

In the meantime.

Edward

Hey, Richard.

Hey, Edward. I hope you are calling to inform me that the gun is ready.

Richaaard!

Shit, I need to go now. I will call you back.

It is! You were so lucky. It usually takes more time to find a good piece. When and where?

Heyyy... What are you doing, Mia?

Here you are! Hahaha.

JUMP

Do you love me, Richard?

I'm not. Max said that you told him that you love me. Is that true?

What's going on?

Huh? S-Stop playing games.

Umm...
Mia.. I..

MNN

Please say it,
Richard. I want
to hear from you,
please.

KISSING

I lov-

giggle How about I invite you for dinner tomorrow?

Deal, big mouth!

Come on, let's get inside.

Hold on, hold on. Not right now. I prefer to hear you say it during a special occasion.

A date? That sounds amazing!

HAHA.

Richard, I must say, your plan with Alice was pretty impressive. And I'm actually willing to help her.

Yeah, I have this gut feeling that she's not as bad as I thought.

Absolutely, but there's one condition. Let me execute the pleasuring part of my plan first.

For real?

So you're on board with helping me in the second phase of the plan?

Ugh...
Mia...

Why don't you ask Max for help with your plan? He's dying to fuck Alice.

I'm not interested in Alice, Mia.

I'm confused. Instead of encouraging me to be there to fuck Alice, you should be feeling jealous.

Oh no! You have to be there.

But I won't get excited without you being there.

I can't be jealous. I know that I have a special place in your heart. This heart is reserved for me and for Margaret too of course.

Richard, I have complete faith in you. I know that you would never harm or deceive me. Even if you have sex with another woman, she would simply be an object to you, with no emotional connection to your heart.

Moreover,
I'm the one
requesting
your help.

Haha. Rest
assured, I won't
bother you with
such requests
once we're
MARRIED!

Right
away!

JUMP

Uh, not over
my back again,
Miaaaa...

And will
this be the
last time?

You'd better to.
sigh Fine... When
would you like us
to execute your
plan?
