

Sarah & Bethany

www.dollproject7.blogspot.com

Sarah and Bethany were two of the best looking girls anyone had ever laid eyes on, and they were aware of it.

Together they toned their hot bodies with constant rigorous workouts almost every day in order to improve and maintain their physique.

They knew that with their sexy looks they could get whatever they wanted from whomever.

It didn't take the girls long or require too much effort for them to find two young, successful brothers.

The two men were rolling in cash and weren't too hard on the eyes either, so Sarah and Bethany moved in on them right away to milk them for all they could.

The twin brothers were so wealthy that they provided their lovely ladies with whatever they desired.

New luxury vehicles and name brand clothes were showered over the young ladies.

They pleased their benefactors in any way required.

The girls bought all sorts of outfits to please their boyfriends. Not only did they love the money, clothes, cars, and extravagant trips, but they also really enjoyed the company of the two young men.

They went above and beyond to bring them all sorts of ecstasy. They loved pleasing their partners and being appreciated for their natural beauty as well as their talents in the art of pleasure. Their lingerie and the shows they put on made it difficult for the brothers to maintain control and last long enough to make it through.

“Lets put on a show for them shall we?”

“I think they’ll enjoy us
playing with each other
Bethany”

Often the two girls would play with each other for the enjoyment of their men. Their own need for attention was so great that they would please one another while their partners watched.

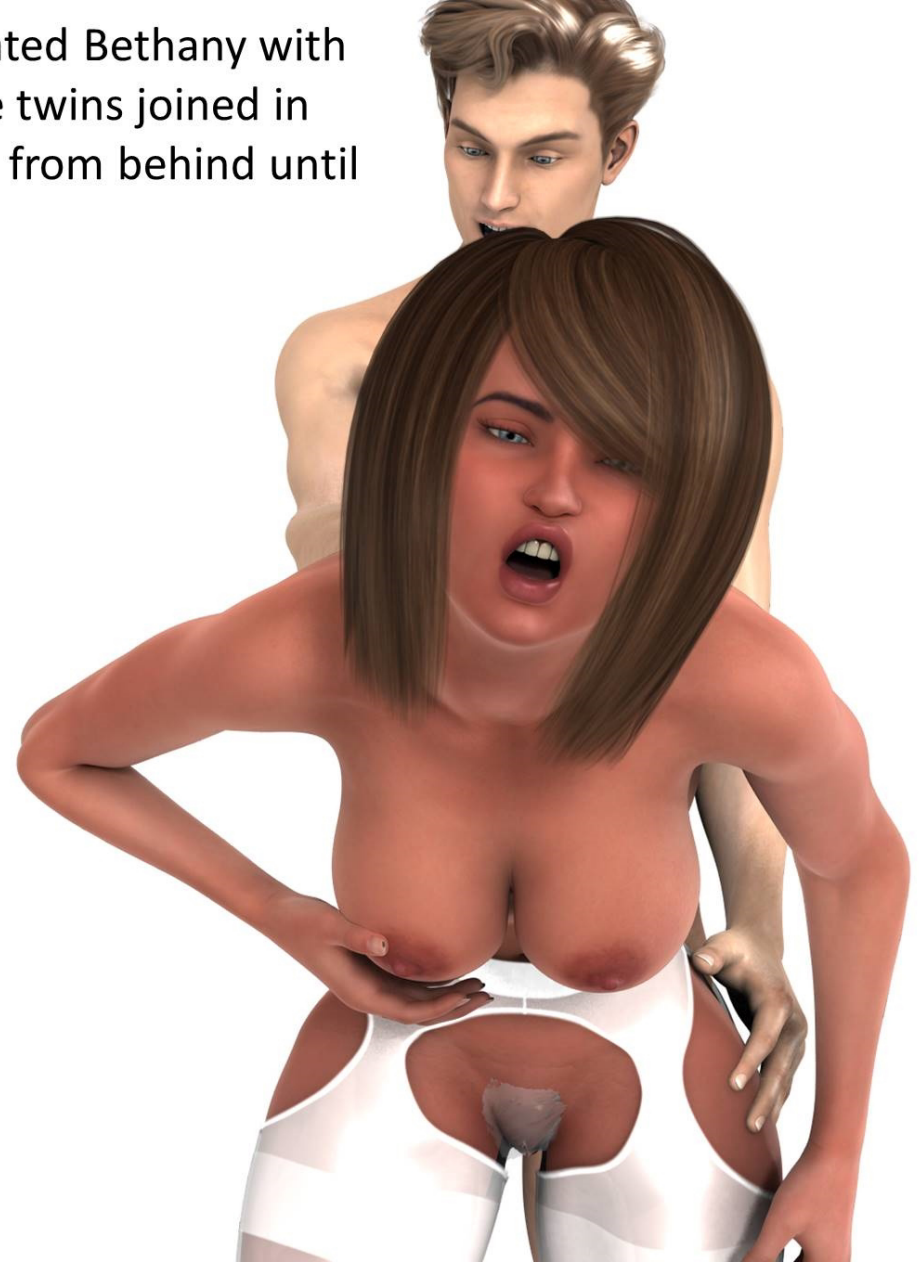

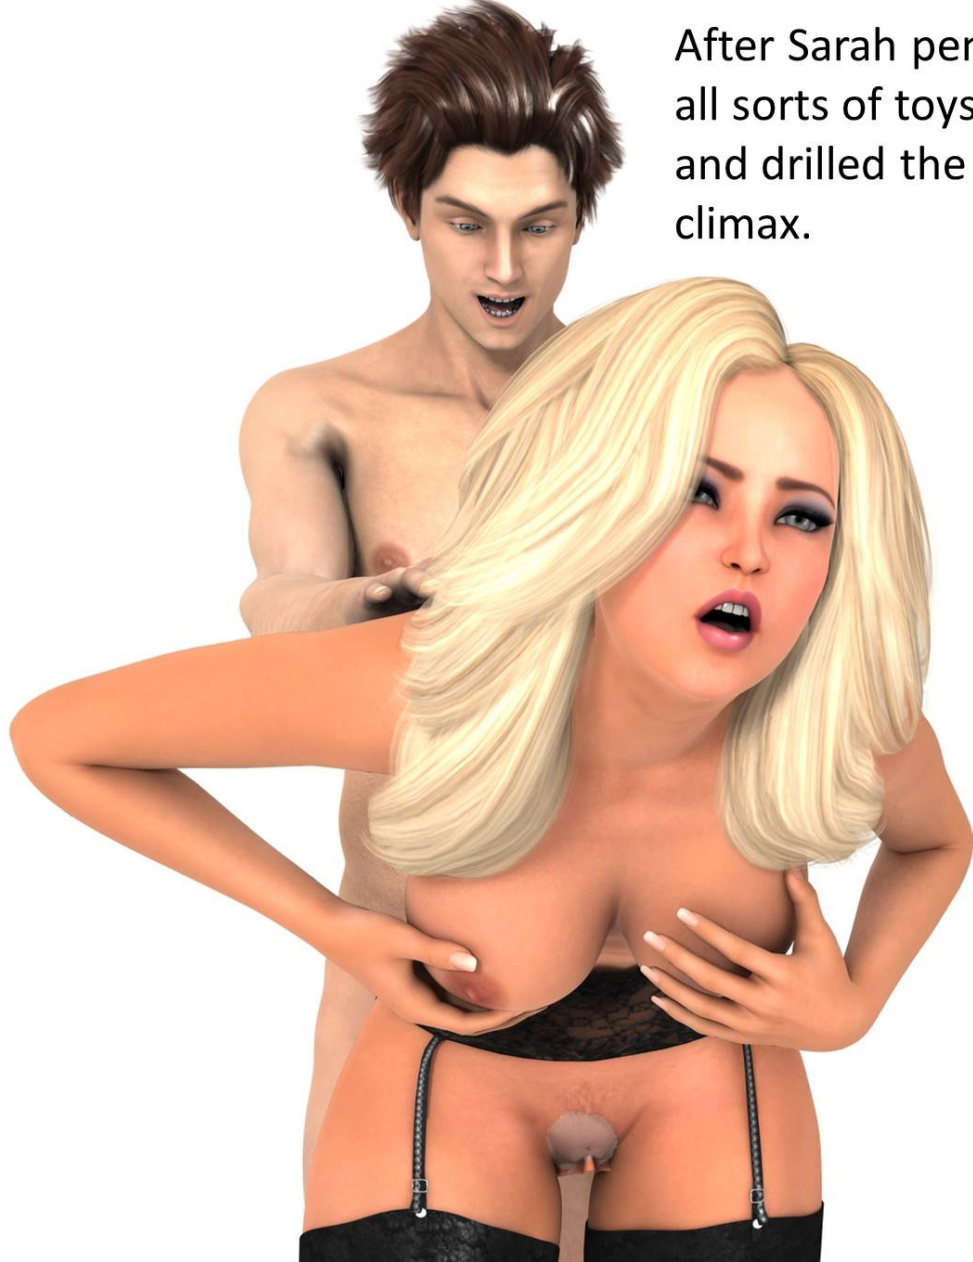

A 3D rendered scene featuring two female characters. On the left, a woman with long brown hair is shown from the back, wearing white underwear. On the right, a blonde woman with long hair is shown from the side, wearing black lace underwear. She has a surprised or pleasured expression on her face. The background is plain white.

“This feels so good!”

After Sarah penetrated Bethany with all sorts of toys, the twins joined in and drilled the girls from behind until climax.

The only thing the girls didn't like, was that the brothers often had their own plans. The two young men would sometimes go out with friends, and they very often had business to attend to.

Sarah and Bethany were the sort of women who needed to be the center of attention at all times. They also wanted to be desired by more men.

One night when the twins were out taking care of some of their business, the girls went to a club and met many different guys while they showed off their assets on the dance floor.

Little did they know that this club was actually owned by the brothers.

Upon arriving back at the mansion, the girls were immediately confronted by the brothers.

“So all this wasn’t enough for you?” one of the brothers asked incredulously while holding back his temper. “Are they unappreciative?”

“Unappreciative of your neglecting us and doing your own thing?” Sarah snapped back at him. “We have our own needs too you know.”

“You want attention that badly do you?” the other brother jumped in. “Alright then, we’ll fulfill your needs.”

The brothers took them to the bedroom, and the girls walked along thinking it would only be makeup sex or something, but as soon as they made it to the bed the brothers held cloths over the mouths of the girls and they quickly lost consciousness.

When the girls came to they found themselves bound in wicked looking metal contraptions in a rather foreboding laboratory. They had no idea what to think, and were dreading the possibilities of what they could be facing.

All the while, a nurse in skimpy clothing with a sinister expression eyed them closely as she held syringes filled with strange substances.

“This nurse will be taking care of you,” one of the brothers explained. “She will be seeing to your *needs* and will be in charge of all modifications.”

The nurse used to be a medical scientist who studied bodily alterations using chemicals. Chiefly she used chemicals to alter metabolization and hormones to change body mass and structure.

Her colleagues always saw her studies as strange and looked down on her, but she was exiled from the medical community when she attempted to start human trials

Regardless, her research continued. Now she is being provided with test subjects by her wealthy benefactors.

“Those beautiful breasts sure are perfect. Let’s see if we can improve them further shall we?
Wait... Did I say improve? I meant ruin! Hahaha.”

“How about we give you a little more cushion back here? You would like that wouldn't you?”

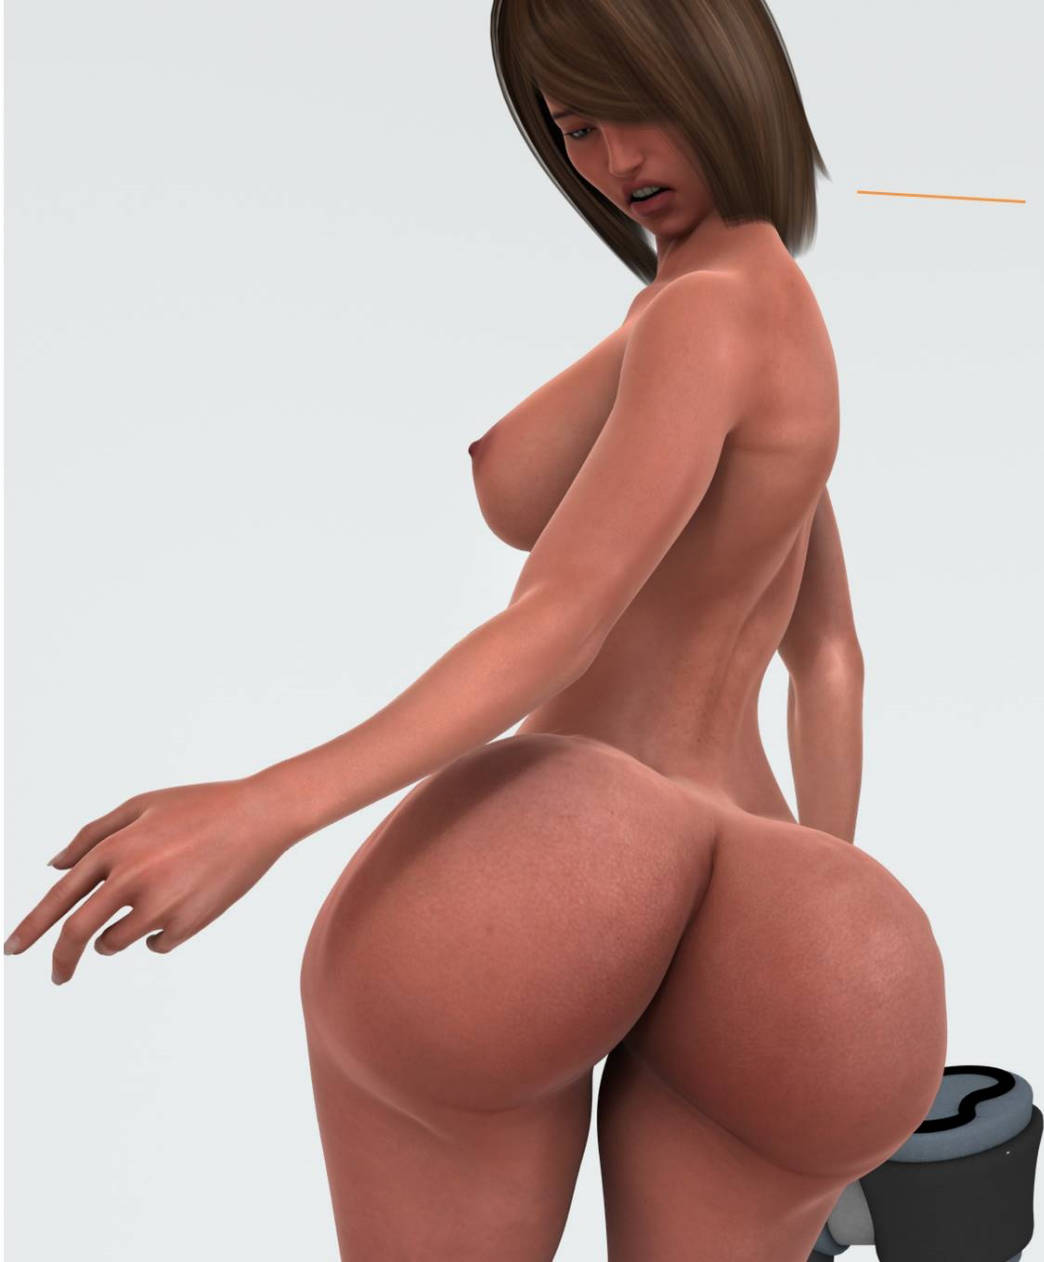

“Oops too late! Haha!”

“Please! Don't!”

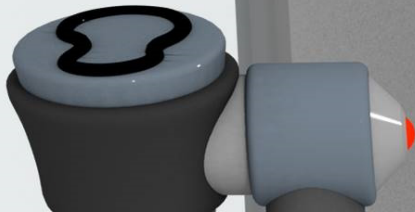

“My gorgeous breasts... Now they
are swollen udders...”

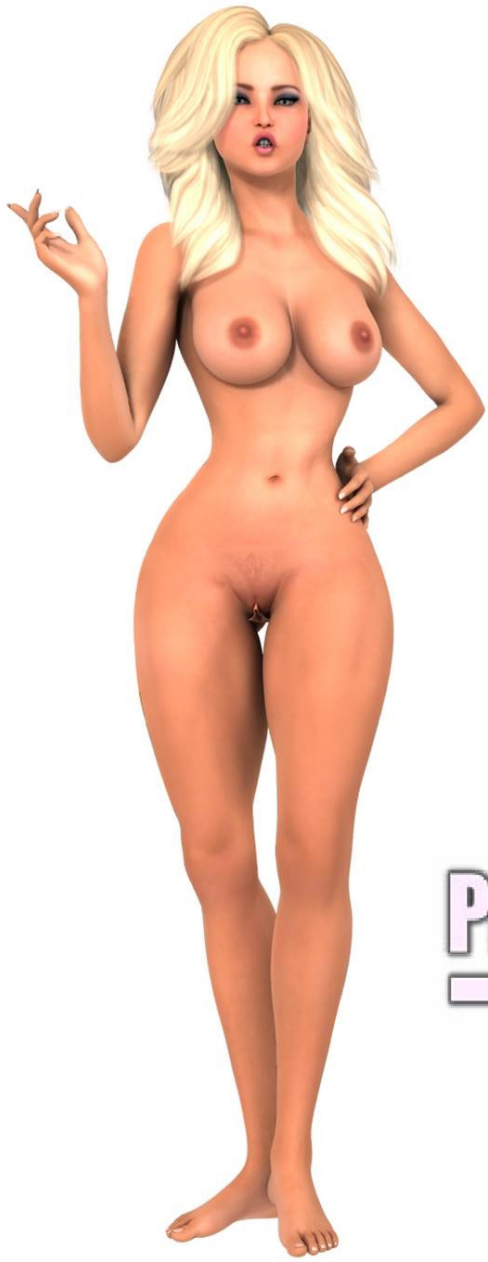

“My ass looks ridiculous. It is so out of proportion, and I can feel it jiggling with my slightest movement!”

Progress 

Progress 

“Okay ladies!” announced the nurse. “It’s date time! You said you needed more attention right? Well now you will get all dressed up and go for a nice evening out!”

“You will also have something else to deal with while you dine out...” the nurse informed them with a sinister grin.

“You will have to keep this in throughout the dinner.”

“Try and relax your ass...”

“Fuck... these balls
are massive...”

Sarah had a hard time maneuvering as she made her way through the tables at the restaurant. She felt as though she would knock things over with her huge ass if she wasn't careful

Bethany was bursting out of the top of her dress and her nipples could even be seen from a side angle.

Both girls felt ridiculous and humiliated as other customers stared at their humongous assets.

“You wanted more attention right?” taunted one of the brothers. “Well all eyes are on you now. It’s not like they could miss you,” he taunted as his brother laughed at his comments. “Just you wait, we’ll be sure to make sure you become an even larger attraction.”

After dinner Sarah and Bethany were returned to the lab and strapped in for the next alterations.

“The next experiment is one I have been wanting to perform for some time,” the nurse told the girls with a wicked grin. “It will change your body’s structure not with surgery only hormones, but by altering your DNA I will change the very information your body receives for its shape and chemical processes.”

“Bethany, dear girl. You will receive the DNA of a proper, full-figured girl. Say goodbye to that fast metabolism and small stomach of yours. Your body will know nothing better more than storing everything you eat in the form of fat cells. And with your new expanded stomach, you’re going to feel hungry a lot!”

“Sarah, since you’re only half the slut Bethany is, I’m going to be kind to you. I’m keeping the chemical composition of your upper body the same. After all, we wouldn’t want to ruin what you worked so hard to keep fit. You’ll enjoy that tight stomach and those perky breasts for a long time to come! But don’t think you’ll get away scot free! We are just going to change the DNA of your lower half. Just like with Bethany, we will drastically slow down that metabolism of yours and you’ll create fat cells even by eating only salads! But, your DNA will be altered in such a way that fat will never be stored on that toned upper body of yours. The only place fat cells will form is on those thick thighs, calves, knees, hips and especially your ASS! Muhaha”

The girls stood speechless and helpless as they the machines began to power up and change the chemical composition of their bodies.

DNA sequence alteration

Bottom heavy – 0%

Pear figure – 0%

DNA sequence alteration

Slow metabolism – 0%

Increase stomach capacity – 0%

Slow thyroid gland – 0%

“Ready girls? When your DNA has been changed even exercising wont do you any good and get your old bodies back”

DNA sequence alteration
Bottom heavy - 60%
Pear figure - 30%

Slow metabolism - 60%
Increase stomach capacity - 40%
Slow thyroid gland - 70%

Bottom heavy -100%
Pear figure - 100%

"I didn't think the changes
would happen immediately. I
guess it made them faint"

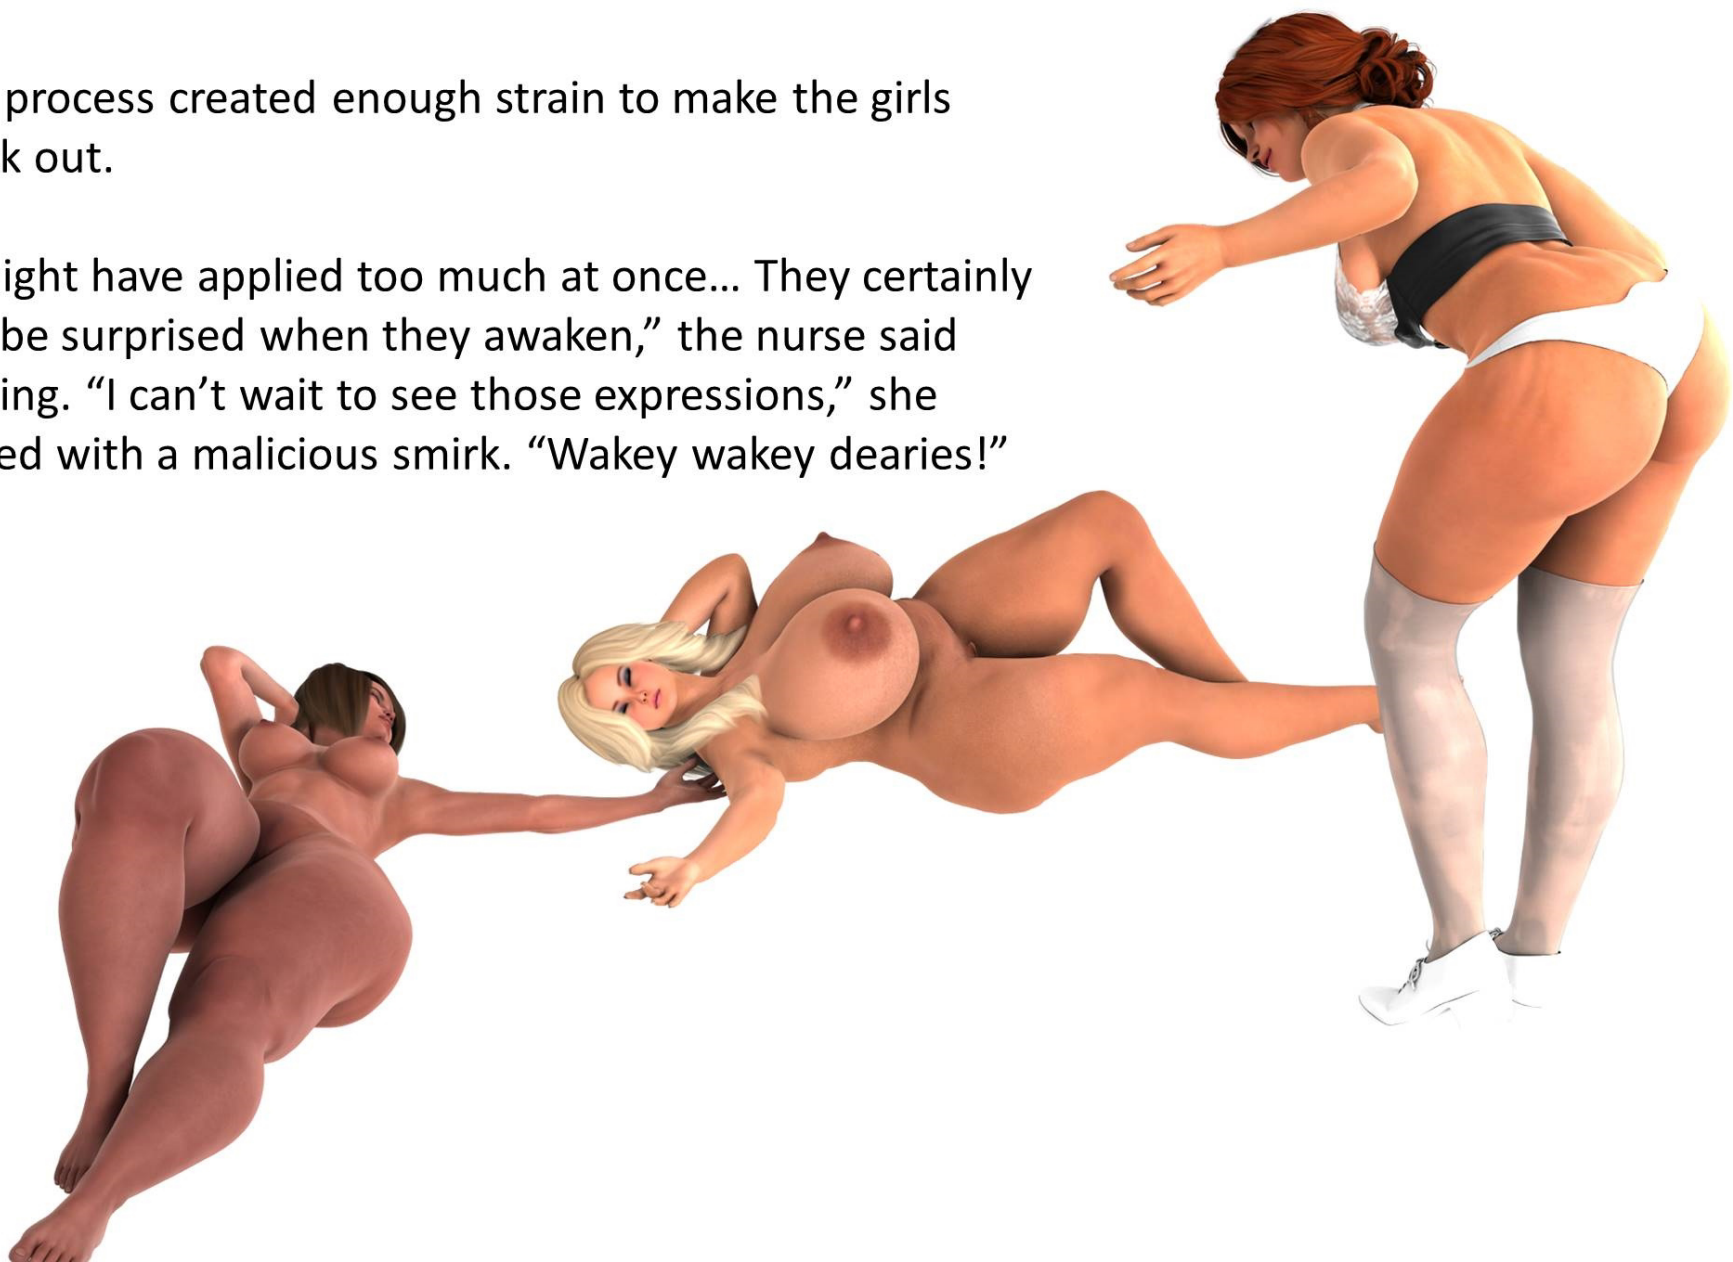

DNA sequence alteration

Slow metabolism -100%
Increase stomach capacity -100%
Slow thyroid gland -100%

The process created enough strain to make the girls black out.

“I might have applied too much at once... They certainly will be surprised when they awaken,” the nurse said smiling. “I can’t wait to see those expressions,” she added with a malicious smirk. “Wakey wakey dearies!”

Upon awakening Sarah and Bethany were horrified by what they had become.

They struggled just to walk about with their new body shapes.

“My tits have swollen to be even larger... What’s worse is they’re so saggy that they hang over my... What was once my tight belly,”
Bethany sobbed as she touched the squishy fat covering her stomach. “I’m just a fat cow now!”

Sarah's huge ass made her feel awkward and bounced as she tried to move normally. Her thighs also jiggled with each step.

Bethany's whole body held fat that shifted with her movements, and she quickly felt tired after trying to traverse any distance. It was quite the adjustment after having been in such great shape.

“I feel like such a freak,” Sarah complained. “My body looks ridiculous. And my legs are so heavy! I’ll never be able to run or jog anymore....”

Progress 

Progress 

“I hope you are hungry girls. You ought to be with all that extra room you now have,” one of the twins said laughing.

“You have one hour to clean all the plates from this table,” his brother continued. “You girls should also get used to eating cheap fast food from now on. Eating healthy just wont be an option anymore. You wont be able to afford healthy sushi and biological foods without our support”

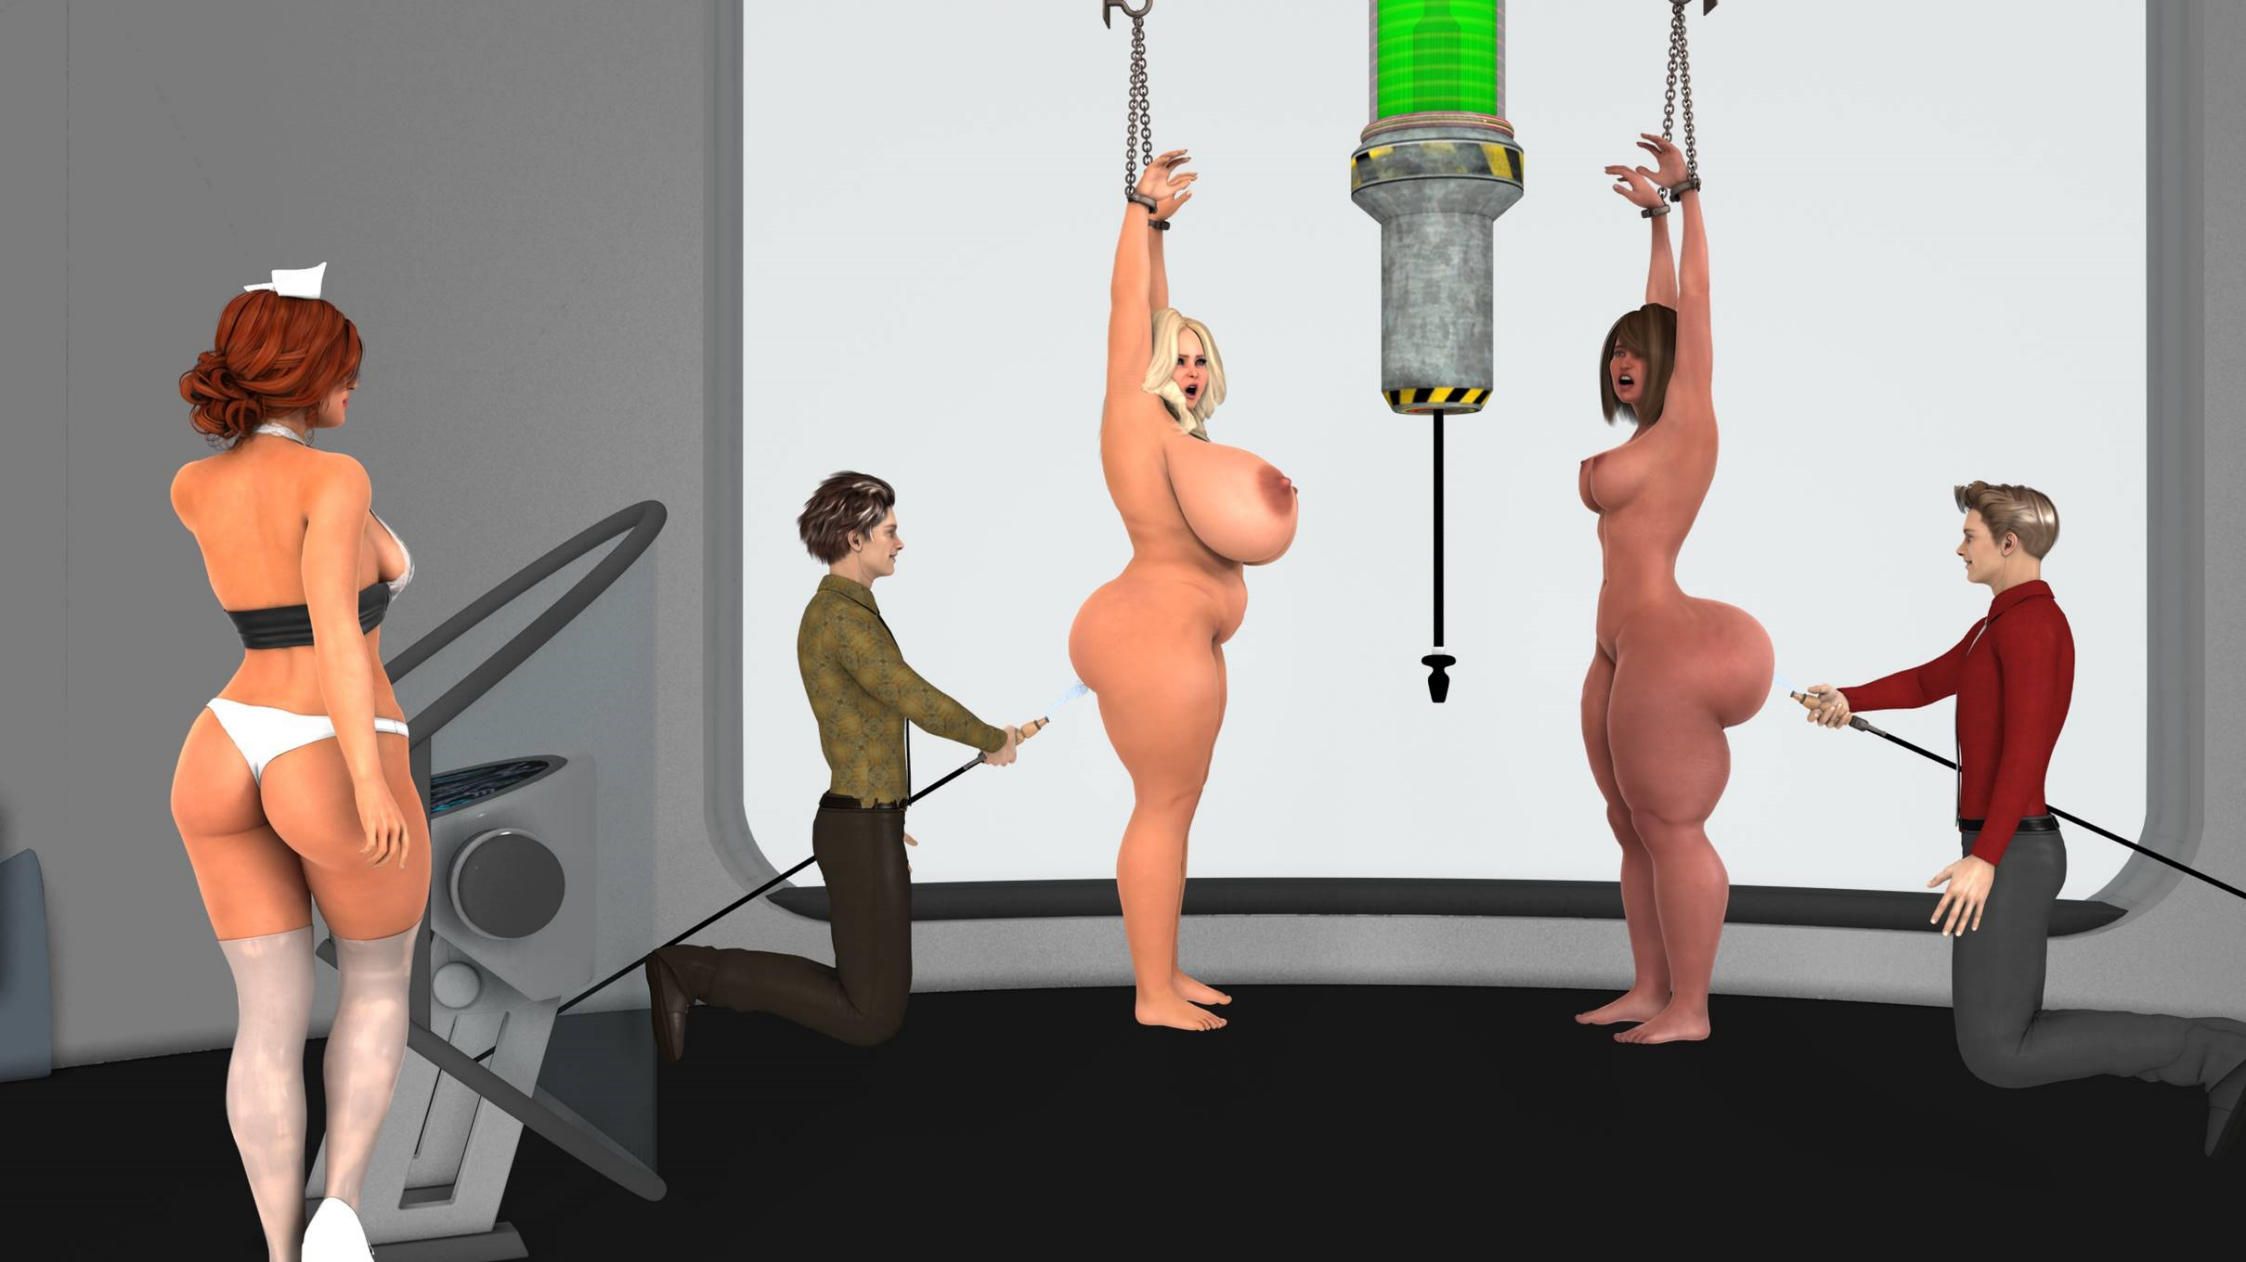

After their meal the girls were taken to the lab once more and fear and dread came into their eyes as they saw the nurse once more.

“Have no fear ladies. Well I should say only one of you has to,” the nurse explained. “You will have to hold 10 liters for as long as possible. The one who caves first will receive an extra 70kg!”

“What do you mean hold?” inquired Bethany. “EEK!” she shrieked when she found her answer as the brother inserted the hoses into the girls’ asses.

Their stomachs quickly began to swell and the two girls soon looked extremely bloated.

Bethany's belly in particular looked larger than ever.

“Hold on there dearie,” the nurse said encouragingly.
“You’re almost full.”

“You too honey, drink it all up with that big ass of yours”

The girls clenched as hard as they could to prevent the liquid from slipping out and spraying everywhere. They knew what would happen if they gave in first.

The nurse came around and rubbed Sarah's bloated belly. "Guess where we are gonna put those extra 70kgs- in your lower bottom half and ass of course!" the nurse said in her sinister voice.

Determined not to give in, Sarah held on for dear life for another twenty minutes until... Bethany let out a screech and released the contents of her bowels.

“Go ahead and release it all dear,” the nurse said pushing on Bethany’s stomach. “Soon you will feel even fuller.”

She then turned to Sarah, "As for you, don't even think of releasing. Here this will help," she said as she rammed a massive dildo into Sarah's ass to stopper it and prevent her from releasing. "You can relax now, that little toy will do all the work and keep the enema inside for you."

“Are you ready to become a seriously overweight girl, Bethany?”

“Soon you will remember this moment as being skinny by comparison.”

Weight gain pump -20%

“I’m afraid that large ass will never fit inside a sports car ever again,” the nurse informed Bethany as she laughed and watched the poor girl swell.

“We’re done sweetie,
you can relax now.
Muhaha”

Weight gain pump -100%

“Well I didn’t expect your breasts to swell into such giant watermelons, but it’s a good addition don’t you think? Hahaha”

Weight gain pump -100%

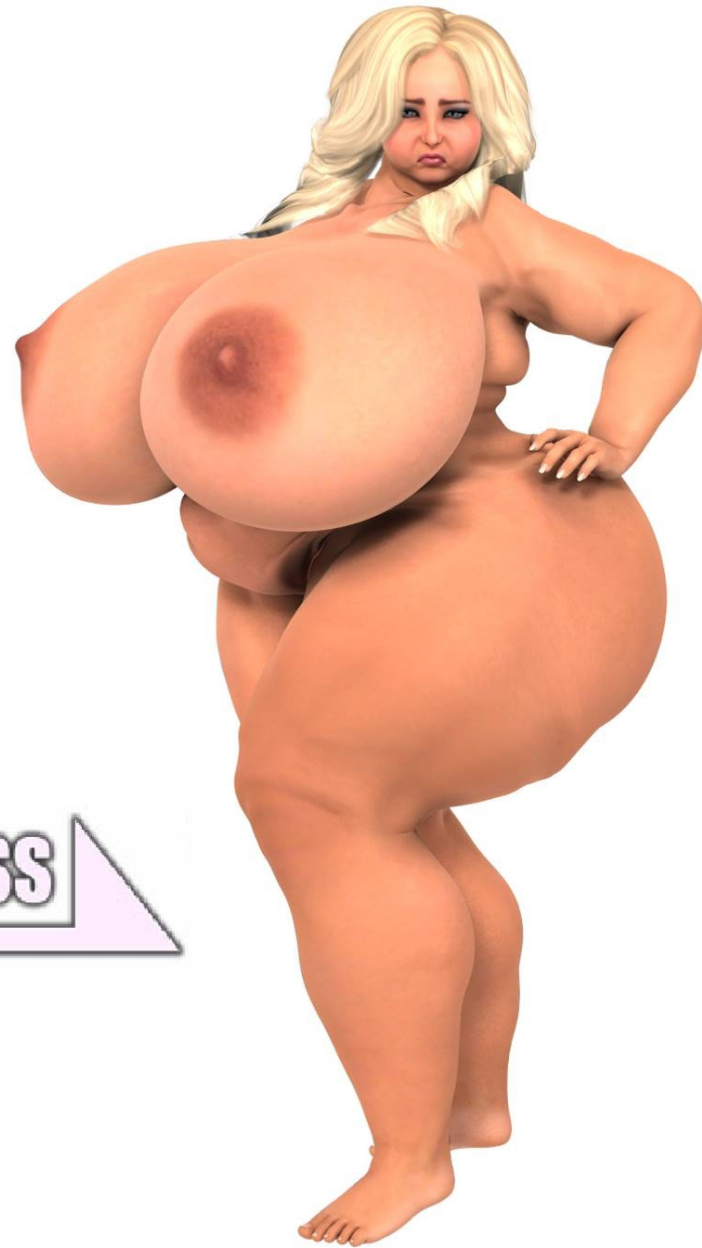

Progress 

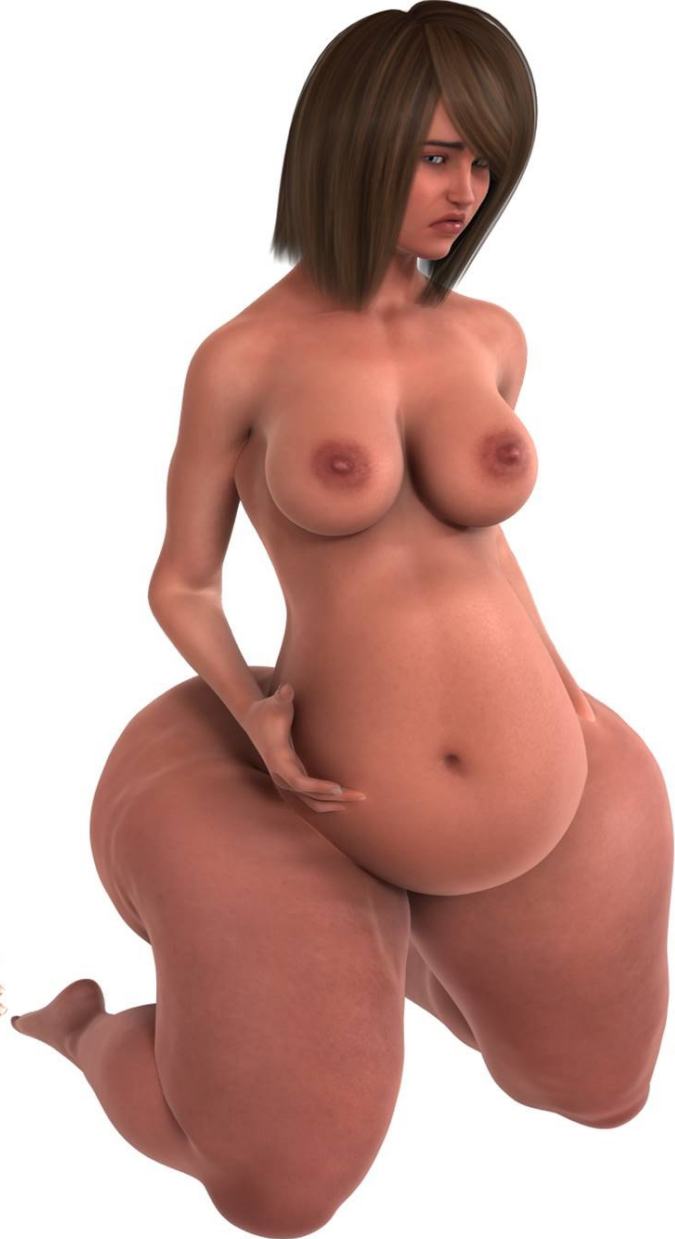

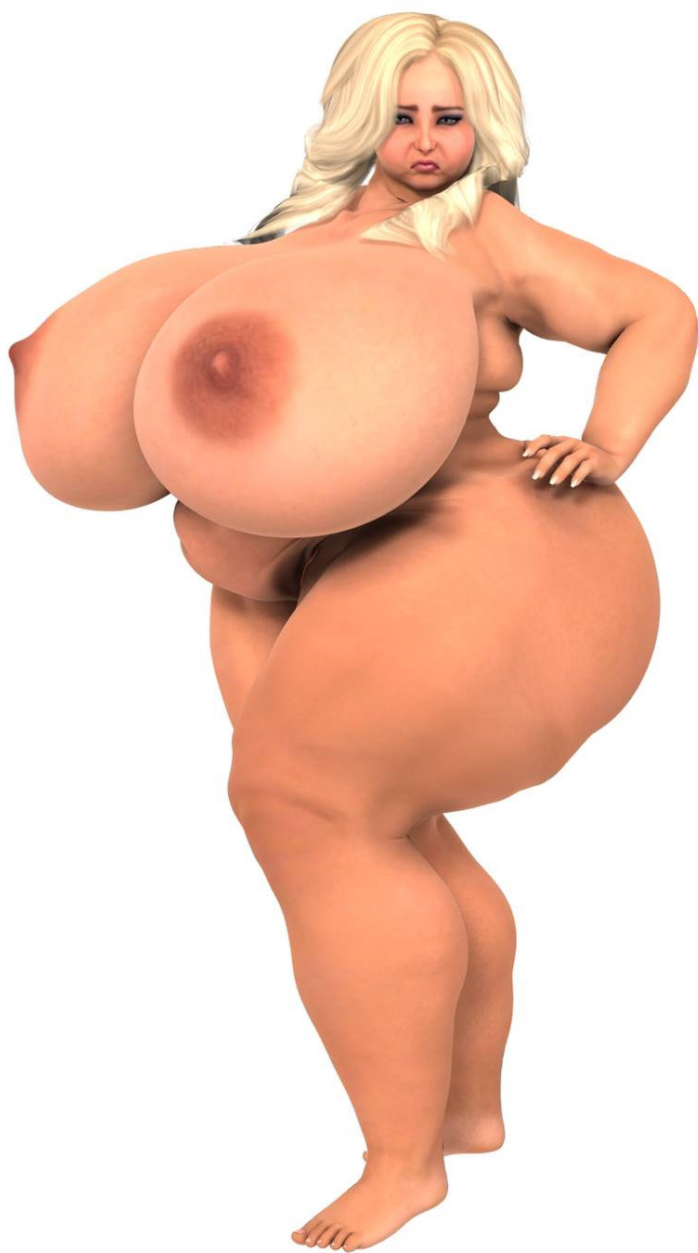

Progress 

Bethany couldn't believe her eyes. She went from being a healthy fit model into becoming a 200kg obese woman. Her breasts were so heavy she couldn't even get up without Sarah's help.

The girls had experienced the wrath of the two brothers. How would their lives look like from this point forward?

“Welcome to your new home and your new life sluts!” one of the twins told the girls.

“I hope you’ve had your fill of attention, because the sort you will find here will not be comparable,” the other twin added. “It sure looks awful in this dump doesn’t it? Well enjoy yourselves!”

“I’ve got to take this plug out and get this enema out... I feel like I’m about to explode!”

“What?! I look like a freaking pregnant pear! Let’s just go inside already so I can get this shit out!”

“Oh shut up! I’m the one that’s as big as an elephant. You have no room to complain!”

After a few weeks growing accustomed to their new lives, the girls had gained even more weight. Gaining weight went almost automatically after their DNA had been changed.

Sarah however still had a skinny and fit upper body and made went on dating sites showing only pictures hiding her ass and legs. With her pretty face she got a lot of interested men to go on dates with her. However allof them were shocked and bailed when they saw the rest of her...

Bethany had finally learned to move normally inside her new body. She had never held a job in her life before but she desperately needed money for her new crappy appartment and food. Today she got accepted for a kitchen job at McDonalds. She could start next week...

The End
