

Amy's Conquest 4

amysconquest.com

"USC Football Team In Horrible Bus Accident, Second String In For Remainder Of Season" read the title of this recently received newspaper article, one that was swiftly ripped from its main source with unreal excitement by a young pair of feminine hands, which soon after took the utmost pleasure in tacking it onto her bedrooms bulletin board; giving a series of high pitched girlish giggles from her perfectly shaped mouth as she did so, before bouncing around her room with her best friend (and Partner In Crime), both of them falling onto her large, soft bed laughing with a young girls glee and sporting huge grins across their stunningly attractive faces.

"Hahaha, Bus Accident, Riiiiight. Sounds like USC's got some explaining to do on that one" laughed out young 18 year old Amy Hardstone, dressed as usual for the morning in a soft, silky, navy blue teddy, which barely covered half of her lusciously rounded bubble butt; showing off more than her share of her prized frilly little teddy-bear panties, in addition to loads of silky smooth, rock solid, lusciously thick female muscle across her voluptuously hard body.

"Yeah, maybe we should go down to that paper and ask them to a new Title, something a bit more truthful, something along the lines of "USC Football Team - 0, Sexy, Teenage Amazons - 10"" Jessica Armstrong sexily giggled out in reply, wearing a similarly styled nighttime outfit, which did little to hide the massive amounts of sexy, muscular curves that she and her fellow Amazon Amy contained.

"God, last night was So Much Fun, we So have to do that again sometime! I can't believe what you did to your guys, Sweetie. Holding two of them high in the air with bulging biceps, forcing two others to rub, grind and gyrate themselves into your long, lean, muscle packed legs, while Guy #5 (or should I say, his cocks) was sandwiched inside your tight, wet, Power Pussy! God, that was Amazing, I so didn't think a big man like that could scream so High!" Amy spoke out to her friend, thoughts of their latest conquests coursing through her young mind, which caused her tongue to sexily peek its way out of her mouth and trace its way around her lusciously full lips.

"Oh now don't pretend you weren't doing the same there, Babe. I saw you taming your five guys pretty damn sexily as well. Holding one of them stretched out backwards across your thick, broad back from behind, smothering another one from the front with your pecs, while scissoring two more guys heads in those thick Thunder Thighs of yours, forcing the last one on his knees to lick and suck on (and in) those bowling ball glutes of yours! Baby, if I did well last night, that's only because I'm learning from The Master!" Jessica laughed out with teenage girl's excitement, as the two gorgeous young musclegirls continued bouncing on Amy's bed, relishing on their previous nights encounter, or in their case, Encounters. "Do you think those pictures Mandy took came out OK?"

"Are you kidding, that girl has an eye for such things; probably comes from the way experience, as we all know how she handles her boyfriend when he comes to visit her at work" Amy replied, speaking of their fellow Paradise Island workmate, who so graciously offered to take a series of photos of their handwork last night, only to go home and try each and every position on her terrified, screaming man afterwards. "I bet they'll get an even better response on OurSpace than the ones we took of you overturning that van the other day"

"College Frat boys, when will they ever learn how to treat a woman" Jessica laughed out, followed in suit by Amy's own high pitched giggling, both of them thinking back to that day and all of the pleasures that large vehicle full of young men provided them - with, or without, their say so. "Hey, speaking of college, didn't you have a Final Exam today?"

"Oh yeah, I forgot to mention, I was having so much fun last night I didn't think I would be home early enough for a good nights sleep, and Mom always says to be well rested before a big test. So I called her last night from work, asked if she could stop by the school on the way in this morning and talk to my teacher about that.....she can be very persuasive when she wants to be, so I'm sure I'm getting an A on that one, least I better be" Amy spoke out in a high pitched voice, ending with a wide grin across her beautiful young face and a powerful flexing of her fully exposed 17" arms.

"Yeah, I'll bet she does, your Mom is So Freaking Hot! What, did she have you when she was 12? And her body, its so easy to see that your apple didn't fall far from her tree" Jessica joked back causing them both to giggle aloud yet again, commenting on how similar Amy was to her Mother in a physical level; and as they would all find out soon enough, on a sexual level as well. "So, now that your calendar is free today, and your best friend has spent the night to help christen the End of High School (well, until Graduation next week, anyway), how do you think two hot, sexy, muscle packed Amazon teenagers should spend their day?" the dark haired supergirl inquired of her equally muscular, golden-haired, Sister In Muscle.

"Why how else, Baby.....how else?" Amy replied with a gleam in her glowing green eyes, which seemed now almost lost in thought, thinking about something - about someone - who always seemed to bring the utmost enjoyment to her powerful young body, in more ways than one. Her very first victim in the art of Amazonian Seduction and Muscle Fucking, and to her the all time best. Someone she would be using for her sexual pleasures every single night if she could, though the way women like Amy use (and abuse) their men during such sessions, it always left them a bit worse for wear (at the least). So time was needed in between their visits, ones which Amy (as well as Jessica) looked forward to with girlish excitement, something that was clearly evident after Amy's suggestion to pay this man a surprise visit, as seen in their bouncing around on her bed, their speedy getting ready for their prized soon-to-be visitor, and their swift exit from this lush and lavish house to go and claim him.

Within 30 minutes of revealing their plans for the day, the two beautiful teenage Amazons were making their way over to their intended destination; both of them filled with anxious excitement at what their day held in store, as they skipped along towards the house of one Mr. Robert Scott. Each of them wearing a very short, very revealing pair of denim jeans, Daisy Dukes shorts, which actually looked like a once solid pair of jeans that they simply flexed their mighty muscular thighs within, bursting it apart due to its expanding size and strength; transforming their one time ultra tight jeans to barely there denim short shorts. Their tight, tanned and super toned skin showing through with columns of steel hard female muscle adorning every inch of their pulsatingly pumped legs. Something that was erotically enhanced even more due to this sudden summer storm, which made their skin glisten and shine, showing off even more of their muscularly cut shape and definition.

Their upper bodies were hardly to be outdone, even by their world class lower halves, as each of them adorned matching white tube tops, making them look almost like exact duplicates or twin sisters, if not for the different color hair each of them had framing their truly gorgeous faces. No bras needed at all for either of them, as their dense and solidly muscle packed chests (which were easily in the DD-cup range) were full and thick with muscular hardness, easily capable of supporting themselves high (and anything else they choose to put on top of their steel hard pecs, as well). Stuck to their growingly slick skin due to the rain above, little trails of wetness cascading all around their lusciously rounded breasts, their tops getting wetter by the second, which made each of them look as if they were about to entire a Wet T-Shirt competition, something either of them could have won with near ease.

Their rippling hard stomachs were fully exposed for all to see, displaying a level of muscular hardness that made one wonder if they were in fact bulletproof or not. Their arms were pumped with power, as always, each of them sporting massively thick biceps, which were capable of truly amazing levels of strength. Their shoulders and backs were wide and broad, its exposed fleshy areas were littered with mounds and hills of Amazonian muscles; a perfect match to their fronts, each of them proudly displaying an incredible amount of their rippling hard, steel tight muscular cleavages.

Truly Amy and Jessica had dressed perfectly for this occasion, wearing outfits that they knew would inspire as much Lust and Arousal in their "always willing" male playmate as they would create Fear and Terror. Unfortunately, their nearly bowling over levels of excitement, lust and sexual anxiety quickly turned to surprise and anger at what they had seen upon finally reaching Roberts Scotts home, or more specifically, his front lawn.

"SOLD!?!!" Amy and Jessica yelled out in unison, eyeing up a realtor's professionally made sign that adorned this mans grassy front area. As if on queue, thunder crackled off in the distance, as it began to rain down on these two furious young musclegirls, something that did little to cool off their boiling tempers, though did wonders for showing off their overall physical appearance. Their former erotically lusting, sexually ravenous thoughts were lost on them now, angered to no end at Mr. Scotts apparently sneaky departure from this town, and their lives, something that didn't sit well with either of them one bit.

CRACK!, SPLINTER!, SHATTER!, went the once proudly displaying wooden sign, as Amy ripped it from its post, the metal chains that hung it there snapping with ease against this powerfully built teenage supergirl, just as the sign itself was broken to pieces within this blond bombshells super strong hands. Not to be outdone, Jessica then pulled the wooden post that held this sign out of the wet, grassy ground beneath them, and in a savage strike, broke it in two across one of her legs. Its 6 inches of solid wood proving little resistance to her own 27" of steel hard leg power.

They then made their way towards Robert Scott's front door, doing their best to control their anger, as their much anticipated plans for the night would all be ruined if rage got the better of them, and their unreal

strength got a hold of him with them in such a state. So with several seconds of calming down at his front porch, the girls then gave dual knockings on the thick, wooden door before them, and waited for their favorite playtoy to arrive. Like lambs to the slaughter, stalked by these two erotically hungry wolves, who were always at the ready for another bite from their favorite sexual meal.

"You guys are early, I'm not quite done packing yet, though if you could start with the furniture, I can.....finish....." Mr. Scott hurriedly spoke out, initially thinking that the hulkingly statuesque figures at his front door were the expected movers he'd hired; though within seconds of his vision (and his mind) coming fully into focus, he could see what was truly standing before him, something that made his 5' 5", 150 pound frame stand still in stunned silence, his much smaller form literally eclipsed from view due to these Titanic Twin Teenager Terrors.

"Hiya Mr. Scott, are ya going somewhere?" Jessica asked out in a playful little girls tone, as she looked down at his several inches shorter frame, her hands sexily on her tight waist, leaned back to flare her lats thick and wide over him, a devious smile across her face as she did so.

"Yeah, it looks like you're leaving, but I know that couldn't be so, as you still haven't said goodbye to us yet!" Amy continued on, a bit more anger in her look and tone; her Amazonian form leaning forward, her arms crossing over her thickly muscled chest, hitting a truly terrifying Most Muscular pose; one that coupled with her partners fully flexed back, nearly made them both burst right out of their barely concealing attire. Though that wasn't the only thing that was threatening to break free from its covering, as Robert Scotts more than impressively sized erection was rapidly reaching its world class levels; pushing his casual pair of sweat pants soft material out, something each of his Amazonian tormentors noticed near instantly, something that made them sport devious little smiles across their devilish young faces.

"Oooooooh, looks like someone wants to come out and play" Jessica teased out, reaching out to fondle his cock just inches from her incredibly pumped up frame. "He is So Ready for tonight, Sweets" she continued on, smiling even wider towards Amy as she did so.

"T-T-Tonight??" the amazingly intimidated/aroused man barely made out, trying to back away from Jessica's uninvited (though not entirely unwanted) touches, which was met with a harsh grabbing of his arm by her in return.

"Why yes, my adorable Little Man. That's what were here for, to invite you over for a little sleepover party we have planned.....which now I suppose we could make into a joint Goodbye Party for you as well, seeing as how you were going to stop by and let us know you were leaving anyway - isn't that right, Mr. Scott?" Amy intimidatingly spoke out to the much smaller man before her, as she made her way ever closer to his physically quivering form.

She then stuck out her voluptuously muscle packed tits, engulfing his entire head from view, smothering him breathless within her lusciously hard mounds of muscular mammary flesh. "Well teach you to try and sneak your way out of our lives....." CRUNCH!, the golden manned Amazon made out, flexing her pec muscles around his entire head as she did so, causing him to scream wildly in pain within her air-tight cleavage. ".....well teach you how foolish it is to upset a strong, muscular teenage girl...." CRUNCH!, went her chest muscles again, ballooning hard and full around his nearly disappearing face, ".....well teach you so many things tonight, that you'll never want to leave...." CRUNCH! ".....that is, if we even decide to let you go!", a final scolding growl from Amy's young mouth, a final flexing of her enormous breast muscles around his head, and the final feelings of Jessica's equally Amazonian form wrapping around him from behind (the two of them encasing him in a tomb of crushing female muscle) was all that was left of this man, and seconds later he fell into the blackness of unconsciousness at their hands - a feeling he was all too familiar with, and would be several more times, during this night to come.

Later that evening (an amount of time completely unknown to this slowly, awakening victim) Robert Scotts eyes began to flutter with life, reviving from his forced slumber at the hands of two teenage Amazon girls. Several seconds afterwards they began opening up, allowing blurred vision to enter his equally groggily awakening mind. Laying perfectly still on what appeared to be a soft, spacious bed (something he got from his sense of touch only, at this stage), his last memories beginning to flow through his brain; something which caused his heart to race wildly and his consciousness to return at a much faster pace. Thoughts of Amy and Jessica's sudden visit and capture of his much smaller (albeit older) form, as they used their powerfully statuesque physiques to forcefully knock him out and take him here for more of their special

brand of girlish enjoyment. Something that meant these muscularly built sex kittens could surely be close by, ready to strike at a moments notice, ready to Take Him for all that he was worth, to Hell with any concern for his own physical well-being.

Such thoughts filled his thin and weedy form with terror, though at the risk of being found out too soon, he swiftly closed his eyes and stayed perfectly still; doing his best to play possum, which lasted for roughly a minute, until his still ringing ears began to catch up with the rest of his body, capturing the various sounds that echoed all about this room - sounds he would soon recognize beyond any doubt, sounds he was all too familiar with in his previous sexual experiences with these sex-crazed teenage musclegirls, ones which fully confirmed for him that he was now truly in the Belly Of The Beast.

WHACK!, came out the sound of a soft materials thud hitting much harder flesh, which was quickly followed by another, and another, all of which was mixed with the very pronounced chirping of young girls laughter and giggings. Each of them sounding like they were having the time of their lives with a girlishly performed pillow fight, the perfect way to start this upcoming all-nighter; though as always with these two perfectly shaped powerhouses, with more than a bit of a muscular twist added in.

"So what do ya think, are you ready for some more sexy, young Amazon action? Wanna get yourself on in here and join us in our little musclegirl pillow fight" spoke out the sweet and sexy voice of 18 year old Amy through pouting lips, a smile adorning her stunningly beautiful (yet still very girlishly cute) face, followed by another playful WHACK, giggling as she did so. Robert Scott froze solid at hearing such words, as it surely meant that they had discovered his newly revived form, and was ready to continue their playfully punishing treatment of him.

"Mmmmmm, that would make us feel Soooo Good, having another one here to play with. Wont you come on over and join us.....we promise we wont hit you Too Hard" the equally young and high pitched tones of Jessica soon followed, offering their sexual prey another invite to join in on their fun, one which from either of these two girls was always more of a command than an actual request. This caused Mr. Scott's form to give off tiny little quivers and shakes, his body and mind now fully returned to their senses, allowing him to realize for the first time that he had been stripped completely naked, all the better for his twin teenage tormentors access to every single inch of his sorely over-matched body - and as always, his foot long, rock hard, highly sought after dick. Though this softly trembling mans concern soon turned to slight confusion at what came next, as while it was quite obvious that Amy and Jessica were talking to someone, he was now not so sure it was him that they were speaking to.

"Oooooooh yeah, well take it real easy on any of you who would dare accept out little invitation, or is that, our little challenge.....just as long as you didn't get us too Hot and Bothered while we played with you" Amy sexily cooed out with a teasing tone, followed by a few slight groans of erotically charged lust.

"Mmmmmmm, that's right Baby, cause if they did that, we might have to get a little touchy-feely with one another, with them trapped Tight in between our sweaty, rock hard bodies" dark haired musclegirl Jessica breathed out softly, adding in her own sexily placed moans of passion to the mix.

"Of course, some of you out there might like to get inside our little Muscle Cuddles, and to all of you fellow Amazon Hotties watching, we can guarantee it would be the time of your life" followed up the golden manned Goddess, as she moved her body closer to her Amazon sisters, caressing her thick, rounded shoulders, tickling the back of her exposed neck with her fingertips, licking her clearly displayed cleavage, while Jessica began doing the same exact same thing to her.

For the next several minutes these two teenage musclegirls sexily and erotically played with one another's lush and shapely bodies. Standing up to their full 6' heights showing off their unreal muscular physiques, their faces displaying beauty on a level of a professional model, their soft flowing hair placed in their favorite position, that of girlishly youthful pigtails, making them look like a pair of sensuously playful, innocently naive young girls, over the much more experienced Amazon Sex Goddesses they in fact truly were. Their glorious bodies covering only added to this youthful roleplaying look, as each of them adorned knee-length little-girl nighties, Amy's covered in little teddy bears, Jessica's soft material full of little love hearts. Each of their outfits looking like they would be better suited on a barely teenage girl, or even a few years younger, though this was a look each of them relished, and wore such nighttime attire quite frequently.

Their childishly styled material was stretched out to nearly beyond its limits across their full, thick, voluptuously muscle packed female forms. Though still quite concealing of their actual flesh underneath, the amount of hard muscular curves these girls contained more than pushed out on every inch of its fabric,

showing off their Amazonian shape with incredibly sexy results. The part of their legs that was exposed (the lower part of their massively muscular thighs, and down) looked silky smooth and golden brown, all too inviting for nearly any man on Earth; until they were actually trapped within such legs steel tight embrace, begging for their very lives from the all too crushing pressure these super strong girls could exert with ease. Their curvaceously firm and muscle packed arms also partially revealed, displaying a level of hardness and strength that could break bones to pieces, yet as was being shown right here and now, were more capable of giving a series of soft, tender, loving strokes and erotically traced touches as well.

Their breasts, while virtually entirely covered, pressed their traditional teenage girls' sleepover outfits to unreal levels, hugging their perfectly rounded globes full of female pec muscles like a second skin, their fully erect nipples as clearly visible to anyone watching as the sun on a clear, blue day. Always one to enjoy the gentle tickling feelings along their muscular rounded tits, Amy and Jessica began rubbing them back and forth across one another's growingly aroused frames as they continued to touch and tease the rest of their lusciously full hardbodies. Slight Oooohs and Aaaaahs emerged from their young lips as they did so, their nipples often brushing up against one another's, sending wave after wave of sexually charged delights coursing all over their powerful young bodies. Truly these girls needed nothing else but one another to bring them to the peaks of their Lust, though they were always up for adding others to this sexually charged mix nonetheless.

"Mmmmmmm, God I feel so Fucking Horny right now Baby, it would be so nice to have another sexy, hot musclegirl here to play with us, now wouldn't it?" Jessica breathed out sexily, as she continued on touching the perfectly sculpted form of her gorgeous Amazonian lover. Her eyes mostly closed, lost in the heat of the moment, as her tongue danced here and there across her full, pouting lips.

"Ooooooh Yesssss, Baby, it would be so nice to have a little more female muscle to touch, and tickle, and tease, and taste" Amy cooed in reply, as she began kissing the exposed areas of her sexual partners cleavage while pressing in on both sides of her mountainously muscular breasts, sending such shivers down Jessica's spine that her pecs began to harden, pump and pulse right there and then.

"And the best part about that would be, we wouldn't need to control any of our strength and power, knowing that she would be able to take all that we could give, isn't that right Sweetie?"

"Mmmmmmm, definitely. You just can't do that with men, they're just so soft and weak they cant help but break, and crack, and get ripped to pieces within our hard, solid bodies"

"Still, it is nice to have them scream and cry when we put The Crush on them, isn't it Honey?" Jessica excitedly added on with a devious smile.

"Oooooooh Yesss, I just Love cumming all over a man after I break a few of his bones.....crunch and crackle different parts of his body.....Mmmmmmm, tear him to pieces, limb from limb" such sensuously spoken words by Amy were followed by the actual sounds of ripping and tearing, which if the now utterly terrified Robert Scott had his eyes open and was watching this amazingly sexy display of musclegirl erotica (as the growingly sizable number of Amazons, and their fanatics, that were watching online were doing, thanks in no small part to a perfectly placed digital camera, feed live to their favorite OurSpace site), he would see each of these gorgeous teenage supergirls slowly extending their powerfully built arms wide away from their bodies, literally tearing their one time playfully used pillows (which were previously trapped between their sexily gyrating, steel hard bodies) apart as they did so. All the while with their seductively gleaming eyes erotically gazing out to the camera before them, slightly closed for the sexiest affect, their tongues sensually licking and cascading around their own full, thick lips as they effortlessly tore their pillows to ribbons.

"Awwwww, it's a shame we don't have anyone here to play with like that....." Jessica made out in a mockingly upset little girls tone, giving her lips a sexy little pout as she did so,or do we?" she followed up with a sly, devilish grin, as both she and Amy moved their bodies apart from one another; their voluptuously muscular physiques taking up all of their computer cameras view until now, which revealed the "seemingly" unconscious form of a small, weedy man laying on a bed in the distance. His body still trying to feign its one-time, forced out blackness, which was doing a fairly respectable job, with the exception of his utterly enormous erection, which currently (and involuntarily) stood up above his laid out form like a tower looming over the flatlands below.

"Well well, looks like our guest of honor has finally woken up" Jessica spoke in a teasingly devious little tone, as she and Amy turned around to face Mr. Scotts formerly unconscious frame; his giant sized cock giving him up and ruining his plans to fake his current state of being, something that he now realized was no longer needed. So he swiftly opened up his eyes, and what he saw (even though it was a sight he was all too familiar with) terrified his soul, blew away his mind, and thoroughly aroused his sexual organ like nothing else ever could.

"Ooooooh, looks like he was trying to fool us into thinking he was still Nighty Nights, but his big, hard, deliciously yummy cock wants to play" Amy followed up, as her eyes were hungrily transfixed on the amazingly hard shaft of manhood that proudly stood before her, her tongue peaking out and erotically licking her lips as if she was a starving child getting ready for a massive Thanksgiving Dinner. "Awwwww, but your poor body is trying to stop us from playing with you, isn't that right little guy?" she continued on, speaking to this massive sexual rod in a little girls tone.

"Well that isn't very nice Sweetie, I guess well have to dish out a little punishment to him for keeping our favorite sex-toy away, isn't that right?" Jessica breathed out with an evil grin.

"My thoughts exactly, Baby" Amy cooed in reply, as each of them raised up their thick and muscle bulging arms, only to sexily power them down second later, causing their already (at rest) massive biceps to harden and expand to truly amazing levels, tearing the once skin tight sleeves of their girlish little teddies to pieces

due to their incredible muscles advance. They then gave their online viewing audience at home a real treat, as each of them placed their hands on their lusciously full hips, and flared their backs and shoulders out to such unreal widths that even though they were now standing apart from one another, their lats slowly began to reach out for their neighboring Amazon girls form, almost completely blocking the terrified man from the lucky viewers at home yet again.

Of course, such a feat would (and did) cause their body hugging, nighttime outfits to split right in two from the back, showing through an amazing amount of teenage female muscular flesh for all watching online to see. Lastly, these two sexually starving Amazons, each of them eyeing up their preys prized cock just waiting to be taken, each of them lost in a deep state of Muscle Lust, sensuously brought there hands up to their collars, and with one savagely powerful pull, ripped it apart from the front (just as they had done to its back); displaying not only their perfectly shaped Muscle Tits to their "unwilling" male partner, but now that their once concealing teddies were ripped to pieces, exposed their entire hard bodied frames underneath as well. Doing so now in an even sexier level of lingerie, one which hugged their pumped up female physiques to a T, powerfully emphasizing and erotically displaying their unreal forms to truly awe-inspiring levels.

Amy proudly stood before (and above) Mr. Scotts quivering form wearing a sexily matching pair of virginal white satin bra and panties, which perfectly hugged her bodies lusciously muscular form like a glove; though so thick and lush was her overall physique, so hard and powerfully muscular was this golden haired teenagers body, that the material of this erotic attire was easily being pressed to its limits to contain all that he was. Even then, the soft, satiny material was barely doing so, her panties only just covering her visibly wet and all too anxious pussy, while her DD-cup lacy bra was on the verge of snapping apart, such was the overall thickness of her broad, wide back and massively muscular breasts. Jessica's outfit was quite different from her Amazonian Sisters, though no less erotically sexy in the least. Her dark haired Amazonian frame was wearing a sultry little one-piece lingerie made up of fire red satin. Specifically designed to be partially see through, though in her case it was so much moreso, as her voluptuously meaty shape pressed and pushed its fabric out to the extreme; especially her lusciously ample chest, which displayed the perfect amount of voluptuous cleavage (something which was increased to even greater degrees due to the expanding pec muscles of her breasts).

Each of these young musclegirls looked like gorgeous Victoria Secret models, as they wore outfits that displayed their bodies in the sexiest way possible, using the sexiest materials, dressing in the sexiest styles; just covering enough of their gloriously muscle packed bodies with its form fitting material, while leaving more than enough fully exposed to their now arousingly shaking man (and all glued to their computer screens at home) to see. From rippling muscular backs and shoulders, flared wide and powerfully intimidating; to glutes that looked like a pair of smooth as silk bowling balls, with the hardness to match; to legs so hard and lean, yet lusciously thick and shapely, every inch full of them peaks of female muscle; to their rock solid, steel hard, pulsating pumped-up arms; and finally their muscularly ample pecs, which on both of these Sexy Amazon Goddesses looked to be on the verge of bursting free from their barely held together coverings, their incredibly erect nipples already beginning to tear little holes in their soft, satiny fabric.

"Mmmmmm, I'm so fucking Hot right now Baby, I just cant wait another sssssecond" erotically breathed out Jessica, followed by her sensuously probing tongue dancing all about her full, thick lips, her hands sexily caressing her own muscularly hard body; ending at her visibly moist pussy, as she moved the barely covering fabric of her lingerie away and began to give little tickling touches to her most sensitive of areas.

"Oooooooh Yeah, My Love, I know exactly what you mmmmmmean" Amy quickly, and just as arousingly, followed suit, as she began sexually probing her own bodies lush and shapely curves. Touching just the right spots for optimum sexual affects, her fingertips trail ending at her thick and meaty chest, which were flexing wild and passionately now, filling their once firm breasts with rock solid pec muscles.

Both of these girls were at their willpowers end, and could not hold back from beginning their well thought out night's sexual events any longer; nor did they really need to, as with the strength and power that these sex crazed Amazons contained, the world was theirs for the taking. Something they so often used to full affect, as often as they liked, though none of their previous conquests thrilled them as much as the terror filled form, complete with steel hard cock, of one Mr. Robert Scott. So without further wait, Amy and Jessica pounced on the bed to join him, a bed specifically designed to house such impressive weight, in addition to being spacious enough to fully and comfortably support their statuesque, muscular bodies.

Without another word, both of these super powered teenage girls exposed their dripping wet pussies to their utterly entrapped victim. Jessica tearing her lacy one piece outfit apart in order to give her starving love-hole an opening, while Amy ripped her satiny panties in two in order to do the same. The blond bombshell then straddled the vastly over-matched form of Mr. Scott, Taking his body for her sexual pleasure, as she savagely grabbed a hold of his over-sized dick that was her addiction, and shoving it deep inside her newly revealed vagina. Its snug embrace sending waves of pleasure throughout his entire body, for the first few seconds that was, until Amy began powerfully riding it for all she was worth; giving high pitched little growls and roars as she did so, her eyes closed tight as her steel hard body continued to slam into her object of lust over and over again. This sexually punishing treatment went on for several minutes, her girlish giggles of delight matching tune with Robert Scotts moans and groans of pain, as her much heavier, much stronger body savagely grinded into his with ultra arousing (yet devastating) results

Pound!, Pound!, Pound! went Amy's body onto her male partners, so powerful was her intensity in doing so that the very bed itself shook and lurched about, something this golden manned musclegirl didn't even seem to notice; as now was not the time to be soft and gentle in her love-making (a treat she and Jessica saved only for one another, and any other sexy young Amazon that happened to be caught in their mix), not on his body with her own, and not on his foot-long erection with her tightly enveloping pussy. His once steel hard shaft was taking its share of a pounding from her powerfully enveloping vaginal muscles, milking its still very

impressive size with unreal amounts of erotic intensity, which was sending the perfect blend of pain and pleasure flowing all about his own sexual organ - though that wasn't the only area of Amy's Amazonian form that was in the mood for a little pounding. Before much longer, Amy leaned forward towards her pain-wracked male beneath her, her mammoth sized pecs just inches from his face, as he looked up to his sexual destroyer above him, who smiled a devious grin as she began her next series of painfully punishing poundings on his much physically weaker form.

Slam!, Slam!, Slam! went her breasts back and forth on either side of Robert Scotts head, their one time amazing firmness (which was as soft as her breasts ever became) were now fully flexed into mounds of mighty mammary muscles; each shot of which felt like he was being punched from side to side by a set of powerful manly fists, over the DD-cup breasts of a strikingly beautiful 18 year old girl. Back and forth, side to side, right to left, the face of this one time schoolteacher went, his brain bouncing around within his sorely beaten skull, his only thoughts were of the unreal amounts of pain that was flowing all about his sorely beaten head (both of them, in fact), all caused from Amy's super strong sexual charged areas.

"Oooooooh yeah....." SLAM! ".....this feels soooo goood, Baby" SLAM! "You soooo.....Mmmmm.....have to try this....." SLAM! "....with your big, hard....." SLAM! ".....Muscle Tits!" Amy roared out erotically, as she continued her erotically powerful Breast Boxing with her favorite male sex-toy, giving him a beating using her thickly muscled breasts alone. Doing so as she alternately leaned her body back, waving her head from side to side with unbridled lust and skill of a porn star, causing her girlish little pigtails to bounce and fly all about her gorgeous young face, before returning back to her prey for a few more Pec Punches. All the while grinding into his cock with her pulsating hips and hot, young hardbody, all the while the inner muscles of her incredible physique continued to milk, and squeeze, and crush the hard and throbbing erection that lay trapped within.

Jessica of course was more than eager to try out this amazingly arousing display for herself. Kneeling on the bed just inches from all of the action, her thighs hovering on either side of Robert Scotts harshly beaten head; as she fondled her own bullet-hard nipples with incredibly lust filled results, flexing and pumping her own pecs to even bigger and stronger levels, as she knew it would be her turn soon and she wanted to make sure she (and her equally massively muscular breasts) were ready. A turn that was now hers to take, as Amy playfully tagged her Sister In Muscle (breast to breast, nipple to nipple) just seconds before her own

swiftly building sexual explosion, as she excitedly raised herself off their male partners beaten form with a POP sound coming from her pussy as it made its final exit, its suction hold over the much desired dick of Mr. Scott heard all about this room. It still holding its more than impressive height and firmness, even after all that Amy had put it through, something which made Jessica dive right in for her taste; taking the same position her muscle packed lover has just removed herself from, riding his erection with the strength and savagery of a jungle Amazon Taking her easily defeated prey.

Pound!, Pound!, Pound! now went this teenage supergirls steel hard, arousingly pumped body on her adorable male victim. His once cute and adorable face (one of the other reasons Amy and Jessica was so attracted to him) was now showing its share of bumps and bruises, caused by one thing and one thing only, a set of female breasts that were harder and stronger than virtually anything else he could imagine - that was until an equally powerful set of chest muscles quickly descended upon him, his face staring helplessly into its lusciously tight cleavage, completely with muscular ripples and surrounded with loads of rock solid breasts muscle. Slam!, Slam!, Slam! went his head from side to side, just as before, it being punched and struck with unreal strength by yet another teenage girls super muscular pecs, who was thrilled to no end at her ability to do so, as well as the feeling of his 12" shaft engulfed within her all too drippingly moist vagina.

"Oh Fuck.....fuck yeeaaaaa.....God, this feels.....Mmmmm.....soooo Fucking Good!" Jessica breathed out from her full O-shaped lips, as she continued using and abusing the unreal piece of sexual man flesh inside her muscularly tight pussy. Her powerful gyrations and hip thrusts creating friction that sent ultra pleasurable sexual energy throughout her entire body; the same could have also been said for the physically dominated man below her, had she not continued where her Amazonian girlfriend left off, leaning her super hard upper body forward, using her thickly muscled chest to cause amazing levels of pain to him instead. Her tactic was a bit different overall to her lovers, as instead of knocking Mr. Scotts face back and forth the awesome striking power of her glorious globes, she instead simply lowered her breasts onto his face, all the while continuing to Slam Fuck into his incredibly aroused dick, and just Flexxxxxed.

Her extremely ample chest flared instantly with lush, rock solid muscle, going from its all encompassing smother to a devastatingly powerful Pec Crush. Squeeze!, Squeeze!, Squeeze! went Jessica's mighty muscle tits, as they alternately pumped and hardened around her poor, outclassed male victims head. Crushing it from either side with unreal pressure and firmness, causing him to scream and cry near instantly upon doing so, something which sent shivers of erotic delights all across her powerfully pumped up body. Her own face bent up and away from her incredible breasts crushing embrace, her eyes closed, her tongue dancing all about her lips, as she relished this amazingly pleasurable erotic experience; manhandling both of his heads, just as Amy had done minutes earlier, with only her most sensitive and sexual areas doing the punishment. Flexing her chest around this mans head was done with perfect synchronicity to the grinding motioning of her pussy around his cock; giving him a brief second of Pleasure, then swiftly a body shaking amount of Pain, and then back again. The ultimate blending of the two, as always, made for the absolute best of sexual experiences for both Amy and Jessica, whenever an all too "willing" male partner was in the mix.

Not being greedy or selfish in the least when it came to sharing their heights of erotically charged lust with one another, Jessica raised up her upper body after another few minutes of its all too powerfully punishing display, and gave Amy (who had taken Jessica's previous position, fondling her own thick and meaty breasts, while watching her Amazon friend turn herself on) a little Tit Tag, signifying that it was now her turn to join in the fun with their prized male sex-toy.

With another erotic Popping sound coming from Jessica's own enveloping vagina around their all too pleasing, steel hard shaft, Jessica sexily crawled around Robert Scotts defeated form on one side of the bed, switching positions with Amy, who equally sensuously made her way over to this much desired position on his other side. Lowering herself (and her all too moist and hot pussy) over this mans erection, sent an instant and sudden jolt of Sexual Energy throughout her entire body. So much so that it caused her to cry out a loud, high pitched Coo, as well as tightening her vaginal muscles so strong that it nearly crushed the object of their ultimate lust to mush within its super hard grip.

"Mmmmm, God you feel So Good inside me, Mr. Scott.....Oooooh Yesssss.....I want more of you inside me.....Mmmmm,.....I Need more of you inside me....." Amy breathed out sexily through full, pouting lips; as she leaned herself forward, once again fully covering the much smaller male form that was being savagely raped beneath her. Her thick, beefy, perfectly rounded breasts tightly engulfing his head as she did so, literally taking in every inch of his skull inside her deep, rippling cleavage, as she made good with her previously spoken desire, and literally engulfed all of his thin and weedy frame inside of her own thickly muscled one.

Unlike her previous breast bashing, this 18 year old blond bombshell followed her Amazon partners lead, and thought that a nice Chest Crushing would be next on her pec punishment agenda. So with a few sudden breathes of lustingly fueled air escaping from her sexually quivering mouth, Amy began to flex her upper body all over her man. Making her body even bigger, harder and stronger than before, focusing primarily on her DD-sized chest, which solidified into rock hard muscle, crushing on either side of Robert Scotts once attractive, though now growingly beaten, face.

Squeeze!, Squeeze!, Squeeze! went her swiftly expanding pec muscles around her delicious mans skull. Little creaks and crackles swiftly coming from within her massively mighty tits, which was quickly followed by the continued sounds of his muffled screaming and soon after crying from within her tight embrace. Something which caused Amy to erotically giggle uncontrollably with a big smile on her gorgeous young face, as he did so; as little else raised her to the heights of sexual pleasure over using her body to cause her men to scream in agony and cry at her powerful handling of their much weaker forms.

This sexually arousing, yet devastatingly painful, hold continued on for several more minutes, before Amy raised herself (and her meaty muscle tits) off of her prey's form, giggling with girlish glee as she watched him wildly reach for every new and much needed gasp of air, of which he was so long denied. His body easily defeated with their first of many such positions to come, while Amy and Jessica's sexy Amazonian frames were as strong and muscularly pumped as ever. Their heavy breathing and glistening layer of sweat coming from this performance was due solely to their rising levels of lust and arousal, over any physical exertion used by each of them in handling their older, though much weaker, man. With a sexy smile and a sultry wink from Amy, in addition to an erotic tapping of their muscular breasts together to signify it was time to make a switch, Jessica then made her way on top of Robert Scotts tiny form. Straddling his body with girlish excitement, as she lowered herself onto his shaft, sexual shivers instantly shooting through her body, which as Amy's did several minutes earlier, hardened its Amazonian muscles all about him, making him feel like his vaginally gripped cock was now in a crushing fleshy vice.

"Mmmmmmm, Fuck yeah.....your cock is so Thick.....so Hard.....Ooooooh.....but not as much as my Big Muscle Titties" cooed out the dark haired Amazon, after spending nearly a minute riding this mans dick. She then leaned her body even more onto his, her big pecs visibly flexing and pumping as she lowered herself down to his face, or more specifically, her punishingly powerful pecs down to his head. Slam!, Slam!, Slam! came an all too familiar sound echoing all about this spacious bedroom, as Jessica twisted and turned her rippling hard upper body back and forth, and with it her strong as steel breasts, which as Amy had done before, were slamming into the sides of Mr. Scott's visibly bruised face with devastating results. Not surprised in the least by the power such young girls breasts contained, the brutally raped male victim being on their receiving ends quite a few times in the past year or so, though that in no way meant he was (or would ever be) used to such rock solid, Amazonian power. His brain felt like it was being rattled all about his skull, something which wasn't far from the truth at all, as Jessica continued her savagely strong strikes on his head with her muscle packed chest, alternatingly his Boob Beating with a sensually struck leaning back of her own erotically peaking body; shaking her head back and forth with unbridled lust, as her dark colored pigtailed bounced all about her strikingly attractive face.

This treatment continued on for the next 10 minutes, each Amazon girl straddling their poor male sex-toys body, enveloping its thick and throbbing dick into their increasingly wet pussies, while they used their massively rounded pecs to either beat his face into near pulp, or smother his skull with their fullness while flexing them hard as stone. Something which caused him to scream and cry out inside their snugly tight holds, sending shivers and jolts of erotic delights all throughout their near sexually exploding forms. Amy and Jessica then removed themselves from him altogether, rising their thick, voluptuously hard bodies off the bed itself, before grabbing a hold of their mans naked and nearly unconscious form, shoving him between their towering titanic teenage physiques, and SLAMMING into him over and over again with incredible sexual savagery.

Shoving his amazingly hard erection deep inside Jessica's awaiting love-hole, they completely engulfed his much smaller frame within their young muscular physiques, as they held him several inches off the floor with their rock solid embrace; especially the continued hold from their pulsatingly powerful pecs, Jessica's set of unstoppable crushing breasts from the front, and Amy's equally steel hard tits from behind. The two girls sent loud Ooooohs and Aaaaahs from their young thick lips, so loud were their high pitched breaths of arousal that they completely blocked out their preys pain-wracked screaming; something which their quickly smothering chest muscles more than helped out with, as they muffled his yells of panic and agony deep within their hold, causing the pair of sex crazed Amazons to shiver and shake at the vibrations his quickly fading voice created inside them.

Knowing that their first of many sexual experiences - sexual conquests - was about to come to an end, each of these amazingly aroused and lustily filled young girls moved their hands from their broad, wide, powerfully built backs, to the lovers glowing erotic faces. Pulling them deeper into one another (which wasn't an easy task, due to the strength and thickness of their matching muscle tits before them) until their lips met and were locked together in a passionate embrace, something which was followed by the loudest sexual moan yet. Each of them turned on to an incredible degree, each of them eagerly awaiting for their first of many climaxes to come, each of them drinking in their girlfriends pouting lips, teasing their sensually tickling tongue with their own, sensually rubbing the back of their necks, feeling their bodies push and press into one another's, the act of which was literally crushing Robert Scotts body to near pulp between them. Though even in the midst of their sexily charged display, they know their night's fun would be all but over if they had broken their sweetest, most delicious play-toy so soon. So they slightly toned down the intensity of their powerfully gyrating bodies, not enough by any means to save him his untold suffering and pain they needed to cause him to reach their own sexual peaks, though just enough to ensure that he wouldn't be Crushed out of commission so early in their night. Something that could have happened to him quite easily, due to his weak and weedy body, held within this utterly inescapable prison of teenage female muscle.

Though as thin and frail as his overall physical frame was, one part of his undeveloped anatomy that was anything but weak was his virtually exploding erection, still held deep within the erotic embrace of Jessica's tight, moist vagina; its inner muscles milking and sucking its long firmness just as her lips were sucking on Amy's own. The pressure of its tight squeezing pulsations was extreme, enough to crush a normal mans cock to pulp within its moist muscular vaginal envelope. Though as was clear to all of them involved, Mr. Scotts dick was hardly normal; a stark contract to his short, thin frame, it was easily the most tasty and satisfying shaft of meaty man flesh either of these teenage musclegirls have ever had. Its unreal size and firmness allowed it to survive the sensuously crushing assault of Jessica's pussy over and around it, just long enough for it to Explode all of its pent up juices deep inside the muscularly pumped teenager before him. Something which caused him to give one final screaming with all of his remaining breath, a scream of both Pain and Pleasure combined, as he drifted off into the realm of unconsciousness, brought there by the brutal raping of two teenage girls. His wild eruption of juices deep within Jessica caused her to do the same all over him, squeezing his vaginal muscles over his erection tighter than ever, as she flexed and flared her body full and hard into his, causing Amy to do the exact same thing in return from his opposite side. Her gyrating hips and sexily grinding pussy over Mr. Scotts soft, little butt being enough to finally send her over her limits as well, shooting out streams of cum all about his backside, just as her Amazonian lover was doing to his front.

Their bodies hard and crushing, near mangling their now silent male partner between them, as they continued on their lustily charged gyrations for the next several minutes, making sure to squeeze out (literally) every last ounce of erotic delights from their latest sexual experience. Knowing well enough to separate their breasts ever so slightly, giving their young quivering lips one final kiss before they did so, allowing the air about them to softly flow into the lungs of their viciously knocked out man.

"Mmmmmmm, that was sooooo.....Mmmmmmm.....so good, Baby" Amy softly cooed out to her Amazonian girlfriend; a look of unrivaled want and desire in her eyes as she stared over to the beautiful young female face staring right back at her.

"Fuck.....fuck yeah, Baby....." Jessica cooed back, their breathes lost in the heat of passion swiftly returning to their ultra fit and muscular forms; their heavy breathing alone enough to continue the constrictive pressure on their entrapped male from their heaving, sweat covered breasts. "God, I can't wait to do it again.....Ooooooh, and again.....Aaaaaah, and again!" she anxiously made out, before giving her lower lip a tenderly erotic, little bite.

"Tell me about it, Baby, I cant wait to give our little toy another work out.....and I bet I'm not alone" Amy cooed back with a smile, as both she and Jessica turned their heads to the still recording digital camera; and with pouting, O-shaped lips, gave sexy little winks to all of their fans at home.

"Maybe we can try and breathe some life back into him.....or better yet, Squeeze some life back" the super aroused Amazon teenager sexily cooed, both of them now looking back at once another, with devilish little smiles on their utterly gorgeous young faces, as they began to do exactly that.

With an effortless shuffling of Robert Scotts thin and weak body, they lifted him up even higher off the floor, their biceps bulging as they grabbed onto him to do so, even though such a weight was only a small fraction

of what each of these girls was capable of lifting - especially both together. Doing so removed his head from its formerly tit crushing level, now placing his chest, lungs and diaphragm perfectly snug within their thick and meaty chests grasp. Moving together and into one another in unison, they were using their lusciously rounded pecs to give a series of firm, yet hardly bone snapping, squeezes onto his newly unconscious form. Pushing in and up with their breasts in a way someone with CPR would press on a man's ribs to get his lungs starting again. Proving yet again that the same pressure they could use to crack bones to splinters could also be used for much gentler displays, they continued pressing their breasts into each other, pumping their male victim's lungs in and out, while holding him over a foot off the floor, using just their amazingly ample chest muscles alone to do so.

They continued this performance for another few minutes, their hands sexily caressing one another's bodies as they did so, while their thick muscular breasts fully supported (though in a much less crushing way) the limp and seemingly lifeless form of their adorable man between them. They continued to flex and pump up their rock solid pecs all about his torso, their own voluptuously hardbodied physiques softly and sensually gyrating into each other; doing not only an amazing job at getting them both hot and bothered again, but apparently in bringing their much desired sex-toy back to life, as was all apparent due to his sudden coughing and wheezing, and his eyes slowly returning to their previous open state.

"Oh look Honey, we really did bring him back to life with our big, hard Muscle Cuddle" Jessica joked back with a sexy little smile.

"Of course Sweetie, I am a candy-striper at the hospital after all, and I've definitely used these Muscle Tits of mine to bring men back to life more than once, let me tell you" Amy semi-teasingly replied back, followed by a girlish giggle.

"Too bad he's just going to go limp again on us during our next fun-time.....well, not completely limp I guess" Jessica joked out in a high pitched tone, as she lowered his body ever so slightly, allowing her lips to reach his still amazingly hard and erect dick with a series of soft, sexy licks and kisses.

"Well then Baby....." Amy cooed back, joining her musclegirl in using her own lips sexily on Mr. Scotts quickly growing cock, "Mmmmm,.....maybe we can try a little something where we can do all the work.....Ooooh yeah, so tasty.....and our little man can just relax and enjoy" she concluded with a little girls giggle, and a wink to her Sister In Muscle.

With a final lick and a kiss from each of these super muscular 18 year olds, Amy passed Mr. Scotts barely 150 pound body completely over to Jessica, who held him easily in her powerfully pulsating arms, while she set up their next, sexually arousing experience. The golden haired Amazon girl bounced to the other end of her room with loads of erotic excitement, returning seconds later with a high hung metal bar; something she used twice daily for pull-ups, a staple exercise for building up her lats and back, thick and wide. She then jumped up to grab its steel firm bar with both of her sexily feminine, yet bone crushingly strong, hands, as she raised her legs straight out and over towards Jessica's eagerly awaiting form. Her exposed ab muscles hardened instantly at this act, causing her once rippled firmness to explode into diamond hard 6-Pack abdominal muscles. She then spent the next several seconds using this bar as it was originally intended, as she powered her body up and down through a series of erotically performed pull-ups; causing her lats, back and shoulders to flare out to amazing levels, doing so with her legs still held out straight and firm, the near bulletproof armor plating of her stomach clearly exposed for all to see.

Of course, Amy didn't bring this piece of exercise equipment out to start her full body workout, something which easily would have been enough to please every single person watching this online at home. No, the reason for her retrieval of this apparatus was for purely sexual reasons, something both of these young supergirls knew full well, something Robert Scotts quivering terrified form (now held high in the air, underneath his arms, by Jessica's 17" biceps) was dreading with every part of his body.....well, almost every part.

With his back facing Amy, Jessica carried him over to her Amazonian lover, and with a quick snapping of her legs, the super built blond wrapped her massive 27", steel hard, muscle packed thighs around his already pounded on and very sore head. So tightly did she do so, that Jessica removed her once supportive hands from his body, which was now being held (and Crushingly so) off the floor by a pair of sleek, smooth, sexy, super strong female legs. Held with the perfect balance of support and crushing pressure, Amy legs swiftly snapped his head closer to her, moving his skull back into her inner thighs grasp, the most powerful part of her legs, which was easily capable of cracking his skull like an egg if she so choose to. She of course had no intention of doing so, as she began to gyrate her hips and clearly exposed pussy into the back of his

head, his hair quickly being drenched in the already growing levels of her own sexually charged juices from her pussy.

Their bodies being held aloft by a pair of steel hard arms, which even held straight and tight in this current position still showed off an incredible amount of muscular thickness within. Her lats flexed out full and wide, easily twice as broad as that of her again entrapped male, her thighs so hugely muscular in comparison to his body that they threatened to completely envelope his head from view (something that was very nearly happening anyway). Amy having the time of her sexual life in this position, as she used her body's unreal strength and muscular power to overwhelm this man before her, while grinding her ultra aroused pussy into the back of his skull in an unending series of erotically charged hip thrusts.

Jessica was hardly going to sit this one out, as Amy seemed to be getting her fill from one of Robert Scotts heads, she would be taking full advantage of the other. His body hanging helplessly from Amy's ensnaring thighs, his naked form stretched back and arched out towards Jessica's pumped up and all too ready physique; as she eyed up his incredibly throbbing member just inches away, like a small child would do to their most deliciously addictive of sweets. So with a few sexily placed lickings on her lips from her sensuously probing tongue, the dark haired musclegirl dove in for her treat, taking in every single one of its unreal 12 inches; so much so that the tip of his throbbingly firm member was touching the back of her throat, a feeling that sent additional waves of pleasure through her entire muscle packed body. Wasting not a single second of this most delicious of treats, Jessica savagely and sexily used her mouth, lips and tongue all over every ounce of his tasty sweet cock.

Her moans and groans of lusting delight clearly evident to all about them, proving beyond words that she was enjoying her latest sexual meal to its fullest. Whether it be a straightforward in and out motion, with her lips snug tight over this entire rock hard shaft in long, slow strokes, or a series of quick and teasing little suckings, licks and kisses over its ultra sensitive tip, or she just using her tongue to lick and tickle its entire manhood, as her mouth engulfing every inch of it, even his balls, which were being erotically played with by Jessica's all too experienced luscious lips and teasing tongue. Though like most anything else this powerful young musclegirl did, she did so with an amazing amount of strength; such was easily shown here and now with her Amazonian Blowjob, the sucking pressure of which went from erotically pleasurable to downright painful. So much so Mr. Scott couldn't help but think that she was going to literally suck his entire dick down her throat, swallowing all of its more than impressive inches in her lust for yet another sexual high.

Though the pain that her super hard display of oral sex was a far cry from the near skull crackling agony that awaited him on the other end, as Amy's silkily smooth thighs began increasing in its already painfully held pressure. With each moan and groan of lusting arousal that she cooed out, her body became even stronger and harder than before; and with her own sexual peaks about to be reached due to her pussies powerful pulsations on the back of his now drenched head, she was definitely one Very Hot and Bothered Amazon girl. His body was caught as always in the blending sensations of pleasure and pain, this ultra sexy scenario (being erotically handled by two truly gorgeous young girls) coupled perfectly with their savagely crushing power, only made him feel as if he was in a tug-of-war between them both. Each time Jessica's all too eager mouth and unrivaled sucking power would pull him one way, Amy's rock solid legs would do the same back to her, and so on. Back and forth his body went, his cries and screaming of pain only just barely being heard over the dual high pitched moaning of orgasmic delights all about him.

Though Robert Scott had no other choice but to do his best to deal with this experience, which like all of his previous dealings with Amy in such a state of Muscle Flexing/Man-Crushing Lust, made him fear for his very life; not knowing which one of these sessions, which one of these positions, would go too far and send him to the blackness of oblivion once and for all. Though Amy and Jessica were both highly trained in their ability to control their bodies' unbelievable power and strength, knowing full well themselves that breaking him apart to such a level would not only end his life, but end any future opportunities of using him again and again, something that neither of them would ever want to do. Though their muscle control aside, it was always fun to see just how far they could truly use their muscle packed, lusciously shaped frames on him, and just how much he could take before his bones snapped, his tendons tore and his usefulness to them (for the meantime, anyway) was at an end.

No, damaging him in such a way so early in their night was not even an option, though that didn't mean they could keep making him think that they could lose control of their mighty muscles at any moment, nor did it mean they couldn't send wave after wave of mind-blowing pain coursing about his thin and frail body. Such pain flowing all about him now, as always with any man they raped, caused him to scream loud and filled with fear and agony; this of course was one of the Ultimate Aphrodisiacs to women such as Amy and Jessica, who relished each and every cry, whimper and begging of mercy from all of their previous male encounters, especially the truly adorable little form (with the giant cock) of Mr. Robert Scott - such as was happening during their newest, though hardly last, sexual experience with him here and now.

This only caused Jessica's mouth to handle the world class cock inside her with even greater levels of passion and desire, harshly sucking and pumping her mouth over its all too delicious shape, as Amy's pumped up form matched suit with her powerfully grinding hips and exposed crotch, all of which continued to increase in speed and intensity as these final seconds went on, making their utterly demolished male partner feel like he was going to be ripped in two, causing him to yell out one final scream of Pain (or was that, Pleasure), as he exploded yet another series of his quickly rising levels of cum from his always impressively sized dick. All of its hot, salty juices being sucked mercilessly and unrelentingly by Jessica's all encompassing mouth, all but a tiny taste that she had dribbled onto her fingertips, which she then traced over Amy's nearby, out-stretched legs, tickling her inner thighs with its juices with incredible affect.

Robert Scott's screaming sent unreal shivers not only throughout his entire body, but those of his Amazon rapists as well, as Jessica continued to dance and trail her cum moist fingers all about her partners sexy leg muscles; causing Amy to moan loudly with erotic pleasures, as the blond haired musclegirl gave out a final orgasmic scream, which instantly flooded her darling mans head with her newly exploded love-juices, as well as nearly splitting his head in two with her thighs. As always, even after all participants had reached their actual climax, this pairing of sexy teenage supergirls continued on with their ultra arousing motions. Not willing to let a single ounce of pleasure escape from such situations, always at the ready to drink in their

sexually charged explosion of passion and lust until there was simply no more to be had.....for the moment, that was.

POP!, made the sound of Jessica's lips, as they exited her prey's recently spent cock, savoring down every inch of its deliciously tasting shaft, from his dripping wet balls up to its throbbing purple head. Her tongue now sensually caressing her own lusciously shaped mouth one final time, slurping down every drop of his juices that may have been left there. A seductive look of pride and temporary satisfaction glared up at the sweaty brow of her Amazonian accomplice, who with a few final sexily placed hip thrust, loosened her hold over Mr. Scotts badly beaten head, causing his barely conscious form to drop down to the floor before them with a solidly sounding Thud! Jessica then rose up to her full 6 foot height from her formerly leaned over position, just as Amy released the hard metallic bar above her, dropping down to meet her Amazonian Sister. Both girls smiled sexily at once another, then turning to give seductive looks at the digital camera in the nearby distance, as Amy reached over for a tiny little nearby remote, pointed it at the computer station, and with a Click slowly the visuals turn black, ending their first live feed for this evening. The last visuals those at home would see were of the two stunningly beautiful, statuesque hardbodied teenagers passionately locking their lips once more, molding their bodies into a single mass of heavily turned on and extremely aroused female muscle.

Not very much longer, the live recording of this amazingly sexy Amazon slumber party continued, both girls now kneeling down to face one another on Amy's full, spacious bed; their bodies now completely naked, showing off every sexily sculpted inch of their massively muscular bodies. As they did earlier this night, they were currently entertaining themselves in a girlishly performed pillow fight. The sounds of pillows slamming into their rock solid bodies with soft Thuds was heard all about this room, as was the series of high pitched giggles and laughter coming from each of these two incredibly powerful 18 year old girls.

What made this latest girlishly playful pillow fight different from their previous one (other than their formerly worn, full bodied little girl teddies were now long gone, each of these teenage Amazons now fully exposing their entire lush and muscle packed bodies for all to see) was that their third member of tonight's fun was now also taking a more active role in this one.....well, if you consider his thin, weak and frail form laying trapped on the bed, while Amy and Jessica bounced all around him hitting each other with pillows, active.

With each and every teasing little swinging of their full, soft, pillows, this pair of gorgeously shaped musclegirls showed off their voluptuously muscular physiques to their fullest. Backs and shoulders already wider than most any mans expanded even moreso with each strike, the series of bumps and bulges all about its rippling hard musculature flowing from side to side like a perfectly precisioned instrument. Their massively thick, and undeniably rounded breasts gave sexy little bounces as they moved their incredibly shaped young forms up, down and all around this area; though showing no signs of sagging in the least, and if they wanted to, each of them could have given their chests a tiny little flexing, making their pecs stay rock hard and immovable, even while they themselves bounced and danced about. Their thick, bulging biceps hardening with each and every little swing of their full pillows, as did their legs unreal thickness as they bounded all about this bed on their knees. Each of them having the utmost fun during this latest teenage girl sleepover activity, which after another minute or so of their current performance of, turned into something quite different indeed.

"Hee hee hee, boy is this fun!", Amy cooed out playfully, as she Whacked Jessica lightly with her pillow. "I hope everyone at home is enjoying themselves as much as we are" she asked out, giving an extra wide lat spread to her back as she did so, something that was so broad it nearly eclipsed her fellow Amazon from the digital cameras view.

"Yeah, the only thing that could be better....." Jessica replied back in her high pitched voice, teasingly chasing Amy away from her camera-hogging spot in order to get her own perfectly shaped musclebod into view, ".....would be if we had someone else to join in with our fun.....wouldn't anyone watching at home like to come over to our house and play?" she concluded with a sexy little tease from her full, pouty lips.

"Oh, but we do have someone else to join in and play, isn't that right, Mr. Scott?" Amy cutely followed up, looking down at her entrapped male beneath her, a devilish grin quickly forming over her beautiful young face.

"Mmmmmmm, that's right, we do.....and I like those kind of games a lot more than these" Jessica replied with her own equally devious grin, which was followed by the pair of teenage Amazons giving each other an

all too knowing stare, as they threw away their pillows and anxiously began their next erotically fun, sexually satisfying experience for the evening.

With a look of unrivaled lust in their eyes, Amy and Jessica not being able to wait another second to start their latest Muscle Fucking session, as they quickly maneuvered Robert Scott's body (like he was no more than a doll, himself), and their own thickly muscled physiques to allow those at home the perfect view; as one of the main reasons for doing all of this (a close second to quenching their own yearning desires of untold sexual arousal) was for their legion of female muscle fans all over the world. As their OurSpace board grew in popularity each and every day, these two (especially Amy) being considered Legends within, a status they each took with much pride and didn't want to lose such a title in the least.

So with Mr. Scott's much smaller, weaker form laying straight out on the bed, Amy took her position hovering over his incredibly thick and throbbingly hard erection, while Jessica straddled his head with her thick thighs just inches away from the amazingly terrified face of their all too "willing" sex-toy. With a playfully young little countdown of 3 - 2 - 1 each of these towering teenage Amazons then lifted themselves up and onto the sorely beaten form of their male participant. Amy's body quivering with erotic delights as she engulfed his entire shaft, which was beginning to grow and expand even more while inside her, just as Jessica raised and lowered herself onto his one time adorably cute face, relishing in the friction her quickly grinding hips on his facial features caused her sexually throbbing insides.

Using and abusing him as if he was more of an inanimate object to be used for their pleasure, over an actual human being, the two lustily charged young supergirls proceeded to bounce, and pump, and thrust their bodies into their hopelessly over-matched male beneath them. Amy enjoying to no end the feel of his always impressively sized cock deep inside her, its length and firmness easily the best she had ever had, as it continued to grow as she savagely rode on it, within a minute touching and tingling sexual areas within her that none other have ever reached before. Jessica's mercilessly pounding body was also filling itself with all of the sexual energy she could handle, as she rubbed and gyrated her very open and exposed pussy all over this man's face, sexually thrilling herself with the feeling of grinding into his nose and chin; knowing that doing so was obviously causing him a great amount of pain (something that even those at home could tell, due to his screams and cries of agony and his partially flailing body), though not caring about that in the least.

"God.....fucking God.....his face....Ooooooh yeah baby.....is almost as good.....Oooooooo.....as his cock!" Jessica near screamed out in erotic delights, her eyes closed, her tongue cascading sensuously all over her lusciously shaped mouth.

"Mmmmm, yeah.....he is Sooooo Gooooood.....I can feel his hardness growing inside mmmmmmmeee.....yessssss.....More, I want more.....I Need More!" Amy followed up, her physical look and motions matching near perfectly that of her Sister In Muscle, with the exception of her grinding being at the exact opposite timing of her loving partners; rising as she slammed down, slamming down as her partner rose up. Together they looked like an Amazon Fucking Piston, such was their comparative movement with one another, in addition to their speed and incredibly lust fueled intensity.

After several minutes of these teenage musclegirls riding this small man between them like a mechanical bull at a western bar (something each of them have done before, much to the dismay of the then crushed out "bull"), this larger than King Size bed bouncing up and down as they did so, Amy and Jessica slowly began opening their eyes and playing with yet another area of unequalled sexual pleasure that was currently within their reach - one another.

"Mmmmm, God your tits are so fucking big, Baby....sooooo hard.....Oooooooo, bring them over here, and let me play" Jessica cooed, as her powerfully built arms reached longingly out to the gloriously firm globes that were bouncing ever so slightly right before her eyes.

"Oooooooooh yeah, definitely Baby.....especially if I can.....Mmmmmmm.....if I can play with yours as well" Amy breathed out in reply, her thickly muscled arms rising up to reach for her Amazon lovers incredibly heaving breasts; thumbing her all too erect nipples as she did so, which caused Jessica's entire body to shiver with excitement, clenching her glutes tight as she did so, followed instantly by a roaring male scream. After several minutes of this all too arousing sexual session, the two Amazon girls slowly pulled their arms back, giving one another a devilishly placed grin on both of the beautiful young faces, as they powered down their muscle packed arms in an amazingly hard, incredibly thick double biceps pose. The likes of which made their already massively muscular female forms seem even moreso, each of them looking strong enough to rape 10 men a piece, let alone both of them together on the very small, thin and weak frame of Mr. Robert Scott. An intimidating muscle flex done to further frighten their all too crushed out victim, and for the increased arousal of all of their fans watching online, before they repositioned their hands on one another previously groped, massaged and sensuously tickled pecs.

Truly an unrivaled sexual sight to behold, for fans of female muscle or not, as these two gorgeous young supergirls forcefully fucked their entrapped male below them. His screams and cries clearly proving just how painful such an experience was for him, while the two sex craving musclegirls let out high pitched Aaaaahs and Oooooohs of their own. Their fingertips dancing all over each others rock hard nipples, their hands groping powerfully thick breasts, making it clearly obvious to all around the world watching this unreal sexually arousing Muscle Fucking, that they were getting as much erotic enjoyment out of this experience, as the painfully yelling form of Mr. Scott was in near bone-snapping agony. The pounding of their bodies sexual areas over their hopelessly smaller and weaker male, sending wave after wave of lustfilled pleasures all about their hard as steel bodies, as their own sexily placed touches of one another's heavily full and thick chests only adding to their nearly unending wave of orgasmically electric sensations.

Their speed increasing even more as these last few seconds went on, each of them knowing that it wouldn't be much longer at all before they exploded all of their sexual juices over the outclassed man beneath them. Something each of them were craving over anything else they could imagine at this point in time, something that each of them knew would happen at the exact same time with one another, adding yet another level to their joint female muscle raping session, something that each of them focused all of their body and mind on fulfilling - so much so, that neither of them heard the approaching clicking of high-heeled footsteps approaching this bedrooms door, a series of light knocking on its other side, or its eventual opening by Amy's Mother, one Elizabeth Hardstone. She entered soon after arriving home from work, sexily clad business attire firmly wrapped around her lush, full figure, holding a plate of cookies and milk for her daughter's slumber party. A plate that immediately came crashed down to the floor beneath her, dropped in shock at this completely unexpected sight before this newly arrived parent; yet a sight which she herself was all too familiar with, thought something she was totally unaware that her 18 year old daughter was doing as well.

Standing at the foot of this room's main door, the 6' 1", voluptuously curved physique of Amy's Mother was watching the events unfolding before her with great interest, to say the least. She was wearing a black jacket

with matching black mini-skirt, ending with a pair of black high-heeled pumps that gave her height even more of an Amazonian boost, not that with her already statuesque frame and thick, hardbody she needed it. Her golden blond hair all up in a tight bun, a sexy pair of glasses adorned her amazingly attractive face, one which often times made others believe that she was in fact Amy's older sister, over the 42 year old Mother that she in fact was. Dipping lower, underneath the body hugging suit-jacket, was a white button-down blouse which was given an extra low dip as it showed off an impressive level of cleavage; all thanks to her own heaving breasts, which amazingly enough were at least the equal to those of the two young girls before her - in size, fullness and muscular density. Her skirt was the shortest one she could find that was made to match this sexily displayed professionals outfit, barely covering her large bowling ball butt by just a few inches, which did wonders to show off her long, thick, muscle packed legs; from her thick thighs to her bulging hamstrings to her diamond cut calves, to their fullest. One look at the drop dead gorgeous facial features and lusciously muscular body of her Mother, and no one could ever question where Amy got her truly Amazonian genes from. The young girl taking after not only her Mothers unreal sized feminine physique, but her lust for raping men for her pleasure as well.

Something that Elizabeth Hardstone was finding out for the first time here and now, as while she had her suspicions that her amply shaped hottie of a daughter was sexual active (not something unusual at all for your average 18 year old), she even having her feelings that Amy was using her more than impressive strength and power over such boys during her sessions, she had no idea she had taken to doing so with older men such as this poor man beneath them now. A man that seemed to be satisfying both of these lusciously muscle packed girls at once, something which turned Elizabeth on quite well indeed. The young girls before her, easily beyond such an initial hot and bothered stage at this point, couldn't stop their sexually charging performance even if they wanted to. So with an alternating view of the tall womanly figure in the doorway, and their closed eyes erotically taking in all that this experience held, Amy and Jessica continued to pump and grind themselves over Mr. Scotts sorely beaten form. Their moans and groans of delight all about this area, as their hands continued to play and tease one another's rock solid, DD-cup breasts.

Though rather than scolding these two sexually experienced teenagers for this act before her, Elizabeth's level of arousal only seemed to increase by watching it; something which was followed by the slow, sensual removal of her glasses from across her increasingly turned on face, one of her hands than making her way up to play with her hair, releasing its tightly woven bun to have it all cascade down and around her muscularly broad shoulders, while her other hand began to caress one of her breasts through her blouse, something that her other hand quickly joined in doing, which was swiftly followed by the removal of her jacket, with material ripping strength in doing so. Her tongue began to softly dance and play its way around her lusciously shaped mouth, which was followed by a series of sensuously hit little bites on her lower lip as well. Her nipples were becoming thicker and harder by the second, which her fingertips instantly gravitated to, twisting and pinching their unreal firmness, sending even greater shivers of lusty delights all throughout her quickly muscle hardening body. The sight of her pride and joy raping this much smaller man, her best friend joining in on the fun as their dual Amazonian forms made him virtually disappear from view entirely, was just too much for Amy's Mom to let go without doing something about it.

"Amy Ann Hardstone!", the newly arrived older woman spoke out loudly in a mockingly scolding tone, so convincingly were her "stern" words that it caused its share of concern with Amy and Jessica, who began to slow down their sexually charged movements. "How many times have I told you....." the mature muscle packed Goddess spoke out harshly towards the pair of young girls before her, as she made her way towards this graphically bizarre situation; her body seemingly filling out her sexily worn work clothes even more with each and every step. ".....when you're playing with your toys...", she continued on, flexing her lusciously muscle packed chest as she stopped at the end of this bed. Doing so with such power and strength that her breasts burst free from its formerly snug blouse, popping the buttons off in an amazingly arousing explosion, leaving just her black bra alone to cover her massively muscular tits (something its sexily satin material was straining with all of its might to do so). ".....to always, Share" she finished in a very sultry tone of voice; as her legs flexed out of its barely there mini-skirt covering, revealing a sexy black garter and almost invisible set of matching black panties. She concluded this ultra erotic display of Amazon Woman Sexual Superiority by placing a finger underneath her daughter's chin, raising her gorgeous teenage face slightly to look at her, and cooed. "Now, let me help you with that."

"Yes Mom" Amy chirped back in a young girls tone and a smile, a far cry from the type of super feminine voice one would expect to come out of such a tall, thickly muscled girl, which only made her domination of such men and boys all the more sexy. This was followed by the two powerfully built young girls following the lead of this even stronger looking older woman, as they excitedly bounced off of the near mangled body of Robert Scott, whose frail form now looked more like a worn out tube of toothpaste over the once highly attractive young man that he one was.

Elizabeth then reached out for his badly beaten form, cuddling it lovingly into her body, holding his 150 pound weight in her arms as if he weighed nothing at all. "Awwwww, did the big, bad girls hurt you, my Sweet? Were they playing with you too hard with their big, sexy muscles?" she spoke out in a soft, comforting tone, making him almost unsure if she was here to free him from their clutches, or add to his sexually pounded body's torture. Something that was set straight with her next few words, coupled with an all too familiar look about her strikingly attractive face and a devious smile from her full, thick lips. "Well, with a cock like yours.....Mmmmmmm.....I can certainly understand why. Come little one, let me show you how it feels to be Fucked by a Real Amazon Woman!" she growled out, before harshly dumping his body on the floor at her feet.

"Jessica dear, be a darling and readjust that little camera I see you girls are using. I think I may have caused it to fall down when I startled you both earlier.....and I wouldn't want anyone at home watching to miss This" she cooed with slightly closed eyes of a woman about to Fuck, causing the dark haired muscular teenager to obey her request all too anxiously, as she herself bent down to grab a hold of Robert Scott's upper body from the rear, seductively gesturing for her daughter to the same to his lower half. Within seconds, his weak and weedy form was several feet in the air, held there so not only by his long time Amazonian sexual tormentor, but now her surprisingly even bigger Mother as well.

"Awwwww, it looks like you've already broken his poor little head, my darlings" Elizabeth cooed softly in the nearby ears of her male prey, "Come my adorably sweet man, let me take care of you, give you a place to rest your sick, weary head on" she continued on with a wickedly knowing smile forming across her beautiful face, as she maneuvered this mans skull onto her full, thick, muscular breasts. For a few seconds her amazingly firm chest felt quite good to his painfully pounding head, its support over the heavier half of his body so absolute that the older Amazon then removed her once carrying hands from his frame, her pec

muscles alone easily holding up her portion of his body, showing off her chest muscles strength and power in this way - with another even more powerfully devastating way coming up any second now.

With a series of pec flexes from her massive breasts, her hands on her hips, her body's movements solely focused on her bouncing chest muscles, Robert Scotts once supportive head began to sink lower and lower, moving deeper inside this all too familiar location. Though if anything (and amazingly enough) Elizabeth's pecs seemed even more threatening, more terrifying, more powerfully enveloping than the two superhumanly strong teenagers from before. His body began to flail about in panic at what was about to come, something that was quickly silenced with one powerfully hit Chest Flex, which filled up Elizabeth's chest with rock solid muscle, engulfing his entire head and face within its now crushing embrace, sending waves of truly unreal agony coursing all about his body.

"Come come dear, just like Mommy is showing you. Lets show our darling little man here how it feels to be between Rock-like Pecs and a Hardstone" the older Amazon laughed out, causing the teenage girls to giggle aloud as well. Amy, still holding his partially moving lower half in her pulsatingly powerful arms, excitedly did as her Mother had told her. Separating the spindly thin legs of the man she was supporting with ease, as she made her way closer into the main portion of his body, which on her end held his throbbingly pulsing shaft; something Amy looked at with longingly gazing eyes as she approached its quickly expanding form, her tongue licking her lips as if she was about to dive down onto it for the meal of her life. "No no my sweet, well save the tasting for later. For now, do as Mommy does, and use your Big, Hard, Muscle Tits on it for a nice Tit Fuck, Baby"

"God, I love you Mom" Amy excitedly made out, as she maneuvered her thickly muscled breasts into position, grabbing a hold of Mr. Scotts world class cock with a single teasing hand (something that almost made it explode all over, if not for Elizabeth's timely chest squeezing on his head, causing him send out muffled screams of pain from within her nearly air-tight cleavage), and placed it snug within her Big, Beefy Breasts. As soon as she did so, Amy began to bounce, and flex, and move her lusciously thick breasts up and down, giving this mans extremely large dick an amazingly arousing chest fucking. So sensational was this powerfully built teenager's handling of his cock, that little drops of pre-cum instantly began to form on its tip and dribbling down its shaft and onto Amy's voluptuously hard chest. Though realizing that this meant a sexual eruption for him was not soon far behind, Amy closed her chest muscles around its utterly engulfed erection, holding it there Tight until such feelings ended and she could continue again with her squeezingly tight pec flexings. Amy's then sexily placed her hands on her full womanly hips, holding the same position as her Mother, as this unreal Mother-Daughter pair of Amazons held aloft this mans entire frame, just by the use of their super hard, lusciously rounded, muscle packed breasts.

"Ooooooh, that's right Baby, you handle him, show him who's Boss, control every inch of his pathetically weak body. Mmmmmm, make him cum Only when you want, or not at all if that's what you desire. Good girl.....Ooooooh Yesss.....my good little girl" Elizabeth Hardstone erotically began to coo, moving her hands erotically up and down her sides, tickling her inner thighs, while cascading around her growingly hard, muscular chest - something that was happening almost involuntarily, as with Amy and Jessica beforehand, the more aroused an Amazon gets, the harder and stronger she becomes. Much to the dismay of Mr. Scott unfortunately, who could only yell out and cry as his head continued to be crushed in between the hardest pair of pec muscles he had ever felt in his life.

"Yes Mom.....Ooooooh yesss.....anything you say.....Aaaaaahhh" Amy breathed back sensually in reply, as she continued flexing her chest all over her one time schoolteachers unreal sized dick. So tightly that she was holding up his lower half just by her bountiful breasts grip on its hard shaft, her own hands teasing and tickling all about her shapely hardbody, mimicking her Mothers movements with amazingly arousing affects.

Jessica, not wanting to be left out of this incredibly sexual Pec Crush Fucking, danced slowly and gracefully about this scene, moving around the two most amazing female physiques she had ever seen, softly caressing Amy as she sexily sauntered on by, while doing the same to her Mother (who she has had a crush on since she had first laid eyes on her) as well. Whether it be soft, gentle tickles across their massively wide backs, firm groping touches over their bowling ball butts, or soft little breaths and kisses from her all too eager mouth on the back of each of their necks, Jessica was doing an amazing job in getting this Amazonian Mother/Daughter team even more turned on as the minutes went on. Something which was only further supported by their coos and moans of delight, something which made each of their lusciously hard breasts pulse and pop with even greater speed; Robert Scotts head feeling like he was being mercilessly punched out to near unconsciousness, while his cock was seconds away from exploding due to the best Breast Job of his life.

"Mmmmmm, be careful ladies....." Jessica spoke out deviously to the super strong women before her, as she continued circling around their thickly muscled female forms, ".....looks like were about to have ourselves an explosion here" she giggled erotically, as she passed by Elizabeth's body, feeling her lats up and down as she breathed into her ears.

"Ooooooh is he now? Well, well just have to.....Oooooooh God.....have to see what we can do about that, isn't that right dear?" the older Amazon woman devilishly spoke out to her daughter, giving her a sly little wink as she did so.

"Mmmmmm.....anything you say Mom" Amy lustily replied, as a smile began to form across her beautiful young face.

With that, the two blond Amazon Goddesses Flexed their pecs hard and powerful, increasing the muscle mass of their gloriously gigantic globes to an unreal degree, which sent Robert Scotts body flailing about even more due to the extreme pain that was shooting through both of his heads (the parts of him that weren't held still due to Amy and Elizabeth's crushing chest muscles, anyway). His remaining breath spent out in one gigantic scream, which vibrated all too arousingly within the older musclegirls cleavage, causing her to moan and groan in lustfilled delights. To and fro went the body of this poor, overmatched male, squirming and moving wildly in an attempt to free himself from this incredibly unusual hold, which went from painfully pleasurable to mind-blowing agonizing in one second flat. A punishment done to him due to his once thick and powerful shaft about to blow its sexually charged load without these dominating Amazons permission, a punishment they dished out with the untold erotic enjoyment, as could be seen by their hands dancing all about their own bodies, especially the sides of their thick and beefy pecs, which continued to harden and crush with ripplingly thick breast muscle.

This sight continued on for the next minute or so, the pain to Robert Scotts head and cock extreme, though his breath was now all but gone, his body about to pass out yet again from the sexual torture these women were putting him through; which again didn't sit well with this trio of torturing titanesses, who with series of powerful laughter coming from all about, released their crushingly tight pec hold over his body, causing it to fall several feet down to the floor with a crashing Thud.

"Men, when will they ever learn" Elizabeth Hardstone laughed out, as she stood over the barely consciousness form of Robert Scott. "We told you are to do nothing unless we tell you to. So what happens, first you get ready to explode all of your thick, juicy cum all over my daughter's voluptuously muscular chest, then you try and escape us by falling unconscious in one of our little Muscle Cuddles. Well, were not quite done with you yet, are we girls....." she sexily spoke out, smiling at the two young Amazons across from her, who gave youthfully exciting girlish giggles back, ".....so get yourself ready Little Man, rise and shine.....because we've only just begun! Hahahaha" all three of these powerfully built women laughed out again, as they flexed their bodies full and thick all around their males utterly defeated, still floor-bound, form.

A sexy female muscle pose-down that continued to both entice and intimidate Mr. Scott, not to mention the affect it was having on the scores watching at home, that was until Elizabeth (who had almost immediately taken on the leadership role since her arrival, something both Amy and Jessica didn't mind in the least) sexily sauntered over to the digital camera several feet away, and with the blowing of a kiss from her full, thick lips, and a super sexy vision of a final series of chest flexes for all at home to enjoy, she switched the camera off - though only long enough for them to plan their next erotically performed, sexually charged display of Amazonian Female Muscle.

Roughly ten minutes later, this musclegirl capturing piece of online equipment started to record its live feed yet again, much to the relief of the legion of female muscle fans all watching with eyes glued to their monitors from home, eagerly waiting for their next glimpse of the most Amazingly Hot Amazon performance ever! Though while visuals of Amy's ultra girlishly styled bedroom were all about this cameras newly activated view, none of the trio of titillating titanic torturers were seen or heard anywhere about; that was until the liquid cool voice of Elizabeth Hardstone softly breathed out, making all at home incredibly anxious to see just what they had planned next.

"Baby, did you do your exercises today?" spoke out the powerfully built woman in a motherly tone.

"Yes, Mom" Amy's girlishly pitched voice chirped back in proud reply.

"So you lifted all of your weights?" Elizabeth continued on her parental inquiry.

"Yes Mom", the muscle packed 18 year old replied with pride.

"Did your 10 mile run?"

"Yes Mom"

"With 20 pound ankle and wrist bands?"

"Yes Mom, though I'm up to 25 pounds now"

This cute dialog pertaining to the building and maintenance of young Amy's bulgingly hard and thickly muscled body went on, still with only voices heard all about this young girlishly styled bedroom, no visuals of either of these powerfully punishing Amazons as yet. That was until now, when the online digital camera began to creep back, giving a wider shot, which at long last displayed the untold beauty of Amy's stunningly attractive young beauty as well as her Mothers older, though no less gorgeous face.

"Oh, you've been such a good girl today, Honey, but did you do your leg presses?" Elizabeth continued to playfully ask her daughter.

"Yes Mom"

"Your abs?"

"Yep"

"Your overhead lifts?"

".....", Amy paused for several seconds in her reply, before looking down with pretend disappointment, "Sorry Mom, I broke those weights. I don't think I can do those today."

"Oh?....." Amy's Mother spoke out, as the camera yet again began to slowly pan back, displaying now the completely naked forms of this pair of muscle packed Golden Goddesses, their bodies rippling hard and lusciously thick, unreal shape and firmness combined with the perfect amount of sexy feminine curves. Showing off this Amazonian Mother/Daughter pairing in all of the sexily hardbodied glory was more than enough to arouse any and all of those watching from home, though that was hardly all that they had planned for their next erotically performed muscle show. Panning back even more, the camera soon caught into its view the incredibly worn out and badly beaten form of Robert Scott, who was being held straight in the air by a single steel strong arm of Amy's Mom, who then followed up with a erotic coo and a devilish grin, ".....I think we can find a substitute for those broken weights, my Dear"

Amy then giggled out like a little schoolgirl, as she watched her Mother raise Mr. Scott's body in an overhead lift; one hand on his neck, the other on his legs, as she bent her beautiful face straight back, looking up at this sight above her, positioning her mouth directly underneath his all too delicious cock, as her flowing blond hair trickled and cascaded down her full, thick back. Elizabeth then started lifting this poor beaten males body up and down, its highly sought after and much prized dick being lowered first to its tip by her lips, where she softly kissed and licked its sticky, wet hardness. Then after a few more pumps with her bulging hard 18" biceps, she dropped him down a bit further, taking about half of his foot-long shaft of manhood into her mouth, where she began to harshly suck all over its unreal size; her tongue forcefully knocking Robert Scotts cock all about her all too eagerly consuming mouth as she did so.

Up and down went his body, totally controlled by the unreal power and strength of this gorgeous Muscle Mom, who was relishing the feel of his cock within her mouth, so much so she finally lowered it all of the way down her throat, taking all of it in as she continued to suck on its deliciously hard form; doing so now with as much power in her suction as there was strength in her muscularly hard arms. Though before she literally ripped this unreal cock clean off his body with her superhuman sucking power alone, something she knew full well she could in fact do, Mr. Scotts moans and groans of pain during this latest sexual session more than proving that fact, Elizabeth raised his body up as high as her arms could reach, giving his dick one last, long, slow sucking, before breathing out to her all too eager daughter, "Now you try, Honey", as she handed his body off to her daughter, whose powerfully thick arms scooped him up like he was a child's toy.

Amy followed her Mothers lead with girlish excitement, as she raised and lowered the body of her one time schoolteacher in the same exact fashion. Effortlessly holding his totally naked form above her, arching her beautiful face back to gaze longingly at the truly awesomely sized cock that stared back at her. Too sexually excited was she to start out with the teasing little licks of her more experienced Mother, Amy swiftly lowered his entire dick straight into her mouth, covering it tight with her lusciously full lips, as she sucked on its thick, tasty, throbbingly erect form with the passion of a hungry little girl given her first taste of candy. Pump!, Pump!, Pump! went her rock solid arms up and down, lifting and lowering this mans body with an arousingly savage pace, lowering his cock into her mouth again and again, for another powerfully performed Mid-Air Amazon Blow Job. Her moans of pleasure were being matched perfectly with her male sex-toys groans of pain, as he was being used as nothing more than a piece of erotic equipment; helpless to stop them from

manhandling his body over and over for their lustily charged delights - some part of him wondering if he even wanted to.

"Mmmmm.....now remember what Mommy says about sharing, Baby" Elizabeth Hardstone erotically breathed out, as she watched this amazingly arousing sight before her, wanting to rejoin in all of its sexual enjoyment yet again. Jessica at this point seemed all too happy manning the digital camera to optimum affects for their legion of fans back home (her girlish giggles beyond the scenes proof positive of that); knowing full well that the night was still young, and she would be having her taste of the truly adorable Mr. Scott several more times to come.

"Yes Mom" Amy breathed back after a final sexy Slurping of this unreal sized dick above her, attached to a body that was sorely beaten and bruised by these sex crazed Amazons, though his cock (as always) seemed ready and willing for More! This incredibly muscle packed Mother/Daughter pairing them spent the next 10 minutes continuing this standing (not to mention, carrying) blowjob of their weak, little male play-toy. Each of them sucking harder and stronger than the last, each of them using their extremely arousing mouth, lips and tongue all over this mans shaft for intense pleasure, though their increased suction on its once proud member added in at least an equal amount of pain as well. Back and forth went Robert Scott's defenseless body, unable to do anything at all to stop his forced session of oral sex, which he could only pray would leave his world class erection still attached to his thin and frail body when they were done.

"Darling, how did you break your weights?" Elizabeth teasingly spoke out, as she gave her rock hard sex-toy one final sucking slurp, "Were you too rough, like this?" she cooed, as she turned Robert Scott's body around; no longer being held high above her head, he was now being easily supported in front of her, upside-down, in a classic Standing 69 Pose. With that, she thrust his body into her own, her mouth anxiously wide open taking his entire throbbing erection deep inside; moving him in and out of her sensually sucking maw at an incredible pace, jackhammering his vastly weaker form into her muscle packed Amazonian physique (especially his cock and balls into her mouth) with a piston-like intensity.

"No Mom," Amy cooed back with a wide grin, as her Mother handing the barely conscious form of their male sex partner to her, which her rock solid 17" biceps held with effortless grace, "It was more....." the teenage musclegirl continued on, positioning herself as she did, legs spread in a sexy wide stance, ".....like...." as she slowly raised Mr. Scott's moaning body up, "....This!" Amy's arms then started crashing her pain-wracking (yet clearly turned on) male down into her, harshly plummeting his dick deep into her mouth, savagely sucking on his cock like it was the most deliciously sweet candy on Earth, and to her it was. In and out went his entire shaft and balls, Amy's luscious bee-stung lips eagerly taking them all in, dancing her tongue around them all over while inside, sucking on its tasty goodness with the power of a vacuum cleaner, then enveloping her lips around it all as she forced it all out of her mouth, repeating this amazingly arousing act again and again.

Amy's grunts and groans of pleasure were clearly heard echoing all about this room, as she harshly shoved Robert Scott's body in and out of her lustily charged mouth, her girlishly styled blond pigtails flailing all about her beautiful young face as she did so. Her Mother watched with pride at what her young 18 year old was capable of, regretting that she didn't know about her sexually abusing Amazon antics until now, though more than looking forward to the future, when this trio of muscularly powerful women would do such things many times to come. Jessica was getting so turned on by this sight, that the camera she was holding was beginning to get shakier by the second, being held with a single one of her hands, while her other one danced and played with her most sensitive of erotic areas all about her thick, meaty Amazonian frame. Something that was only helped when Amy's Mother sexily sauntered behind the dark haired supergirl, sensually touching her lats, softly kissing her neck, and adding to the sexual moans that was now clear as day to all of those lucky enough to watch this sight at home.

Then, in a sudden, savage motion, Amy crushed her male play-toys body into hers, his cock deep within her mouth, crashing its tip at the back of her throat, sucking and pulling on it like a baby desperately trying to drink every ounce of fluid within its bottle; which instantly shot out all over her mouth and face with an explosion of sticky, hot cum that was enough for any 3 men combined. Though seemingly not enough for Amy, who relished its salty sweet taste to no end, drinking down every drop of its sweetness, with the exception of the sudden splashes that caught her all about her rosy red cheeks and forehead. Amy then dropped to her knees, holding this mans cock still inside her mouth, not letting him go until every last ounce of his love juices was swallowed; something which happened over a minute later, as the powerful teenage Amazon released her hold over her man with a Popping sound coming from her lips due to his exiting erection. The final shot of this clearly classic Muscle Fucking video was of Elizabeth Hardstone emerging from behind the camera (more specially behind Jessica's shiveringly sexual frame), making her way over to her daughter, as she kissed the top of her sweat stained forehead, licking off a taste of the much prized cum from it as she did so, and with a smile cooed, "That's my girl!"

Nearly 30 minutes later, the online camera again sprung to life, much to the relief of those watching at home, who thought for a second that their nights Peeping Tom enjoyment was over; though all of them would have waited staring at their screens all night long just for the chance to see more of this Truly Epic Amazonian display of sexually charged erotica. What they got on its return was hardly one to disappoint, as they saw the statuesque form of Amy's Mom, the gloriously gorgeous Elizabeth Hardstone, her muscle packed body naked as the rest of them, showing off a level of steel hard shape and rock solid curves that would put any other Amazon to shame. She was currently holding Robert Scotts sorely battered, much smaller, form in a modified Full Nelson hold, which instead of the traditional pressing of his head forward onto himself, Elizabeth was pulling his upper body back, smothering his head within her massively wide breasts (doing so in such a way that he could barely see anything out of their muscularly tight embrace), as she arched his body back in a agonizingly painful hold. Something that was further helped by Jessica, who excitedly grabbed this mans legs, and wrapped his ankles around this Amazon woman's calves, bending his body harshly onto itself, like a bow being pulled back by one very strong, steel hard, string. His completely exposed form displayed a large level of bruising about him, though all watching from home could only keep their focus on his now thrust out erection, which was already at a world class size and thickness, and yet was still growing right before their eyes.

Amy then got to her knees, and sexily crawled over to their play-toys sexual member, eyeing it up with a lusty gaze, her tongue licking her lips in anticipation at what she was about to engulf; something she did so a few minutes ago, though so delicious was its taste and feel going into her mouth and down her throat, that she simply could never have enough of its thick, creamy liquid - Never. With a teasingly soft series of touches on his throbbing shaft, Amy then brought this sexual meal to her mouth, and enveloped it with her young lips, pumping it in and out as she relished in the feel of this amazing hardness crashing deep inside her throat yet again, sucking on its unreal firmness with incredible force and arousing strength. Using all of her well learned tricks, the young Amazon continued to display her expert skill in giving this man a truly incredible blow-job, flicking his balls with her fingertips, while kissing, licking and sucking the main erection before her, as she watched and felt its size and shape expand with each and every second of her doing so. If the rest of Robert Scott's body feared and hated such sexually raping treatment from Strong, Muscular Women, his cock simply couldn't disagree more.

"Now now, young lady, you remember what Mommy has taught you" Elizabeth spoke out in a playfully scolding tone, which was followed with a flexing of her body's huge muscles, causing her mans thin and weedy form to bend back even more, and a series of screams to emit from his now terrified mouth.

"Yes Mom....." Amy cooed out in a little girls voice, as she held this erect cock before her in a single hand, offering it to the camera lens, manned by her best friend and Sister In Muscle, Jessica, as she concluded with a final ".....Share" and a youthfully displayed smile.

An instant later Jessica's own muscle packed, sexily feminine, form came crawling into view. The camera she once held now resting on a nearby desk, angled perfectly to catch all of the action, while freeing her up to join in on all of this Female Muscle Fun. Her clearly exposed glutes in full view to all watching at home as she seductively crawled her lusciously hard body towards this scene. Each of her butt checks looking as smooth as silk, yet as hard and large as a bowling ball. So inviting to even the bravest mans cock to simply enter such a sexily firm location, yet so crushingly powerful that once they did, they would never leave in the same shape, if at all.

Upon reaching her target, Jessica's eyes glaze over with the same longing lusty look that overtook Amy just minutes ago, as her tongue danced about her full lips, before her mouth opened wide and took in all of this foot-long dick before her. Licking and sucking and kissing it all over, feeling it grow to even greater heights under her amazingly erotic handling of it. Though while his erection may be having the time of its life, the rest of his body was doing anything but, thanks in no small part to Amy's Mother, who looked down at her pair of teenage girls mauling this mans cock below her, smiling as they did so, and flexing her body all over with unreal sized muscles. Something which stretched Mr. Scott out even more, as if he was on some kind of medieval torture rack, causing him to yell and cry out in pain, which was always followed by tears streaming down his one time adorably cute face, and a proud laughter of the older Amazon woman as well.

Amy's watching her friend handle his shaft as she was, licking its full length, sucking on its tip, kissing it all over as she teasingly tickled his balls, was just too much for the over eager musclegirl. So she dove in to join her Amazon partner, now giving Robert Scott a full-on, dual blowjob, one of each of these amazingly Hot and Hardbodied girls orally pleasuring each side of his erection, so thick and round was it that they each had plenty of room to do so separately, though that didn't stop them from occasionally meeting their own tongues and lips together, licking to a point on its sticky steel hardness where they could join together for several seconds of a truly erotic three-way experience.

Elizabeth watched from above with a Mother's Pride as the two young girls played well together with their much coveted sexual toy, though while the two young teenagers initially did so with a cooperative attitude, it wasn't long before their playfully young behavior got the better of them, and they wanted it all for themselves. This was shown by Jessica's teasingly selfish act of taking in their man's entire erection within her mouth, and pulling it over towards her. Sucking on its ultra pleasing shaft all by herself, her eyes closed, lost in lust, her moans clearly evident that she was having the time of her life handling all of Mr. Scotts manhood by herself. Of course this didn't sit very well with Amy, who gave a playfully pouting look about her girlishly young face, before grabbing his cock and pulling it over to her, where her mouth engulfed its sticking, moist fullness completely within.

"My lollipop!" Amy yelled out as she did so, acting out as the little schoolgirl that she loved pretending to be (and in truth, wasn't all too far off from). As expected, and as was all part of the act, Jessica didn't take too kindly to having her deliciously tasting dessert so suddenly removed from her all too pleasing lips. So just as Amy had done to her a few seconds earlier, Jessica wrapped her steel tight fingers around the base of Mr. Scotts dick, and savagely pulled it over to her, with an equally girlish "No, my lollipop!" spoken back and a teasingly upset look across her gorgeous teenage girl face as she did so.

Back and forth this playfully punishing treatment continued, each of these teenage Amazon girls acting like they were many years younger than their actual 18. Giving out little high pitched cries of "Mine" to one another, as they harshly grabbed onto the object of their desire, pulling it to their eagerly awaiting mouth for several seconds of quick oral pleasure, before it was savagely ripped from one set of ultra sexy lips to the other. At this pace, it would be only minutes before even Robert Scotts awesomely sized dick was beaten to a pulp, not just from these young musclegirls harsh, to and fro, grabbing of it, but also due to their powerfully sucking mouths, both of which together seemed to be causing him to groan out in pain just as much, if not more, than he was moaning in pleasure.

Though realizing this would put an end to their fun, Amy and Jessica did their Mother figure proud by looking longingly into each others eyes, as they breathed out in perfect unison in their girlish tones, "Lets share". With that, they gave one another a soft, sexy smile, as they closed their eyes, and dove into this all too tasty treat, sharing this throbbingly hard cock between them, as their tongues and lips sucked and kissed every inch of its nearly exploding shaft. The two Hot and Horny Amazon girls then started making out with one another, their sexual groans instantly heard the very second their lips met, as they began to longingly drink in all that the other had, sandwiching their poor, mangled mans dick in between them (especially their powerfully pulsating pecs) as they did so. Their eyes alternatingly opening to view each others stunningly beautiful young faces, and closing to lose themselves in this amazingly arousing and incredible erotic setting.

Their mouths then broke away from one another's, and rejoined their yummy sexual treat between them, dancing their tongues around his dick together as their lips alternatingly surrounded his shaft. Unreal pleasures were being experienced from them both, and even Mr. Scott began to give little grunts of erotic delights due to this handling of his much sought after erection; that was until Elizabeth decided to be a muscle tease and give her body a quick series of hard hitting muscle flexes, which bent and stretched his body out even more, mixing in the perfect amount of pain to his clearly growing levels of pleasure. Though even her harsh, punishing treatment of his body couldn't diminish the overall sensations of lust and arousal being caused by the two young musclegirls before him, and it wasn't much longer before he started to convulse and flail about with sexually charged movements, signifying that is was now mere seconds before his cock would give out yet another expertly handled sexual explosion.

This caused teasing young Jessica to give her Partner In Muscle a sly grin as she grabbed a hold of their male play-toys full erection, ramming it down her throat at the exact second of his erotic eruption, as she drank and sucked down every single drop of his sticky sweet fluids down. Cum dribbled down her lips as she Popped it off its completely spent form, looking at Amy's beautiful eyes as she did so, which was followed by a sexily sultry voice breathing out "Mine", with a smile.

Amy then leaned in and began kissing Jessica with an incredibly anxious look about her, licking the remnants of cum off her lips, as their mouths erotically smacked and popped all about each others. The two insanely turned on musclegirls then dove onto one another's amazingly hot and incredibly hard bodies, breaking away from their previously held positions, Amy now straddling Jessica's form on the ground, as they continued their sexually mauling treatment of one another.

"Girls will be girls" Elizabeth Hardstone laughed out with a sexy smile towards the still recording online camera, giving her voluptuously thick and meaty muscular body another full-on flex, causing the nearly unconscious form of Robert Scott to scream out in pain - and his just spent dick, which even at rest was still bigger than most other men's at the peak of climax, to began to throb to life yet again.

Which lead to their final video clip of the night, which started out with the sorely beaten, utterly exhausted form of Mr. Robert Scott laying on Amy's full, soft and frilly bed. His body so far being completely mangled and ravaged; all except his incredibly hard and pulsating erection, which still resiliently stood atop his still and immobile frame. The camera then began to pan back and up, slowly revealing the statuesque hardbodied physiques of one extremely gorgeous woman framed by two beautiful young girls, all standing tall and powerful over their prey; their bodies completely naked displaying every inch of their perfectly sculpted, muscle packed female forms.

Their legs are shown first, each of them looking a mile long, sexily smooth as silk, yet seemingly sculpted out of marble. Every man watching at home could only hope to wonder what it would feel like to have such amazing legs wrapped tightly around them, squeezing the breath from their bodies, grinding their bones to dust inside such a steel tight embrace. The women watching at home of course knowing such a feeling all too well - though they from the opposite, dominantly powerful, side. This titanic trios abdominal muscles looking like they were chiseled out of granite, rippling with virtual bulletproof hardness, easily strong enough to resist impact from even the strongest of men. Their breasts huge and rock hard, DD in size, filled out to unreal perfection with loads of lusciously hard pec muscles. Each of their breasts displaying the perfect combination of voluptuous feminine cleavage and rippling firm muscularity. The camera continued to pan up their truly Amazonian forms even higher, showing off their strikingly gorgeous faces, each of them adorned with devilish glances down at their prey, complete with cruelly grinning lips, like wolves preparing themselves to slaughter a completely helpless sheep. The entire picture of these massive Amazons stood in stark contrast to the frillishly styled, pink coloring of Amy's girlish room, especially the clearly dripping wet pussies of these three sex crazed Amazons; which are already slowly dripping streams of cum down their legs, with the matriarch of this group perhaps the wettest of all.

The two young musclegirls then looked up at Amy's Mom, Amy's seductively sexy face sporting a wide grin, matched also by Jessica, as they both stared at the older (though no less sexy) Amazon woman with the utmost admiration. Elizabeth turned to look at Jessica, then her daughter, proud of what they've accomplished (and what they're about to accomplish), as she puts her hands on their backs, looks up at the camera, and licks her lips devilishly. The three then pounce onto Mr. Scott's small and frail body, Jessica immediately placing her lusciously rounded bubble butt onto his face, crushing her pussy down harshly on his head. Elizabeth jumped onto his crotch, ramming his dick (and even his balls) up into her sexily moist pussy and began to Squeeze, crushing her massive 210 pound body up and down onto his own, while Amy knelt down on Mr. Scott's chest, her bodyweight alone easily enough to knock all of the breath from his lungs and give a painful crushing to his body.

The three women then began to Crush Hump the barely there form of Mr. Scott almost in perfect unison to one another, pounding his body down deep into the soft mattress below him, while giving off a series of sexual growls and roars of lustily charged pleasure from each of their O-shaped mouths. As always, their hulkingly massive, yet sexily female, forms completely engulf the much smaller man below them, something just one of them could do without much effort, though with three superhumanly muscle packed Amazons on him now, it was almost impossible for any part of Robert Scott's body to be seen at all. The perfect display of female muscle dominance, each of them more than accustomed to flaring and flexing out their voluptuously rock solid forms, making their men (especially those so much smaller than they were) completely disappear from view; something all of them together were doing with the utmost of ease here and now.

The powerful Amazon women continued their awesomely performed, and amazingly sexual, Muscle Fucking; grinding and pounding and pumping their thick, meaty muscular bodies onto their utterly outclassed male victim below. So powerfully hard were their bodies hip thrusts and erotic gyrations, that the very bed they were on began exploding with squeaks and creeks due to their more than impressive combined weight; something which only got worse as they continued their punishingly powerful sexual assault on its once mighty frame, not to mention the beaten to a pulp male form laying trapped on it as well.

As their speed increased, due to the growing levels of muscle lust swiftly building up inside each of these super strong musclegirls; Jessica (who has been facing Amy since this last raping session began), slowly leaned her body forward and down towards her Amazonian Sisters hugely ample breasts, teasing and

tickling its glistening muscle packed globes with her all too anxious lips and tongue. The dark haired supergirl relished in sucked on Amy's nipples, sending wave after wave of sexual pleasure coursing through her Amazon lover's body, as she continued her savagely harsh ride Mr. Scott's face. Amy closed her eyes and moaned with untold arousal, holding Jessica's head to her chest, as her beefy hard pec muscles involuntarily flexed with each and every lick and kiss they are given.

As the minutes went by, these three powerfully raping Amazons got even Hotter, Wetter and Hornier with each and every grinding of their bodies, which caused them to pump their rock solid, thickly flaring form up and down, faster and harder. All to an amazingly agonizing affect to their nearly forgotten male below them, who has all but vanished from view, even to the point where his once loudly heard screams of pain were all but gone, thanks to the compression on his lungs from the steel hard females straddling above him; whose very weight (let alone sexually pounding pressure), was enough to force all of the breath from his chest, which itself was on the verge of crackling to pieces against such a powerfully performed fucking. Suddenly, Amy shivered with intense sexual release, as she felt fingers pressing deep into her pussy. With a flinging about of her pigtailed, she looked back and saw that her Mother had wrapped her massively muscular arms around her waist, and was now masturbating her own daughter, and doing so better than Anyone had ever done so in her entire life. This caused Amy to practically scream out in delight, as she shook her head back and forth, her girlishly styled blonde hair waving back and forth as she did so.

The totally turned on trio were now grinding the horrible used form of Mr. Scott deeper and deeper into the mattress. Those watching from their computer screens at home could barely see him at all - just three magnificent Amazons using and abusing his vastly inferior body against his will. The only part of him even remotely visible at this time was his weak, shaking hands, which could only reach up and touch of Amy's rock hard, perfectly rounded butt as it pounded up and down onto his chest. Doing so with such force that he could feel several of his ribs crackle and crunch under the awesomely strong impacts this 18 year old musclegirl was exerting on them.

Finally, as the sounds of teenage animalistic grunts and an experienced woman's moans Filled the night air, Elizabeth took one of her ultra pleasing hands away from her daughter's pussy, reaching around her face in a smooth, sensual motion, to finally pull Amy's chin towards her own glowingly gorgeous face. This Muscle Mom viewing all of the unreal pleasure this experience was causing her daughter, not to mention her equally Amazonian friend and her own massively muscular form as well. She continued to do so while masturbating Amy with her other frenzily moving hand, Jessica continuing to suck and lick all over Amy's buxom breasts, as Elizabeth presses her tongue deep into her daughter's mouth, giving her a mind-blowingly erotic French Kiss.

This was the final straw for the golden haired teenage Amazon, as she screamed out with the Highest Peaks of their orgasmic delights, causing her to Slam her crotch up and down into Mr. Scott's chest with massive, bone breaking, force. The high pitched cries of young Amy instantly set the other two women off as well; Jessica continuing to rub and gyrate her pussy all over her mans face, showering it with her juices as she crushed downward and screamed with pleasure, as Amy's Mother clamped her pussy down and around the once might piece of manhood pleasuring her insides, presses all of her astonishing weight into Robert Scotts body, as she too screamed out with lustily charged Power. Amy and Jessica enjoying the final body popping seconds of what was easily the best sexual experience of their young lives, thanks in no small part to their newfound Amazonian mentor, Amy's Mom, Elizabeth.

After enjoying the afterglow of this unreal session, sharing soft and sensual kisses as they did so, the three hardbodied women slowly and sensuously removed themselves from Mr. Scott's now completely ravaged body. Amy then grabbed a hold of his now unconscious form, easily moving it from her severely pounded bed and onto the girlishly decorated, pink carpet below them; which was adorned with teddy bears and little hearts, another stark contrast between her ultra youthful girlish attitude and personally, and the dominantly powerful musclegirl she was physically. Doing Amy's trademark move (now with one more woman) each of these glowingly powerful Amazons put a smooth, shapely, thickly muscled leg on Mr. Scott's defeated body and looked out towards the carefully placed online camera. They then raised their massive biceps and flex them to nearly skin splitting size; smiling as they did so, as rivers of pussy juice (moreso than Ever before) streamed down their legs onto their badly beaten male form below them. Amy and Jessica once again look at Elizabeth, their young eyes glowing with admiration, as she alternately looked at them in return, full of pride, waiting for the next time the three of them (or is that four, Mr. Scott?) could get together like this again.

Fade to black.

THE END
