without a partner, the shy, tiny Barry, who looked at her in fear. Barry lamented that he was so stupidly shy. If he had been as brave as Hector, he could have stayed with Maria, but he had remained quiet, as usual.

No... No... Please,
I can be alone...

TUCK

Well, little guy,
looks like you are
going to be my
little toy...

Ahhhhh!

SWOOP

P... p... please... d...
don't hurt me! I'm an
exobiologist too, we
can work together-

*Hey! Why are
you mistreating him
like this?! He's a
person, just like
all of us!*

*You worry about
yours, girl. This is mine
and I'll treat him the
way I want... Now if you'll
excuse me, I'm going to
retire to my room with
him, I have to make sure
I haven't been assigned
a defective toy.*

*I can't stand her!
Why are we letting
her tell us all what
to do?*

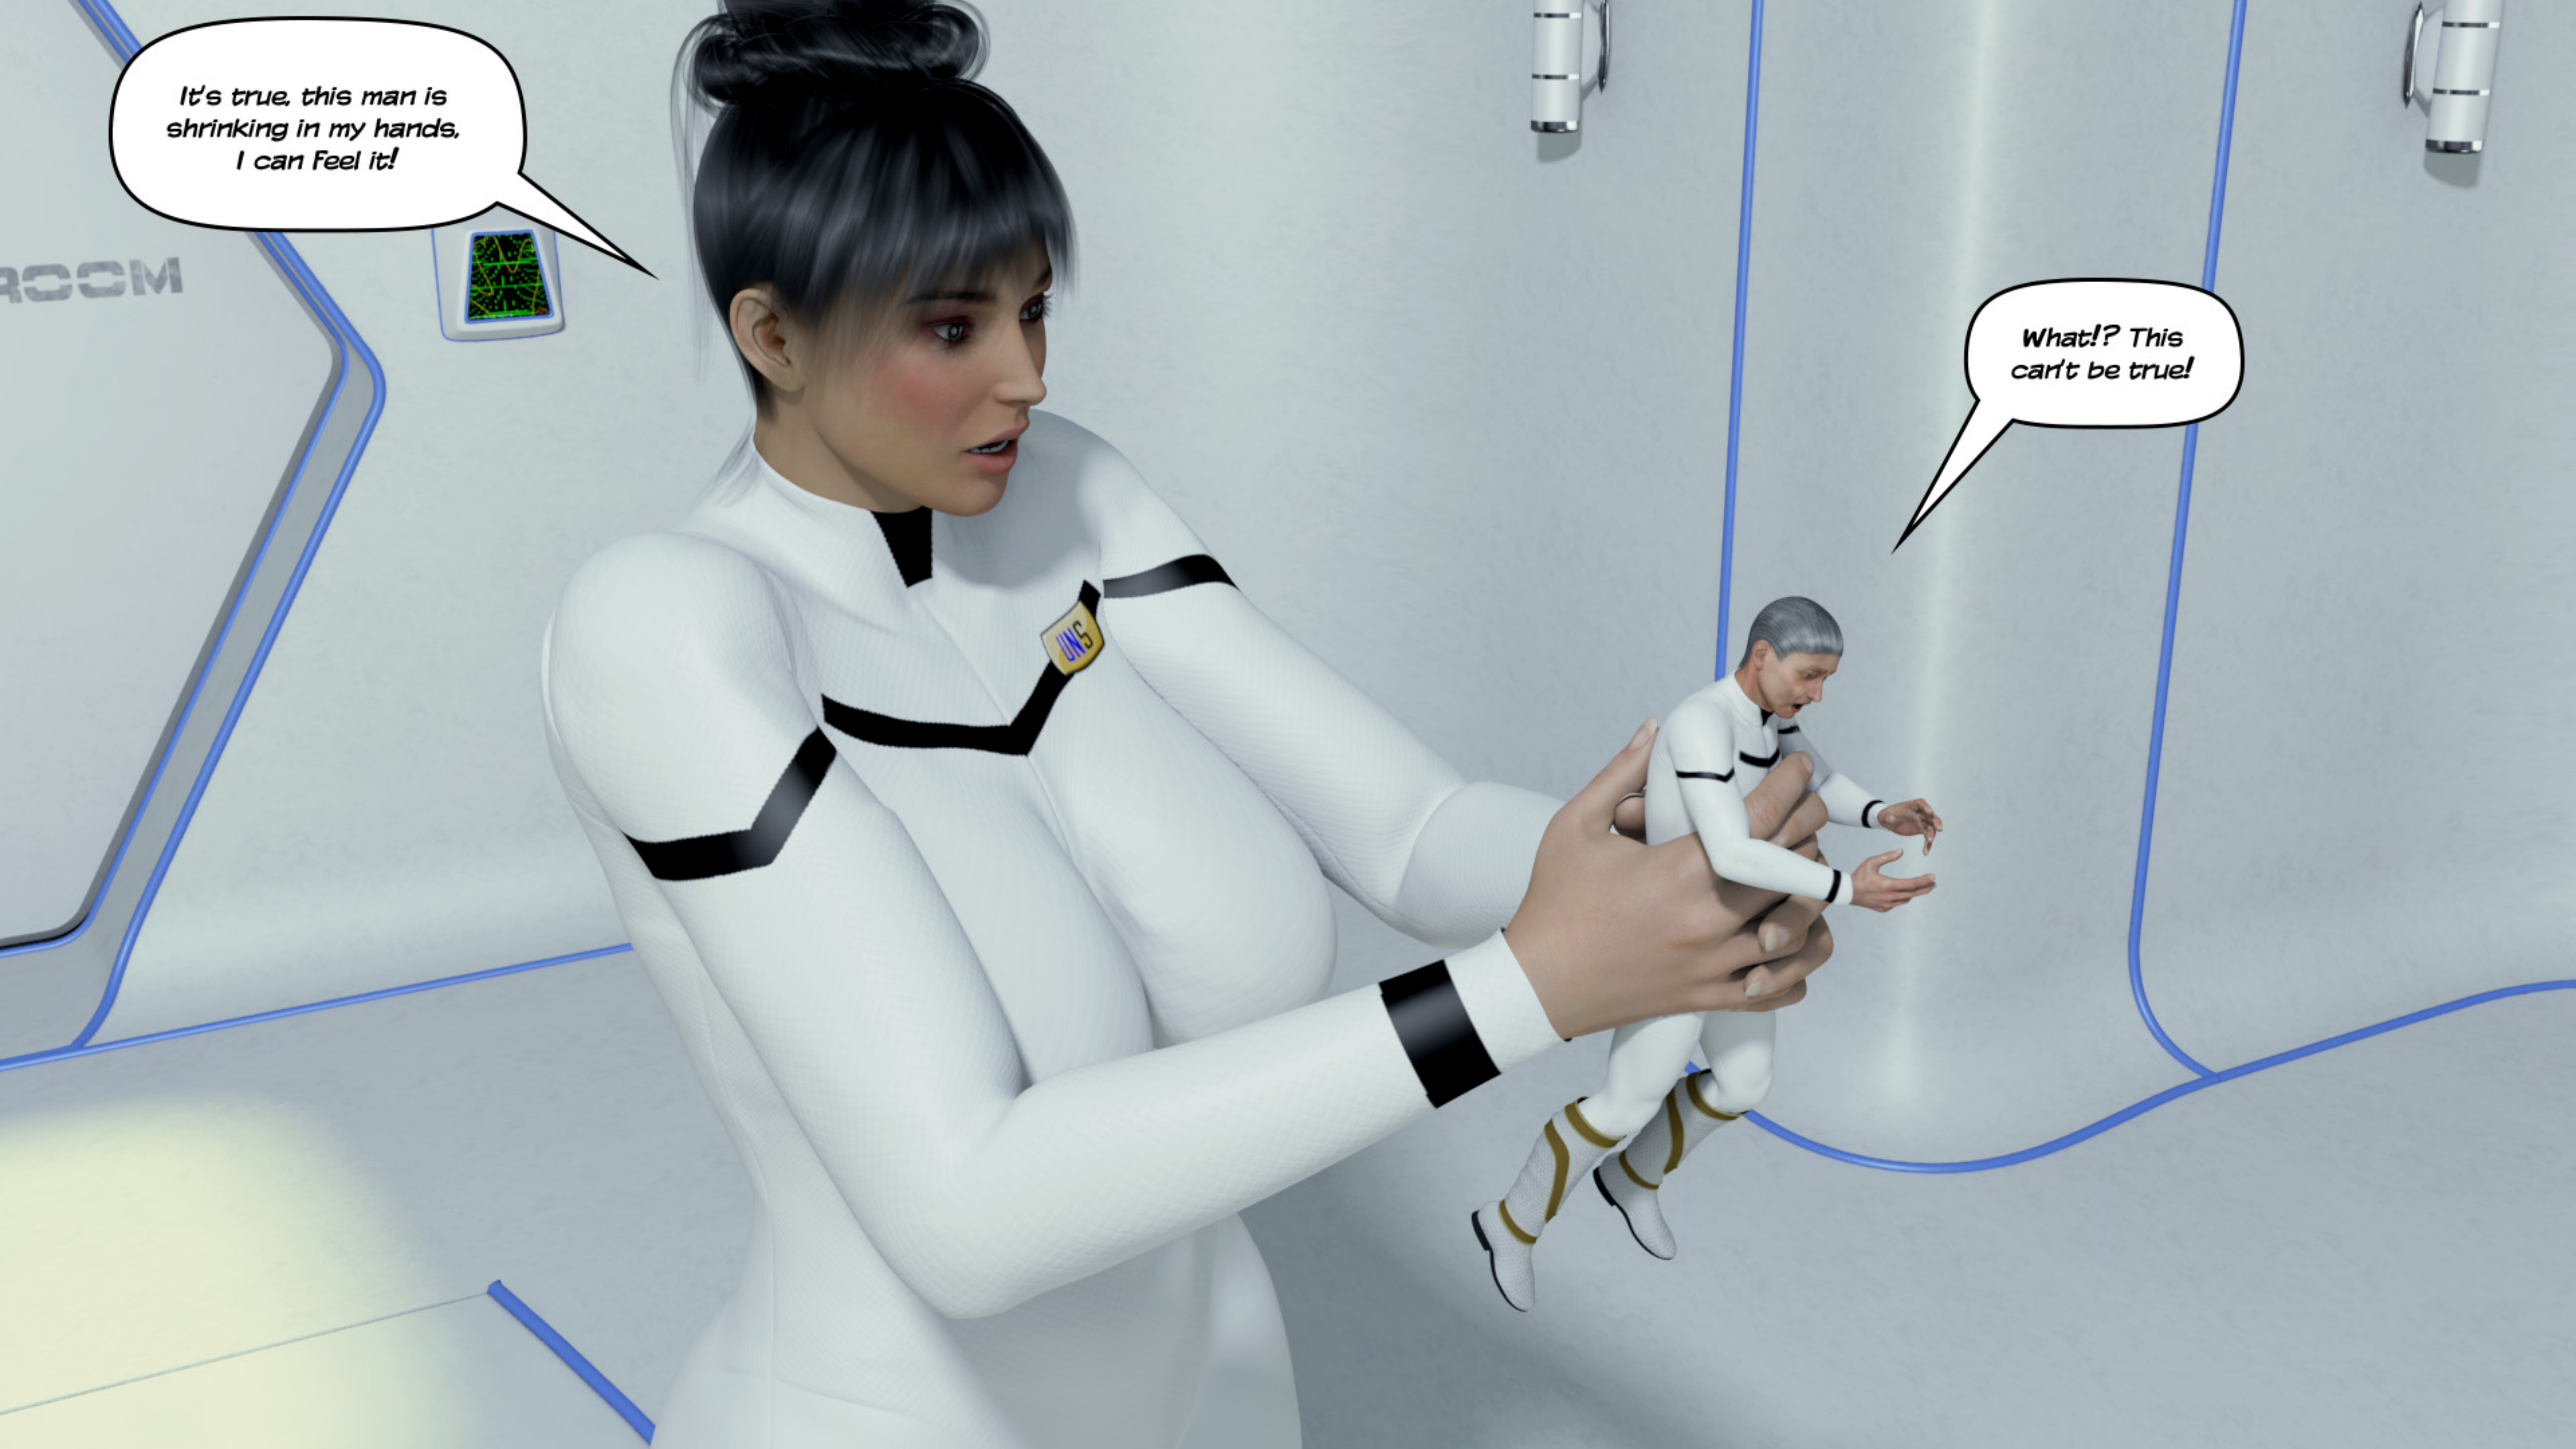

*I don't like it either,
but we're going to
need her to survive...*

*I don't see why...
We're just as big
and strong as
she is.*

*But she knows
the planet... and she
probably knows what
they've done to us.*

Girls, wait... Something
strange is happening.
I feel a little strange, my
body is changing.

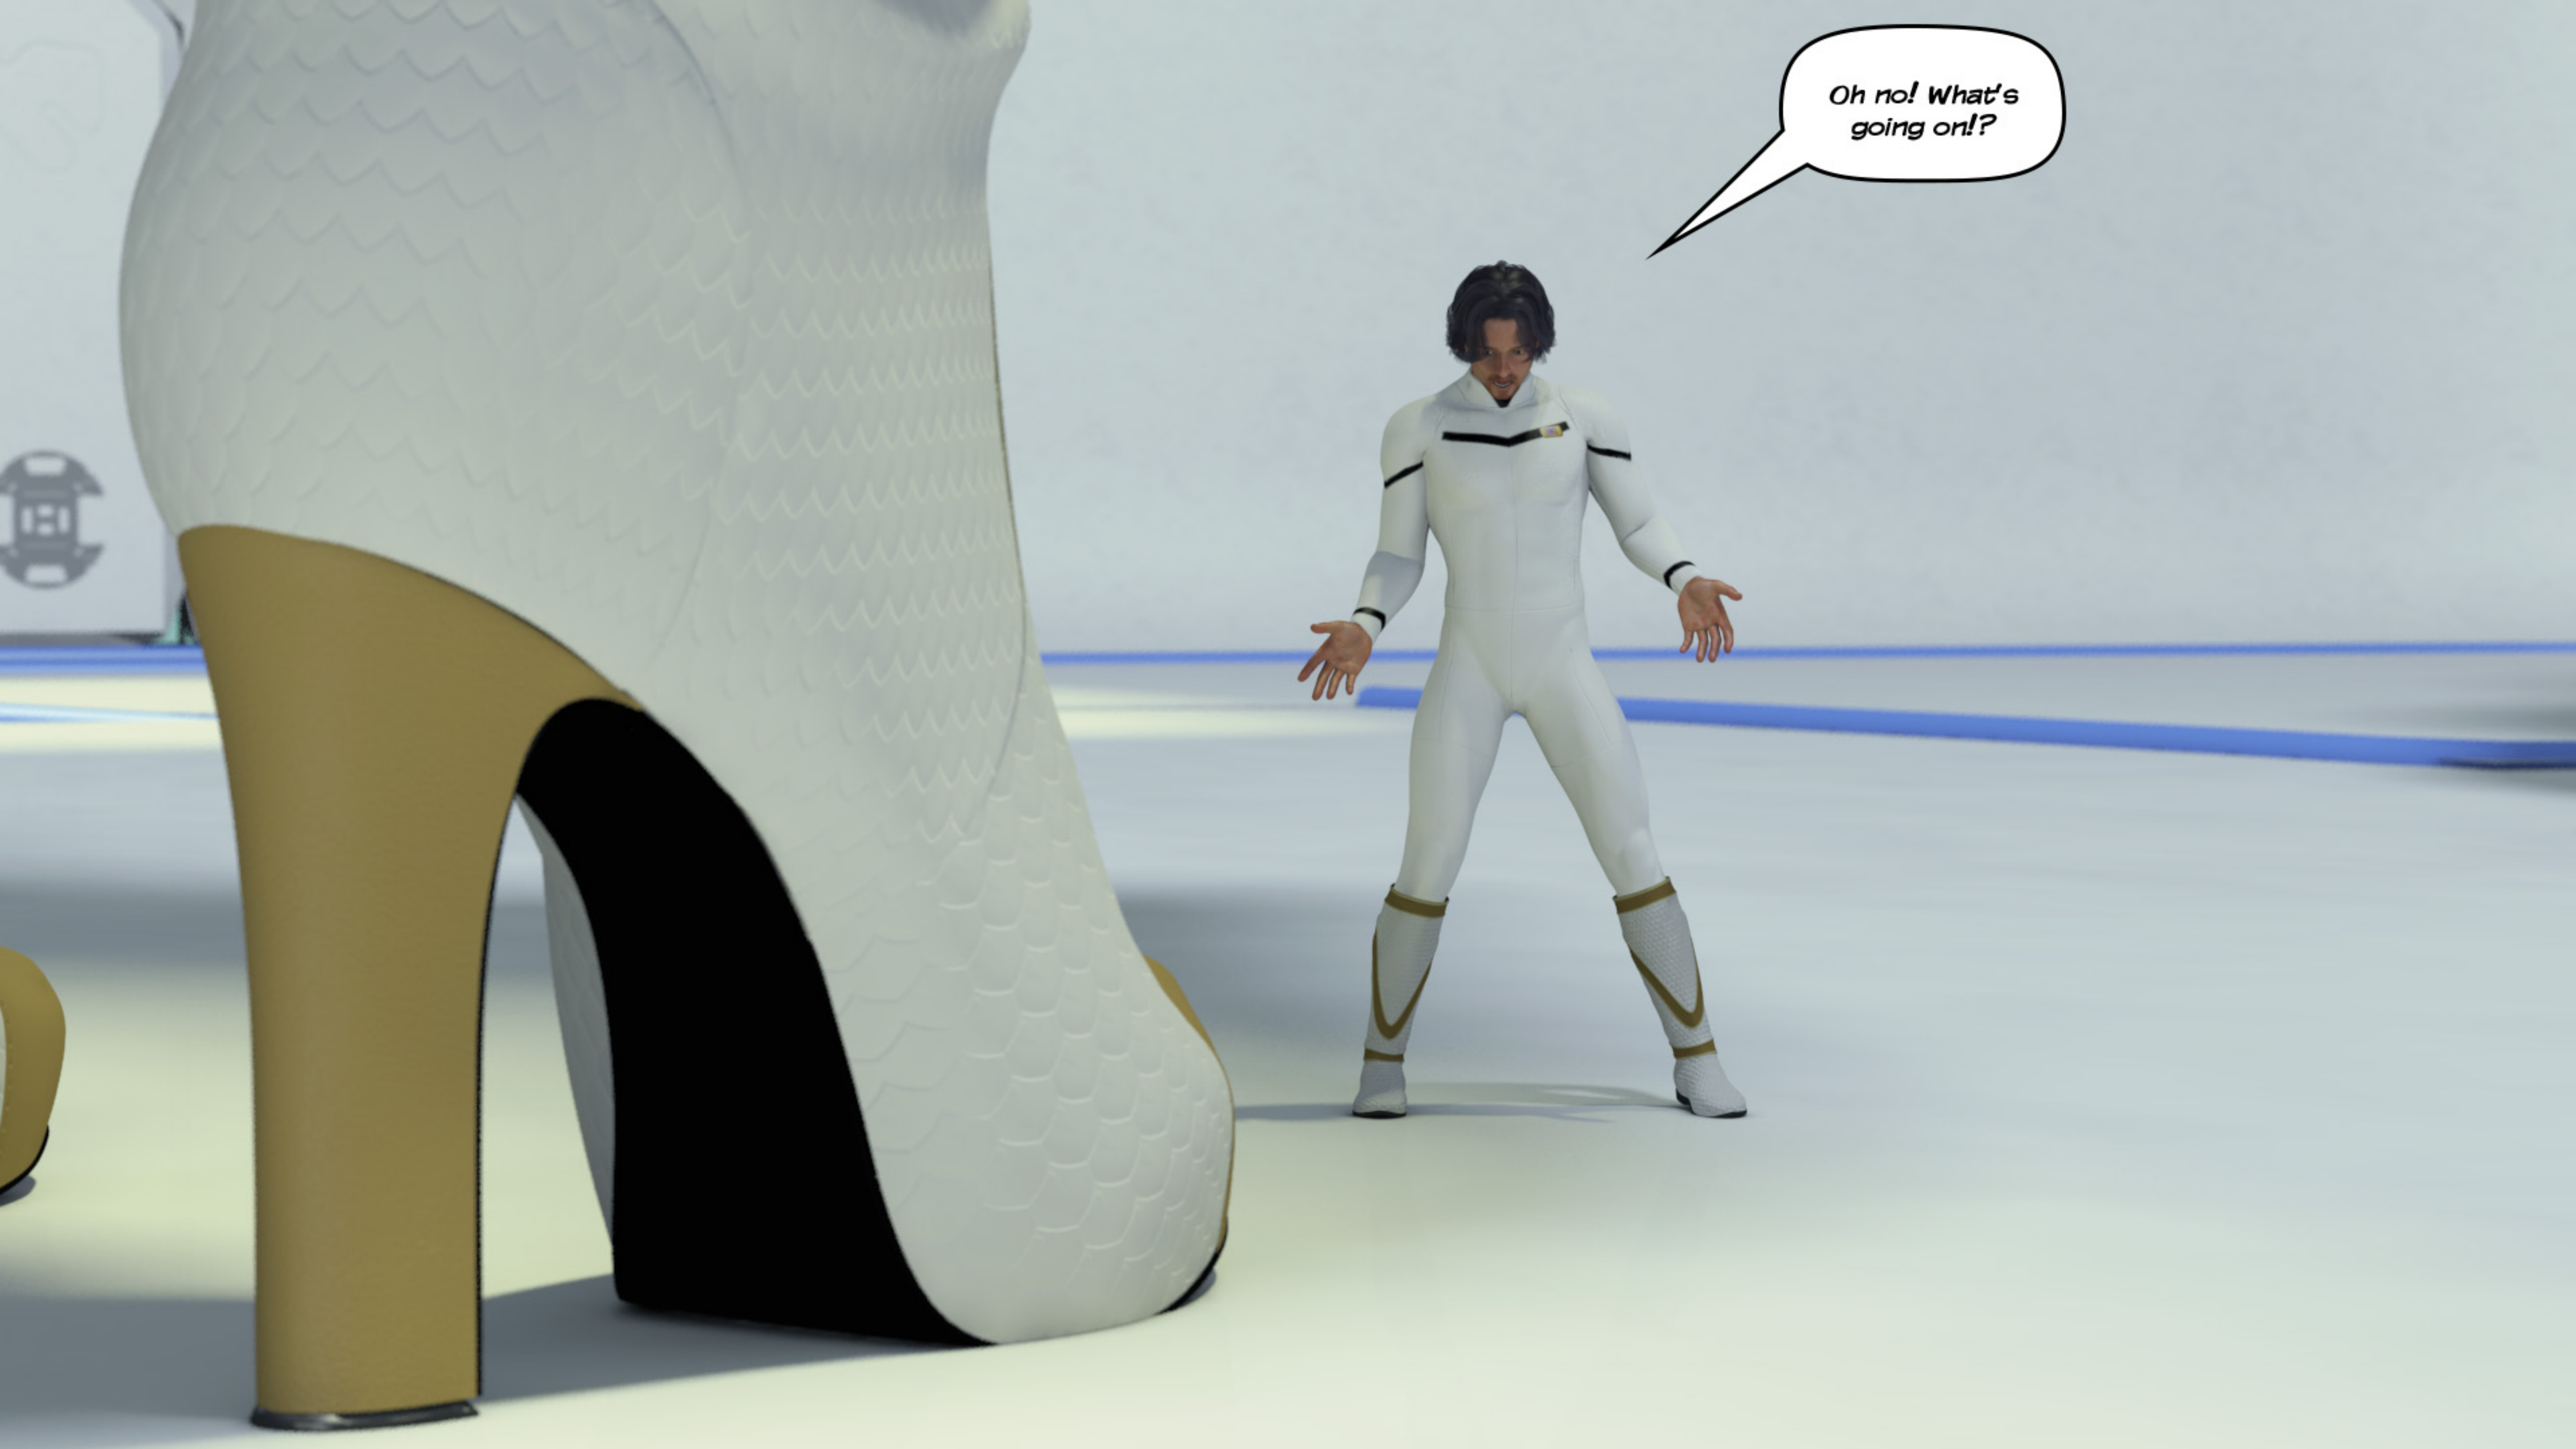

*It's true, this man is
shrinking in my hands,
I can feel it!*

*What!? This
can't be true!*

*Fuck!! How badly
did that bitch
Arrowway want to
Fuck us? Wasn't it
enough turning us
into dwarves?!*

Oh no! What's
going on!?

Hector!!!!!!

*Maria! Please help
me! It's affecting me
much more!*

Oh! -My God...
It seems they
haven't calculated
how much you'd
shrink.

Are they still... shrinking?
I thought all the shrinking
had taken place in the
cryogenic chambers...

!

Shit!

That bitch ain't
gonna get away with
it. I'm gonna get her!

RUUUN

*Colonel, I'm
coming with you...*

Minutes later, in Elena's room...

*Ma'am, stop,
please. This
doesn't make any
sense. Give me
back my
spacesuit...*

*I think I was clear
in the waiting room:
From now on you
belong to me, so
I can do whatever
I want with you*

So if you want to make your stay on this planet a little more pleasant, you'll have to obey me...

Well, I'm comfortable now.
The truth is that my legs
are tired with this heavy
body and my feet need a
massage...

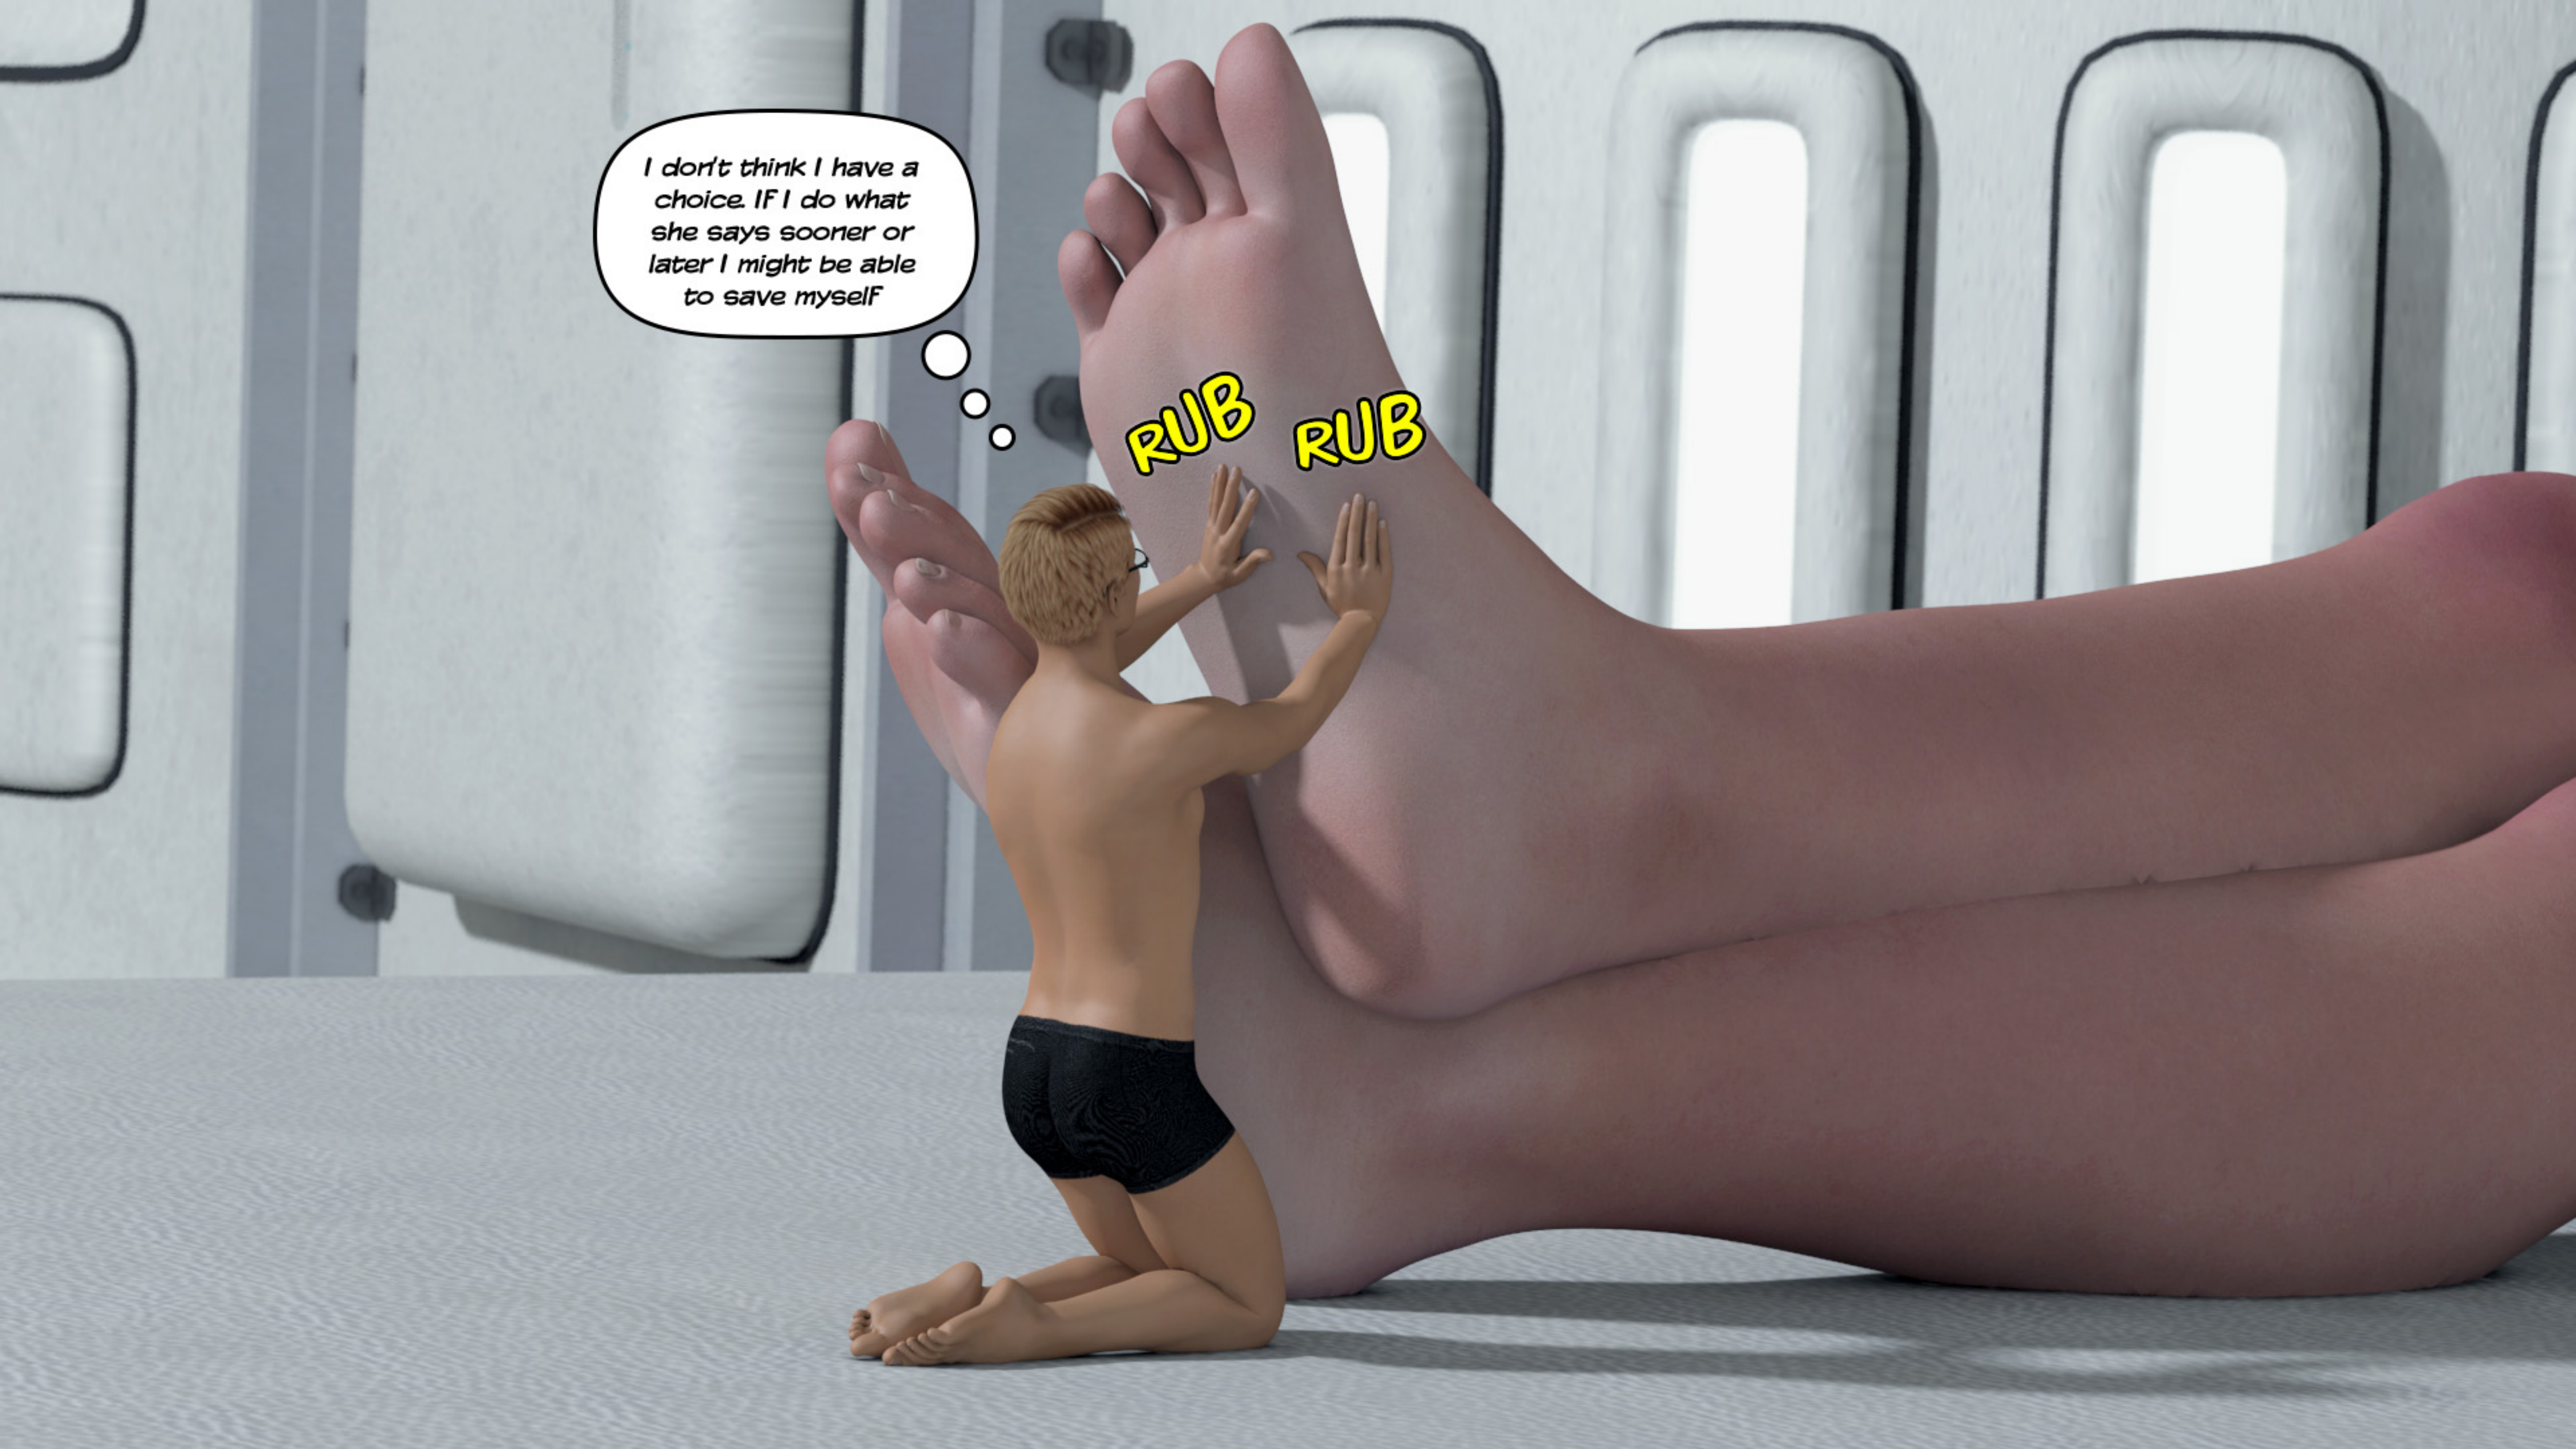

Barry was cornered, he couldn't possibly stand up to such an imposing woman, but he had no way out...

I don't think I have a choice. IF I do what she says sooner or later I might be able to save myself

RUB RUB

Wow! I can Feel your tiny hands, this is so relaxing. Keep it up, SmurF, and you'll get some "reward"...

Elena was really starting to enjoy power over men, now that she was so huge that she could impose herself on her masculine partners. As far as she was concerned, Dr. Arroway's project was going well.

But her excitement didn't last that long. For she heard a few knocks on her bedroom door...

LOCKER

**TUMP

*Hey! Open the door,
girl! We're shrinking!*

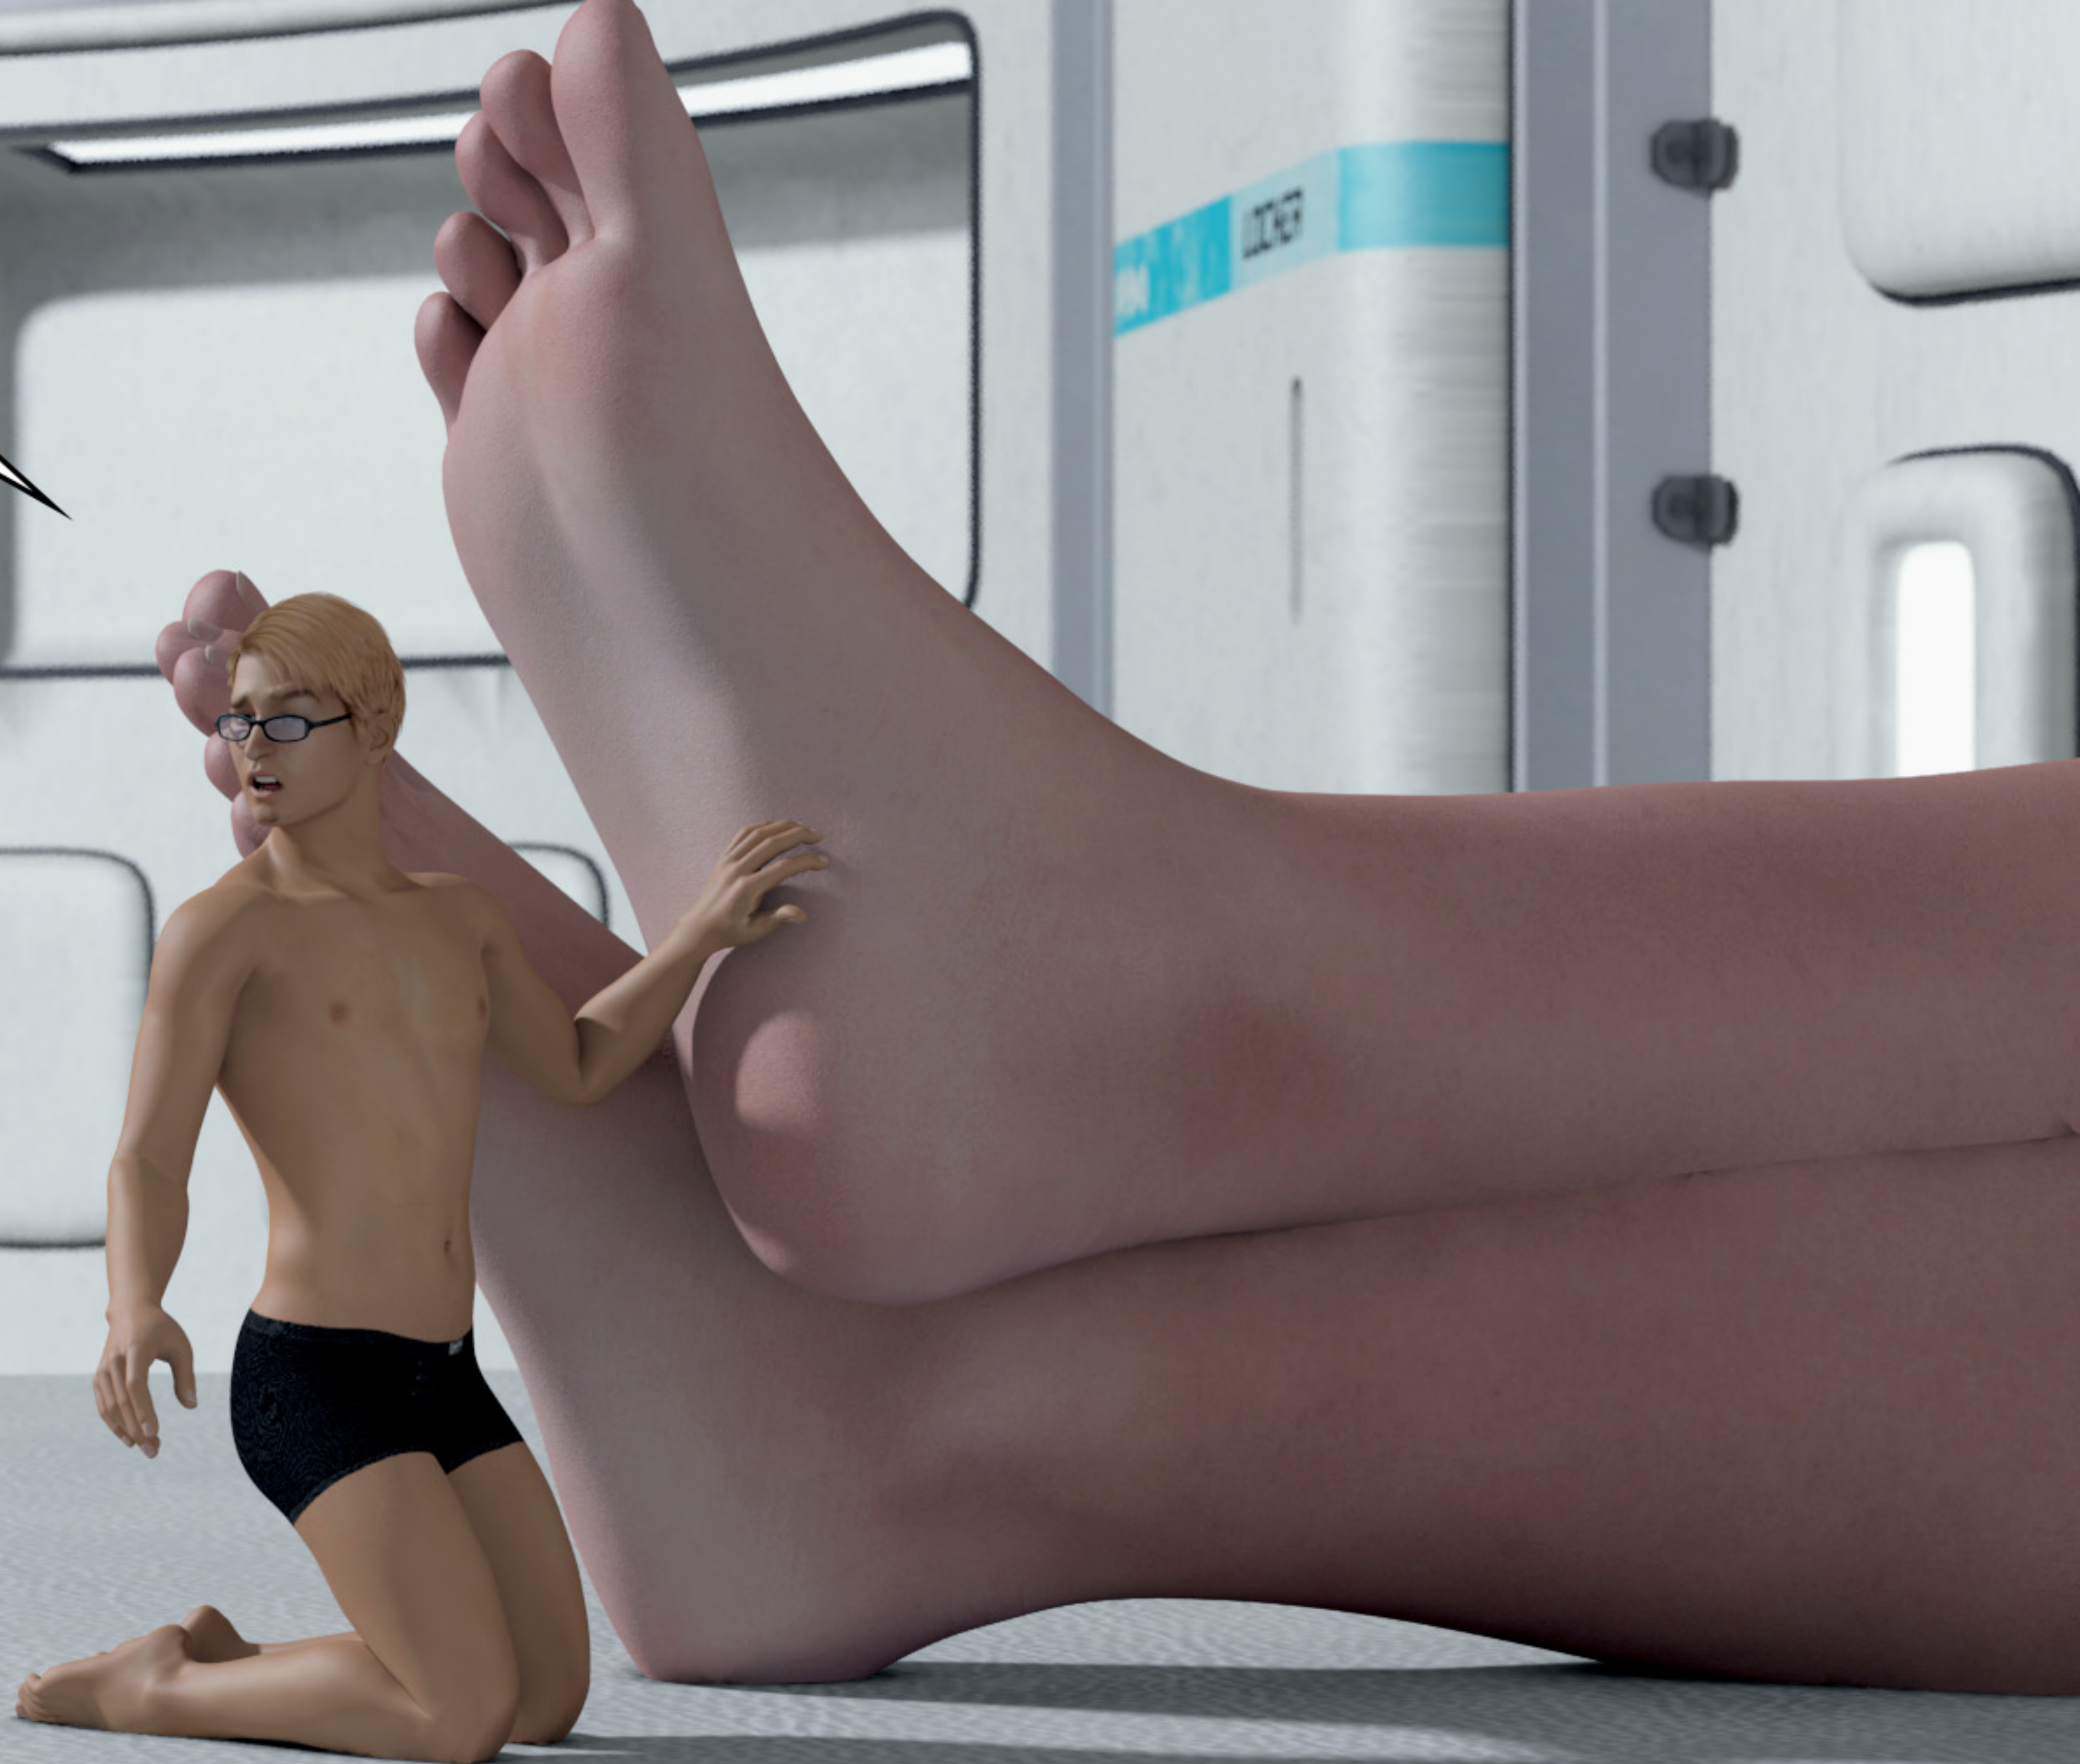

*It's open, Smurf..
All you have to do is
ask a woman to help
you press the knob.*

!

What have you
done to us, witch?!

*Guys! Thanks
For coming!*

*Do you see, blondie?
In this world men are
still useful. I'm sure you
could Force your colonel
to massage your Feet
too... You just have to
stop obeying him and
assume that you've got
the higher rank now...*

*Cut the crap, kiddo!
Tell us why we're
keeping shrinking!*

*Get down on
your knees and
beg me, little
man... Maybe then
I'll tell you.*

*You're a bitch!
I'll never be at
your Feet...*

*Don't disrespect
our Colonel!*

blondie, don't
worry...*

...I'll explain to you
what's going on!

Arrgghhh...
I... Can't... Move...

PANT

PANT

The effect began when we opened the gate. From the moment they have breathed the atmosphere of this planet, the men have started to shrink.

*But... I thought
Neweder's atmosphere
was the same as the
Earth's.*

It's similar, that's why it's breathable... but there are also other gases that react with the substance that has been inoculated into the five little men, and make them shrink more and more...

Why do you know all this?

Do you think Arrowway
wouldn't trust her secret
to one of the crew to
make sure her plan was
being carried out?

B... But... what's the
point of this?! How is
the human species going
to survive if men are so
small?!

*Calm down, honey...
This is just a control
mechanism, obviously
there's a way of getting
men back to their
"normal" size of one
meter in height. And
that's with our
breasts' milk...*

*Breast...
milk?*

It's our way of making sure that men are permanently dependent on us. Even if we are small and weak, a little man could work out a plan to attack us. But if they need our beautiful breasts... They won't do anything to us. You have to admit, Arrowway planned everything to the tiniest details.

*Are... are we
going to have to
breastfeed men like
babies?*

Exactly, blondie...
You're gonna have to
pull out that pair of
tits in front of your
respectable colonel and
Feed him like a little
baby...

Oh! I really wish
I...I could...

You... You...
You and Arrowway
are both sick!
You can't do this
to us!

*Now that I've told
you everything, it's up
to the rest of the girls.
I'm certainly going to
give my little man some
tit to keep him at a
Fuckable size. Unless he
misbehaves, of course.*

Sonia opened the door and the military couple left Elena's room. The giant redhead was more than satisfied to reveal one of the secrets of this mission on the planet Neweder. What other surprises would the male crew members receive?
