Bon Clay Escapes 2

So far no one suspects a thing... But it might not be long before they notice I've escaped

Thankfully I've bought myself a lot of time

Ma'am!
We are almost
at the navy
base!

Good!
Make sure
no one takes
it easy until
we set foot
on the base

If I see as much as one person slacking off you are all getting punished have I made myself clear

Crystal clear Ma'am! We will make sure to do our best

Having the authority to command all of these guards is quite fun

A few moments after arrving at the Navy base

I need to find a new identity I can use to travel somewhere further

I'm sure
I can find
someone
perfect at
this base

ARGH!
Those stupid
old men
forcing stupid
and annoying
work on
me

Telling me to head to Amazon Lily to keep an eye on Boa Hancock just because I'm a woman is infuriating

Huh... who is she? Does she work for the navy? She said something about Amazon Lily...

Could she be one of Vice Admirals I heard about back in Impel Down

Why this is too good to be true

I swear when I get back from my mission I'm beating up those old senile men

Why hello there! You wouldn't happen to be a Vice Admiral

Huh?
That depends on who is asking me without introducing themselves

Ohh forgive my rudeness! I'm Domino from Impel Down

I'm Vice Admiral Doll! State your buisness and why a guard at Impel down is here at our base

Please
do calm down!
I am only
here to discuse
a few things with
some higher ups
about Impel
Down

But before I make my way over to greet them...

Ehh...
Thanks I guess...
But can you take your hand off my face now
You have such nice features Vice Admiral Doll

Hey!
I told you
to let go of
my face
already

Huh!?
Why am I...
This isn't my
body

What
did you do!?
Change me back
this instant

Sorry
but I can't
do that

But I will promise to take good care of your face and your identity

Sorry
but I also
can't have you
get in the way
and expose
me

Hehe...
Feels weird
kicking
my own face
so hard

ARGH!!!

Seems like I knocked her out cold... Maybe this body is stronger than I thought

Well
met Vice
Admiral!
We heard
a commotion
and came to
check it out

I've already taken care of the intruder! It seems to be a pirate known as Bon Clay

He was impersonating a guard from impel down using his devil fruit power

As expected of a Vice Admiral! I shall make sure her goes back to impel down

2 birds with one transformation! Now they think I've been caught and I can move freely as this Vice Admiral

This is perfect!

She sure is stacked! She might even rival Nami in sheer mass and size

Oh hi Miss. Vice Admiral Doll

Huh... Another Marine... But I don't know who she is

Are you also here because of that intruder just now?

An intruder! Ehh.. No... I didn't know about that sorry Ma'am

I see...
But I'm actually heading out on a mission to Amazon Lily so I need to prepare

So I don't have much time for idle chatter

Say
do me a
favor and keep
an eye on things
here while
I'm away

Ehh...
Sure thing...
Ma'am
I'll do
my best

Good girl! I expect big things from you

There she goes... But why did she touch my face like that?

Hehe...
Another
face added
to my growing
collection

Lets go through all of my recent additions

First we have the one and only Nami from my friends the Straw Hats

Next is
Domino
the guard from
impel down!
Thanks to her
I managed to
escape

Next is this girl whos name I don't even know yet...But I'm sure I can use her identity for sure

And
of course
this Vice Admiral
right here
is probably my
biggest
catch

I don't have time to go through my whole collection right now

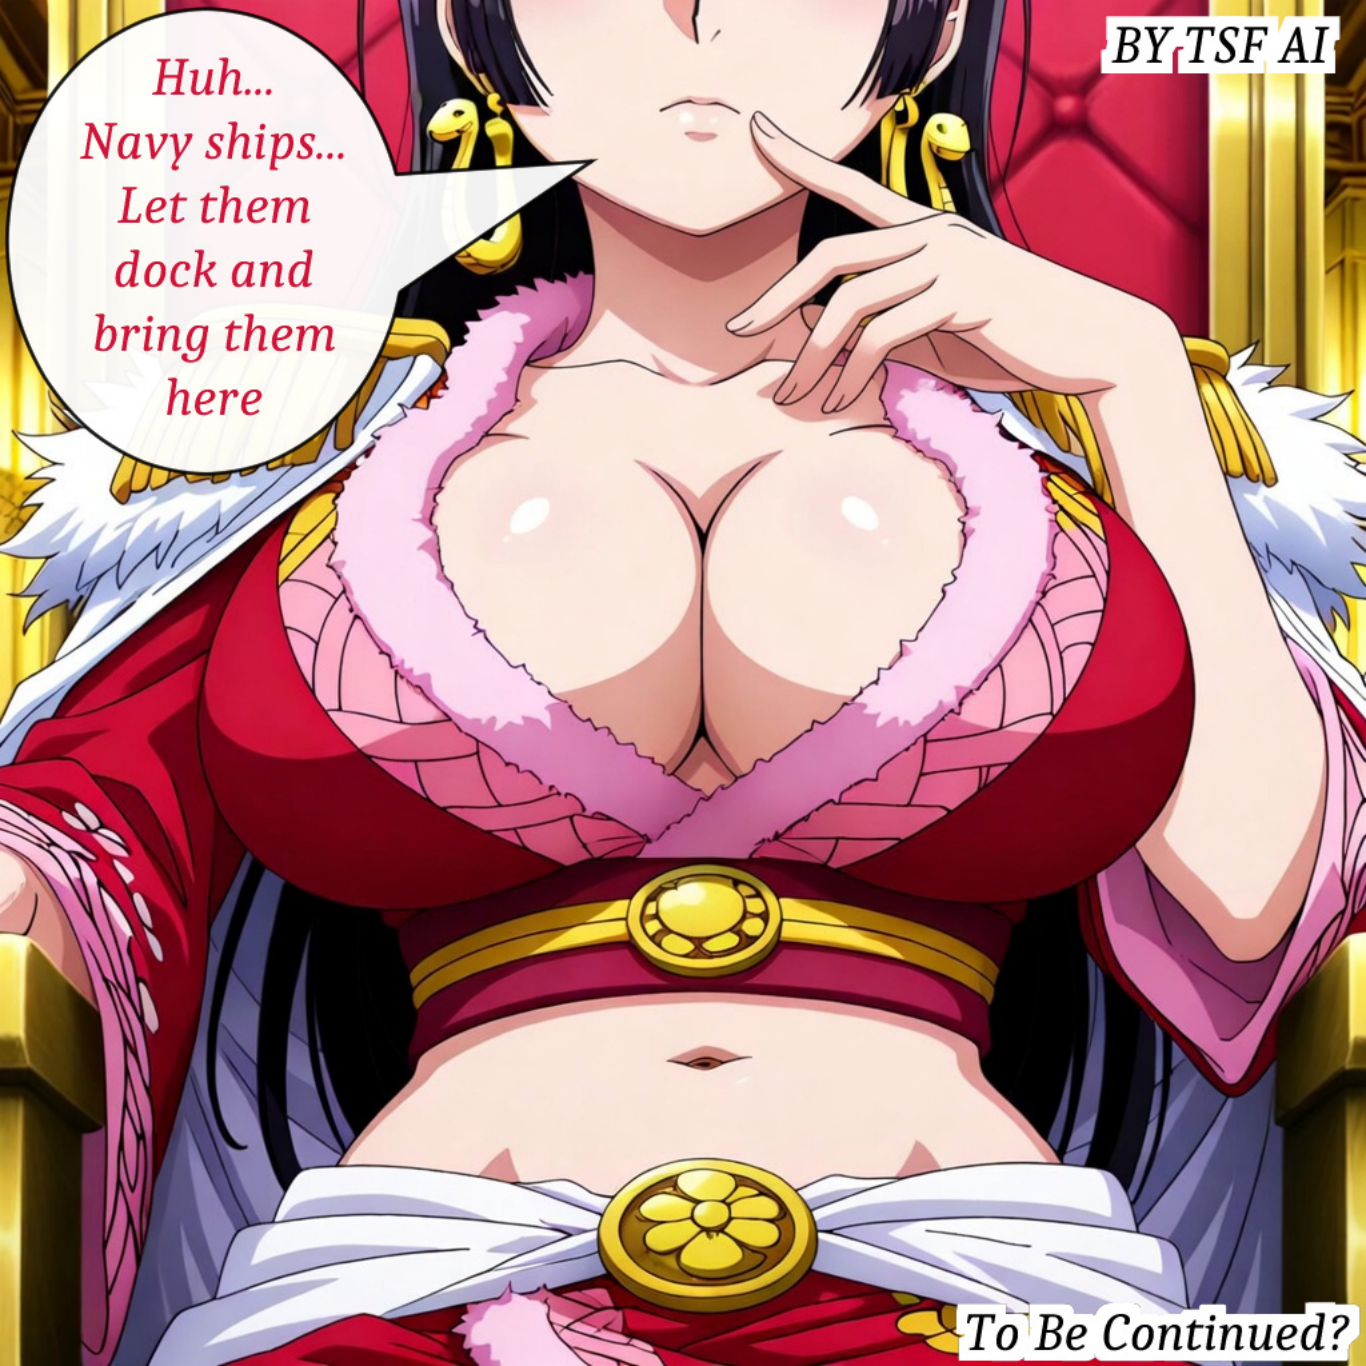

For now this body will be my main disguise

I guess I have to do her mission and head to Amazon Lily now

I hope I can meet up with Straw hat again soon

The island of women Amazon Lily
Navy ships are coming!
QUICK! Tell the snake princess!
九蛇

Snake princess! We've spotted a few navy ships on the horizon

Huh... Navy ships... Let them dock and bring them here
