Mary was engaged to Fabrizio, an Italian Mafioso who was well known in secret sex organizations for dark kind of fetish and fantasies. Mary as a very clever girl managed to make him fall in love in order to get the vast fortunes he got. But one day she made a huge mistake cheating on him and the next day found her. She was kidnapped and locked in some sort of lab.

Mary woke up tied in a medical table from the mysterious laugh of her previous kind fiancée.

- Welcome my little pet. Did you think you can deceive me and cheat me like this? You should never get in trouble with me..And you just did..Now you're gonna realize how it is to being treated properly...

She tried to scream but was unable due to the drugs she was injected

She looked and begged for forgiveness but there was no place for begging there..

-Take a rest and take your time to see the world around you cause it will never be the same, he told her and left the room.

Next he walked into an office sitting and chatting with a close friend of his - a very well known doctor specializing in plastic surgeries and chemical experiments who was expelled from the world due to his experiments to humans.

-Hey Fabrizzio, I owe you many favors over the past years..So tell me what you have in mind with this cute little girl..

- Let me tell you, I always wanted a sex pet and I think this one can become a state of the art in this...All we have to do is give her the expected motivation....And modification of course.. Hehe...

I have many ideas but let's just stick to the basics for the beginning.

I want her trained as a pet and keep on modifying her to suit my needs.

So after an experiment session she will be trained to fit her new style..

Giving him the money the doctor told his personnel to prepare for the first course of surgeries. Mary was injected some more drugs and gone under a deep sleep.

Fabrizzio has serious plan for Mary. He plans to turn her into his personal sex pet.

Let's see the first assignments he gave to the doctor

Face modification:

- Tongue modification making it longer and making her very difficult to speak normally limiting her only to barks and whines

Breast modification:

-Natural hormones making her tits bigger and more shaggy

Leg modification:

-Surgical modification of the Achilles tendon so she can only walk on all fours.

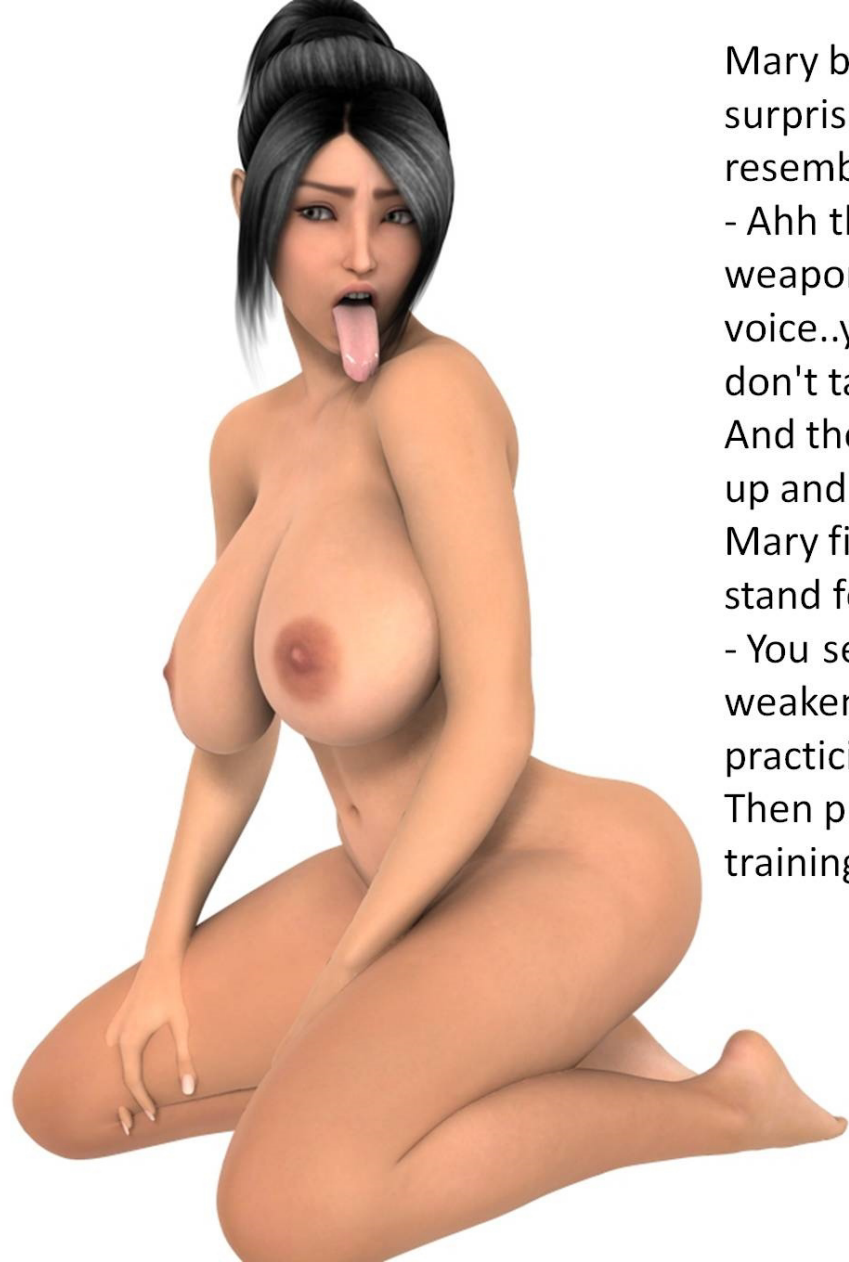

Day 1

Next morning Mary woke up feeling a little different..tried to shout but no voice was coming from her mouth..she also felt hot and heavy in her chest..Then the doctor came in for some explanations

- Good Morning Pet..I'm here to inform you about the changes you've undergone...First of all you've been injected with some hormone making your tits bigger and shaggier..around cup D I would say..pretty amazing isn't it? Don't worry we 're only just beginning..

Mary being terrified tried to scream, again there was another big surprise..she watched as her tongue was much more longer resembling a dog's and once again she couldn't speak a word..
- Ahh this one, said the doctor, this can turn into a big blowjob weapon..with the proper training of course..and as for the voice..you'd better begin practicing barking and whining..pets don't talk right?

And the last one before going into training..why don't try to get up and walk?

Mary filled with curiosity tried to get up but when she tried to stand fell in the floor..

- You see we have modified your Achilles tendon shortening and weakening it so you will never be able to walk again..better start practicing that too..

Then putting a collar and a chain on her neck took her to her first training lesson..

- First of all we have to train in you in blowjobs..see that dildo..crawl to it and begin demonstrating your skills..it might take a while to learn how to handle your new tongue but in the future I'm sure you could even curl the tongue around the penis and play with it..

Fabrizzio was there also watching the progress of his pet before going to discuss with the doctor about the next assignments..

- Very good job till now doc...

-oh I'm glad you like it Fabrizzio..so what's next?

-In this folder you will find the money and the next modifications as well as the next training session..you will also keep the pet restrained in a cage so she learns her place faster..

the next modifications are :

face modification:

- *collagen lips enlarged into a small O ring for better sucking purposes*

ass modification:

- *injection enlargement into a little more rounder and bigger ass*

feet modification:

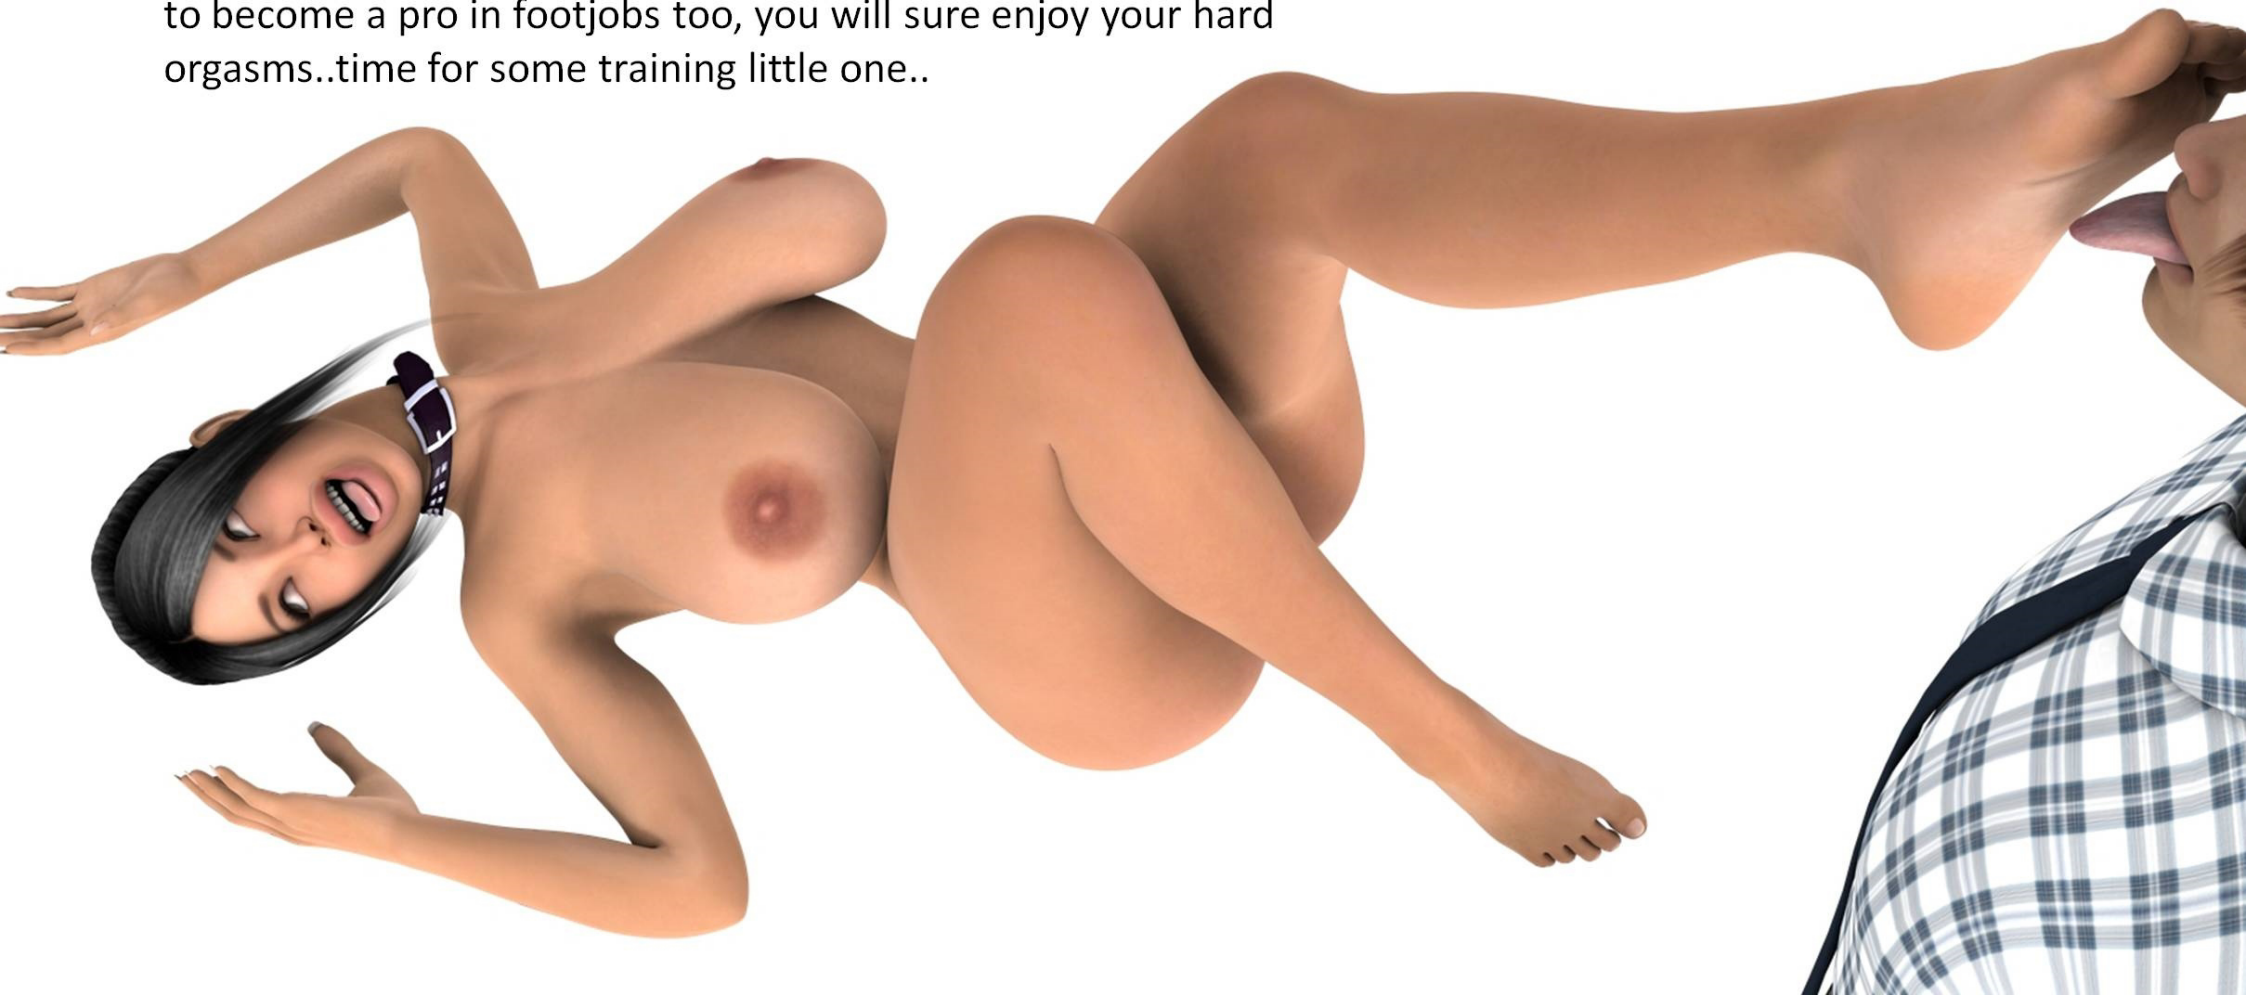

- *reassign body nerves into making her feet hot erogenous zones.*

After resting for some days Mary was being prepared for the next assignments..scared enough of what's in store for her she was drugged to sleep..When she woke up she found the doc beside her and felt a strange feeling like sitting on pillows or something in her mouth was feeling different. -Hello again sad the doctor..as u know it's time to inform u...you may feel like sitting on pillows because the expansion we made into your gorgeous ass...also for rewarding your blowjob training your lips are now enhanced with collagen to give more potential in sucking..and for the next one let me demonstrate..

The doc then uncovered her feet and started tickling and massaging them..She felt so much aroused and the doc licked her soles she come giving an intense orgasm..

- Your feet now are a hot erogenous zone..so when you are going to become a pro in footjobs too, you will sure enjoy your hard orgasms..time for some training little one..

The doc called another assistant and ordered Mary to sit on her new big butt and present her feet and start working on their dicks..one time simultaneously and one time the one after the other.. She had such intense orgasms it was more like torture than the pleasure..

Once again Fabrizio invited the doctor happy as he was seeing the progress..

- Very good doc..very good..Now to the next assignments as usual..take the folder and see you next time

face and hair modification:

- red color on her hair along with tight pigtailed and cosmetics with many earrings, nose rings and piercings

pussy modification:

- modified puffy pussy lips like they are permanently swollen and clit ring cosmetic mod

feet modification:

- special chemical substance applied making them turn super soft and pink along with permanent French pedicure. The cosmetics here include toe rings in every single toe and a lot of anklets in each foot.

- I see you're awake the doctor said when she woke up after the last surgery..the last modifications is a little cosmetic as well as a pussy upgrade.. She noticed her new hairstyle and face jewelry on the mirror..she also touched her soles to find they were so soft and after having a big orgasm once again she saw her feet jewelry..they were so many..

The biggest surprise though was inside between her legs..se could barely close her legs as her lips were feeling so thick and big..and then by touching them she realized what the doc had done..her pussy was blown up and extremely swollen. There was jewelery on her clit too..

Mary kept the next days practicing her blowjob and footjob skills..she could now suck like a pro whilst using the curling trick with her tongue. She was now also used to giving out footjobs by satisfying many men everyday with her oversensitive feet. She also practiced her walking on four and "speaking" on barking and whining like a good pet.

- Now for the next training session said the doc..

The next training was a gangbang to make her work with all her new assets..she was made to satisfy many dicks simultaneously with her ass, pussy, mouth, hands and feet in a big orgy..after some hours of ongoing orgy she fainted and was put to her cage to rest...

Fabrizzio made the typical visit to the doctor..

-Mr. Fabrizzio you must be very satisfied till now..

- Yes I am..but there's still more..i want her to feel more degraded..and able to satisfy more..I have some ideas of course into more extreme stuff..

- Alright I'll study the next request you have and I will proceed as always..I like the extreme stuff as you know..hehe

- Very well doc..see you soon

Face modification:

- *permanent big O ring lips so the mouth will stay open constantly*

Tooth modification :

- *tooth removal turning her into a total blowjob asset*

Breast modification:

-*expansion of the breasts with a bigger set of implants and nipple modification so they can be used as fuckholes.*

Unknown bonus modification:

-...

We are going entering the final stage of your transformation little pet, said the doctor visiting Mary..after the last modifications I can tell you will never be the same, and after the next and last training sessions you will be ready to be delivered to your new home..

She was filled with horror..she had been through many sick things..but till now she was completely obedient and could do nothing more than accept her fate..

- See you next morning said the doctor..

When she woke up and saw the changes she began crying thinking about what a freak she was turned into..

-Well well, as far as I am concerned you already know that some major stuff are going on here but as always I shall analyze some things.. You should have realized by now that you're the ultimate pleasure pet toy for any man.. or should I say.. for any group of men.

Now:

First your face is turned into the complete blowjob asset..your big O ring lips will never be able to close.. and to prevent any accidents, your teeth have been removed.

As a bonus we gave you a cute little piggy nose, nice right?

Now your breasts.. We inserted some larger implants, so your chest must be feeling extremely heavy! But that's not all! There lies the surprise...we have modified and enlarged your nipples so they can be used as fuckholes..simply amazing huh? According to my calculation you may now be able to please a dozen of cocks at the same time...but for the most of fun your training session has to do with the stretching of your fuckholes..have a good time..

After spending her training days in the lab she was delivered to her owner Fabrizio who held a big party to unveil his "project"... Mary was unveiled and then the main event was ready to begin..All the visitors were supposed to use her in every way which resulted in a huge gang bang orgy.

I feel so full!

My breasts
feel amazing!

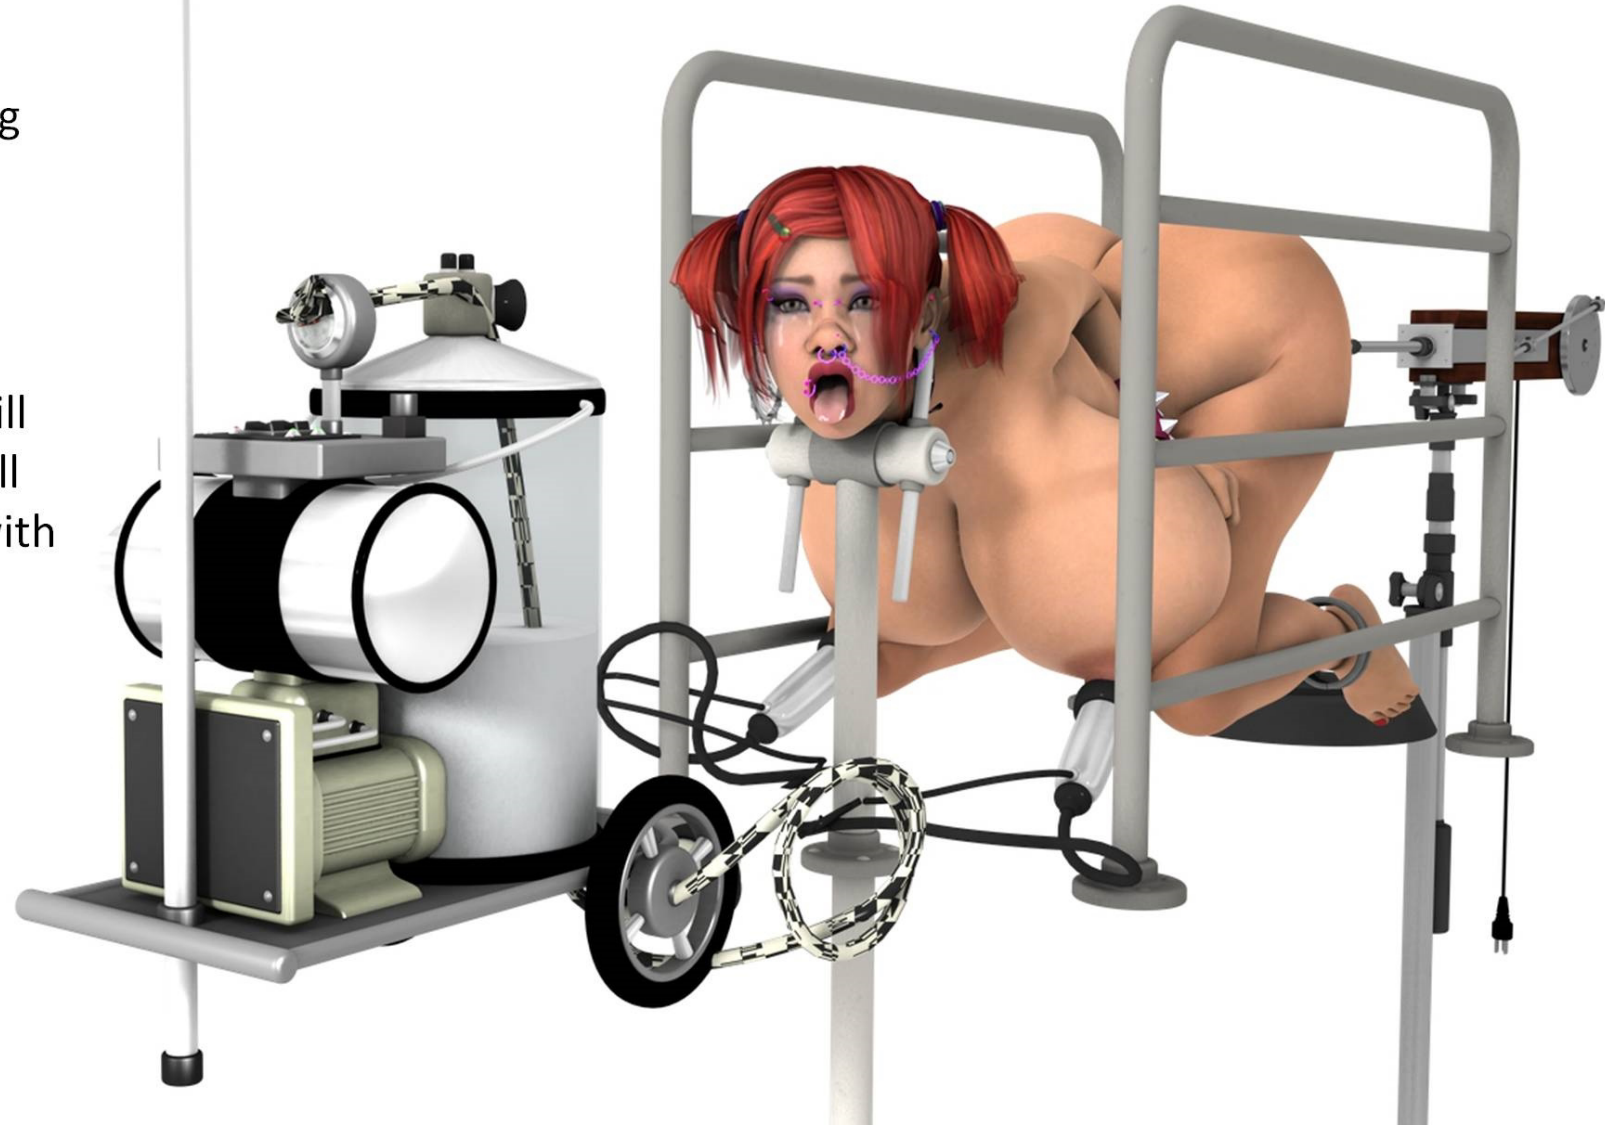

Epilogue :

7 months have passed and Mary was pregnant since the big orgy. She sure learned her lesson the hard way..Her breast were leaking milk and Fabrizzio presented her a last present.

She was restrained in a milking machine fucked by dildo and constantly being milked..
- Very well my little pet said Fabrizioo..You got an upgrade..From now on you will also be our dairy cow..That will teach you to never mess up with me.

The end!
