For the past three years, Test Subject 47's life has been a living hell. Imprisoned at a high-tech facility by a shadowy organization, she was used as a lab rat to test the effects of mysterious ancient relics. None of them had any effect on her, until one day her captors showed up with a mysterious Egyptian necklace. That's when she found herself suddenly growing... And noticed her breasts were growing even faster...

Now Jenna's going to get revenge on her captors in a way they never could've seen coming: she's going to grow. Her captors are trapped with her. There's no way out, and 47's breasts are growing at an incredible rate. Pretty soon they'll be buried under her mountainous chest...

The lights flichered on, and the man in the black suit stopped dead in his tracks.“ Oh dear god.” What else was there to say? It was test subject 047, stark naked and sprawled out across the Hazardous Materials Transport Hallway. But it wasn’t her nudity that shocked him, it was her size. The hallway was twenty feet wide, and yet she somehow barely managed to fit.

“So, Mr. Blue. Mr. Brown. Or whatever the hell your real names are. It’s been so long. Do stay and enjoy a little chat?”

Mr Blue didn't feel like waiting. He started off, sprinting away from her. But just as he was about to escape, a huge glass door came down just in front of him. He slammed face-first into the bulletproof glass wall.

"Oof!" Mr. Blue stopped dead as he slammed into the glass. Mr Brown glanced back, but only for a moment. He was smart enough to realize that he wasn't going to get out of this by running. No, his only chance was to try and reason with her.

"47, I know that some of the... artifacts we tested on you may have had some... unfortunate side effects. I'd like to express my sincere apologies, we had no idea that the necklace would cause that kind of growth... Now if you just take it off, we can get you back to a normal size, and this whole little incident can just be over with."

"Take it off? You wish. You never gave me the option to take off any of the other artifacts, no matter how much I begged you... Not the ring that made my bones go soft, or the orb that made my skin turn blue... But now that I finally have an artifact that gives me some real power, you just want me to take it off.

'Well it just so happens I like this necklace. I like that it let me break out of the fucking chains you put me in. I like that I'm bigger than you now.

'You used to grope me, back when I was cold and naked and scared. You liked me better than the other girls, didn't you? Was it these? They've gotten even bigger thanks to the necklace. I was your little plaything."

"47, it wasn't like that. I--"

"Yes, it was. But now you two are my little playthings. And I like to play rough."

Mr. Blue kept banging on the bulletproof glass, to no avail. At the same time, he dialed HQ with his wireless headset..
"Hello, headquarters? It's urgent. This is Mr. Blue. We're trapped with test subject 47. Her artifact is making her grow at an alarming rate, and the safety mechanism seems to have trapped us in a hallway with her--"

Mr Brown pleaded with 47. "Please, I'm begging you! I have a family. When I took this job, all I wanted to do was provide for them, I never meant to hurt anyone-"

"Well you did hurt someone. You hurt me, and you hurt a lot of other girls a hell of a lot worse. And now it's your turn to get hurt. Even now, they're getting bigger, aren't they? And something tells me that as long as I keep this necklace on, they're not going to stop. They're just going to keep getting bigger, and bigger, until they squish you little bugs into goo!"

47's chest suddenly expanded, her breasts growing outwards. Mr blue was knocked back from the impact.

"What's that? Are these a bit too much for you? You should have known something like this was bound to happen, sooner or later. You guys were playing with fire, using us a lab rats to test whatever weird transdimensional artifacts you could get your hands on... It was only a matter of time until one of them gave us godlike power..."

Mr. Blue stared through the bulletproof glass, as he begged for his call to to be transferred to an overseer. His only option was for someone at HQ to open the door, and the low-level operatives weren't allowed to override protocols. It took him what seemed like ages before he was able to get through to anyone with some kind of authority.

"Mr. Black, thank god I finally got through to you. We're trapped with a dangerous test subject, in one of the hallways. There's a pane of bulletproof glass keeping us in here. You already knew? Okay, good, just override the defense protocols and-- what do you mean you can't override the defense protocols?"

www.erofus.com

"What?" Mr. Blue was in disbelief. "You're not going to open the door? You're not willing to risk the test subject escaping? But we'll be... killed... 'Expendable?' What do you mean we're expendable?"

"Fuck!" Mr. Brown had lost his balance, and now he found his left leg caught firmly under the woman's rapidly expanding breasts. He tried to pull his leg out from under her, but the huge breast was just too heavy..."

"Blue! Blue, you have to help me! Pull me out from under her!"

But Blue just stood there and stared off into the distance. "Expendable... We're all expendable..."

Oh shit, they're going to crush me... Blue... oh, fuck, he's too far gone... 47, just take off the necklace! Take it off, and I swear to you, I'll get you out of here..."

www.erofus.com

"Oh god, I can't feel my legs! 47, will you please just take off that necklace! Don't act like you can't hear me! 47, take off that fucking necklace right now!"

www.erofus.com

"Take it off? Now why would I go and do something like that? It looks so good on me... I'm beginning to thing that gold might just be my color..."

"Oh, it's because you don't want to be squished by my little tits, isn't it? Well that's too fucking bad. How's that expression go? 'Tough titties?' I can't even see you anymore, my tits have already gotten too massive, but I can feel your little body squishing under my enormous tits, and it feels amazing. I wouldn't stop this for the world.

www.erofus.com

"Oh god... Can't... talk... Please... stop... growi..."

But there was nothing he could say to change 47's mind. Her massive, heavy breasts rolled over him, enveloping him.

www.erofus.com

"Jesus Christ, I... I just squished him, didn't I? That was fucking amazing, I've never felt so powerful... I'm like a god now..."

www.erofus.com

47's breasts continued expanding, filling the entire corridor.

www.erofus.com

"Oh God oh God oh God..." Mr. Blue felt the pressure as 47's enormous breast pressed his body against the glass. He suddenly snapped back into reality. "47! you don't have to do this! My superiors are the ones who put us up to all this! You think I'm in charge of this place? I'm a lackey! I'm a glorified lab rat, just like you! It's my supervisor you want! Mr. Black!

"Mr black, you said? Then I'll make sure to get him next. But I'm not buying your little sob story. And besides, this feels so good... I just want to feel my tits get even bigger..."

www.erofus.com

"Oh fuck, I'm going to die like this, aren't I? I guess there are worse ways, than to be squashed by a fucking tit..."

Her breasts continued to grow, expanding, enveloping him. They filled almost the entire corridor now, from the floor to the ceiling. They must have weighed tons, or more, and he could feel every once of that weight pressing against his body. He couldn't move, couldn't breathe... Pretty soon he would be crushed like a bug against the glass, if he didn't suffocate first...

www.erofus.com

"You're being awfully quiet little man. What's wrong? Cat got your tongue? Or are my breasts just a bit too much for you?"

The pressure was too much. In an instant, supposedly unbreakable glass was raining down upon the ground, breaking into tiny pieces and falling through the steel grate floor. Mr Blue fell to the floor, as the glass shattered all around him.

47's breasts just kept on growing, until they filled every little crevice of the corridor..

Mr. Blue fell onto the miraculously all but unharmed. The fallen glass had fallen harmlessly through the steel-grated floor. Yet Blue's fortune was short-lived. 47's enormous breasts were growing at an incredible rate, faster than ever now. They were tearing the very hallway apart, bending the steel doors and pulling the floor down. As the floor slanted, Mr. Blue fell back, sliding down and falling back down under 47's enormous, growing breasts.

47 heard Mr. Blue crying out in pain, but she didn't care. All she could think about was how enormous her tits were getting now, how sexy and huge and powerful she was becoming.

Mr. Blue's pleading soon became unintelligable moans, which was like music to 47's ears. "What's wrong, little man? Didn't want to end up as a red stain on a woman's tit? Then you shouldn't have messed with a goddess!"

"Uff!" 47's breasts grew even larger, enveloping Mr. Blue even more. Soon his body was all but covered by 47's massive breasts. With all that pressure pushing down on him, he was unable to breathe. He struggled to move, even as the weight of her breasts pressed harder against him, even bending the steel grates below him. He couldn't hold out for much longer...

Mr. Blue let out one last, muffled scream, as 47's huge, heavy breasts rolled over him. He was no match for their incredible weight, and as her breasts expanded, filling the hallway, they rolled over him as if he wasn't even there. Her gigantic breasts kept growing, stretching and pulling the steel walls like they were made of tinfoil. The weight became too much for Mr. Blue, and he let out one last muffled cry of pain.

It took 47 a moment to notice that Mr. Blue had been crushed beneath her. His tiny body was too small for her to register now, she didn't even feel him being squished like a bug under her.

She found the idea pleasing. They had treated her like bugs, and now she had crushed them like insects, small and insignificant.

"Oh god, yeah..." My tits are getting so fucking big... I just want them to get even bigger...

Maybe I should take off this necklace, so I can shrink down to size and get out of here... But where's the fun in that? I could take it off... Or I could keep it on and get so big that I take down this whole fucking place!.."
