

Moments later...

Is it something to drink? Maybe it's some kind of dietary supplement?

What is this?

Eeee... Thanks for the gift.

And actually what is it?

That which you just hold is a body cream.

I also bought you some creams for other body parts.

Because your skin is like sandpaper.

But why do I need it?

I'm a guy so I guess it's normal.

Besides, I don't want to have skin like a girl.

Well... If you don't want it, you don't have to use it.

Yes. After all, it's not something necessary for your disguise, so I think we can do without it.

Just don't blame me for the fact that you will have damaged skin later.

happy
Are you serious, I really don't have to?

Great, in that case...

Er... What?

Haven't you heard that makeup damages the skin.

Of course because it's not true.

And unfortunately we can't give it up, which is why I bought you these creams.

No.

What, no, I had no idea about that.

Umm... In that case I will use this face cream.

Either you
use everything
or you don't
get any.

So how.

Besides, no worries
I'm sure that if you stop
using them later your skin
will be as it was before.

That with the
creams is a lie.

But I want Hina-chan
to start doing certain things
because she herself thinks she
needs them, not because I
force her to do them.

I knew it would be too good. *sigh*.

All right, I'll use all the creams you bought me.

Would you please stop....

Ah... Never mind.

Great, good girl.

The next day...

Yes, although
it feels very
strange.

Great but
what about work can't
I just not come?

And how, did you
use the creams yesterday
what she gave you?

You'll get used
to it.

By the way, today
after school you have a
doctor's appointment.

Mrs. Prus
will be angry if I
don't come.

She really
agreed, that's
great.

I was
hoping she had
forgotten.

Don't worry,
I already called her, she said
it's no problem to not
come one day.

Yes, she said that since
it's a doctor's appointment
she sees no problem for you
to have a day off.

Back to your punishment
for what you did at the
hairdresser's last time.

Really?

Don't worry,
I won't do it
again.

I decided to make an
exception this time and
not punish you.

Yes,
but only because I see a slow
improvement in your behavior.
And only this once. Next time
there will be a punishment.

I hope so. After all,
I don't want to have to
punish you all the time
either.

Yes, of course I understand.

Although there is something that worries me.

If I join a club about idols and start practicing with girls, won't they discover my secret?

Especially since I think you are slowly Beginning to understand that I am doing this for your good.

Don't worry, this club is going to be liquidated this year due to lack of members.

In theory there are three members which is still not enough for any club to exist.

But in practice no one looks there, which is why I want to disband this club after the end of this school year.

That means I will be alone.

Exactly. And while the girls are practicing for PE you'll be able to practice in the club room without worrying that someone will discover your secret.

That's brilliant, thank you auntie.

No problem, there is only one condition.

But I don't know anything about idols.

I will try~.

To make sure that no one gets suspicious you must write an article about idols for the school newspaper once a week.

Then start learning, once a week you are supposed to deliver an article to the school newspaper.

What should I write? All I know about idols is that they dance and sing.

I guess I'll have to start reading some newspapers about it.

A few hours later...

Okay, just a little bit more.

Don't worry, in the beginning it always hurts a little.

Later it will be much easier for you.

I really can't go on anymore.

I feel like I'm about to break.

So again only
this time harder.

Alright
1..2...3....

I will try.

I was supposed to
exercise to work out my muscles
and instead Zero Two tries
to break me in half.

How did this
even happen?

45 minutes earlier...

So this is the idol research club?

Yes, I've always been interested in idols.

Yes, although currently no one looks here anymore.

Say are you sure you just want to join this club?

Then all right just one more thing.

What do you mean why? After all, I can't leave my darling alone.

Why did she follow us here?

She is not your Darling and stop calling her that at last.

Darling let me do it, besides, I'm not going to listen to a cutting board.

He.

He was forced into it by his aunt.

What did you say!
You have to take it back immediately!

Mad

No, besides, tell me how did a boy manage to get into a school for girls?

What!!!

Can't you do what the rest of the dinosaurs did and just go extinct?

Mad

Yes , it's true, I may be taller than most girls.

But I already prefer that to being mistaken for a surfboard.

Mad

It's not my fault that I was wearing such a shirt at the time.

I also wanted to join this club.

Yes, after all, you yourself told me to join some club. Right?

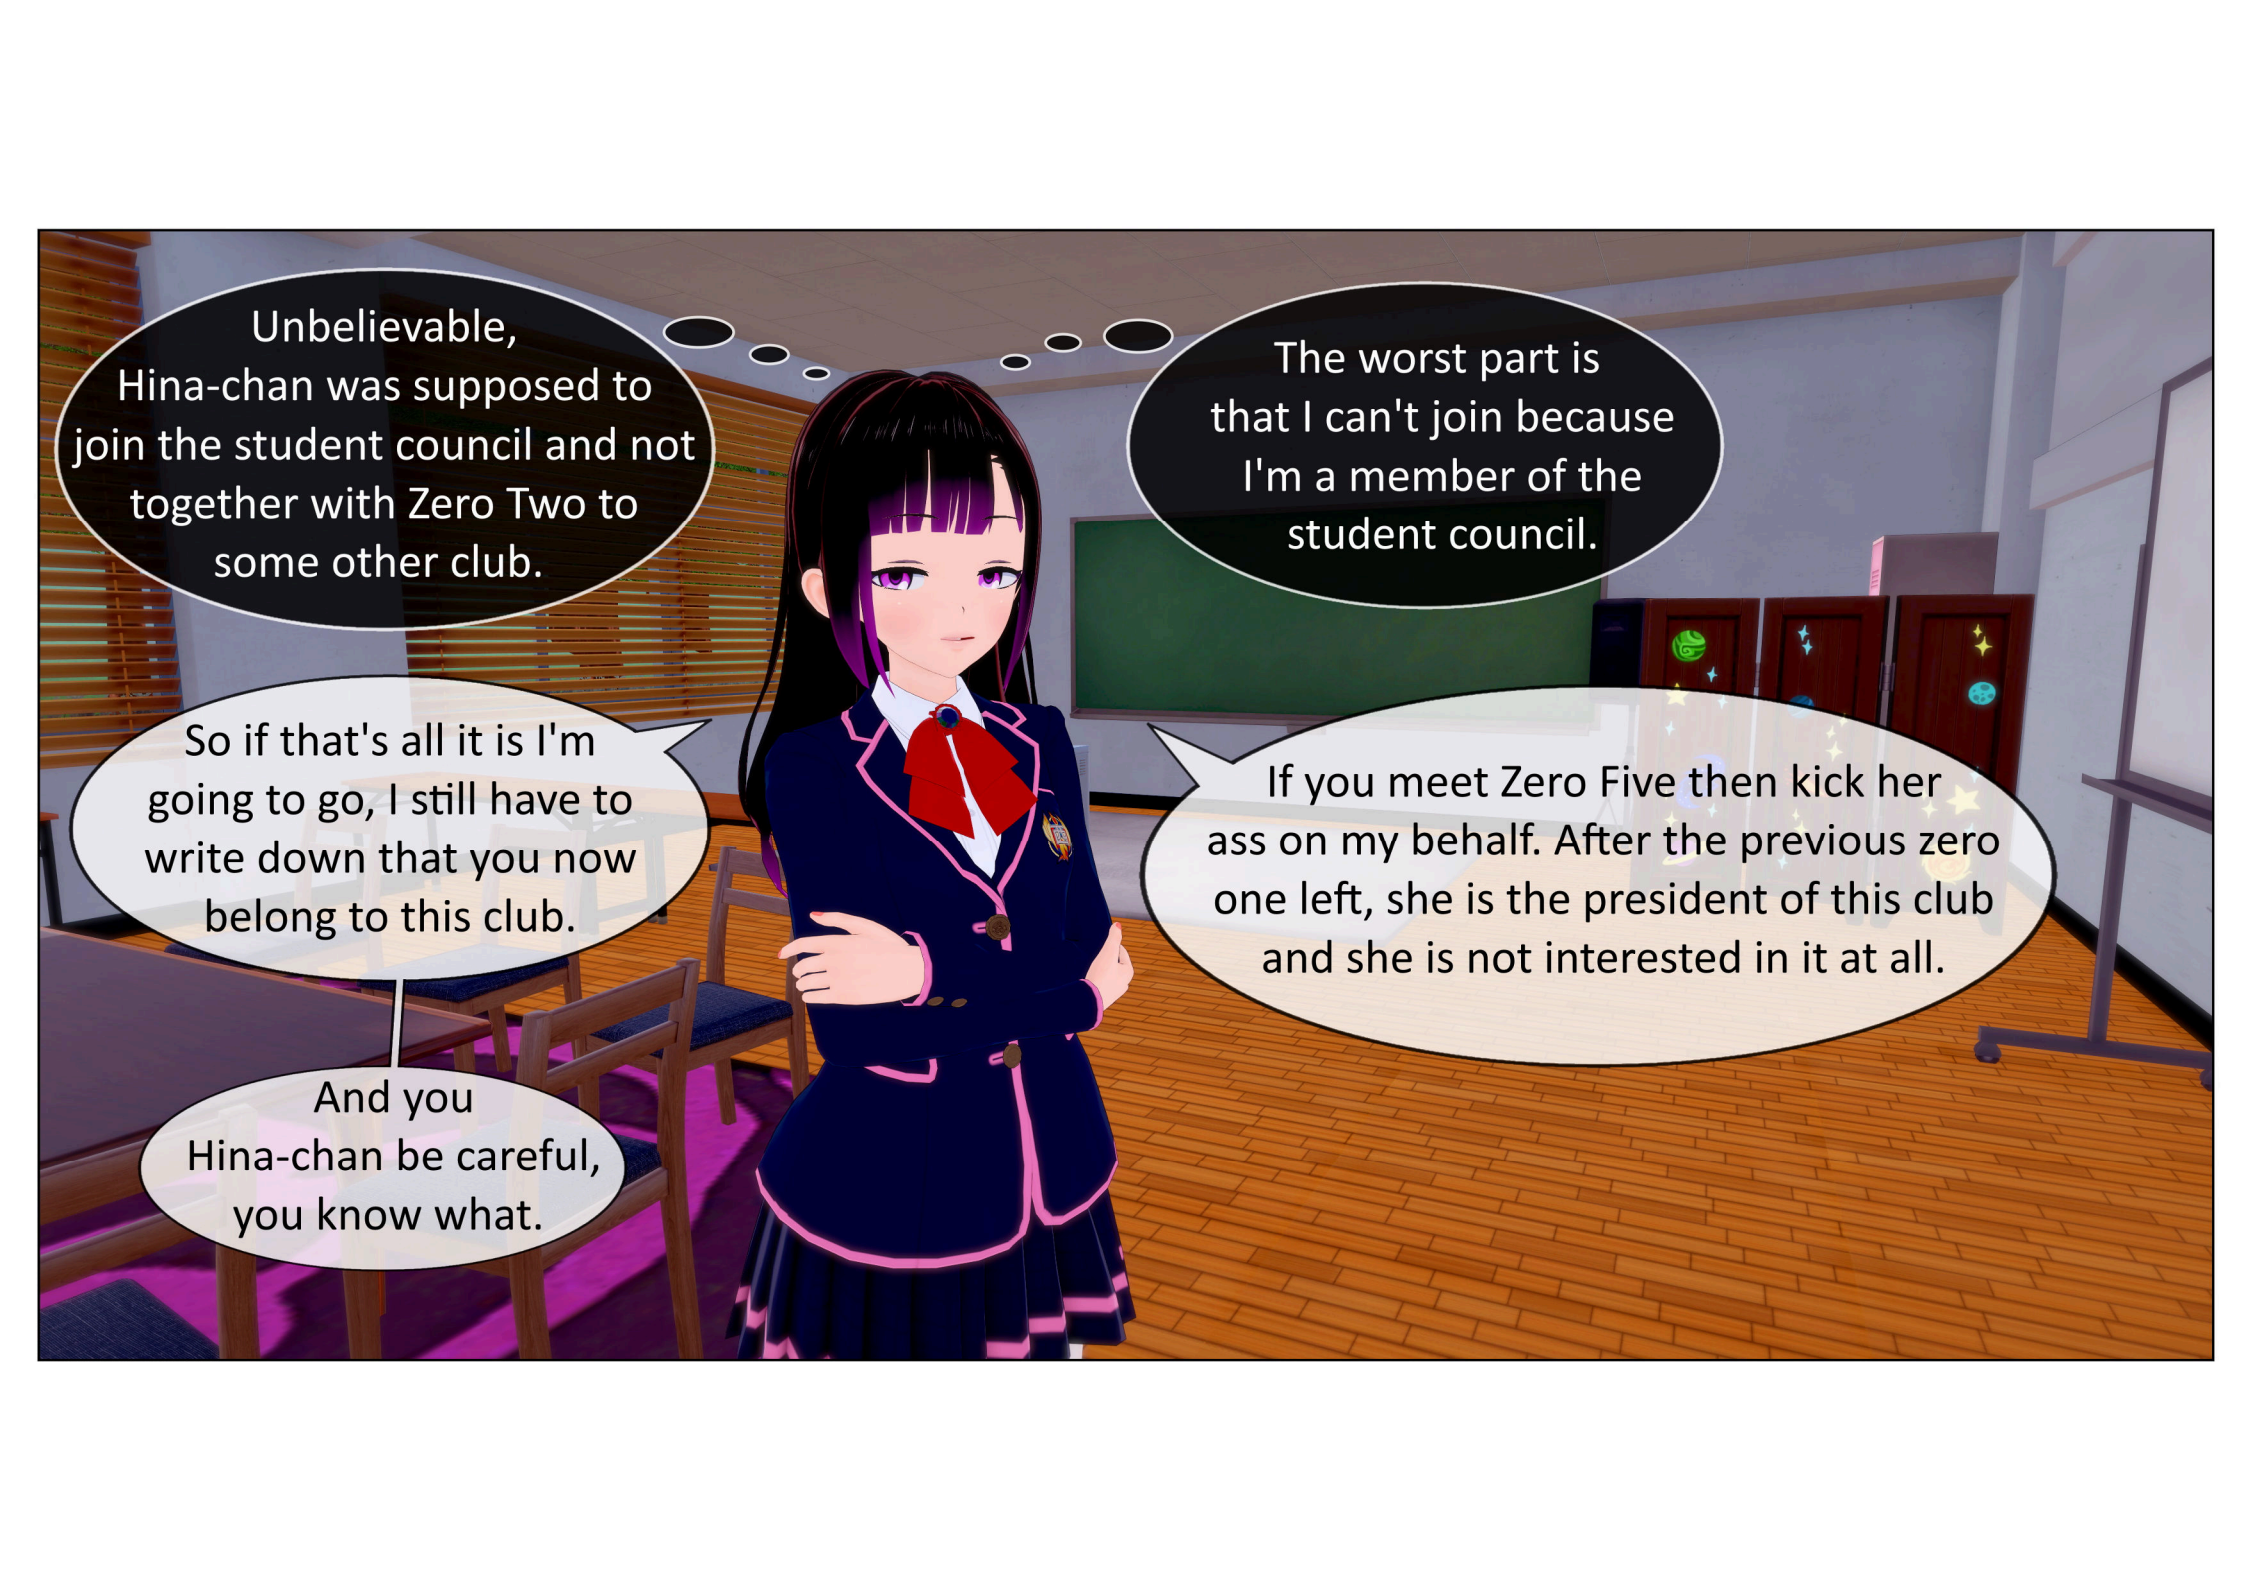

Thank you, but I prefer to go where Darling is. So how, can I?

What?

Are you serious?

Well, yes, but I thought you would join some sports club.

Sure, after all, I can't forbid you from doing so.

Unbelievable,
Hina-chan was supposed to
join the student council and not
together with Zero Two to
some other club.

The worst part is
that I can't join because
I'm a member of the
student council.

So if that's all it is I'm
going to go, I still have to
write down that you now
belong to this club.

If you meet Zero Five then kick her
ass on my behalf. After the previous zero
one left, she is the president of this club
and she is not interested in it at all.

And you
Hina-chan be careful,
you know what.

Great and don't forget the article even one every two weeks is enough.

I just hope Zero Two doesn't discover that Hina-chan is a guy.

Too bad I can't stay with him~.

Sure I'll be careful.

Right, after all, Saki-chan does not know that Zero Two has long known that I am a guy.

By the way, I wonder who the other girls of the golden five are?

So what do we do, Darling?

Great in that case I'll help you.

Just like you. hehe

Er... Actually, I wanted to join this club so I could practice again.

But you're a girl.

Besides, I forgot to take my sports outfit with me today.

Back to the present....

And to make matters worse, she forced me to put on this stupid outfit.

Yes, say I really had to put it on.

We were really lucky to find these workout outfits and just in our sizes.

Of course, after all, we can't over-sweat our uniforms.

I say I can't go on anymore.

But let's get back to trainings.

Legs a little wider.

Say when you feel a slight pain.

Good, and now very gently.

No, just now I had to get excited.

embarrassed

Now I feel it.

Let's just hope she doesn't notice the bulge in my pants.

You see, it's better right away.

Say it wasn't so hard at all.

Sure, I also think that's enough for today.

You must be joking.

Can we finish now?

I must admit that for your first time you did pretty well.

It's the same as me. hehe

In time we'll get to that too, but first we need to improve your flexibility.

Then, even without developed musculature, you will be in better condition.

Thanks, I used to practice a bit.

But why all the stretching at all. I thought we were going to do push-ups or squats.

Really and this will also help with flabby muscles?

Of course. Even more than if you were doing push-ups.

By the way, what are you hiding there?

Hina-chan, you're not very good at lying, you know.

You can't get dressed now.

I think I've stretched myself a little too hard, it'll pass soon.

Maybe I'd better get dressed now, the lesson is about to end.

What?
Why not?

No, but I have
no choice, if I go out
like this the girls will see
this bulge.

Yes, it's
probably not a bad
idea, right?

Er... What?

You're all
sweaty, do you want
your uniform to smell
like sweat?

And you
planned to hide it
under the skirt.

The idea is not
bad, but we will use
a different skirt.

Some time later...

I have terrible luck today.

So that's what you had in mind.

No, I just hope that no one will be angry that we took these things.

Yes, but admit the idea was not bad, right?

Don't worry, he's probably forgot about them long ago.

Besides, we have to wash them anyway.

What?

Why didn't you tell me before?

embarrassed

Because only now I noticed it .

But don't worry after all this is a school for girls so the sight of a bra will not surprise anyone here.

Your bra is also showing through.

In that case, see you tomorrow.

It would be much worse if you didn't wear it.

It's okay I parked my car nearby. So I'll be home soon then I'll change.

Until tomorrow, Hina-chan.

Because I don't like it, but I had to change into something to keep my uniform from getting sweaty.

embarrassed

Yes, but I forgot it at home. so I had to take this one

What's this outfit, I thought, you don't like women's clothes?

But after all, I gave an outfit for exercise. Why didn't you wear it?

I see, well, next time don't forget it.

Okay, but can we go now, this outfit is humiliating.

I hope the doctor will tell you how to cure me.

In my opinion, you look cute.

But you're right we have to hurry a bit after all you have a doctor's appointment in half an hour and you stink with sweat.

Don't worry, I'm sure she will help you. Just don't mention that you are a guy.

What, but after all, the doctor must know that I am a guy.

Yes, without them she could not treat me.

I get it.

Relax she knows after all she has seen your documents, right?

And others shouldn't know, so just to be safe pretend you're a girl.

In case you meet someone there who knows you from work.

An hour later at
the doctor's...

Good , the
ointment you
prescribed me
really helped.

It still itches a
little but not as
much as it did at
the beginning

And how are
you feeling today
Hina-chan?

In time it should
stop completely.
Now let's talk about
your results.

I've already called your aunt about it but I don't know if she told you anything.

Yes, it seems that you have a serious hormonal disorder.

She probably means that they are so small.

Of course, hormones regulate the body, so yes.

She said they are very bad.

It doesn't sound very good, could there be breast problems from this?

I knew it, that's why my chest is kind of weird.

Can it be treated somehow?

In such cases, hormone therapy is performed.

Unfortunately, there are considerable costs involved.

That won't be a problem

We can start right away, I have everything here in the office.

If it is necessary I will pay.

I just have one question when could we start?

Great then what are we waiting for?

But auntie you can't pay for everything for me.

Hina-chan,
this is about your
health, you can't
joke around
with it.

No buts. So how,
can we start?

Yes, but...

Yes, just let me prepare
everything. Hina-chan, sit on that
bench and get ready, I'm about
to give you an injection.

A moment later...

Ow!

Good and now please don't move.

As she was talking about hormone therapy I thought I would get some pills and not an injection in my butt.

If I had known earlier I would have taken some male panties with me.

But how could I know, now she will probably laugh at me.

Alright,
that's all for
today.

Come back in
two weeks for the
next injection.

Of course
not, you have
to go through all
the therapy.

That's not
the end of it?

I see.

Strange, she was not surprised that I was wearing women's panties.

No matter, the good thing here is that she didn't laugh.

That's probably the case.

Maybe she thought they were men's panties? After all, they are no different from men's except for the sewing.

Although Aunt Sora said she knew I was a guy so maybe she explained everything to her.

In any case, she told me to pretend I was a girl so I'd better do it that way.

On the way home...

Thank you, Auntie, for paying for me.

Of course.

No problem, after all, I know you don't have much money right now yet.

And once you get your first paycheck you will pay for these injections yourself.

Great that you understand. And by the way, one small thing.

I try, but it's not so easy.

And what if Ichigo calls?

As you talk, you sometimes use the masculine personal form.

It's seemingly not a big deal because anyone can make a mistake, but try not to do it.

I know, just try to always speak as a girl.

Here you can make an exception but otherwise don't use the masculine form.

In Japanese, prefixes are used
"Ore"- the masculine form
"Watashi"- the feminine form

Of course
not.

If someone
found out that I was
pretending to be a girl it
would be my end.

After all, we
don't want too many
people to know about your
secret , right?

His friend
is terribly
problematic.

I hope their
contact will cease
because it threatens
my plans.

embarrassed

I don't think you're serious, I won't flirt with guys.

It's too embarrassing besides I'm a guy.

And going back to the issue of money why don't you try a little flirting with customers at work.

I'm sure you would then get a lot more tips.

If I'm not mistaken you are currently a girl and for a girl it's not strange to flirt with guys.

Yes, but...

In theory, yes.

Yes, but to flirt
with guys?

Hina-chan
doesn't take it too seriously,
just take it as part of your
job.

After all, that's what you
get paid to do, to provide
friendly service, right?

You see and I'm sure
you'd like to be able to buy
yourself something from time
to time, right?

If that makes you
earn more then what's
the harm in trying.

Because they are terribly tight.

By the way, I noticed that you don't wear those aids what I gave you, why?

I know, but that's what they're supposed to be after all, they're supposed to hide things.

After all, you don't want the situation from today to happen again, do you?

I guess because you were against wearing a skirt, so something must have forced you to do so.

Did you notice?

I wouldn't have to worry about someone discovering my secret.

Although I must admit that the idea was quite good to hide it under the skirt.

If you wore skirts all the time and these aids, there would be no chance of anyone noticing that you are not a girl.

Exactly, and these are just clothes, you can always take them off.

You're right, it's just clothes and there are still two months left, so it's better not to risks.

E... Well, never mind.

I won't even mention that she calls me a girl. In fact, I really should get into the role better.

But that's not until after the payoff anyway.

Smart girl, I knew you would understand.

You won't have to wait so long Hina-chan it so happens that I have a little gift for you.

A gift?

shocked

Really, and
what is it?

Yes, I was going
to give it to you a little
earlier but I didn't know
if you would like it.

And now you'll
even find it useful.

It's a surprise.

Some time after
returning home....

I hope that in
that case she will like
the gift from me.

It's good that
I finally managed to
convince Hina-chan to
wear a skirt.

It may seem a bit
silly but I feel a bit like
I have a daughter now.

Done.

And how do I look?

Thanks but I still don't understand why you bought me another pair of shoes after all I already have similar ones.

Really great, these colors suit you.

Because these fit better with summer outfits.

By the way everything fits , nothing is too tight?

embarrassed

Yes, but
don't you get the
impression that it's
all ... you know.

A little too
girly for me.

I mean after all
I'm a guy and walking
around in something like
this is humiliating.

You don't have to
be embarrassed after
all you are a girl now.

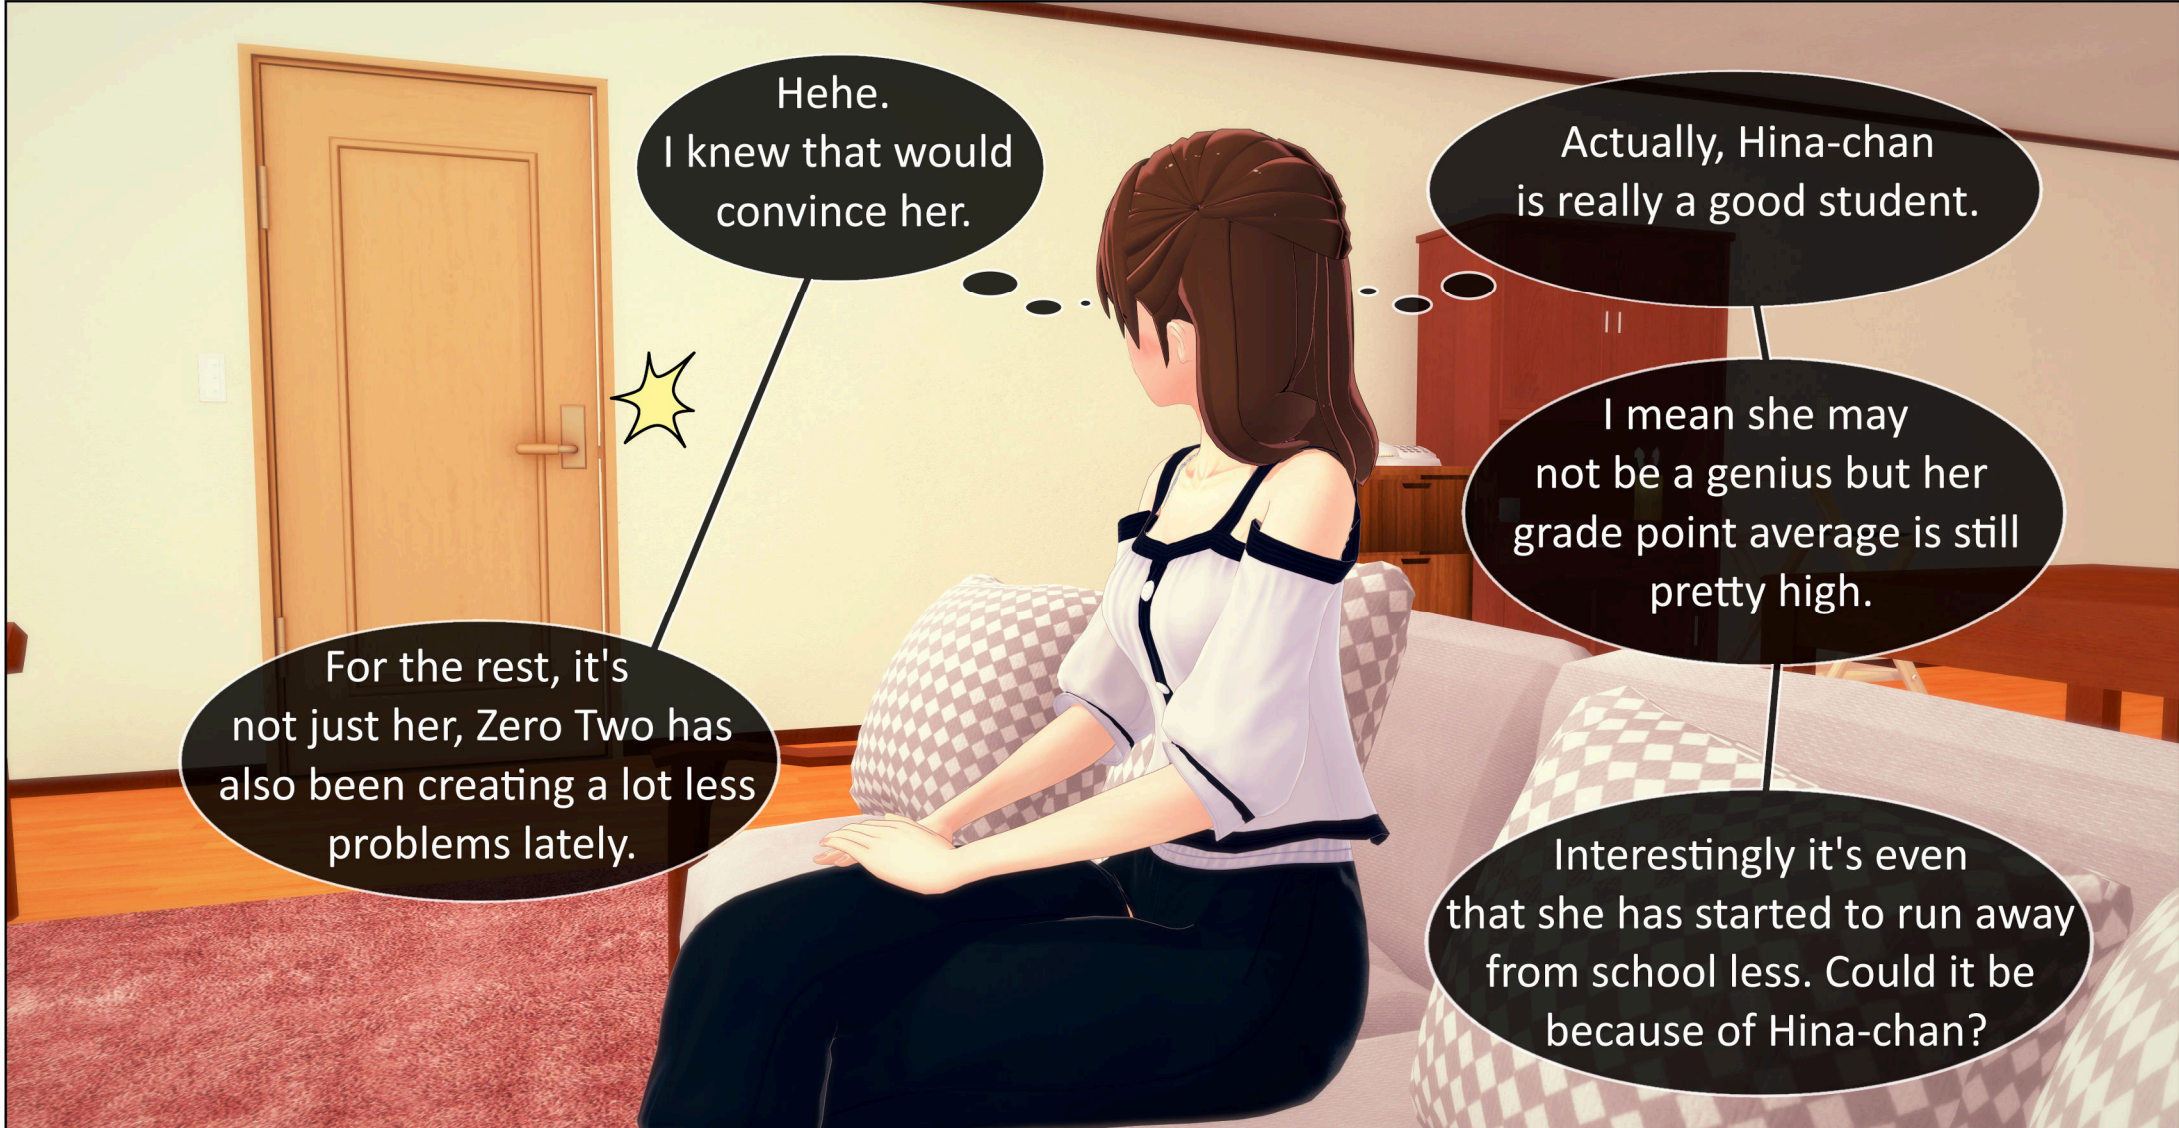

Besides, it is precisely because you are a guy I had to choose such an outfit.

That's why I preferred not to take risks and chose an outfit that clearly shows that you are a girl.

After all, if I had chosen something too masculine someone might have noticed that you are a guy.

I see, but doesn't it really seem excessive to you to wear such an outfit?

Hehe.
I knew that would
convince her.

Actually, Hina-chan
is really a good student.

I mean she may
not be a genius but her
grade point average is still
pretty high.

For the rest, it's
not just her, Zero Two has
also been creating a lot less
problems lately.

Interestingly it's even
that she has started to run away
from school less. Could it be
because of Hina-chan?

In Hiro's room...

Phew... that
was close.

I feel it's
less embarrassing
after all.

Besides, I
would still have to wear a
female uniform so I wouldn't
gain anything.

I definitely
prefer to wear women's
clothes than artificial
breasts.

Especially since it
would be very strange
if my breasts suddenly
got much bigger.

I hope this will all be over soon.

Because it's either just my imagination or I'm starting to look more and more like a girl.

Although maybe it's because of these adjustments to my disguise.

In the end,
Aunt Sora said we
had to improve my
disguise.

It's obvious that
it won't be too easy to
make everyone believe
that I'm a girl.

But what's strange
about that after all
I am a guy.

Fortunately, so far
no one has noticed
anything yet.

phone rings

I wonder who it is calling me at this hour.

But yesterday I just panicked.

phone rings

After all, if I keep avoiding her she might notice that something is wrong.

Maybe it's Ichigo, today I won't be able to disconnect so quickly again.

Today I have to come up with something already after all I can't avoid her indefinitely.

And I'd rather she didn't find out what I was just doing.

Wow I see that this time I did not have to wait a month until you finally answer .

I see, and anyway what was that supposed to be what you did yesterday, why did you hang up so quickly?

You know how worried I was that for so long you didn't give a sign of life and when you finally pick up you sound like a girl and hang up after a few seconds.

Sorry, my phone broke down and I only got a new one since yesterday.

I'm sorry, I'll try to answer the phone from you more often now.

What's with your voice, anyway?

Yes, what the doctor said.

Sigh The one you went to yesterday, after all, you said yourself that you were going to the doctor.

With my voice?

I forgot to change my voice.

stressed

What doctor?

Oh yeah, right, the doctor said I have a hormonal disorder.

What!!?

Hormonal disorder, that sounds very serious.

And that's why your voice started to sound so strange?

Hiro? Are you still there? Just don't hang up the phone again.

Oh no, that's not what I was going to tell her.

What should I do now? If I don't think of something quickly she'll find out something is wrong, or worse she'll discover I'm pretending to be a girl.

Breathe in.

Breathe out.

Hiro?

Hiro!

Okay, first I need to calm down.

Why am I not like Saki-chan or Zero two they would surely know what to do. After all, neither of them gave out my secret.

I think I already know what to do. I'll do the same thing I do all the time.

I am a strong and confident girl.

I am a strong and confident girl.

Since I'm not like them I have to become like them for a while.

I'll just do what I've been doing so far and play my role.

Hiro!
If you don't answer right away, I'm calling the police that you've been kidnapped.

Don't scare me like that again!

So what about your voice, is it because of these hormonal problems?

Yes, sorry I was thinking.

Sorry, I won't do it again, I promise.

No but I wanted to do hormone tests.

And the thing with my voice is just a harmless cold, it should pass soon.

In Ichigo's home...

And as for those hormone tests, you still have a complex about your height?

Besides, I like you just the way you are.

That's good because I was already starting to worry about you.

Hiro,
I already told you not every guy has to be tall.

By the way, I have a surprise for you.

A woman with short blue hair is standing in a kitchen, talking on a mobile phone. She is wearing a light-colored, ribbed sweater and a blue skirt. The kitchen has a white countertop, a gas stove, and yellow cabinets. A window in the background shows a sunset. On the countertop, there is a bottle and some glasses. The scene is lit with warm, golden light from the sunset.

A surprise
for me?
What's that?

Come
on, tell me
what it is?

But what
is it?

I won't say.

Well, all
right, I would have to
tell you beforehand
anyway.

I will visit
you soon.

Hiro's room...

My parents
have something to
do in the city where
you live.

They said that if I want
I can go with them and
visit you.

This Sunday.

What?

Shocked

Er... And when exactly
are you coming?

That's in 5
days.

I'm curious to know what's going on with you, it is said that new places change people.

Yes, I'm already looking forward to it.

And how with you have you changed during this month?

Hehe. You are probably much more manly now. Unfortunately I have to go, I'll call you tomorrow. Bye

Maybe a little bit.

To be continued...
