

**Emily's Diary**  
by **Pleasure3DX (C8)**

**Dear diary this is Emily**

**today it finally arrived**

**Marvin's mini massive member as Amy would call it.**

**I'm going to be honest it's tiny compared to Marvin**

**but at least it's not as intimidating either, it's also small enough to practice blowjob on it**

**so that's what I ended up doing this morning.**

**I definitely want to try blowing Marvin properly someday,**

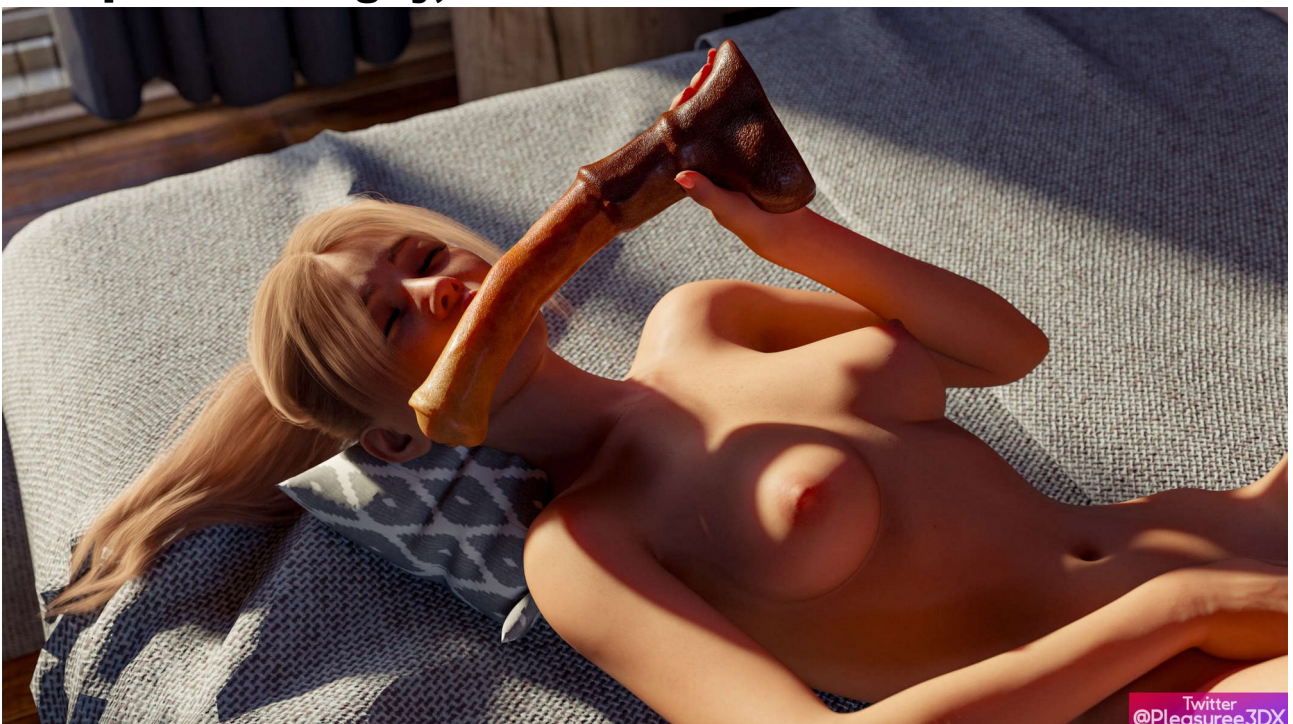

**you know, without breaking my jaw,**

**so having this dildo for not only vaginal but oral practice, as well is of great help.**

**Sure it's way smaller than Marvin but still huge compared to a guy,**

**shows some progress.**

**To confirm though I guess I have to test it on Marvin himself you know for science.**

**Let's see how it goes.**

**I was quite nervous when I approached him**

Twitter  
@Pleasuree3DX

**but luckily for me he wasn't rock hard today**

**it probably helped that I haven't played with him in the past couple of days**

**touching him just confirmed, it he was comfortably soft and I could squeeze him easily.**

**I just needed to be careful not to stimulate him too much if I wanted to do this,**

**even if I wasn't sure exactly how.**

**I started by simply grabbing his shaft and lifting his head towards my mouth,**

**the size difference became immediately apparent even though he was flared.**

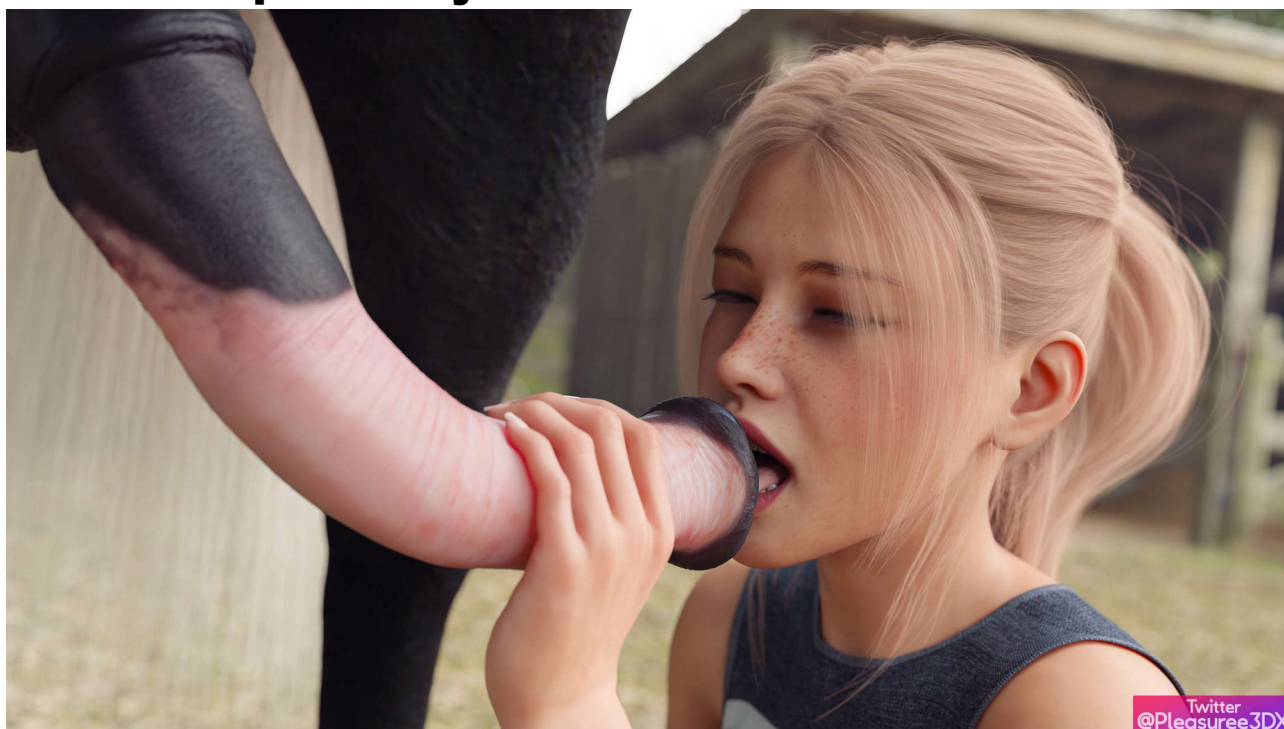

**Now to the fun part...**

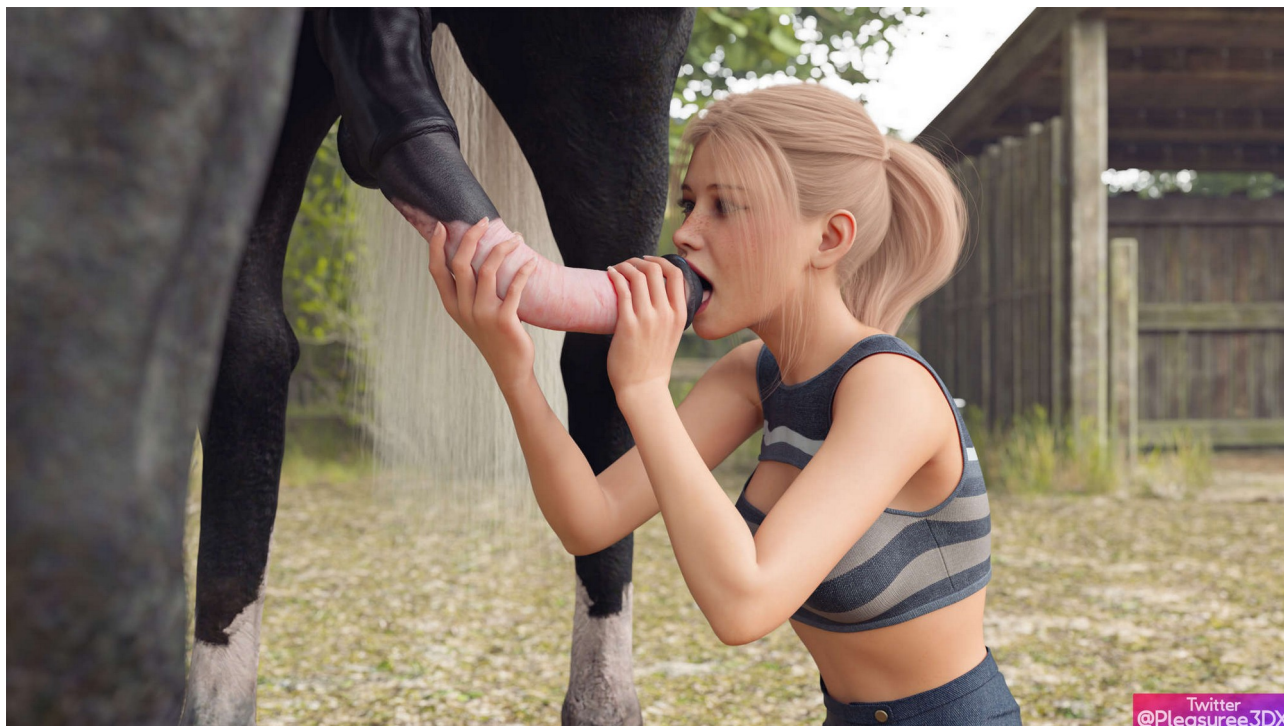

**I started with a few kisses,**

**and then opened my mouth.**

**First I simply tried pushing him in there somehow but...**

**...not a chance.**

**I took a moment to think and then decided to squeeze his head,**

**while trying to fit it in there given how soft he was that actually worked better than I thought,**

**after a bit of fumbling it finally slipped in there**

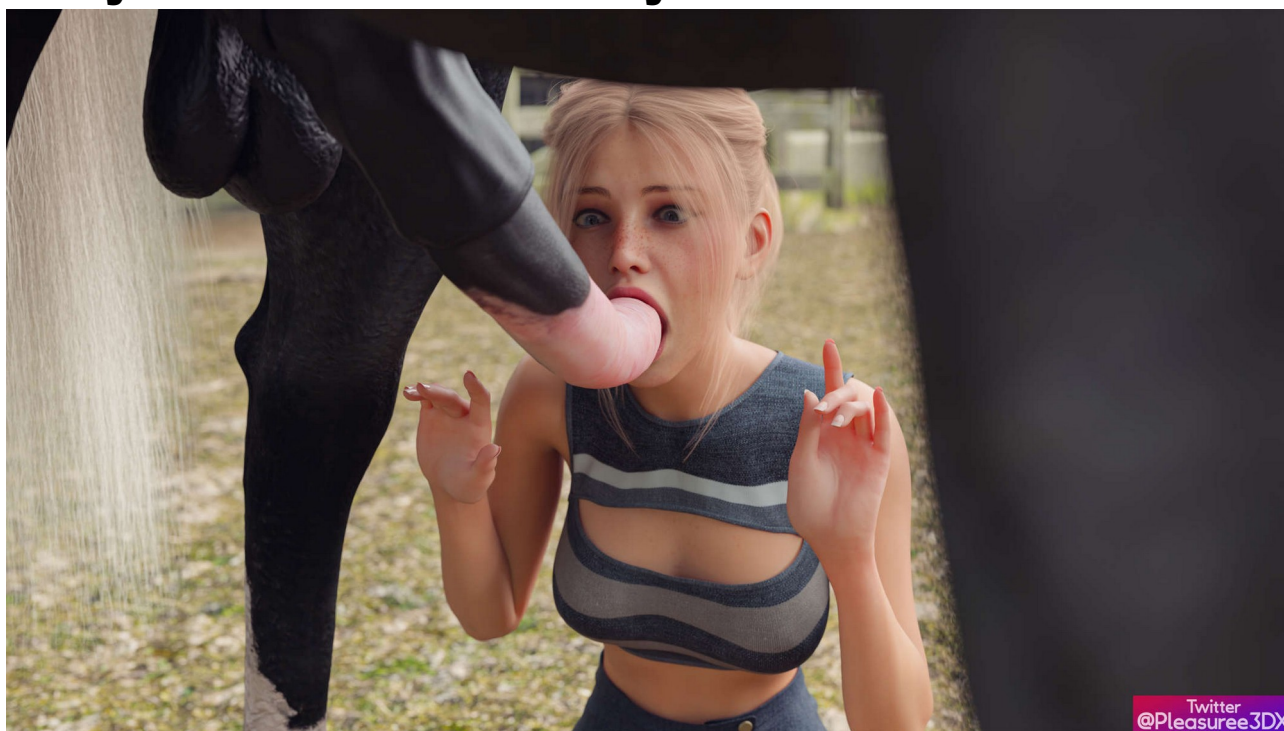

**and my lips closed around his cock.**

**I never had this much meat in my mouth or...**

**...any other substance really.**

**It felt warm and had a weird mix of a leathery and**

**Meaty texture I could honestly barely move my tongue around there,**

**but I tried to hold him for a while in order to get used to it.**

**Then... I started to feel a faint pulse and it became even warmer,**

**this was the sign to take him out,**

**but it was a bit too late.**

**he started growing ever so slightly**

**barely noticing it from the outside but I could really feel it inside my mouth**

**I tried pulling him out at that point but I couldn't**

**I tried pulling him out at that point but I couldn't**

**trying to Fumble with it made it even worse because every time I tried to pull him out**

Twitter  
@Pleasure3DX

**I essentially stroked him.**

**The worst part was that at one point his cock twitched and some creamy substance went down my throat.**

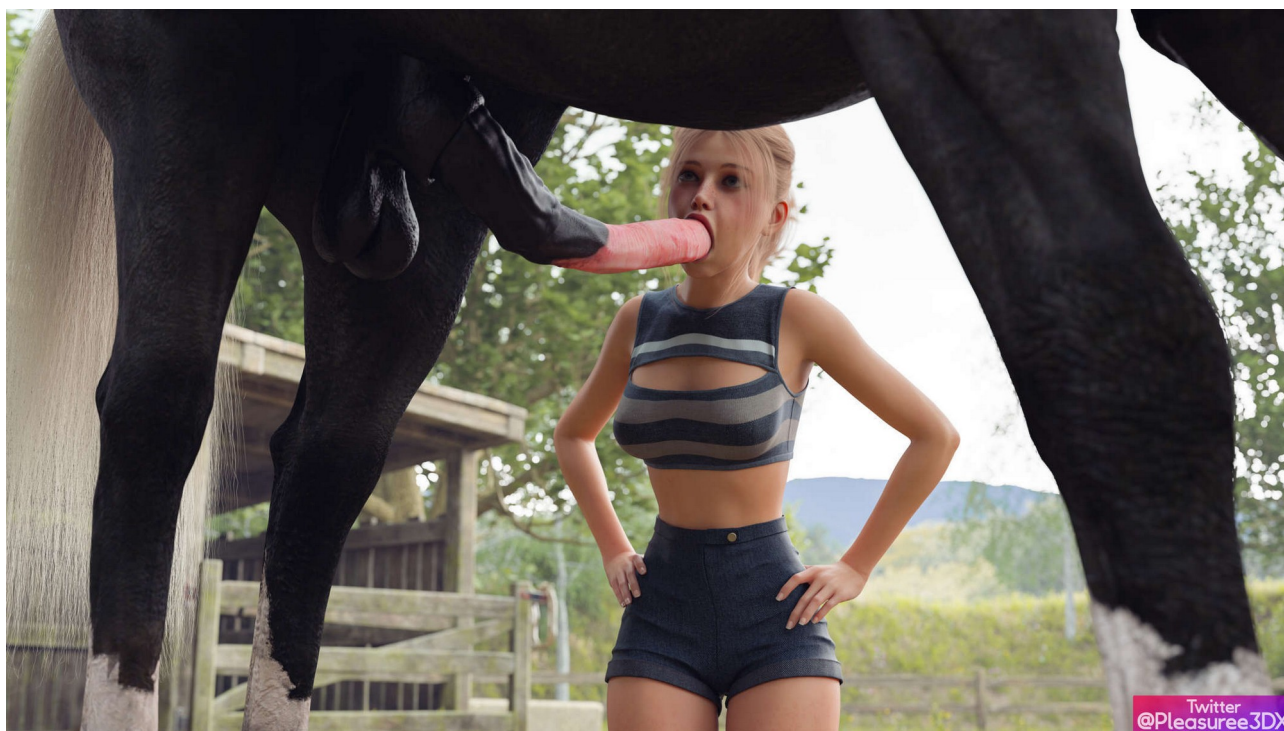

**I think he released some precum.**

**I tried to calm my nerves breathe slowly and stay put,**

**...no movements.**

**I had to do this for a couple of minutes I think I just know that time went by and slow motion.**

**I am so glad that no one saw this,**

**imagine just going for a walk and you come by a girl kneeling under a horse with its cock locked into her mouth.**

**That's not something I'd like to be in the newspaper for.**

**Minutes went by and I could feel that he was slowly shrinking**

**and after some time I tried again to pull him out**

**this time successfully, and I was right when I pulled him out I definitely had some leftover precum in my mouth**

**this time I was a brave girl though and swallowed.**

**it honest opinion, it wasn't even that bad.**

**To sum it all up I guess you could say it was a partial success...**

**I mean... yeah... I didn't really blow him properly bu**

**but at least I got him fully in my mouth,**

**safe to say it wasn't a total failure,**

**also got a first taste of his cum which was a nice surprise.**

**I'm probably giving my jaw a break for the next couple of days,**

**in the meantime I might test how far I can loosen up another part of myself...**

Twitter  
@Pleasure3DX

**You know which one.**
