HELL YEAH!

FUCK YEAH!

Soon the entire world will belong to the Goddess Lucy!

Two weeks later...

So to sum up sir, we've tried everything from poison to an experimental microwave cannon, nothing seems to affect her. In my opinion, General, I doubt even a nuke would do more than just piss the Goddess Lucy... er I mean HER off, sir.

What about that other woman, the one we recovered from the battle at the police station? Any progress with her?

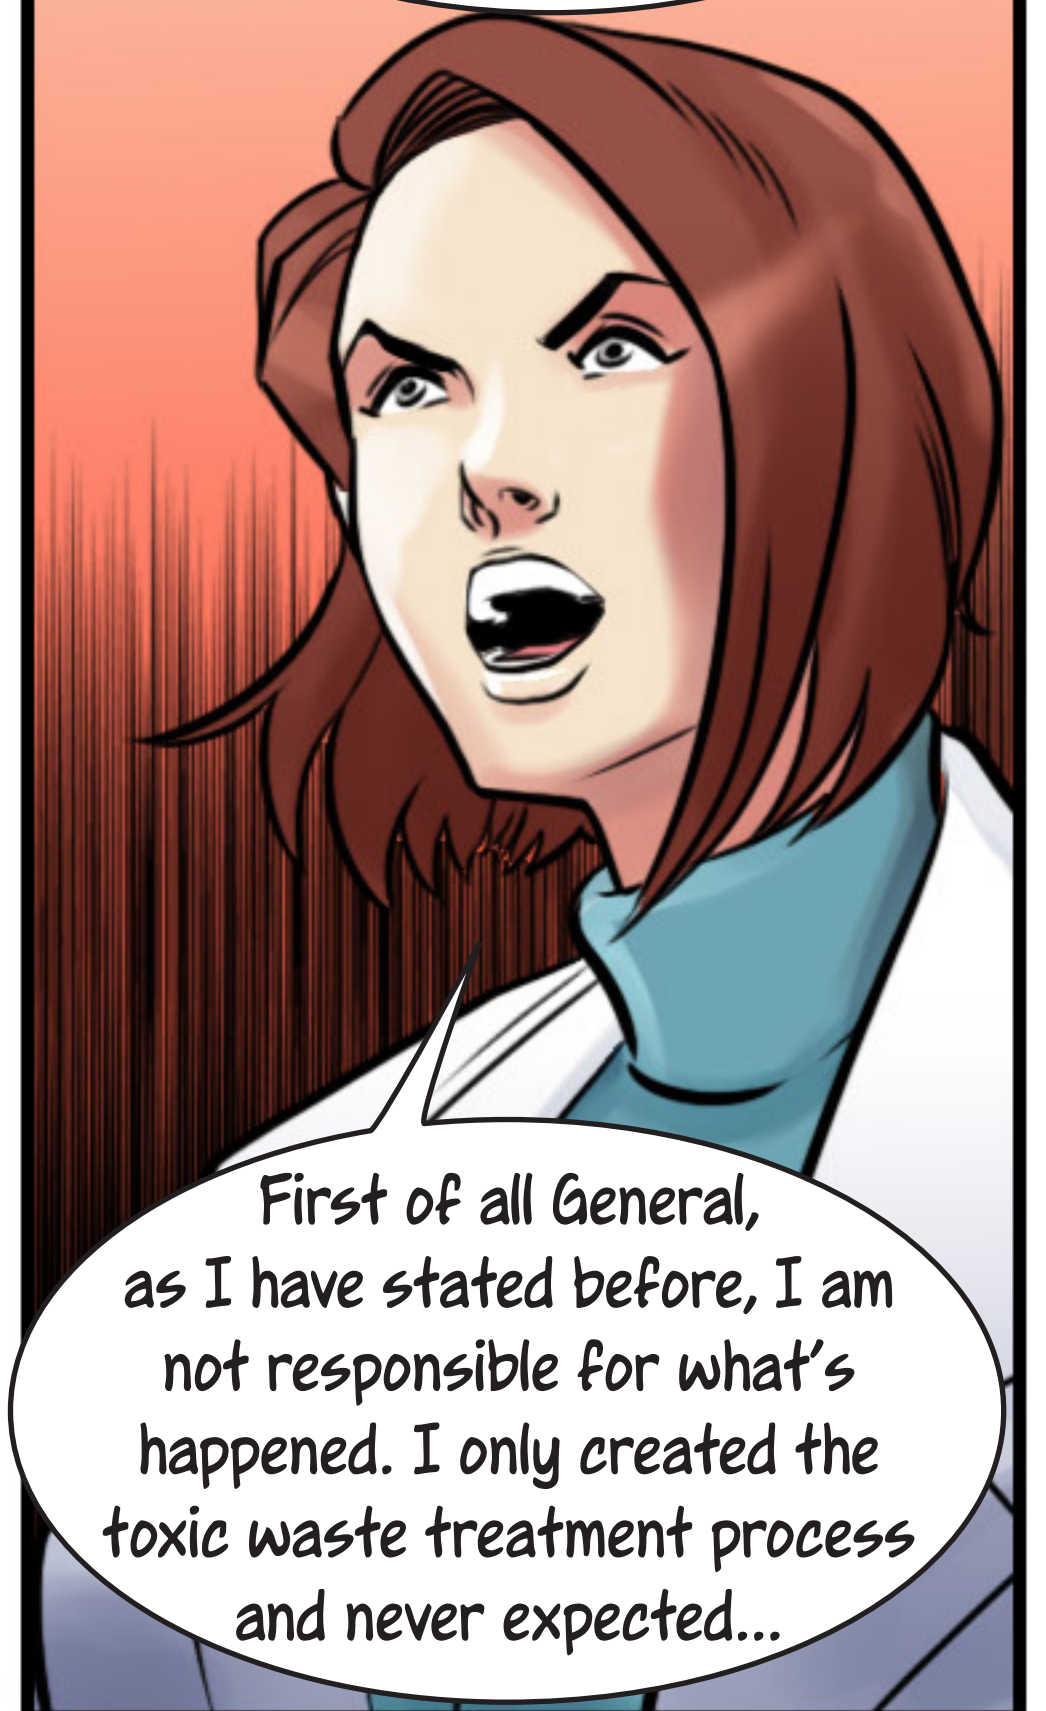

Well sir, her name was... IS Brandi and she's still in the coma. We haven't been able to run any useful tests because she's just as invulnerable. Even the X-rays we tried to take failed because her body is so dense, sir.

Any news from the spies yet?

No sir, at first we thought they were just waiting to get away without being discovered but it now seems that they've become loyal super slaves of hers. We still have no idea how she's even transforming and controlling people.

Well that just leaves you, as the person responsible for all this I hope you have good news.

First of all General, as I have stated before, I am not responsible for what's happened. I only created the toxic waste treatment process and never expected...

Save your excuses woman, just tell me you've made progress in the experiments.

For the last time my name isn't WOMAN, it's Cheryl! But you will call me DOCTOR Williams or I will...

I'm in charge here and I'll call you Bozo the Clown if I want! Now give me a report or I'll have you locked up for the rest of your life!

What!?!? But... Arrrgghhh! Fine! No progress with the experiments. I've watched the recovered security footage from the waste plant and recreated every possible condition.

But so far, none of the soldiers we've exposed to the waste has shown any sign of change or...

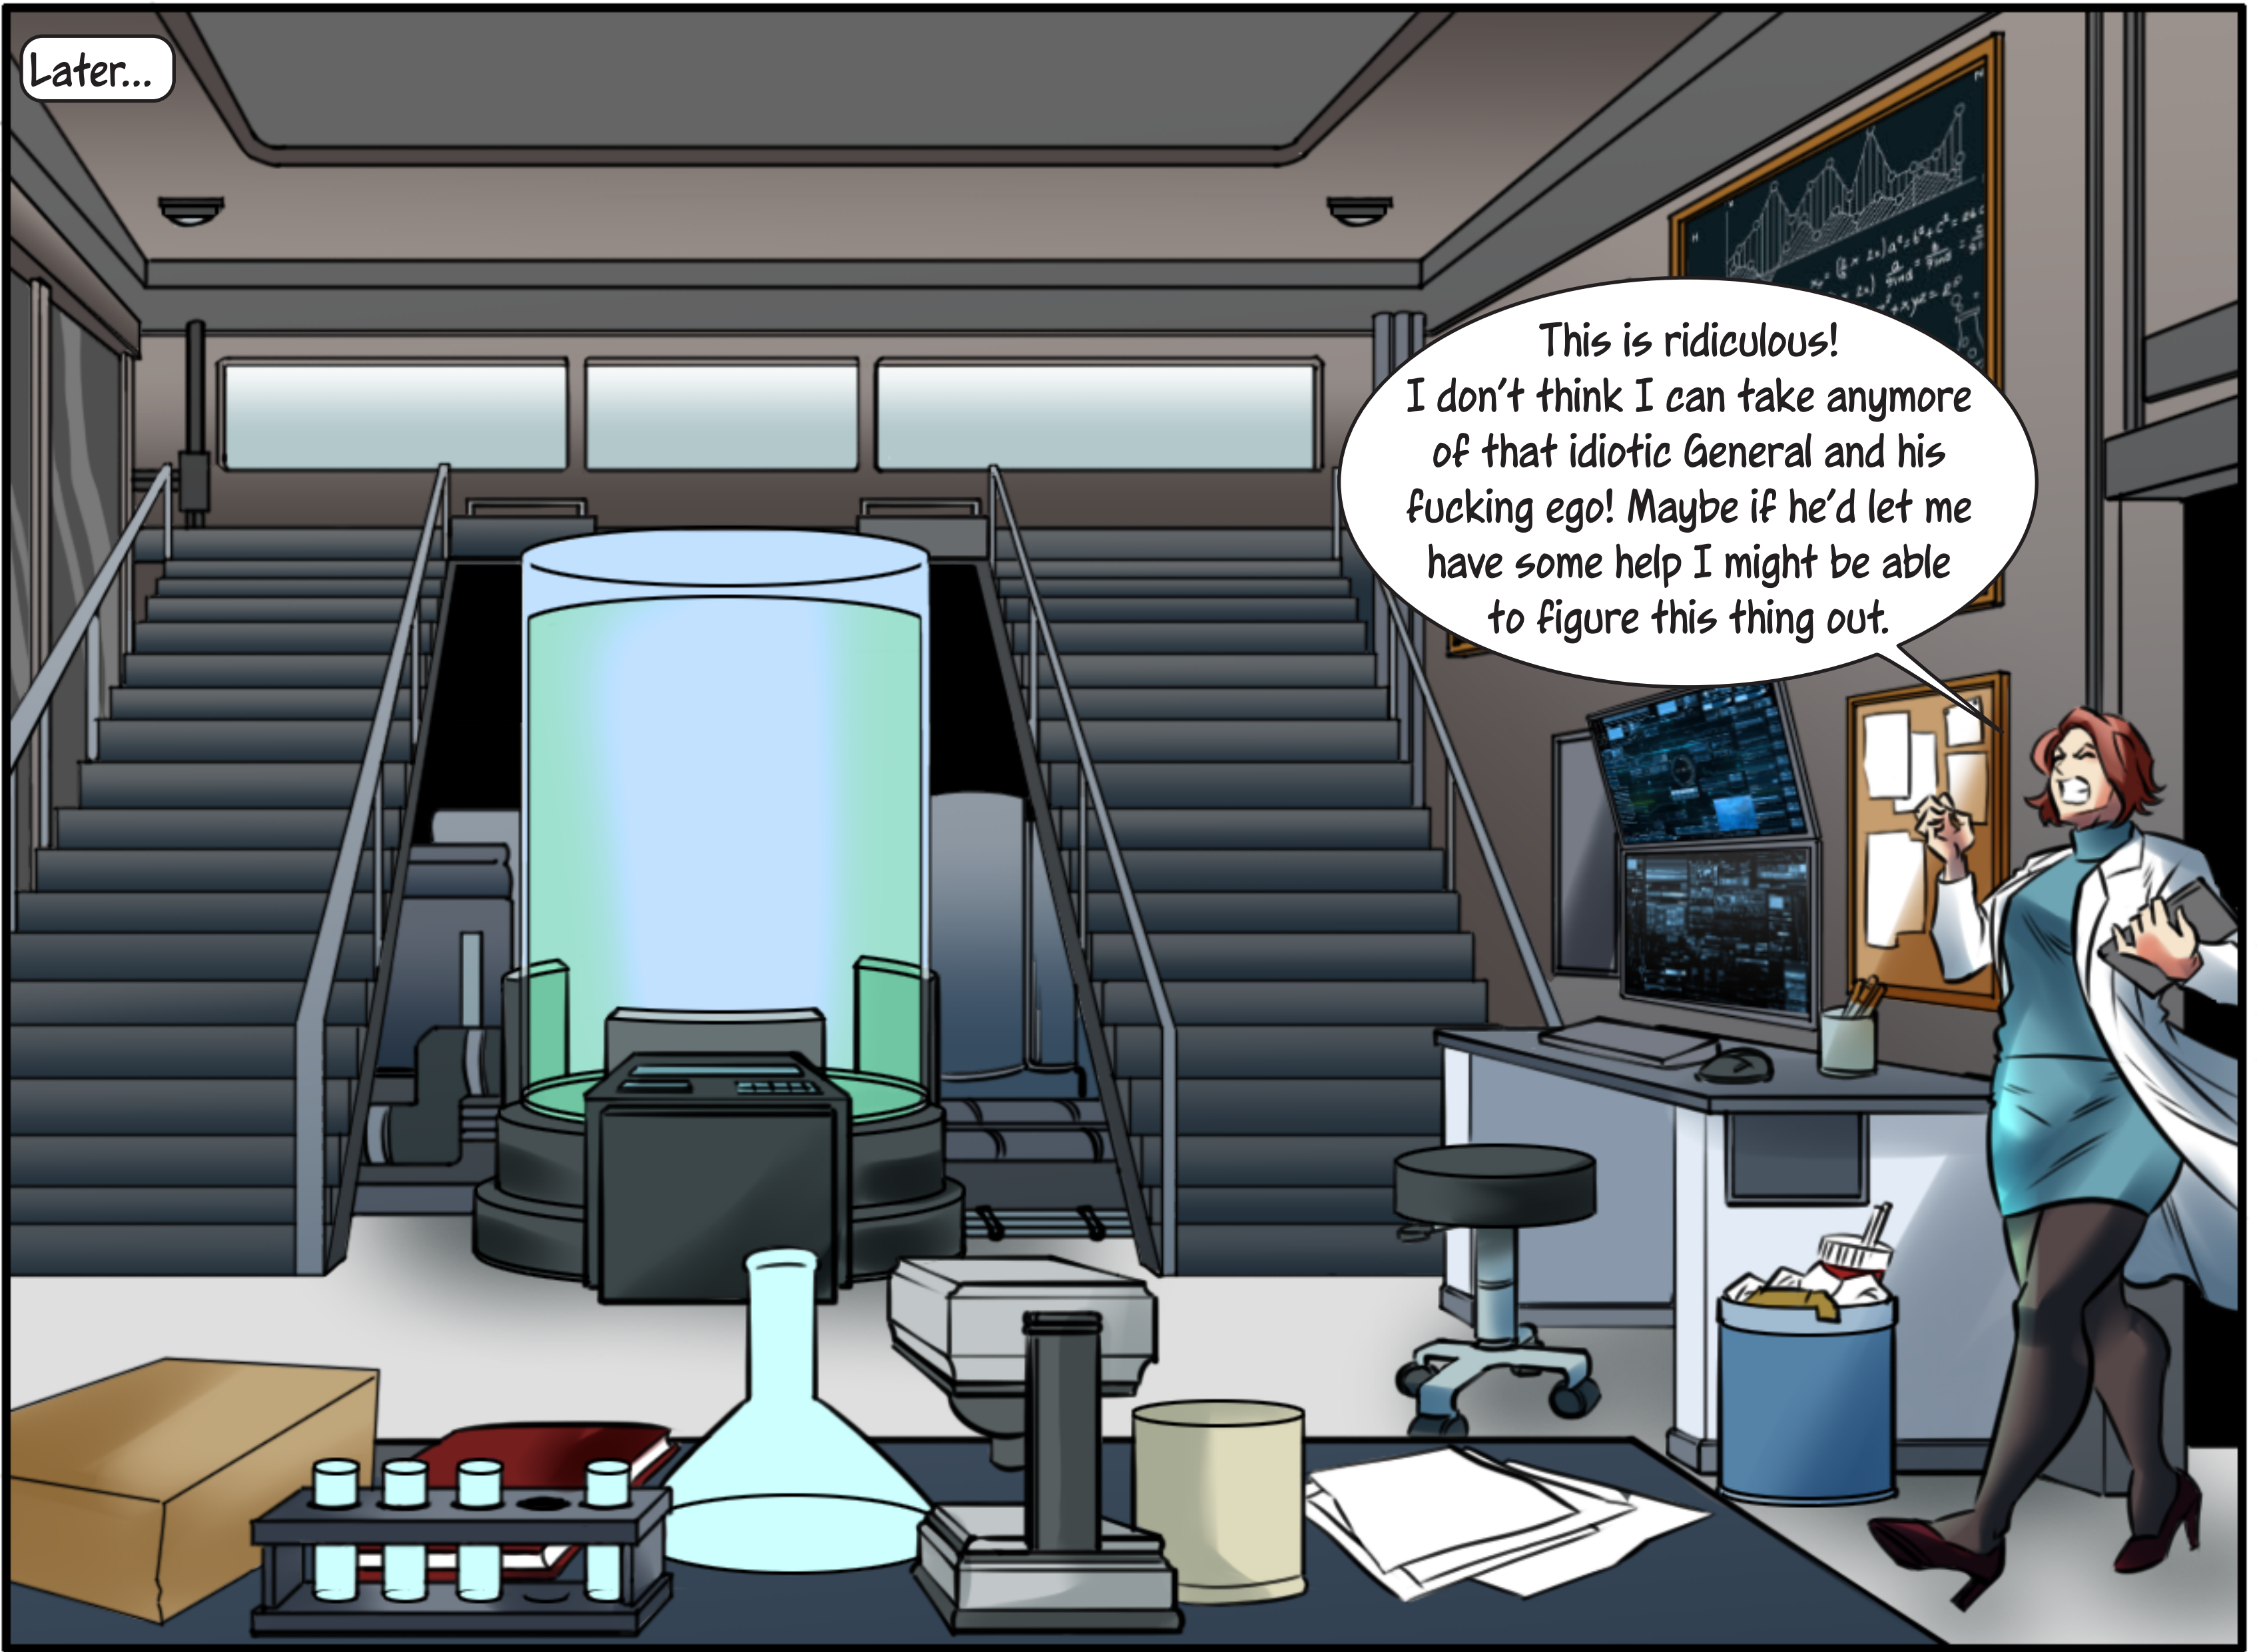

Damn it woman, we're at war and we're losing! This Lucy woman has recently taken over the governor's mansion and has practically turned it into a super slave factory!

SLAM

Her army is growing by the hundreds each day and we have no way of stopping them or even her for that matter! We need our own super humans! We need this to work! Now get back to the lab and do something!

Later...

This is ridiculous!  
I don't think I can take anymore  
of that idiotic General and his  
fucking ego! Maybe if he'd let me  
have some help I might be able  
to figure this thing out.

Well standing around here  
talking to myself isn't helping  
either. I better get a sample  
of the waste and try to figure out  
what we're doing wrong.

Hmm... Maybe it was a  
mistake to make the container  
out of glass, or maybe Lucy and  
Brandi were wearing some kind  
of perfume that... Shit,  
I forgot my gloves.

CRRK..

Oh well, not like  
this stuff works anyway.  
Still I wouldn't want to get  
any on...

Meeeeeeaaaagghhh!

Oh no!  
I lost my balance and fell in!  
Can't... reach... the top! FUCK!  
It's like being in quicksand! I'm  
being pulled under... HELP!

\*COUGH\*

I'm ALIVE!  
But... where's the waste! What's  
happening to all the...

Oh shit! I

absorbed it all!

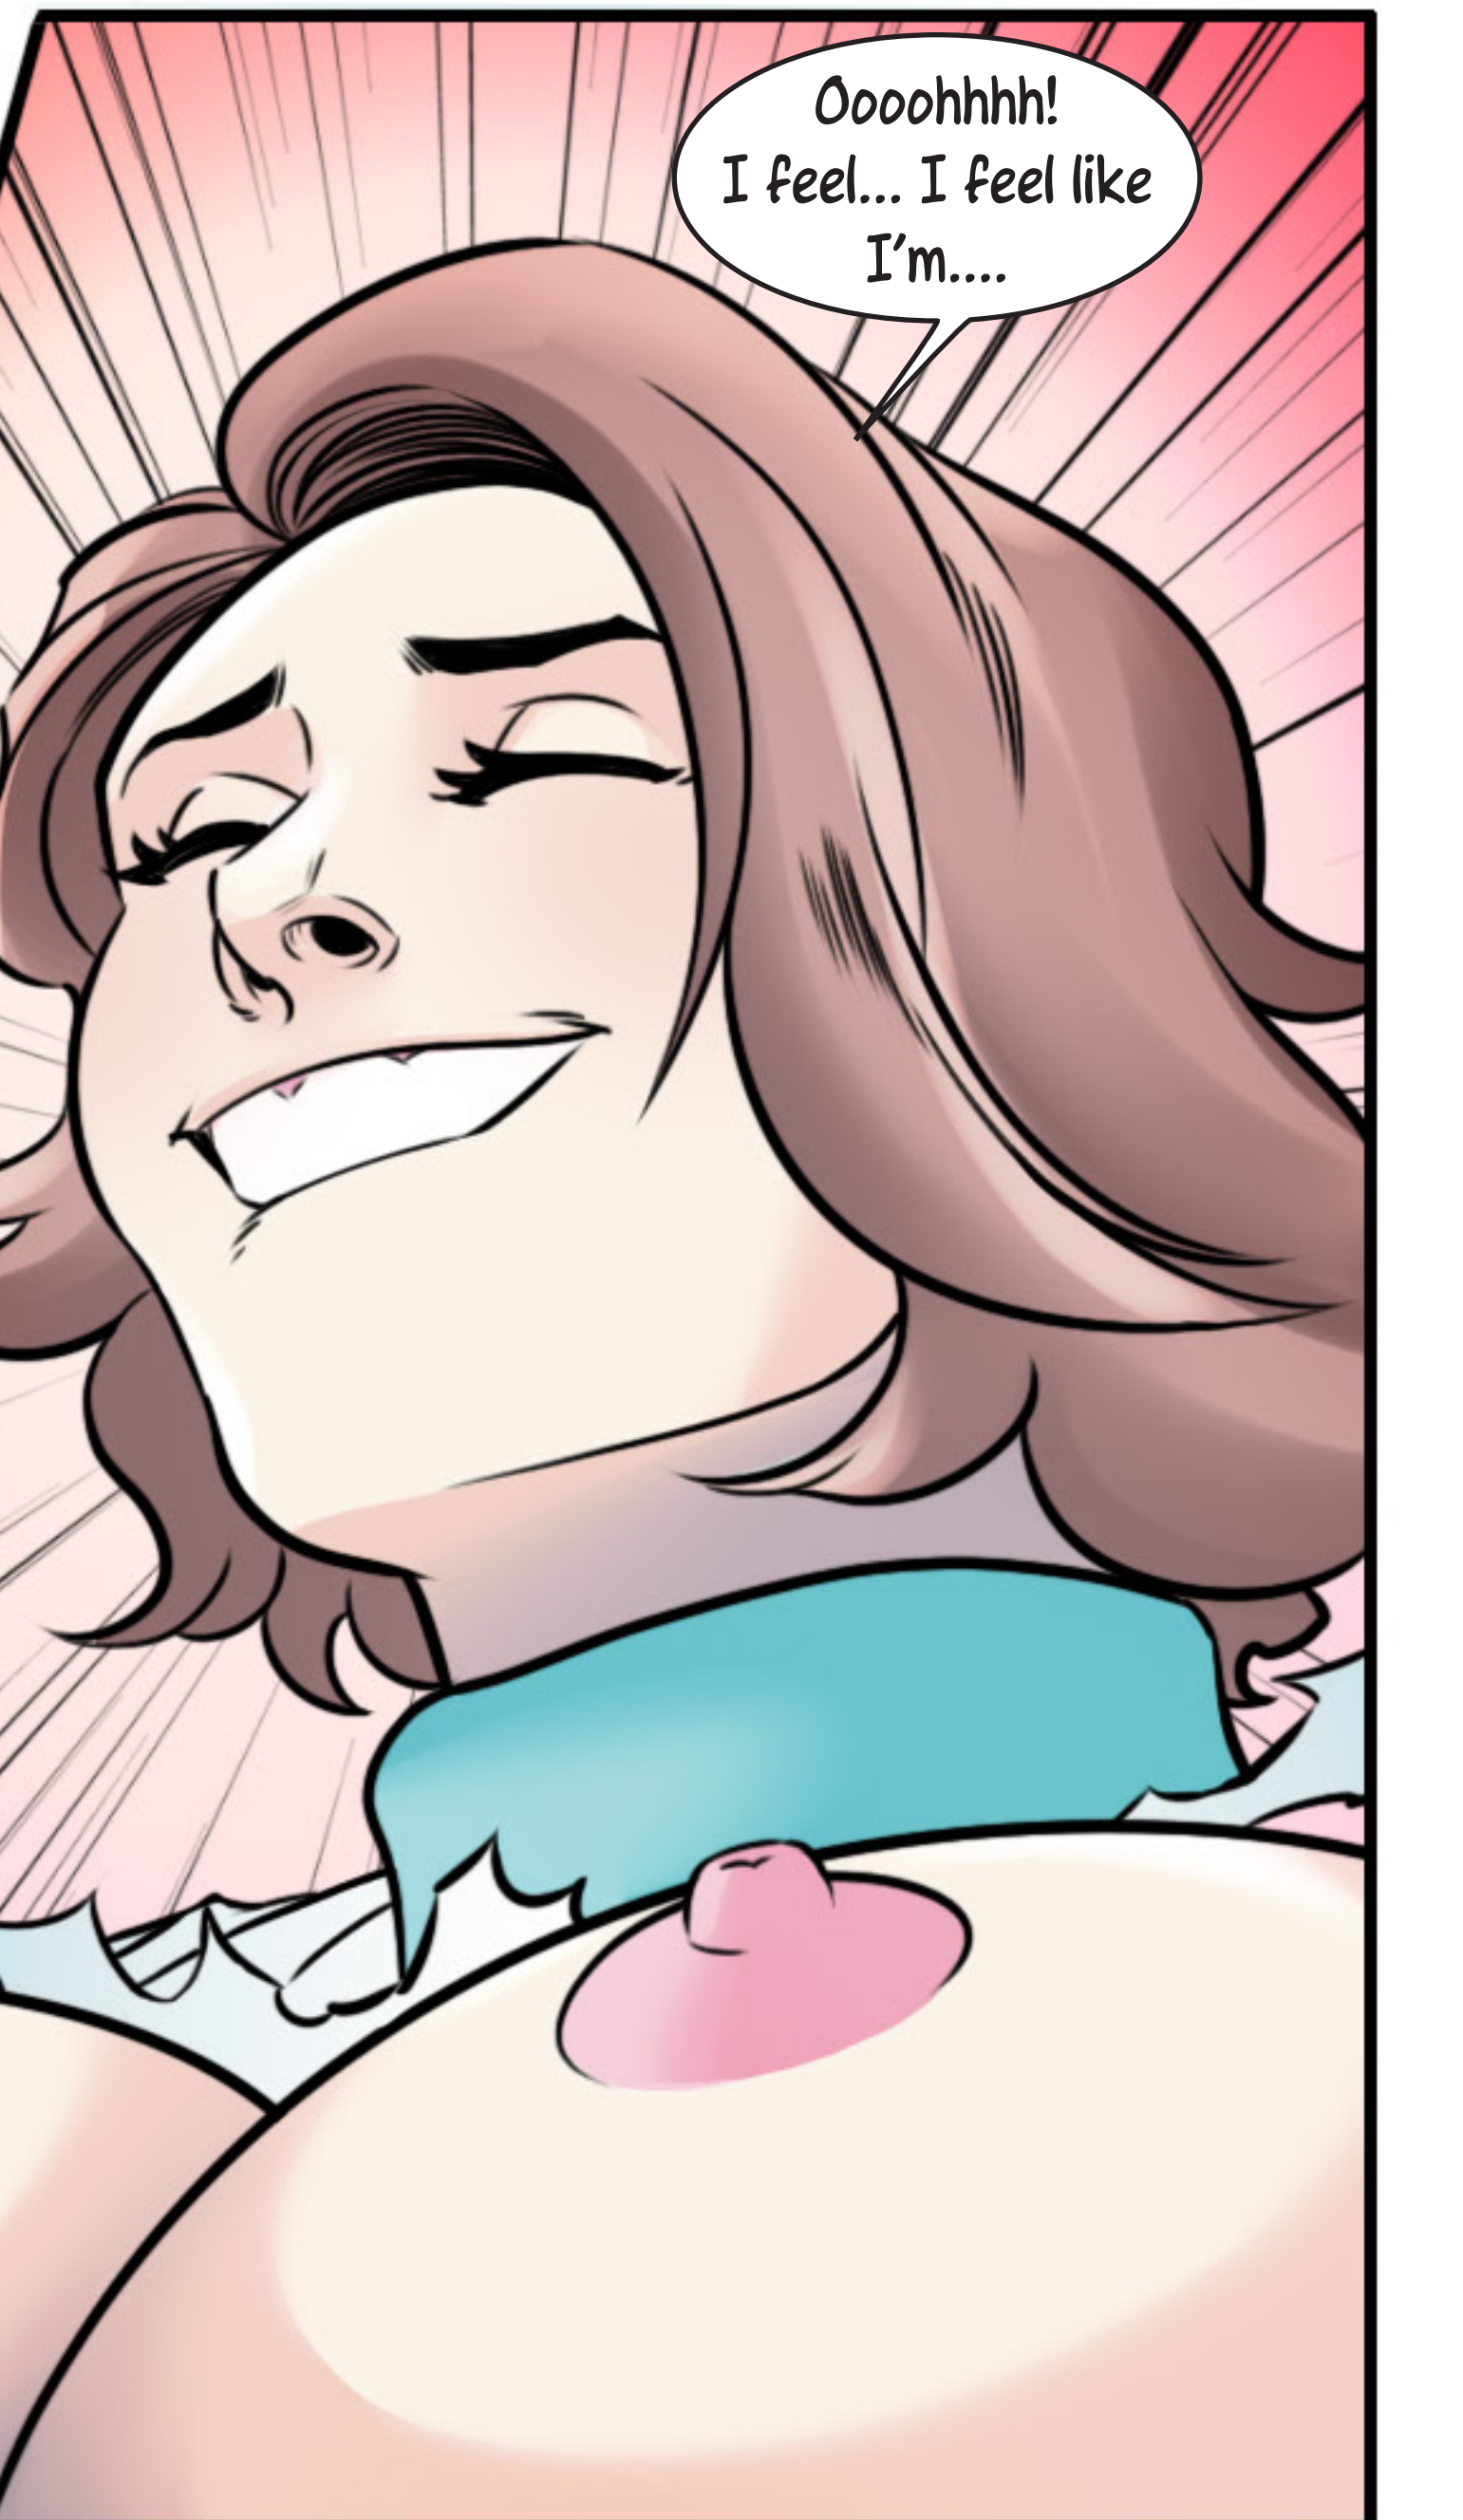

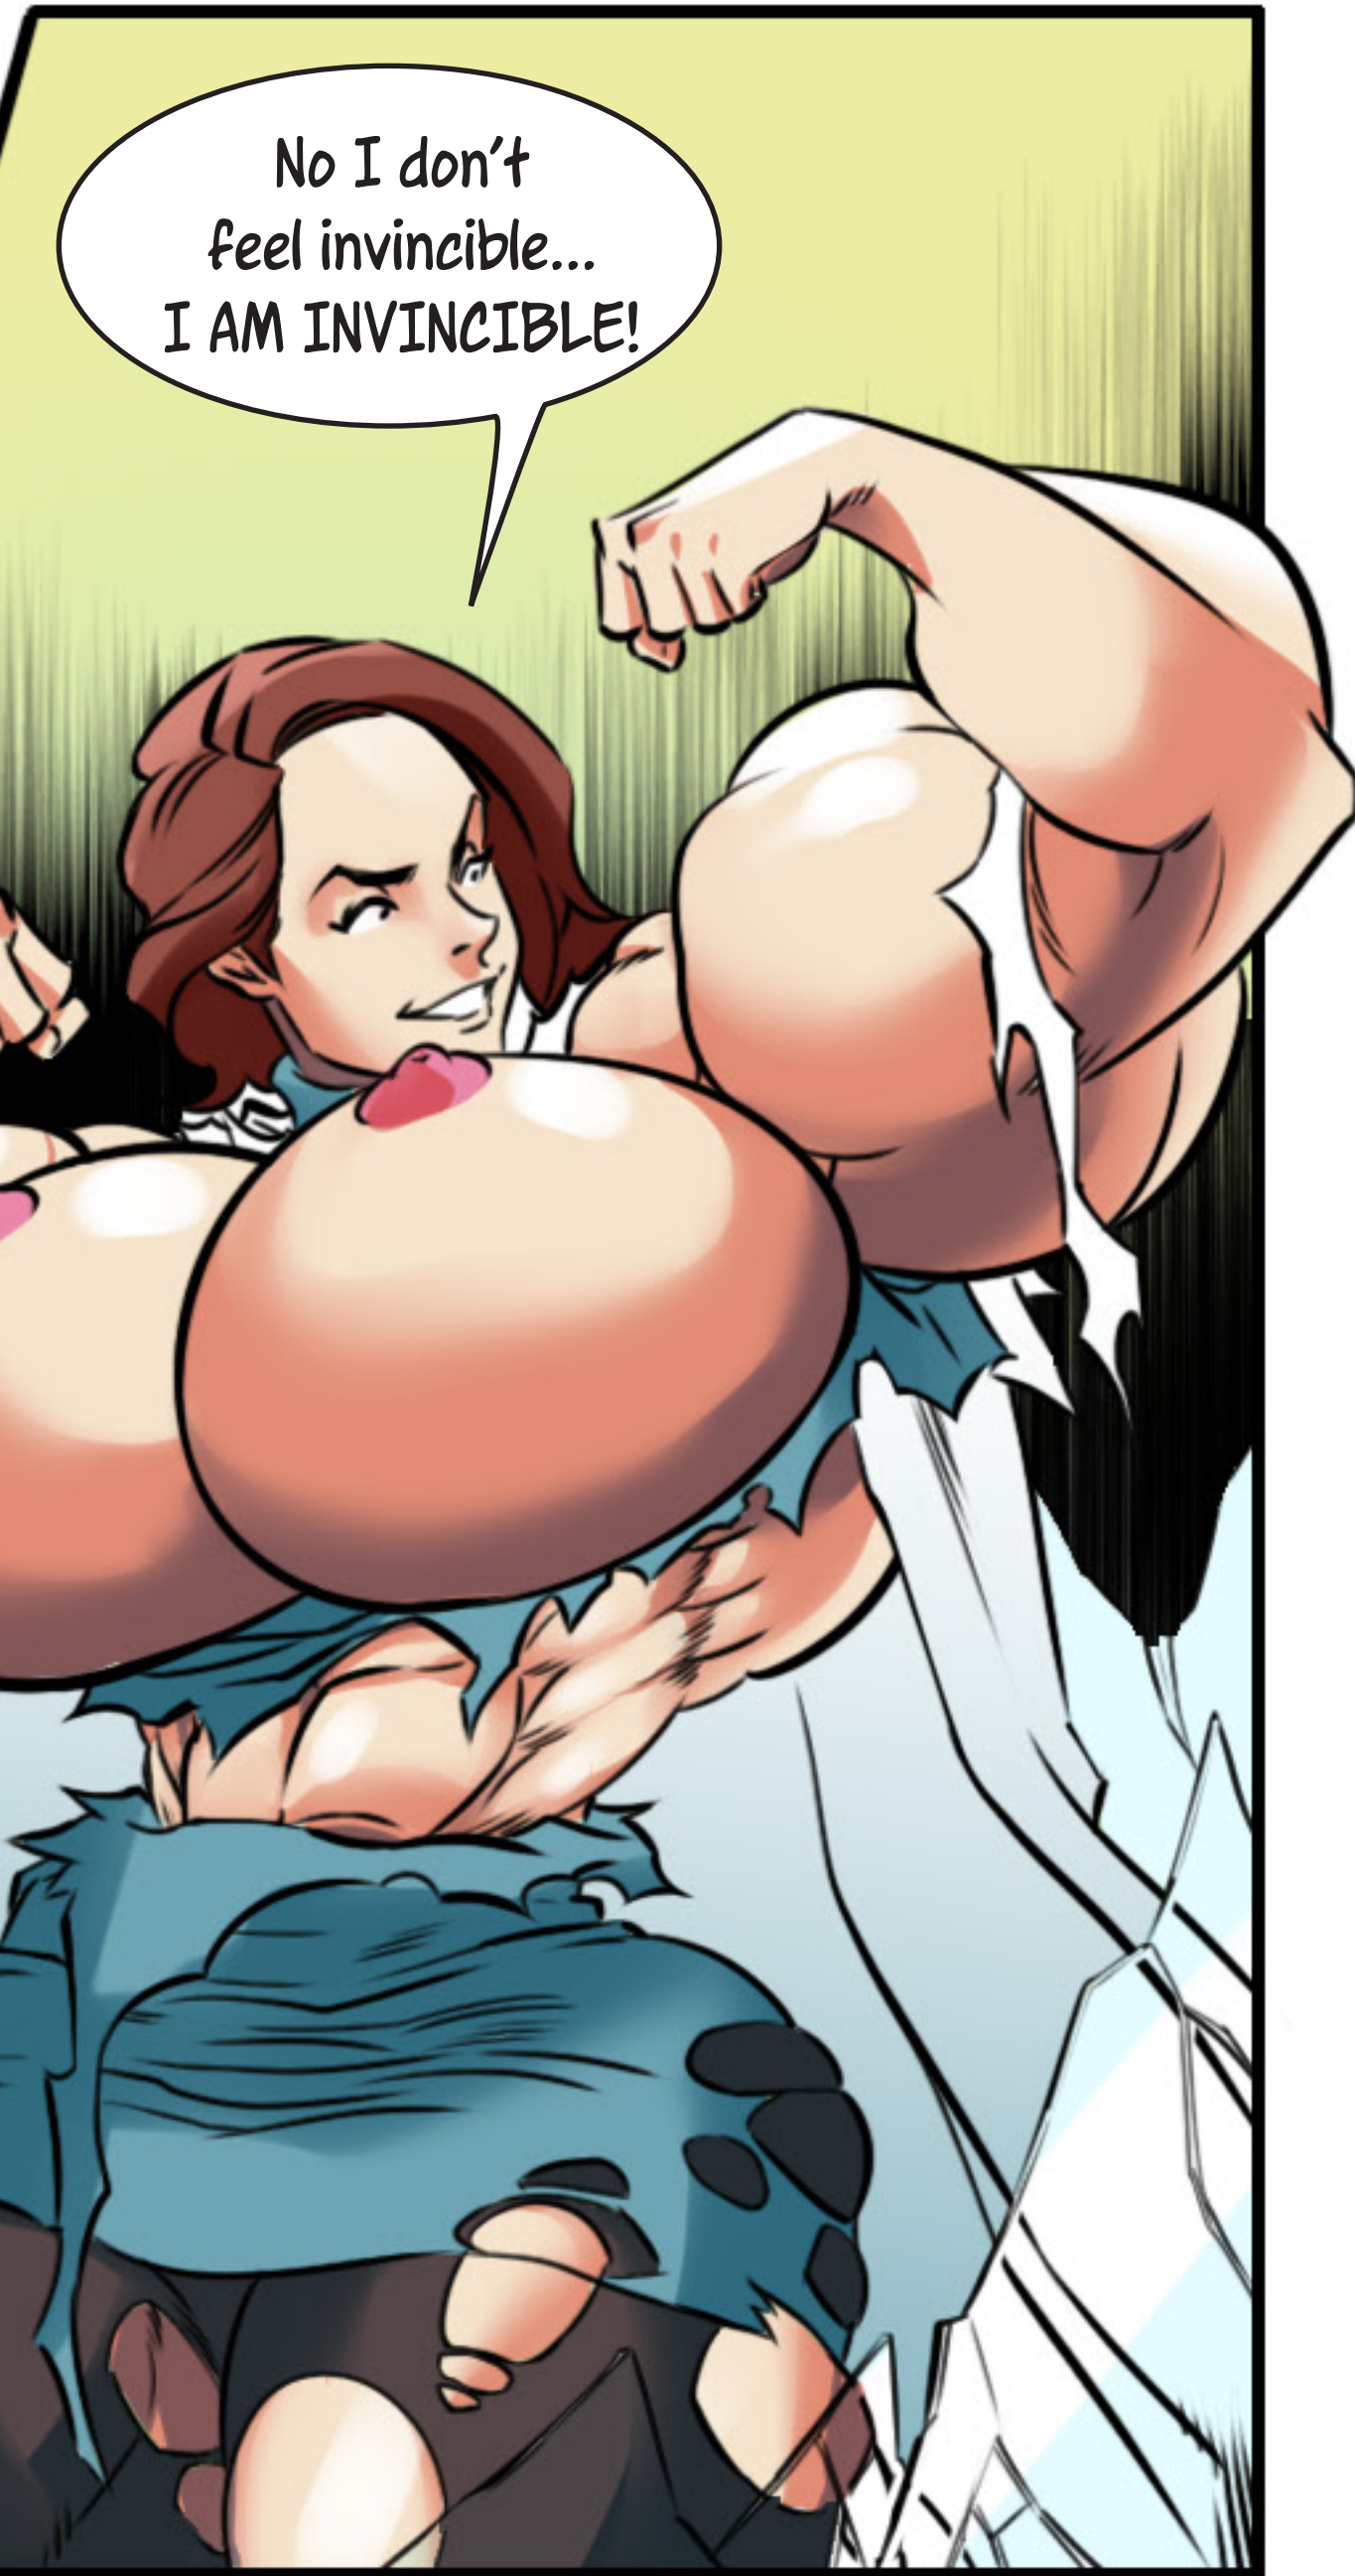

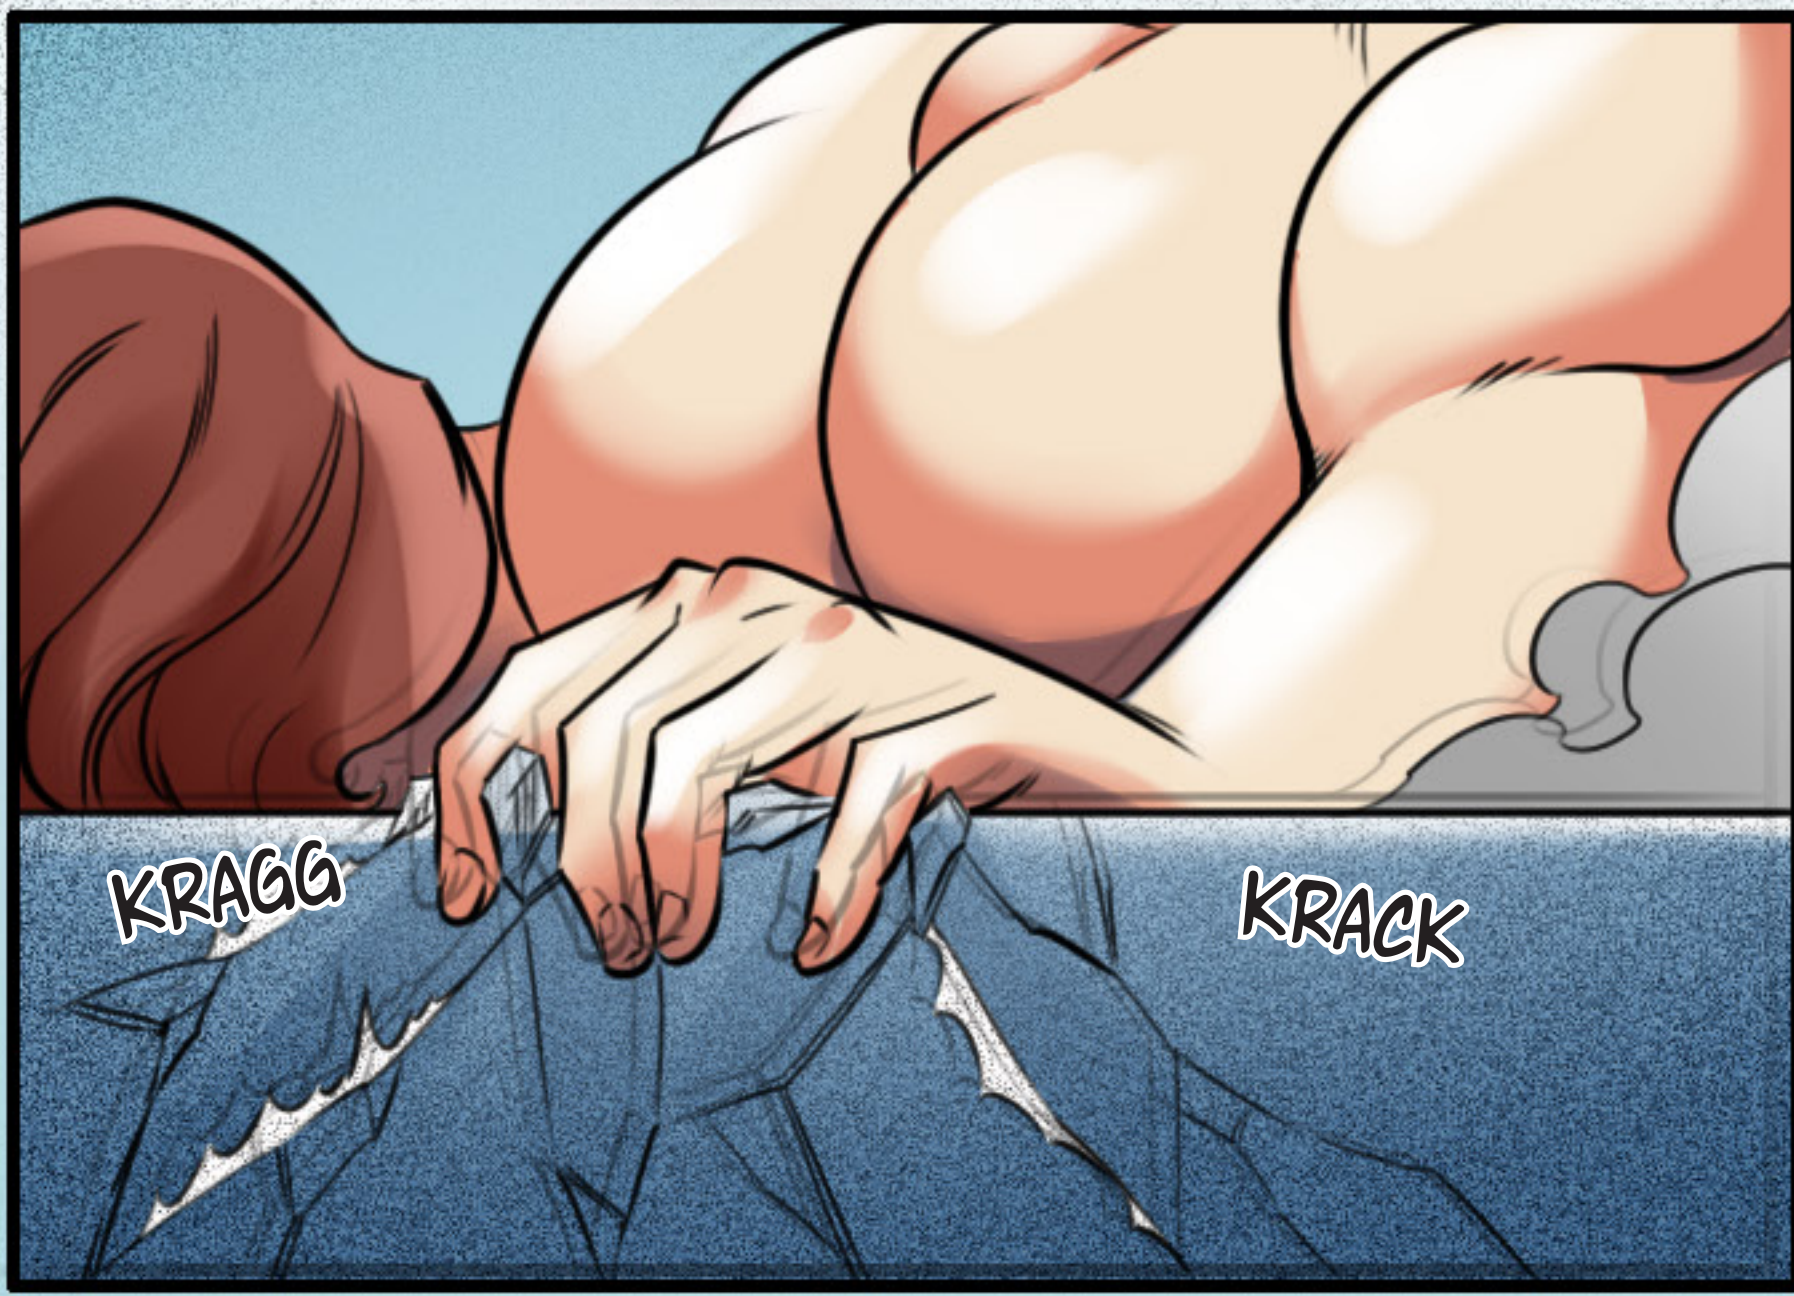

THE POWER!  
OH FUCK YES!
