

The Richardson Triplets

Jean

Jane

Joan

Meet:

The Richardson triplets, now aged 23 years old are three beautiful, curvy sisters that are always in for a party. All three of them look exactly alike apart from their hair which they each dyed a different color so people could set them apart.

The sisters are very close! They have always stuck together in school, sports and life. Guys love them, apart from each of them looking amazing, the fact that they are identical triplets make everything even more interesting for them.

The Richardson triplets do everything together and would never betray each other... In this story you will find out just how much they love, and would do for each other when they are put to the test...

All three sisters are blessed with pretty much a perfect body. They have a solid C-cup with a nice, tight ass. They have beautiful long legs with a thin nicely toned stomach. On top of that they have a cute face that any guy would fall for. The triplets love to share, even the guys they date...

Every other day they exercise to keep their bodies in shape. Yoga keeps them healthy and flexible. They are all very bendy!

They love wearing the same outfits. Every guy that walks past them can't help stare at them... These girls really are beautiful, and there are 3 of them!

Jean.. What's that cloud of smoke coming towards us?
I think something is happening...

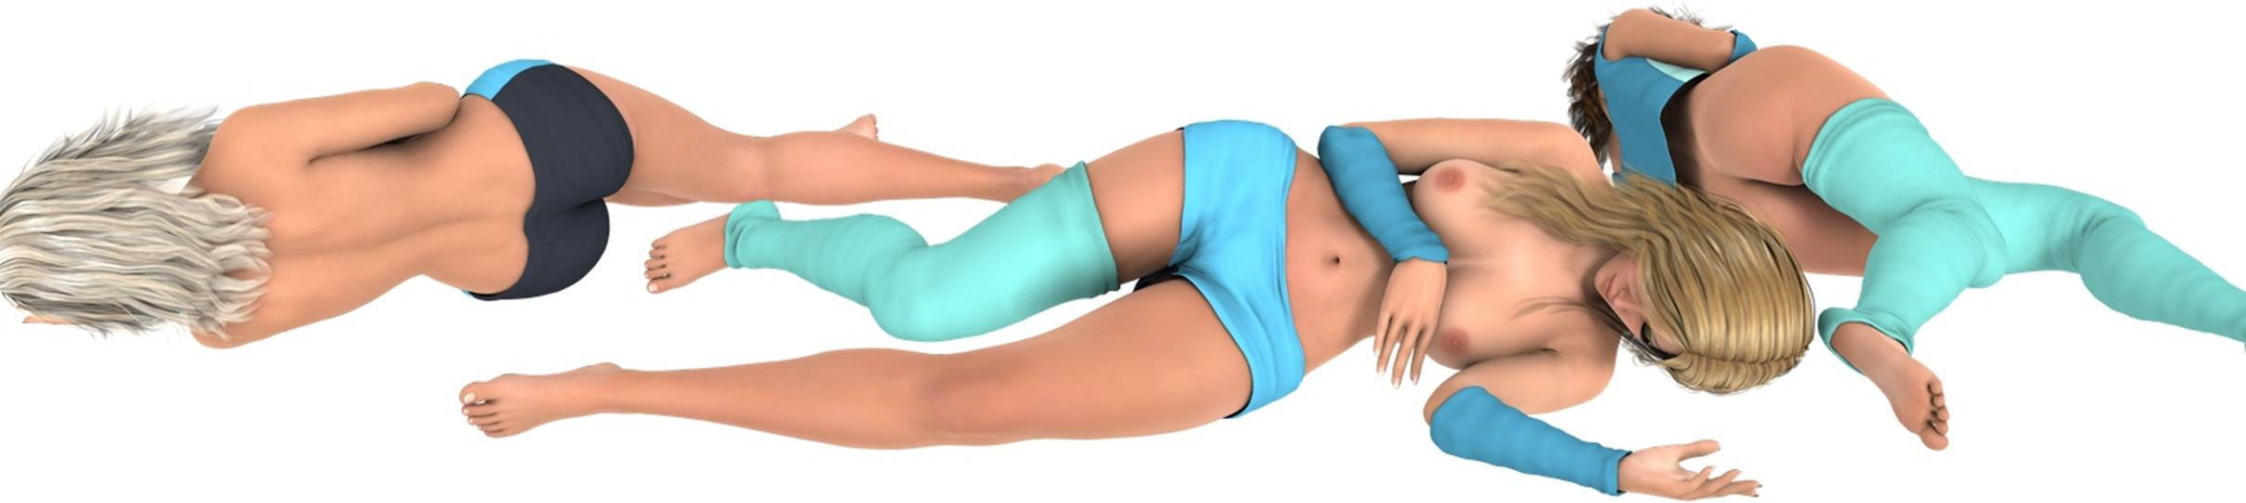

After an hour of yoga they went inside the girl's changing room and started undressing. They had only just started taking their clothes off when a thick cloud of gas filled the room... Slowly Jane, Jean and Joan became tired...

I feel sooo tired all of a sudden. I'm gonna lay down for just a minute.

About a minute later each of them were fast asleep. The smoke had knocked each of them out completely. 6 men came rushing inside the changing room, picked them up and carried each girl out to a minivan.

While Jane, Jean and Joan were fast asleep, they were driven to a large abandoned clinic somewhere on the outskirts of California. The men carried the sleeping girls inside the building where they were placed inside a large cage.

Slowly the girls awoke and saw a recognizable face on the other side of the cage. It was their last boyfriend called Sam.

The triplets met Sam a few months ago while out partying and took him home. They had sex with him in many different kinky ways... but after that night they never showed interest in him again.

The triplets didn't know Sam was an extremely wealthy man and couldn't forget that night he experienced. He tried offering the triplets jewelry, money, fast cars...but they weren't interested... The triplets stuck together and filed a restraining order against Sam.

Sam had some time to think. If he couldn't have the identical triplets no one else could either! He had a fun game in mind to modify each girl so they would look very different from each other. Let the games begin...

We swear we wont tell anyone about this...

Sam! WTF is the meaning of this! Let us go right now!

Hey girls... remember me? It's good to see you! Now... you must be wondering how you got here but that's not important. Let me tell you what's gonna happen... We are going to play a game. You are inside an abandoned clinic and I've hired 6 plastic surgeons that are going to change those perfect bodies of yours. But each one of you will get different modifications. Take a good look at your sisters girls, because soon you will have trouble recognizing them... You are going to look very different from each other from now on...

Please let us go...

Sam explained the rules of the body modification game:

Now girls, listen carefully. There are going to be 4 rounds of surgeries for each of you. Each round, one type of body part will be changed for each of you. You will each be assigned an operation, you can choose to undergo that operation, or if you really hate the idea you can pass the surgery on to a random sister of yours... But keep in mind, the sister getting your original operation has no say if she want the surgery or not – she will get the body modification you hated and decided to pass on... so if you really care about each other like you say, don't give away the horrible surgeries to your poor sisters!

Now, lets begin! Each of you will be taken to your private room and be kept there until the 4 surgeries are all done. Until then, you wont see or speak to each other – so say goodbye...

When you arrive in your room each of you be assigned an operation, choose to take it or pass it on... it's up to you. Ohh, I forgot, refusing to choose is the same as accepting your assigned operation.

Let me just say the body type augmentation of round 1. Round 1 will be all about **breasts!** Your breast will be heavily altered! Good luck girls.

Jane's assigned augmentation: extreme breast reduction surgery. All breast tissue will be removed leaving her with barely an A-cup!

Jean's assigned augmentation: breast hormone treatment causing the breast tissue to grow at an unnatural rate. Her breasts will become so big and heavy that they will become extremely fatty and saggy!

Joan's assigned augmentation: extreme breast implants. Implants so large will be inserted into her breasts that it will look like she is carrying two massive fake watermelons on her chest!

So Jane. You like the surgery you've been given? What do you choose? Keep it or pass it on?

How, the hell am I supposed to choose! I don't want to lose my beautiful breasts! I'll look like a boy! No thanks, I choose to pass it on...

A 3D rendered woman with long brown hair stands in a hospital room. She is nude. To her right is a hospital gurney with a white mattress. In the background, there is a medical stand with a green IV bag and a large circular medical device. Two speech bubbles are present: one pointing to the woman and another in the upper right corner.

Please don't give me 2 watermelon implants! I'll look like a freak! No one will ever take me seriously! Uhhmm... I pass it on... sorry sisters I don't think I can live normally with this surgery.

So Joan. You like the surgery you've been given? What do you choose? Keep it or pass it on?

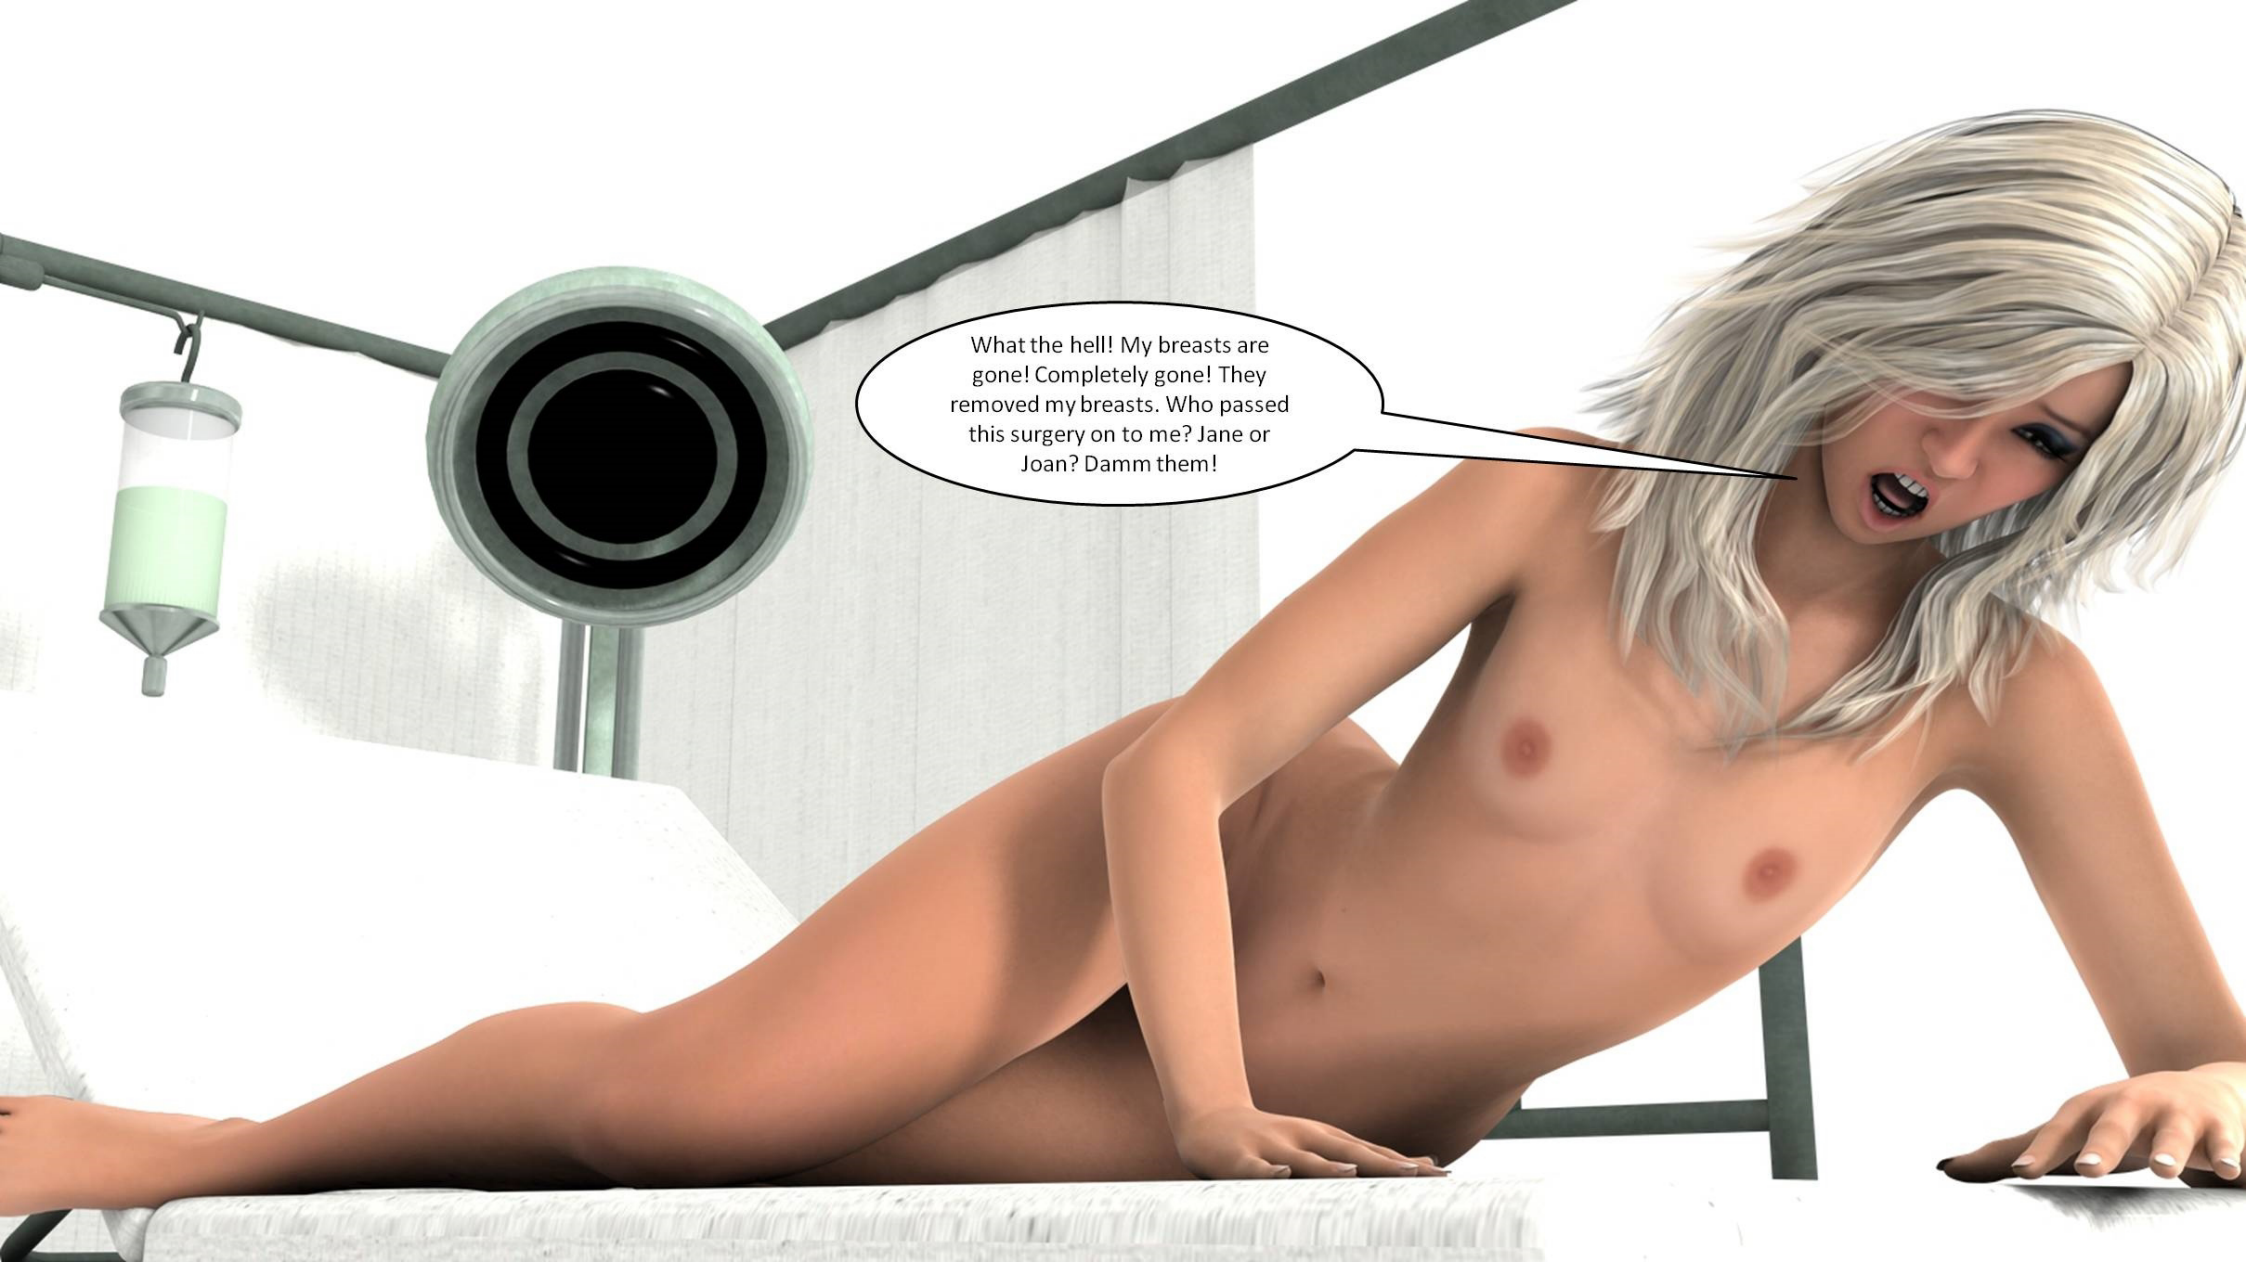

So Jean. You like the surgery you've been given? What do you choose? Keep it or pass it on?

Off course I don't like looking like a cow with to massive sagging breasts. I'll pass on this surgery to someone else... sorry my dear sisters

Each sister choose to give their own surgery away to another sister. They each hated the surgeries so much they didn't think it would hurt to give away just one surgery!
Now, each one of them was put to sleep so the surgeons could operate on them. None of them knew what surgery they were getting at the moment. The result would be a surprise which sister would get what operation...

No way! I look like a cartoon! I look like a blow up doll!

What the hell! My breasts are gone! Completely gone! They removed my breasts. Who passed this surgery on to me? Jane or Joan? Damm them!

What is this!?! I have udders! And they are sagging so much! It looks like I haven't been wearing a bra a day in my life!

After only round 1 each triplet had given away her assigned operation to another triplet. Each one therefore got an unpleasant surprise when they woke up.

- Jane received Joan's massive implants.
- Jean received Jane's breast reduction.
- Joan received Jean's breast hormone treatment.

Now it would be time for round 2. This round would be all about the **legs!** Here are the assigned operations. Lets see if the girls will keep them or give them away...

Jane's assigned augmentation: shorter and fatter legs. This will reduce her height and remove her of the long and sexy legs.

Jean's assigned augmentation: wider hips. This surgery will broaden her hips !

Joan's assigned augmentation: No surgery. This round Joan is lucky and gets to skip the next operation... Will she choose this free pass herself or will she think of her poor sisters and give it away?

So Joan. You're the lucky one this round! Would you like to give one of your sisters the free pass or would you like to keep it yourself?

I love my beautiful long toned legs.
I'll keep this free pass for myself
thanks...

So Jane. You like the surgery you've been given? What do you choose? Keep it or pass it on?

Look how beautiful my long sexy legs are. You really think I'll let you make them shorter and fatter! Hell no! I'll pass this surgery on to someone else...

So Jean. You like the surgery you've
been given? What do you choose?
Keep it or pass it on?

You want to give me fucking wider
hips! I don't think so. I'll pass it
on...

Round 1 had come as a great shock to the triplets. One could now easily separate them by the size and shape of their bust! But Sam wasn't even close to finished. The second round of operations was about to start. Now their perfect long legs would be changed...

The operation was intense! But the reaction of Jane and Jean were even greater! They woke up from surgery and...

OMG! Please let me be dreaming!
I'm so short all of a sudden! They
must have shrunk me down at
least 20cm!

And look how thick and fat my legs are! I spent so much time training my long beautiful legs! All for nothing...

I should've kept my surgery! I should've kept
the wider hips operation...
How dare my sisters! How dare they pass on an
operation this horrible to me! I'll get them for
this!..

WOW! Look how wide my hips have become!

A 3D rendered woman with extremely large breasts and wide hips stands in a hospital room. She is nude and has her hands on her hips. To her right is a hospital bed with a white mattress and a metal frame. In front of her is a metal stand with a tray of surgical instruments. The room has white walls and a window with blinds.

These wide hips aren't that bad looking.
HAHA! I'm glad I switched with the short and
fat legs operation! I can't imagine having
short fat legs instead of these beautiful sexy
legs ;) Poor Joan or Jean..

Looks like my legs stayed as beautiful
as they always were guys ;)

Round one didn't seem too bad for Jane and Joan; however Jean was the clear loser in this round. She had gotten the worst surgery by far and wished she decided to keep her original surgery...

- Jane received Jean's wide hips.
- Jean received Jane's short and fat legs.
- Joan is lucky. She gets to keep her beautiful legs.

Now the time arrived for round 3! This round would be all about the **ass**. Here are the operations the triplets were offered. Would they keep it or switch with another sister?

Jane's assigned augmentation: No surgery. Looks like Jane is the lucky one this round.

Jean's assigned augmentation: A big fat saggy butt. Her ass will be injected with fat cell reserves that settle in the butt tissue. This will create a heavy and saggy butt with a hint of cellulite.

Joan's assigned augmentation: Massive butt implants. The implants will be so large the butt tissue will be stretched over its limit giving her a firm but unnaturally large ass!

So Jane. You like the surgery you've been given? What do you choose? Keep it or pass it on?

I think my body has been altered enough! I'll pass on this round of surgery... I keep my option.

So Jean. You like the surgery you've been given? What do you choose? Keep it or pass it on?

HAHA! A big fat saggy ass huh? I think I can get my payback on whoever gave me these fucking ugly legs... I pass on this operation to someone else!

So Joan. You like the surgery you've been given? What do you choose? Keep it or pass it on?

Isn't my ass big enough already? You want to put 2 extremely huge implants inside? I don't think so... Anything else must be better than that. I'll pass it on...

Jean and Joan feared what operation they would receive. They had both chosen to pass on their own operation so now they would be operated on without knowing what was going to change. Both girls will be horribly surprised when they wake up.

Jane was a lot more relaxed. She was simply waiting, wondering how her sisters were doing and what had been done to them...

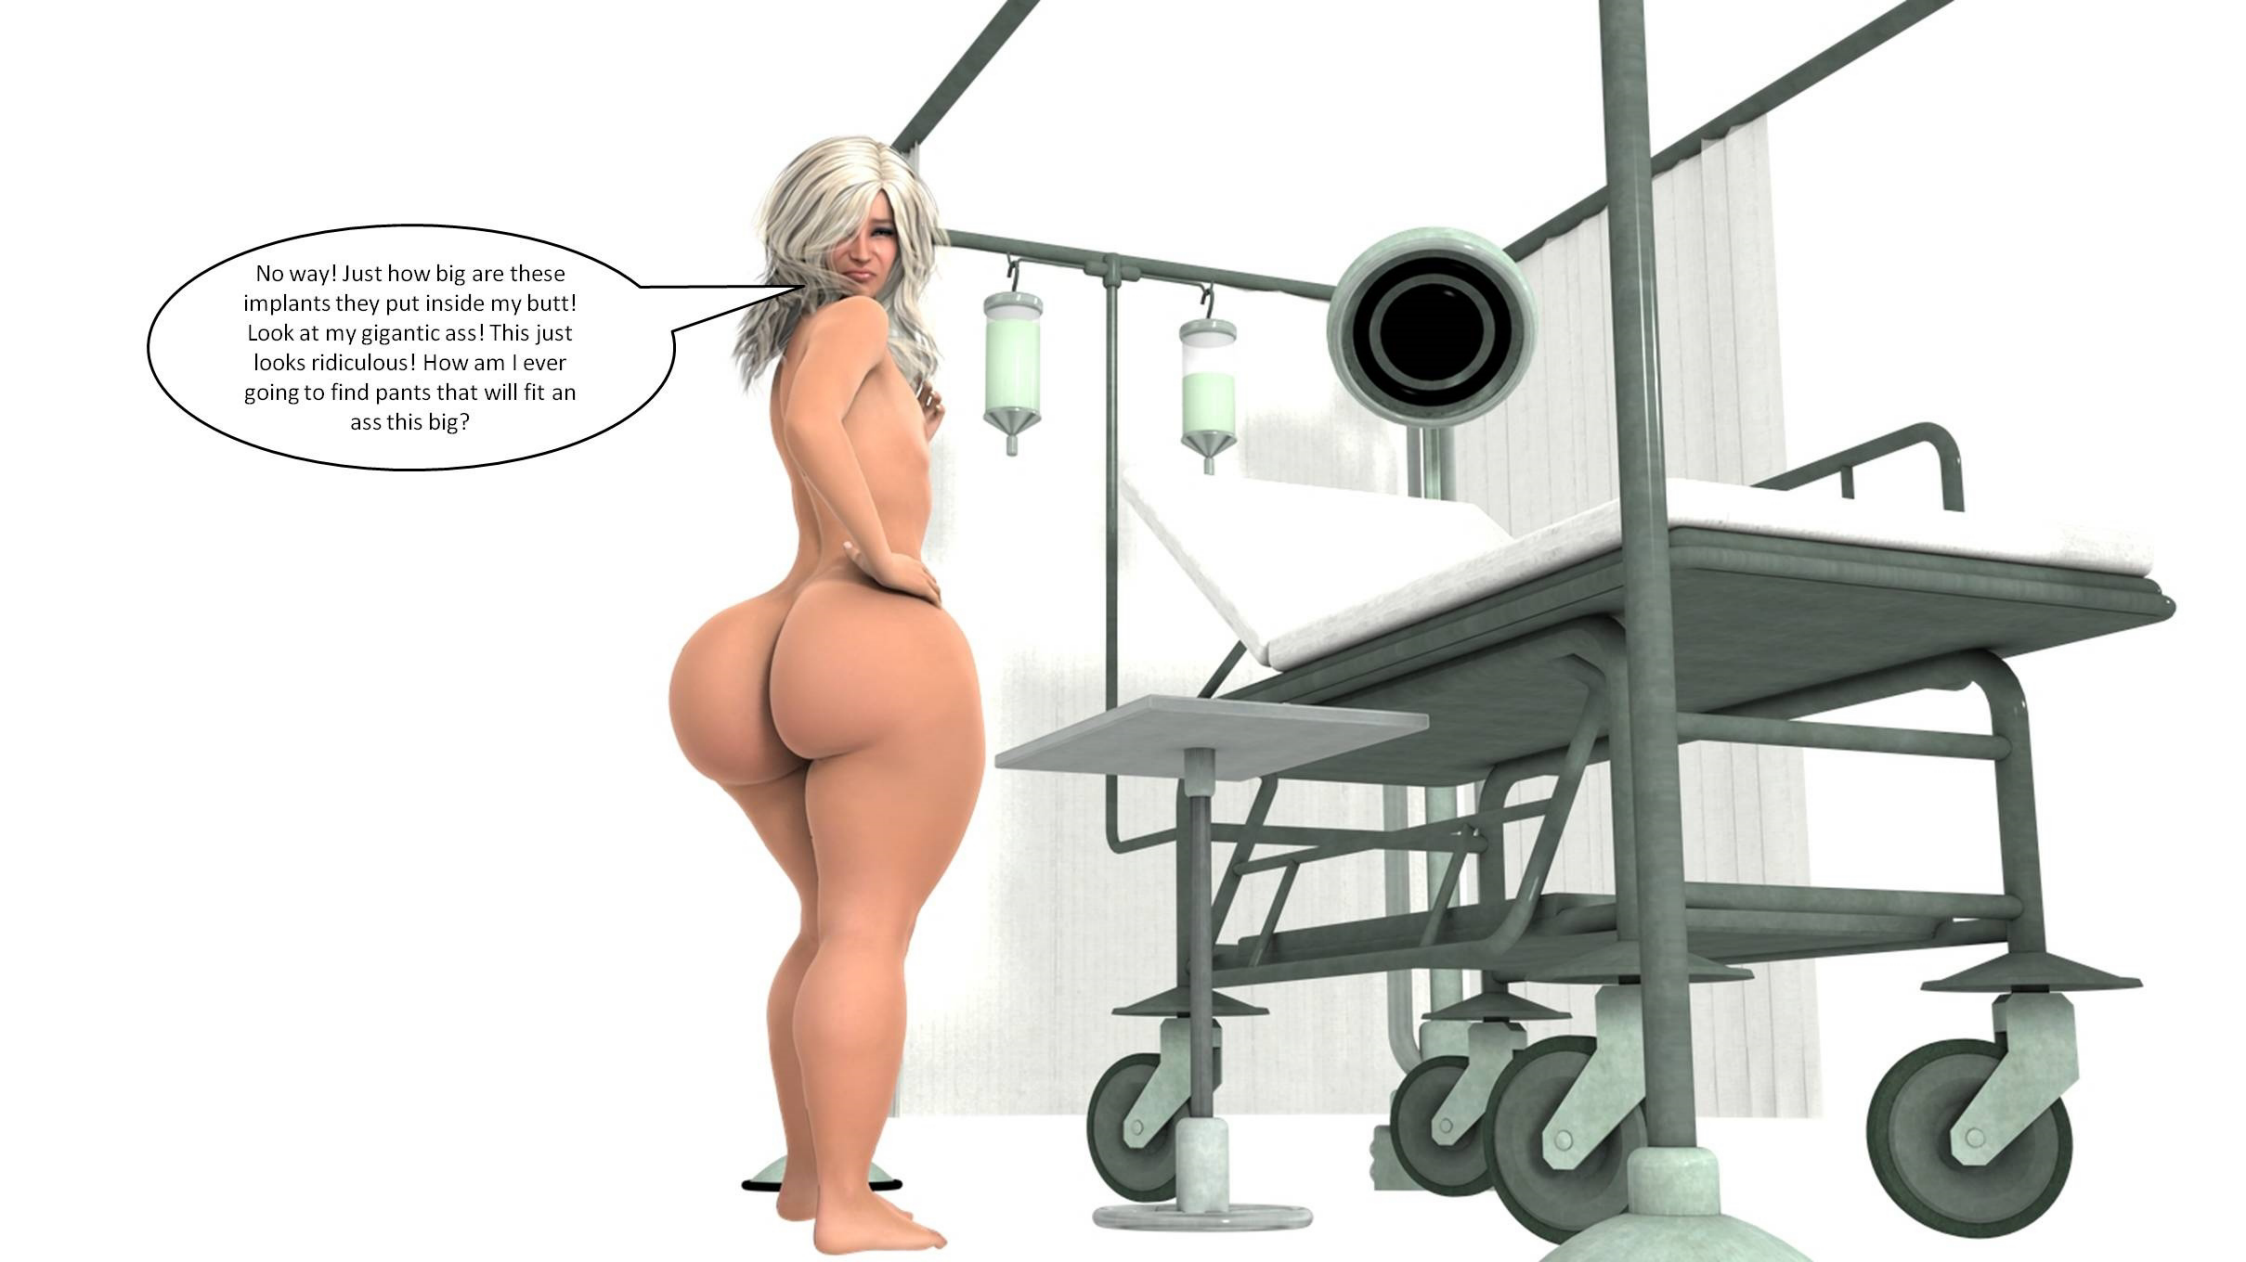

The surgeons finished the operation on Jean and Joan... They were shocked to their core...

A 3D rendered woman with long brown hair is shown from the back, looking over her shoulder at her buttocks. She is in a hospital room, standing next to a gurney with a white sheet. There are two IV drip chambers hanging from a stand above the gurney. A large circular light fixture is mounted on the wall. The woman has a speech bubble coming from her mouth.

WTF! Why is my ass sagging so much? And is that cellulite!? How much fat did they pump into my ass? I'll never be able to wear yoga pants ever again!

Look at this! I can barely walk without my fatty ass bouncing all over the place...

No way! Just how big are these implants they put inside my butt! Look at my gigantic ass! This just looks ridiculous! How am I ever going to find pants that will fit an ass this big?

Please stop this and return me to how I was. Give me back my perky breasts, my long slender legs and tight ass... please...

My ass still looks pretty tight right? ;)

The third round gave poor Jean the biggest ass she'd ever seen. Her ass was so stuffed with silicone she felt like she carrying two huge bags on her behind. It would take a lot of getting used to until she can walk properly with her new short legs and massive bubble butt.

Joan on the other hand was sagging all over. Her breasts were still hanging lower and lower every day and now her ass was also sagging like crazy. Her huge curves had lost all tightness.

-Jane was lucky this round, she got to keep her tight ass.

-Jean received Jane's massive butt implants.

-Joan received Jean's huge fatty sagging butt.

After this round it was now time for the last operations. The triplets were very, very scared about what was going to happen to them next. The last round is all about the **waist**.

These are the surgeries that have been assigned to the girls...

Jane's assigned augmentation: Extremely thin waist. An internal corset will be placed around her ribs and abdominal muscles greatly reducing the size of her mid-section

Jean's assigned augmentation: No surgery. The last round Jean can relax a bit.

Joan's assigned augmentation: A fat pot belly. Fat cells will be injected into her stomach removing her well toned abs and pumping a thick layer of fat over it.

So Jean. You like the free pass
you've been given? What do you
choose? Keep it or pass it on?

I'll keep it off course...

So Jane. You like the surgery you've been given? What do you choose? Keep it or pass it on?

Mmm, a super thin waist. It'll look totally unnatural. But I think it could be worse... I'll keep my own surgery and not risk getting something more horrible from my sisters.

A 3D rendered woman with long brown hair, large breasts, and a very large, protruding belly is sitting on a hospital bed. She is looking back over her shoulder with a slightly annoyed or defiant expression. Her hands are raised behind her head. The setting is a hospital room with medical equipment, including a drip chamber with green liquid hanging from a stand to the left and a large circular device behind her. The bed has a white sheet and a dark metal frame.

So Joan. You like the surgery you've been given? What do you choose? Keep it or pass it on?

A fat pot belly!? Come on! Haven't they pumped enough fat inside my ass already? Now you want to pump my stomach full with fat as well!? I'll pass it on...

Owww, I'm sorry Joan. Both you're sisters chose to keep their surgery. I guess you can't switch with anyone...

The last round had begun. Joan was really unhappy about her own surgery. Again her body would be pumped full of fat.

Jane on the other hand would get an unnatural thin waist. With her enormous fake boobs and wide hips she resembled a fake Barbie doll.

A 3D rendered woman with long brown hair stands in a hospital room. She is nude and has a distressed expression. Her body is noticeably sagging and appears to have gained weight. She is standing next to a hospital gurney with a white mattress and pillow. In the background, there are two IV stands with green liquid in the bags. A speech bubble is positioned to her left, containing text. The scene is lit with soft, even light, typical of a clinical environment.

OMG! I look like I haven't done sports my entire life! Everything is sagging and fat! Why did this have to happen to me!?

Look at me... I'll never be able to show myself like this... How am I gonna wear a bikini and go to the beach...

My waist feels so tight! I can barely breathe! And look at this... I look so fake... I look like a blow up doll...

A 3D rendered woman with extremely exaggerated proportions, including very large breasts and buttocks, is shown from the back in a hospital room. She has a shocked expression and is touching her chest. The room contains a hospital bed with white linens, a tray with surgical instruments, and two IV drip stands with green fluid. A speech bubble is positioned to her left.

My body is like... totally out of proportion...

That was the last round of surgery. However Sam still didn't feel satisfied. The triplets now looked completely different from each other... but he also wanted to change their mind a bit.

It's now time for a **bonus** round:

Before he would release the twins he ordered the surgeons to put the triplets to sleep and put them in the hypnosis machine. Without realizing it... Jane, Jean and Joan's **sexual preference** would be altered... Now each triplet would be feel pleasure in a different way, here's how:

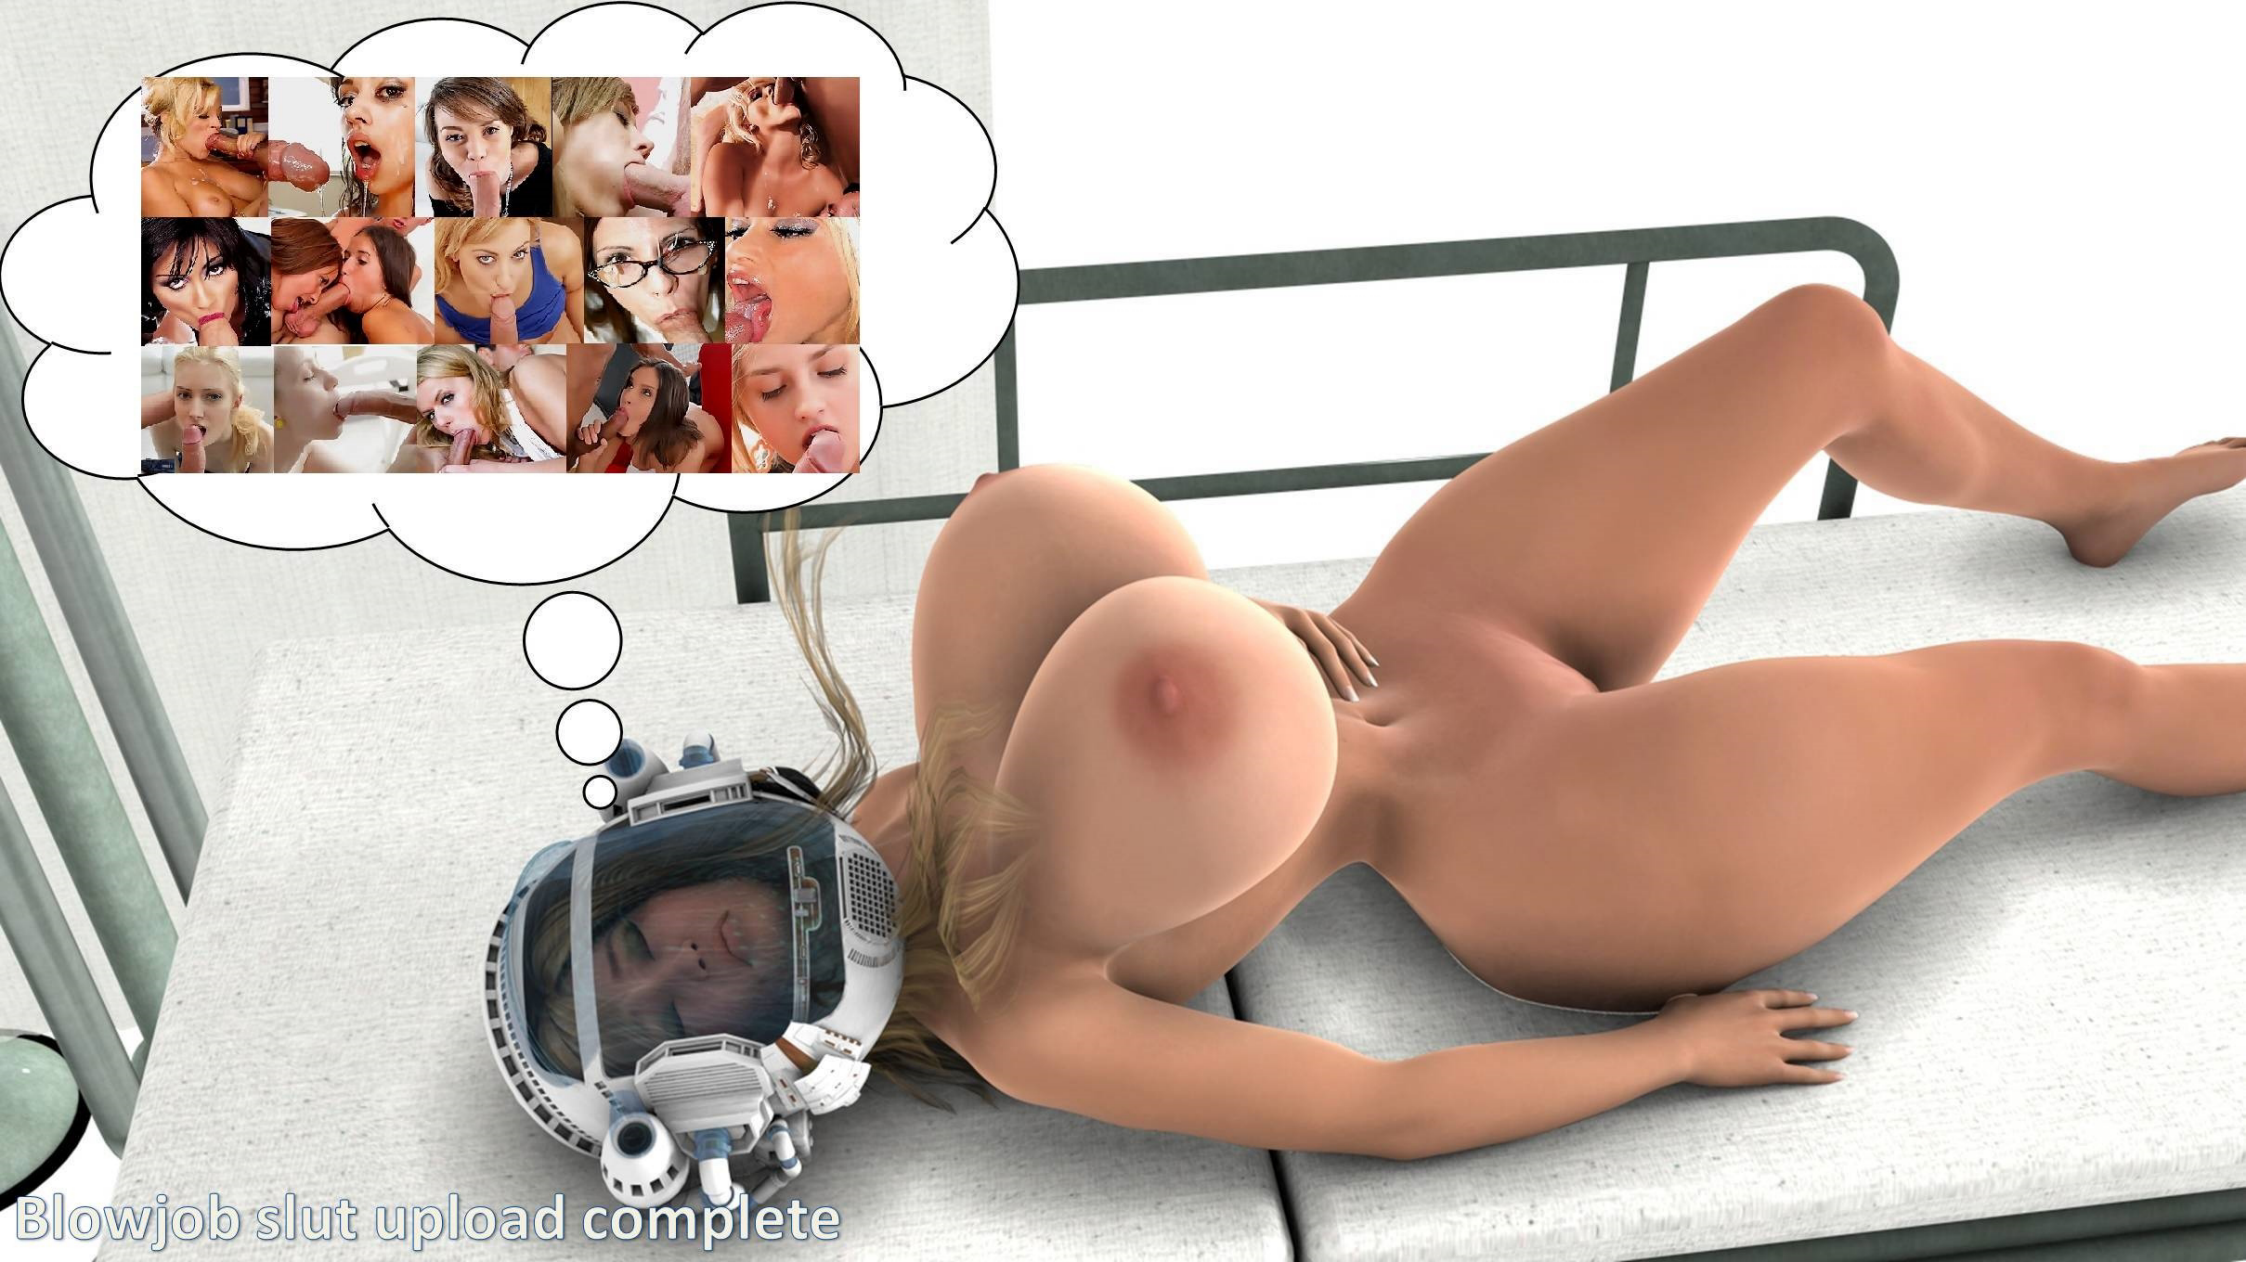

Jane's mind alteration: From now on, Jane would only feel pleasure by giving blowjobs. She will become an oral sex slut.

Jean's mind alteration: Jean will only feel pleasure by having something inside her asshole. She will become an anal sex slut.

Joan's mind alteration: Joan will only feel pleasure by having her pussy filled with large toys. She will no longer want conventional sex with men.

Blowjob slut upload complete

Anal slut upload complete

Toy insertion slut upload complete

The triplets were now heavily altered... body and mind. Sam was satisfied and ordered the men to dress them and drop them off at their apartment.

The triplets slowly woke up from the anesthetic. They would now see each other for the first time...

Which one of you gave me these fucking short fat legs! How could you do that to me!?

Don't call me shorty! You sagging cow!

Shut up shorty! Look at me! I'm sagging all over!

At least I have tits shorty!

And which one of you made me look like a fake Barbie! How am I supposed to show myself in public! Everyone is gonna stare! I'll never have a normal life!

You can't complain, look at how gigantic my ass is! People are gonna stare at me way more than you! And at least you're body is in proportion, all my weight is in my bottom half, I look like a pear!

The triplets continued arguing for another hour until each one of them left hating the others... They felt betrayed and hated how they looked!

A few weeks later the triplets still hadn't spoken to each other. They were completely separated. Each one of them was getting adjusted to their new body and life.

Jean's Epilogue:

Jean started heavily drinking alcohol and partying. Trying to forget what had happened to her. She needed something to distract her.

She went to clubs picking up guys every night. She dressed in tight latex leggings trying to seduce guys with her massive ass. After all she couldn't stop thinking about having a penis in there. She always managed to find a guy who was interested in taking her home.

Jean wasn't interested in having normal sex anymore. She would get fucked in the ass, leave and repeat this routine over again the next day.

Who can say "no" to an ass this tight? ;)

If I grind my ass against his pants he'll definitely want to fuck me..

My asshole feels fantastic!

Joan's Epilogue:

Joan hated her saggy tits, sagging ass and pot belly. She didn't go out. She didn't need to go out. She felt horny and didn't feel the need to go out and meet a guy. Instead she grabbed a toy. This continued for a while, her pussy kept asking to be filled with bigger and bigger toys.

My pussy is sooo full! I think tomorrow I'll try something bigger though...

Jane's Epilogue:

Jane now looked like a Barbie doll and started dressing like one too. Guys always stared at her and saw her a sex doll. Jane hated this feeling but couldn't resist thinking about giving them blowjobs.

Hi guys!

Come in my mouth baby!
