Dear friends,

during my internet researches I came across a self-bondage story on a horse, which completely fascinated me. I really wanted to try it out. However, I modified the story a little bit and it developed into a totally CRAZY action.

I wish you a lot of fun with this little story, but I would also like to advise you against doing such experiments yourself. Just be content with my experiences.

Your Tawny

Again, Berseh had to go abroad for some days to shoot. I'm so used to our evenings together, I really miss something when she's not here. So, I go to bed early and take my notebook with me. Sure, I chatted with my darling for a long time, but after that I searched the internet a little bit for variety. And by chance I came across a page where a short story about self-bondage was presented. A very special kind of self-bondage. Being helplessly tied up on a horse and ridden around naked for hours.

I couldn't get that story out of my head. I could no longer fall asleep, but imagined what it would be like if I carried out this experiment myself. A plan emerged as to how I would implement this experiment. In the story, the girl was not tied up enough for me and otherwise I would put in a few harder bandages. In principle I have everything I need and it is only a little tinkering work necessary to make the project a reality.

I briefly thought about whether I wanted to do it to my beloved Berseh, or whether I wanted to put myself in this position. If I had to wait for Berseh, I would have to postpone the project for some time until she is back here with me. I'm not sure if I would exceed some of her limits with this project. I would also like to experience this by myself. On the other hand I must admit that the thought about doing it by myself arouses me very much. I'm sure if she were here, she'd try to talk me out of concern, not to do it. I know ... nasty and crazy Tawny ...

The next morning, I go to our garage and get the saddle. I am thinking about what conversion work is necessary on the saddle. In the story the girl had only used anal and vaginal plugs. Sure, that's a start. By the permanent up and down movements at the back of the horse this has certainly been a nice experience for her. But it's a little bit too few for me. I'd also like to have an embedded vibrator. For sure I also have to install it in the saddle. Thank God I have a sufficient assortment and tools.

And with the self bondage cuffs, I can organize the bondage. I'll connect cuffs with chains on my belt. I will also connect two chains to the side of the belt so that I can increase the stability and not fall over sideways. From the saddle handle I will also connect a chain with the collar to fix myself to the back. I think I will also provide a mount for my mobile phone on the saddle and record the whole experiment to memorize the whole experiment for me. Actually... since I'm recording it... why don't I just stream it to T&T-Vision? Oh, yeah, I'll do that....

The saddle is ready. It looks really tasty. Maybe I should do a test ride here in the garage. mmmmmhhhhhhhhhhh ... why not?

Well then ... let's get up on the saddle and very slowly sit down ... oh my God ... it is big ... pheeewww ... and now sit fully on it, as it will be then at the ride out ... good Tawny ... that is really extreme ... still quickly turned on the wand ... and now I simulate the trot ... up ... down ... up down ohhhhhyeeeeeaaahhh

mmmmhhhhhhh that is soooooo cool yeeeeaaaahhhh madnessssss

The test step was a complete success, if I may only say so, but ... I can't stand it all day. The vibrations must not run permanently. I think I'll switch these randomly on and off. Then it should be bearable.

My dear Jackson, if only you knew what crazy ideas your mistress has. It is important that I can completely rely on you. We will be tied to each other for a whole day and you can carry your mistress for a walk.

It will be best if I ride around the paddock with Jackson and check whether anything could become dangerous for me during the execution of my adventure. Now I still have the possibility to prevent a little here.

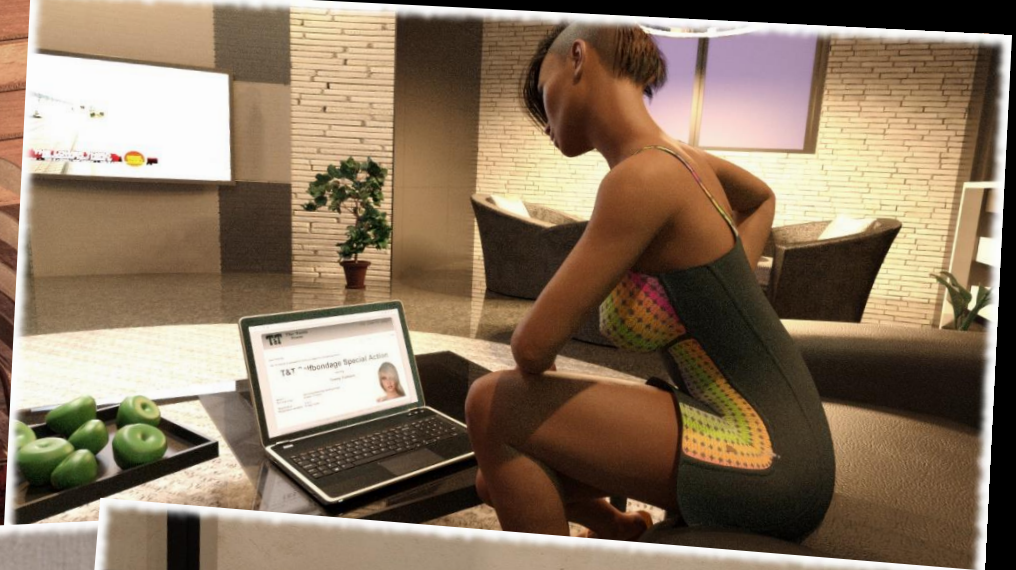

I think the paddock is safe enough for the experiment. To be on the safe side, I will close off the other parts from the stable. And so that the people who want to follow the streaming can see enough, I will mount cameras with motion sensors at the 4 corners and in the middle of the paddock which will follow me automatically as well as a corresponding lighting system. And in the stable we also need 2 cameras to show my preparation action for the experiment. Ok, and now I'll instruct Sheila that she will get Jackson used to the new saddle and I'll post on the T&T website and announce the action.

After completing my feasibility study, I drove back home and sat down at the computer to publish a special announcement on the T&T website. But I only announced a vague title and the time when it will start. And also the expected duration of the action, which will probably make some very curious.

CRAZY

Immediately after the release, a lot of feedback arrived in the chat room and many curious questions were asked about exactly what it is, who is there, if Berseh is there and much more. But I didn't give any details but made the people much more curious. Also my darling Berseh wrote to me immediately and I postponed my response to our common video chat tonight. I am pretty sure she is particularly worried. But it should also be a surprise for her.

After I answered all the nice and of course curious comments, again I lay down with the notebook in my bed and started the long awaited video session with Berseh. Of course my darling also read my announcement and wanted to know more. But even with her, as hard as it was for me, I stayed hard and didn't tell her any details. First and foremost I would like to surprise my beloved Berseh with it. I merely told her that it was a self-bondage session staged by me. Above all I know, if I had told too much, that she worries too much about me again.

The next morning at breakfast Robert asks me regarding to my announcement from yesterday if Berseh is already back and if she will doing this session. I explain to him that Berseh is even longer away and that I intend to act in this performance myself. Robert wanted to cancel his day off immediately to be able to help me, which I thankfully refused. Sheila, however, I ordered today to accompany me to the paddock. She is supposed to get Jackson used to the unusual additional equipment while I make various preparations. But she still has no idea what I mean by that.

After breakfast I drive with Sheila to the paddock and introduce her to her task. It is important that she get Jackson used to the vibrations of the additional tools and also to her reaction at the climaxes. Sheila has all day working with Jackson. I hope Jackson won't have any problems with it tomorrow when the experiment starts. I'll get to work myself and install some extra equipment that I'll need tomorrow. This includes the installation of several streaming cameras. Sheila, as a self-confessed nymphomaniac, is of course enthusiastic about the task.

I started to prepare the paddock for the live show and set up masts with spotlights and cameras. The cameras have motion sensors and will follow us automatically. I helped Sheila into the saddle and she started Jackson's training. The first round she did without vibrations and then she gradually adjusted the vibrator to different levels. Jackson was surprised by this unusual massage but kept calm and somehow I have the impression that he enjoys it too. Sheila enjoys it anyway. I noticed it from her loud moaning and her aroused screams in pleasure.

The assembly of the masts with the cameras and the lighting is progressing rapidly. I go to Sheila and inquire about her well-being. If I have counted correctly regarding to her groaning, she has easily already 5 highlights and I ask her if she doesn't want to take a break. Obviously she is completely in her element and negated. Also Jackson seems to like the situation very much. So I get back to work and finalize the preparations.

And now, put everything in the right height so that I can reach everything from the horse tomorrow. Let's see, do I have everything? Chains, Carabiners, Posture Collar, Cuffs, Blindfold, Head-harness with Plug ... There was something else? ... Oh yes, the breast harness with the pumps. Ok, I'll take that with me tomorrow.

And the preparations at the paddock are finished. Also Sheila seems to be really finished. I am glad that Jackson accepts the vibrations so calmly. Well then, let's pack up and go home. Also there I have to finish some things for tomorrow. I am also looking forward to the video chat with my beloved Berseh.

Now lets test if the cameras are connected correctly and what the pictures look like. It doesn't look so bad and the lighting is fine. The whole paddock is illuminated super. But after the experience with Sheila I have to make some changes to the saddle. Slowly I run out of time. It's only a few hours until the live-stream.

On the paddock I noticed that Sheila was wobbling too much on the saddle. This could become a problem tomorrow in my condition. But this can be solved quickly. I think this pole should give me enough stability.

The last preparation for tomorrow's action is the programming of the active parts like Magic Wand, Dildo and Breast Pump. So what is certainly not good if these run continuously. I will put them all on random. Active time: between 5 and 15 minutes, pause time: between 5 and 30 minutes and also the level should be chosen randomly between 1 and 5. At 9 o'clock the streaming starts with the preparations and the introduction. I think I'll be ready by 11 and then the devices can become active. Oh my God, I feel this tingling again when I think about it. So ... ready ... and now off to bed and call Berseh.

I'm all excited about tomorrow. And what helps better to chill down than a comfortable video chat with my dear Berseh. For sure Berseh wanted to know more about tomorrow. It's really hard for me not to reveal too much, because Berseh and I have no secrets with each other. But it should be also for her a surprise. I must confess, I miss my sweetheart very much and above all with so long shootings, as just now the longing rises in the immeasurable. Maybe that's the reason why I come up with such crazy ideas.

I have to admit that I didn't really sleep well this night before my experiment. I was just too excited. After breakfast I grab Sheila and load the car with the last things. I also give some instructions on how to react in case of an emergency. Sheila will also be on the paddock all day and her job is just to watch. I also go through the checklist again. I think we haven't forgotten anything. The streaming starts in about an hour. I am really curious how many people will be online. I am pretty sure, my darling Berseh will watch the show too.

T&T-vision

TawnyT: Hello dear friends to my live performance. Everything I say is displayed in your chat via speech2text. Everything, what you write in the chat will be also transferred via text2speech and I can hear it in my headphone.
I'd ask you to run a test. Can you please write something in the chat box?

berseh: Hello my lioness, what crazy thing are you up to now?

TawnyT: Oh, my sweetheart is online. Hello darling. Yeah, I admit it's a little crazy, but I hope you like it, too. And text2speech works perfectly, even if the voice itself doesn't really fit.

typewriter17: Holy smoky links, you're going to a lot of trouble. I am already quite curious.

TawnyT: Ah, TW's there, too. Welcome ...

TawnyT: Ah, TW's there, too. Welcome ...

TawnyT: These, dear friends, are my self bondage cuffs. I can set the time in minutes. As soon as the cuffs are closed, the timer starts to run and only after the time has elapsed do the cuffs open automatically. As you can see, I have set the number to 600 ;-)

TazLooking: Wow Tawny!!!! 🤩🤩🤩🤩 You look fanTaztic!!!! 😊😊😊😊

Friends-of-the-O: I'm here to watch, and already so excited. Come on, do it, Baby.....

typewriter17: Ride'em, cowgirl!!!

berseh: What a great, hot outfit to wrap my lovely queen's body. You are just so beautiful

berseh: What a great, hot outfit to wrap my lovely queen's body. You are just so beautiful

TawnyT: But unfortunately, my darling, I have to part with this outfit now 🙄

Coppola76: is true.. you are so beautiful

TawnyT: A warm welcome to everyone who has joined us. So that you can follow everything, I have installed 2 cameras in the stable and 6 cameras on the paddock, which change automatically and zoom there, where something moves.

Ehm ... dear camera can you please zoom higher? ... There is also the mobile-cam on the saddle. But now I have to hurry, because in less than 2 hours the gate opens and until then I have to be ready.

typewriter17: Are you going to wrap yourself in bubblewrap, too? Just in case??

Wow, I never thought so many people would get into streaming. And not only friends are there.

An unknown one even proposed to me. Another one wants a child with me. Strange guys ...

But I must continue now, before the gate opens. The cuffs are now attached with chains to the back ring of my belt and now let's close the belt. The keys to the padlocks I leave all here in the stable in the can. I have to admit, the leather-covered steel from the belt and the chest harness feel really awesome, not to say really horny.

And now the time has come to sit in the saddle.

... and slowly lowering ... oh my God ... that is really intense. I will now try not to move much with the pelvis and hopefully Jackson is also calm during the preparation. That feels already now so horny, how will that be when the devices switch on?

Berseh has a break from filming on this day and has the opportunity to watch Tawny's streaming show. Berseh has no idea what Tawny is up to and what she sees is somehow arousing on one side, but on the other side Berseh is worried about her darling.

In her distress she calls Em: "Hello Em, did you hear what Tawny is up to?" Em: "Hello Berseh, yes I heard it".

Berseh: "Can you do me a favor? I'm too far away to check it by myself at the moment, but could you stop by at Tomsen-Manor? I'm very worried."

Em: "Yes, that's a good thing. I'm on my way home right now, so I can fly by there and watch a bit." Berseh: "You are a treasure Kiss"

Strange, I hear a strange hissing. I've never heard that here before.

If Tawny would look up, which is hard to do because of the roof and her posture collar, she would see Em floating around over Jackson's Field.

MTC: I am sure Em is hanging around somewhere to keep an eye on things...

Just to ease their minds. No worries, berseh, about Tawny.

T&T-vision

berseh: My darling, do you really know what you're doing? I am very worried about you ...

TawnyT: My darling, don't be worried. Try to enjoy what you see.

The breast pumps are now ready for use. I can already feel a slight suction, which is permanently active, so that the contact of the pumps with my breasts always remains established.

From 11 am the pumps are controlled by a random generator, which selects the suction strength as well as the duration. The same applies to the other two devices in the crotch area.

The neck is still fixed with the rod behind my back, so that I take an upright position during the whole experiment. The same applies to the chain, which is now more or less redundant. But I love chains.

Paws4Thot: I'll offer that Master Paws would be entirely happy to be on site as a safety person.

TawnyT: I would be happy if you would come to Tomsen Manor and in addition to Sheila take care of some security.

Dear friends, this feels wonderful. I can't hear you now because I had to take off my headphones to put on the blindfold and the head harness. Unfortunately, I have to stop commenting now, because as soon as I put on the head harness an inflatable plug comes into my mouth, which will make it impossible for me to speak. From this point on you maybe will only hear moaning and whimpering from me. I have no idea how the Speech2Text will translate this.

But you can continue to comment and I will have all your input read to me for the entire duration of the session. So, keep your fingers crossed that everything is going well. I will speak again in about 11 hours.

berseh: Good luck my darling, I am with you and I love you.

 **berseh:** My darling.. How will you call for help gagged and blindfolded if (god forbids) something goes awry, and I'm so far away? I know that being the perfect planner, organizer and engineer and domme you will answer that everything will be fine but don't expect your kitten to be relaxed: You are too precious to me! ❤️

 **typewriter17:** Holy crap, that looks extreme.

 **berseh:** I think my lioness is really crazy. But nevertheless I find this somehow horny.

 **Coppola76:** I love this experiment

 **Paws4Thot:** I suppose this is on the premises of Tomsen-Manor

 **TazLooking:** I think I'm going there.

 **Paws4Thot:** Me too

 **typewriter17:** Me too, I'll take beer with me.

Oh, my God, they all really want to come. I wouldn't have expected that. It's really torture to hear the comments of others and not be able to answer. Maybe I should take off the headphones. Oh my ... I am so aroused. Now comes the last and most important step ... tie myself up. I can almost not concentrate. The dildo and the plug already exert their effect, although they are not even switched on yet. But just the fact that Jackson is constantly moving is enough. In addition there is the gentle sucking on my breasts. OK, let's start with the left foot ... phew, that's hard if you can't move properly. And clack ... the cuff is now locked for the next 10 hours. Oh god, this is sooooo horny ...

T&T-vision

TazLooking: Sexiest cyborg I have ever seen!!!! Is Sheila still setting up the BBQ? I will see you at the Manor instead of waiting for a phone call. :) 😊

I think Em is standing by also. I am pulling for your safety dear Tawny!!!! 🙏🙏🙏🙏

I am now offline and see you at Tomsen Manor ...

berseh: I don't feel easy with this. And I don't like when my 's face disappears under the blindfold, the gag, the earphones *sulking* *pout* Except it's not like I can do anything about it, right?

atomicwick: Is there some kind of morse code you can use if you get into trouble? Like a bondage S.O.S.?

typewriter17: Beer and a big fluffy pillow to plop under you if and when you fall off the horse

Coppola76: She looks so gorgeous in her restraints.

 **atomicwick:** Is TW still there?

 **typewriter17:** No, I'm also offline and on my way.

 **Coppola76:** awesome ..

 **berseh:** My Mistress, can you nod your head if you're all right?

 **OMG:** I saw her nodding. All right , you can be reassured.

 **Blush13:** I'd love to trade places with you.

 **Worry:** I am so worried. This is crazy. Why do you do such things?

CENTER CAMERA WEST

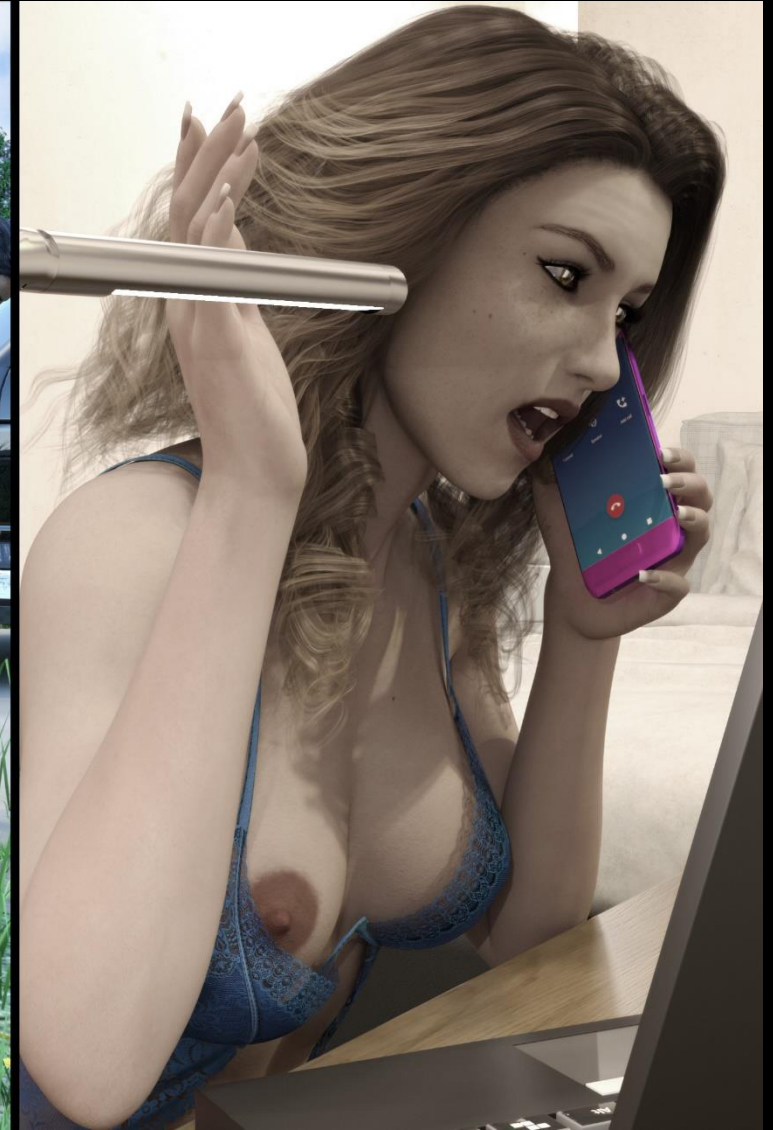

Actual time: 11:01 am

The first visitors, Wick, Taz and Master Paws, who have recently announced themselves in the chat, have arrived and are watching with excitement as Jackson's gate opens and he trots out with the helpless Tawny on his back. Sheila takes care that nobody enters the paddock and might irritate Jackson. But she is just as fascinated by the sight as the 3 gentlemen.

Due to the long preparation Jackson was already a little restless and is now happy to finally be able to move again. And so it comes that he turns a few laps at a fast pace right at the beginning. Tawny is lifted from the saddle again and again by the gallop, which causes her to be moved up and down on the equipment mounted on the saddle. However, the movement is limited by the collar mounted on the pole, so there is no danger for her falling out of the saddle. Tawny's breathing gets faster and faster and after a short time she reaches her first climax.

Em: "Hello Berseh, Em is calling." Berseh: "Oh, hello ... and how is my crazy lioness? Is everything all right? Is she all right?"

Em: "Crazy lioness, you can say it loud. What she's going through right now is kind of crazy. But you can be reassured. There are enough people here who can intervene in an emergency. I've seen TW coming in his truck and behind it is a bus full of Tawny fans. I will leave soon."

Berseh: "You can't do that. What if something goes wrong ...". Em: "You can definitely get in touch with your friends here via chat. Paws is activating his notebook right now."

TW took his hot dog stand and some drinks with him in wise anticipation and set them up. Tawny has not yet noticed what is going on around the paddock. Sheila takes care that nobody enters the paddock. Thank God Jackson has now reduced his urge to move. Tawny's devices, which randomly switch on and off, make sure that her arousal permanently stays on a high level.

T&T-vision

Paws4Thot: I'm now with some friends here on Tomsen Manor and it's fabulous what's going on here. I bet Tawny didn't expect that many visitors.

berseh: That's enough, I can't stand it anymore, I'm coming ...

User berseh logged off

OMG: Is TW there too?

Paws4Thot: Yes, TW is here selling hot dogs, Taz is here, AtomicWick is here, but only I have the notebook turned on.

Coppola76: Wonderful, I'd love to be there too, if only it weren't so far away.

Blush13: Are there chops too?

Granny69: Have you looked at the weather report yet? It is said that it should become very unstable.

CENTER CAMERA WEST

Oh, my God ... What have I done? I just wanted to do one session here alone. But what I get from the chat is that it degenerated into a carnival. TW sells Hot Dogs? How many people are here? Maybe I should imagine I'm in "Hitchhiker's Guide To The Galaxy" ... I don't see any people, so they can't see me either ... where is my towel? Thank God Jackson has calmed down a bit. The gallop at the beginning was violent. ... I don't know how many orgasms I already had this is so *buzzzzz* ... ohhhhhh ... the vibrator starts again ... ohmyyyy that is ... soooo horny yeaahhhhhh ... and now the breast pumps phewwwwww ... And Tawny's mind says goodbye again and, in its place, comes incredible horniness ...

Immediately after logging out, Berseh made her way to the airport and also received a ticket for an immediate flight to Tomsen-Town.

Stewardess: "Miss Berseh? Your First Class Menu: Carrots freshly washed and laid parallel on a blank plate."

Berseh: "Thank you, is it still far?"

Stewardess: "In about 30 minutes we fly over Jackson's Field. Do you really want to get out?"

Berseh: "But for sure"

Berseh got stronger with the carrots and then she put on the parachute.

Just close before Jackson's Field the stewardess guides her to the exit and opens the door.

Stewardess: "Don't you want to change your mind?"

Berseh: "No, not at all, my darling is in danger and only I can help her. In which direction is Jackson's Field?"

The stewardess indicates the approximate direction with her finger. Berseh nods gratefully and jumps off.

After a short flight Berseh can already see Tomsen Manor. She thinks about how she can accelerate her free flight and remembers these Superman comics. She tries to adopt the same flying style in the hope of becoming faster.

**Tawny I come, Super-Berseh will rescue you ... **

** Great god, I can't believe my eyes! How could they have let down my queen so bad?*

I'm going to wipe this insane circus away right now! Oh my lady.. How embarrassed and furious you will be to see what they made of you, treating your experience like some freakshow! (Okay I concede it was crazy alright)

*I'll start with this damn, stupid Sheila! This slut is going to see what an angry angel is made of! **

**First a quick fix: eyes, lips, hair.. I want to be sure I'm the prettiest thing my lioness 💋 will see once I relieve her of the blindfold...❤️
Then and only then will I destroy that circus! **

Accompanied by thunderous applause, Berseh finally lands on Jackson's Field. But not all applaud. It's just the visitors who don't know Berseh any better and think it's part of the show. Those who know Berseh better, especially Sheila and Jackson, are nervous and scared about her landing and fear that soon there will be an enormous thunderstorm.

"You! Stupid, useless you! All you could do was parading in the outfit Tawny put you in!.. Couldn't your flat brain only get that the crowd might scare the horse and put my Mistress in grave danger? Dumb broad! Now let me put you out of this and throw you naked down the road, never to see you again! Let the crowd have some fun with you so I can safely release my goddess!"

Berseh: "Don't argue with me Jackson! We had a deal: You and Stupid Sheila had to keep our Mistress safe and secured from outside hazards. The ludicrous crowd gathering should have made you go back to the stable. I've sent you notes, tweets, mails. I called you but Mister Jackson kept trotting around and showing off like it's some circus.. So you know what? I'm not sharing my carrots with you for two weeks! I'm very angry with you Jackson! Very much so!"

Berseh made Jackson sit down carefully, then she called Master Paws, Taz, TW and Wick to help her free Tawny. Once this was done she tried to stay polite but still use the appropriate forceful words to chase the crowd from the property.

Thanks to the appropriate forceful words that Berseh chose, the crowd quickly evaporated. Jackson didn't dare to disagree either and carefully lowered himself to the ground. Berseh has fetched all the necessary keys from the stable and together with Wick, Master Paws, Taz and TW they go to free Tawny. The first thing Berseh took off was the head harness with the gag, the blindfold and the headphones. Berseh was horrified as she noticed Tawny's condition. Berseh: "My Lioness, how are you? Is everything all right?" Tawny, who hasn't really noticed what's going on around her, only answers: "Blubb blubb blubb". I would give a kingdom to know what Jackson is thinking right now

The helpers quickly freed Tawny from all gadgets, chains and similar Christmas tree decorations. But they had to realize that they couldn't get the selfbondage cuffs open. The display on the cuffs shows approx. 2 hours until unlocking. So Taz, Wick, TW and Master Paws grab her and lift Tawny carefully out of the saddle. Berseh's gaze is still very worried as Tawny's spirit may still float in other spheres.

Led by Berseh, the four friends lift Tawny up and carefully carry her to the car. Berseh is visibly worried. Tawny slowly returns to reality. Welcome to the real world ;-)
Tawny: "Oh ... see the stars ... I was just there ... it was so beautiful ... what happened? ... why am I tied up? ... Are you angels too? ..."

Jackson has also risen up again and shakes his head and thinks to himself: Do you understand the humans?

Tawny is loaded into the spacious trunk of her rover and Berseh joins Tawny. Wick has agreed to drive the rover. Master Paws, TW and Taz are ahead with their vehicles heading for Tomsen Manor. On the way home, Tawny is visibly recovering thanks to Berseh's loving care. Tawny enjoys the warmth and softness of Berseh's mons and then kisses her on her thighs?

Tawny: "Berseh, my angel, you are here? Where am I? What happened?"

Arriving at Tomsen Manor, Tawny is carefully lifted out of the car by our friends.

Robert, who meanwhile is at home, hurries to the group: "Oh my God, Miss Tawny doesn't look good at all. I saw a part of the video and as a precaution I filled the bathtub with hot water."

Berseh: "Dear people, please carry my Lioness into the bathroom. I'm sure a hot bath will do her good."

Tawny: "Oh... all my friends are here. Come... get undressed and join me." The opportunity to accept Tawny's invitation is written all over their faces. But Berseh intervenes quickly: "Thank you dear friends for your help. I think Tawny needs now Berseh-care." Tawny looks at Berseh and she licks her lips nodding. Robert: "Gentlemen, I suggest we retire to the reading room. I can offer you Belgian beer or Scottish whisky. I also have exquisite wine from Napa Valley and we could play a game of cards while Berseh takes care of Tawny." The gentlemen agrees to Robert's proposal and leave together, somewhat hesitantly and not without a last look at Tawny, the bathroom.

My dear friends, I have landed back on earth. After our friends left for the reading room, Berseh began her special treatment. I can assure you, there is nothing better than Berseh-care. Especially her underwater treatment is simply fabulous.

Jackson: "Excuse me dear humans, you are really hard to understand."

What was the point of all the excitement? I must admit, the back massage was quite pleasant but the whole action looked very strange for me.

And does anyone think of taking this crazy saddle off? And while you're at it, could you also turn off the cameras? Even a horse has a right to privacy?

I'm sure we'll meet again soon. My mistress has a head full of craziness..."

THE END

About Tawny Tomsen:

Tawny Tomsen is a real person, even if she exists only in cyber-space. She was born in March 2007 as a character in the digital world of "Second Life®", and thereafter went her own way, without regard for the wishes of her creator.

With her Second Life friend Tina, she founded T&T Products, purveyors of fine bondage devices for Second Lifers inclined toward the BDSM lifestyle. The brand soon became the first choice for discriminating Masters and Mistresses of the digital world.

After 9 successful years at T&T Products, Tawny changed her career to 3D artist and brought in her expertise from years of developing bondage gadgets. In the new 3D artist environment, she met Berseh, and starting in the autumn of 2017, fell in love and developed a mutual BDSM relationship with her.

With Berseh as her muse, Tawny's art has grown and she has built a large and loyal following among lovers of BDSM art, with sexy stories about the 3D Tawny Girls.
