IQ: 125

Height: 158

Weight: 46

Body Type: Normal

Race: Asian

Description:

Kamiko Timberlane, aged 32, was convicted for double murder in cold blood. She had married rich men twice, and in both cases after a year of marriage they died and she inherited their money. The police managed to prove that the death of her second husband was not an accident, but was a result of deliberate actions of the suspect. Further investigation revealed that the same was true in the first case. Convicted for capital punishment, she was purchased by the 'Pink Bunny' corporation. She was relocated to a scientific research centre, where the experiments on new technologies used in 'Pleasure Dolls' are conducted. She became a lab-rat for the best scientists of the company. Her name is now subject H-513.

She woke up in a large, sterile room. The smell around reminded her of hospital or a laboratory. She could neither move nor speak. In front of her, a man in a white gown was busying himself. He was walking to and fro, recording some medical report on a dictation machine.

- The seventeenth of January, year 2073
09:17 Tokyo time. – The man in white was saying. - Professor Tanaka Yamato
I am standing in front of subject H-513. Initial analysis revealed, that the subject is undamaged. Perfect health condition allows us to continue the full scope of research.

A quiet "beep" meant, that the scientist turned off the machine. He raised his head towards her and said in a pensive voice:

- The corporation wants more and more, my dear five hundred thirteen, the customers thirst for newer and newer toys. And nobody cares that poor Tanaka has to work overtime. Well, I guess it comes with the job.

Choose first set of experiments.

Experimental Vaginal upgrade level 1

Bionic implant

After – orgasm drug gland level 1 (causes addiction to sex)

Appearance

Breast enlargement

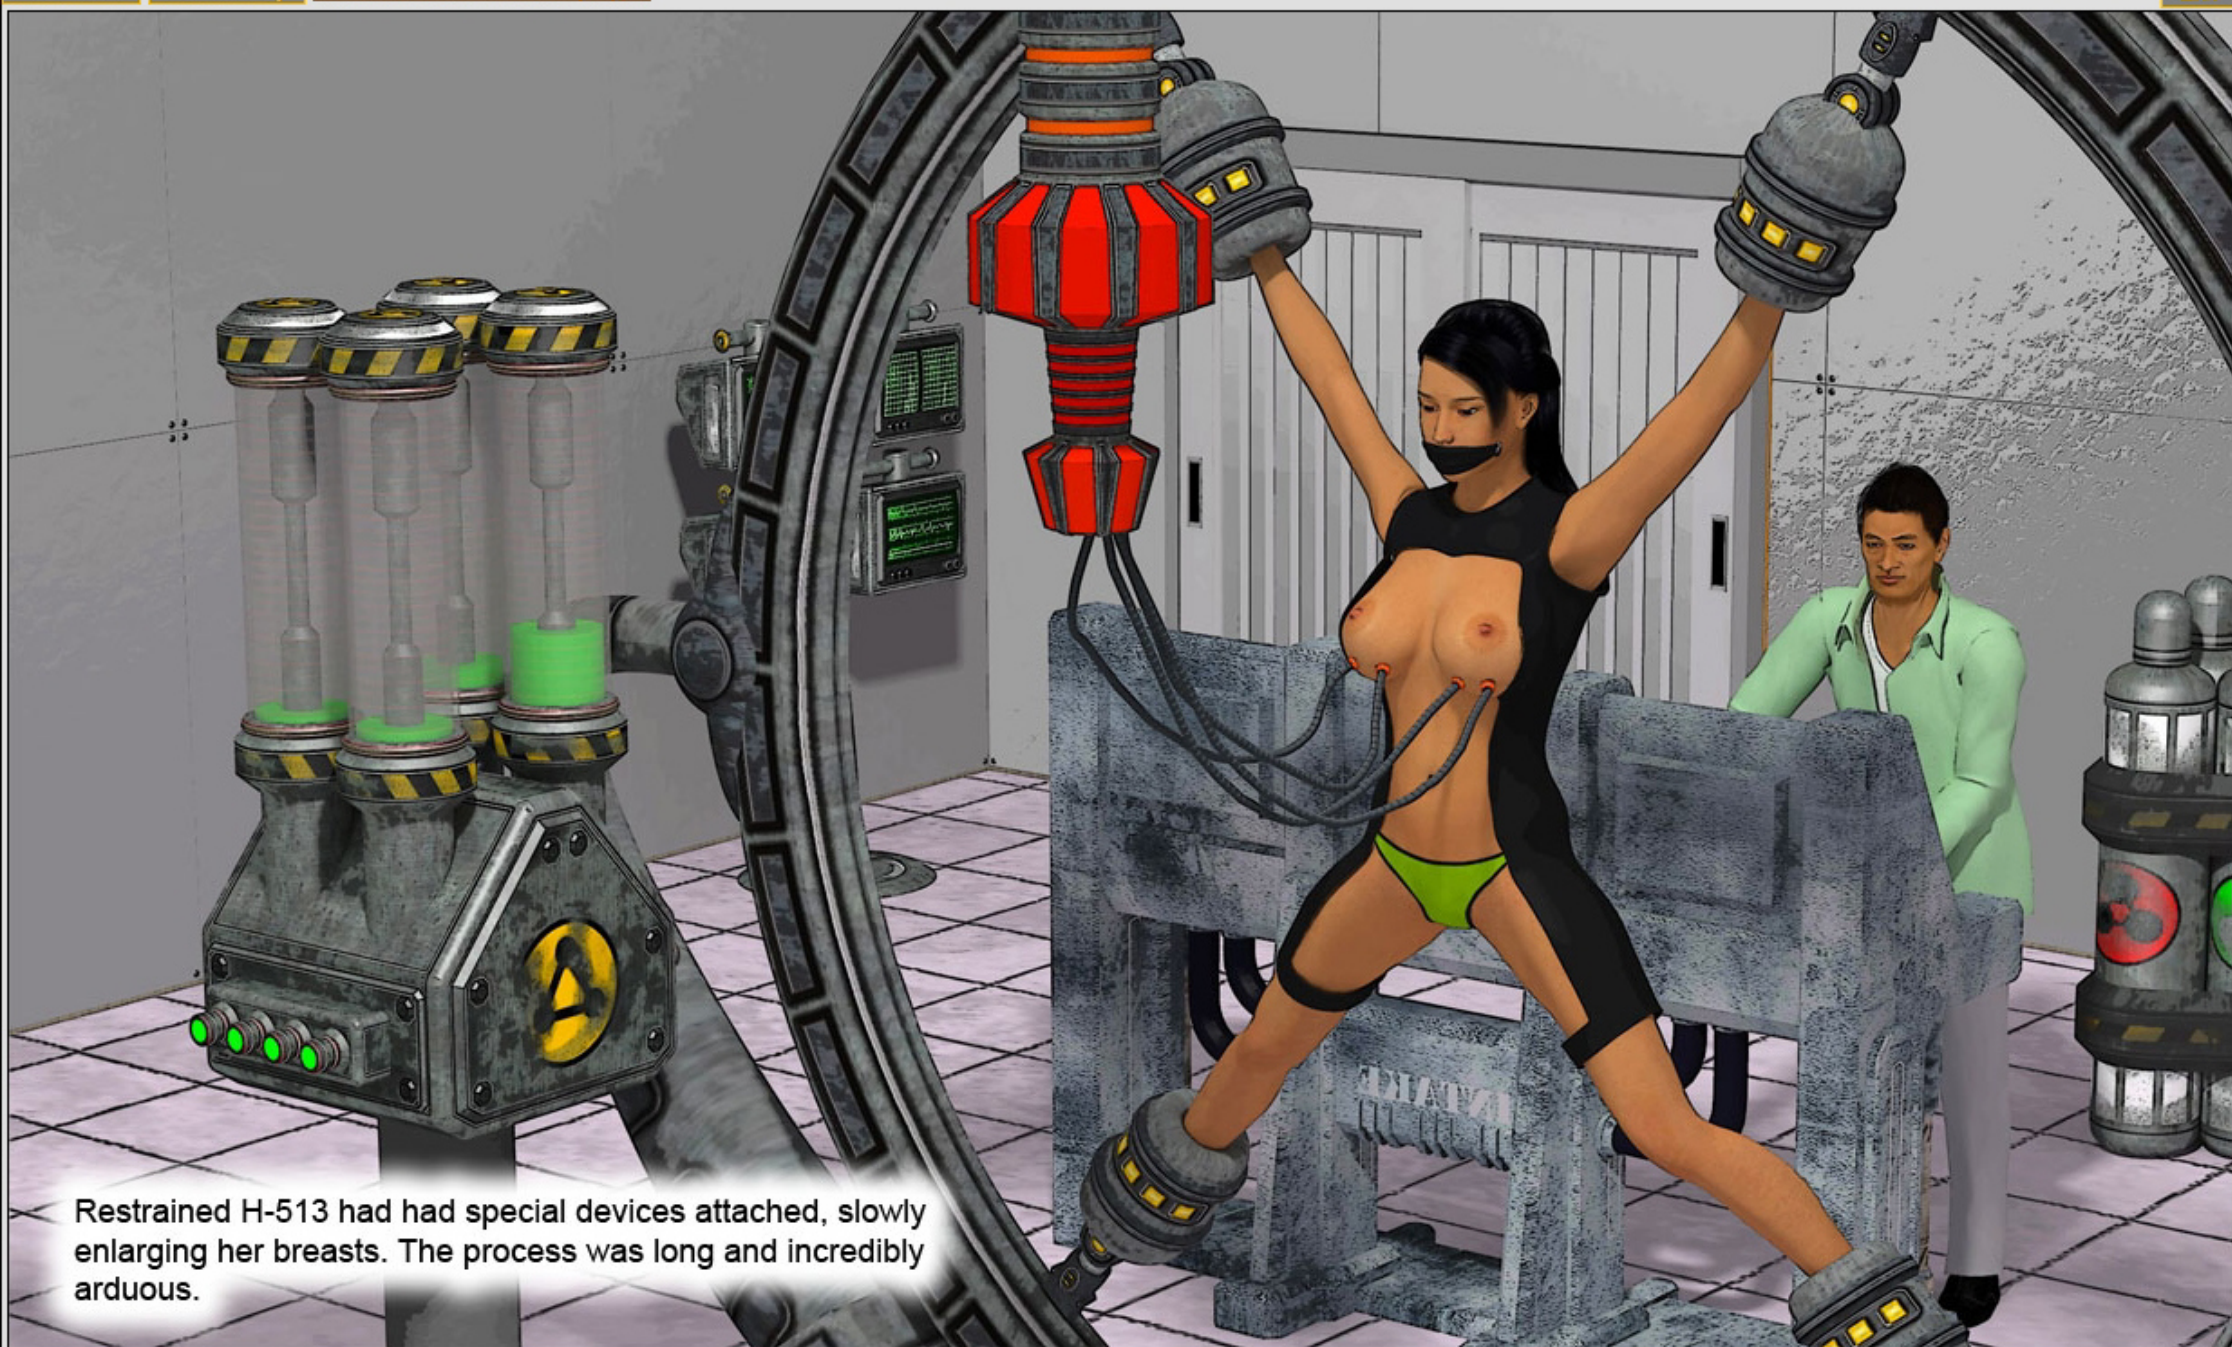

Kamiko Timberlane was convicted of double murder and sentenced to capital punishment. The "Pink Bunny" corporation bought her for their own purposes. Now, as subject H-513 she shall be used in scientific research on new technologies used in the manufacturing of sex dolls. In exchange, her punishment was reduced to six years of being deprived of human rights.

Her mouth was gagged with soundproof band, but her eyes perfectly expressed what she could not say.

– I have no idea what you are going to do to me, you hardworking doc, but in six years this will end and I shall be free. And then, I shall find you and you will pay for everything.

– I recognise this look, 513. – said Professor Yamato. His voice was silky, even kind. – However you should know by now, that old Tanaka is not intimidated by it in any way. In six years you will change irreversibly. When the research is done, you will be the goddess of sex. – The Professor smiled mockingly. – I do not think your head will be bothered with such notions as revenge or hate.

Actually, you should be grateful to me. You were convicted for double termination. If you had been bought by “Mili-tech”, you would probably have ended up as a soulless war machine or something equally repulsive, whereas here you shall get more pleasure than in your hitherto life. And we shall even let you go free, in the end.

Restrained H-513 had had special devices attached, slowly enlarging her breasts. The process was long and incredibly arduous.

For three days she had rested fixed to the laboratory machinery watching her breasts. Every hour it grew larger and heavier.

Kamiko wondered how large it would get when the procedure was done.

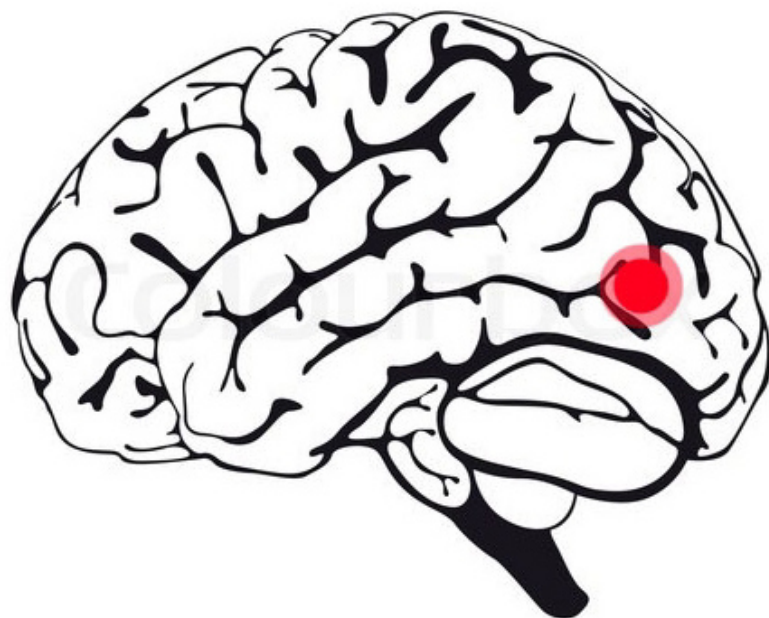

When she was finally detached from the machinery, her breasts were much larger than those of normal women. Kamiko wondered if she had ever met anyone with breasts so large. In Europe and the United States she had seen such women, but never in her home Japan. Bitterly she realised that she had to accept her new appearance.

In six years, when she is free, her breasts will certainly not get smaller.

She was anaesthetised and taken to surgery. When she regained consciousness, she was once more in a lab room. This time she was placed on a plastic table, her arms, legs and torso were restrained with special clamps. She was terrified to realise, that her swollen breasts were once again attached to enlarging devices. – So it's not over yet! – she thought.
– They'll continue to pump me some more!

– Operation successful – She heard Professor Tanaka's voice recording another log. – We have implanted the object with a gland activating in moments of sexual arousal. The active substance is released immediately after reaching orgasm.

After-Orgasm Drug Gland:

Bio engineered gland that releases strong drug called "Erosine" directly into blood stream. It activates every time the object reaches orgasm. The stronger the orgasm the more drug will be released.

Erosine is a strongly addictive substance acting similar to heroine. The difference between these drugs lies in the fact that erosine rises libido instead of decreasing it.

Kamiko saw two mechanical arms designed for penetration, rising between her legs. They started working immediately, and she felt their nimble probes filling her orifices.

She had no desire for sex whatsoever. Neither with man nor this weird machine. She was just lying there unmoving watching her slowly growing breasts, ignoring the devices working busily between her legs. The Professor brought himself some coffee, sat down with a newspaper and started reading. He seemed like a man who is in no hurry. The devices massaged her sensitive body with incredible precision. A cylindrical probe slid inside her ass, and started to additionally stimulate her with mild electrical impulses. Kamiko felt pleasure slowly rising inside her.

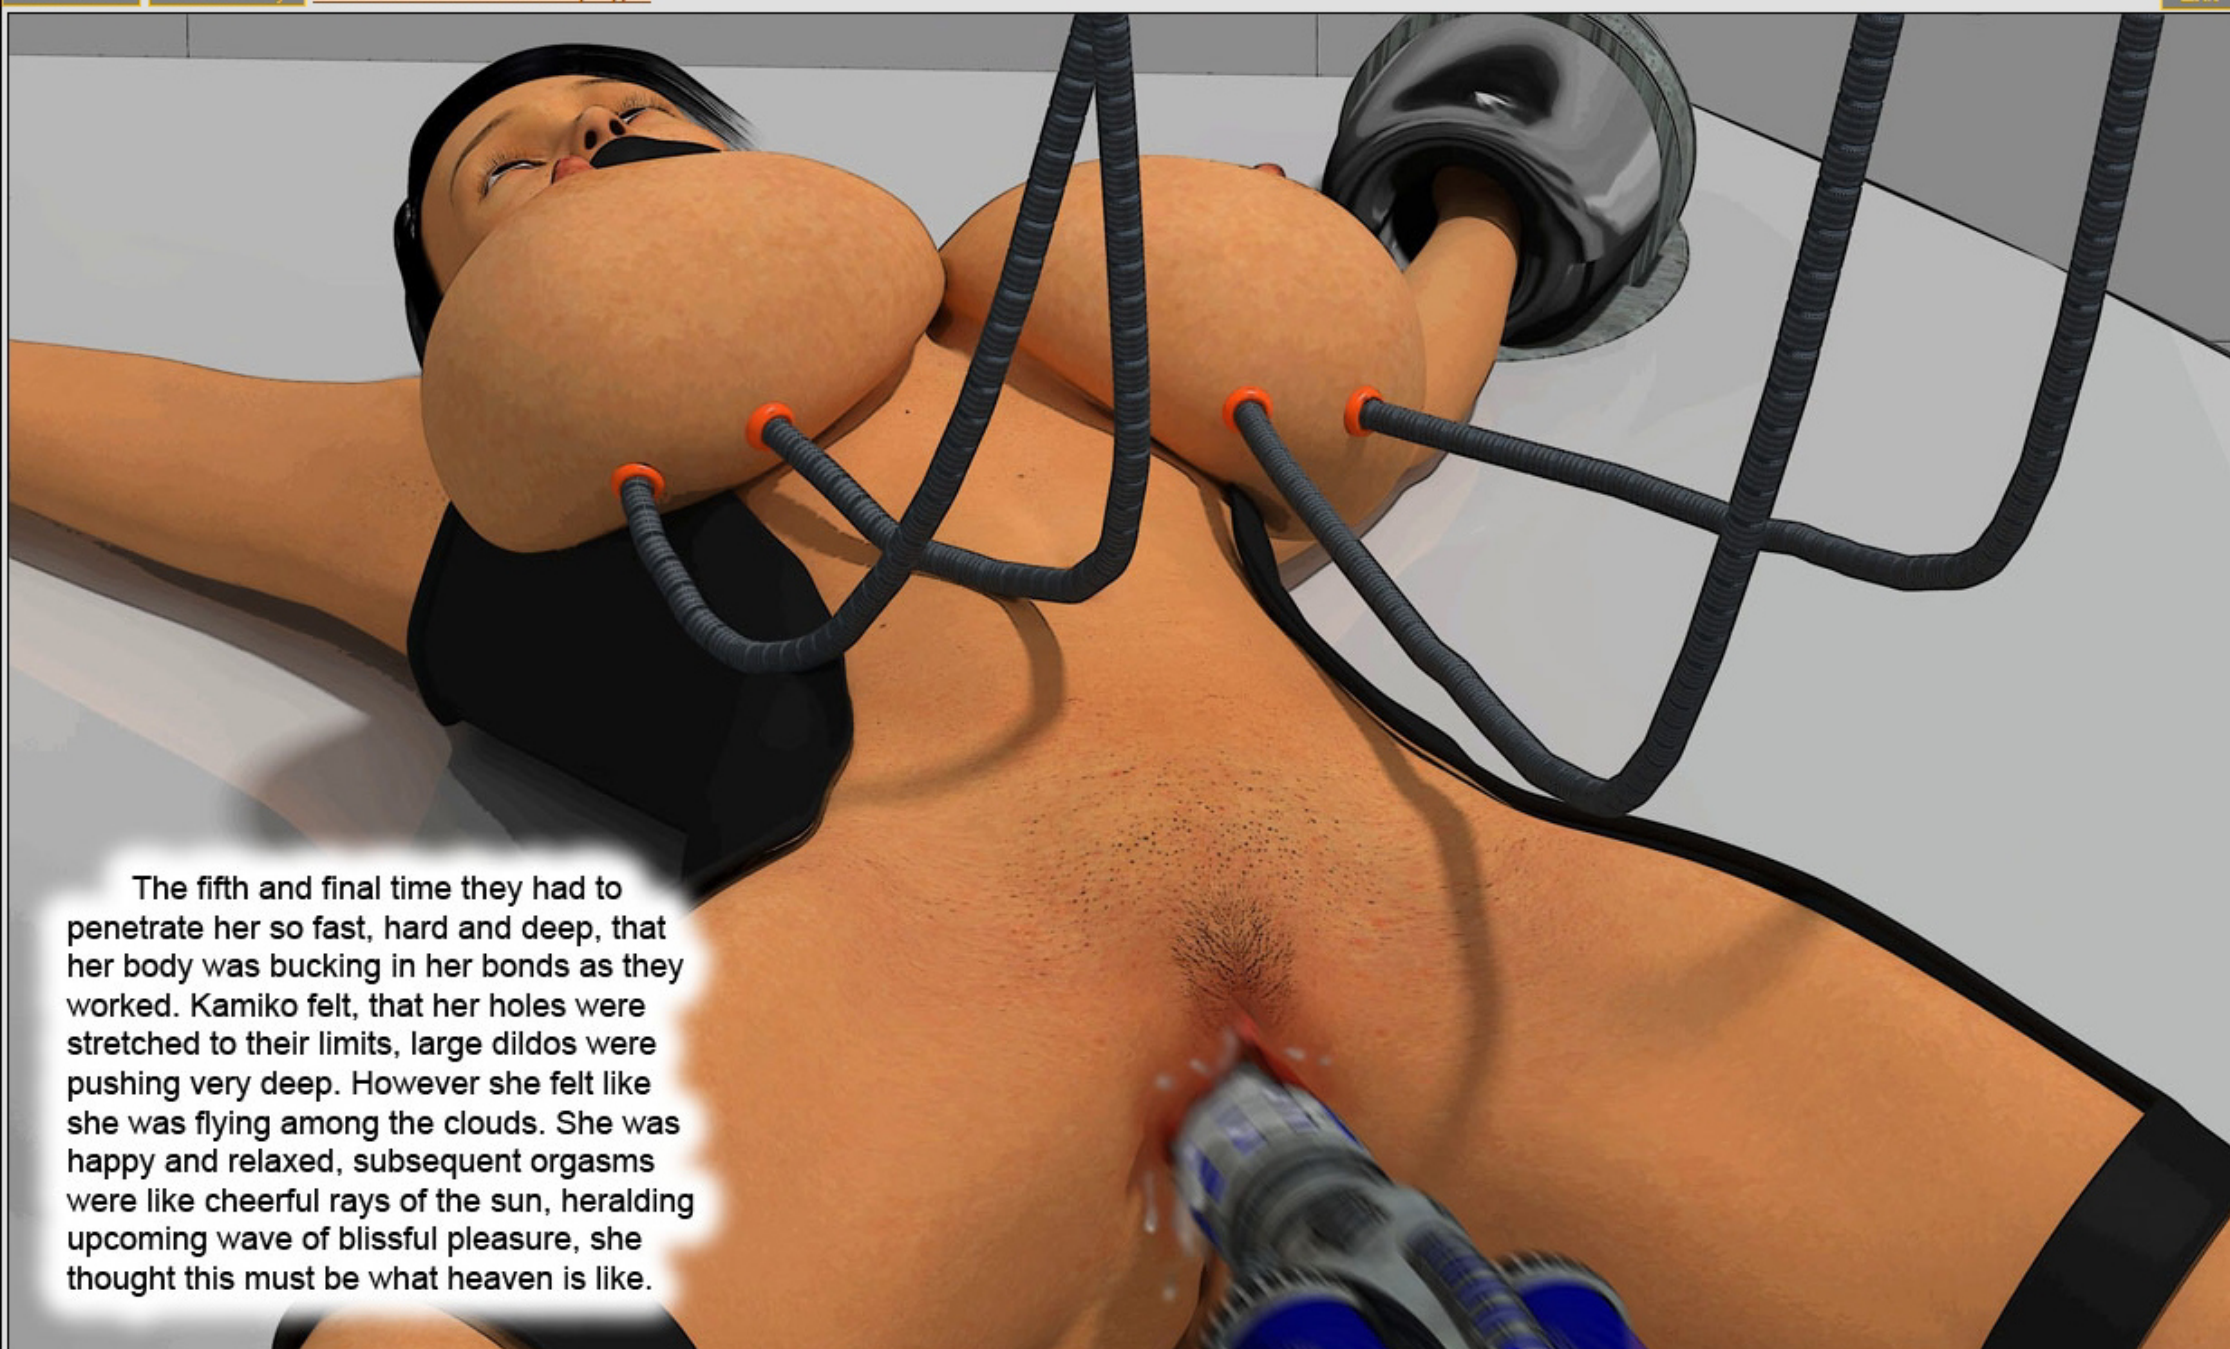

The orgasm came after an hour. Even though she struggled against it with all her strength, the patient devices finally won this battle. Kamiko strained in her bonds and her brain was overcome with short wave of pleasure.

...And then something very strange happened. The momentary pleasure turned into a euphoric feeling of satisfaction. Her entire body pleasingly relaxed. Her anger, frustration and fear gave way to cheerful satisfaction. Suddenly, she felt happy. So happy and relaxed, like never before. With blissful smile she looked at the Professor. Tanaka put away his paper and came over to the control panel. He entered some new settings on the touchpad and went back to reading.

Kamiko was happy. She was pleased to think that Tanaka was right. She was exceedingly lucky to end up in the "Pink Bunny" laboratory. Aged 38 she will leave this strange place and the six years until then she will spend on pleasurable experiments.

Suddenly she felt that the devices started working again. This time she did not resist, waiting for the upcoming orgasm. When it came, it was much longer and more intense, and the moment after she was once again overcome with blissful satisfaction. With every subsequent orgasm she became more and more blissful and oblivious, and the machines had to work harder to make her come. Their tips became larger, and their movements deeper and more decisive.

The fifth and final time they had to penetrate her so fast, hard and deep, that her body was bucking in her bonds as they worked. Kamiko felt, that her holes were stretched to their limits, large dildos were pushing very deep. However she felt like she was flying among the clouds. She was happy and relaxed, subsequent orgasms were like cheerful rays of the sun, heralding upcoming wave of blissful pleasure, she thought this must be what heaven is like.

They led her to a sterile cell where she was to rest. She felt terrible. Her whole body was shaking with exhaustion, her head hurt, she wanted to puke, but she had nothing in her stomach. Her anus and vagina were burning with unbearable pain.

When two days later they took her to the lab again, she resisted with all her strength. She longed for the blissful pleasure which she recently had felt, but she knew she could not let them win.

Once again she was fixed to the table, once again the enlargement devices were attached to her breasts. What was worse, similar pipes were attached to her vagina! Was it to be enlarged as well? The pumping devices came to life, and robotic arms started their work on her private parts. Vagina and anus still hurt from the previous marathon, but the devices were patient and after some time managed to squeeze and orgasm out of her. The world dissolved in bliss and happiness.

Over subsequent days the treatment became routine. Robotic arms penetrated the subject's holes making her come over and over again. They started gently, and then worked up to a brutal assault, stretching and fucking her to the limits without any mercy. At the same time, other devices were slowly and systematically enlarging H-513's breasts and vagina.

All day long Kamiko was in heaven. Ecstatic bliss and happiness were intertwined with wonderful orgasms when the machines stormed her pussy.

With blissful smile she felt her breasts growing slowly, dancing on her chest to the rhythm of fucking machines.

Unfortunately, afterwards came the night. Kamiko was lay in her cell dizzy and exhausted. Her holes had been significantly stretched, and did not hurt as much as after the first time, but every evening they were very sore nevertheless.

Finally the treatment was over. One day, when she was waiting obediently to be taken to the laboratory, no one came for her. She was sitting patiently staring at her large breasts. It had grown to such gargantuan proportions, that it exceeded all the norms she was familiar with. She had definitely never seen a woman whose breasts would be so large. They were heavy and very sensitive. Totally impractical.

– They have finally stopped pumping me. – she thought with relief. – If they kept doing this to me, my breasts would exceed every limit.

Her vagina has also grown significantly, her voluptuous shapes were clearly visible beneath the lab suit

She waited and felt bad, however no one was coming and she was happy to be left alone for a change. She spent the entire day like that. No one visited her cell. Only somewhere around noon the food administering mechanism slid out of the wall with a paper bowl filled with some tasteless gruel.

In the evening Kamiko could only think of one thing. She wanted to come. She wanted to fly away from this horrible place and forget all her problems. Not worry about how her body had been altered, not think about six more years to go. She wanted to forget.

With a trembling hand she touched her pussy. It was large and moist. The devices she had been attached to in the lab had altered it so that it remained always wet. Moreover, her labia lips and clit had swollen to large proportions. Kamiko slid her finger inside. She gently squeezed her fleshy labia with her hand. She knew that what she was doing was wrong. Her body was wrong. However she could not stop.

With her left hand she grabbed her large, heavy breast, and with the right hand she continued to drill her wet pussy. With no problem she slid four fingers in and felt the upcoming relief.

Professor Tanaka's list includes four projects to be conducted. He has to choose the one in which subject H-513 shall be used. It is a difficult decision, because the projects are mutually exclusive.

The subject may only be used in one of them.

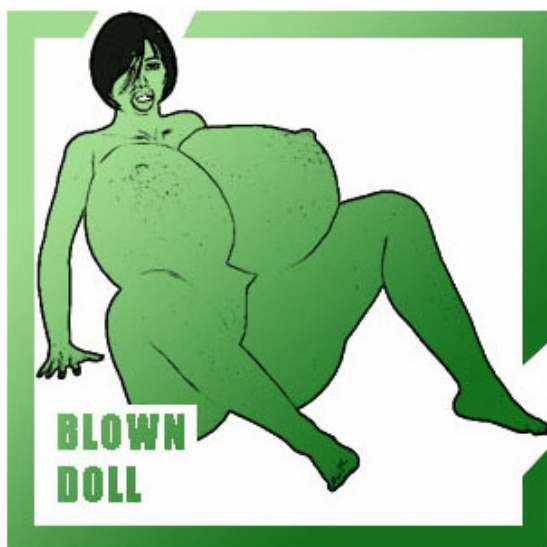

Pleasure Doll:

This is a project aimed at creating a girl whose only purpose is to provide pleasure. All parts of her body shall be modified in such a way as to provide as much pleasure as possible to both men and women having sex with her. Lips, tongue anus, vagina, breasts and the rest of her body will serve only one purpose. Giving pleasure.

Tamagotchi:

The subject which has undergone the tamagotchi shall require constant attention from its owner. It has to be taken care of, regularly milked and its other needs have to be satisfied, otherwise the tamagotchi feels very severe discomfort. It has to be helped in many mundane tasks such as movement and masturbation. Tamagotchi feels pleasure much more strongly than a normal woman, which is why the person having sex with it has to be very careful.

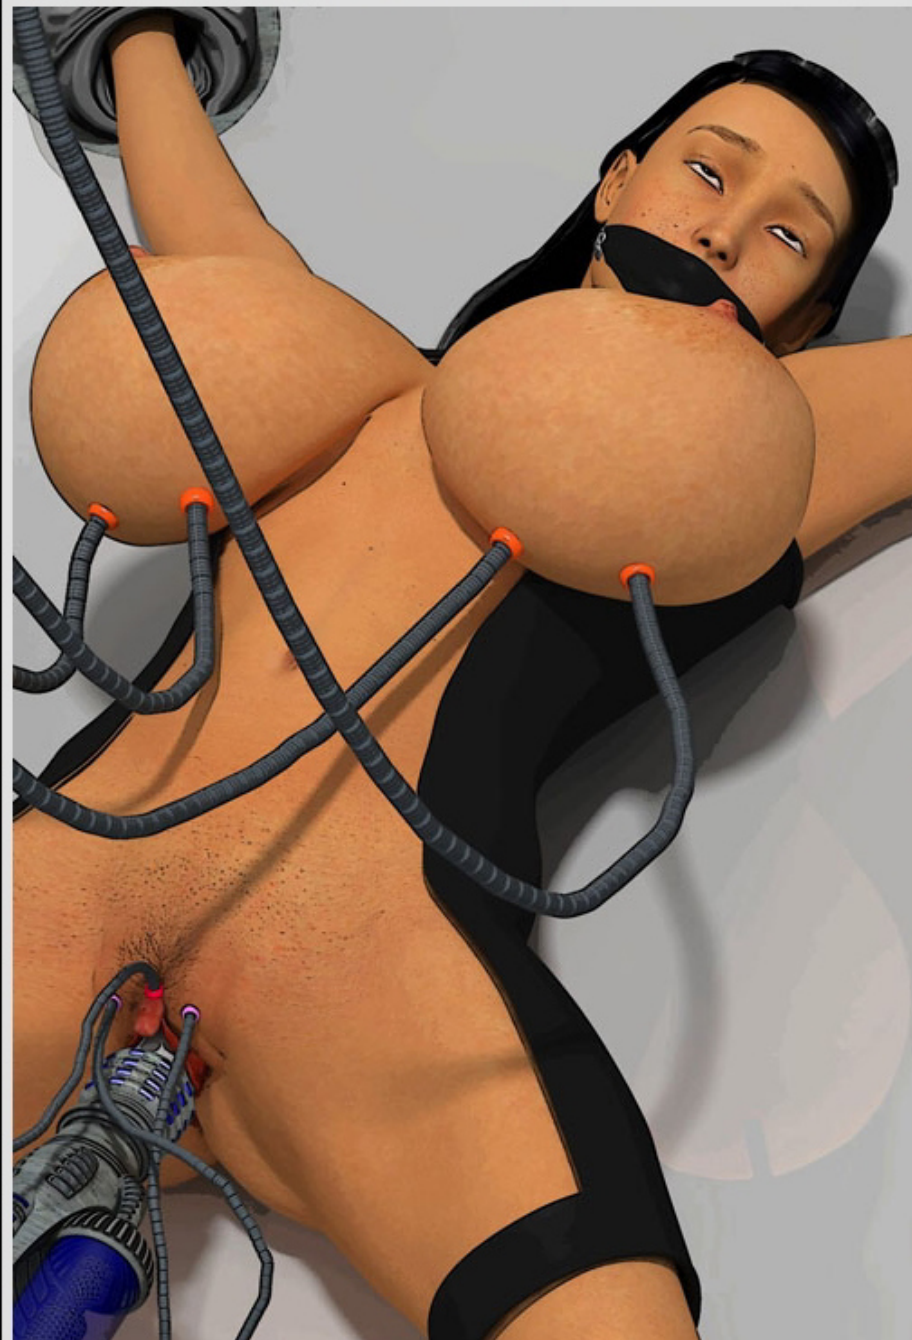

Blown Doll:

A simple project resulting in the subject being pumped beyond all limits. The subject is fattened with high-caloric gruel which includes hormones. At the same time it's lips, breasts and buttocks are synthetically enlarged. Blown Doll is an ideal solution for brothels and lazy owners, who lack the patience to bind their lover every time they want to rape her. After some time, her proportions become so huge, she cannot resist at all and binds become unnecessary.

Beast In Heat:

The last option is all about drastically increasing appetite for sex and unnatural increase of subject's muscle tissue. The treatment creates a woman with huge strength, who thinks only about sex. She is so horny she will do everything to be sexually satisfied. Designed to be kept in a cage as an exotic wild animal. She is a perfect tool for punishing disobedient slavegirls. Being locked together with the beast is an unforgettable lesson for them.

Once again I chose to split the voting. First we will decide which project will professor conduct then I will give you some more specific voting options for the selected project.

Additional Modification

Bigger Butt

Kamiko could not stop, she was spending subsequent days on drilling her constantly wet hole with her fingers. For two days nobody has visited her cell, and the nutritious goo served her three times a day was the only evidence that she wasn't completely forgotten.

Hours were slipping by, while she remained oblivious in pink mist. Her swollen pussy was hot and red from constant masturbation.

Air was filled with scent of pleasure mixed with scent of sweat.

On the third day, the door to her cell was opened abruptly and a woman in green apron entered. Kamiko froze motionless with her hand between her thighs. She had recently awoken and was only starting her marathon, her mind clear enough to notice the unexpected visit. The woman approached her, bowed slightly and smiled politely.

- I am doctor Mayumi Asano. I shall watch you masturbate, I have to take some notes for Mr Tanaka.

Kamiko was furious, and decided that on that day she would not touch her pussy with even a finger. Less than two hours had passed, when she felt dizzy and nauseous. Her body demanded Erozone, she needed an orgasm.

She gave up late in the evening. After a whole day of denial she was barely alive. Shivering, covered in cold sweat she had no more strength to continue resisting. Her whole body craved Erozone. Dr Asano entered the cell a moment after the prisoner's trembling hand slid between her thighs, but Kamiko no longer cared, she wanted an orgasm badly and she wanted it now.

Since that time various doctors observed her frequently. They attached monitoring apparatuses, set cameras, took notes. Meanwhile H-513 was masturbating. She was massaging her breasts, pushed fingers inside her ass, squeezed her large clit and fleshy labia. Day by day she spent most of her time pleasuring herself. She came quietly and flew into the land of blissful peace. As soon as the soothing effects of Erozine left her body she started anew. She hardly thought about anything, she didn't want to think.

Kamiko's body got used to the constant presence of the drug, her brain needed more, which meant that she needed more powerful orgasms. She didn't notice when her room had filled with various toys. Dildos , vibrators, anal beads and other inventions. She embraced them without asking any questions, she craved more powerful stimulation. Her aroused mind needed new fantasies.

- I am a bitch to be fucked! - She repeated inside her head

- they shall fuck me for six years until I forget my own name! - She fantasized.

- They will fuck me harder and harder, until my pussy turns into a motorway - She repeated herself, pushing ever thicker toys inside her holes.

- I am nothing, I am a whore, I am fuckmeat! Her imagination howled.

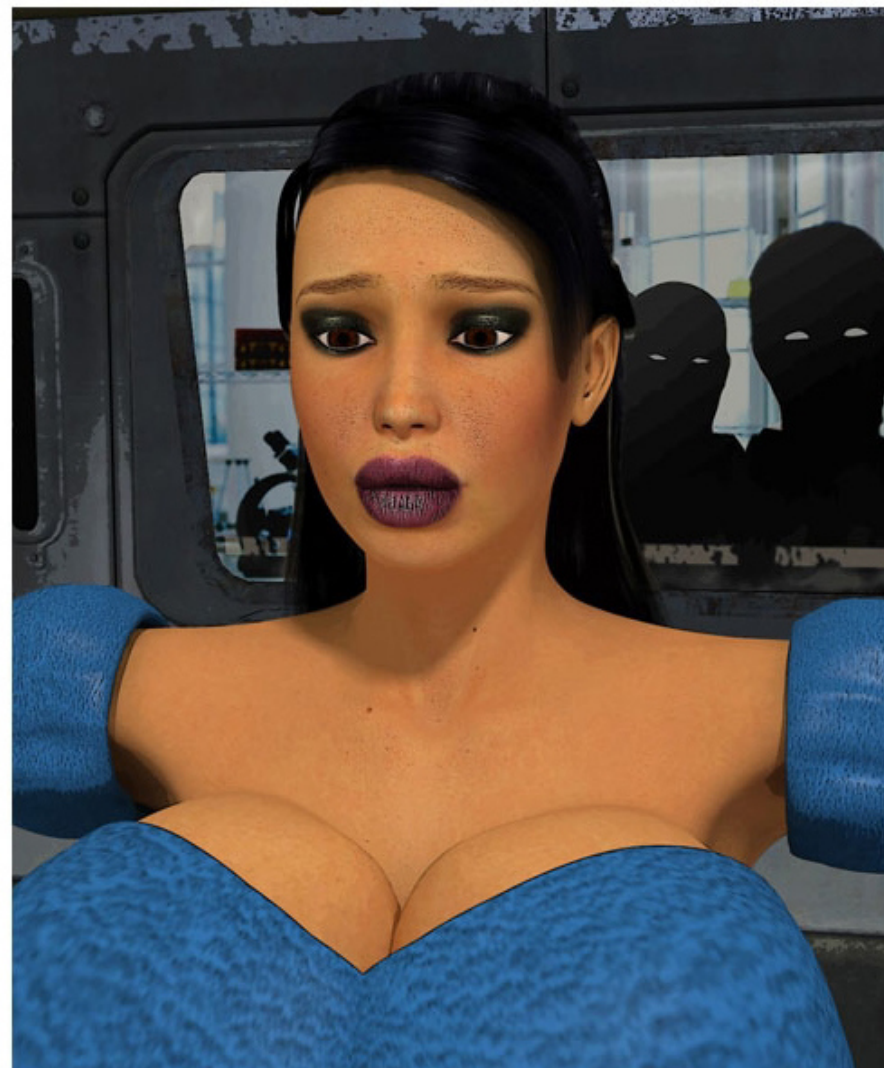

Finally, humiliated, with pussy stuffed to its limits she came hard enough to get sufficient dose of Erozine.

The employees observed her humiliation devoid of emotions. For the personnel of “Pink Bunny” it was just another day at work.

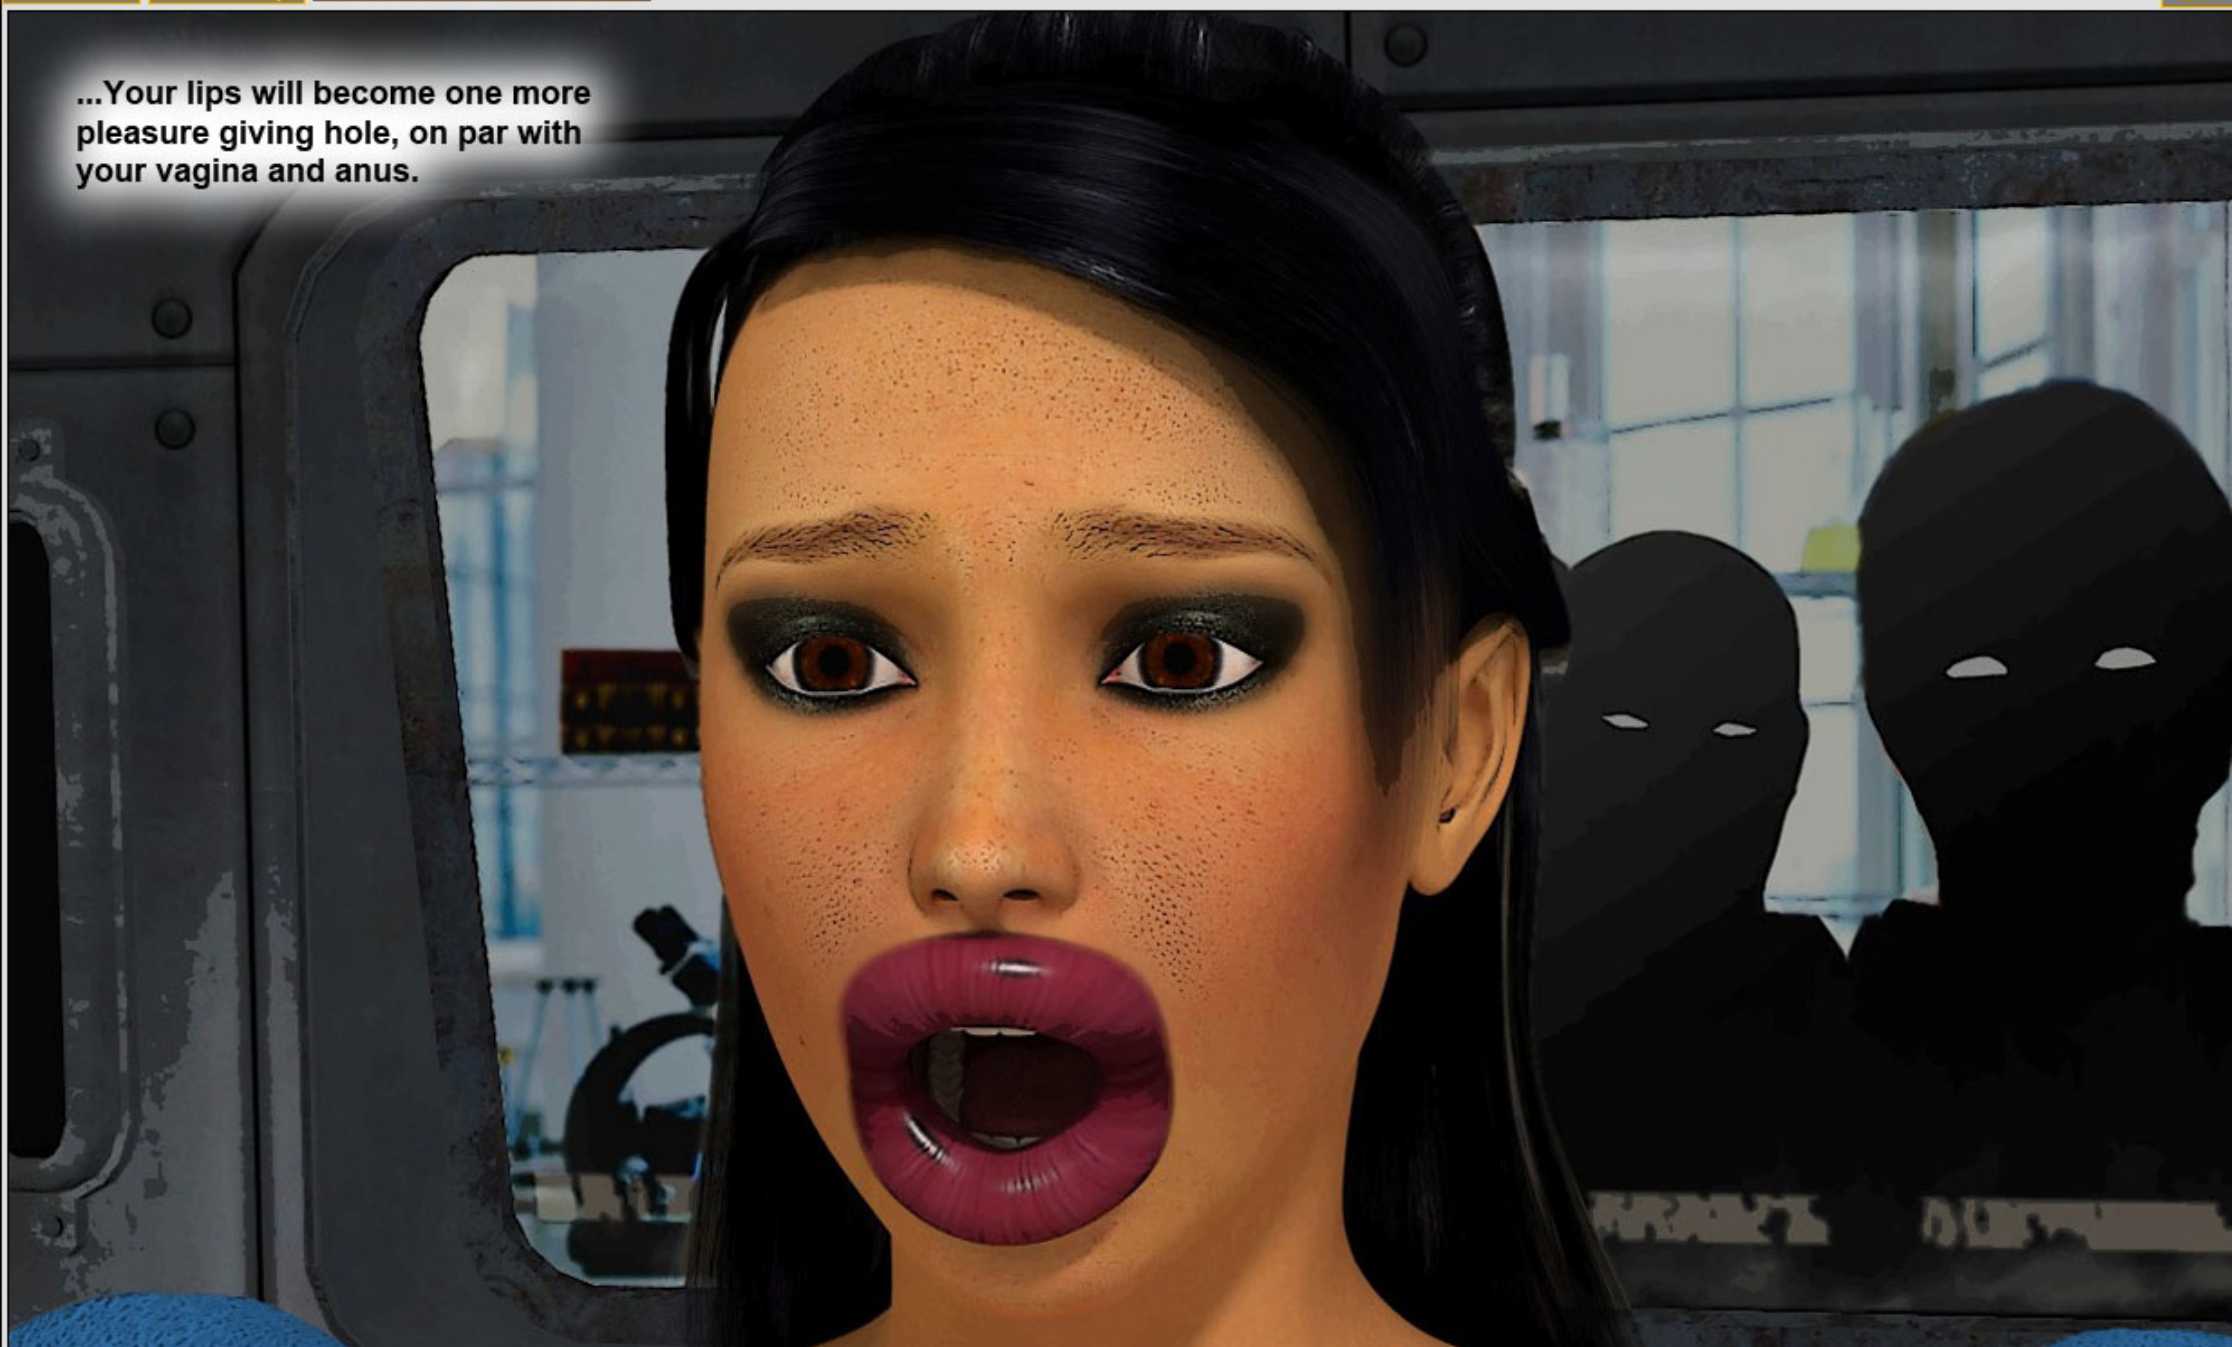

One day she woke up in operation room. The gag which she had been hitherto wearing was finally removed. Her lips hurt, she felt that something had changed significantly, but she didn't pay it too much mind – her body was trembling, she'd had a whole night without masturbation and as every morning she needed to have an orgasm. Unfortunately she was restrained. Professor Tanaka was standing right in front of her.

- Fuck me you son of a bitch. – She spat with spite. When she was uttering that she realised that her lips took a weird shape. Something was very wrong.
- I'm afraid it's against professional ethics.
- I beg you, fuck this whore! – She whimpered. She needed to have an orgasm, and needed it soon.
- I am pleased by your involvement H-513, particularly because I had just implanted you with a new improvement. O-Ring lips. In just a moment you'll have the opportunity to use them. – Said Tanaka holding a mirror in front of her face.

Shocked, Kamiko saw that her lips had become large and full like those of a hardcore porn star.
- Your new lips react to your arousal. When you are sexually aroused more blood flows to them and they swell, moreover your jaw shall open on its own to such an extent, that you won't be able to close it.

...Your lips will become one more pleasure giving hole, on par with your vagina and anus.

When Tanaka finished describing the new improvement, two men entered the room, and he introduced them as licensed “Pink Bunny” testers. Professor informed her that if they are happy with how she uses her mouth, they will also address her needs. When the naked men approached restrained Kamiko, she immediately moved her lips towards them. She wanted it to be over as soon as possible, pleasure them with her large mouth so that they would start fucking her. She greedily licked, sucked and pleased both penises, depthroating them in turns.

- I am a whore to be fucked - She thought - I am a bitch created to be fucked in all her holes!

Her breath became faster and suddenly she felt her large mouth swell even more. They were swelling and stretching. Astonished, she stopped sucking the cock she had in her mouth and started pulling it out.

- Don't stop whore! – the tester snarled and grabbing her head forcefully pushed his cock back in. Deep, all in. Kamiko tried to resist, but her lips started to open involuntarily making resistance impossible.

- The bitch is in heat! – shouted the other man. – She is gushing between her legs like a waterfall, I'd love to fuck her now.

- Just do it already, I beg you. - Thought Kamiko - Fuck this dirty whore - She imagined the other tester fucking her hard from behind, and herself cumming wildly. Her lips immediately reacted to that new wave of arousal.

They swelled so much they hurt, they now resembled a thick pink ring. Her mouth spread wide. The man fucking her throat started facefucking her vigorously. Kamiko could do nothing, she had to take it as her mouth had turned into just another fuckhole

- O yes! – exclaimed the tester
– she is phenomenal!

Since that moment, every time Kamiko was aroused her large lips swelled even more and the pressure shaped them into a round hole. Her jaw opened involuntarily, turning her face into a blowjob machine.

Under the pressure the lips grew and hurt, and they were becoming larger and larger every day.

Professor Tanaka said it was natural, and that in some time her lips would be so large that the pressure would stop stretching them.

They will stop growing and the pain will hurt no more.

H-513 was sitting in the visit room. From behind a glass wall a young girl was looking at her. She was grinning evilly, her eyes filled with enthusiastic madness.

- Hello mommy! – Yoko laughed crazily into Kamiko's face.

Yoko was Kamiko's goddaughter from her second marriage. When police proved that kamiko had killed her husband, Yoko inherited her father's entire fortune and hated her godmother.

- Hello Yoko, what do you want?

-Today's my birthday, remember mommy?

- All the best.

- Today I'm coming of age, and you are my present.

- How so?

- I sponsor your surgeries. The corporation is still your rightful owner, but until you've served your sentence, you will live in our house. The Docs will continue their project, turning you into a sex machine, but from now on they will do so for my money, which means that in spare time you will be my private slave.

- Look mommy, I also have a present for you! – the girl reached down and picked up a large soft cushion made from transparent silicone. It was the size of a football

– look, it's one of your new tits! Fantastic isn't it? - The prisoner looked with disbelief.

- How so? – she managed to utter finally – this is too large.

- You didn't think that they will let you keep such small tits that you have now, did you?

- What are you talking about?! my breasts are huge!

Yoko weighed the huge implant in her hands

- Ugh, it has to weigh at least 15 pounds!
Can you imagine how great it will be, when these babies fill your tits?

- **But breasts are now filled with nano-tissue, these implants are obsolete!**
- **These babies' purpose is not only to enlarge your small tits, it's something much more! Look, this implant is hollow inside. There is enough room there to squeeze in a hand. – Said Yoko finding a hole in the implant and pushing her hand inside. – If you look closely you will notice complex circuits detecting touch! These implants are cutting edge technology! They have neural connections, they will be attached to your nervous system!**
 - **How so?**
 - **Don't you understand mommy? – Soon your breasts will become another source of pleasure, it will be possible to stick various things into them, bluntly speaking it will be possible to fuck your tits! In a proper position you will be able to satisfy five men at the same time, isn't it wonderful?! Imagine how powerful the orgasm must be, if you have so many men inside you!**

Kamiko's lips started to swell and open slowly.

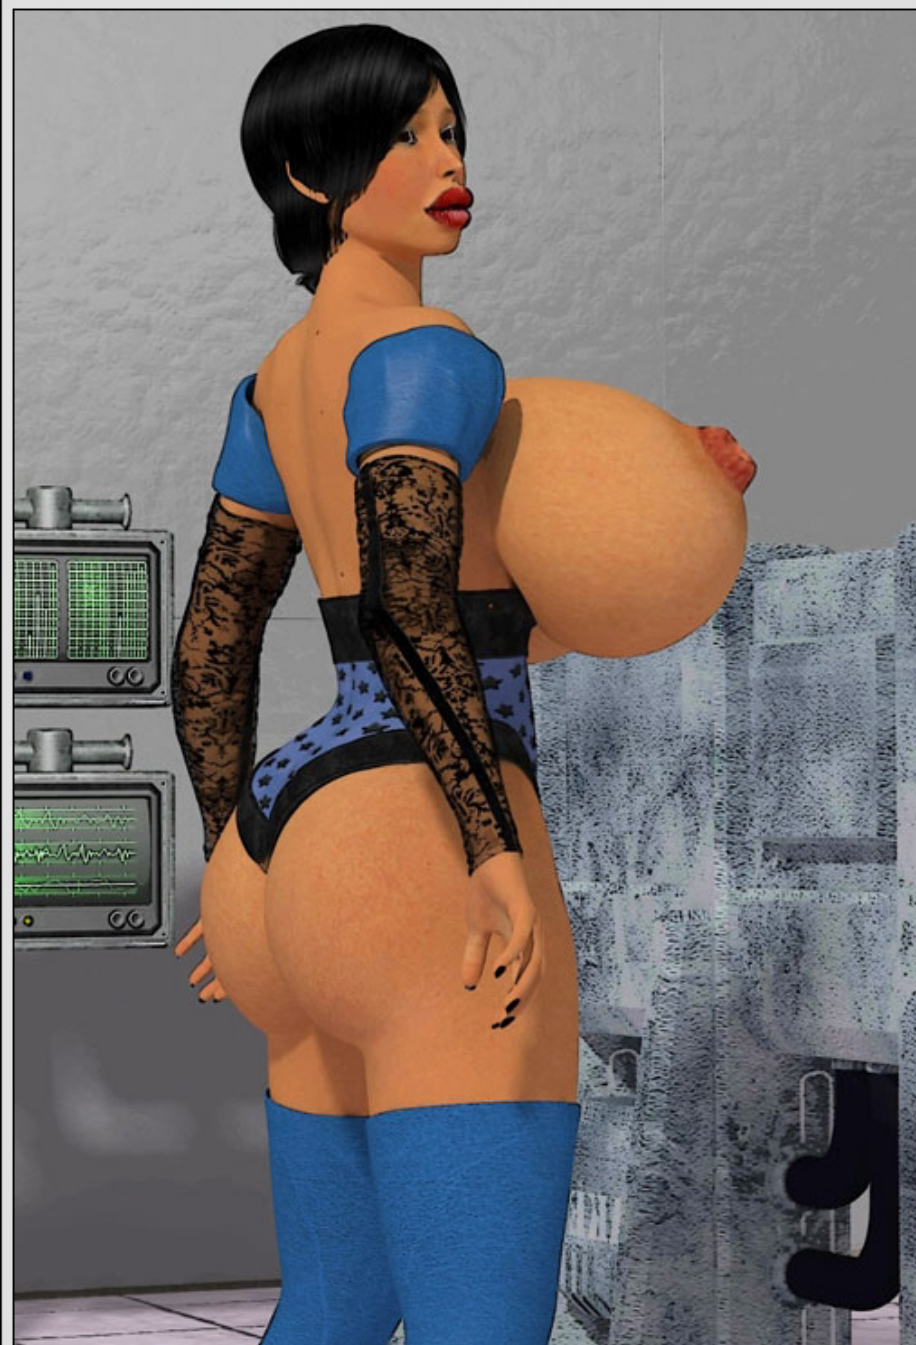

The new implants surgery went in hand with butt enlargement. Professor Tanaka filled H513's buttocks with such amount of nano-tissue, that her butt has grown to an unnatural size. New "nipple fuck" implants meant that not only Kamiko's breasts got way larger, but so did her nipples.

Once again she had been locked in a cell, but this time she had been restrained in a way preventing her from reaching her lower body with her hands. In order to reach orgasm she had to fondle her breasts.

When she slid a finger inside her huge nipple for the first time, the pleasure was overwhelming. The feeling was similar to the one she felt when she put something in her pussy, but the sensations coming from the synthetic nerve endings were clearer and more direct, the orgasm she craved came very quickly.

Her breasts were large and heavy, in order to pleasure herself, she had to embrace one of them with her arm and lift it so that she could reach the nipple. Her nipples became as sensitive as her clitoris and she sometimes sucked on them with her round fleshy lips swollen with arousal making herself come that way, but usually she fondled them with her free hand building up her arousal. Afterwards she slid her fingers inside the nipples and finger raped herself reaching multiple orgasms.

Yoko is taking H-513. She has a lot of ideas how to punish her, but she does not know what will be further changes in H-513. Let's decide

Voting finished! See results below.

Yokos Revenge

Yoko will immobilize H-513 and treat her as portable sexual toy for her and her friends

Appearance

Giant booty

Pleasure doll

Pussy pleasuring tongue

We have to collect necessary amount of pills. Current pills status: 2318 / 15000

Kamiko was examining her yet again modified body. Her buttocks had been enlarged to an enormous size. When she was lying on her back it almost felt like she had a big, soft pillow below her hips. While sitting she was occupying more place than before. Her breasts and butt were very heavy, reducing her mobility. She'd had tongue surgery as well. Her tongue became stretchier "to please women better", as professor Tanaka explained. It also got covered with little bumps, the purpose of which was to "intensify users' experiences". Kamiko was observing with anger how her body was being turned into a sex toy. She couldn't help it, but she was committed not to let them take control over her mind as well.

The day after her treatments she was dressed in a rabbit outfit and locked up in something that resembled a large gift box. She was gagged and her hands, legs and neck were immobilized with plastic tapes. All this reminded her of Barbie dolls she used to play with as a child. They were attached to their packaging, just like she was now.

She was taken away from the laboratory. The trip couldn't have lasted longer than an hour. Finally the noises died away, and the shaking stopped. Screaming, she tried to free herself from her bondage but it was futile. She only wasted her strength. What will happen to her? Will she be able to masturbate? The last thought shocked her. She can't let the lust dominate her life. She can't allow sex to become her most important need.

She felt the blood rushing to her lips, enlarging them and forming into an "O" shape. A drop of her juices dribbled down her thigh. Unwittingly she lost herself in erotic fantasies. She was longing for an orgasm; multiple orgasms during a many-hour ecstatic session. She was moving her hips as much as her bonds allowed, rubbing her sensitive clit against her fabric of her thongs. She heard a noise. Steps, conversations and laughter.

"That's a present for us!" a girl said. Kamiko knew that voice. A cold shiver ran up her spine and all arousal died down.

"Unpack it" – Yoko, her stepdaughter, exclaimed and clapped her hands joyfully.

Kamiko heard scraping noises, the paper ripping and after a while she saw a richly furnished room and two people: Yoko and an eccentrically dressed boy.

"Welcome mother" the girl smiled viciously. "Meet my boyfriend, Katsu. I am sure you will get to like each other immediately and find common ground."

"Wow" – Katsu was amazed "They made a nice toy out of her"

Yoko took care of releasing Kamiko, however she left her hands bound. She led her stepmother out of her box.

"She is perfect!" she said in a voice of commercial TV presenter. "Her tits and buttocks are so big, that they immediately make you think of rough fucking. Her pussy had been enlarged, and her improved gonads make her wet all the time."

Katsu with visible excited and curious slipped his hand under her thongs.

"Indeed" he confirmed "Warm and wet."

His touch turned her on once again. She muffled a moan of pleasure. They cannot realize that she is enjoying it.

"Her nipples had been modified so they can be used as spare holes to be fucked. Teasing them gives her untold pleasure." Yoko explained while baring Kamiko's breasts.

Kamiko was furious and humiliated. They were treating her like an animal at the marketplace. Like an interesting curio. Despite that, when the girl touched her nipples, Kamiko only wanted her never to stop. The pleasure was pure and wonderful.

Kamiko was furious and humiliated. They were treating her like an animal at the marketplace. Like an interesting curio. Despite that, when the girl touched her nipples, Kamiko only wanted her never to stop. The pleasure was pure and wonderful.

“And her lips too” Yoko added while taking her gag out – Enlarged, just perfect for giving head. When she is aroused, like now, they form into a round shape. She can’t close them. Her tongue is modified too; it extends and has special bumps. I just can’t wait to try it out. But your turn first Katsu!”

“Incredible” The boy admitted looking at Kamiko with admiration. I don’t know which of her holes to pick. There are so many possibilities!”

Kamiko wanted to say that he can use whichever he pleases, as long as he does it quickly. She wanted to tell him to fuck her and get it over with. However her swollen lips prevented her from talking.

Yoko laughed.

- It's seems our bunny just can't stand the waiting!

Katsu tore Kamiko's dress off and forced her to kneel down. Smiling blissfully he was rubbing her breasts, squeezing them and teasing the insides of her nipples. “Finally” Kamiko thought. She saw his cock hardening under his pants. Katsu undressed himself and unceremoniously entered one of her breasts. Yoko was observing the scene with satisfaction.

Kamiko was moving her torso vigorously, so the boy could enter her deeper and harder. Her body had betrayed her once again. She didn't care about her humiliation anymore: lust had overpowered her. Nothing else but the pleasure mattered at that time. The pleasure for which she could bear shame, anger and pain... She was taking a delight in Katsu's every push; each gave her the pleasure she craved. She gave in to that sensation, wishing for him never to stop. After a moment she felt, that orgasm was very close. Her love juices were running down her legs, forming a wet spot on the floor.

She had become a cheap whore craving only for someone to fuck her. Only the pleasure mattered. The orgasm was so powerful she would have fallen to the floor if Katsu didn't hold her.

“Nice.” The boy said with satisfaction. “Maybe I will try her pussy”

Kamiko felt wonderful, blissful. Finally! She wished to cum once more, and then again and again... Katsu moaned through his teeth clenched in pleasure, and she felt his warm sperm spilling inside her. If only she had lasted longer, and let her cum again...

“I haven’t told you the most important thing” Yoko spoke up “Every time our plaything climaxes, a gland in her brain unleashes a drug. She is physically addicted to rough fucking. Isn’t that great?”

“Your turn now” Katsu gasped out.

Yoko kneeled down above her stepmother’s round lips. Kamiko could smell her scent. The girl was already aroused and wet. Kamiko inserted her long tongue into her Yoko’s pussy and the girl sighed and clenched her fists.

“Wow, she is perfect! she moaned “What a great idea it was! Go on bunny! Don’t stop!

Kamiko dutifully kept licking her pussy.”

“We have a few rules in this house” she said, her voice altered because of the pleasure.

“First, you will be wearing an outfit I have prepared for you. Second, you will be cleaning and keeping the house. Third...” the girl moaned loudly. Kamiko’s touch was better than anything she had experienced so far.

“This is Mister Carrot” She said. Out of nowhere an orange toy appeared in her hand. “You need to take care of him and treat him well, because from now on he is your only friend. Am I right Mister Carrot?” She asked and nodded the toy in order to show that he agreed.

” To pay for what you have done to my father, you will please me and anyone who would like to use your body. And last, but not least...” Yoko sighed again. Her orgasm was so close and in addition her own words were arousing her. “... you will cum only when we will let you. No masturbation without permission!”

Kamiko was horrified. How could she stand it? She stopped moving her tongue. A thought of a lack of regular orgasms paralysed her.

“Why did you stop?” The girl shouted. “You must be good and obedient and then maybe I will let you touch yourself. Go on!”

Kamiko was pleasing her again, hoping to earn the orgasm. All of those humiliations were nothing compared to the threat of lack of sex.

Yoko was screaming and moving her hips rhythmically. She felt Kamiko's tongue deep inside her, and its bumps intensified the pleasure in an incredible way. The orgasm was overwhelming and mind-blowing. She didn't know that she could experience something so wonderful. She will be using her toy much more often, that's for sure...

“Great”. She gasped out rising after a while. “I hope you understand all the rules and you will follow them. Now, get dressed and fix us some drinks.”

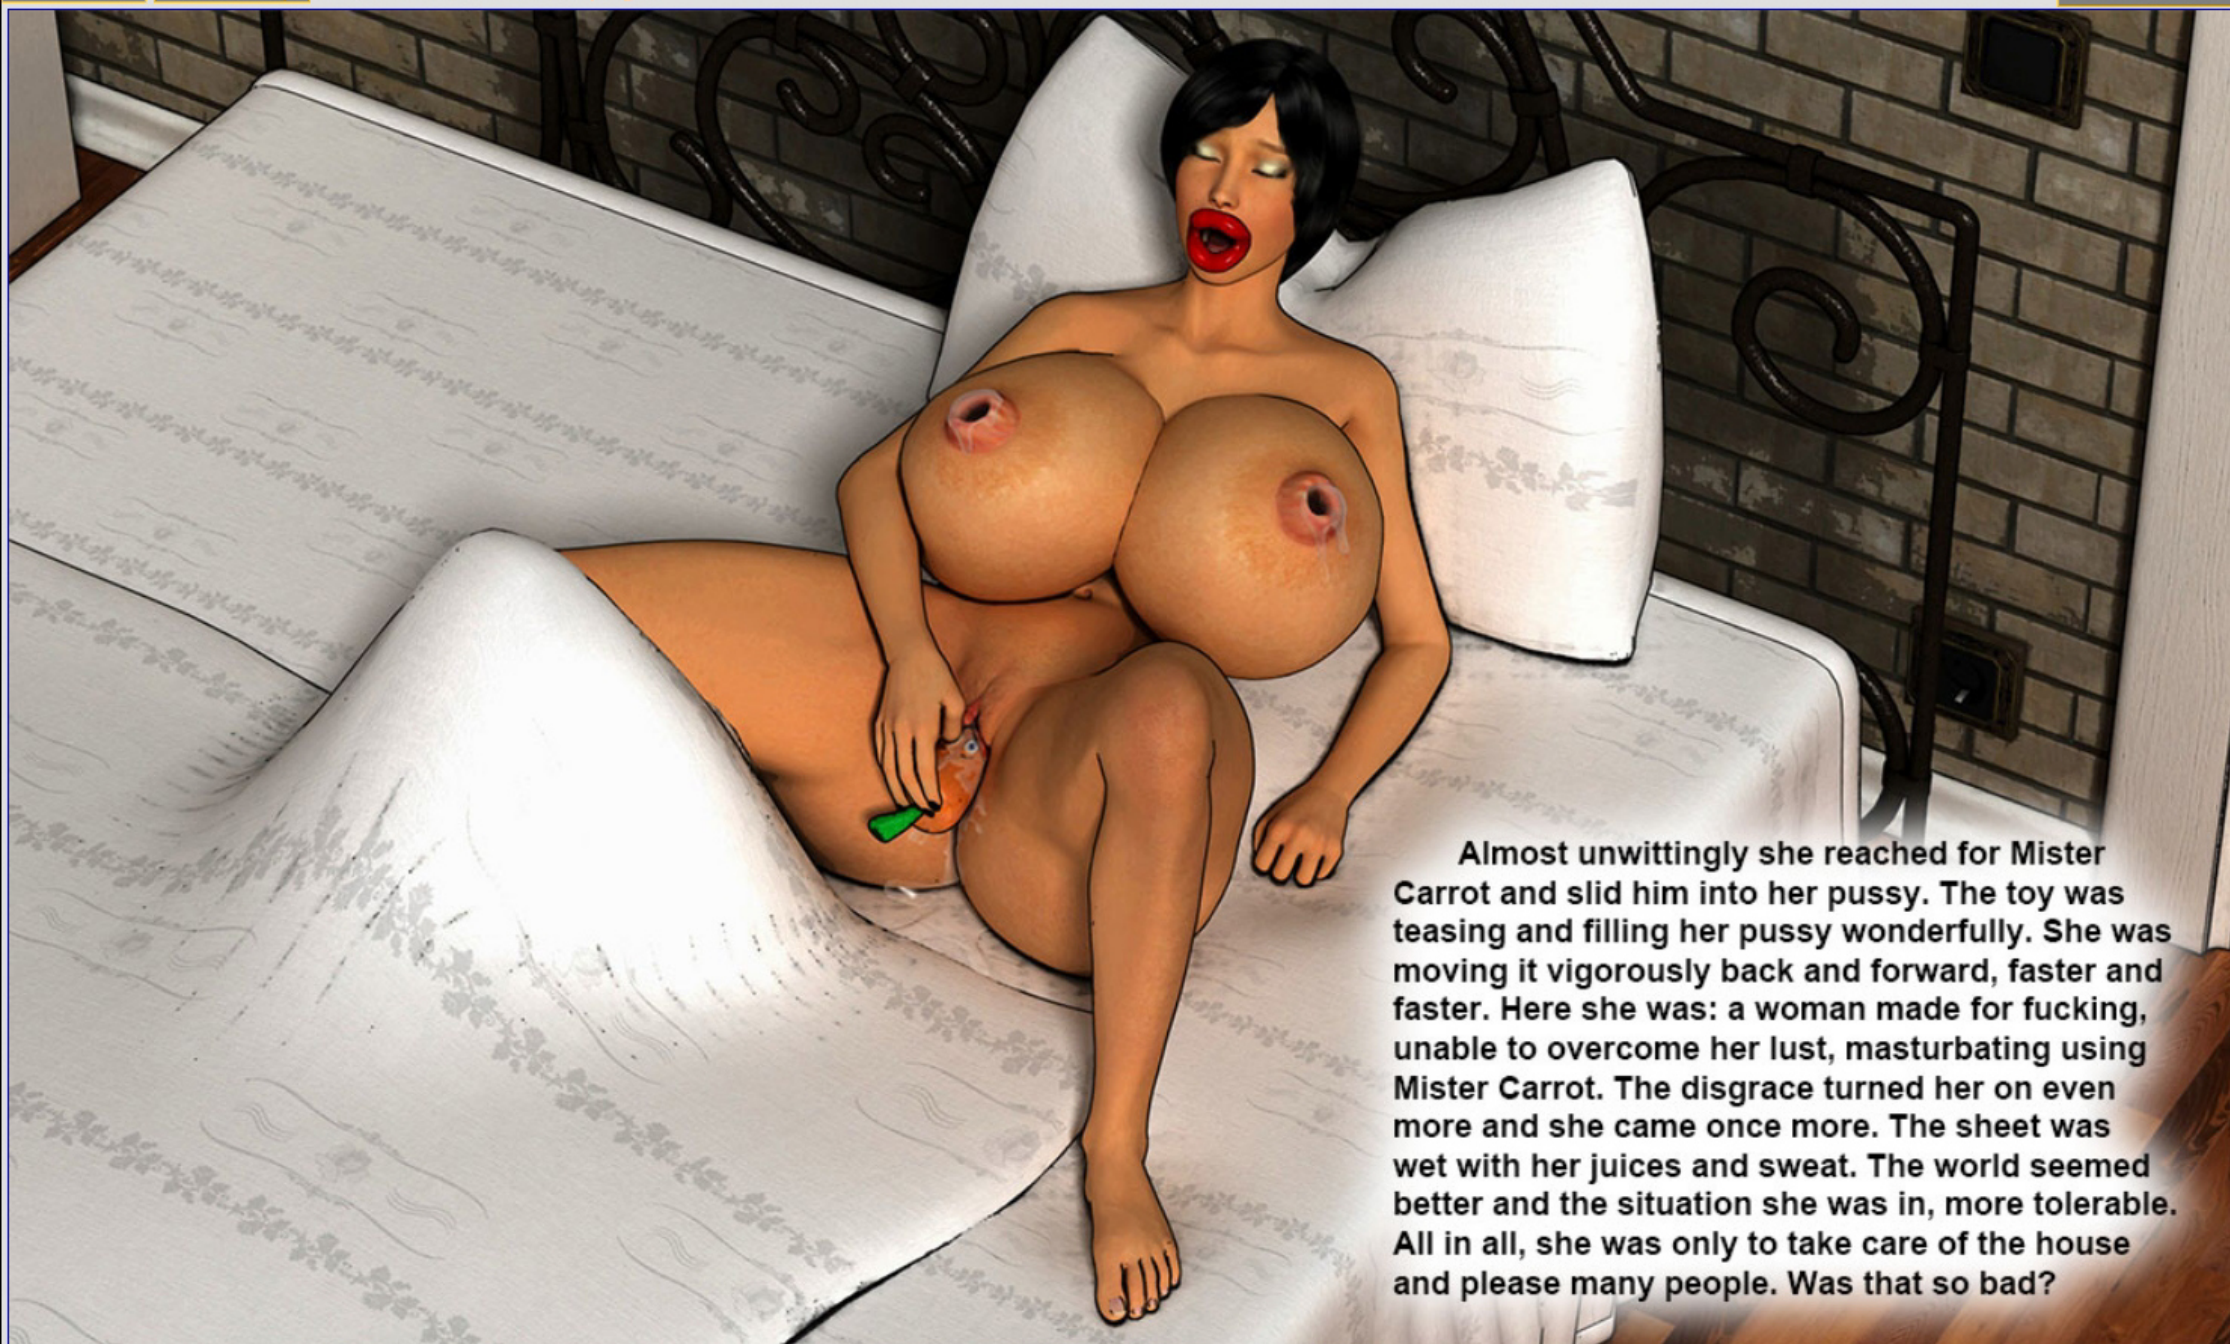

Kamiko was trying to quell her anger and her urge to resist. She followed all of Yoko's orders dutifully. She did the housework, wore the bunny outfit, pleased the girl's guests and even looked after Mister Carrot. She was fantasising about the sex all the time. She did not get enough and it drove her crazy and made her horny all the time.

Sometimes her desire was becoming unbearable, physically painful; particularly when no one had fucked her for a long time.

Like now. Yoko was watching television, and Kamiko on all-fours was serving her as a footstool. The humiliation was difficult to bear, yet the desire was much worse... If only she would let her touch herself. However Yoko turned off the TV and sent her stepmother to her room, ordering to "tuck Mister Carrot in." "Fucked up brat" Kamiko thought. She lay down trying to fall asleep. It was in vain. Her body was incredibly sensitive to any touch. Even the gentle brush of a duvet on her breasts and buttocks was arousing her. Her clit swelled, and her lips opened assuming their round shape.

She wasn't able to hold back any more. Fuck the little bitch's bans. What more could she do to her? She started to touch herself frantically. Her hands were all over her body, almost like she couldn't decide what part of it to fondle first. She was inserting her fingers into her nipples, giving herself pure, wonderful pleasure. She was playing with her clit, wet from arousal. She was moaning loudly, ecstatically and after a while she climaxed. She collapsed on the bed, sweaty and relaxed. It was wonderful. Finally. However after just a few minutes she wanted more. She craved an intense orgasm, which would sate the unbearable urge for sex.

Almost unwittingly she reached for Mister Carrot and slid him into her pussy. The toy was teasing and filling her pussy wonderfully. She was moving it vigorously back and forward, faster and faster. Here she was: a woman made for fucking, unable to overcome her lust, masturbating using Mister Carrot. The disgrace turned her on even more and she came once more. The sheet was wet with her juices and sweat. The world seemed better and the situation she was in, more tolerable. All in all, she was only to take care of the house and please many people. Was that so bad?

After a little while she was masturbating again. Subsequent orgasms were giving her only passing relief and the desire kept growing all over again. She was playing with Mister Carrot, sliding him in turn inside each of her sensitive holes. She hasn't felt so wonderful in a long time!

"How could you do this to Mister Carrot?" Yoko was yelling. "He is your only friend and you used him! You raped him!" The girl was furious and at the same time she seemed content. Was she counting on Kamiko breaking the rules so she could punish her?

"Did you consider how much you were hurting him? How you were shaming him? You are a pathetic friend! Even Mister Carrot knows it."

Yoko was walking through the room, beating the air with the toy. Kamiko was hardly listening to her. Her body was aching, sore after many hours of masturbation and endless orgasms, yet she was horny again. She wanted more. A power that a shallow need for orgasm had over her was driving her mad. How could she have changed from a strong, independent woman into something so weak?

"You have broken the rules that I set down for you." The girl was still shouting. "I had forbidden you to touch yourself. You will pay for it tonight. I will invite some friends and together we will figure out how to punish you. And now you must please Mister Carrot." she walked over to her stepmother and gagged her with a toy. "He has changed a lot. He has learned what sex is and now he is horny all the time. This is your fault! You ruined him! So now you will be sucking him all day long" Yoko laughed.

"Bitch" Kamiko thought. But she was too weak to resist. With her face blushed from shame she started licking the toy and fondling it with her breasts. Her stepdaughter forced her to do it all day long.

The first guest showed up in the evening. Together with Yoko they tied Kamiko up and immobilized her. She was lying in the middle of the living room, helpless, humiliated and unsure of what they were about to do to her. After an hour the house was crowded with people.

"What a huge ass" One of them commented.

"And her tits?" Someone else added. I have never seen such enormous breasts! Can she even move?"

"Apparently, you are addicted to being fucked whore!" Some girl laughed out. "Do you want to please me?" She asked and slid two fingers inside Kamiko's pussy.

The woman didn't expect it at all, because her breasts were blocking her view. She didn't want to get aroused and give them the satisfaction, but her body betrayed her once again. Her lips swelled almost immediately rendering speech impossible.

“She likes it! Make her lick your pussy.”
The girl positioned herself so that Kamiko's lips were touching her clit. Kamiko felt completely helpless. She had no choice. Maybe at least they would make her cum?

She was licking the girl's pussy fervently, sticking her long tongue inside. The girl was clearly enjoying it, because just after a while her offensive remarks gave way to moans of pleasure. Somebody walked over to Kamiko and started teasing her nipples. She moaned, although she was struggling so hard not to show her arousal. The girl above her was screaming loudly and people around them were commenting on the scene. Finally, the girl quivered and climaxed flooding Kamiko's face with her love juices.

The party went on. Every now and then somebody approached her and used one of her holes. Kamiko had given up. She was just a cheap slut with no self-respect. A Bitch. A fucktoy. Nothing more. She was climaxing for the first time when some boy was fucking her violently while rubbing her breasts. She immediately felt better. Fatigue and pain were gone. Her helplessness made her only more aroused.

Subsequent orgasms came one after another. She didn't know how many people she pleased that evening. Her tongue and lips were sore, and all muscles in her face were aching. But the only thing that mattered was that she came. Many times. It made up for everything.

“Do you now regret that you have broken the rules?” Yoko asked Kamiko nodded her head in agreement because that was the only way she was able to respond.

But she didn't regret at all. At that moment she could only feel blissful fulfilment that washed over her body and mind. Even her shame was gone. The disgrace no longer mattered. She only wanted somebody, anybody to have sex with her. Fulfil her constant desire.

She was rather content that her body had been modified. It made her much more attractive. A life of a fuck toy didn't seem so bad after all. Professor Tanaka was right. She even felt grateful to him...

Another set of modifications and a question about the nature of Yokos revenge.

Voting finished! See results below.

Yokos revenge

Mind breaking forced pleasure

Appearance

Extreme waist reduction that lowers mobility.

Pleasure doll

Heavy modified anus, turned into pleasuring hole.
