ONE BORING FRIDAY NIGHT

“Mmmmm, you were so right about coming out here tonight, Vanessa, I can’t imagine missing out on such amazing sensations, can you Baby?” spoke out the soft, sultry, sensual tones of 23 year old Debbie, a beautifully Nordic blond bombshell.

“Ooooooh Yesssss. This does feel so good, doesn’t it Sweetie? I think we may even make this our new regular nighttime hangout, don’t you agree?” the stunningly gorgeous 25 year old brunette replied back, her voice a perfect mix of erotic sounds and feminine tones, her question followed by the sounds of several deep, pained sounding male groans.

Vanessa and Debbie had been friends since childhood, their girlishly playful attitudes and matching flirtatious demeanor making them even closer in the years that followed; something they used to perfection around the male gender, which their unreal shaped physiques and model-like good looks always allowed them their pick of. Something else that helped these girls connect to one another as they have, not to mention add a whole new level to their growingly sexual world, was their overall physical size and shape.

Each of them now standing a good 6' 6" in height, which caused them to tower over virtually any man that they could ever hope to find. Though their amazingly statuesque height was not of a lanky, thin, gawky nature; no, Debbie and Vanessa possessed massive muscles all over their toweringly titanic forms. Sexy female muscles that gave them near bulletproof hardness all over their ultra voluptuous, perfectly sculpted frames; not to mention a level of strength and power that no man could hope to match, which was just how they liked it.

Showing off their unreal physical abilities over the "Weaker Sex" never ceased to get their sexual juices flowing, and there was no better place to do so than in the gym; where each of them could hit very serious poundages and extremely heavy weight, something that was always followed by lusty stares and sexually longing glances from those around them. Flaring their muscles full and thick, flexing them to granite-like hardness, displaying their truly super strength as they watched with sexual delight as the assortment of men about them "got hard" during such workouts (and not just from their own newly exercised muscles either). Of course when the girls were finished with their muscle pumping routine, they always loved topping it all off with a good, hard, all too satisfying Muscle Fuck. Something that they either used all too willing participants, those they had to physically "convince" to join them, or a combination of both; as for women like Debbie and Vanessa, one post-workout fuck was simply never enough.

Which brings us back to this very night, a Friday night which neither of the girls had anything special planned, leading them to feel more than a bit bored while laying around their shared apartment. That was until the more lusciously curvaceous Amazon girl, Vanessa, suggested they visit their local 24-Hour Gym, for a little muscle pumping action. A suggestion that caused her best friend Debbie to smile a wide, devious grin, as she knew such a place would surely have its share of assorted men for them to display their massive physical strength for - as well as to choose from in helping with their traditional workout-ending sexual sessions as well.

“Mmmmmm, I think I've gone and used my guy out, Baby. You think I could maybe share one of yours for the moment? Please Lover, I'm just so close to climax!” the younger, more muscularly ripped Amazon, Debbie, cooed out; as she removed her thighs from around a massively large man's head. His formerly tongue-pleasing act on her inner-most muscles having gone on for as long as it could, having done so until the skull-crushing pressure of this blond bombshell's 30” thighs proved too much for him and he fell unconscious before he could finish this sexually pleasurable task.

"Oh yes my Sweet, of course you can. Mmmmm.....share and share alike, I always say" breathed back Vanessa with a sexy smile, as she tossed one of her two delightfully pleasuring men over to her long time best friend. Her 21" biceps previously holding both of her current love-slaves (each of whom stood about 6' 3", and around 275 pounds of muscle) tight against her mammothly muscular tits, pressing their faces (and their all too pleasing tongues) in and around her ample assets, relishing to no end the erotic delights their hot, moist mouths were causing to her bullet-hard nipples. "Just remember, while they are so many handsome hunks to go around here tonight, try and control yourself as best you can.....wouldn't want to ruin them all so early in the night, now would we?" Vanessa teased out with a girlish giggle, a series of which followed from Debbie's aching lips as well, as the slightly older Amazon woman passed one of her sex-slaves on over; the buxom blond grasping his form with undeniable strength, before placing his face in the same position as her former (and recently knocked out) lover's, Tight into her always ready for more pussy.

"You are so right Honey, but I just can't help it. So many gorgeous guys around, it just gets my juices flooww.....oooooo.....ooooooooowwing.....God Yes.....I can't help but Take Them.....Yes, Oh God Yesssss.....in my Hard.....Ooooooooooh.....Strong.....Body!!" Debbie growled out loudly, as she clamped her thighs around this new man's skull once more, his tongue doing such a good job on her sexually starving vagina (which was virtually at eruption's door anyway, thanks in large part to the tongue-licking performance of her previous partner), that in less than a minute she had reached her first sexual climax of this night. An explosion that doused her forcefully taken male partner's face with waves of her sticky, sweet cum, as it caused her rippling hard legs to constrict Hard on his head and face; causing little cracks and pops to be heard all about, as his body fell limp and unconscious from such painfully punishing treatment.

“Mmmmmmm, now you know Baby.....Oh Yeah.....that I can't watch you cum.....Oh Harder slave.....Stronger!.....without doing the same Myself! Oh Fuck Yes!!!” Vanessa then orgasmically screamed out, pressing her own partner's face deep inside her hugely muscled chest, his all too pleasing mouth and the sight and sounds of Debbie's sexual completion causing she herself to reach her erotic peaks; which as always was accompanied by the full flexing of her amazingly Amazonian form (especially her monster pecs, which crushed and smothered the head of her latest man, utterly and completely, bringing him as well to the blackness of unconsciousness), as her own built-up levels of sexual liquid cascaded out of her vaginal lips and dribbled down her strong, muscular legs.

The pair of gorgeously gigantic Glamazons continued to sensually gyrate their hips up and down, their eyes closed in lust, relishing in every last ounce of sexual delights that coursed throughout their massively muscular frames. This first such act using up three fully grown, hulkingly huge, male muscleheads, whose normally powerfully built forms were all but nothing next to the strength these girls contained. Their thickly muscled bodies to be sexually used and abused as these Amazon girls saw fit. Though the putting down of this first gym-going trio of men meant little to Debbie and Vanessa, who knew full well that in this locale here and now, there was so many more left for them to choose.

The girls late night workout session being rudely interrupted before it even began by these series of angry male gym-rats, who apparently didn't like the idea of sharing their midnight training sessions with a pair of bubbly young tarts. Of course their attitudes changed completely once the girls zipped out of their fully concealing gym-suits, to reveal their hugely muscular female forms in the sexiest, tightest, body hugging two-piece spandex outfits they could possibly put on; outfits that not only made their formerly “dumpy” forms (to the untrained eye, anyway) look Sizzling Hot before the eyes of these very aroused men, but also displayed their incredible muscular size to them all – size which not long after displayed numerous feats of strength, only with the girls playfully using the formerly abusive men's bodies instead of the actual weights provided to complete their hard out workout.

Within 10 minutes the entire lot of them were given a slight beating (for the girls that was, quite hard for their much weaker male victims), just enough to keep them docile and easily controlled for what they had planned next, not enough to knock them out for any longer than necessary, as what kind of sex-toys would they be if they were unconscious and unmoving? A state Debbie and Vanessa didn't mind leaving them in after they had served their needs (not to mention with the assorted broken bones and torn muscles to go along with it). So once that initial display of strength and power was completed, each girl claimed a few men to satisfy their clearly Hot and Bothered young forms (as very little aroused such women as beating a man into becoming her all too willing boy-toys), as they draped their humongous and horny forms over nearby weight machines, before getting themselves off on whatever position they had decided to place themselves (and their bulky bullying males) in.

"Ooooooh yeah, that felt So Good.....for a start. I hope you boys aren't too tired for a little more?" Debbie breathed out with a smile, eyeing up the still conscious, though more than a bit beaten and bruised, men around them; making the next pick of who will be joining her in yet another sexually stimulating session.

"Oh yes, definitely Baby. I can't imagine they thinking girls like us could be satisfied so easily, so quickly. What do you say, my adorable Little Boy, ready for the next round? Vanessa followed up in a very sultry voice, her smile wide as her juices continued to flow down her long, thickly muscled legs. She then bent down to collect another massively musclebound male, lifting him off the floor with her hugely muscled arms, her hands firm and tight around his big, thick butt. Vanessa then maneuvered him onto a single one of her hands, using the other to rip away his workout shorts like tissue paper, releasing his surprisingly large and sexually aching cock. She then began grinding his thick erection up and down her ridgedly rippling stomach, the friction from her marble-etched abs causing waves of sexual sensations to flow up and down his body; a few ounces of all too pleasing feelings this towering brunette allowed her new man, before the transition to pain began.

She was not without such enjoyable sensations as well, as the feelings of his cum-bubbling dick tickling and teasing her washboard abs were proving all too orgasmic to this super sexual Amazon. The man began moaning and groaning with lust and arousal, something which caused him to jolt and bounce in her steel tight hands; though Vanessa held him still, continuing to move his massive body up and down her own muscle packed form, his throbbing cock up and down her bulletproof abdominal muscles.

So enjoyable were the feelings coursing through this man's body that it seemed mere seconds before he would explode his load all over Vanessa's stomach, that was until she gave a devious look to her Sister In Muscle Debbie, which was followed by the rate of her up and down lifting of this 300+ pound man increasing, the speed in which he (and most importantly, his dick) ground into her rippling abs becoming faster and faster; so much so his formerly pleasurable experiences were quickly turning into Pain! Pain from the increasingly harsh burning and rubbing feelings his dick was now emitting, pain from his erection being treated like a block of cheese in a grater.

Before long, this ongoing treatment was becoming increasingly more agonizing, a fact which was clearly seen by all around them as this man began to scream and yell out loudly, his mightily muscular arms trying to push himself off and away from Vanessa's supremely powerful frame, though her hold over him was complete and unbreakable. If anything her hands grip on his butt became tighter and harder from this act, giving her new lover before her another level of discomfort from his growingly mangled form. His fists then desperately started to pound on his Amazonian tormentors full, beefy chest, beating with all of his might in the hopes that he would cause her pain and therefore drop his continually screaming form. Though his strikes simply bounced off her massively muscular breasts with no affect at all, her basketball-sized balls of pec muscle resisted his truly powerful impacts with so much ease, that not only did it not cause her any ounce of pain, it actually caused the statuesque supergirl to start giggling aloud.

"Mmmmmmm, tell me something Stud, does it feel as good for you as it does for me?" the gorgeous brunette musclegirl cooed out sexily, as she continued to harshly grind this man's dick to pulp against the ridged plates of her 8-Pack stomach. Of course such a question was done in a completely taunting manner, everyone here more than aware that pleasure was Not what one of their largest gym-going members was experiencing here and now (even if watching this act from a distance did cause a few of them to sprout their own erections full and thick). Though be that as it may for this abdominally-raped man, just before he passed out from the agony he was currently in, the one small part of him that actually found pleasure in such painfully manhandling treatment (a tiny area of his mind that craved to be forcibly taken by a beautiful hardbodied Amazon), caused his erection to Erupt all over her stomach; as waves of cum and blood oozed out of his once manly shaft, something Vanessa seemed to relish to no end, as she soon after tossed this man aside, moving her newly freed hands up to his juices on her body, massaging and rubbing them into her stomach muscles, and then further down into her dribbling wet pussy, until she herself climaxed from a completion of another aggressively taken fuck.

"Mmmmmmm, that was So Hot! I think it's time for little ole me to have her fill now" Debbie breathed out sensually, her fingers tweaking her inch-long nipples after viewing such an act, as she made her way to an older looking man, one that she remembered being the owner of this establishment when they first entered, one that was the first to tell them both to beat it, before Vanessa and her did some beating of their own to quickly change his mind. She wanted to make sure he was given a little extra treatment from them for his oh so "hospitable" attitude.

"Come on Handsome, you're next!" the young blond bombshell made out, grabbing his battered form by his shoulders, before pushing him down to his knees before her. His mouth now directly before her young, tight, moist love hole, though having it pleased by a man's lips already this night, she thought something else might better suit this rough and burly gym owner.

Debbie then turned around, sticking her giant beach-ball shaped ass in his face, giving it a cute little wiggling for her fellow Amazon, which caused them both to smile and giggle out to one another. A giggling which stopped all too suddenly from Debbie, who then gave this recently kneeling male a very angry look, letting him know without any words spoken what she wanted of him - his tongue in her ass - and after all she and Vanessa had done to this group of large, muscular men, he was not going to be the one to play hard to get here. So with his eyes now closed, the large bodied man pressed his lips inside her full, luscious ass, kissing and licking all that he could in the hopes that he would please this beautiful blond rapist enough that she would take it easy on him - or at the very least, he would be conscious and bodily whole when his deed was done.

Unfortunately for him, Debbie had other plans in mind, something that was all too evident to he himself as he suddenly felt a single one of her hands grasping the back of his head, which was then savagely shoved Deep inside her bowling ball bubble butt. So far in fact that her glutes completely engulfed his entire head, a very tight hold around his skull that only became tighter when she began to pulse and flex her now chewing butt cheeks. His moans of agony all but fully muffled due to this blond Amazon's virtually suffocating ass; though the the panic of which caused his tongue to flail about wildly, sending waves of orgasmic delight all about her huge, muscular form.

Debbie instantly began breathing out Oooohs and Aaaaahs from her round-shaped mouth, her body quivering with ecstasy, which only served to harden her Amazonian physique even more, as little crackling sounds began to emerge from her man's entrapped skull. She then grabbed hold of an empty Olympic weight-bar, the bare end of which being eyed up for the past several minutes, its metal knob being all too enticing for her, especially her dripping wet vagina. A tight love hole whose walls were then wrapped tight around the firm metal shaft, her body grinding into it again and again from the front, just as her thick muscle butt was pressing into newest sexual partner's face from behind.

Back and forth her hips gyrated, being both fucked and sucked by two unwilling objects, and while the weight bar couldn't yell in pain as the male from her other end could (and did), had it the ability to do so it surely would have from the amazingly constricting pressure her powerful pussy muscles were causing. Muscles that before much longer were soon filled to the brim with another explosion of sexually charged juices, which shot forth from her insides like a stream, drenching the semi-mangled steel bar from one side, while cracking and breaking the gym-owner's face with her sexually squeezing muscle butt. Yet another muscle bulging gym goer (the owner, in this case) that was left an unconscious, broken heap of a man due to these girl's all too powerful Muscle Fuckings.

Something that from their gleamingly staring eyes, the remaining men around them could tell beyond any doubts was not over; as each girl began walking around them, eyeing them up like pieces of meat, the towering, sex-crazed Amazons scoping them out to make their next pick, for yet another insanely harsh and physically crushing sexual session. Though as if thought up by a single controlling mind, the remaining conscious men around them (all very tall, strong, muscular physical specimens themselves), suddenly rose up and charged the two beautiful young musclegirls. This act done completely out of desperation and fear over courage and confidence, the terror of having their bodies snapped and shattered during another forced sexual encounter with either of them (as enjoyable as that may sound to some female muscle loving men in the world) was proving too great to ignore, which left them the only option to stand and fight – or in this case, to be crushed, thrown and beaten to a bloody pulp.

“Awwwww, look Baby, they wanna play a different game now” Vanessa teasingly breathed out, as she crushed a man’s massive barrel-like chest in a devastatingly bone-snapping bearhug, while casually resisting a series of punches on her rippling wide back from two others. A few more savage squeezes from her 20” arms sent the man before her into screaming blackness, allowing her to turn around to face her attackers from behind, allowing them now to punch her massively thick pecs with all the strength, of which she felt no pain from at all.

“That is so cute. I suppose with as good a sports as they have been with us, we should play along with them.....just for a bit though, then it's time for more of Our playing, Sweetie” Debbie giggled out with a beautiful smile, her muscle bugling arms grabbing two men by their throats, as she effortlessly lifted them several feet off the floor, while entrapping a third man's head between her diamond cut thighs. A pose she held for several seconds, before an instantly body mangling squeeze from her legs and a powerfully harsh tossing of her other men with her arms, sent her new male play-toys off and away from her; in perfect timing to reclaim another desperately fighting man, who she draped across her unreal sized shoulders in a spine-screaming backbreaker hold.

“Ooooooooh yes Honey, don't you worry about that, we're gonna be getting back to our game, Real Soon, now” the voluptuously muscular brunette cooed out, as her unreal powered physique continued to mangle, snap and break the assortment of men around her; something Debbie's all too excited young form was doing to match, something that unfortunately when all was said and done, left them with no one else moving or conscious to play with.

“Awwwww, look what we did, no more toys to play with” the 23 year old blond Amazon made out with a mock-pout on her full, sexy lips, as she and her best friend stood tall and proud about this partially destroyed gym, a heap of shattered male bodies (all once strong, muscularly built themselves, now crumpled heaps of useless man-flesh) laying all around them.

"Well then, I guess it's up to you and I to create some of our own fun.....maybe in the shower? I sure could use a good wash down after handling all of these dirty, sticky men" the older Amazon spoke out, eyeing up her Sister In Muscle with a sultry, seductive glare; before sticking out her hand, Debbie giving her own to her in return, as she lead them both to the back area of this gym and its spacious, unisex showering area. An area they eagerly made their way on over to, their fingers tickling and teasing the other as they held hands, their lips being licked by their own anxious tongues, their juices yet again dripping down their long, muscular legs. Though while they were both more than up for a little girl-on-girl fun to conclude this night's activities, what they discovered inside this locales large shower/locker room made them both scream out wildly with excitable, high pitched feminine voices - "MEN!!"

And men there were, a smaller group than the one Debbie and Vanessa had used and abused outside (their toys now broken and lost), but still plenty for them to play with; a discovery that caused them both to bounce their Amazonian forms up and down with a young girl's excitement at the realization that they now have several more men with which to play with. The now terrified men huddling inside had done so on purpose, having been in here since the girl's arrival, they quickly found out (through their fellow male muscleheads screams of pain and terror) that exiting this room and joining them outside was not where they wanted to be. So they stayed back here, hidden away and silenced, in the hopes that these gorgeous young femme-fatales would pass them on by and leave them in peace, and in one whole piece.

Unfortunately for them that wasn't the case, they had been discovered now, and that caused this grouping of hot, hunky, hardbodied men to run away yelling for their lives. Though with as sought after as they were to these two towering titans, none of them were bound to get very far. Their 6' 6" heights, amazingly long legs and truly incredible strength, allowed Vanessa and Debbie to catch each and every one of these men before they could escape. Slamming their bodies into lockers, throwing them around like rag-dolls, crushing them into near unconsciousness; allowing the Hot and Horny girls to take their picks of them for their own unique brand of sexual fun at their leisure.

"Now that wasn't very nice of your boys, running away from us sexy girls like that" Vanessa breathed out with a taunting tone, standing in the center of several beaten men about her.

"That's right, don't you know you could hurt a girl's feelings by doing that.....and when our feelings get hurt, we start hurting back!" Debbie laughed out with a devilish grin, as the steam from the newly shut off showers about them caused their muscle packed physiques to glow with gleaming beads of sweat, making their muscular etches appear even more clear, while giving them an overall more animalistically sexual look about them.

The incredibly horny girls then bent down and jointly picked up the largest man they had seen this day, a hugely muscled man that looked to be even larger than they themselves were; though such physical comparisons as they were, that was the extent of their physical similarities, as Debbie and Vanessa handled him with the utmost ease, casually countering his pitiful attempts to resist them, allowing them to maneuver his body into their currently desired position. Their girlish giggles heard echoing all about this area, coupled with the sounds of their man's blood-curdling screams, made the remaining males about them fear for their very lives; a sense of fear that these girls clearly detected, something which aroused them to even greater levels.

Their current position held this monster of a man snug tight between their rock-crushing thighs, the girls standing forms looking as tall and powerful (not to mention beautiful and sexy) as ever, while his was helplessly held horizontally between them; his head trapped within Debbie's rippling hard legs, while his waist was sandwiched to painful perfection between Vanessa's lusciously powerful thighs. This behemoth's terrifyingly quivering mouth savagely thrust into one seemingly unquenchable pussy, while his cock was harshly enveloped by another. A dual fuck that could only be done by women of this kind, as only they had the power and strength to man-handle such a physical specimen with such ease. Holding his hapless body off the ground with their constricting thighs, while forcing him to service them both simultaneously - or suffer very severe consequences. Something that was clear as day to all around them as the girls began to flex and flare their massively muscular legs around one of their biggest and strongest, causing him to cry and whine like a scared little boy, turning the faces of the remaining men white with ghastly life-threatening terror.

“Come on Stud, I'm sure you've been in this position before. Let's see some of that tongue action, unless you want me to just rip it out of your mouth and do it myself!” the gorgeous young blond Amazon, Debbie, growled out with an erotically intimidating tone; doing so more for the benefit of those around her than her entrapped male, whose ears were all but enclosed shut with her mountainously muscular legs.

“You tell him Baby, I can barely feel his little limp dick inside me. I guess it's true what they say about steroids shrinking your dick and all, eh Musclehead?” Vanessa teasingly cooed out with a smile, as she too continued to pulse and pump her body-snapping legs in on their newest sex-slave. “Mmmmm, maybe if you Squeeze him a bit down there Honey, I might get a bit more life over here” she added on with a devious grin, which Debbie then followed suit with, as she crushed in with her thighs on this man's skull even moreso. Causing him to scream out in unreal agony at an even higher tone, and amazingly so, causing his cock to spring forth bigger and thicker than ever. “Ooooooh yeah Lover, that's.....Mmmmm.....that's so doing the trick.....” the beautiful brunette bombshell cooed out, relishing in the now large, throbbing erection that lay deep inside her; her super strong vaginal muscles pulsing and popping all around its form, loving to no end the feelings of sexual ecstasy his giant rod was causing her.

Though just because the girls were enjoying themselves in this all too orgasmically sexual display, that didn't mean they were holding back on the crushing might of their steel hard muscles on this man. If anything such body-mangling pressure only increased the more aroused these sex-crazed Amazons became, that each tingle and jolt of erotic delight flowing through their towering physiques caused their muscles to harden and expand even tighter.....even stronger.....even more Crushing!

Such a sight of utter female dominance left the surrounding group of men in complete fear at what they may do to any of them next. Thoughts of trying to flee in terror once more while these savage supergirls seemed more than a bit busy with one of their own came into their minds; though the beating they each took when they tried to do so initially, coupled with these girl's looks of Move, And I'll Kill You, was more than enough to convince them all to stay where they were and pray that whatever they had planned for them was much less punishing than what they were now going to their fellow male gym-goer.

A man whose horizontally held, air-bound form twisted and turned about in total agony, a fact that was made even clearer by the sickening sounds of his body snapping and breaking before them, done so by the largest, longest, most muscular female legs any of them had ever seen, done so by young Amazon women who cared nothing more than getting their sexual fill; something after several more minutes of this devastatingly crushing treatment they reached, as their passionately powered love-juices flowed out from their aching pussys, drenching and drowning this giant of a man within their latest erotic explosion, while finishing him off with a few more body-snapping constrictions. Their thighs then opened to allow his unconscious body to fall to the ground with a Thud, as Vanessa and Debbie simply stood over him, allowing their hot sticky cum to dribble on to his unmoving form, while giving looks of lust and dominance to their still remaining gallery of able-bodied men.

"Mmmmmmm, that felt So Fucking Good!" Debbie roared out primally, stretching her super statuesque body tall and proud, before reaching down to her vagina to trace her fingers across the still escaping cum from her body, before bringing it back to her mouth where she sucked down its sexily salty goodness with her erotically eager lips. "So, who's next Baby?"

"Ooooooh, I don't know Lover....." Vanessa breathed out, as her own fingers tweaked and twisted her all too erect nipples, ".....Mmmmmmm, maybe we should have these boys decide for themselves" she followed up with, an idea Debbie simply loved, as they both turned back towards their still floor-bound array of hunky males, giving them most devious smiles and a most sinister look.

“You heard her boys, who’s next? Pick one of your own for a once in a lifetime sexual experience with two of the sexiest female hardbodies you’ve ever seen, and for your lucky boys, our last Muscle Fuck of the night.....but do it quick, before we choose you All!” Debbie threatened out, followed with her and Vanessa hitting a dual Most Muscular pose that expanded and hardened their already Amazonian bodies so much that they made a completely solid wall of muscle before these men, dashing any hopes at all for their escape. Though escape may no longer be necessary they thought to themselves, as it seemed all they had to do was pick a single one of them to join in on these Amazon girls last sexual session (one which granted would leave that person a broken wreck at the end), and the rest of them could go free – never again to return to this gym in their lives.

So after several minutes of “discussion”, their loud panicked male voices yelling and screaming at one another, they finally made their choice, doing so to the smallest, weakest man among them; one who had no chance to resist or debate the decision of the much larger, stronger men around him (who clearly threw him to “the lions” in order to save their own skins). And so without caring for this man in the least, they tossed him out and away towards these twin titans, who then grabbed him in their arms, holding him tight and snug between their utterly engulfing female forms; before giving the rest of these men (who looked much more at ease now, almost as if they were about to be freed) with devilishly malicious glares.

“And where do you think you boys are going?” Vanessa cooed out sexily, as she and Debbie eased up on their hold on this much smaller man between them; they turning their Amazonian forms now to face the series of growingly frightened male muscleheads.

“You said this was.....was your last.....that you just needed one more.....”

“Mmmmmm, and you're so right, this will be our last Fuck of the night.....but we didn't say anything about our last Beating of the night, now did we Baby?” Vanessa playfully breathed out.

“Nope.....and since these guys have been so nice to volunteer Shorty here for our Fucking, I guess that only leaves them for the Beating!” Debbie sexily replied, as the two super strong musclegirls now turned their full attention to the remaining assortment of large, muscularly built men; ready, willing and able to show them all what Power from such thick, beefy, hard muscle really was.

Over the next 10 minutes the girls place an all too savage beatdown on the array of hulkily muscled men here. Even being outnumbered 4 to 1, the girls had total control of this situation, and of the overmatched males around them, who try as they might could not dent the seemingly armor-plated bodies of these gorgeous young women; who giggled and laughed wildly as they tossed, crushed and slammed their new play-toys around with much enjoyment. SNAP!, CRACK!, POP!, CRUNCH!, could be heard echoing all about this tile-walled showering area, sounds from the increasing number of male bodies that these harshly punishing women were ripping apart.

A sight which oddly enough, in addition to completely terrifying their last remaining man (who now felt supremely lucky to be chosen by this traitorous bunch), was so sexily done and in such a playfully girlish manner, served to expand his cock to truly tremendous levels. A sight each girl noticed full well, his naked, athletically fit and now dick-hard form catching their eyes with much interest; something that was followed with a final Cracking of bones from their all too power packed limbs, allowing them now to focus on this single sexually delicious sight before them.

The two girls then began licking their lips as if they were just about to dive into their favorite treat, something that was actually all too true, as this final man's body looked too good to pass up any longer. So like the muscle packed sex crazed animals that they were, Vanessa and Debbie reached down to this tiny little man (to them anyway, in actuality he was around 6' 1" and 225 very fit pounds), scooping him up in their thick, bulging arms, and carried him over to the location they wanted to enjoy this last sexual session - the sauna. A room they spotted while destroying the remaining litter of muscle-men about them, a hidden away wooden door with little bits of steam oozing out from its bottom. Yet another room in this late-night gym to experiment within, one that the teasing Debbie turned up the temperature on as they entered, which served to increase the amount of sexy sweat dripping down and around their tight and toned bodies.

“Oh, I don't think this one's gonna last too long in here, Baby” Vanessa cooed out with a smile to her Amazonian partner, as they both took seats on the very hot wooden benches about this room.

“Mmmmmm, just like a man, they just can't keep up with a Real Woman!” the young blond laughed back, who sat ever so close to her Sister In Muscle; both of them placing the form of the smaller, weaker male between them, his completely exposed butt near sizzling in the scorching seat, his little squirming motions and pain-wracked face only served to thrill the twin towering titans even more.

Realizing that their man may not last too long within this super hot location, the girls dove right into their next sexual meal with much haste; which this time was actually one another, as they melded their still sitting forms snug and tight into each others embrace, their lips locking, smacking and popping into their own erotically aching mouths, their arms wrapping tight around their massively large and muscle packed bodies, their breasts pressing hard and strong into their lover's own equally muscular pecs, as they both moaned and groaned with sexual satisfaction from such an amazingly pleasurable session.

Unfortunately, the male trapped in between them, engulfed within their mountains of massive muscles, was feeling anything But pleasure, as his hopelessly overpowered body felt like it was in a flesh covered (yet sexily shaped) walls of solid steel muscle, which seemed to care little about his swiftly demolished form, their only concerns being to please one another, no matter the cost to his snapping, crackling and popping form.

“Mmmmmmm, you feel So Good Lover, so tight.....so strong.....so hard. Flex for me Baby, flex those muscles of yours and get me even Hotter than I am now!” Vanessa breathed out in a very sexy tone, doing so right into her current lover's ears, causing Debbie to shiver with lusting delights; and of course, to harden and expand her muscle packed form, as requested.

CRACK!, BRAKE!, POP!

“Ooooooh yeah Honey. You like these muscles, you like the feel of them around you, hugging you, groping you, touching you. Mmmmm, I do too Baby,.....Ooooooh yeah.....so flex for me, my Sweet, flex hard and strong for your Baby!” Debbie erotically growled back to her brunette musclegirl, which was followed with her lips tracing down and around Vanessa's neck (her most sensitive area); followed then by the expanding firmness of her voluptuously hardbodied form, causing her body to match the newly thickened size of her lover, and as before, the demolition of their newest male sex-toy from within.

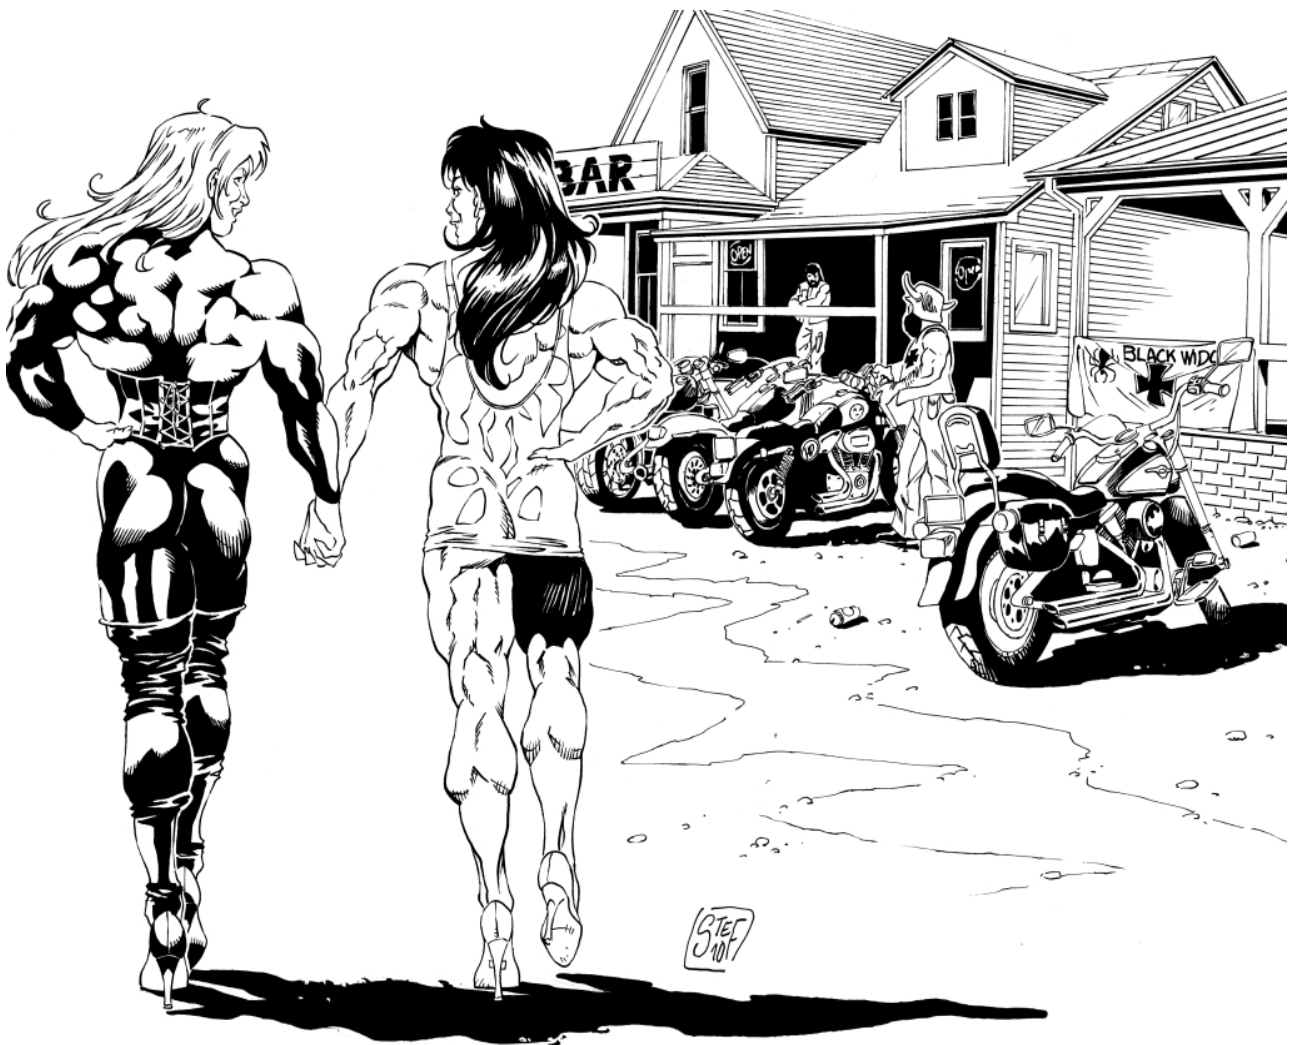

SNAP!, CRUNCH!, SHATTER!

Sounds from this man's completely mangled form, while just barely audibly heard from within their enveloping walls of female muscle, were more than felt by their savagely surrounding bodies. Each crackling vibration, each shattering pop, or torn muscle and dislocated tendon was felt by their sexually engulfing forms; physical feelings that were instantly turned into sexual sensations that thrilled these body-crushing Amazons to no end. Relishing in not only their own ever so pleasing touches, kisses and licks dancing with expert skill and erotic grace across their rippling muscular frames, but also in the knowing that the very act of doing so, the simple deed of them pleasing one another sexually, was causing the complete destruction of yet another fit, buff, muscular man. A man who with most any other woman would surely have been the boss, the leader, yet with them he was nothing more than a sexual play-toy to crush and brake with their rock solid, super strong female muscles.

Their hips instantly began gyrating into one another, their arms wrapping even tighter, holding their bodies into each other even closer, their increasingly passionate and primal display causing more popping and breaking sounds to emit from their male partner; who at this point was now unconscious, his mind shutting down from the unreal agony he was experiencing, his lungs unable to get their much needed air due to the utter smothering of their super muscular forms around his face. Though conscious they did not need him, their only desire was of the feeling of their matching muscle packed bodies, the passionate kisses from their sexually quivering lips, the grinding sensations of their gyrating hips which continued to Slam into one another hard and strong.

The culmination of these physical and emotional sensations flowing all about their young womanly forms caused their moans to become louder and louder, until such time that Debbie and Vanessa both screamed together in unison, holding their bodies tighter than before into one another, still and unmoving as if one single physical form; Loving yet another climaxing orgasm between them, one that sent rivers of their sexual juices flowing out from their hot, moist vagina, covering the completely destroyed form of their final male sex partner in wave after wave of its sticky, white liquid.

Their locked together forms then began to move, slowly, sensually, against one another, enjoying every last ounce of pleasure being given ever so freely to each other; in addition to the delight taken from yet another mangled man. One that once they arose and separated from apart from, fell limp and near lifeless at their feet. His formerly fit and strong physique now a demolished mess, littered with broken bones, torn muscles, clearly visible bruises, as well as several burnt areas of flesh due to this scorching hot location. One that served only to enhance the sexual pleasures of the two young women within, though which would surely be incredibly uncomfortable to any other man around.

“Mmmmmmm, so what now Baby, I think we've worn out our welcome here” Debbie teased out, followed by a high pitched girlish giggle.

“Well my Sweet, I think I saw the most delicious looking biker bar on our way here, did you bring the extra outfit like I asked?” the 26 year old brunette musclegirl erotically replied.

“You mean the skin-tight bodysuit, that just hugs my muscles so Tight that the teeniest flex causes it to burst apart?” the buxom blond bombshell cooed out with a smile, gazing at her Amazonian lover's face as she did the same in return back. “I think I remembered.....as long as you have an equally sexy spare outfit for yourself?”

“I don't go anywhere without one, Lover. What say we both change into something sexy, and paint the town red!”

“As long as we can throw in some Black and Blue with that Red, my Sweet, I am So in!” Debbie excitedly made out, as she joined hands with Vanessa's, walking back into the locker area of this now demolished gym; getting themselves ready for even more Amazonian fun, in what was originally going to be a boring, uneventful Friday night.
