

...SO WHILE THE METAMORPHOSIS WAS SCARY AT FIRST, SOON REALIZED HOW LUCKY I WAS TO BE THE FIRST INTERSPECIES BEING ON EARTH. I HOPE ALL THE RESEARCH BEING DONE ON MY BODY WILL UNLOCK EVEN MORE SCIENTIFIC BREAKTHROUGHS, BUT ALL THE PROBING CAN GET A LITTLE EXHAUSTING, HEH.

I'M MA'KIO, OR MARK IF YOU NEW ME BEFORE, AND I JUST WANT TO THANK YOU ALL FOR COMING TO THE WORLD'S FIRST INTERSPECIES SYMPOSIUM!

**SIX MONTHS LATER...**

HOLY CRAP! A  
REAL LIFE ALIEN!  
BRO, TODAY IS  
THE COOLEST  
DAY EVER!!!

RIGHT!? BRO,  
LOOK! SHE'S ACTUALLY  
OUT TALKING TO PEOPLE!  
UMM, EXCUSE ME, MISS  
M- MA'KIO? ARE YOU  
REALLY AN ALIEN? AND  
DID YOU REALLY USED TO  
BE HUMAN? I MEAN, HOW  
DO WE KNOW THIS ISN'T  
ALL JUST MAKEUP?

HEY, BOYS!  
WELCOME TO THE  
UNIVERSITY! I'M  
NOT TECHNICALLY  
AN ALIEN SINCE I  
CAME FROM EARTH,  
BUT...

MY DNA DEFINITELY  
ISN'T HUMAN ANYMORE!  
SAY, YOU BOYS WANNA  
SEE SOMETHING THAT  
CAN'T BE FAKED WITH  
MAKEUP?

YEAH!  
TOTALLY!!

MLAHHH!

WHOA!  
SO  
COOL!!!

A green alien woman with a round head and two antennae is shown from the back, wearing a black turtleneck and tan pants. She is sneezing into a long, purple, tube-like object that is protruding from her mouth. Her eyes are closed and her mouth is open. A young man with brown hair and glasses, wearing a white shirt and blue jeans, stands in front of her, looking up at her with a surprised expression. The scene is set in a brightly lit room with large windows in the background.

UH-OH. WHAT'S  
HAPPENING? IT FEELS  
LIKE I HAVE TO SNEEZE,  
BUT WAY MORE INTENSE!  
I CAN'T HOLD IT IN!

AH-  
AAHHH-

UHH,  
ARE YOU  
OKA-

EUGH!!

GROSS! DID WE  
JUST GET  
SPRAYED WITH  
ALIEN SNOT!?

ACHOOO!

OH NO.  
UHH, COULD YOU TWO  
FOLLOW ME, PLEASE?  
S- SORRY, WE CAN'T  
LET ANYONE OUT OF  
THE LAB WHO'S BEEN  
EXPOSED TO MY BODILY  
FLUIDS WITHOUT  
OBSERVATION...

SHIT, DR.  
MARZAN IS  
GONNA KILL  
ME!

WE GET TO  
SEE THE  
ALIEN LAB!?  
AWESOME!

UHHH, T-  
THIS ISN'T  
AS COOL AS  
I THOUGHT  
IT'D BE...

H- HOW LONG  
DID YOU SAY WE HAD  
TO STAY IN HERE?  
DON'T WORRY, BILLY.

KNOW WHAT HAPPENED!  
I HAVEN'T SNEEZED  
SINCE I CHANGED, AND  
ALL THE ALLERGY TESTS  
YOU RAN WERE  
NEGATIVE...

IT'S NOT YOUR  
FAULT, MARK. I KNEW  
IT WAS TOO EARLY FOR  
PUBLIC EXHIBITIONS. I  
JUST HOPE THESE KIDS  
DON'T START SHOWING  
ANY SIGNS OF  
METAMORPH-

ERM, BRO?  
WHY ARE YOU  
LOOKING AT ME  
LIKE THAT?  
WAIT, WHAT'S

WHAT'RE WE  
GONNA-

DAMNIT.  
THERE'S NOTHING  
WE CAN DO. START  
THE RECORDING  
DEVICES. AT LEAST  
THIS WILL AID OUR  
RESEARCH.

OH MY GOD!  
PROFESSOR, WHY  
DOES THE LITTLE  
ONE LOOK LIKE  
THAT?! HE LOOKS

MONSTER...

FASCINATING.  
IT SEEMS

HELP IT...

Y- YEAH, I  
CAN TELL. IT'S FINE.  
WE'RE SCIENTISTS.  
WE JUST HAVE TO

OFTEN? AHH...  
THAT'S GONNA  
TAKE A WHILE  
TO GET USED  
TO...

A yellow alien woman with two antennae and large breasts is pulling up a dark turtleneck sweater. She is looking at a muscular human man with grey hair and glasses who is shirtless and sweating. They are in a laboratory setting with a table and chairs in the background.

PROFESSOR, DID YOU SEE THAT?! THE LARGE ONE'S PHALLUS JUST FULLY RETRACTED! IT LOOKS LIKE A NATURAL VAGINA AGAIN!

YES, IT WOULD SEEM THEY'RE PROTOGYNOUS. YOU DON'T FEEL ANY SECONDARY SEXUAL TRAITS IN YOU, RIGHT??

ONLY YOURS, PROFESSOR- WAIT, LOOK! ARE THEY...BONDING? THEY'RE STARING AT THE EGGS, AND THEIR BODY LANGUAGE IS SHIFTING...HOLY CRAP! THOSE EGGS LOOK LIKE THE SAMPLE I TOUCHED!

HEH, GOOD ONE. WOW, I BELIEVE YOU'RE RIGHT! I THINK THEY'RE BECOMING A PARENTAL UNIT! AND WE NEVER FOUND THE ORIGIN OF THAT SAMPLE. COULD THIS BE THE FIRST STAGE OF THE REPRODUCTION CYCLE?!

BILLY, LOOK AT  
WHAT WE MADE  
TOGETHER!  
AREN'T THEY  
BEAUTIFUL?

WOW, THEY ARE BEAUTIFUL. THESE EGGS...OUR EGGS...JUST LOOKING AT THEM MAKES ME FEEL LIKE I...I...

I'LL  
PROTECT  
THEM WITH  
MY LIFE!

I'LL KILL  
ANYONE THAT  
TRIES TO  
TAKE THEM  
FROM US!

E EK! UH, PROFESSOR? DO YOU THINK OUR SEDATIVES WILL BE STRONG ENOUGH TO SUBDU E THAT ONE?

ERMM, I'M MORE CONCERNED WITH THE INTEGRITY OF THE OBSERVATION CHAMBER...

RRRAHHH!!  
GHROARRR!!

NOW NOW, IT'S  
OKAY, BILLY. THESE  
SCIENTISTS WANT  
TO HELP US. WE  
SHOULD SHARE OUR  
EGGS WITH THEM.  
ALL OF THEM...

RRGHH...  
S- SORRY, THESE  
INSTINCTS ARE JUST SO  
STRONG! I NEED TO  
PROTECT YOU, AND I HAVE  
ALL THIS NEW EQUIPMENT  
TO DO IT WITH. MY TEETH,  
MY CLAWS, MY  
MUSCLES...HEH, I GUESS  
I'M KIND OF A MONSTER  
NOW...

YOU'RE NOT A MONSTER. YOU'RE A GUARDIAN. I WANTED TO PROTECT YOU WHEN I WAS YOUR OLDER BROTHER, BUT I GUESS NOW IT'S YOUR TURN TO PROTECT ME, HEH. YOU KNOW, THIS WHOLE DAY HAS BEEN PRETTY INTENSE, BUT I'M GLAD WE'RE NOT ALONE.

AW! I PROMISE TO TAKE CARE OF YOU FOREVER, WHETHER WE'RE HUMAN BROTHERS OR, UH, WHATEVER WE ARE NOW. PARTNERS FOR LIFE!

AWWW, THIS IS ACTUALLY KIND OF SWEET! I MEAN, IT'S NOT INCESTUAL AFTER SUCH DRASTIC DNA CHANGES, RIGHT?

HEH, YEAH, I THINK THIS REPRODUCTIVE CYCLE MAKES IT IRRELEVANT ANYWAY. I'M JUST GLAD THEY RETAINED SOME... HUMANITY.

**ONE YEAR  
LATER...**

...IN SHORT,  
WE'VE LEARNED  
AN INCREDIBLE  
AMOUNT ABOUT  
THIS NEW SPECIES  
SINCE OUR LAST  
SYMPOSIUM.

NOW, HERE TO  
PRESENT OUR  
FINDINGS IS MY  
LOVELY RESEARCH  
PARTNER, WHO JUST  
DEFENDED HER  
DOCTORAL THESIS!  
PLEASE WELCOME...  
DR. MA'KIO!

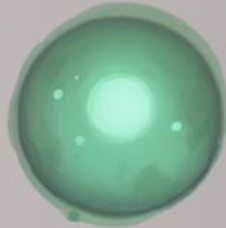

GREETINGS,  
EARTHLINGS!  
HEHEH, THANK  
YOU FOR THE  
GLOWING INTRO,  
PROFESSOR  
MARZAN!

NOW, I  
ASK YOU ALL TO  
TURN YOUR  
ATTENTION TO THE  
MONITORS FOR OUR  
PRESENTATION.  
LIGHTS,  
PLEASE!

# The Terra-Gynomorph Reproduction Process

Human comes into contact with a TG "egg" and triggers metamorphosis into one of two known TG species

TG-1 species share many physical characteristics with human females and are responsible for gestating and birthing the TG "eggs."

Example 1: TG-1 Species

TG-2 species are much taller and have significantly more muscle mass than their TG-1 counterparts. They also possess claws, and sharp teeth. They seem to be responsible for protecting their TG-1 mates and their brood.

Example 2: TG-2 Species

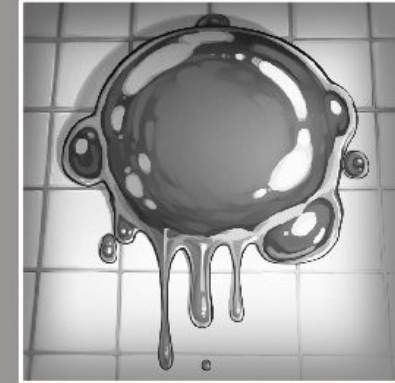

# Terra-Gynomorph-1 Characteristics

When in heat, the TG-1 species will excrete pheromones that elicit a powerful arousal response from compatible partners. The TG-1 species is capable of 2 known reproduction methods depending on the species of their partner.

Example 3: A TG-1 in heat

Should a TG-1 copulate with a human, it will convert the human semen into a pathogen capable of causing rapid morphological changes in human beings if contact is made. The pathogen is spread via body fluids, and the TG-1 appears to have no control over how it spreads (ex. A TG-1 suddenly sneezing when in proximity of a viable subject)

Example 4: Pathogen material sample from a TG-1

Should a TG-1 copulate with a TG-2, it will rapidly gestate and oviposit a brood of "eggs" once fertilized. However, these are not "eggs" in a traditional sense and do not hatch. Instead, they carry a similar pathogen that is capable of triggering rapid changes in humans that come into contact with it. The "eggs" seem to be single-use as once a human has been converted, the "egg" they touched becomes inert.

Example 5: A TG-1 ovipositing

Humans who come into contact with the pathogen will be converted into either TG-1 or TG-2 units depending on population balance. This reproduction method only seems to affect humans undergoing puberty by hijacking the physical changes brought on by hormonal growth.

These "eggs" are capable of converting humans regardless of age or physical condition. TG-1 subjects have also shown an instinctual drive to hide their eggs in places likely to cause curious humans to make contact with them.

# Terra-Gynomorph-2 Characteristics

*Example 6: A TG-2 subject posing for research photography*

Humans who become TG-2 units undergo a more intense transformation than their counterparts. The process involves their height increasing to over 7ft, their bone density increasing, their teeth sharpening, and their digits growing claws and reforming into something closer to an apex predator. Their muscle mass is also increase, granting them superhuman levels of strength and stamina. TG-2 subjects have shown an increased level of sensory awareness and an instinctual desire to protect their partners and brood. While their mental facilities remain mostly intact, TG-2 subjects must exert significant mental effort to resist attacking researchers who approach their "eggs," but show no aggression towards subjects who seemingly have no knowledge of the purpose of the "eggs" when they approach. It would seem that TG-2s can sense the intent of humans in close proximity, potentially suggesting low-level psychic abilities. They instinctively want to protect their "eggs" from being destroyed and analyzed by the research team, but will happily let an unsuspecting human contract the pathogen.

Despite outwardly presenting female sexual characteristics, TG-2 units are actually gynandromorphic and capable of growing male genitalia when exposed to the pheromones of a TG-1. Once they've mated, their genitalia will retract, likely to provide maximum mobility.

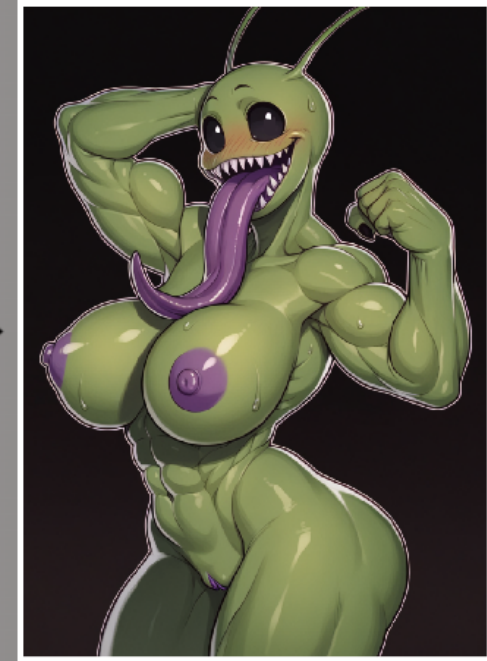

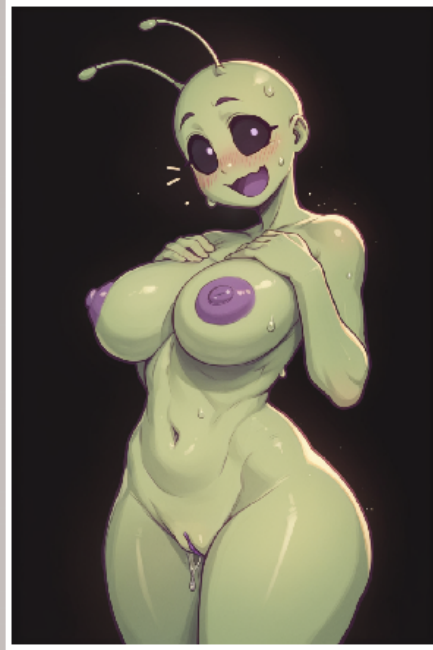

*Example 7: A TG-2's male genitalia extending out of their female genitalia after being exposed to TG-1 pheromones*

*Example 8: A TG-2 with their male genitalia fully extended and erect.*

# Today's Special Guests

*Jeremy Shepard, the first human to undergo metamorphosis via TG-1 body fluid exposure. Now goes by the name "Je'Tai" and is proud to be one of the first interspecies.*

*Billy Shepard, the first known TG-2 metamorphosis. Now goes by the name "Ba'Zuq" and thoroughly enjoys having superhuman abilities. A fierce protector of Je'Tai and the brood they made together.*

PLEASE  
WELCOME MY

# BREAKING NEWS

## THEY CUM IN PEACE?

The transformation process, which has been dubbed "The Green Metamorphosis" by scientists, occurs rapidly upon contact with the glowing orbs. Witnesses describe a mesmerizing display of sensual moans and intense spasms as the human subject undergoes a complete physiological metamorphosis, emerging as a fully-formed green-skinned alien with distinctly feminine features. Subjects who have undergone the transformation describe it as "terrifying at first, but also the most intense pleasure imaginable..."
