Ma always calls herself high class,
but the way she treats normal people...
it's like she's so paranoid around anyone
who hasn't got a mansion and money to spare.

Well, since Calvin's about to take my place he could do that more frequently whenever you two need to... so all you have gotta do is "break up" with him, and then spend more time with "me" of course.
Plus, the funniest thing about all of this is the fact that you're going to be fucking Calvin right under her nose, and she isn't going to know anything about it!
