Boy meets girl

It was just a normal party among friends, at Mike and Lisa's place. But they had invited some friends I'd never met. One of them obviously caught my eye, and as almost all the others had left, I made my move and chatted her up. I'd already had a few drinks, so I wasn't shy to pop the question right away...

Oh boy... you don't even know my name and you're asking me to show you my body. But ok, if you insist...
I do, I do!

There! Big enough for ya?
OH-MY-GOD!

Happy now, mister?
Well eh, that's amazing, but if you could just show me what your legs are made of too... that would be awesome...

Ok boy, it's your lucky night, you get to see some leg too. Actually I'm rather proud of my thighs.
Man, this is like granite! Or diamonds!

Yeah well, these babies get plenty of exercise. But tell me...

I think now it's your turn to show me something, no?
Eh.... my biceps are not much to look at I'm afraid. Nor are my quads.

Yeah, I can see that from a mile away. But I was thinking about another muscle, perhaps...
W-w-what do you mean?

I think you know exactly what i mean, little boy...
Hey, what are you...
Cut the crap boy, you wanted to play with the big musclegirl. Now don't be surprised if she wants raise the stakes...

And I can see someone's happy to play...
Heeey!!! It's not not because I've had too much too drink that you can take of my clothes without my permission!

Oh but I can! And you know why? Because I'm sooo much bigger than you.
That still doesn't mean you can just...

You know, you're right. It's not because I'm bigger than you that I can have my way with you...

It's rather because I'm STRONGER than you

I mean, size is nice, but it's not all. And even strength is not all...

There's also psychological dominance of course... But it's actually a mix. What I can make you do is the result of size, strength, dominance, fighting skills... Let's see how far I got you already...

Suppose I'd ask you to lick the sweat off my armpits... Would you? Yes, of course... Good boy, I would've thought so...

You're quite ready to obey, aren"t you, little fella?

Y-yes....

YES MA'AM!

Yes Ma'am!

Good boy... if you can obey, this might turn out to be an interesting night after all...
Lick it aaaaall clean baby. Lick those big sweaty armpits clean and be glad I don't smother you in them.

Ok, I want to see some more skin now

B-b-but

Shhhh. No talking. Only following orders.

First let's take of this tie, before I strangle you with it

Actually this shirt is too big for you anyway. Couldn't find one your puny size, I presume?

Look at that! My god you're tiny. I have to be really careful not to break anything with my big muscles...

I guess that's your biggest muscle here, actually...

What do you say if we introduce it to one of my muscles, little boy?

Oh little baby, I wish you could feel the sense of power that i'm feeling now, squeezing your little dick in my biceps.

Even better... hold on tight...

I can also do this standing up, that's actually hotter still.

I need only one arm to hold you in the air. And I can make you cum like this in an instant if i want. Now flex your biceps for me baby. Show me your power.

Yes, that's it, you big strong bear! Look at you, all high and mighty on your throne!

Show your muscles to the city!

You know how easily i could break your back? You are so fucking mine!

Now be quiet and let me finish my drink. After that, we'll leave...
