

CHARGED! ⚡

TUESDAY NIGHT AT VERONICA'S REC LEAGUE SOCCER MATCH...

OUT OF MY WAY, RUNT...

ANOTHER GOAL! THE RESET OF YOU PATHETIC LOSERS DON'T EVEN DESERVE TO BE ON THE SAME FIELD AS ME!

I SCORED 9 GOALS, TROY. 9!! EVEN WITH A TEAM FULL OF MIDGETS!

YOU'RE AMAZING, TIFFANY!

PLEASE...
DON'T LEAVE ME
ALONE....

MORNING, VERONICA'S
BEDROOM

THUD!

KRIINNGGGGG...Prrr

I NEED TO IMPROVE
MY LIFE. TO TAKE
CONTROL. TO FINALLY
LAND A BOYFRIEND...

VINN....
VINN....

SPLOSH....!!

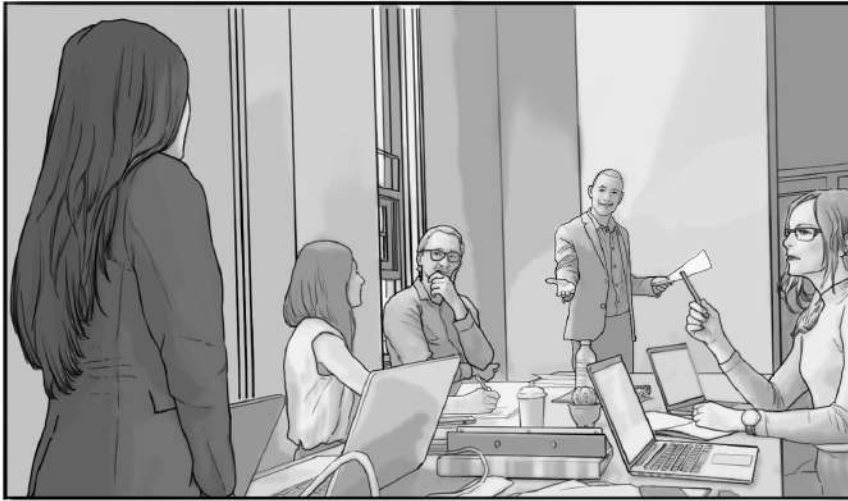

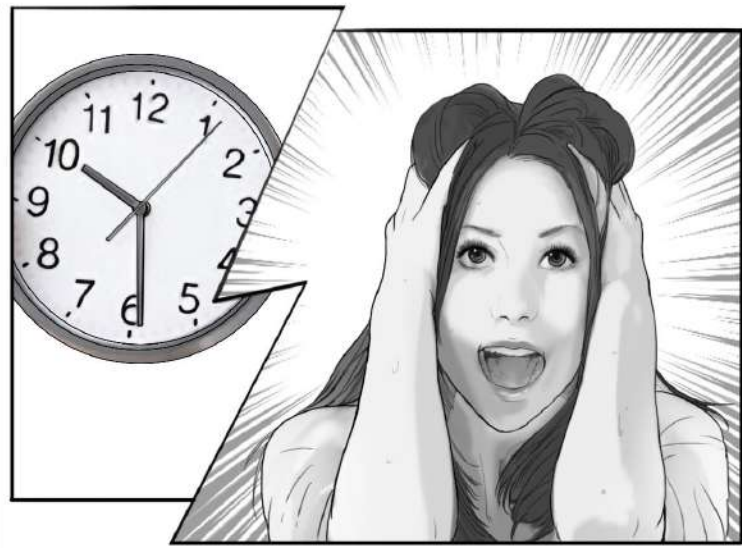

BZZT...!

KYAAA

BZZT...!

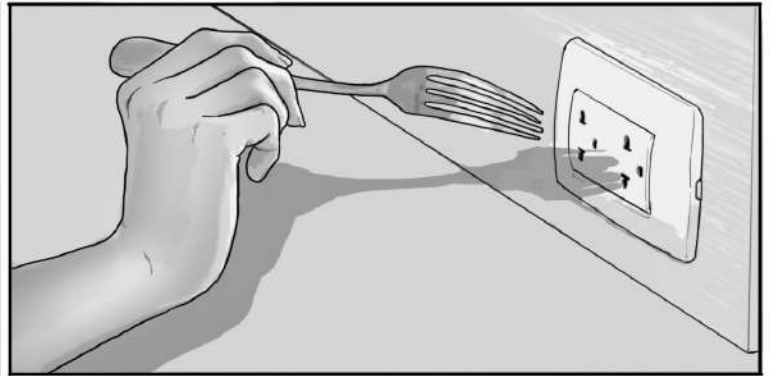

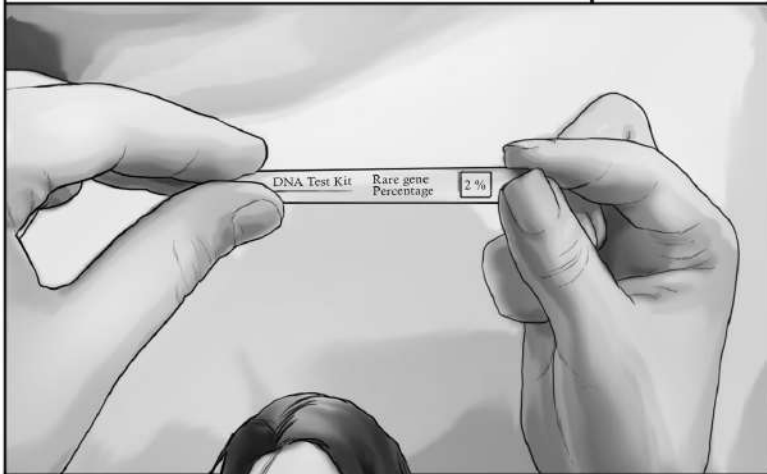

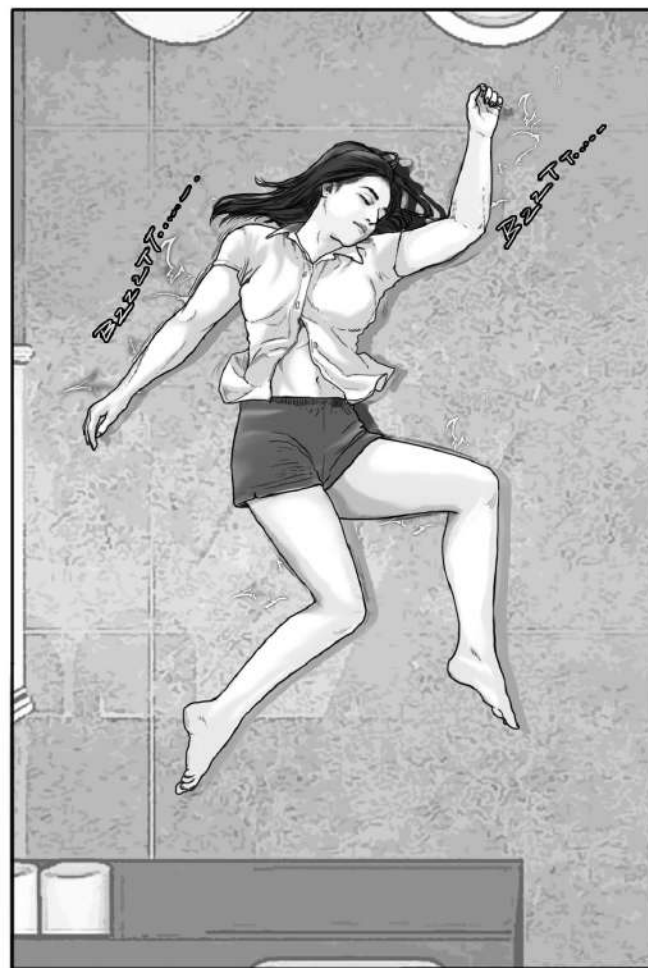

BACK AT HOME THAT NIGHT...

THREE DAYS LATER...

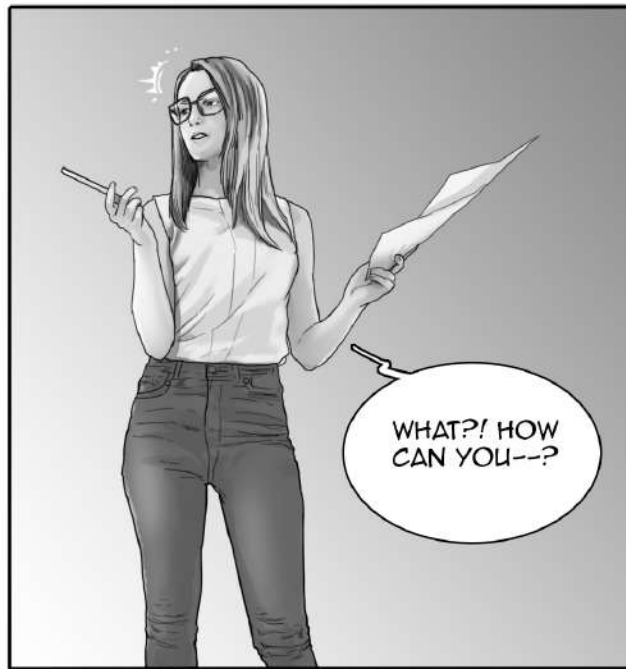

THE NEXT DAY, AT WORK...

NO, LAURA. MY PLAN WILL INCREASE REVENUE BY 40%, NOT 20%. YOUR MATH IS WRONG.

WHAT?! HOW CAN YOU--?

IT'S RIGHT HERE. YOU ACCIDENTALLY DOUBLED THIS 'COST OF GOODS SOLD' LINE.

HOW DID YOU EVEN...? DID YOU DO THAT MATH IN YOUR HEAD?

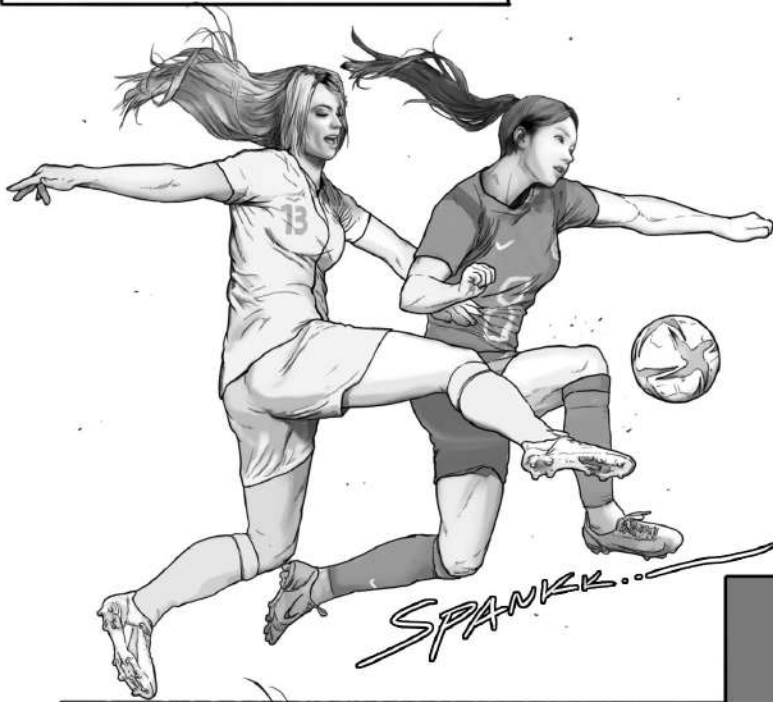

OF COURSE! CAN'T YOU?

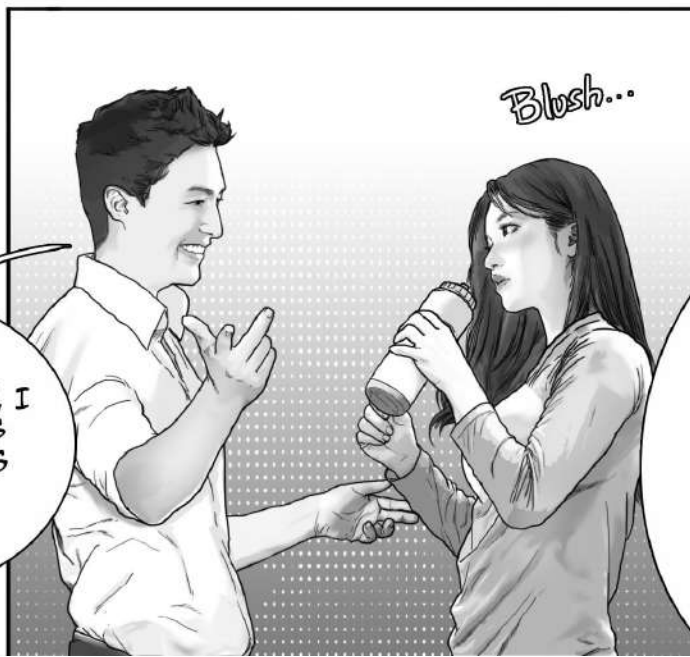

NICE WORK, VERONICA!

AT SOCCER PRACTICE...

I STILL SCORED ONE MORE GOAL THAN YOU DID.

YOU'VE BEEN WORKING OUT, I SEE! LOOKING GREAT! WHAT'S YOUR NAME AGAIN?

COME ON, TROY, LET'S GET OUT OF HERE. VERONICA HERE IS GETTING ALL COCKY JUST BECAUSE SHE DECIDES TO ACTUALLY LIFT A WEIGHT FOR ONCE...

I WONDER IF POSTING THESE NEW PICTURES WILL ATTRACT MORE ATTENTION FROM GUYS...

LOOKS LIKE I'M GOING TO NEED SOME SERIOUS POWER TO GET ANOTHER MAJOR UPGRADE...

VERONICA IS SWALLOWING NERVOUSLY, LOOKING UP AT THE POWER LINES

...COMPLETELY UNSTOPPABLE!!!

GOD, I FEEL STRONG! LIKE I CAN DO ANYTHING!

VERONICA GOES TO A NEARBY PARKING LOT, LOOKING THOUGHTFUL

I WONDER...

TIFFANY DOESN'T STAND A CHANCE AGAINST ME NOW!

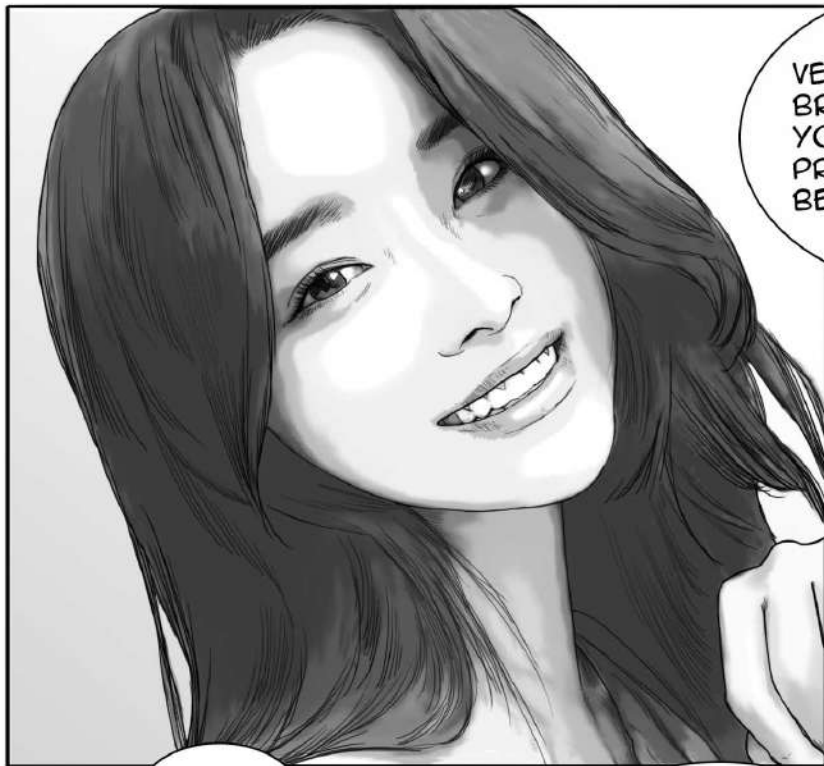

AT WORK THE FOLLOWING DAY...

...SO, AS YOU CAN SEE, MY PLAN IS CLEARLY FAR BETTER THAN LAURA'S.

VERONICA... YOU'RE BRILLIANT! YOU KNOW THAT PROMOTION YOU'VE BEEN AFTER?

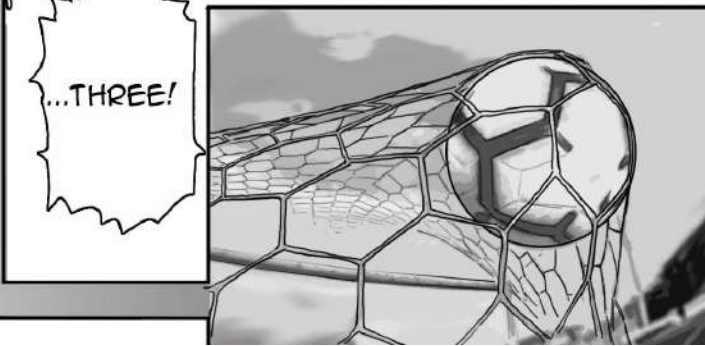

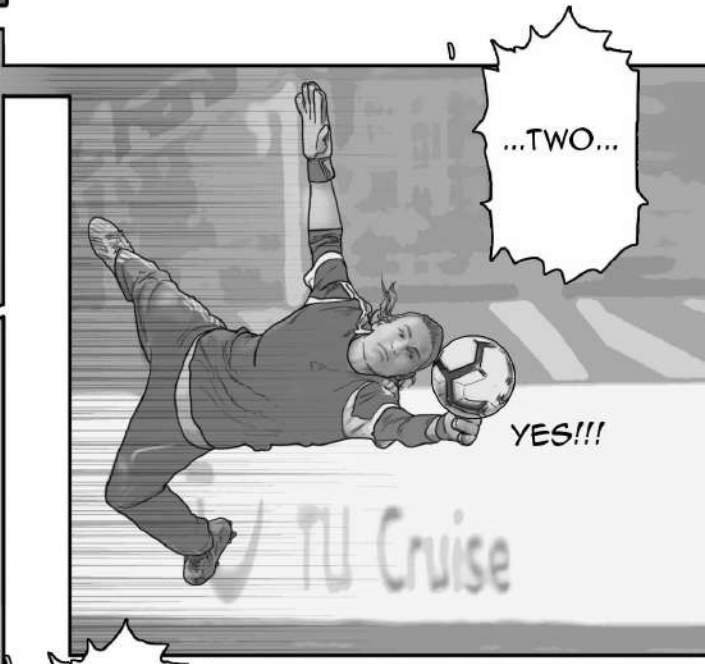

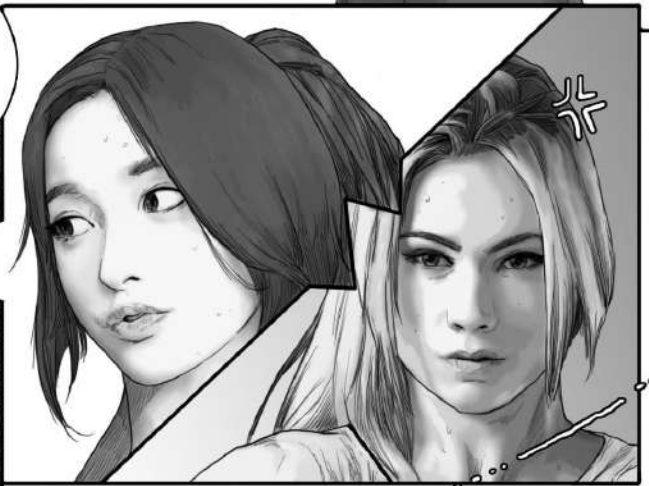

YES?

IT'S YOURS!

AT THE NEXT SOCCER MATCH...

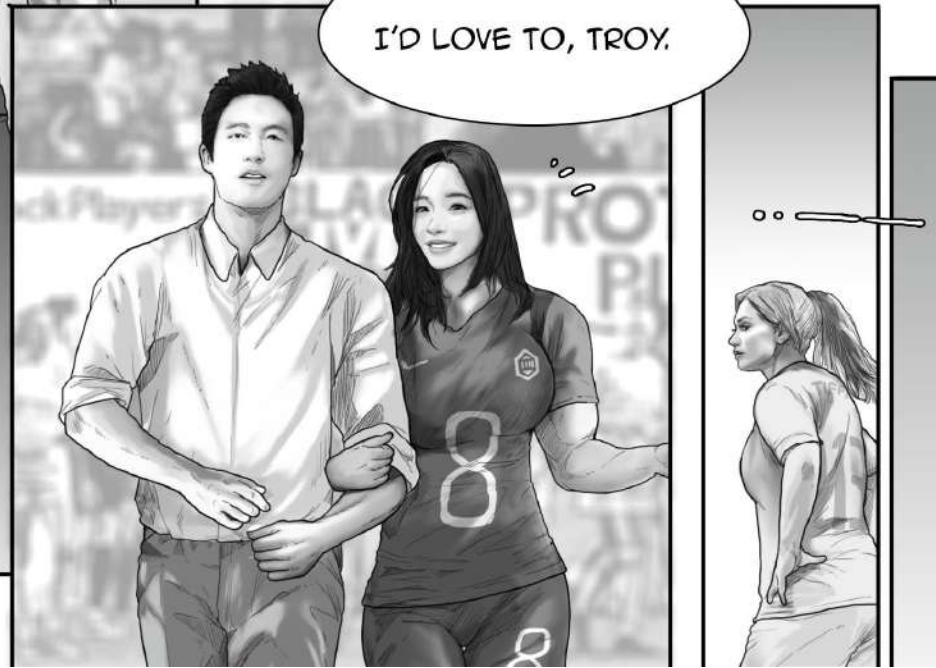

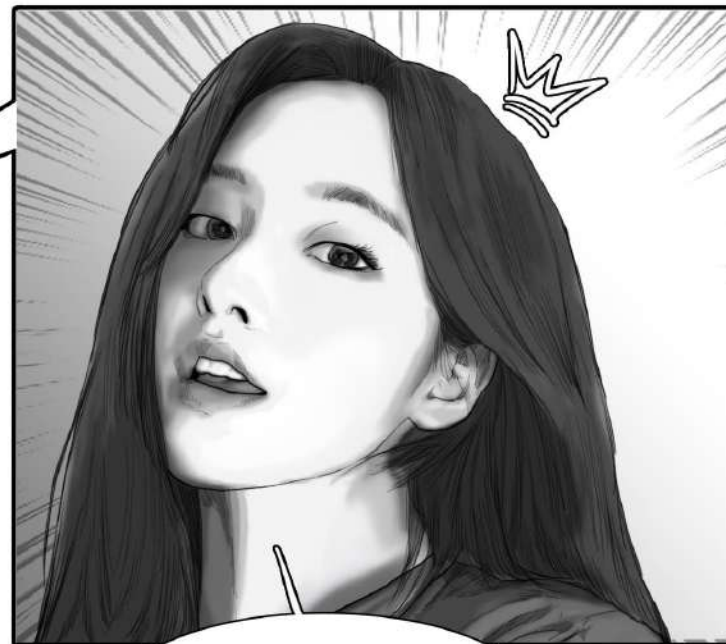

THAT WAS INCREDIBLE, VERONICA!

?!

THANKS!

I WAS WONDERING IF Y-YOU MIGHT BE WILLING TO, UM, GO OUT WITH ME SOMETIME?

I'D LOVE TO, TROY.

Electrical Injuries

Rare genetic combinations activated by electricity found to cause rapid growth in musculature and even neural connections...

Continuing Education Activity

Electrical systems are complex lines of energy that is often associated with high morbidity and mortality. The severity of the system depends upon the type of current, the voltage, and the distance. This activity reviews the pathophysiology behind electrical trauma and explains the role of the interprofessional team as they evaluate and treat these complex patients.

Objectives:

- Explain the difference between alternating and direct current and the different injury patterns seen with both.
- Identify the potential anatomic and long-term complications associated with electrical injuries.
- Outline the treatment of patients presenting with electrical injuries.
- Summarize the importance of using an interprofessional team, system-based critical care approach in managing patients with electrical injuries.
