
US Naval Base Fort Independence.
You've already seen the new girl in our squad, right?
Of course! Everyone has already seen her! This babe is just something... So hot!
Well, I invited this lady here, to the hangar. We have to explain to her right away how everything works here!

Are you serious? And she's coming here right now?
I've never seen such muscular beauties!

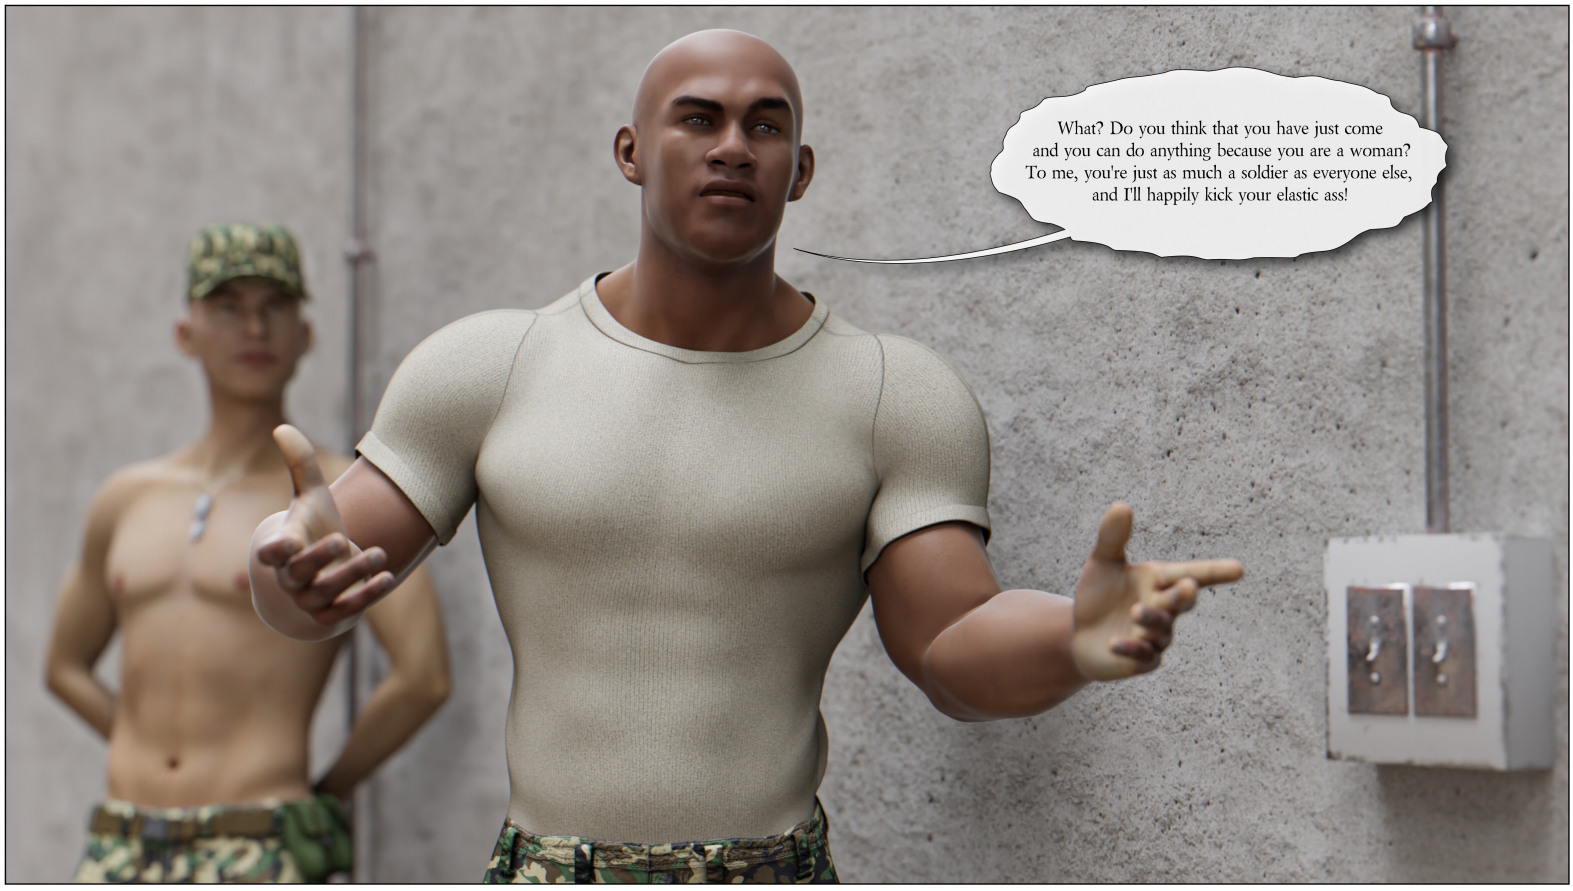

Absolutely. But you don't have to stare at her. We need to put this chick in her place. She looks too confident...
... Quiet, it seems she's coming.

Hi Sandra. I hope you got here without any problems? Or did you need a map?
Oh, hello boys!

Thank you, no need. I am perfectly oriented in space.
So what's up? Why did you invite me here?

Sandra, I heard that in your last squad... the WOMEN's squad, you were the coolest? Like such a tough chick, huh? So we won't have that. Here is a man's world and man's rules! No one will give you any favors. And I will prove it in the simplest way, let's arrange arm wrestling, right here and now?
We'll see who is worth what. Although it's clear that you have no chance against me! The one who loses - washes the barracks and toilets for a whole month, okay? Or are you scared, baby?

Yes, I was told that everything is arranged here the same as everywhere else... But I thought they were wrong. So you're a huge and angry man? Do you want to face off? Well, it's not a problem, and then don't cry that you have something that hurts.

What? Do you think that you have just come and you can do anything because you are a woman? To me, you're just as much a soldier as everyone else, and I'll happily kick your elastic ass!

Well... If you say so, then come here, cowboy! Let's have a round right on this barrel. Let your girlfriend be the judge.

You'd better watch your tongue!
Make her Billy!

Oh! Do you want a bad one?!
Come on then!

Stop talking, tough guy!
You seem too tense...

Shut your mouth! A little more and you'll give up!

Fuck! I didn't even strain myself! Now you will see all my strength and in general, now I will definitely not give in to you! Prepare for defeat!

Fuck, fuck, fuck!
Stop cheating!!!

What the fuck???
Even two hands don't
help me!!!

Holy shit!

Do you want me to stop, huh?

No! No! This can't be happening!!! I can't allow it! It's not fair! Marvin, what are you standing for, you idiot?? Help me quickly!

Damn,
shit!

Fuck! I think this barrel is going to fall!

Oh....shi.....

Oh my...

How could this have happened at all...lose to a woman?

You guys don't know how to hold a punch at all! Lol

And don't forget to wash everything thoroughly, I love when everything is perfectly clean.

Shut the fuck up already, Marvin!
And don't tell anyone about it...
Well, have we shown her who's the boss here?
