It happened in Puerto Rico, a small caribbean island. Up in the mountains, north of Arecibo, along the River Camuy. Tenci and Enrique passed the afternoon having a picnic.

NENA! I didn't mean it that...  
Oh, Damn!

You're just a macho pig, Rique!

You're afraid of strong women!

You're insecure!

I am NOT!  
And watch your step!

**TENCI!**

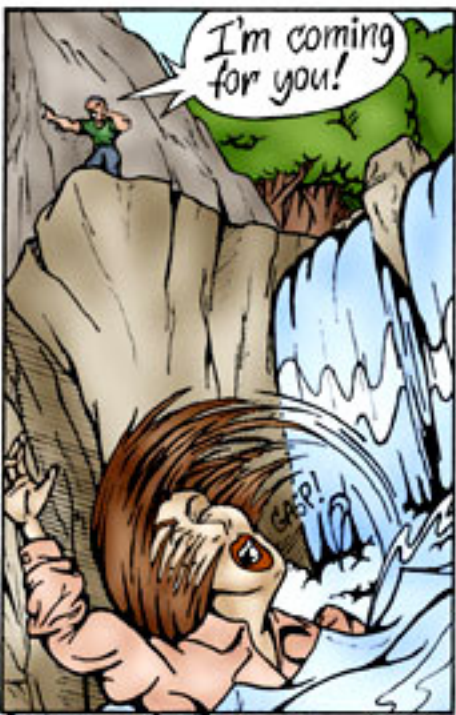

**NO!**

DO NOT STEAL

Kenci falls into the swift moving Camuy River.

Somehow Tenci survived her underground fall waking up in a shallow pool where the Camuy River ran a little calmer.

Where am I?

Say something! Enrique, can you hear me?!

Ten... Cough! Cough!

COUGH!  
COUGH!  
GAG!  
COUGH!  
HACK!

How are we gonna get outta here?

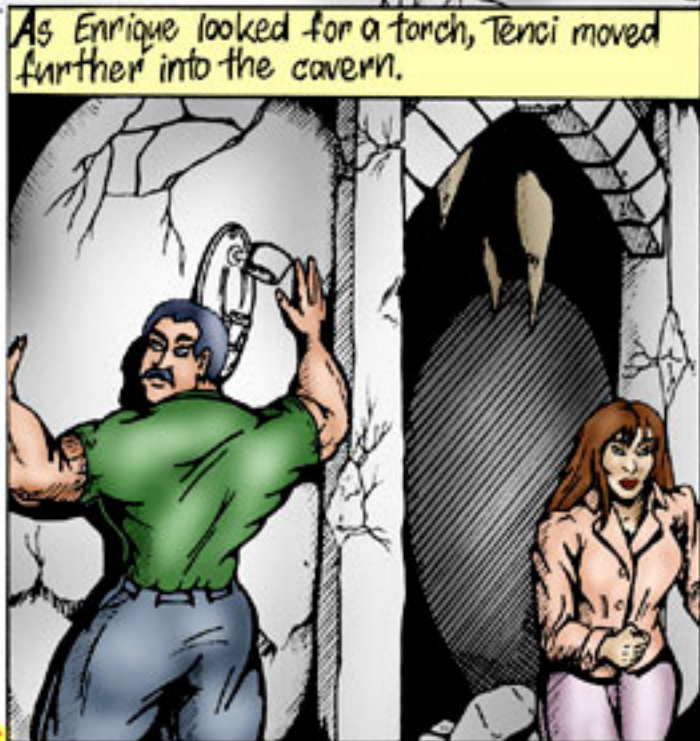

I don't remember anything after the water fall. There's no way of telling how long we were out.

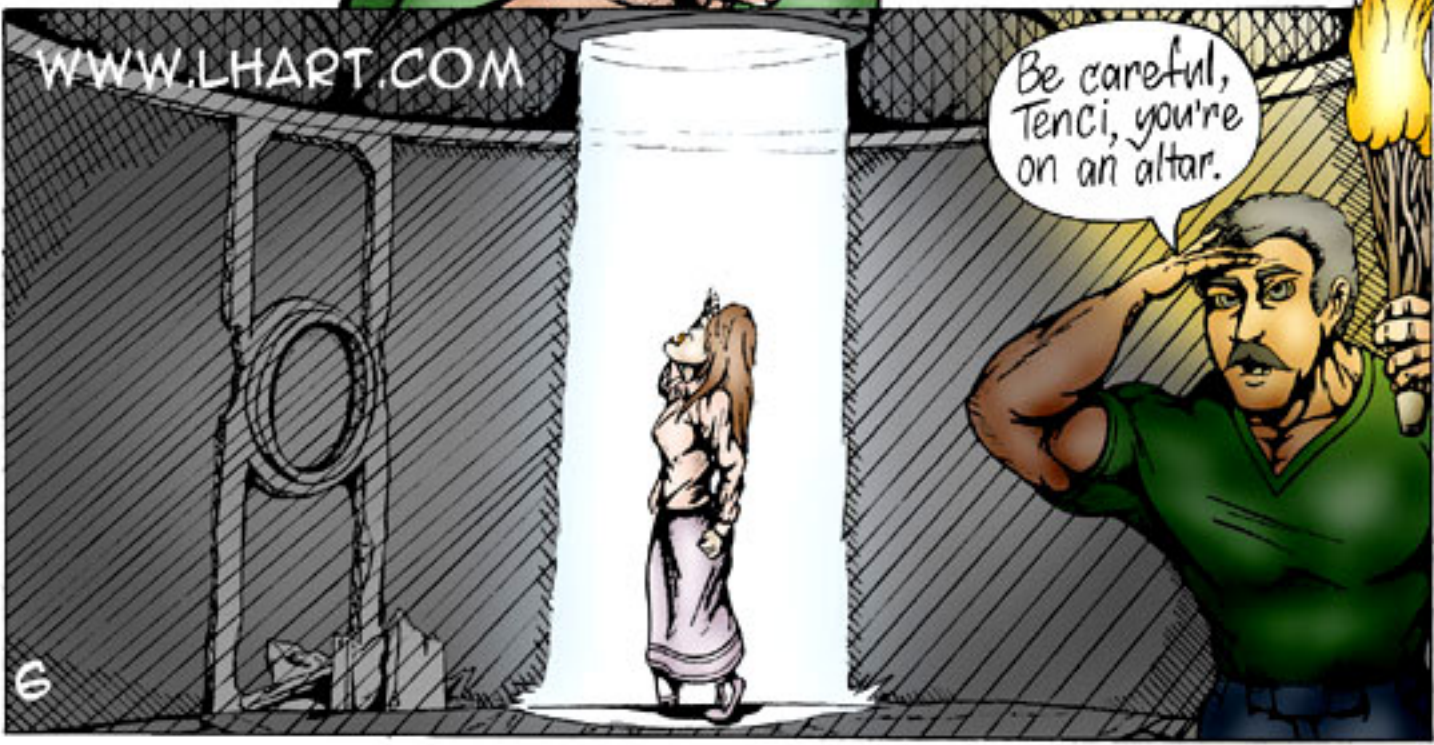

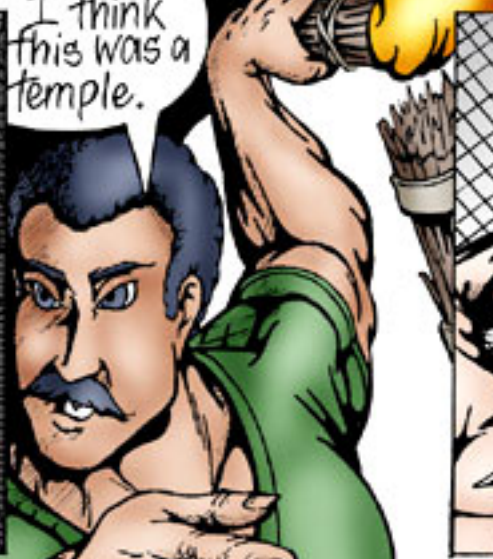

What's that?

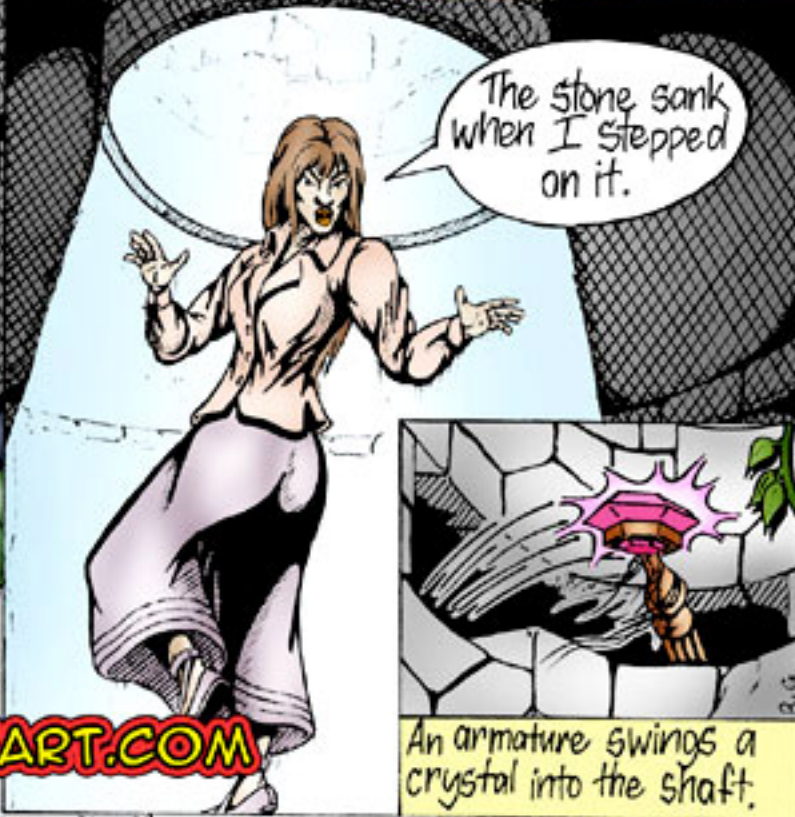

Tenci and Enrique follow the steep stone passage for almost 1/2 an hour before entering a chamber.

Looks like an altar for a witch.

The stone sank when I stepped on it.

An armature swings a crystal into the shaft.

Check this out!

On the night of the Snow Moon Tenci had activated an ancient device. Long forgotten since the time of Columbus' massacre of the natives and their Priestess.

After 500 years, the temple's power would be released again.

It's just a dozen crystals moving in the moonlight... come on.

Tenci! Get outta there before a boulder falls on you or something!

The crystals glowed and electricity arced brightly.

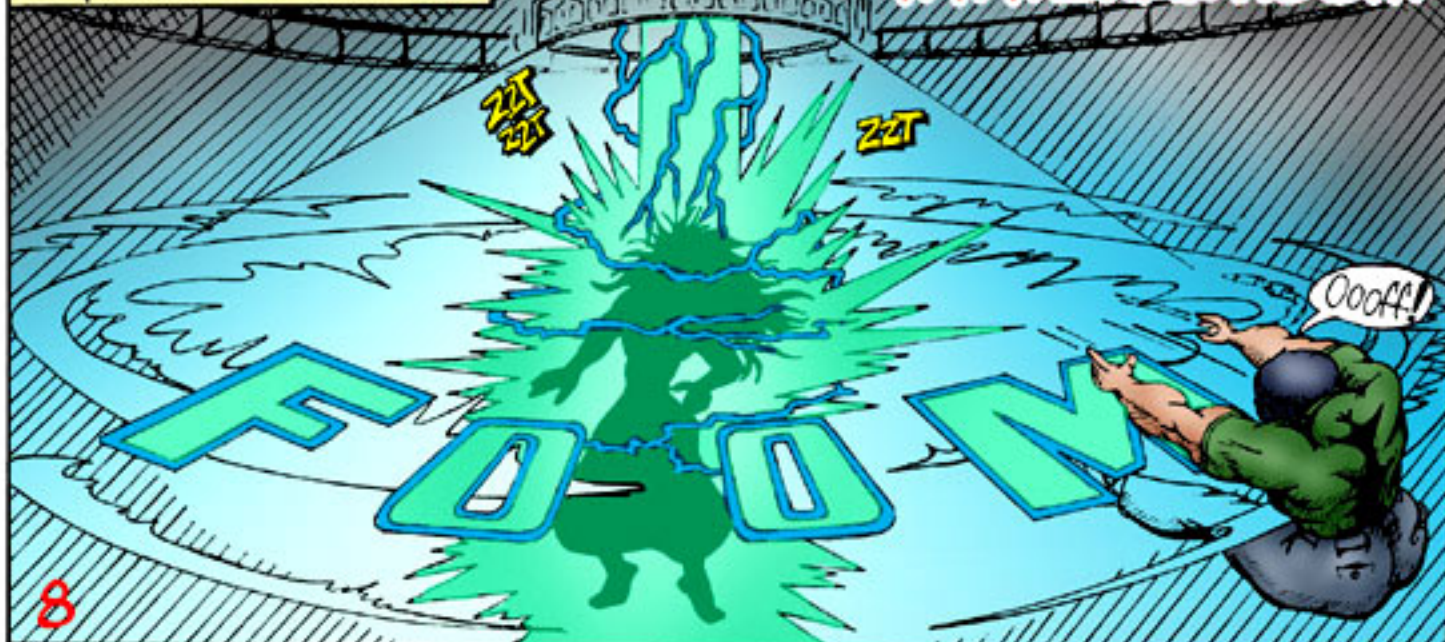

Uh-Oh...

Get Out! Uh-Oh, isn't good!

Before he could reach her, the power was released.

Oooff!

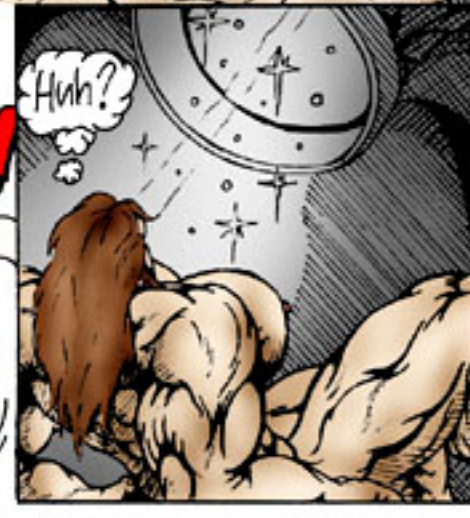

Tenci's body grew massive. Her clitoris and pussy engorged.

As time passes and the heavens spin, her feast would soon... very soon... be over...

With the power source gone the crystals retracted to await the next time the alignment would be right.

Rique! Are you okay?

Yeah, I think so, but my head...  
...Jesus CHRIST!

What the hell happened to you?!

I got my desire. Somehow the crystals and moonlight changed me. I feel great!

You're a FREAK!

I AM NOT!

Don't get me mad!

Guys are supposed to have muscle!...

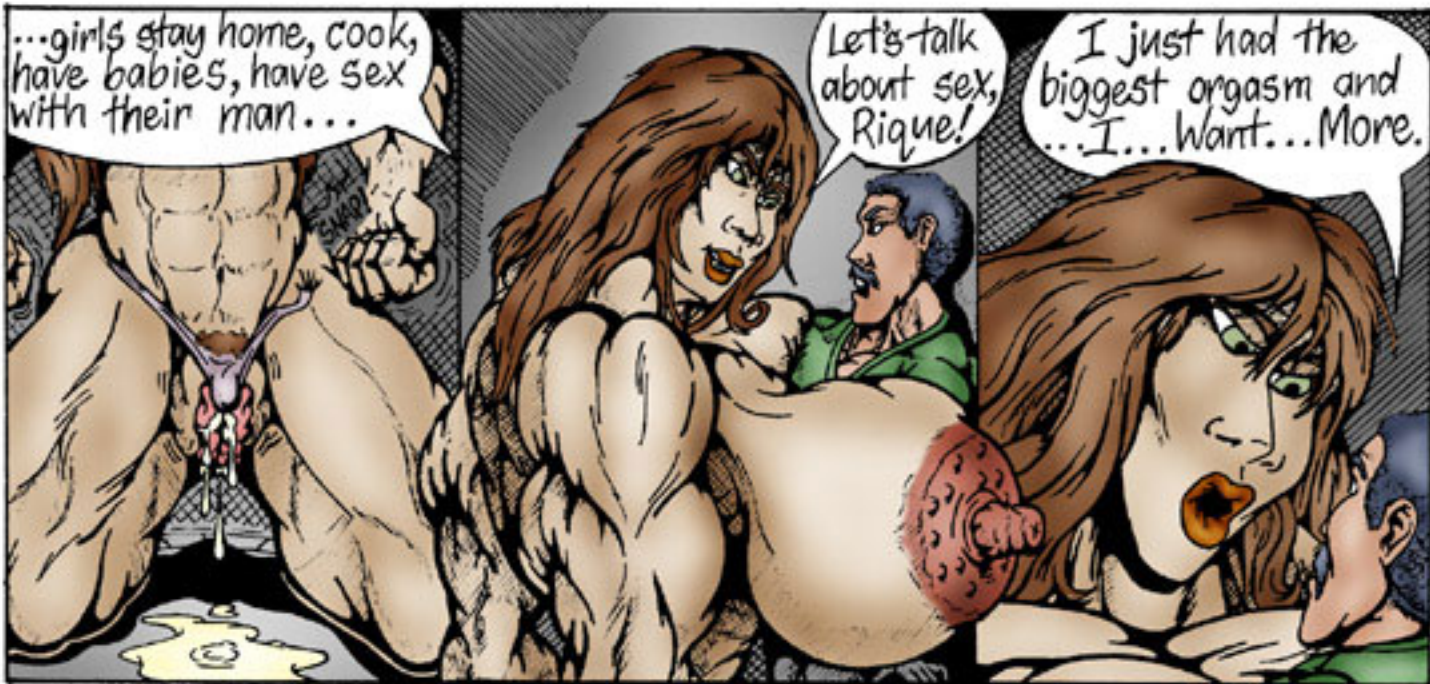

...we're supposed to have power! Not girls...!"

...girls stay home, cook, have babies, have sex with their man...

Let's talk about sex, Rique!

I just had the biggest orgasm and ...I... Want... More.

Yeah, like I wanna have sex with the Hulk.

Be nice or I'll flex my pecs and break your ribs.

**RIIP!**

What's this? Your mouth says no, but 'He' says yes.

Stop It!

Don't worry, I won't hurt you ... as long as you please me.

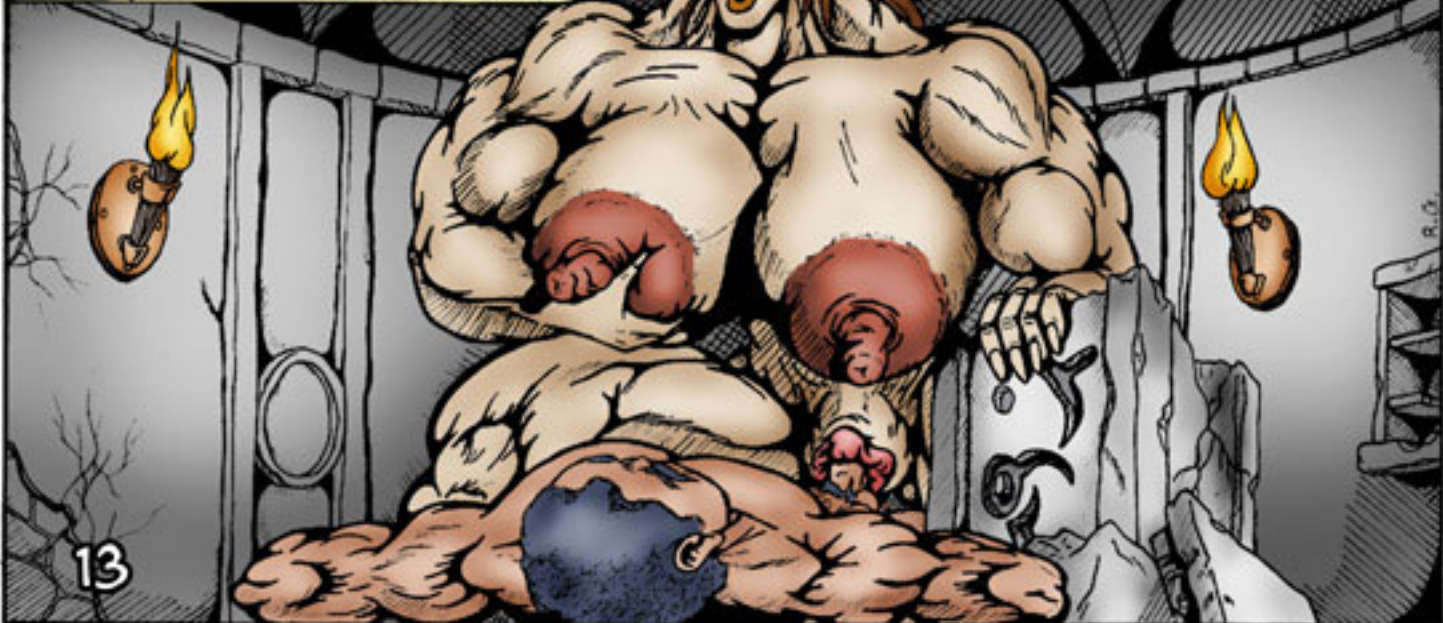

Tenci's new appetite was more than Enrique could stand.

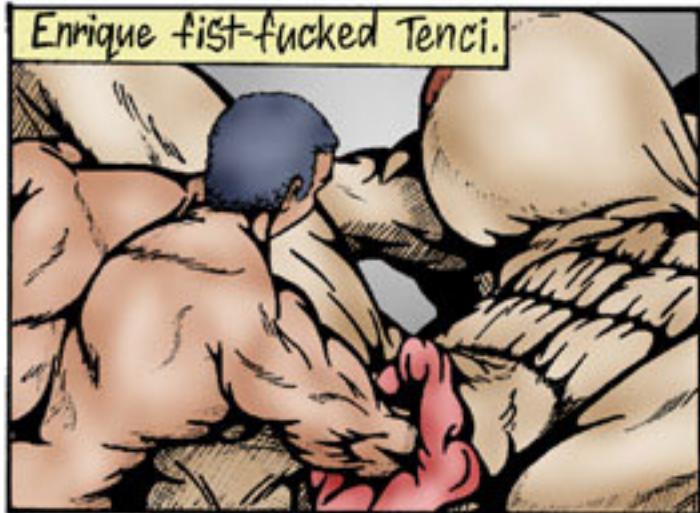

Tenci's pussy had developed along with the rest of her body. Nerve endings that had multiplied, hungry for stimulation.

Enrique fist-fucked Tenci.

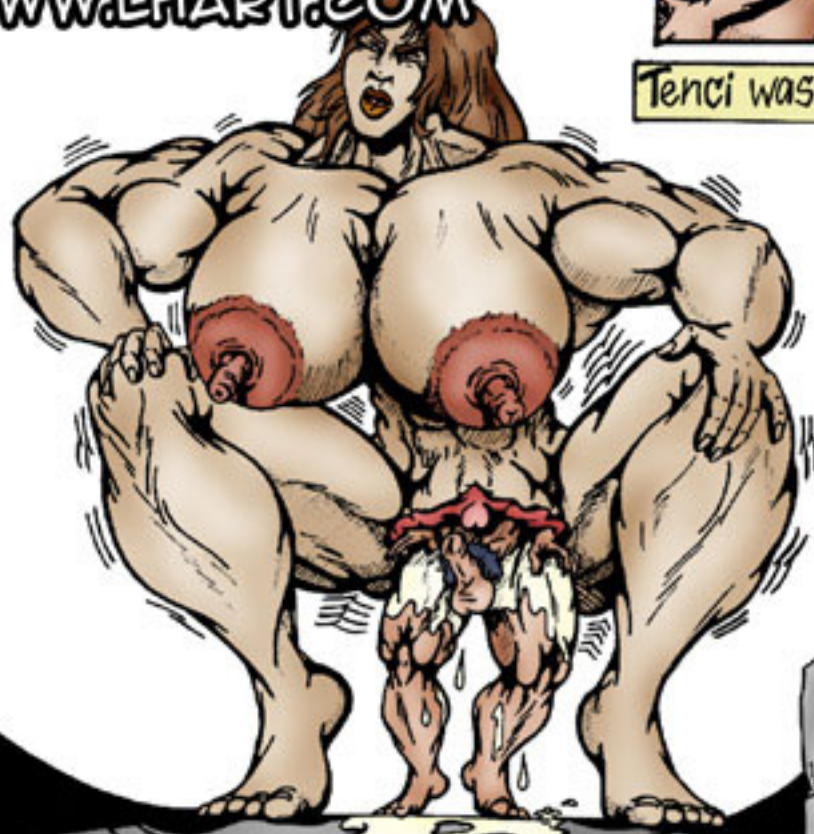

Like a snake, her pussy sucked him in.

Tenci was on the verge...

She came in a flood.

What do you think now?

I guess I still have a lot to learn.

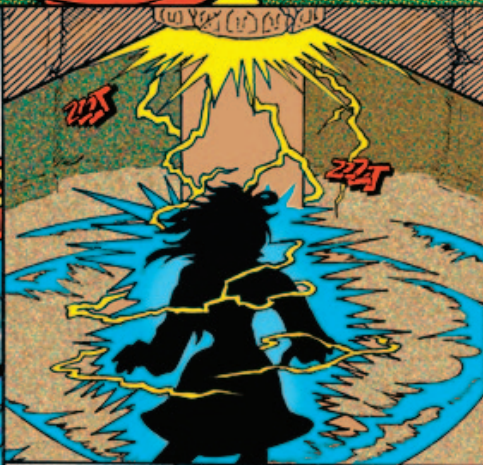

I'll teach those other guys at the gym, when we go to workout tomorrow.

# ALTAR-ACTIONS

*El Segundo Parte*  
by Robby Guadalupe

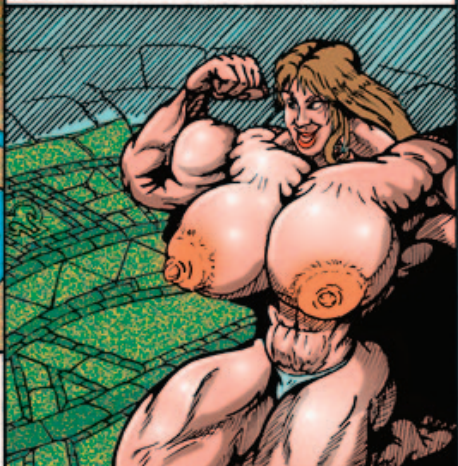

Last time, Tenci and Rique had been swept down the Camuy River, into the underground caverns.

... had transformed her into a sexy, massively muscled, insatiable amazon.

Tenci had accidentally activated an ancient altar device, which ...

After satisfying her lust, for the time being, the question remained...

The way we came in is too narrow. They must've had another way out after the change.

So, how do we get out?

Which symbol sank when you stepped on it?

Aries.

Aries is a fire sign. Hmm, light, energy, change...

Air signs? No, air feeds fire. What cools?

Water or Earth.

Hmm, Scorpio is a sign of transformation, ... isn't it?

It's a water sign... Damn! It won't budge!

If it's the right one, it's set for a bigger person.

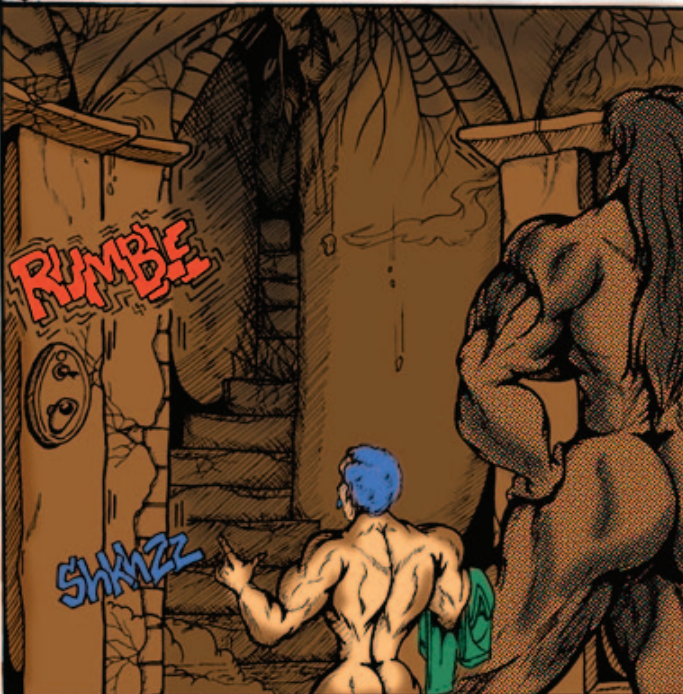

It just needs a woman's touch.

WHAP WHAP WHAP WHAP

KER-GLANK

The new passage was large enough for Tenci to walk out easily. Enrique grabbed his tattered clothes.

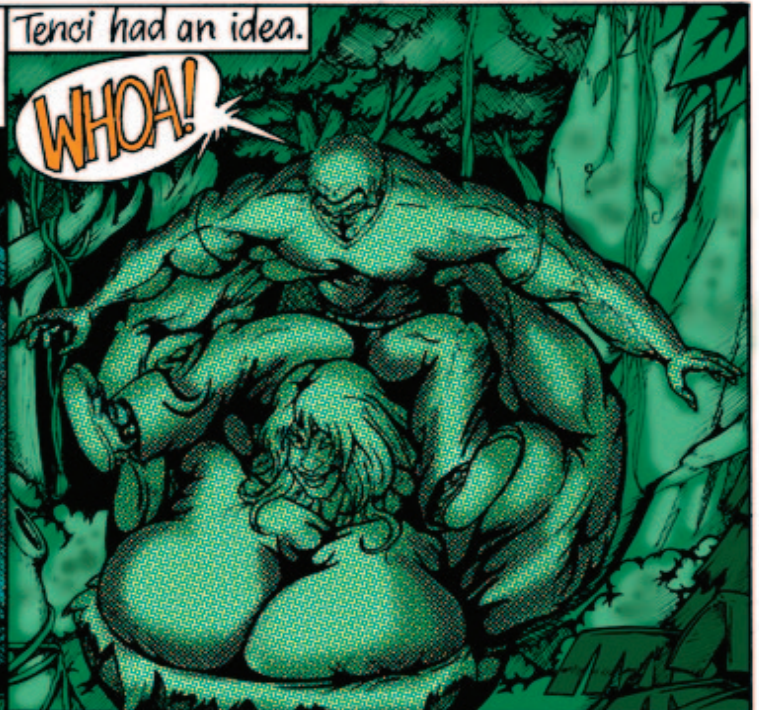

Once on the surface, Tenci used her tattered clothing and some vines to create a makeshift covering.

They decided that Tenci couldn't go home in her present state, but they still had to get to Enrique's home unnoticed.

Tenci had an idea.

WHOA!

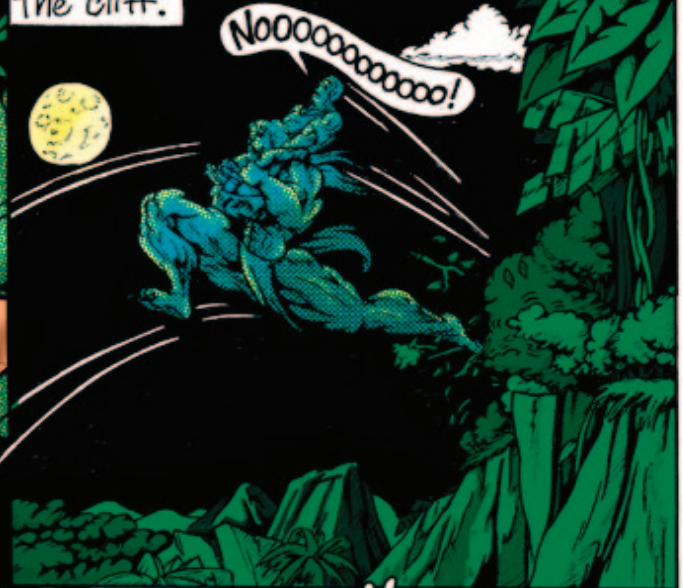

What are you going to do?

Hold on tight.

Using her new strength, Tenci ran as fast as she could and leapt from the cliff.

Nooooooooooooo!

WWW.LHART.COM

WHUMP

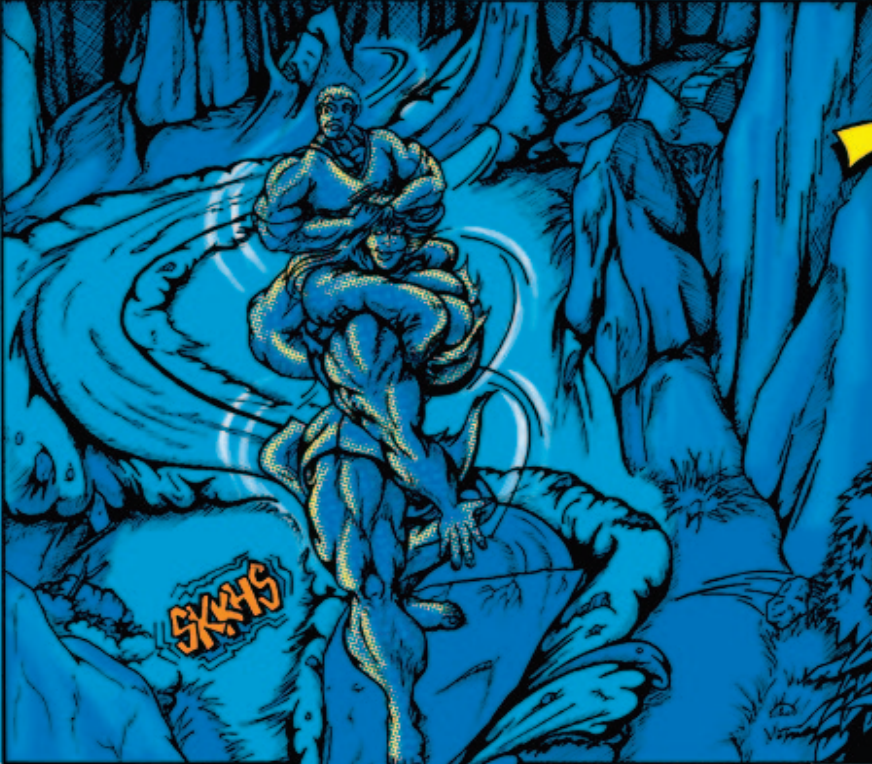

SNAP

TENCI!!!

Tenci rode it down the cliff face like a surfboard.

Take it easy, Nena.

The physical exertion was exciting her.

Soon Tenci leapt into Rigue's backyard.

It was almost dawn as Enrique went to unlock the door.

What's wrong?!

WWW.LHART.COM

Nothing's wrong... too much... is right.

She came, once more, her juices covered the deck.

Even afterwards her body quivered with lust & power.

Loose the clothes.

Enrique was amazed at the power she was generating... was it growing?

Get over here.

Yeah! That feels good!... lick it, Hon!

Yessss!

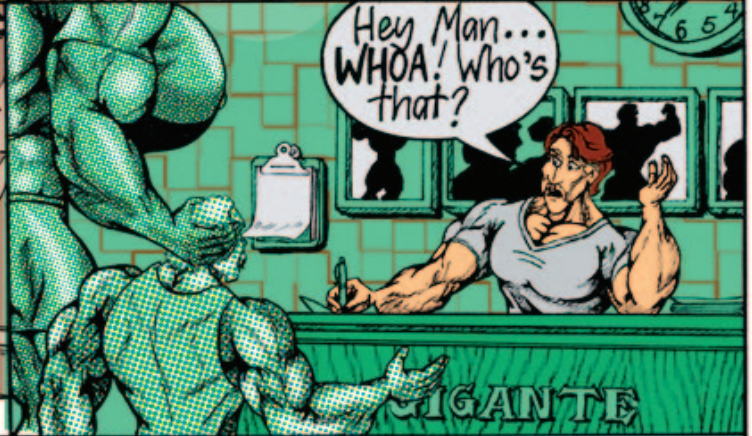

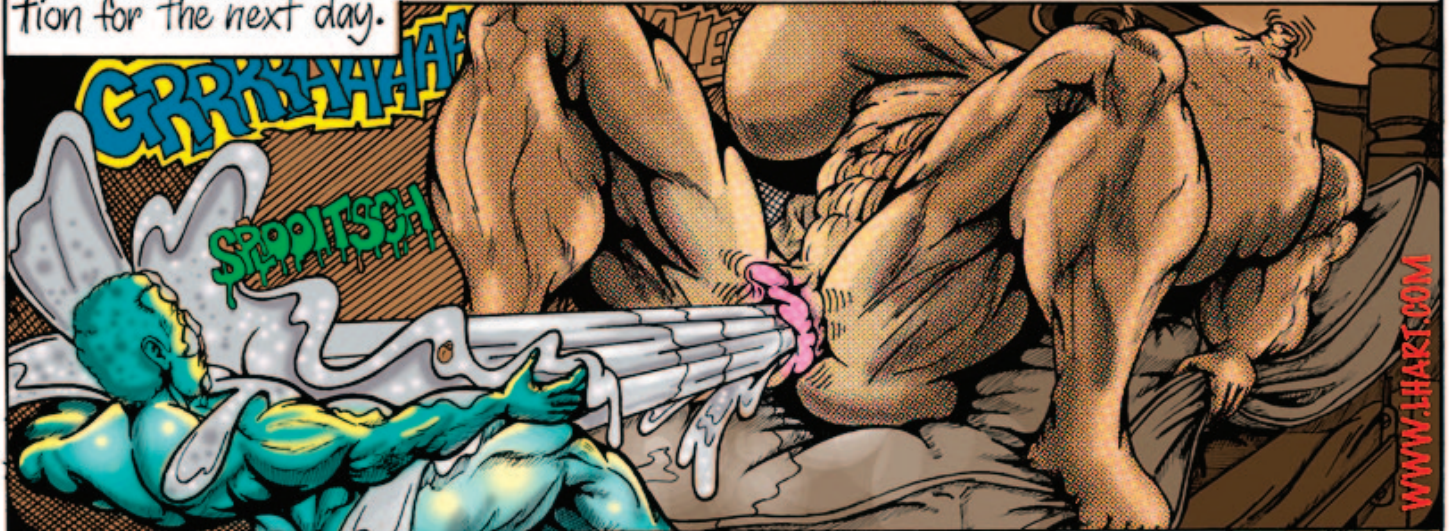

PANT

PANT

PANT

Tenci came again, drenching Enrique in her juices. Afterwards, they rested in preparation for the next day.

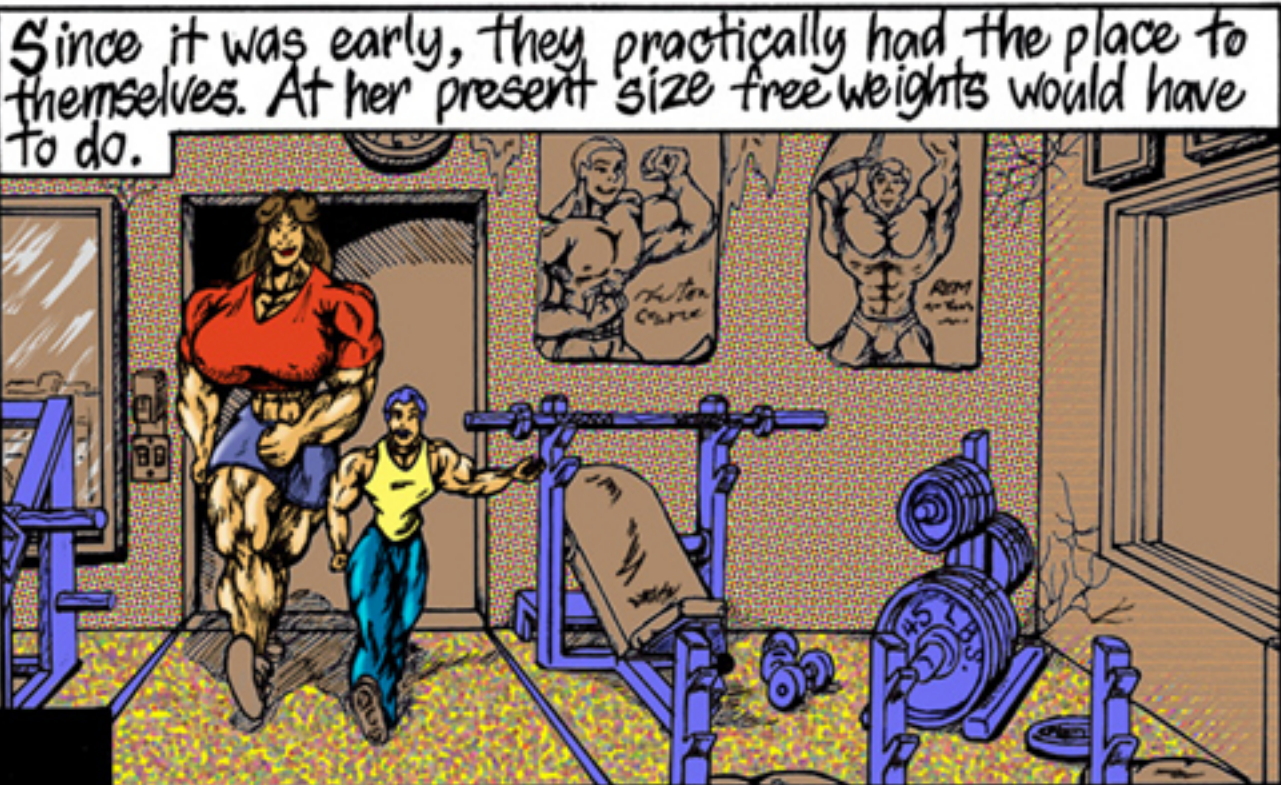

In the morning...

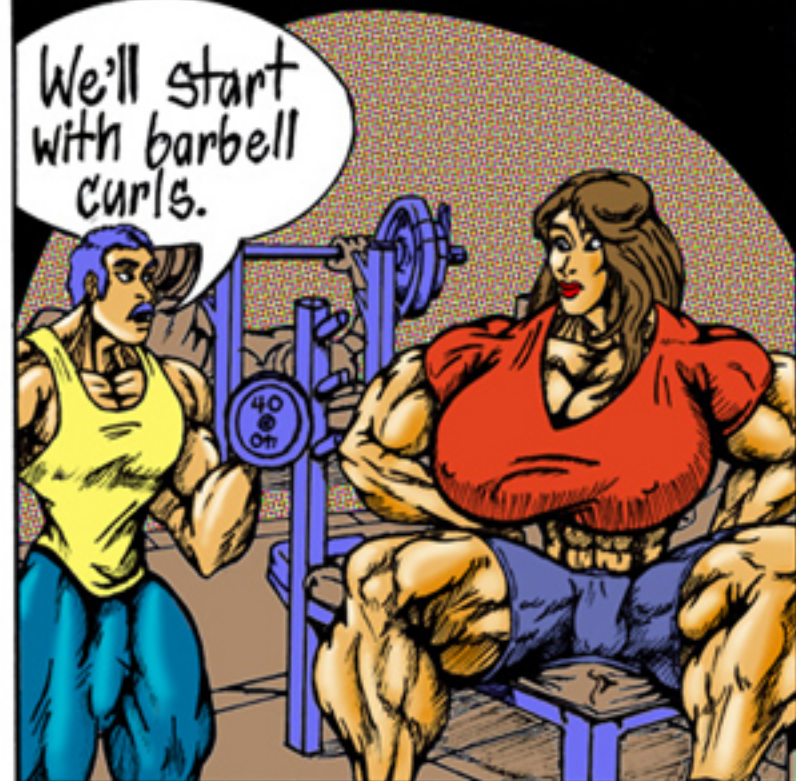

to continue...

N-n-no... go right in.

Since it was early, they practically had the place to themselves. At her present size free weights would have to do.

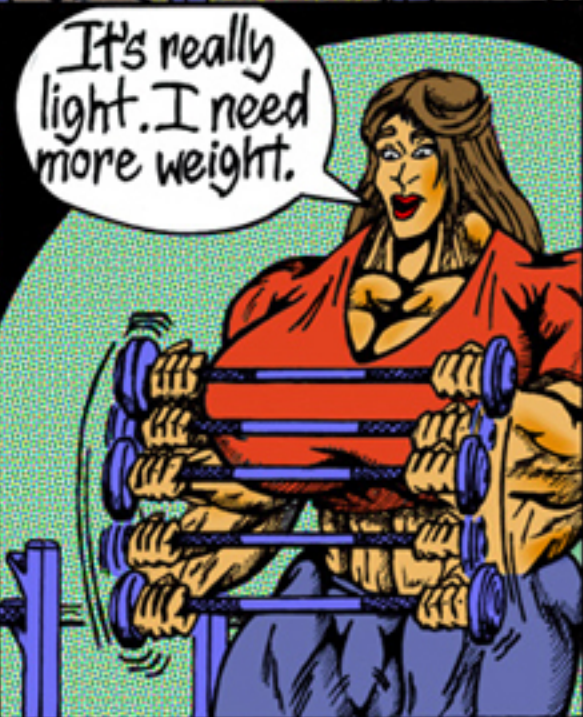

We'll start with barbell curls.

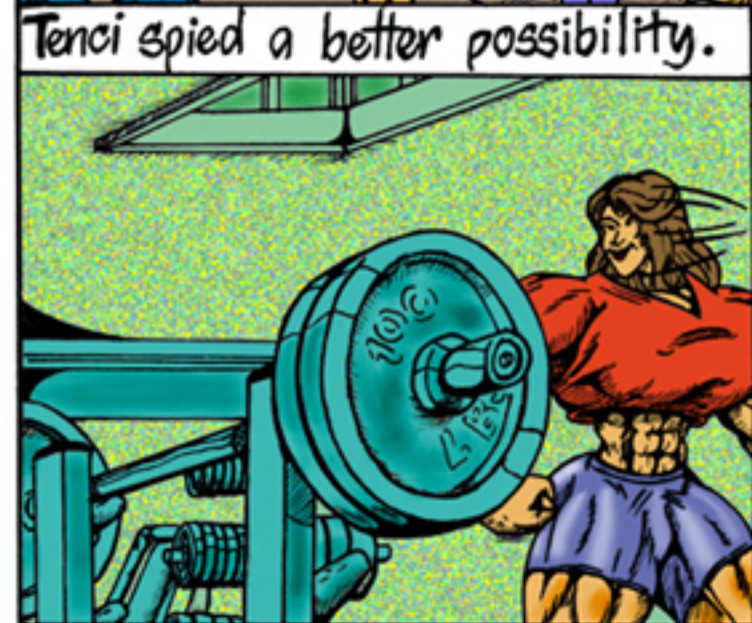

You try it.

Okay, but it seems so small.

It's really light. I need more weight.

Tenci spied a better possibility.

Oooh...that's nice!

Show me more.

This works your shoulders the deltoid muscles.

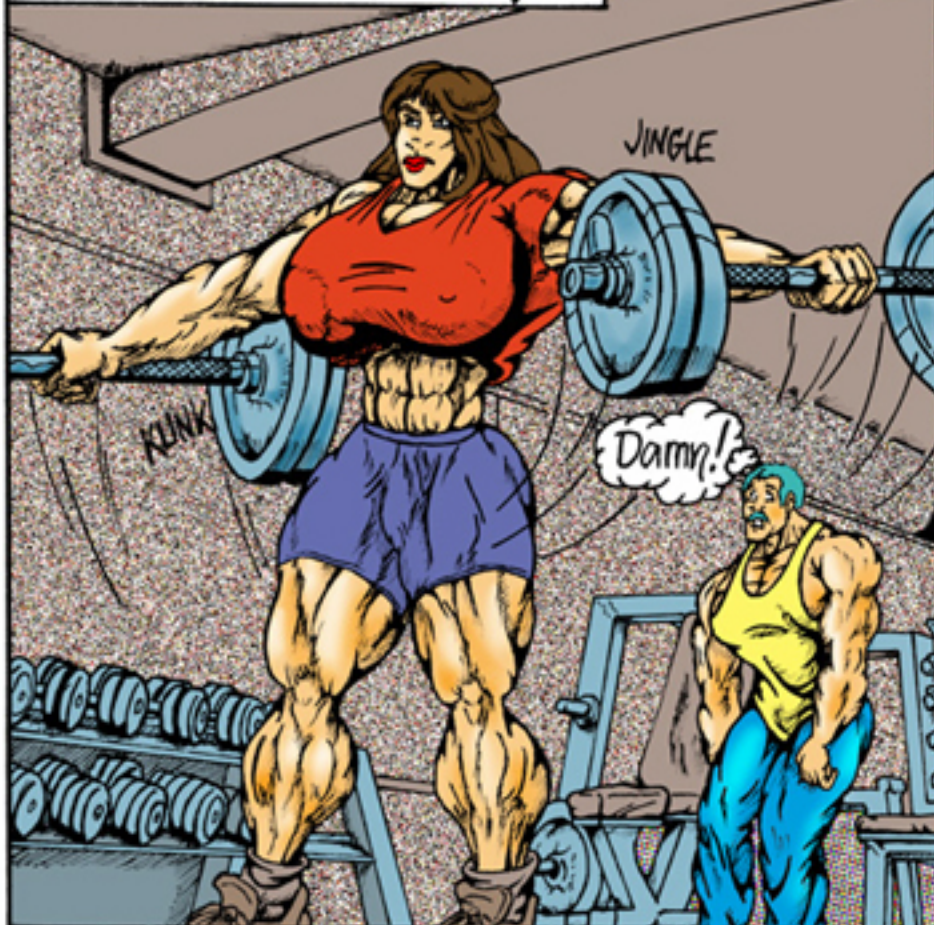

Don't you guys have anything bigger?

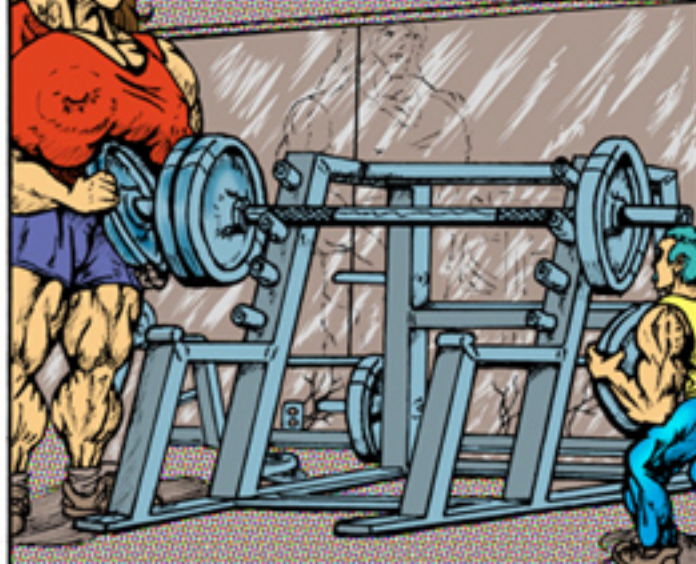

As she exerted herself Tenci became excited!!

Using 2 barbells like dumbbells, Tenci did her best to copy Enrique.

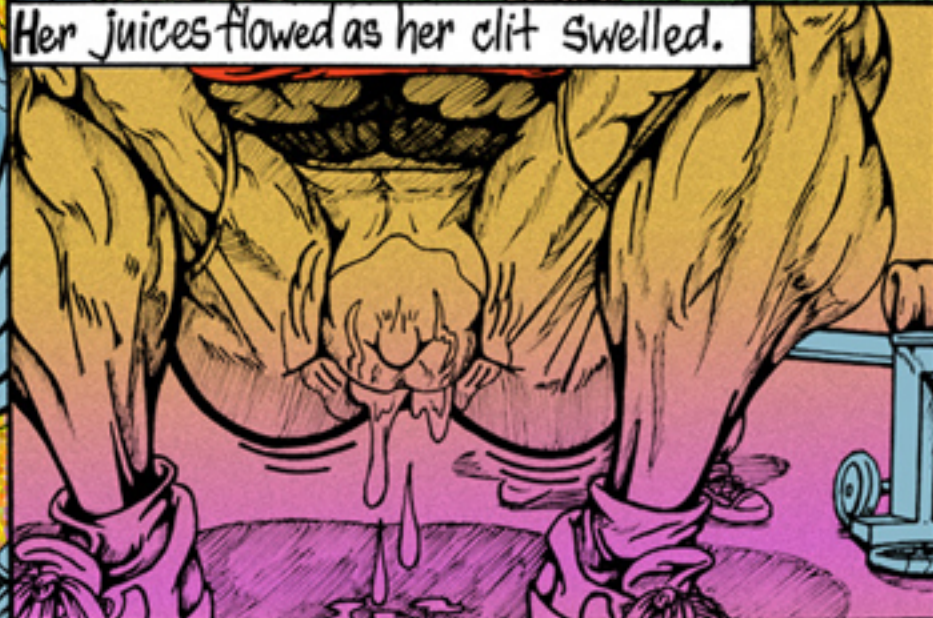

The two of them loaded up the bar.

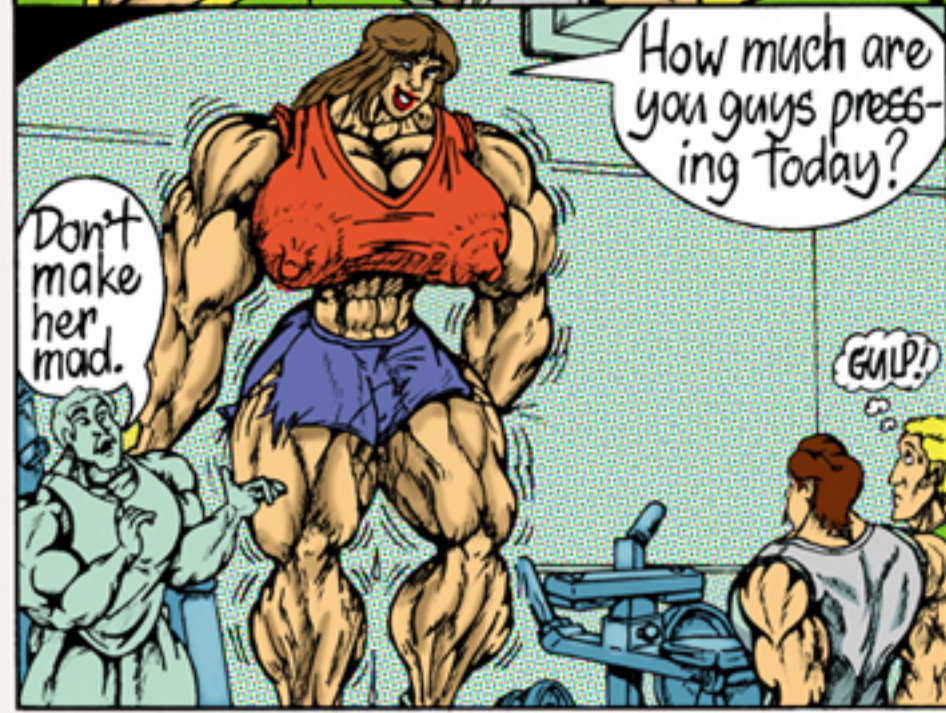

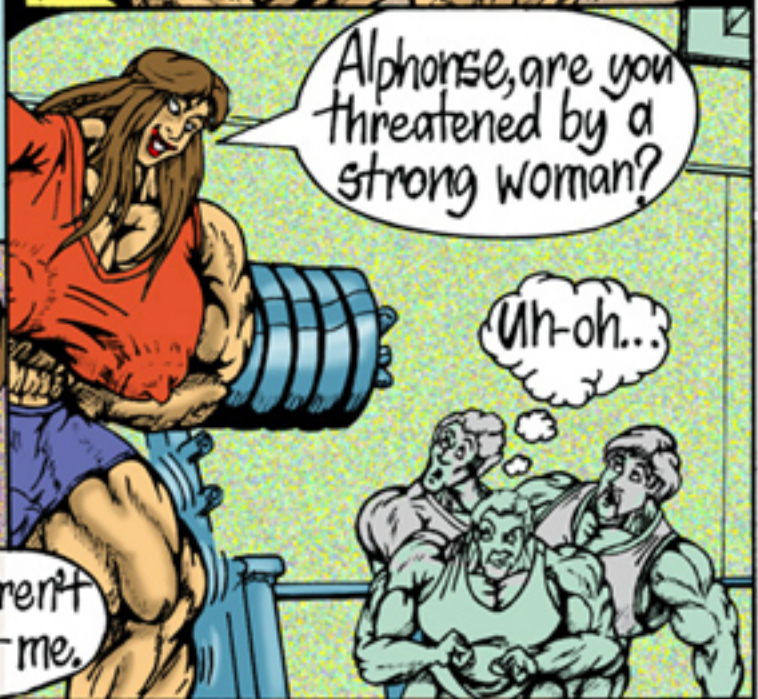

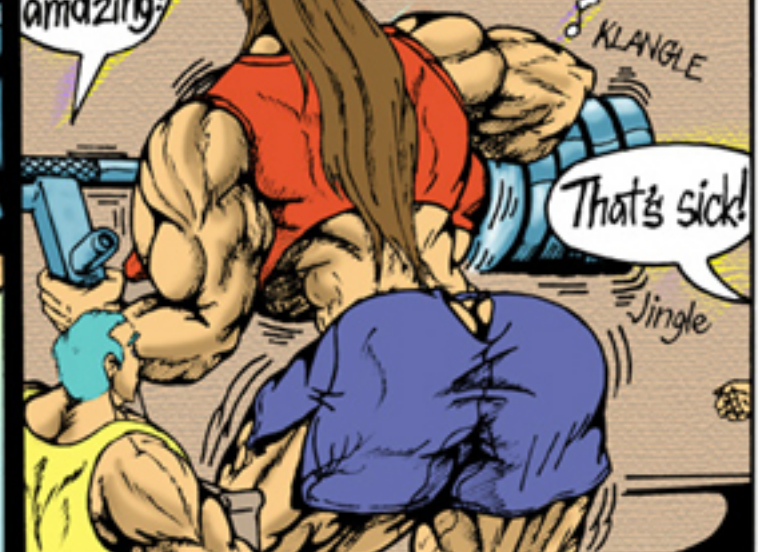

Tenci squatted with most of the big plates in the gym.

The throbbing of her quads excited her.

Tenci's power and lust were linked. As her strength increased, so did her sex drive.

Rigue! No women allowed!

You call that a woman?

That was amazing!

That's sick!

Alphonse, are you threatened by a strong woman?

Uh-oh...

I hope you aren't talking about me.

That can't be Tenci. Tenci's hot.

You don't think I look hot now, Domingo?

How much are you guys pressing today?

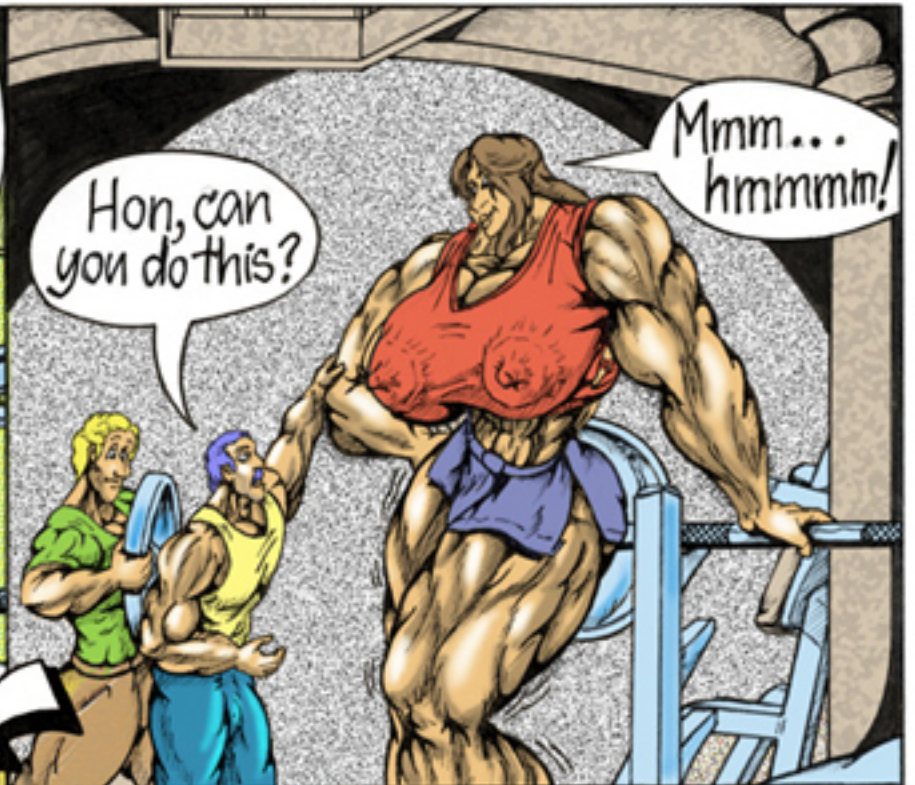

Domingo does 270 and I go up to 325.

Don't make her mad.

Gulp!

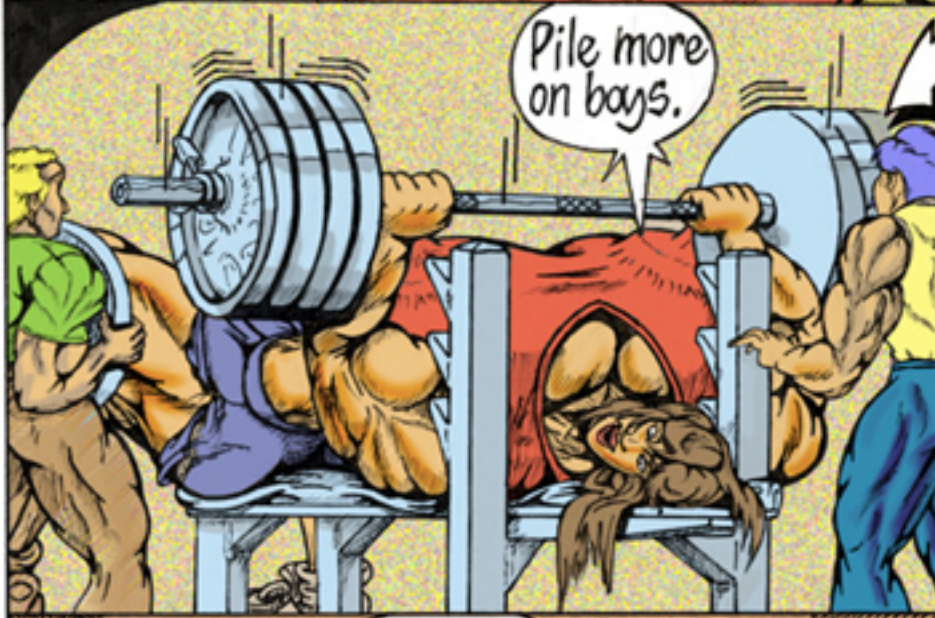

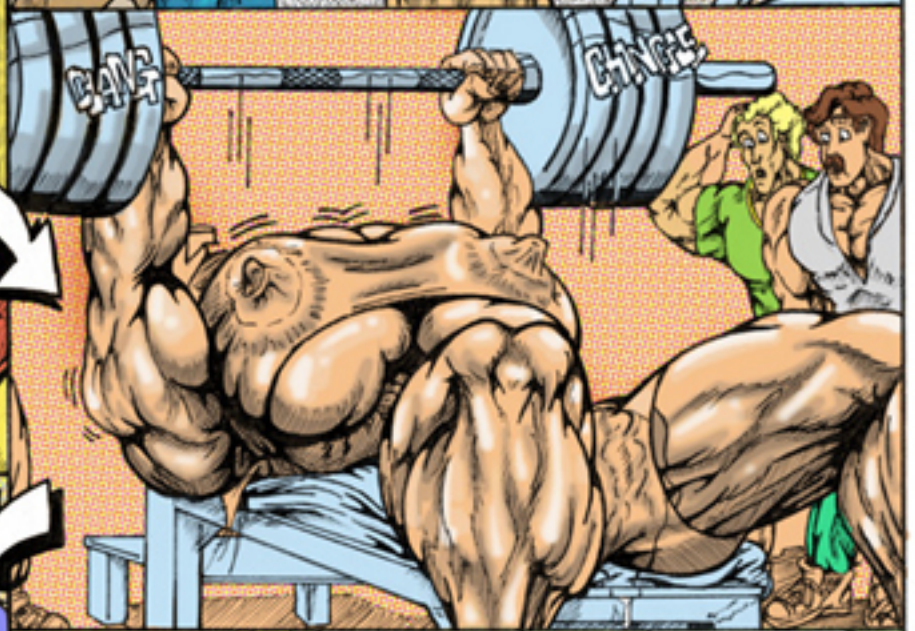

Is that it?!  
You'll have to put  
all that on a bar  
just for me to  
warm-up!

Hon, can  
you do this?

Mmm...  
hmmmm!

Taking grip, her heart began to throb in anticipation.

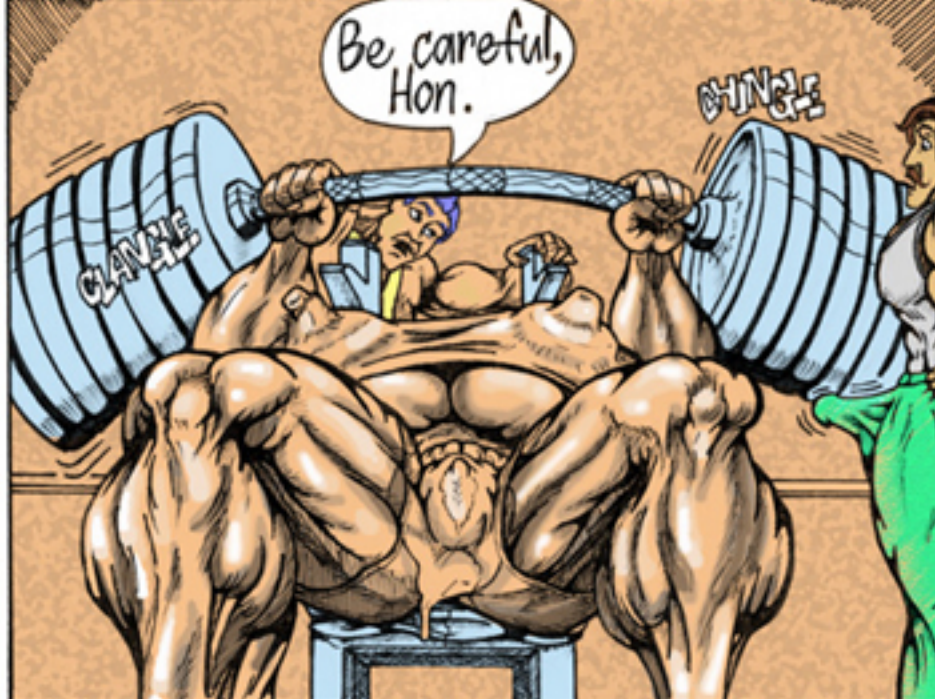

Pile more  
on boys.

I've got 8.

Same here.

Be careful,  
Hon.

CHING!

Tenci's body responded quickly to the effort and her full power came to bare.

Ooof!

Thanks for the workout, boys. I'll be back tomorrow.

We'll... be... here.  
(SIGH)

2 girls from the nearby school are entranced as Enrique and Tenci leave the gym.

... but tomorrow we really start pushing it!

Whoa!

I wish I could have your power!

Be careful what you ask for, there can be a price.

I'd pay it!

With greater power comes greater appetites.

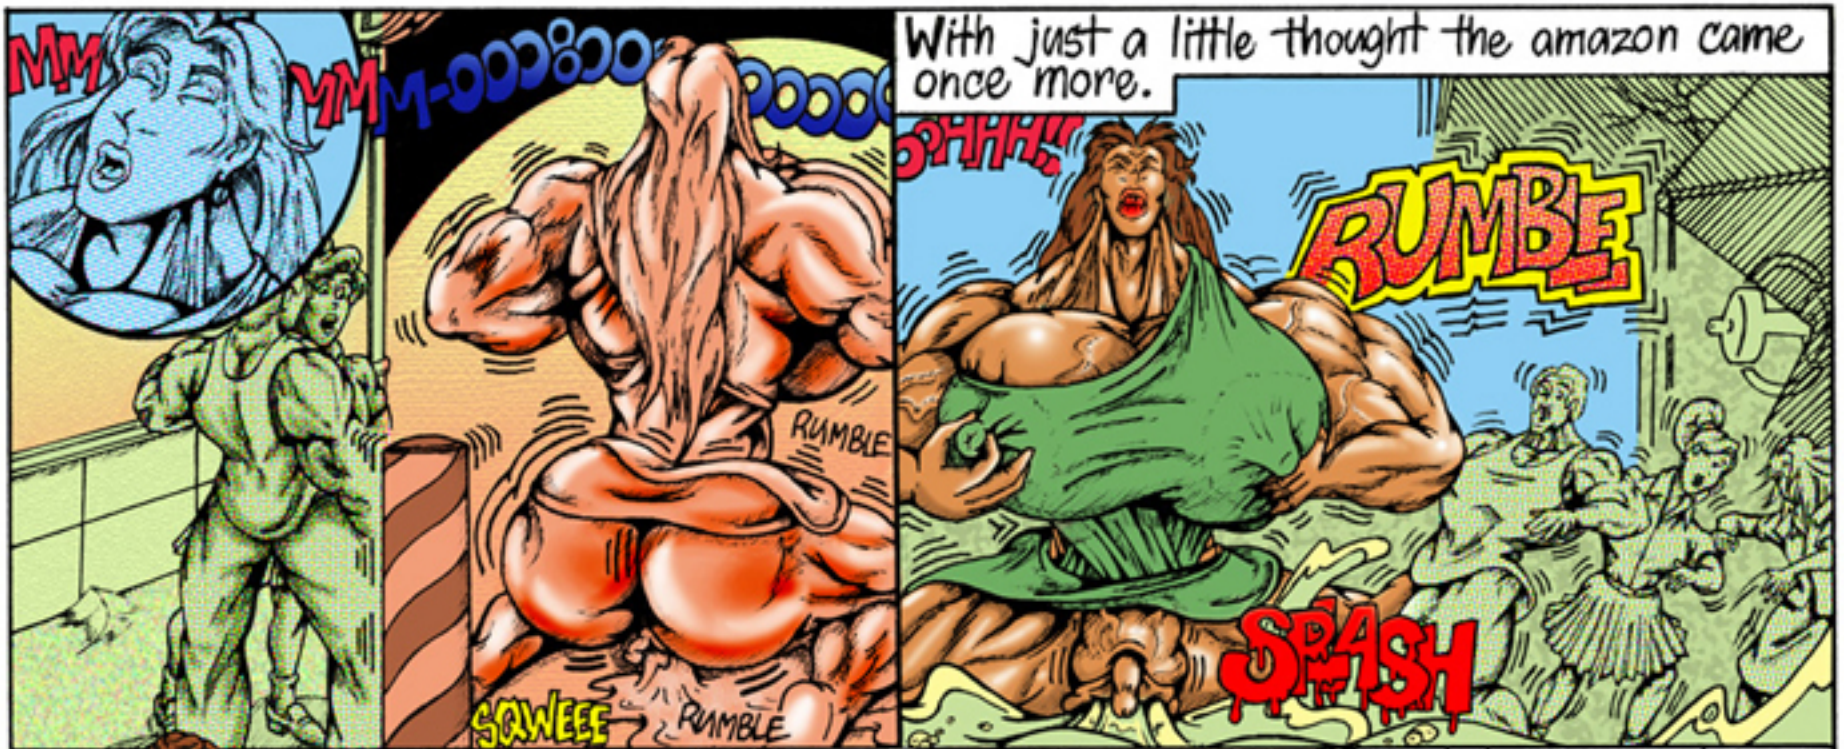

Tenci's pussy lips wrapped around the barricade.

What are you doing?

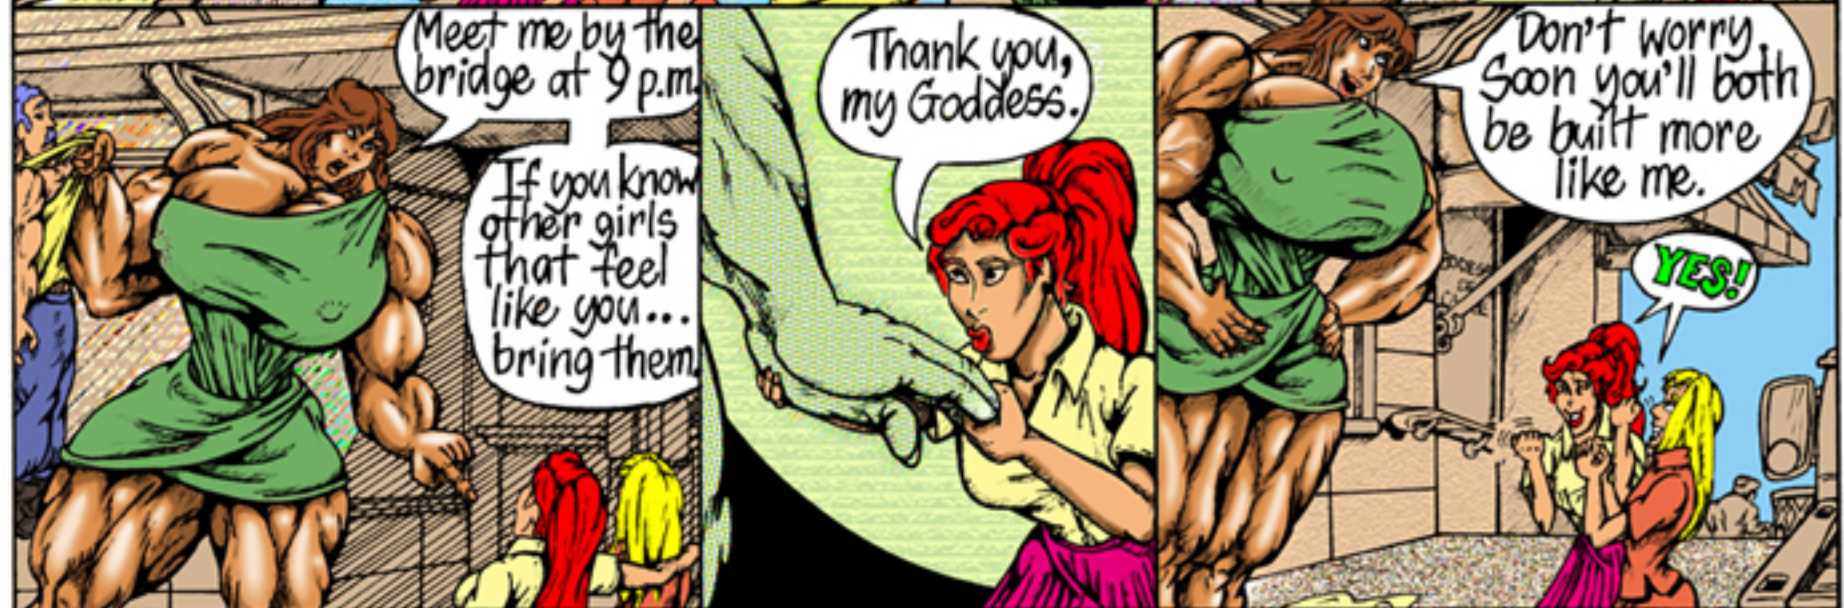

Satis...fy...ing an appe...tite...  
~MMMM~

SCHLORP  
SLURP  
SLURP

With just a little thought the amazon came once more.

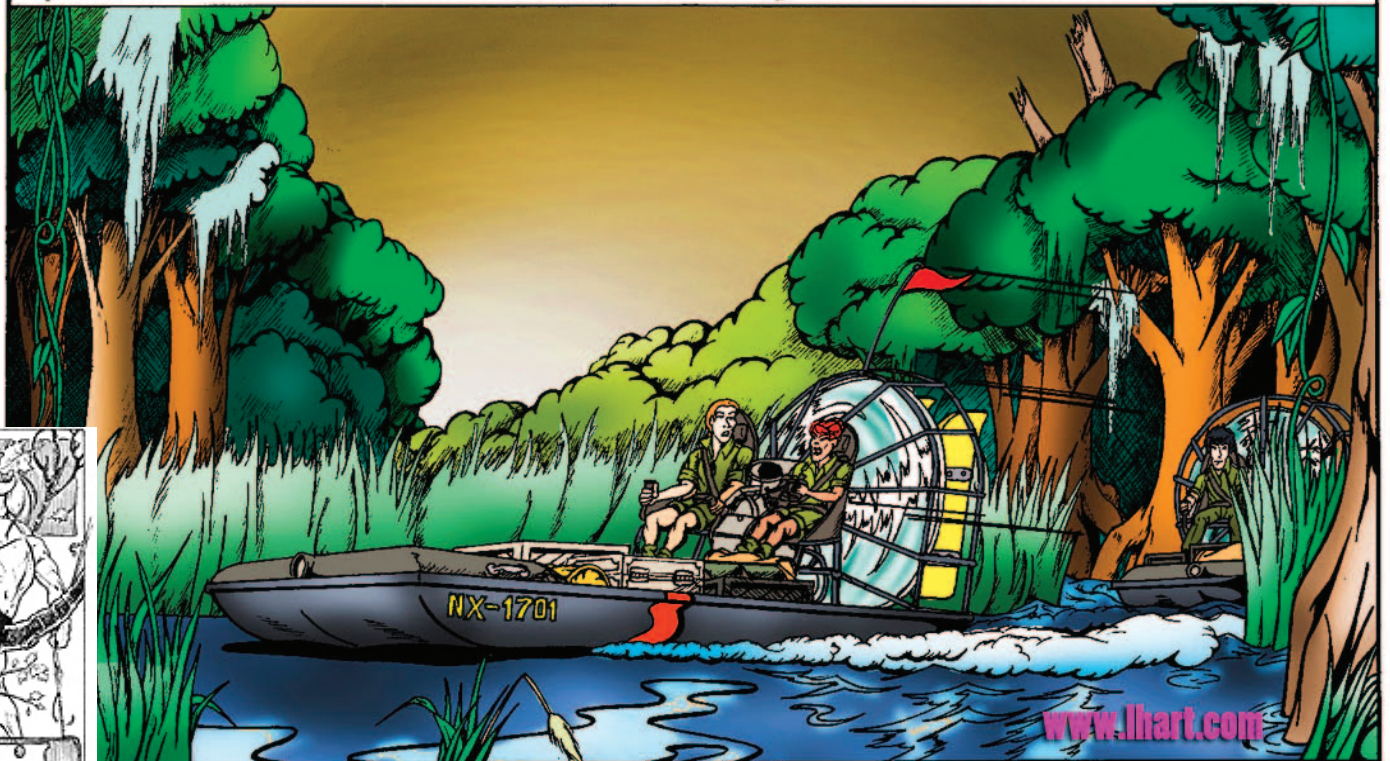

The thought of helping other women find power in their macho society, pleased Tenci and excited her.

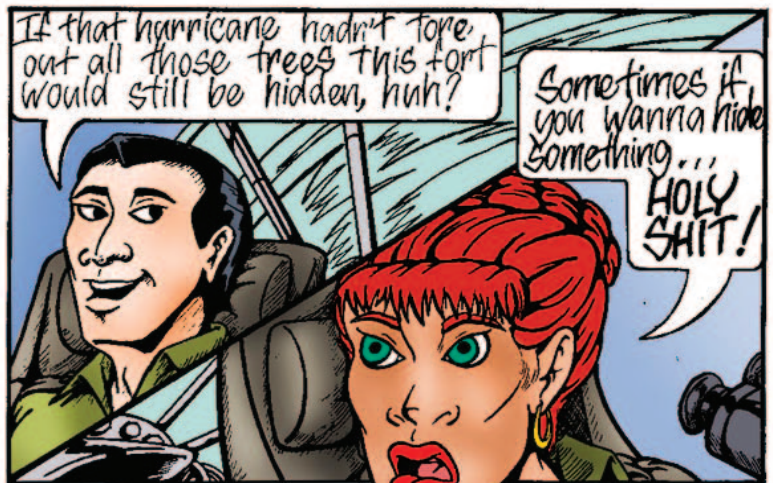

ZORAIDA RÍOS, Archaeologist, and her crew were hurrying to explore a Spanish fortification uncovered in the Everglades after a recent hurricane.

Is it further?

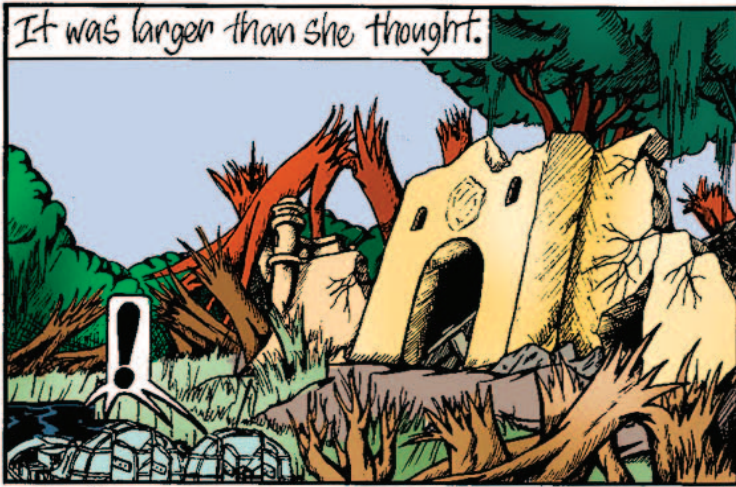

According to the aerial photos we should see it to the right... Just in front of what's left of a grove of trees.

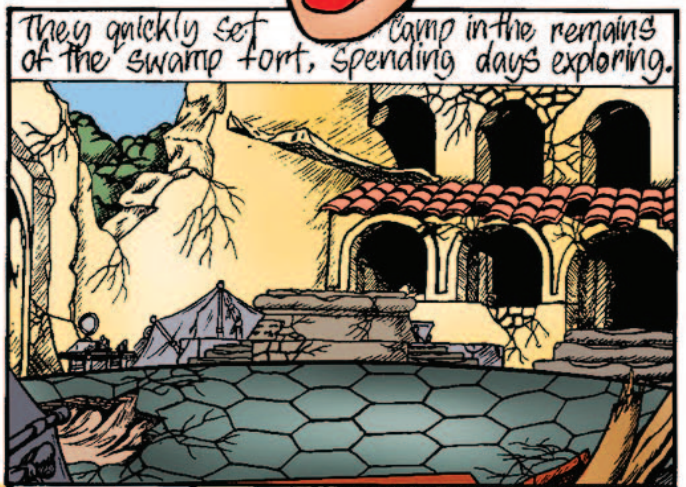

If that hurricane hadn't tore out all those trees this fort would still be hidden, huh?

Sometimes if you wanna hide something...

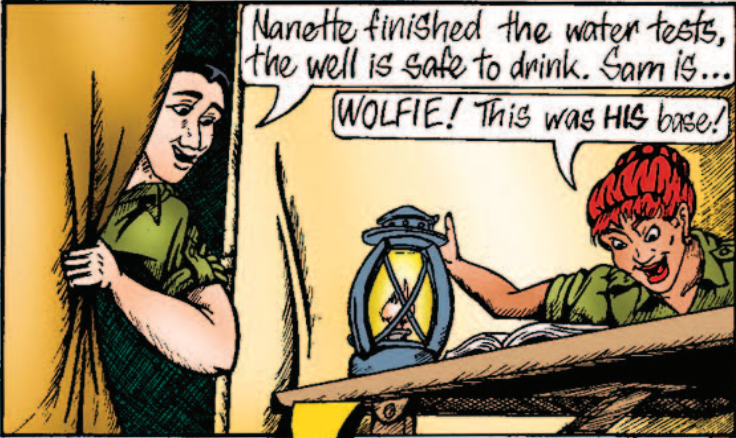

**HOLY SHIT!**

It was larger than she thought.

They quickly set camp in the remains of the swamp fort, spending days exploring.

Nanette finished the water tests, the well is safe to drink. Sam is...

**WOLFIE!** This was HIS base!

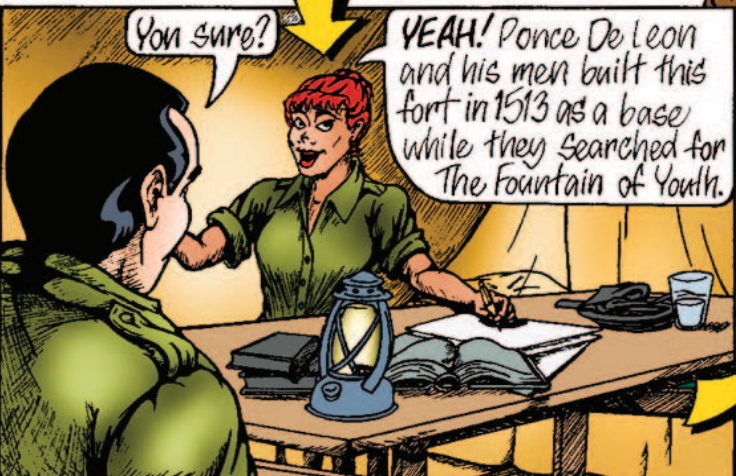

Why'd they abandon it?

Never found the fountain... Could be they planned to return...

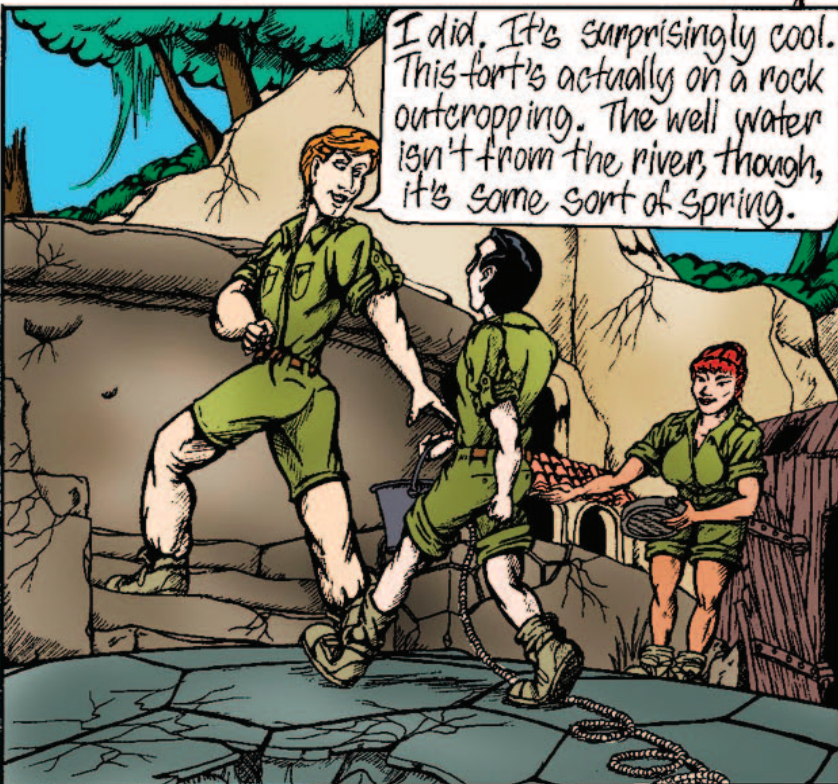

You can bet on that!

**HUH?!**

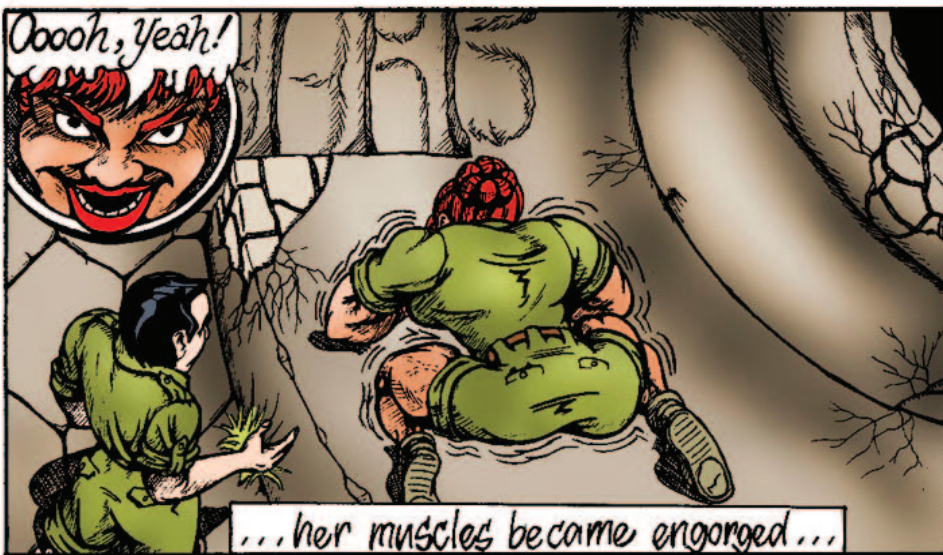

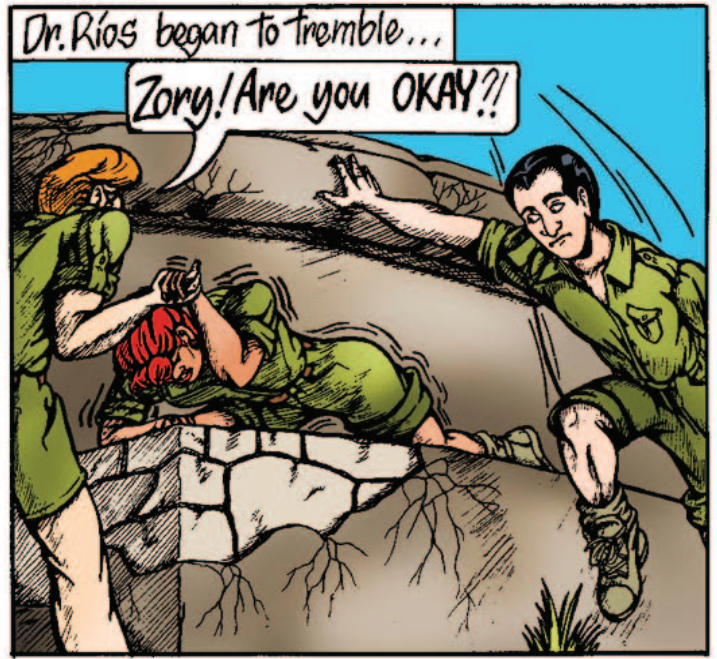

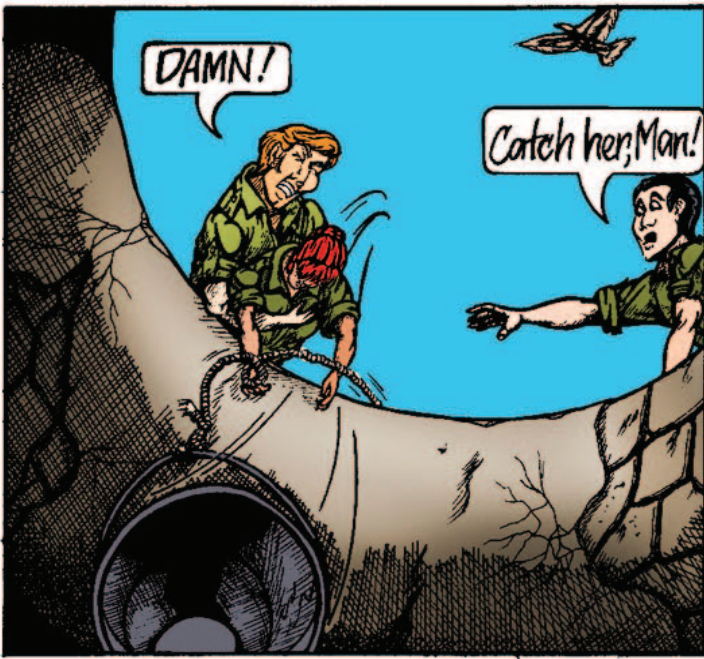

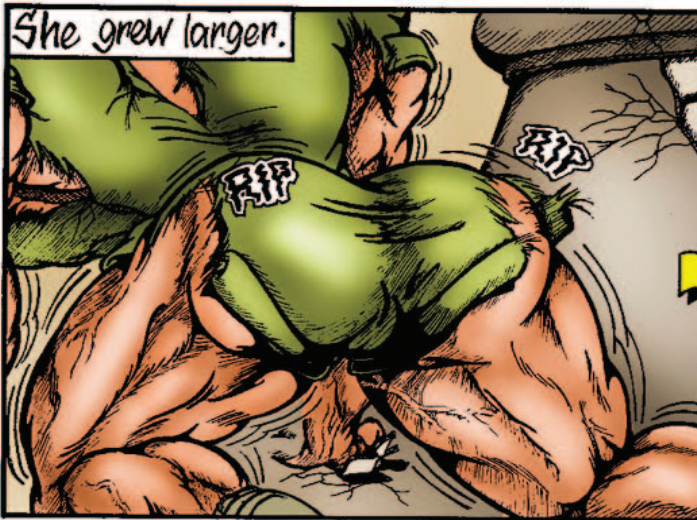

You sure?

**YEAH!** Ponce De Leon and his men built this fort in 1513 as a base while they searched for The Fountain of Youth.

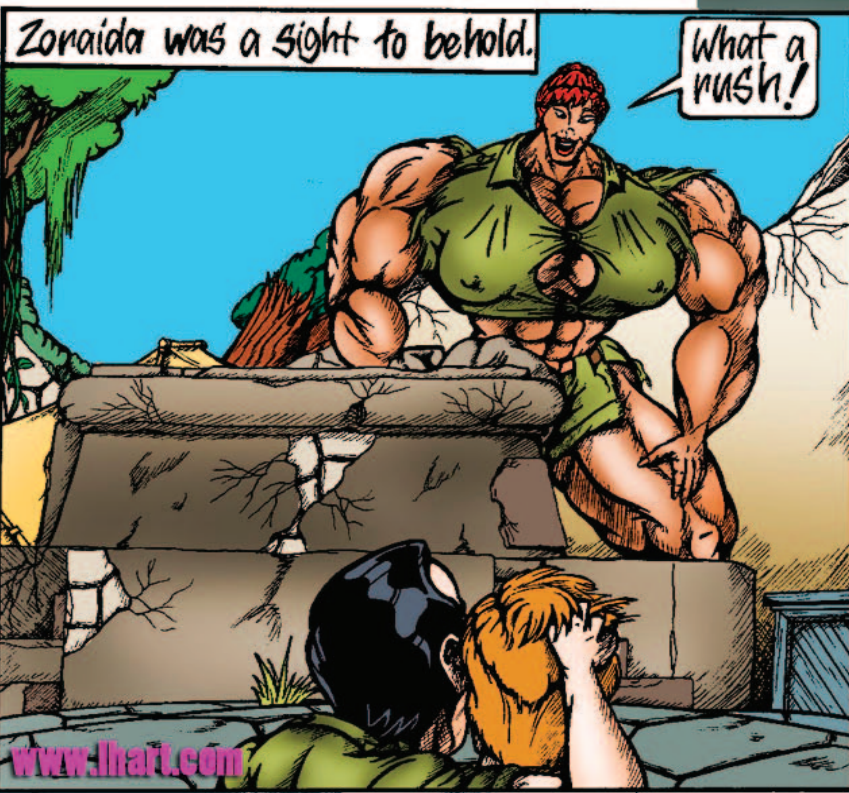

She grew larger.

Her new power and size were intoxicating.

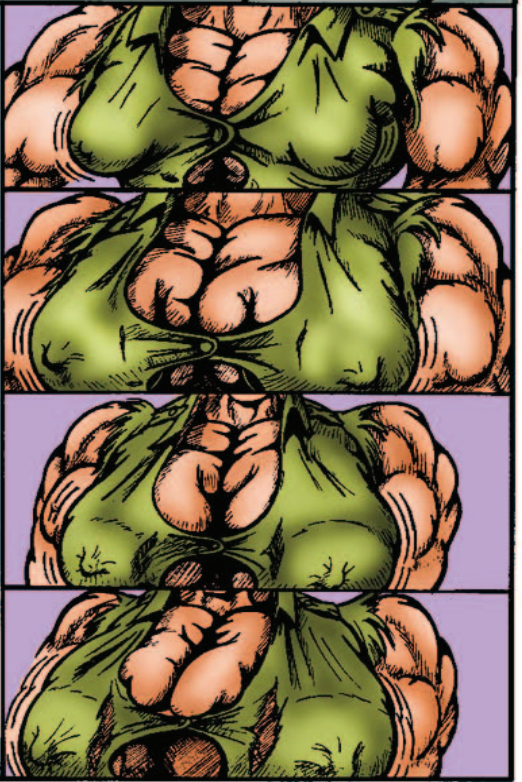

What's going on... Criiiminittly!!

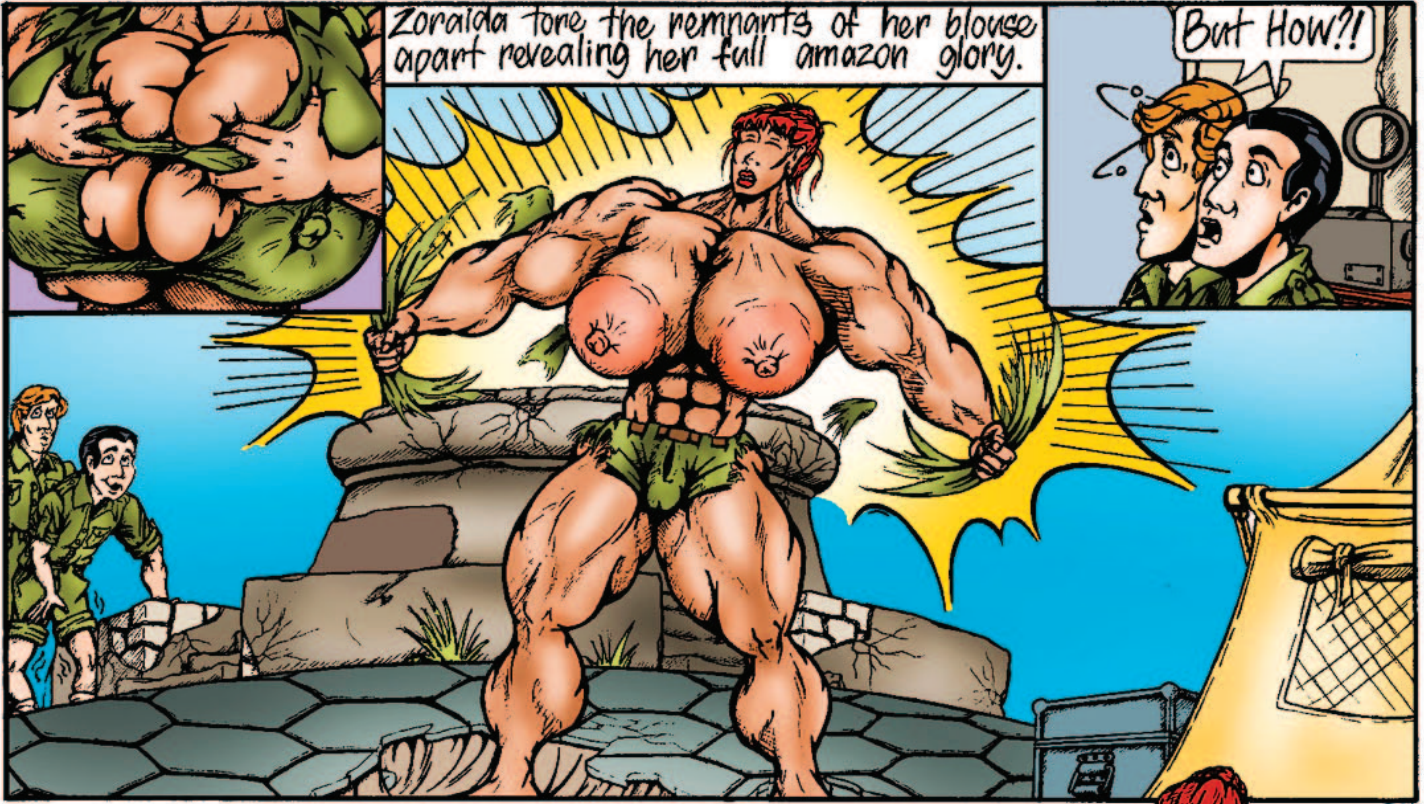

Zonaida was a sight to behold.

What a rush!

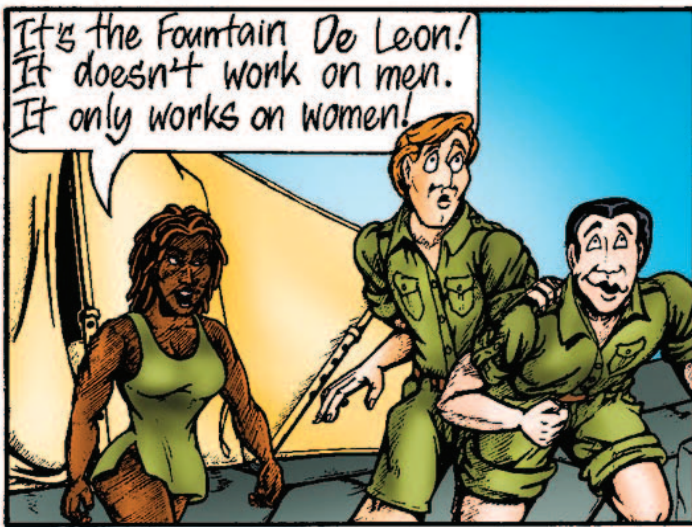

She wasn't done yet, Johnson.

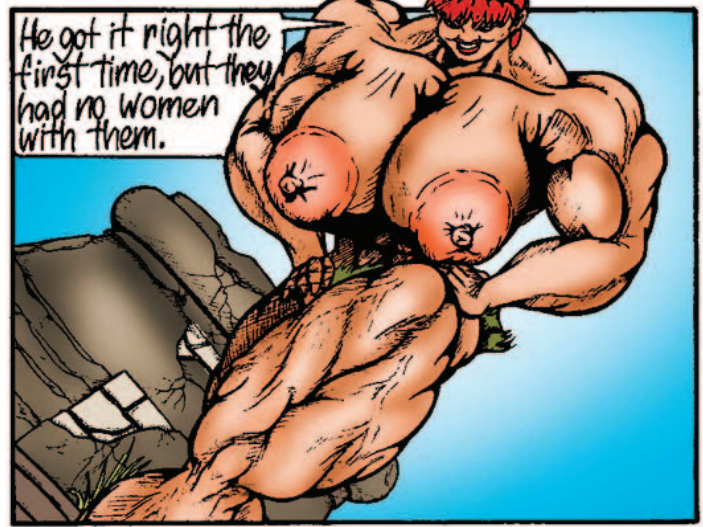

Zoraida tore the remnants of her blouse apart revealing her full amazon glory.

But How?!

It's the Fountain De Leon!  
It doesn't work on men.  
It only works on women!

He got it right the first time, but they had no women with them.

You've got to try this, Nanette.

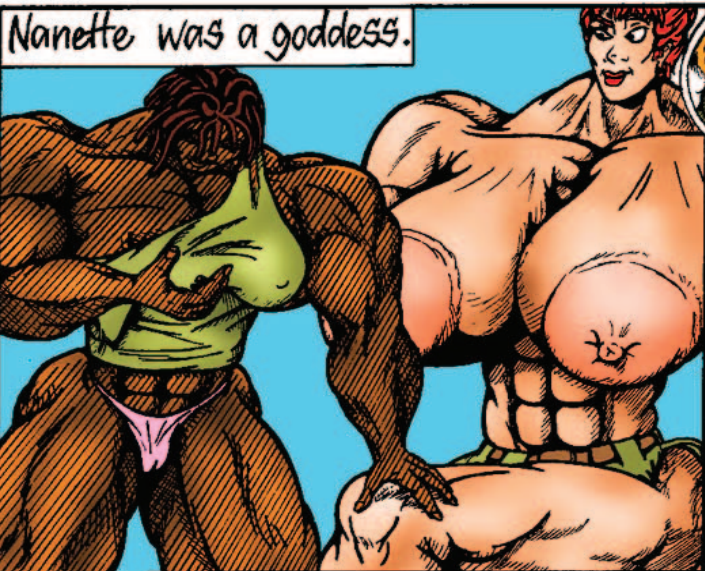

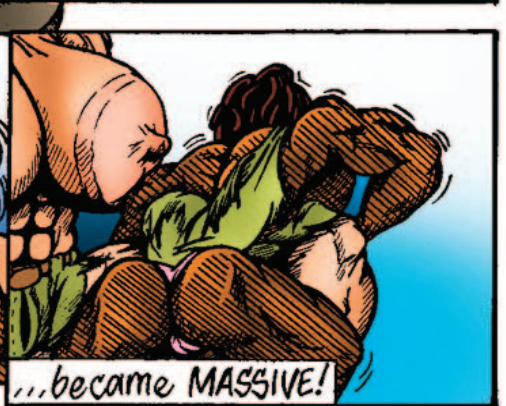

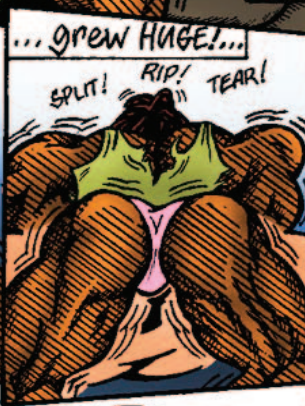

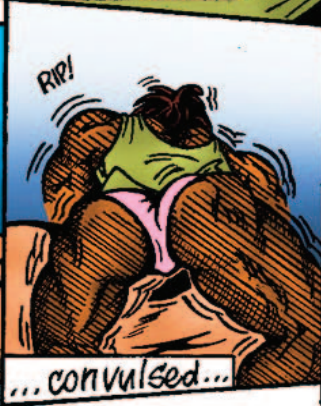

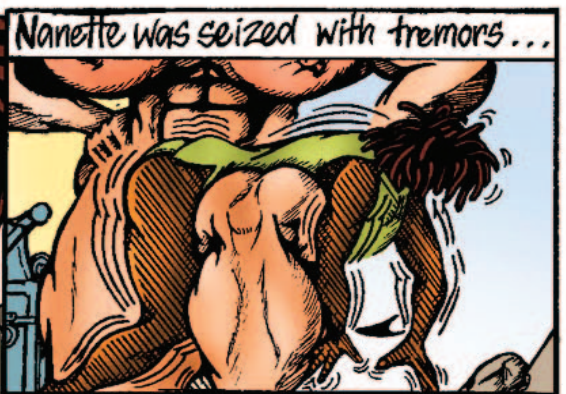

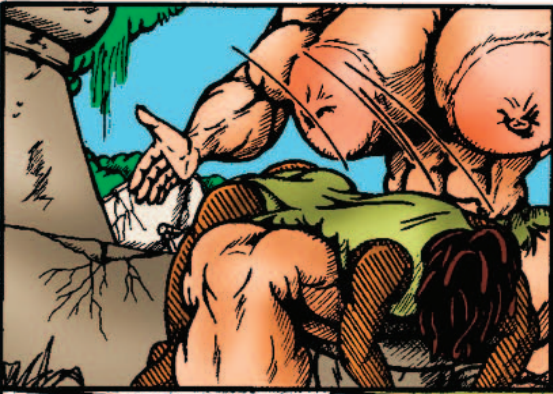

I'm not so sure about this, Zory.

PREEAALLY?

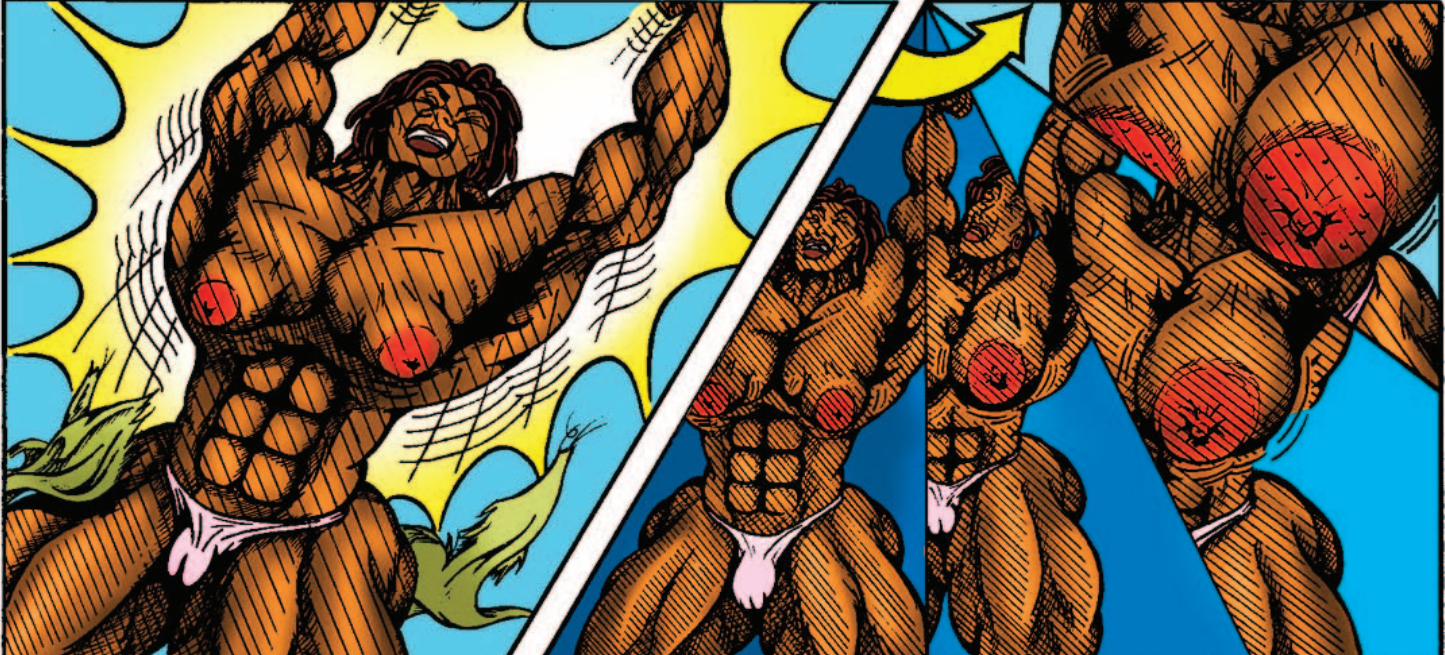

How's it feel?

You'll love it.

UH OH!

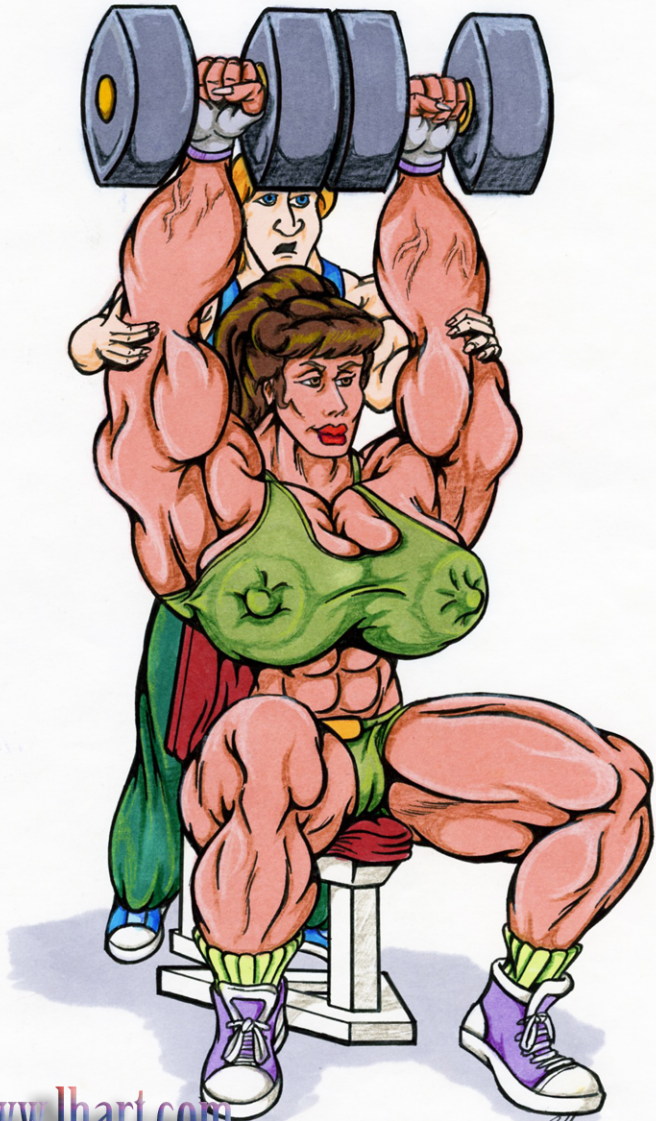

Zory stepped back as Nanette went through her new growth spurt.

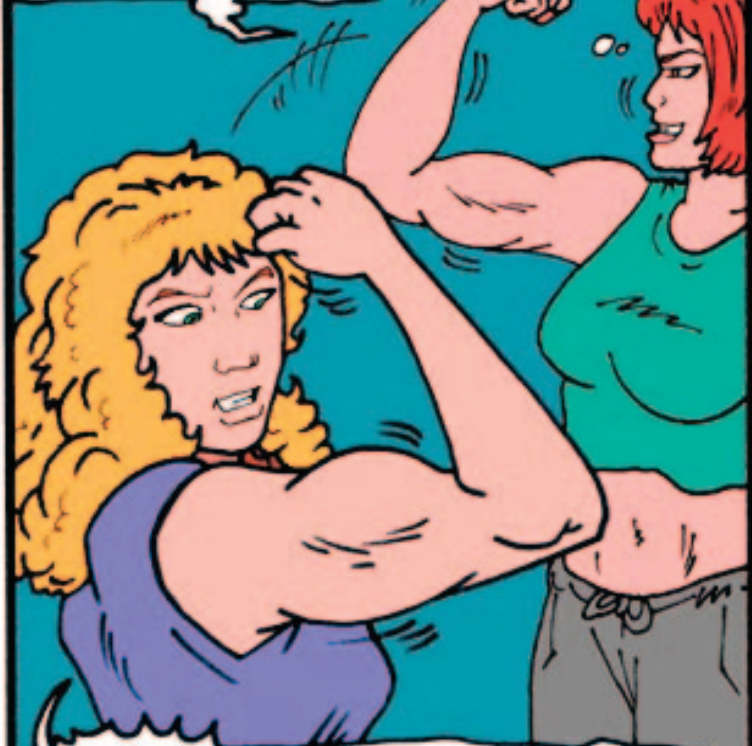

Nanette grew larger.

Like Zory, Nanette had one final Surge. Hubba-Hubba!

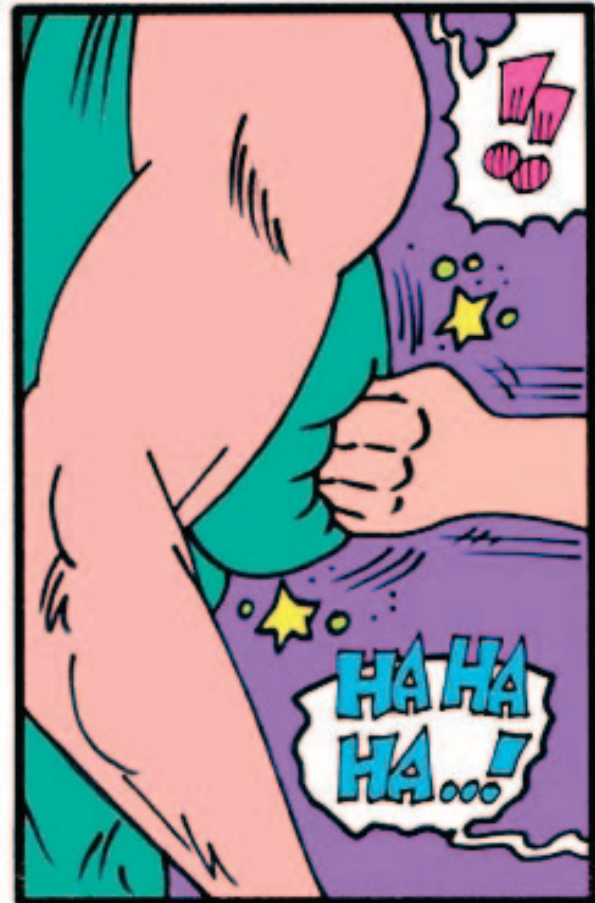

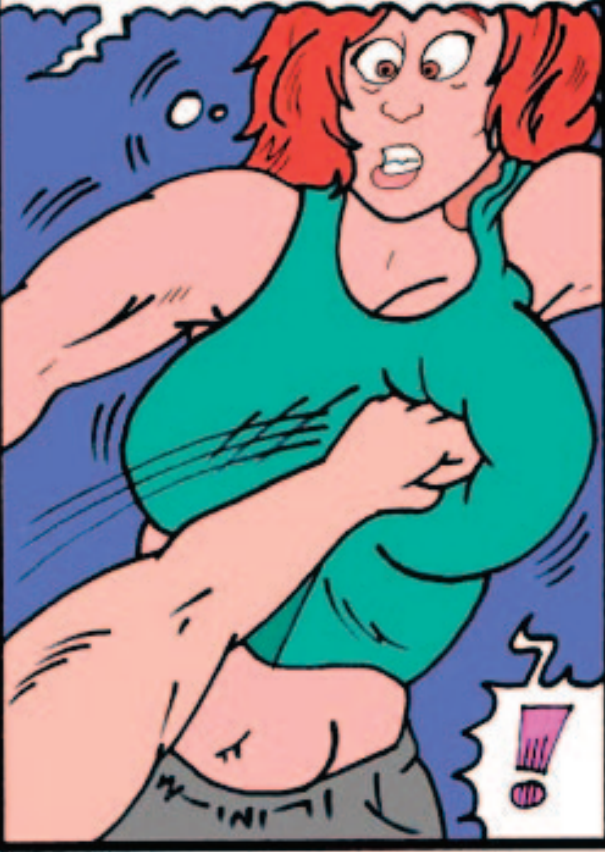

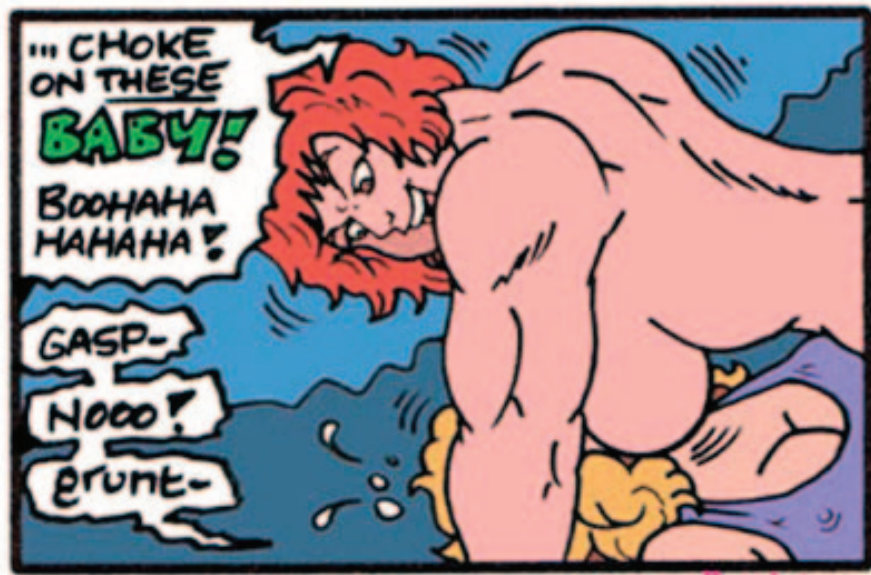

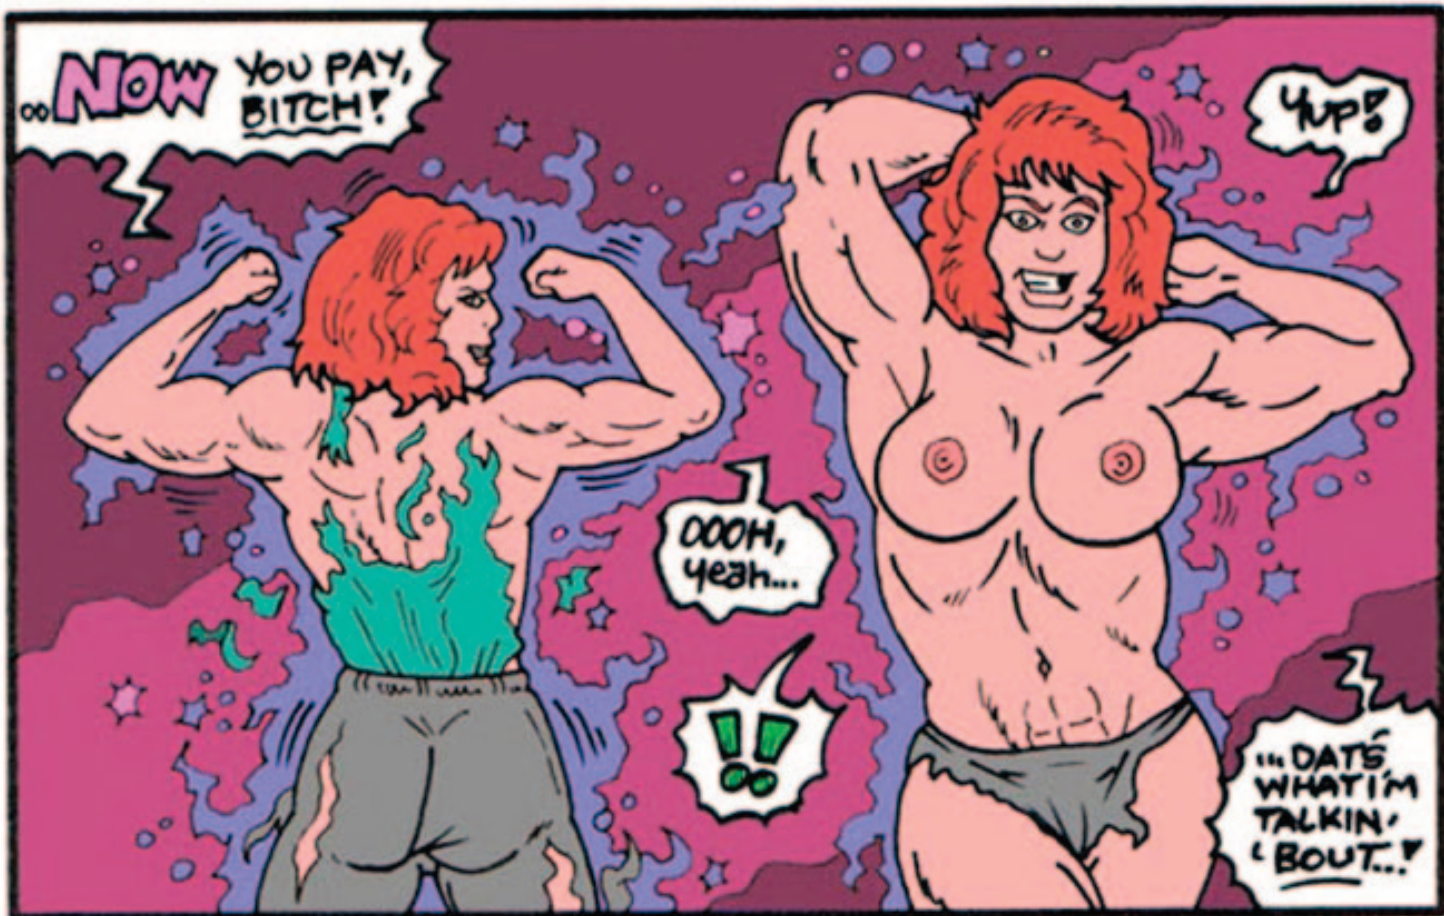

...I'VE BEEN WORKIN' OUT YA RUNT- NOW  
TO KICK YER ASS!

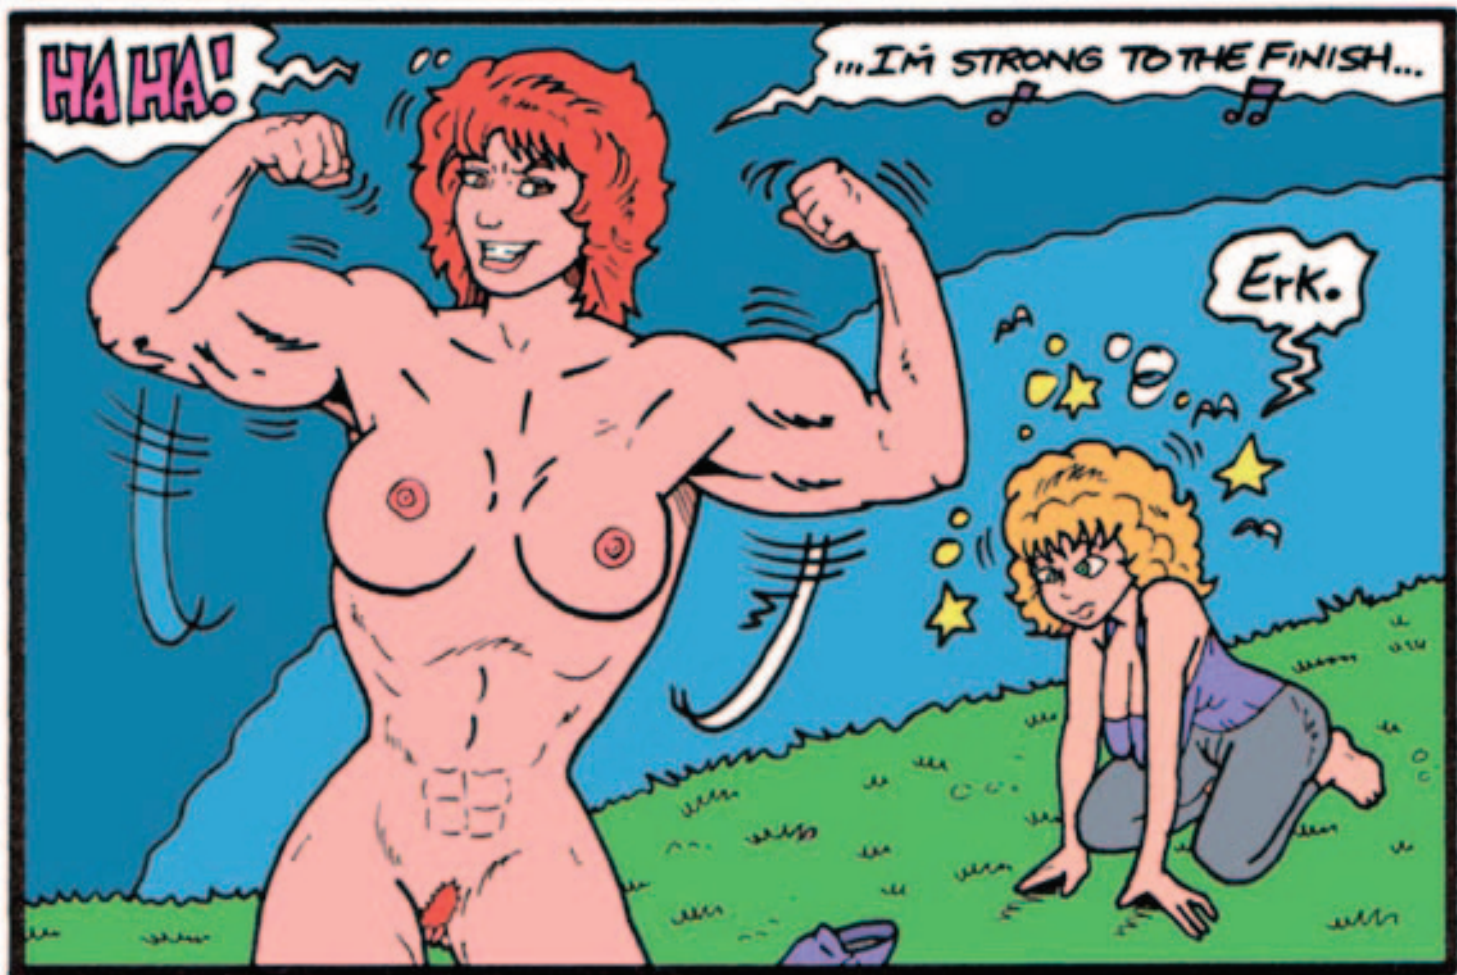

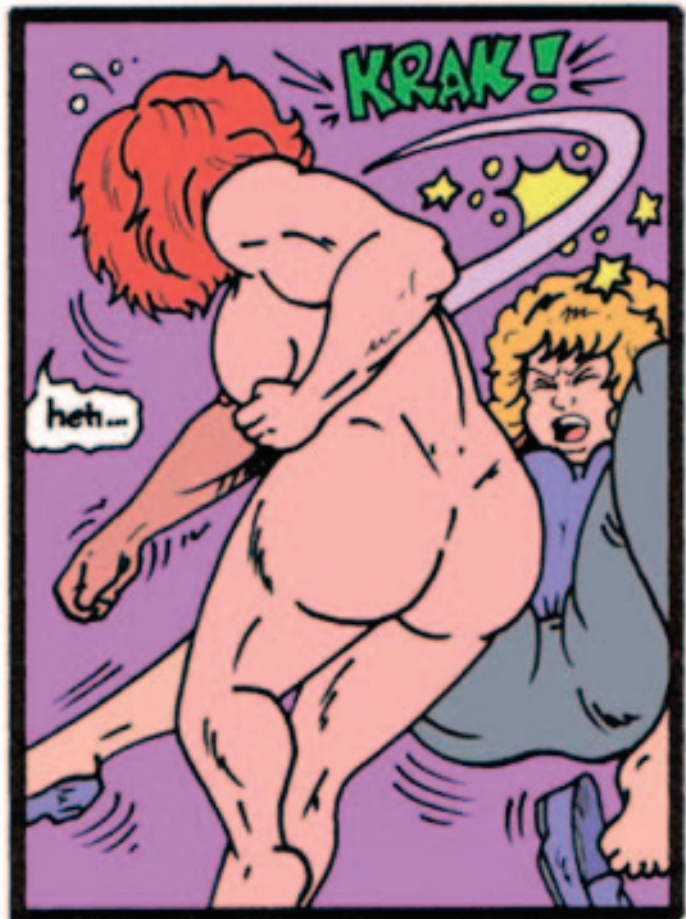

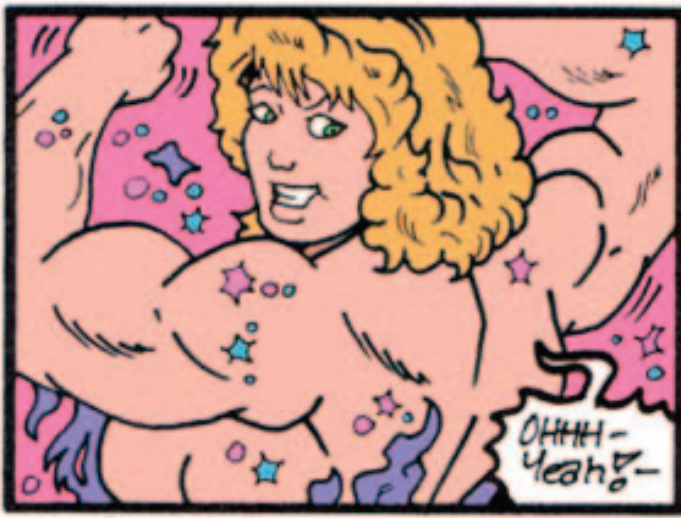

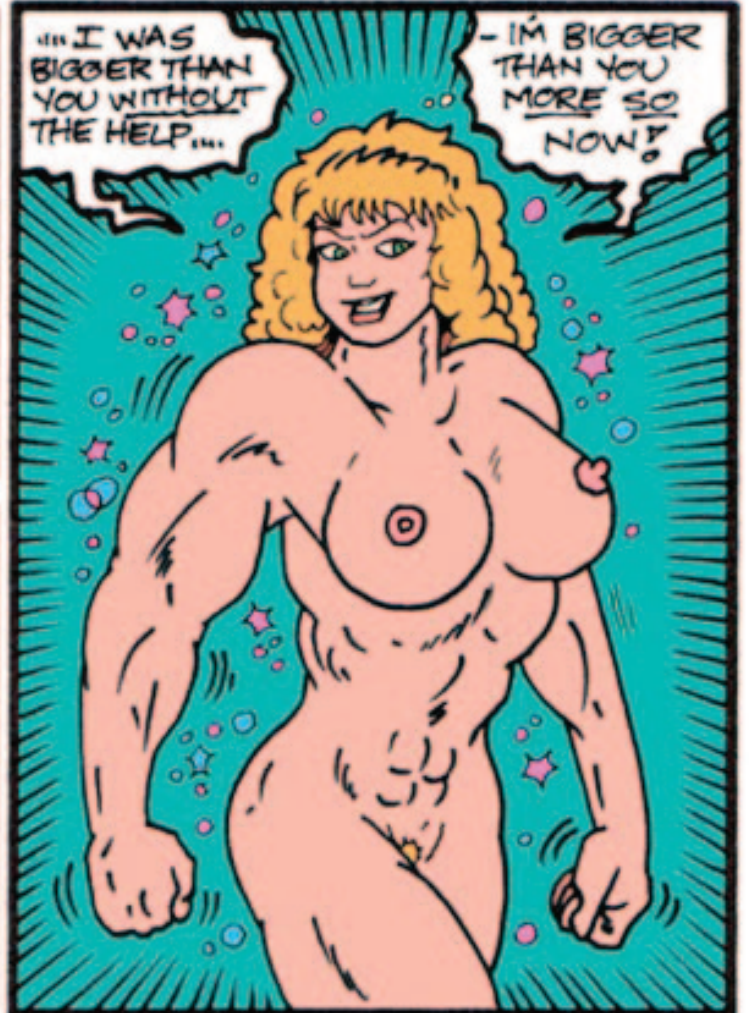

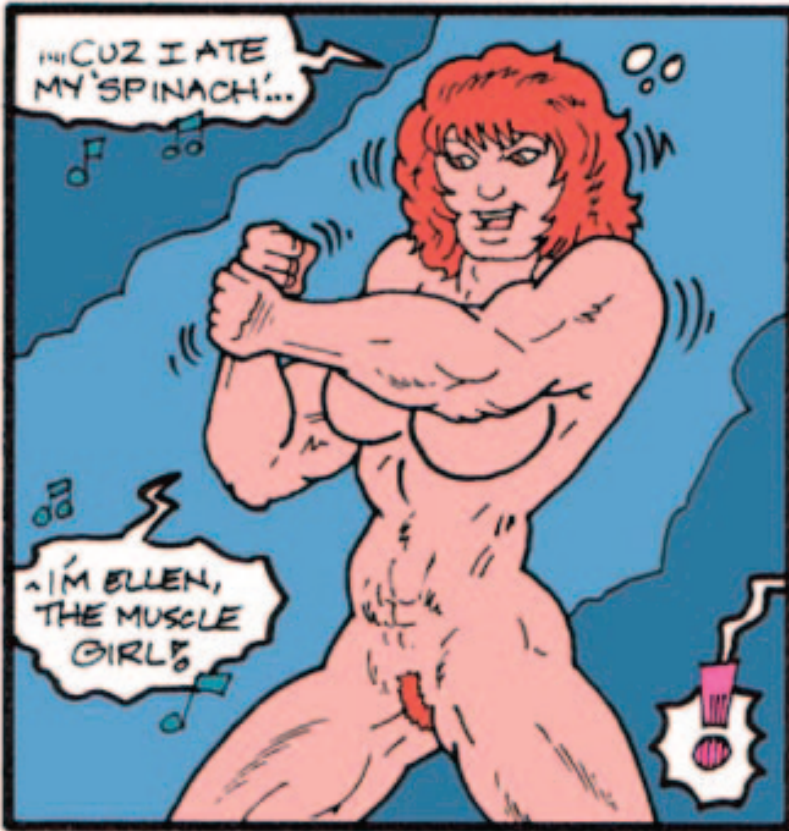

HA! ~ IN YER DREAMS, BITCH!

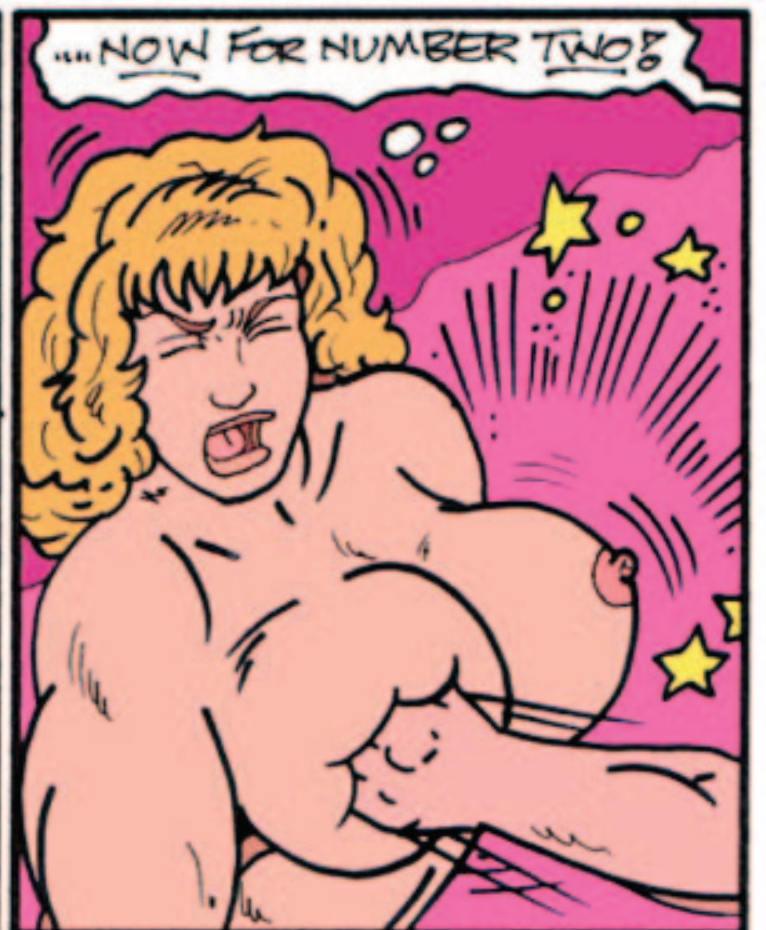

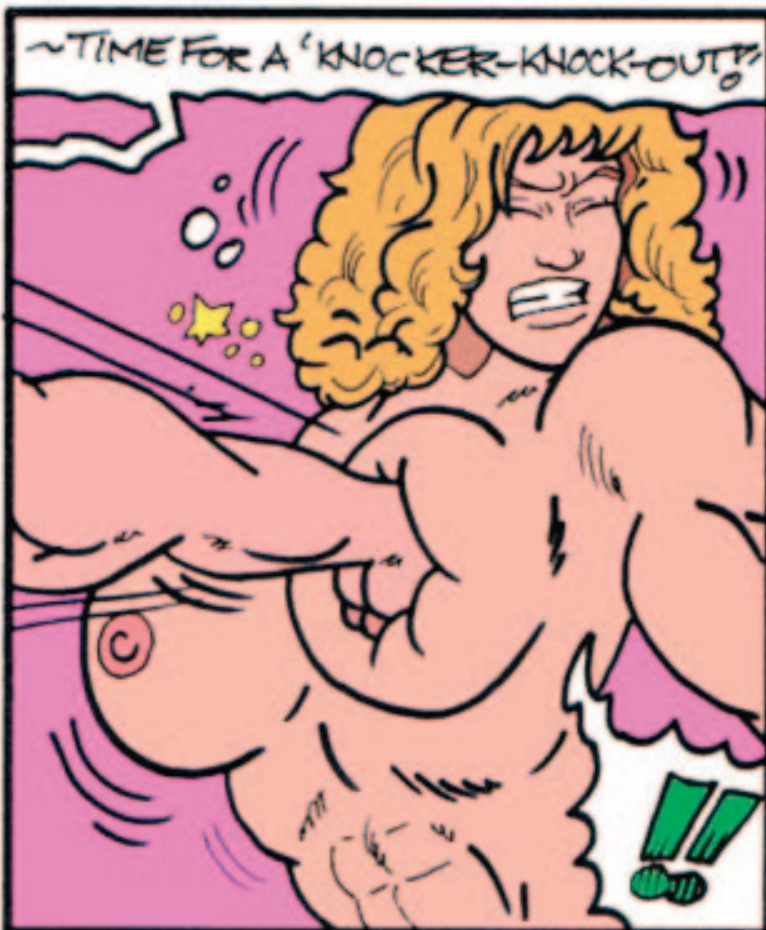

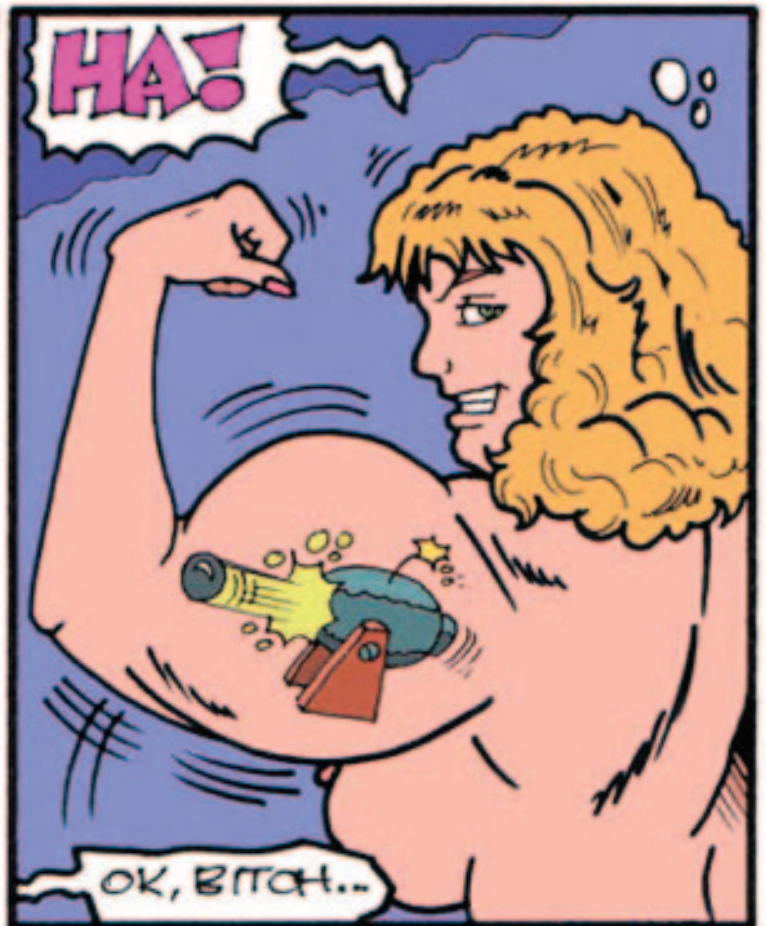

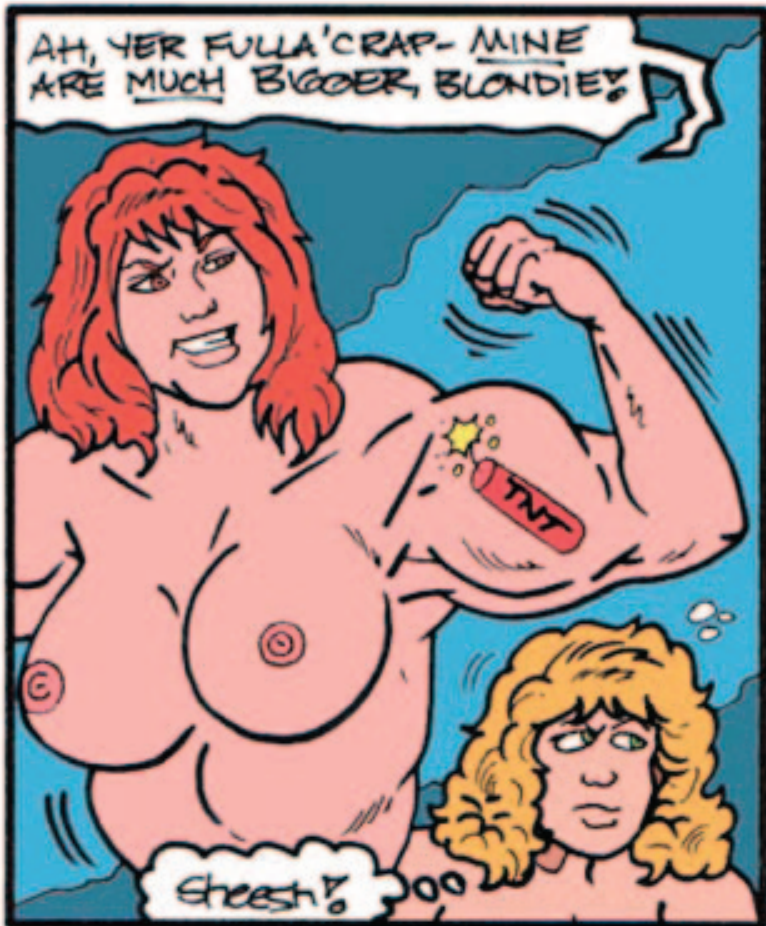

-TRY THIS ON FER SIZE!

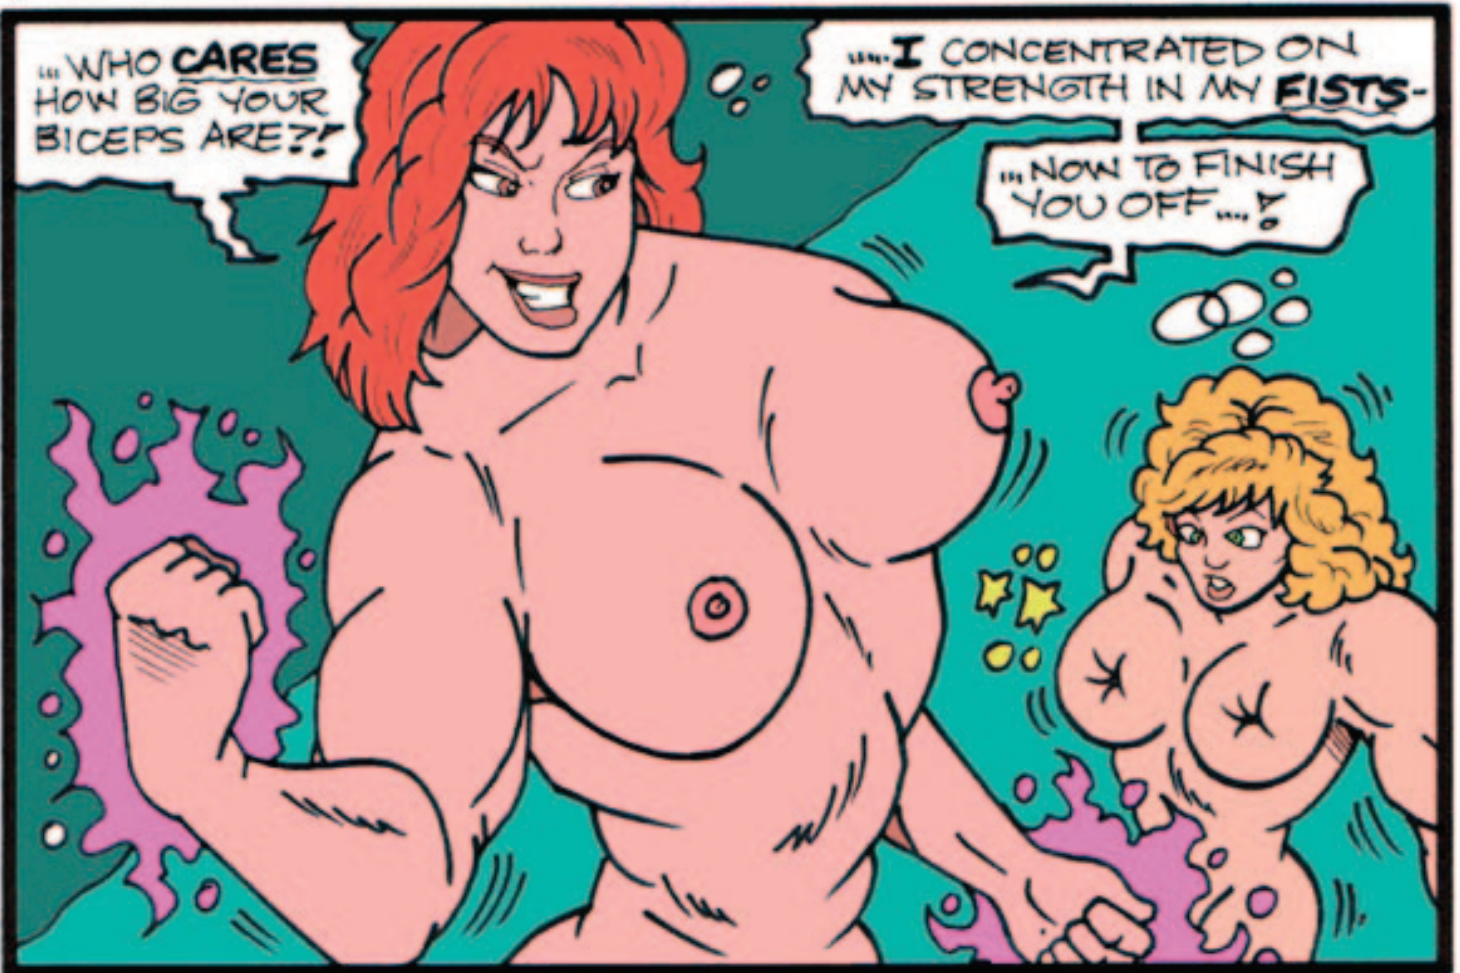

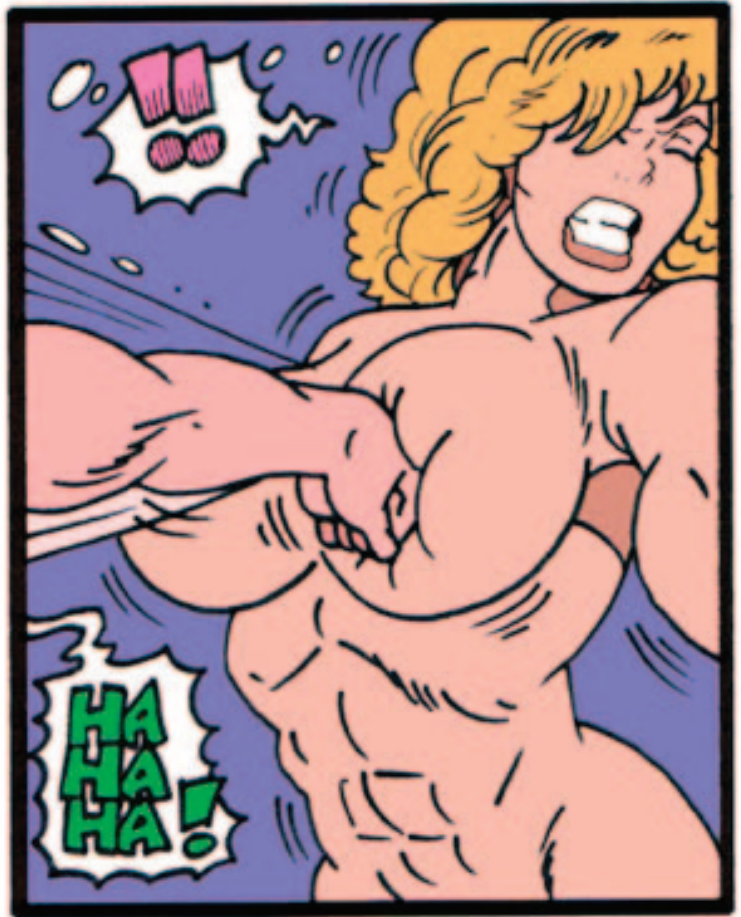

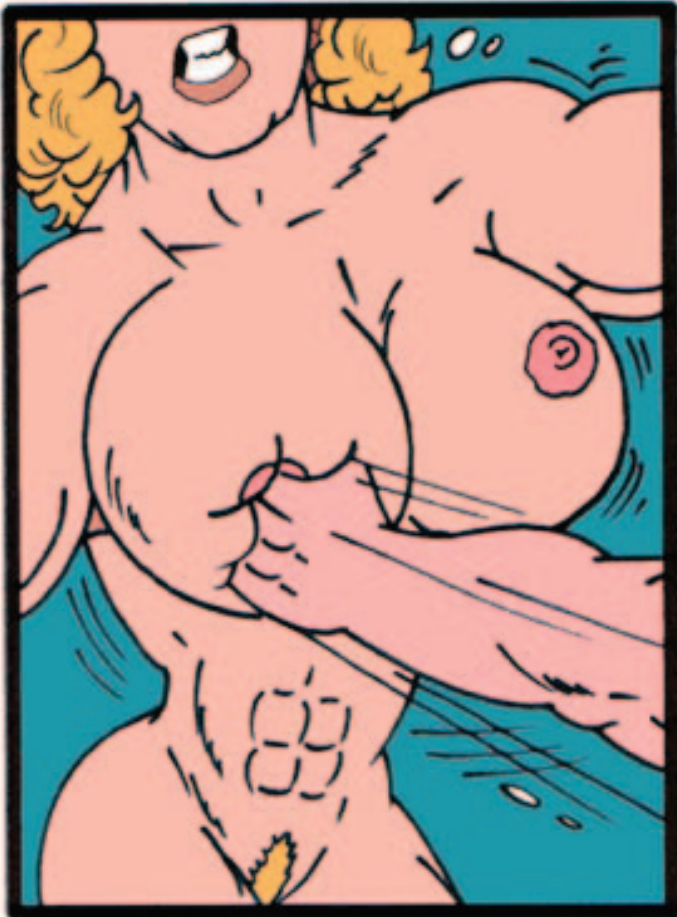

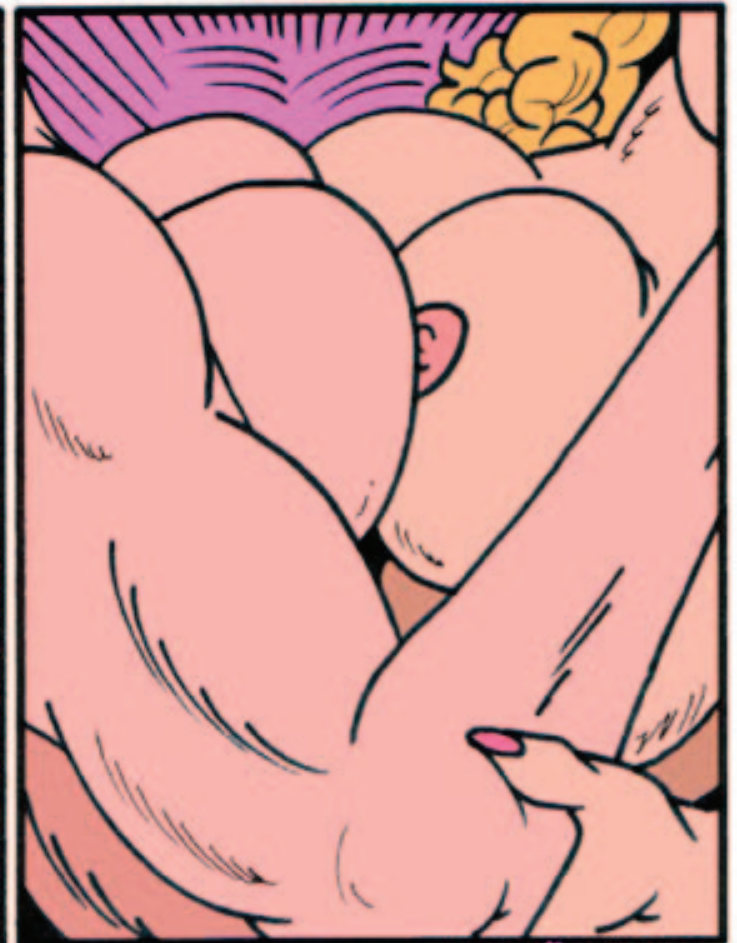

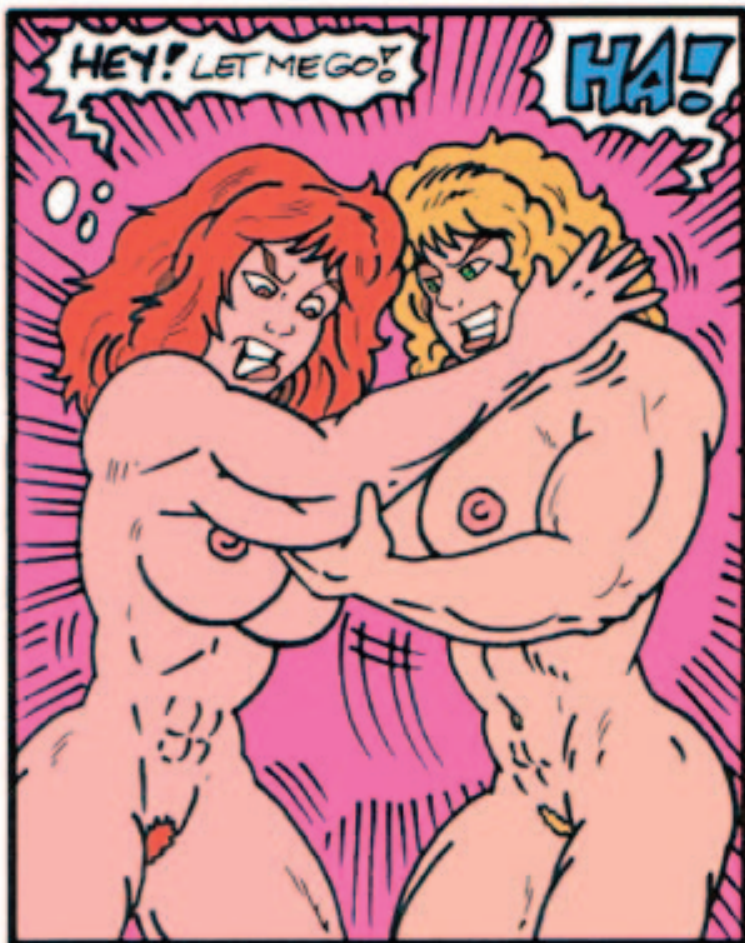

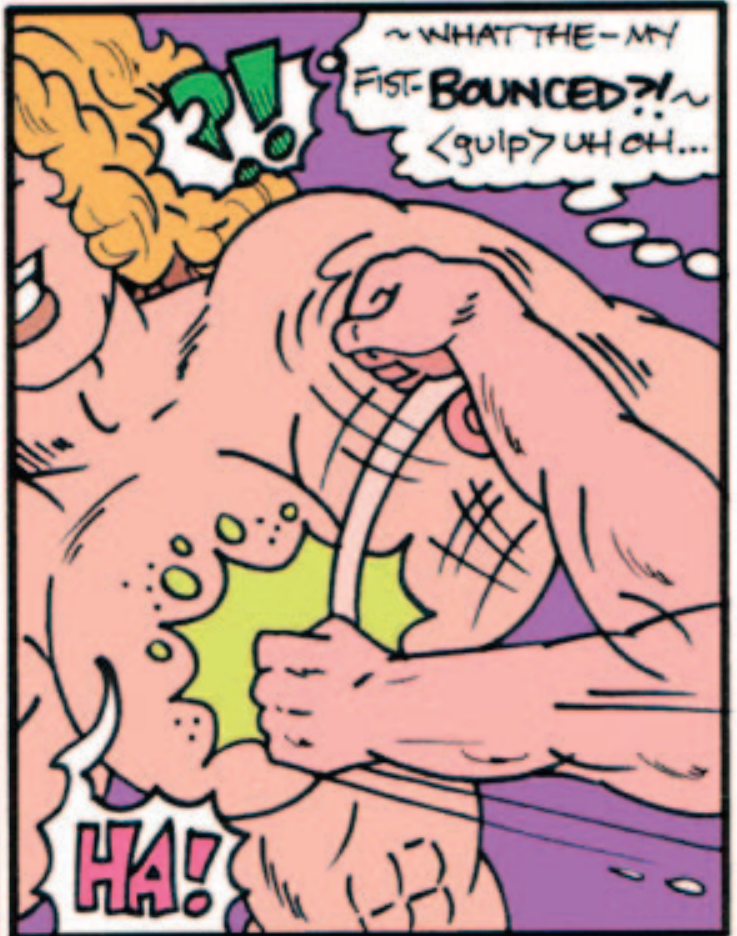

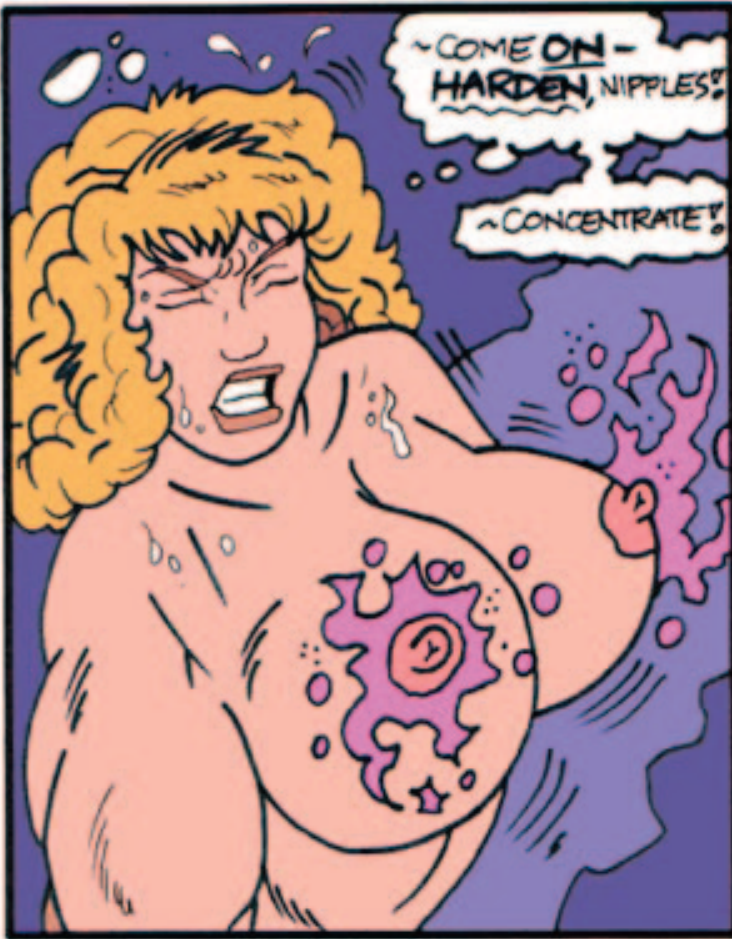

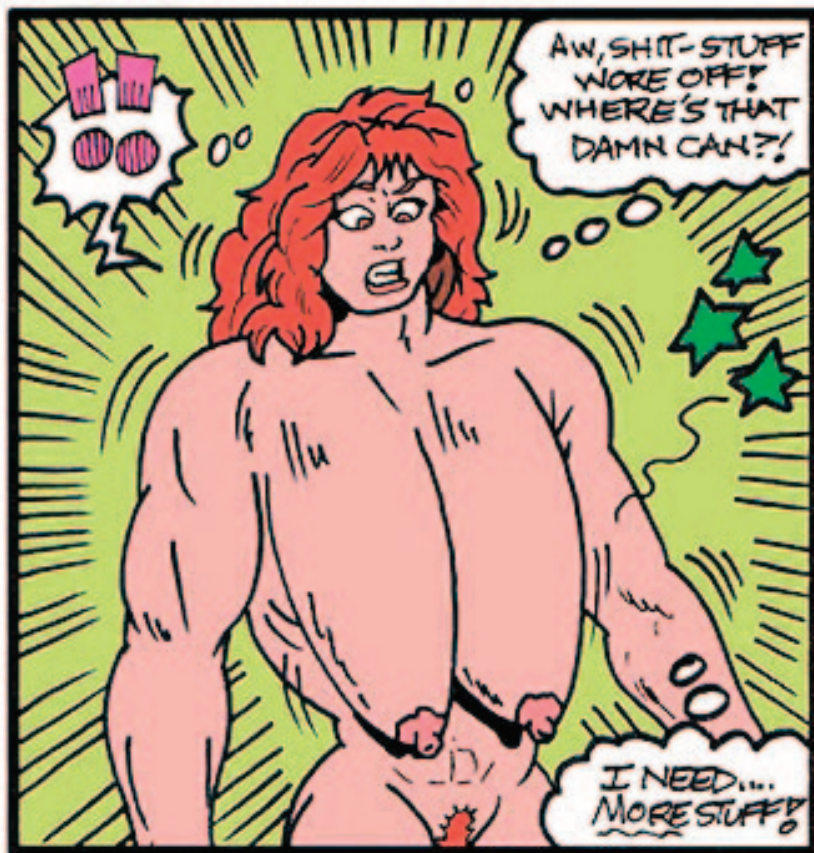

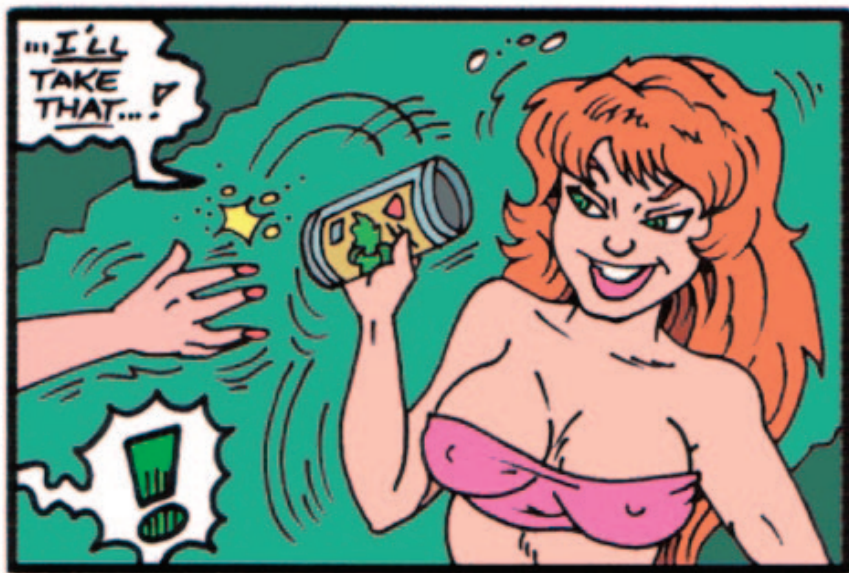

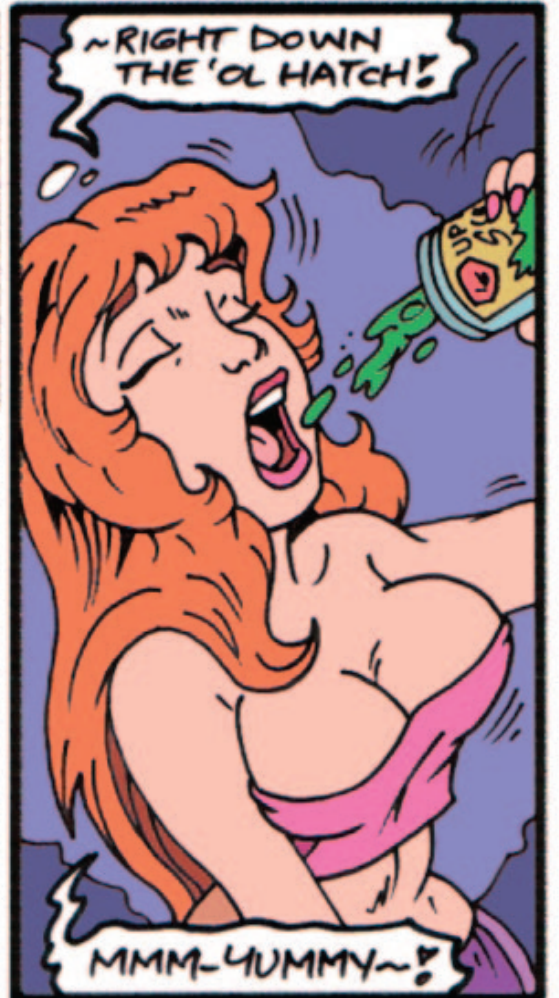

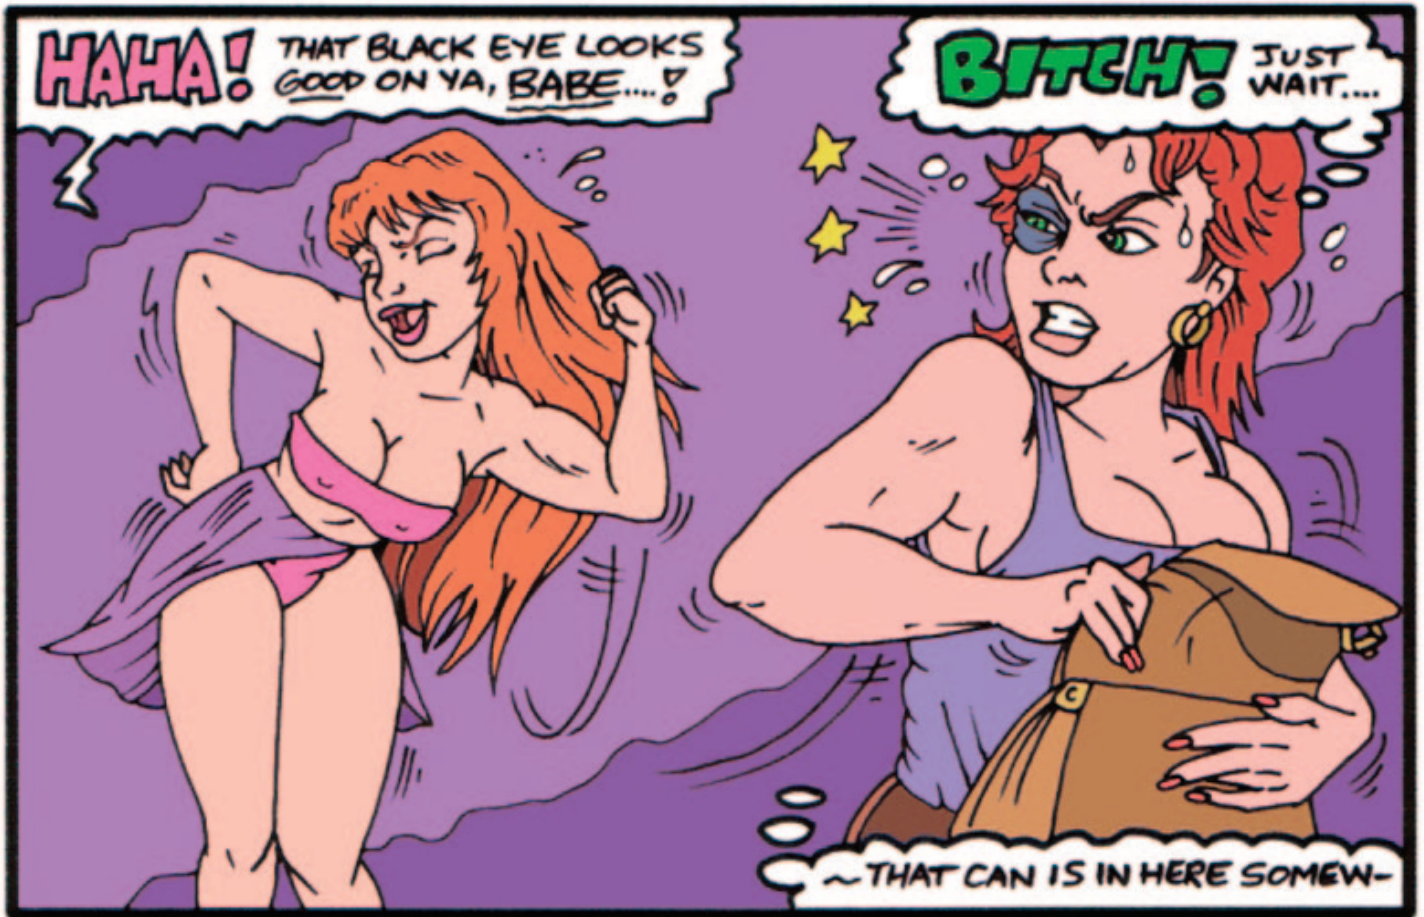

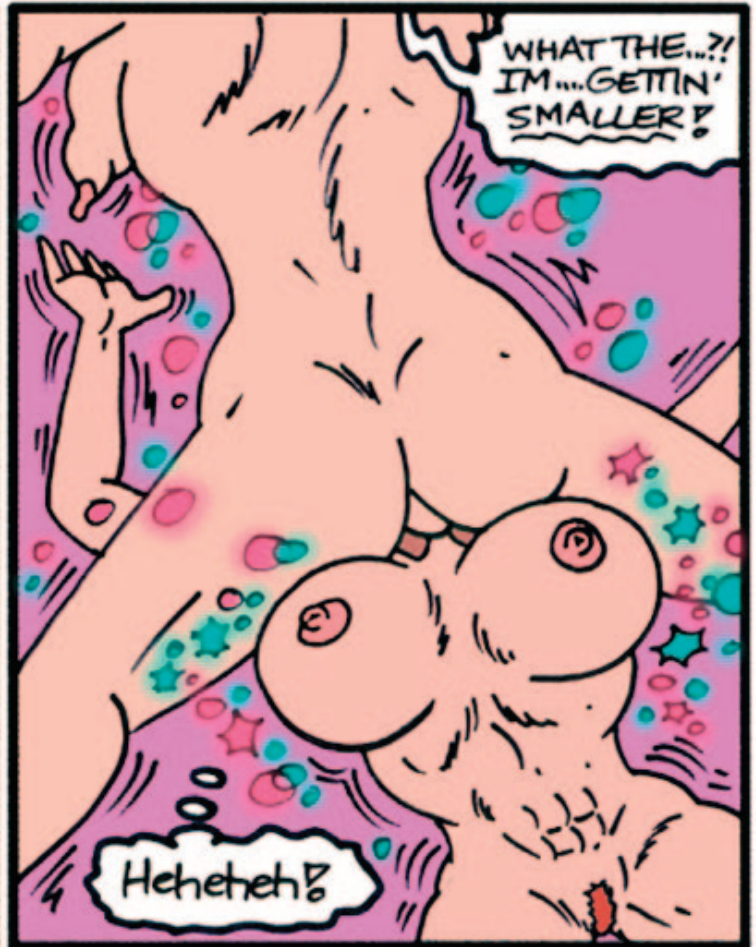

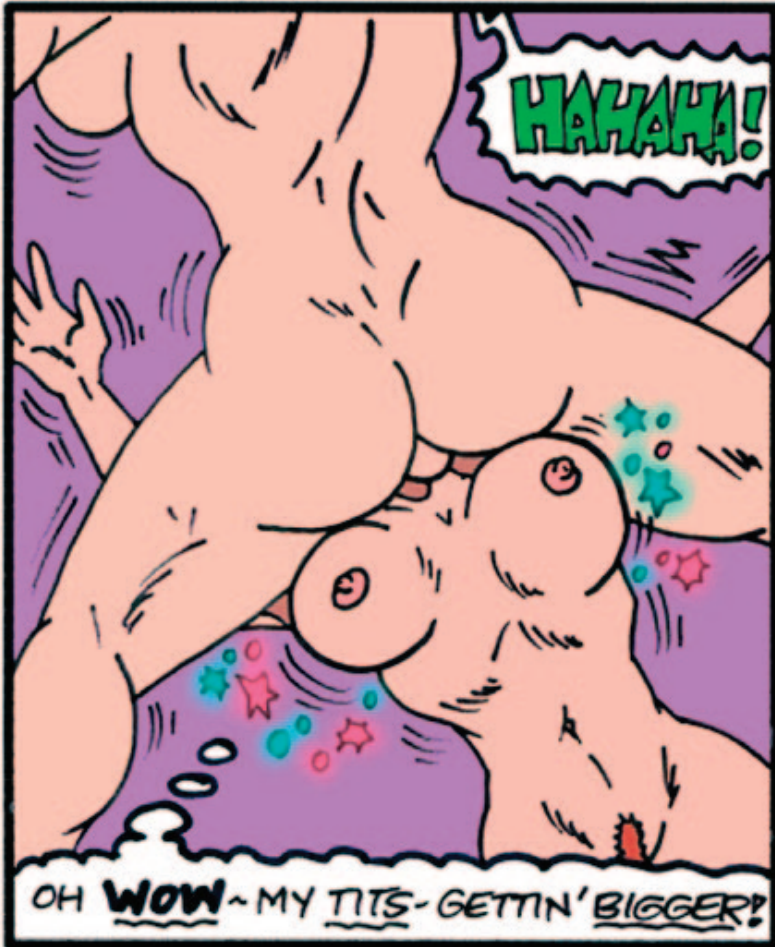

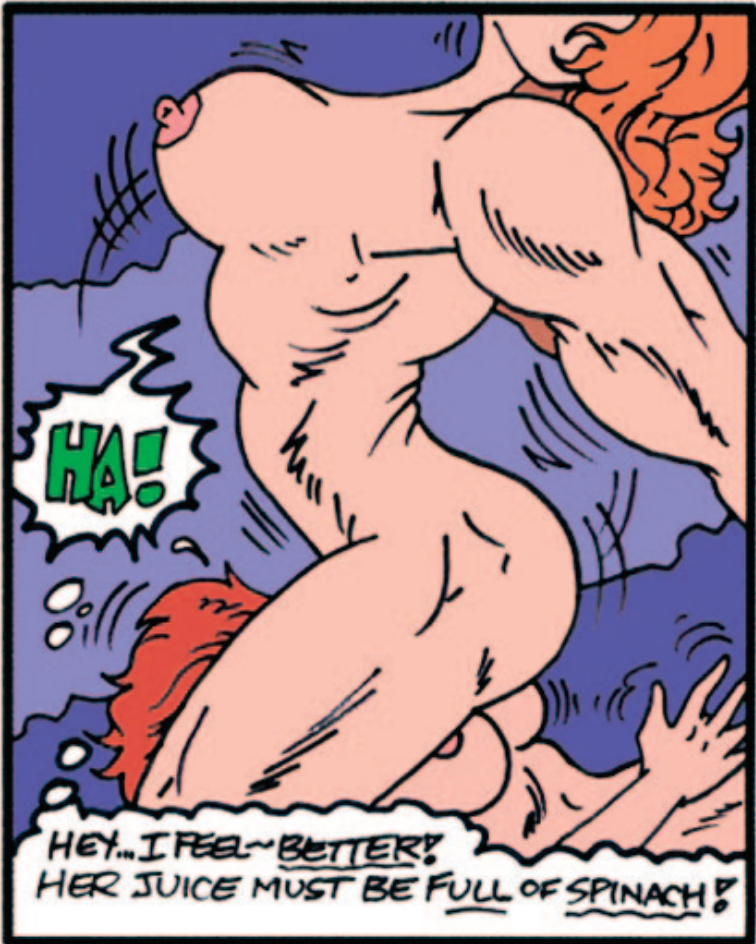

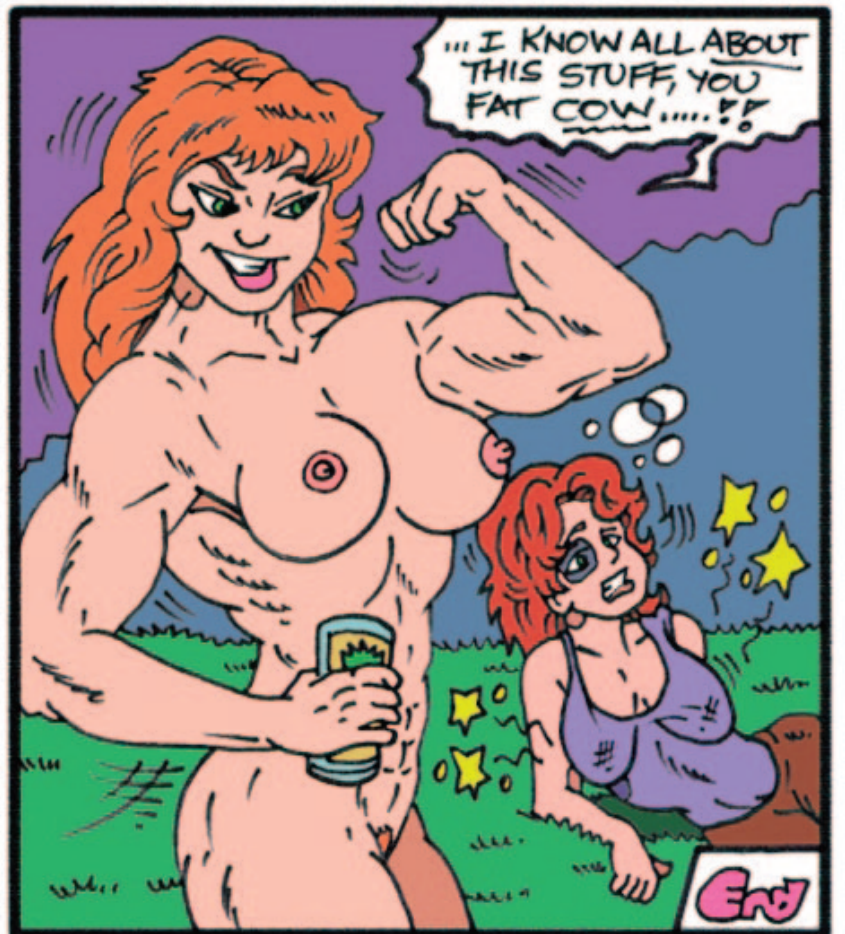

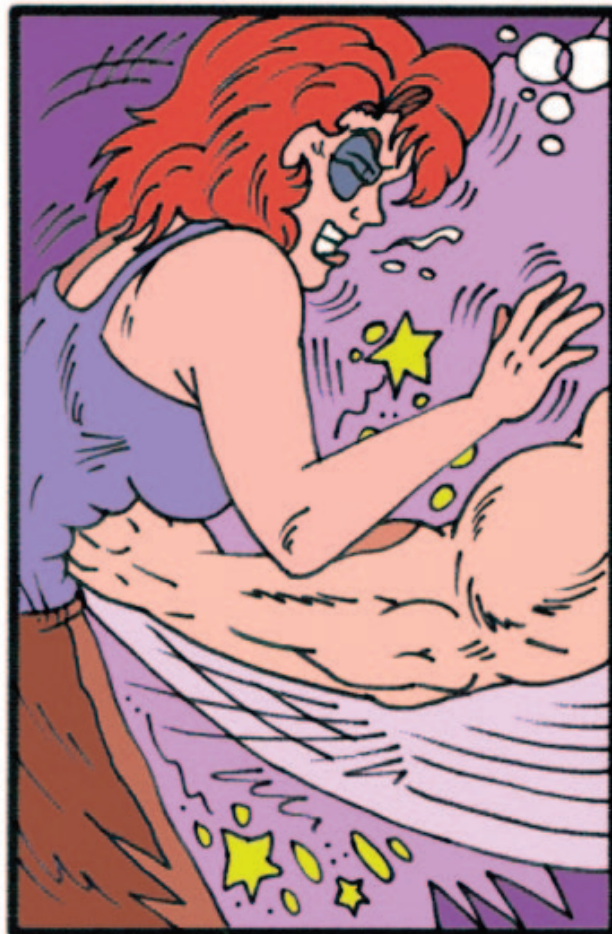

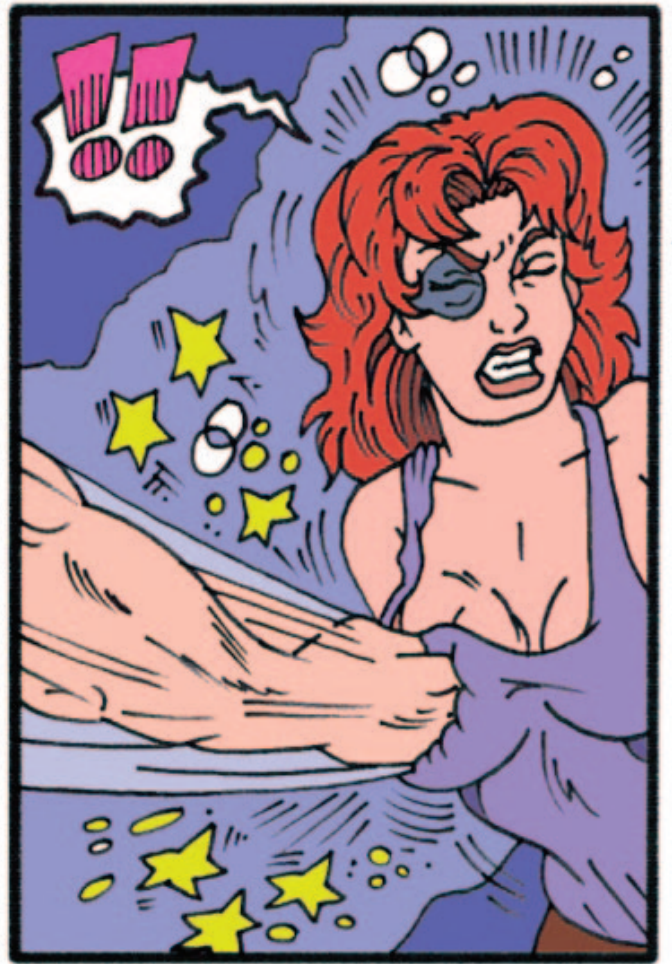

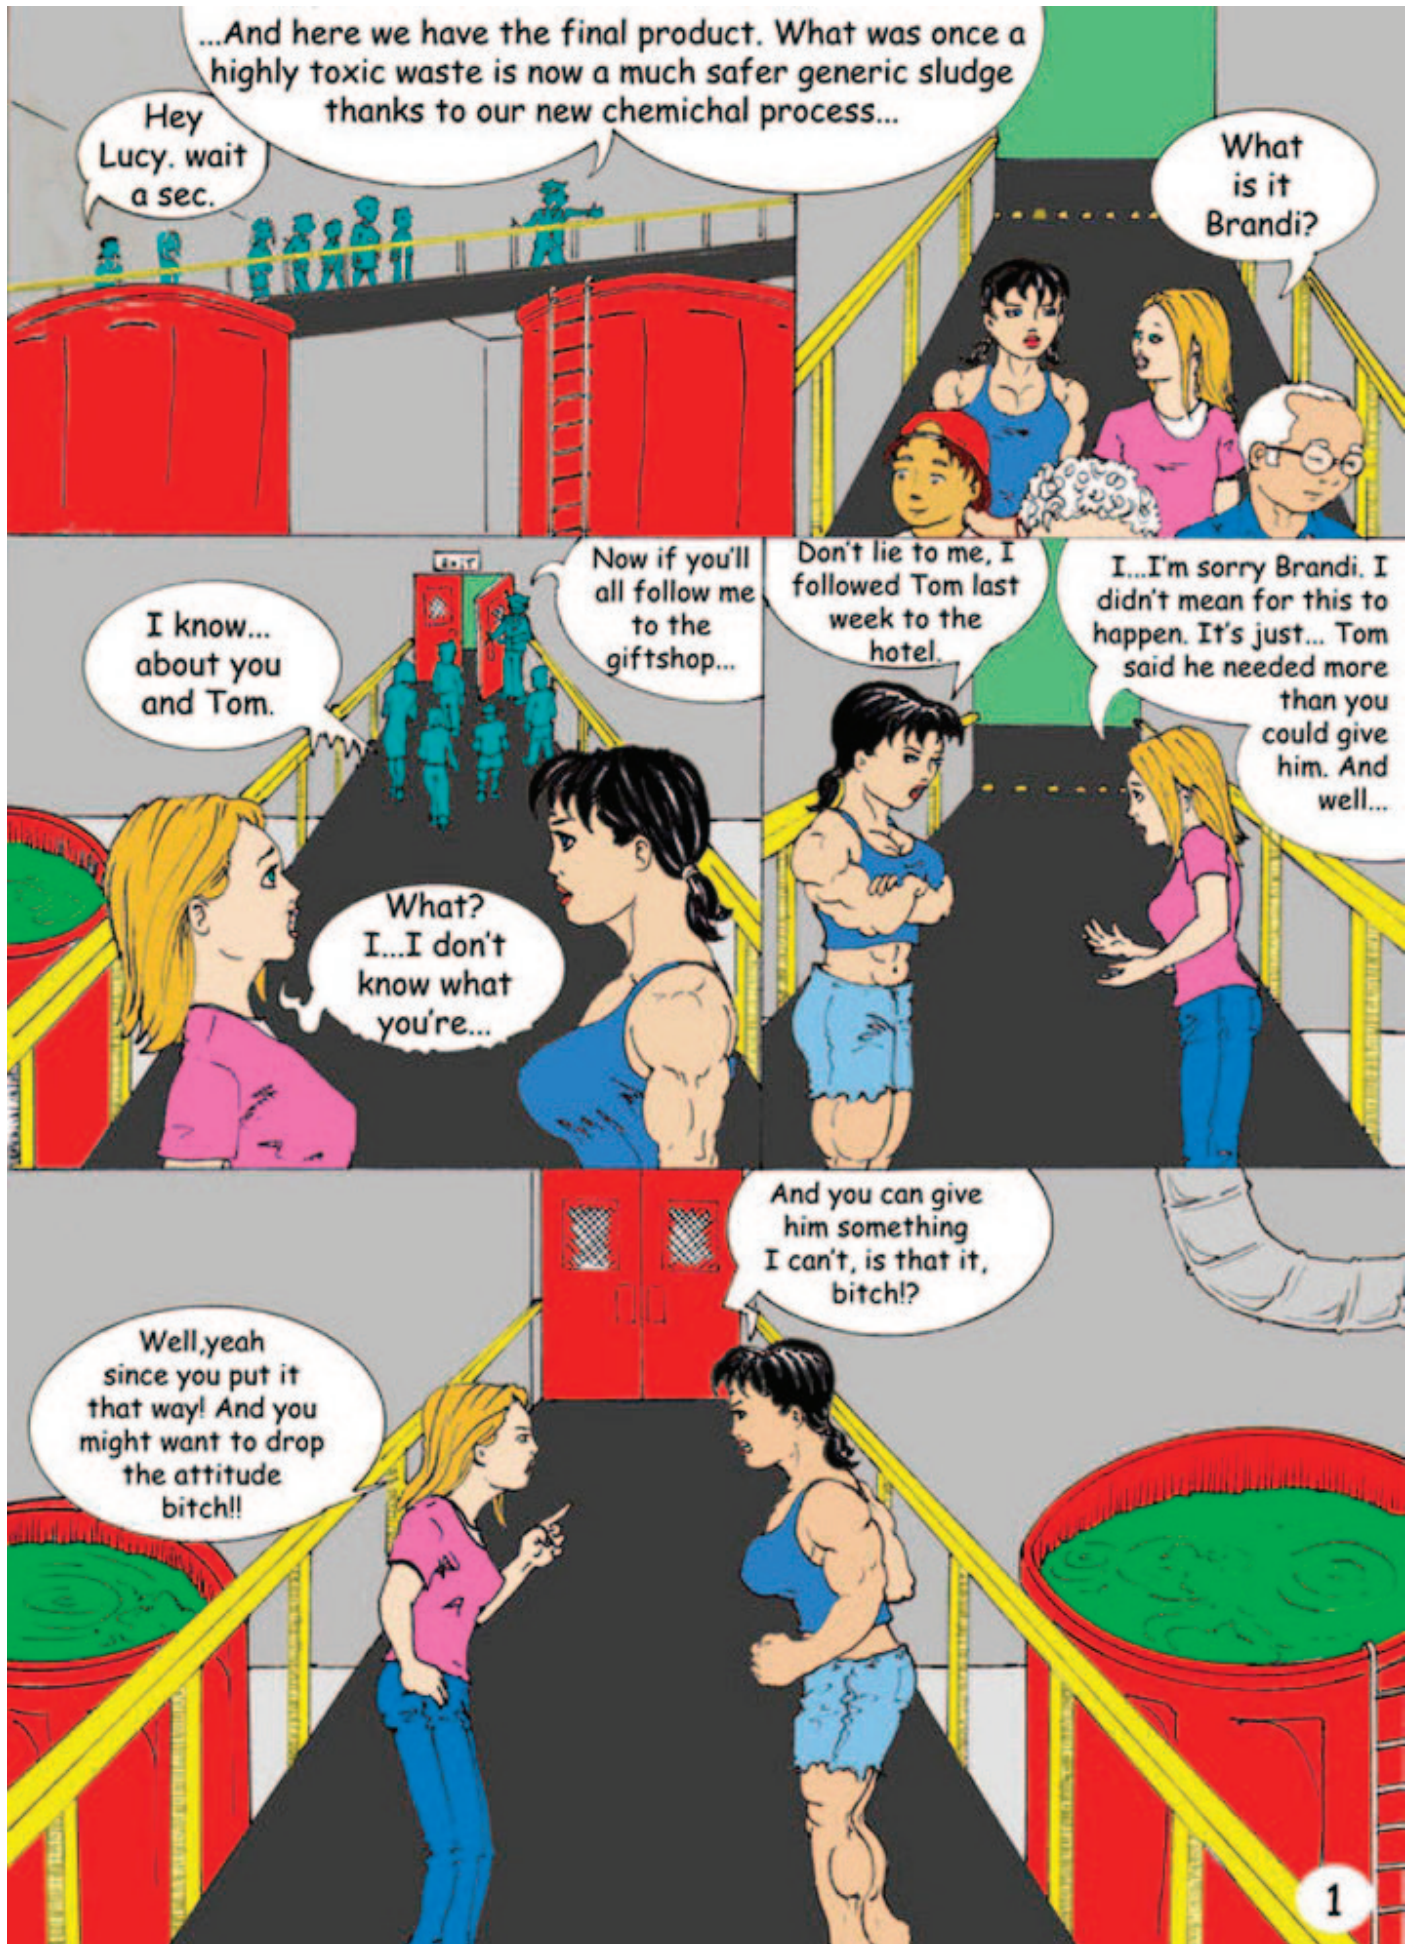

...And here we have the final product. What was once a highly toxic waste is now a much safer generic sludge thanks to our new chemical process...

Hey Lucy. wait a sec.

What is it Brandi?

I know... about you and Tom.

Now if you'll all follow me to the giftshop...

Don't lie to me, I followed Tom last week to the hotel.

I...I'm sorry Brandi. I didn't mean for this to happen. It's just... Tom said he needed more than you could give him. And well...

What? I...I don't know what you're...

And you can give him something I can't, is that it, bitch!?

Well,yeah since you put it that way! And you might want to drop the attitude bitch!!
