

Chelsea Anderson

Name: Chelsea Anderson
Profession: Unemployed
Height: 1,62m
IQ: 97
Age:21

Chelsea is a cute and energetic girl that loves to have fun. She loves being the center of attention, but recently her more “curvy” friends are taking away that attention from her.

She always wondered about improving her body with plastic surgery but never had enough money. She envied the girls with massive boobs and round butts that got non-stop attention from the guys.

After careful consideration she asked her current boyfriend who she knew only 3 months and he thought it would be a great idea for her to get some plastic surgery! She applied for a free set of plastic surgeries at the DollProject company as she had no money. She would get free plastic surgeries but in return the DollProject company could decide what they wanted to change. The DollProject was now in control of her body...

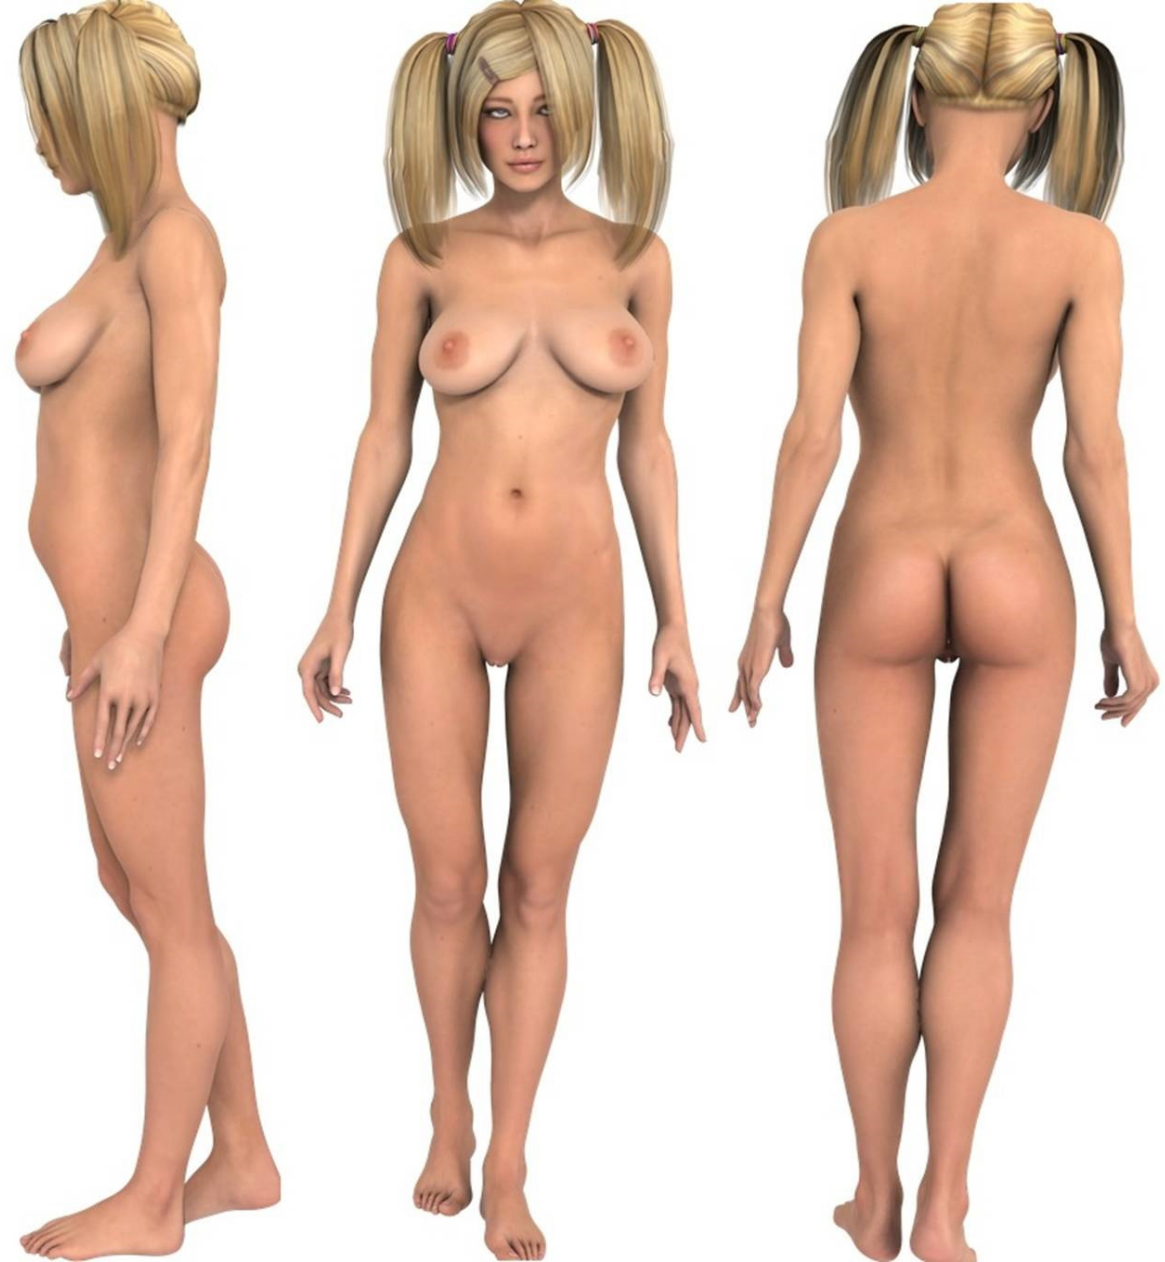

Hey everyone! Take a good look at me
because I'm going to get my first surgery
tomorrow.

They didn't tell me anything about what
they're going to do. I'm curious! Hihi

Chelsea arrived at the clinic. She was told to undress so the plastic surgeons could take a good look at her.

They made a plan to turn this girl into a fake, curvy bimbo.

Lets start with the first surgery!
I'm curious what they will do to
me :)

The first surgery was planned to enhance the breasts and ass.

They wanted to make Chelsea look as fake as possible and not natural at all; so they lifted her breasts so they wouldn't hang down. They then inserted 2 massive implants that was filled with a special type of foam instead of silicone. The main difference was that the foam implants were almost as light as air so Chelsea's breasts would never sag and would always look like she had 2 balloons on her chest.

They also placed 2 silicone based implants under the muscle of her buttocks making it nearly 3 times as big as before. She now had a curvy round ass any girl would die for.

My boobs look sooo big! I don't think anyone will think they're real but I don't care!

They're not even that heavy. They're quite light actually! I'm gonna look so great in a bikini!

A 3D rendered female character with blonde hair styled in two pigtails. She is shown from the back, looking slightly over her shoulder. Her body is highly muscular and toned. A speech bubble is positioned to her left, containing text.

It looks like they put some implants in my buttocks too. I've always thought my ass was too small... I finally have some junk in the trunk :P

Progress 

Progress 

The word "Progress" is written in a stylized, outlined font. To its right is a graphic consisting of a horizontal bar and a vertical line meeting at a right angle, forming a shape similar to a right-angled triangle or a corner bracket. The bar and line are light purple with a black outline.

I need to go shopping. With my new ass and breasts, my bras, jeans and other clothes will never fit anymore.

How do you like this new set of
lingerie?

I love my new ass. Doesn't it look good ;)

It does feel weird when I sit on it though. Like I'm sitting on 2 massive pillows.

When I wear this everyone can
check out my new chest. I'll get
so much attention from everyone
when I'm going out ;)

Does my ass look big in this dress?

I love what the surgeons did honey! You look amazing!

Fuck me harder! This is amazing!

I'm glad my boyfriend likes the changes.

A few days later it was time for the next surgeries.

This time Chelsea's lips would be enlarged with silicone injections. The surgeons put red dye in the silicone making her lips very red like she was always wearing lipstick. When she would meet someone the surgeons wanted the men to focus on the fake extreme features like her massive ducklips or enormous breasts instead of her cute face.

The other operation was a difficult one. The doctors modified Chelsea's vagina and anus to an extreme level. They removed her clitoris and relocated it deep inside her rectum. From now on she would feel no more pleasure from normal sex and could only orgasm from having something deep inside her asshole. They also removed the glands inside her genital labia that produces the lubricant when being aroused and placed these in her anus. Whenever she would get horny, her anus would now start to gape slightly and become very wet – exactly how her vagina used to work.

My lips are massive! They
feel like they aren't even
mine...

I hope I can eat and speak
properly with them.

They did what to my pussy
and ass! My clitoris is gone!?
And is now inside my
asshole!?

How the hell am I going to
have normal sex?...

Progress

Progress 

Hey sexy. Do you like my new lips?

Let me show you what I can do with these lips ;)

These lips are great for giving
blowjobs!

But what is my asshole doing? It's
becoming really wet! And its gaping
a little bit!

What the hell! They doctor wasn't lying! I can't feel anything in my pussy! This feels horrible....

My asshole is itching though... Maybe I should try anal sex...

Honey..... You want to try fucking
me in the ass....?

This is the BEST feeling
ever! I can do this all day!

Put your fingers in my
asshole honey!

OMG this feels
fantastic!

Harder...! Faster...! I'm coming
with my asshole!

I don't think I came so hard in my entire life. The doctor really did do a great job on my asshole!

The next surgery is tomorrow. I
can't wait!

The next surgery was going to make Chelsea a lot more heavy. The surgeons had ordered 2 more ass implants twice the size of the previous ones to be inserted into Chelsea's ass on top of the older ones. This time the implants would be inserted under the skin instead of under the muscle. Like this more silicone would fit giving her an even more massive tight ass.

The doctors thought her legs were too skinny in comparison to her now gigantic ass. They broadened her hips, and thighs with more silicone implants.

Chelsea now looked pear-shaped. Her lower half was now much bigger and wider, and much heavier! Walking with this added size would take a lot of getting used to!

Why do I have trouble standing up!
My legs are really heavy!

No way! What have they done to my thighs! They are fucking huge! This is so horrible!

And look what they did to my ass! They added more implants!

I look like I can squat 1,000,000 pounds with these thick thighs and massive ass!

I cant believe this! Who is going to have sex with someone who has an ass this huge!

Progress 

Progress 

Hi honey.... Do you like what they did to me? My thighs and butt are too big don't you think? Don't I look horrible?

Sit your big ass down on my penis
XD

Owww wow! Your cock is sooo deep inside my ass! This is amazing! It feels sooo good!

Yes, cum inside my big ass!

I'm cumming!

This outfit looks great doesn't it!?
Or is it a bit too slutty to wear in
public?

That guy is pretty fit! And he's checking me out... Lets go talk to him...

Damm that ass! She squats!

Excuse me sir... Do you maybe have something big I can put inside my ass?

What the hell! Is she for real?

Her asshole looks pretty tight... I don't think she ever had something big in there.

I hope I don't destroy her asshole XD

This penis I friggin massive! I've never seen anything like it!
The tip barely fits in my mouth! It'll never fit inside my ass!

Please sir... be gentle with my
ass... go slowly...

Wow. This bitch's ass is really tight!

OMG his fat cock feels so great inside my ass! My asshole is gonna cum sooo hard!!

That felt great but now my ass hurts like hell! I can't even walk properly. I've got to think of something so bigger things will fit in there without it hurting...

This should solve my problem.
The package arrived faster than I
thought. Well... lets open it and
get started.

Ahhh it looks great! I'm soooo excited put this in me.
This will stretch my asshole and will feel amazing!

I've got to admit though. It is much bigger than it
looked on the internet store.

Oww well, once I can fit this enormous thing in my
ass, I'll be able to take anything up there in the future
;)

It's big right!? Do you think I'll be able to
fit the whole thing?

Let me slowly sit down on this thing :)

This feels awesome! The tip of the plug slid in pretty easily.

OMG! My asshole is being stretched sooo much! This plug is massive! And I haven't even got the thickest part inside me yet...

MY ASSHOLE IS GONNA TEAR OPEN! Just a bit more! I'm almost there!

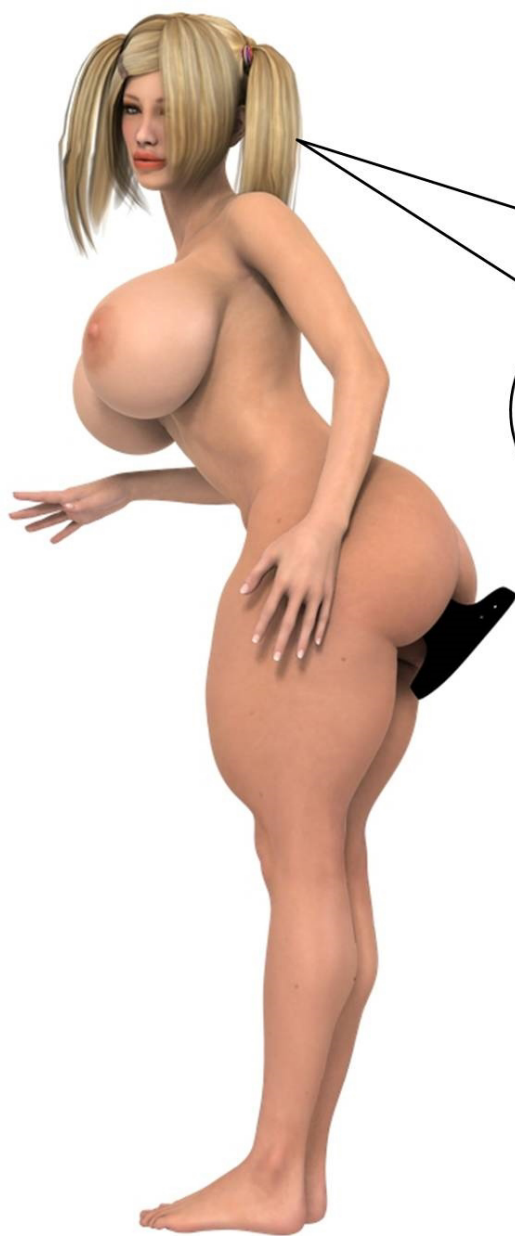

THIS FEELS AMAZING!!! This buttplug is awesome! I cant believe my ass fit the whole thing inside!
I feel pretty stretched and full now though.
I've got to get used to this feeling a bit...

Look guys! I did it! The whole plug is inside my
ass!

Lets see how long I can keep this big plug in here. A week maybe? If it starts feeling too small I'll find something bigger ;)
You think a melon would fit?

But first I've got to think how I'm gonna wear this in public... It is sticking out quite obviously. Maybe I can cover it with a skirt...

See you next week guys ;)

To be continued...

End of part 1
