DATING A DITTO

Phew... Finally back home after a long day of work

Hi babe I'm home
I hope she wasn't too bored while I was at work

OMG!
OMG!
He is finally home from work!

Huh...
I can footsteps coming closer...
They seem to be getting louder and faster

She might have changed herself again

Babe!
You're
back

HUH!?
Wait...
Who are
you?

Surprise!

It's me silly... Your perfect and amazing girlfriend

Wow!
I guess you finally learned how to make new looks instead of just copying others

Mhmm... Ahhh... Guess I did a good job~

I missed you babe! Your new look is amazing you look incredible in this new form

Cheers honey~ I went with a gyaru inspired look for this new look

I can see the similarities now that you mention it

You must have done quite a bit of research on your own to create this new look

Could you maybe show me some of your reference material babe?

Ohh~
Maybe you
don't want to
make love to
this new
body huh~

No no no
thats not it
at all...
I'm just curious
babe!

Hehe~ I'm just teasing you

Phew... I thought I was in trouble for a second

I'm excited to see who you used as reference for your new form

Just
give me
a moment
darling~

Ta-Da!
This girl
was the first
reference
I picked

Ohh
Marin
Kitagawa!
That makes
sense for a
gyaru inspired
body

Seeing you transform is always so incredible
Sometimes I was wish I had the same power as you babe

You don't say~
I think I might have a way to make that happen

You have to be messing with me there is no way a regular human like me can transform like you

I wouldn't be so sure about that my dear~

But
for now...
How about focusing
on what is
right in front
of you

I don't recognise this girl but she is very attractive

This girl is called Yukana Yame~ She is from the show hajimete no gal

This girl is the second reference I used for my own little creation you saw earlier

I'm
sure this body
has everything
it needs to
please you
my dear~

After
the 3 months
3 days and
7 hours we've spent
together!
I have a perfect
understanding
of what turns
you on

Wait!
You are counting the hours we've spent together!

Of course I do my dear~
I love you more than anything and any moment we spend together is special to me

But enough of that for now~

How about you come over here and let me show you how much I love you my dear

Mhmm... I love you more than anything~
Mhmm... I feel the same way... You're the perfect partner babe

To think it really has been a little over 3 months since we met

Time really flies when you're in love

Say~
How about
we have some
fun before
dinner

I'm sure you are dying to make love to this body

I'm not going to deny that I can't stop staring at those tits babe

Lets head to the bedroom then and get started babe

Hehe~
Someones
a little eager to
play with
his girlfriend's
new body

But what kind of girlfriend would I be if I kept my boyfriend waiting

Lets not waste anymore of our precious time~ Make sure you don't hold back my dear

Ahhh!

Ahhhhh... This.. This body is so sensitive~

You feel soo good inside of me

Uhhh... You're so tight around my cock

Ahhh!
Thats it...
Don't hold
back
I'll
take all
of your
cock inside
of me

Ahhh...
I'm close
to climaxing
babe

I'm cumming!

Pour all of your juices into my tight pussy~

Ahhh...
That was
amazing~

Phew...
That was
incredible
babe

I think I'll take a nap before I cook dinner

Sure thing my dear~

While he rests I'll prepare a surprise for when he wakes up

30 Minutes later

Mhm...
Mhmm...

Argh...
Babe?

Huh...
What is this
smell?

Babe!
I could smell
something
burni...

Oh
you're awake
again sleepyhead...
I wanted to
surprise you
by cooking
dinner

I
remember
you telling me
how Raiden Shogun
from Genshin Impact
really knows how
to cook

Ohh...
Thats so
sweet of you
babe

I'm pretty
sure I told her
that Raiden Shogun
DOESN'T know
how to cook!
But I can't
tell her that
now

I'll make sure to use all of Raiden's skills to make it taste super delicious

BY TSF AI

That...
Sounds lovely
I can't wait
to try it
babe

Arceus
above please
pray for
my life and
give me strengh
to survive
this

To Be Continued?
