

Family Camping

Part I - On the Backseat with Mom & Grandma

I started reading some of those 'backseat' stories here on Literotica which were very hot and fun to read. Moms fucking sons, aunts fucking nephews and sisters fucking brothers but not many that had the more mature female counterpart of the family, so I decided to write one myself for fun!

It's not heavily story based like my other stories so it's more simplified, which results into hot, family fucking incest from the get go!

Sit back, relax and enjoy it! (And rub one out while you're at it!)

Nick, his mother Carrie and grandmother Aileen watched from a distance as his father Marc and his grandfather Patrick filled the center part of his father's custom Dodge Ram Promaster with tents and other camping equipment until it almost piled up to the roof.

His father always brought out his modified van when they went on their annual camping trip, it had enough space for the stuff they had to take with them and enough seats for the five of them. In the front the driver and passenger seat and way in the back a backseat bench that could easily fit three more people on it.

"You sure you will be able to survive sitting in the back with those two woman, Nick? It's gonna be quite a trip until we reach the hotel where we will sleep for the night!" Said Nick's grandfather to him, already taking his seat in the front next to his son.

"How could I not gramps, I don't mind the company from two beautiful ladies!" Responded Nick as he pinched and caressed both his mother's and grandmother's behinds through their summer dresses, his father and grandfather unable to see him doing so.

"Ha! Rather you than me and Dad over here Son! I wish you luck and I hope they don't chat your ears off with their annoying girly stuff." Added Nick's father. "Now get in, we do want to reach our destination a bit early!"

Nick gently took his mother's and grandmother's hands and guided them to the back of the van. "Ladies first!" He said polite.

Both women giggled. "At least someone around here shows some interest in these 'two women'." Said Aileen loud enough so her husband and son could hear it.

Carrie climbed onto the backseat first before holding her hand out to her son, inviting him in. "Come on baby, we would like you to sit in the middle for this trip." She said seductively, giving him a wink at the same time.

Nick accepted his mother's invitation, he climbed after her and took a seat in the middle. He was surprised with how much room their legs had, it was rather comfy sitting in the back like this. He took a glance forward and noticed that they were literally blocked off from the front of the van. They could only hear his father and grandfather talk very softly, but being able to see them was impossible.

Aileen then climbed in after her grandson and took a seat beside him before closing the door. She placed her hand on his thigh and rubbed it gently back and forth.

Carrie quickly followed her mother-in-law's example and placed her hand on her son's other free thigh, moving it with same speed and motions as Aileen.

Nick smiled at both of them and could already feel the sexual tension hanging in the air. As bold as he could be he reached out to the front of his mother's and grandmother's summer dresses. He slowly brought them up to their waists, hearing them giggle again as he found out that they had their forbidden treasures right out in the open.

Another wicked smile crept onto his face as he looked left and right. To his left his mother's bald-shaven, tight, juicy pussy and to the right his grandmother's equally delicious looking cunt that had some nice trimmed hair, which made it even sexier. Both of their sexes were already sparkling with their female nectar.

Nick felt his cock starting to throb and harden. "Dad, I think we can leave now! We will shout when we need something!" He yelled as both of his hands crept down along the inner thighs of the two woman next to him.

Today was going to be a good day and a perfect start of their trip towards the camping location.

(Nick's perspective)

You might be wondering; how did I end up in this situation? How was it possible for me to flat-out expose my mother's and grandmother's vaginas and to caress their asses without getting scolded to death by them?

I'll keep it short and explain it to you, dear readers, because I know you all are here for the more 'practical' sides of this story.

A week before this annual trip my mother caught me jerking off, me thinking that both of my parents were out of the house. Instead of getting angry she quickly sat down beside me and before I it knew it her soft hands were around my rigid cock, giving me a hand-job like I never had before. As she jerked me off she flirted with me, telling me how much she loved me and that I was the only one that gave her any attention. She confessed to me that she was head over heels for me, a burden that she had been carrying with her for a long, long time.

After she gave me an orgasm of a lifetime we both cuddled up together, she telling her story why her sudden lust and love for me took over.

Apparently she was sick of the fact that my Dad didn't satisfy her anymore, the last few years he was busier with his father and friends to go out fishing or taking trips to their hunting cabin instead of spending some time with his wife and son.

She had always held herself together. My mother is quite a shy and timid woman, she's too much of a good wife so she didn't stand up to her husband. The plus side was that we got to spend a lot of time together, we did all kinds of things while Dad was away. Our relationship was already solid, but things like these brought us even closer together.

So finally, she simply snapped, her love and lust took over and that was the start of our incestuous relationship. We haven't gone all the way yet, this last week was limited to us making out, her jerking me off and me fingering her till she came, something we both thoroughly enjoyed.

Only during one of our incestuous 'plays' we got caught red-handed by my grandmother Aileen.

My grandmother visited us frequently because she too was in the same boat as my mother. My grandfather, her husband, accompanied my father, her son, to each and every trip he made. So she too was denied the attention she longed for. It was rather rare if she didn't visit us during these periods, she had the house key and all so I guess we were just being really sloppy.

We immediately panicked and tried to cover ourselves up. But Grandma simply stood on the other side of the room, a huge smile on her face without any grain of anger. "I knew it!" Was the only thing she said before she quickly made her way to us. And just like with mother, before I knew it her hands were wrapped around my still throbbing cock, jerking me off until I exploded and blasted my sticky seed all over her hands.

The three of us then cuddled up and Grandma explained herself, pretty much in the same way my mother had done. To them I was the man of the house, their man of the house. I loved spending time with my mother and grandmother, unlike my dad and grandfather who did their very best to stay away as much as possible.

And so our three-way, incestuous relationship started. Not only because of the attention and touch the ladies sought, but also because of the love we had for each other. The deep forbidden love those two had for me and the love that I had for them. Mom and Grandma had always been the two most important women in my life and after our confessions to each other even more so.

Now don't get me wrong, I don't hate my Dad and grandfather. But the way they denied their wives and me, their son and grandson, any attention or whatsoever did piss me off. I just couldn't wrap my head around the fact that they had such beautiful and loving wives by their side that they didn't seem to be interested in anymore.

Anyway, that's pretty much what happened the past week before this trip. The three of us fooled around a lot and decided to take it a step further during the trip. If their husbands weren't up for the job to satisfy their ladies than I would gladly be the one to take up on that role. Not only as husband, but also as lover, son and grandson.

Oh yeah, you might want to know how Mom and Gran look like, right?

My Mom is thirty-seven years old, an original southern girl and I swear, she has one of the cutest accents ever. Body wise she's is just a bombshell, another reason why I can't understand my Dad. Dirty blonde shoulder length hair and piercing blue eyes, perfectly fitted for her cute and attractive face. She's rather small but has all the right curves, a pair of heavy breasts that stand proud on her chest without any sort of sag, a fit trained waist accompanied by killer thighs plus a jiggly bubble-butt, and as you know from before, a delicious pussy to die for. Her silk smooth legs and cute little feet complete her goddess like appearance.

And speaking of goddesses, I can't forget about Gran.

She's a one-hundred percent, fifty-six-year-old original Norwegian woman, immigrated to our country when she was just a little girl. She has natural long, silvery gray hair that perfectly matches with her sparkling greenish eyes and her slightly wrinkled, but still beautiful face. As opposite of Mom, she is rather tall, almost on the same height as me. She too has an amazing pair of juicy breasts, probably even a cup bigger than Mom's but with slightly more sag. She keeps herself fit and healthy, a slim waist also accompanied with strong thighs and a jiggly ass that demands to be touched and praised. Her tasty, hairy pussy has been on my mind ever since she showed me it in full glory and so were her long, smooth legs and sexy feet.

To be honest, I pretty much hit the jackpot with these two amazing woman lusting and loving me. And to be truly honest, I didn't feel any

shame or regret towards my father and grandfather. If someone had to show them the love they deserved, then there was no better candidate than me.

Oh, what about me? Well, I'm just your average nineteen-year-old student. Pretty tall, dark messy hair, same blue eyes as my Mom, pretty fit body as I like to work out and an average sized cock, one that satisfied my previous girlfriend enough. (Sorry guys and girls, no huge ten-inch dong that's thicker than a forearm.)

Anyway, I think that's enough explanations for now, let's get this show on the road!

"Alright Son, you keep those two woman busy back there! That will save us a lot of nagging once we arrive at the hotel!" Responded Marc after his son yelled at him.

"Yes Nick! I don't care how you do it but keep them happy and busy so we can have some real 'man time' over here!" Added his grandfather, jabbing at his grandson for being a 'mama's boy'.

Both Carrie and Aileen looked forward and seemed to be shooting daggers out of their eyes toward the front seats through the clutter of camping equipment. His father's and grandfather's comments obviously hurt them, something they had kept up with for years.

But their anger was washed away rather quickly when they felt Nick's caring hands gently caressing their inner-thighs again, slowly stroking back and forward.

"Don't you two worry about that! Gran, Mom and me know how to entertain each other. So you two enjoy your 'man time' over there

while I look out for the ladies!" Responded Nick before leaning back against the backseat.

The three of them waited for another wise-ass response but it never came. The van's engine revved up and before they knew it they were on their way to their camping destination.

"Thanks for standing up for us sweetie." Said Aileen before planting a deep kiss on her grandson's cheek.

"Yes sweetheart, we really appreciate you spending all this time with us, we love you baby." Added Carrie as she too planted a loving kiss on her son's other cheek.

Nick started to blush a bit from the sudden praise. "I love both of you too, I'm glad we became this close together." He responded as he gently kept on caressing their thighs.

The next half hour they just chatted and talked about their plans during their vacation at the camping site. Of course the occasional kisses flew by and the caressing continued too but nothing was of the 'naughty' caliber yet.

Suddenly the windows of the van came down about half way, allowing a slight breeze to flow through the van. It was a very sunny day and the temperature was rapidly increasing, this accompanied with almost no wind made it a very 'sticky' situation.

"Just letting the slight breeze flowing through! Since the AC isn't working we have to use primitive methods. I hope this also turns down their yapping a bit Son!" Came Marc's voice from the front, now jabbing at his mother and grandmother.

"Geez Dad, I didn't know you were such a genius! It must have been hard to figure that out! And don't worry, we are doing fine over here!" Responded Nick sarcastically.

Both Carrie and Aileen giggled at Nick's response, satisfied with the jab back at his father.

The three of them went back to their conversations, chatting it up for another fifteen minutes or so before the situation started to finally turn more 'naughty'.

Nick had decided that it was time to rest both his caressing hands a bit closer to their already leaking pussies. He gently circled and rubbed their pussy mounds with precision, teasing both woman immensely.

Aileen started to coo cutely as her grandson's hand and fingers slithered through her pubic hair, rubbing and passing just above her already erect clit, teasing her intensely.

Carrie too mewed out of excitement as her son's hand and fingers caressed the shaven, silk like skin just above her tight and juicy cunt, almost touching her equally erect clit.

Nick smiled and looked back and forth between his mother's and grandmother's faces as his hands worked magic. He loved seeing them all aroused and excited like this. Their faces contorting with pleasure, their voices coming out as soft moans and their bodies wriggling from his touch.

The past week he had pleased both of them in the same way so many times but he couldn't get enough of it. Seeing the two sexiest woman alive giving in to his touch aroused him greatly. He could feel his already hard cock expanding even further underneath his tight shorts.

"Oh God, sweetie... Grandma can't take it any longer... Please do it..." Begged Aileen after a while before lifting her left leg over her grandson's right leg, exposing her now soaked cunt even further to him.

"Yes baby, give Mommy and Grandma pleasure... finger our pussies baby..." Added Carrie as she too lifted her right leg over her son's left leg, exposing her nectar dripping pussy the same way her mother-in-law had done.

Nick could feel his cock throb with the beat of his heart, these two seductive ladies had opened their legs just for him, wanting him to give them love and pleasure.

He gulped one time before sliding both of his hands down towards to the most sacred places that should have been off-limits to him.

Both woman let out a louder moan as Nick traced the tip of his fingers through their soaked labia's and over their stinging clitorises. He ran his fingers up and down in slow, tempting motions across their hungry pussies.

"That's it sweetie" Moaned Aileen.

"Just like that baby, give Mommy what she wants." Moaned Carrie right after her mother-in-law.

Nick kept on teasing both woman for a little bit, watching both of them closely. He could hear their breathing becoming heavier, He could see both their nipples harden through their summer dresses, poking against the fabric of it. He felt them gyrating their hips a little bit, counter clock-wise so his fingers slithered over all the right spots.

Slowly he pushed two fingers of both his hands into the forbidden depths of his mother's and grandmother's pussies. He could feel them sucking him inwards, their walls clasp around his fingers, begging to be violated and pleased by him.

Carrie and Aileen let out another moan of lust as their hotboxes were being invaded by Nick's fingers. As soon as they felt him entering they pushed their waists further forward, helping him reach deeper into their cunts.

Nick started to finger-fuck them gently, in and out, in and out. Squishy sounds roaming through the back of the van, their pussies leaking an incredible amount of juices that started to coat the backseat they sat on.

He moved his fingers in all kind of ways, sometimes spreading them open when he was fully inside of them or making a hook to try and rub their g-spots. Whatever he did, it had a great effect on Carrie and Aileen, both moaning and shaking from excitement.

"Oh my sweet baby boy, keep going like this." Purred Carrie as she brought one hand up to her breasts, pinching and rubbing the soft flesh through her dress.

"Oh sweetie... Yes!" Followed Aileen. Bringing her own hand down to rub her clit while her grandson finger-fucked her pussy.

Her other free hand fell onto Nick's lap, wrapping itself around the girth of his trapped cock. Nick's eyes shot open further as he felt his grandmother's soft hand carefully stroking his shaft through his shorts.

"Oh Gran..." Moaned Nick as he felt himself being jerked off through his shorts.

Not to be outdone by her mother-in-law, Carrie pulled her son's head close to hers until their lips met. They started to make out passionately, their tongues slithering through each other's mouths, swapping saliva and producing moans that vibrated through them.

The whole situation had turned from just talking to a full incestuous sex scene. A mother and son making out while the son fingered her cunt, and a grandmother rubbing her grandson's hard cock through his shorts while he worked her pussy the same way he did his mother's.

And the best of all was that the two neglecting husbands in the front had no idea what was going on behind them.

Nick upped the ante and started slamming his fingers in and out of their pussies, his hands making loud slapping sounds when he plunged fully inside and coming into contact with their sweaty, cunt juice splattered neither regions.

Aileen followed his example and started rubbing her clit faster and meaner, the same went for her other hand which clasped tighter around her grandson's throbbing cock and moved up and down with faster motions. "So good sweetie! So goooood!" She moaned towards her grandson.

Carrie trapped one of her diamond-hard nipples between her fingers and started vibrating the sensitive little nub. She squealed with delight as she felt her son's fingers ramming in and out of her juicy pussy. Their tongues battled even more intense and the moans of pleasure she now produced thrilled through their bodies.

After a minute or so of intense finger-banging Aileen's body started to shudder and buck against her grandson's hand. She quickly brought both her hands up to cover her mouth before she started to climax. Nick felt the fingers of his right hand being pushed out with a tremendous force as his grandmother moaned out of pleasure. With

a loud squishy plop his fingers were released, accompanied by squirt after squirt of fresh pussy juice that shot onto both his grandmother's and his own legs, the backseat and the floor below them were victim too.

His grandmother slumped backward after her orgasm died down a little bit, she slowly removed her hands from her mouth before letting out a comforting giggle. Her body was still shaking and shuddering, her pussy still leaking juices from her first orgasm of the day.

Nick then focused entirely on his mother who wasn't far off herself either. He slipped his finger-fucking hand free from her soaked pussy and moved it up unto her clitoris, trapping the erect nub between his fingers and started vibrating it excessively. He then quickly used his other, grandma cum covered hand to resume finger-fucking her. Her pussy was now being assaulted by both her son's hands and fingers.

Carrie's eyes shot open and tears of pleasure started to run down her cheeks. She too began to buck and shudder as her son brought her to orgasm. Their kiss was separated and Carrie let out a high pitched yelp that could wake up a whole neighborhood. Her pussy clenched around her son's fingers and started convulsing, shooting streams of cunt juice out of it just like her mother-in-law did a few seconds before her. She too quickly brought her hands up to her mouth to keep herself from screaming.

"Hey Son! Did your mother see a bug or something? What was that sudden yelp all about?" Asked Marc out of nowhere from the front, both him and Patrick picking up Carrie's high pitched yelp.

The sudden question unsettled Nick a bit, as if he was caught like a deer in the headlights. Before he could answer his grandmother intervened.

"It was indeed just a bug Marc, your son managed to squash it for us. He's been looking out for us back here." Responded Aileen, giving a naughty wink to her grandson.

"Well... Okay then, just keep it down okay, I try to concentrate on the road over here." Responded Marc mildly annoyed.

"Woman..." Said Patrick said as he shook his head.

Nick then returned his gaze to his mother who was now breathing heavily, her body shuddering, glistening from sweat and the area around her pussy soaked with juices. He gently wiped her tears away and was greeted with a cute little smile.

He let out a sigh of relief and relaxed himself against the backseat. The three of them rested for a while. Both woman coming down from their climaxes and Nick trying to subdue his raging hard-on for a bit, the insides of his shorts were coated with precum.

"That simply was amazing sweetie... I never came so hard from just masturbating before." Said Aileen softly, her soft hand caressing her grandson's cheek lovingly.

"The fact that three of us are really doing this right here... It's just so naughty, but it makes me feel so sexy at the same time... My stud of a son making us cum..." Added Carrie as she cuddled up closer to her son.

Nick remained quiet and simply smiled, feeling the adrenaline still rushing through his body.

"But... Carrie dear, we too have a job to do... After all, we can't leave my cute grandson high and dry after his service, can't we now?" Said

Aileen seductively, leaning forward to make eye contact with her daughter-in-law.

Carrie let out a soft giggle. "Mom, (Carrie called her mother-in-law 'Mom' too.) I have to agree with you, my sweet baby boy deserves some equally exciting reward... Shall we give him the thing we talked about?" She answered Aileen, her eyes sparkling.

Both Carrie and Aileen unclasped their seatbelts and lowered themselves onto their knees, crawling between Nick's legs until they were side by side. There was just enough room in the back for them to be able to do something like this.

"Now this is some sight to behold..." Said Nick softly as he watched his beautiful mother and grandmother sitting on their knees between his legs, side by side and looking up to him with their love and lust filled gazes. They both licked their lips and pushed their breasts forward, revealing the sweaty, glistening skin of their cleavages to their lover.

"Oh Carrie, I think he likes our titties... Shall we give him a little bit more to lust over?" Purred Aileen.

Carrie giggled and nodded. They then both pushed the straps of their summer dresses off their shoulders in perfect synchronization, revealing their big, full and tasty looking fun-bags at the same time. With a bounce and a jiggle, they were released from their entrapment, their diamond-hard nipples pointing straight forward.

Nick let out a soft moan, his cock rapidly rising to full mast again. To be able to see both his mother's and grandmother's huge jugs side by side, four incredible meaty, heavy breasts, it was a dream becoming reality.

Both Carrie and Aileen quickly noticed the massive bulge that had formed once more underneath Nick's shorts. Without any hesitation they both grabbed one pipe of his shorts and yanked it down his legs, freeing his pulsing meat-stick with a bounce. It slapped back against his stomach and left a splatter of precum.

"I think my baby boy needs some relief... Just look at that impressive beast, it's all lively because of us." Purred Carrie as she scooted herself even further forward, her breasts now planted on and against her son's open legs.

Aileen followed her daughter-in-laws approach, both woman a few inches away from Nick's fuck-stick. She gently wrapped her fingers around his thick base and stroked his shaft a couple of times, resulting in her grandson moaning softly.

A fresh wad of precum splurged out of his cockhead and dribbled down the length of his cock, coating it and his grandmother's hand. She wiggled it back and forth a couple of times before positioning the thick staff towards her daughter-in-law.

"Go ahead darling... Mommy has the privilege of tasting her yummy boy first." Said Aileen with a foxy tone, offering Carrie to taste the forbidden fruit first.

Nick's heart started to beat into overdrive. He was about to get a blowjob from his own mother and the changes were pretty high that his grandmother would have a go as well.

Carrie kept her eyes focusing on her son's face as she slowly leaned forward and wrapped her soft lips around her son's cockhead, immediately tasting his liquids. She expertly swirled her tongue around the base of his cockhead and prodded his slit after every complete swirl.

"Ooooh fuck Mom!" Moaned Nick as he watched his normally shy and quiet mother giving him the blowjob of his life. Her electric blue eyes sparkled with lust and love as she went down on her own son.

Carrie pushed herself down a little bit further, taking in a couple more inches of her son's throbbing cock. She started to bob her head up and down in a steady pace, her tongue twirling along and around his saliva and precum coated shaft with every movement.

"That's it baby girl, taste that delicious cock of your son." Purred Aileen as she watched in amazement. Her hand held Nick's cock in position as he was blown by his mother. She brought her other free hand up to his balls and started to caress them carefully.

"Gran!" Moaned Nick even louder as he felt his grandmother's hands fiddling around with his cock and balls. As a reaction he threw his hand forward and cupped Aileen's impressive left tit, sinking his fingers in the soft flesh and kneading it.

"Th wuffh mwhy bhbys chck! (I love my baby's cock!)" Moaned Carrie loud as she took in another inch or two of her son's cock, almost fully devouring him. She bobbed a bit faster, slightly gagging as his cock reached the back of her throat.

Aileen licked her lips again, ready to have a go herself at her grandson's cock. She had removed her hand from Nick's balls which now rubbed her soaked pussy lips. She let out a yelp when Nick pinched the erect nipple on her tit.

Carrie bobbed up and down a couple more times before letting go of her son's cock with a loud plop. A string of precum mixed with saliva hung from Nick's cockhead to her mouth, she smiled at her son before grasping the string with the palm of her hand and wrapping it around her son's cock. She gave him a couple of hard, squishy sounding jerks before pointing the glistening meat-stick towards her mother-in-law.

"Grandma's time, baby." She said seductively.

Before Nick knew it he watched his grandmother plunging down onto his cock with her hungry mouth, almost taking it to the base in one go. Aileen had now planted her hands on either side of his spread legs, giving her some grip to suck his cock hard and fast.

"Ooooh shit, Gran!" Moaned Nick again, trying to keep his volume down.

Aileen had taken off her brakes and bobbed up and down on her grandson's hard cock with rapid speed. She sucked and slurped away, creating some very erotic sounds as she swallowed him deep with every motion. Her saliva infused with Nick's precum trickled down the length of his cock, onto his balls and the backseat underneath him.

"Who knew Grandma could be so nasty and sexy at the same time, right baby?" Said Carrie with a wicked grin on her face, watching her son being expertly sucked off by the woman that birthed her husband. She felt a ripple of orgasm running through her body, this sight alone was able to make her climax.

Aileen suddenly rammed the full length of Nick's cock down her throat and then proceeded to hold her mouth clamped around the base, her nose brushing against his pubic hairs.

Nick's teeth grind together as he felt his grandmother holding his cock in a deep-throat lock, her tongue still swirling around his shaft and the vacuuming effect of her mouth driving him crazy.

She held it like that for a few more seconds before slowly moving her sucking mouth back up until it rested on his cockhead. She gave it a couple more sucks before also letting it go with a loud plop.

"Carrie, baby, let's finish him off with the thing we discussed..." Purred Aileen after some heavy breaths.

Carrie quickly joined her mother-in-law, their faces closely pushed together and a mere inch away from the rock-hard cock in front of them.

Nick was already close to blowing his load, seeing these two beautiful woman pleasing him was like a gift from heaven. And according to them the best thing had yet to come.

Carrie started to nibble on her son's cockhead while Aileen slithered her tongue along his cock-shaft. Nick was now being taboo double teamed with immediate results.

The woman carried out all kinds of combinations. Licking, sucking, kissing and nibbling on the meat-stick in front of them, always two hungry mouths attacking it at the same times.

Aileen sucked a few inches of his cock while Carrie licked his balls, Carrie slithered her tongue on top of his cockhead while Aileen ran her lips along his shaft, both woman pushing their lips together on either side and trapping the slickened stick between them as they ran their mouths up and down.

Nick was stimulated from every nook and cranny possible and the fact that the woman doing it were his own mother and grandmother aroused him even more so.

The dual attack went on for a few more minutes before Nick had to surrender, he was going to cum and he was going to cum hard.

Carrie and Aileen too could sense that their lover was on edge and close to exploding, his cock throbbed and expanded as their mouths still worked it.

Nick suddenly jumped up, surprising his mother and grandmother. He wrapped his right hand around his precum and saliva coated fuck-stick and started to jerk himself off hard. "Mom... Gran... Gonna cum! All... Over!" He moaned as soft as possible.

Both Carrie and Aileen quickly took a position, side by side, in front of him. They pushed their tits up and opened their mouths, hungrily waiting for their lover to release his thick seed all over them.

"Uh Son...? Are you alright over there?" Said Marc out of nowhere as he saw his son's flushed face sticking out above the large pile of camping equipment in the rearview mirror.

"Y-yes! Yessssss!" Shouted Nick, responding to his father but also letting the girls know that he was exploding.

The first thick streaks of seed blasted across his mother's and grandmother's faces, who both let out a giggle of enjoyment as the warm semen struck them. The second barrage shot into their open mouths and against their chins, which they immediately started to swallow. The final ropes of incestuous cum covered their heavy breasts, covering them from top to bottom, nipples included.

"I... I'm... Okay Dad, just... So hot!" Stuttered Nick to his father as his body shook and trembled from his climax.

"You can say that again Nick! Don't worry though, we are gonna make a stop at the next petrol station so we can fill up the van and cool ourselves off a bit." Responded Marc. "By the way, I haven't heard a lot from those two back there, you sure seem to have them under control Son!" He added.

Nick smiled weakly. "I... I have my ways I guess... We... We just know how to... Entertain ourselves correctly while on the road..."

Patrick spoke up too. "Well, you should share some tricks with your Gramps then, because honestly, I have no clue how to handle that woman for the past few years!"

"S-sorry Gramps... That's my secret... And mine only..." Said Nick before he slumped back down onto the backseat.

Marc and Patrick looked at each other and shrugged their shoulders at the same time, a bit surprised by the weird conversation with Nick. Patrick quickly turned up the music again, refocusing his and his son's sights on the road.

Nick gasped for air on the backseat, his eyes closed and his heart still beating rapidly. The woman had managed to drain his cum reservoir with an incredible sexual, incestuous love play.

After a few more breaths he slowly opened his eyes and was rather surprised by the sight in front of him.

"Wow!" Was all he said as he watched his mother and grandmother making out with each other, occasionally licking away the streaks of semen that had covered their faces and tits before their hungry mouths swapped it.

Nick could already feel his cock responding again, the two most important woman in his life sure had the power to make him hard instantly, no matter how tired he was.

He sat back and enjoyed the show, both woman sometimes looking him straight in the eyes as they kissed and licked each other. He

knew that his mother and grandmother were close but to see them behave and doing this was on another level.

"Hey you three! We are close to the petrol station, get yourselves ready to take a piss or other stuff because I'm nothing waiting longer than necessary!" Shouted Marc to them from the front of the van.

Both woman stopped kissing and let out a sigh. They cupped their heavy breasts back into their summer dresses and straightened themselves out a bit. They then took their seats next to Nick again.

"Baby, you were incredible! Mommy loves you very much!" Said Carrie happily as she cuddled up to her son, giving him big kiss on his cheek.

"Oh yes sweetie, you are such a caring and cute stud! Thank you for making me and your mother feel like real woman again." Said Aileen as well, cuddling up to her grandson in a similar way before giving him another loving kiss on his other cheek.

Nick wrapped his arms around their shoulders and held them close. "And thank you two for loving me this way... You both are incredible, beautiful and sexy woman! I hope we can do a lot more stuff like this!"

The three of them then cuddled for a while, waiting to reach their rest stop at the petrol station.

Carrie and Aileen quickly made their way to the female restrooms when they arrived at the petrol station, they had to take care of some 'girly' stuff as they had explained to Nick.

Of course their husbands had expected them to do a little shopping for some beverages while they filled up the van. (You really need two 'manly' men for a chore like that.)

So instead of waiting for their wives they shoved that task into Nick's lap, who would have done it anyway if they just had asked him.

"I swear Nick, if you ever find a woman of your own then pray to God that she is somewhat useful." Said his grandfather to him as he 'assisted' Marc with filling up the van.

"I think I can handle myself in that department Gramps, you just have to know how to show them some proper affection." Responded Nick as he walked off to the store inside the building.

"Since when did he become such a smartass?" Asked Patrick to his son.

Marc shrugged his shoulders once more. "That's what happens when you are a mama's boy I guess, he has been a wise-ass to me ever since Mom and Carrie started hanging around him more often."

After a few minutes the five of them had returned to the van. Nick had brought beverages and snacks, the van had been 'expertly' filled up and the ladies had finished their 'girly' time in the restrooms.

Suddenly Patrick yelled at his wife. "Aileen! For Christ's sake, clean yourself up properly woman! You just have been in the restroom for who knows how long!"

Aileen gave her husband an angry glare. "What is it this time Patrick? It might be a handy idea to explain what is wrong instead of getting pissed off as usual!"

Patrick then made a gesture and pointed at her chest.

Both Carrie and Aileen traced their eyes to where he was pointing and saw what the commotion was all about, they both let out a giggle as they spotted a light remaining streak of Nick's cum on top of her right breast.

"Oh this? Honey, this is just a leftover of your grandson's 'personal' sunscreen. It's so hot and I don't want to get burned, I just forgot to spread it around this spot I guess." Answered Aileen with a grin before smearing the 'sunscreen' across the soft skin of her right breast.

"It's a high factor sunscreen that I have Gramps, we don't want Gran to get burned, do we now?" Added Nick with a smile on his face.

Patrick sighed and shook his head. "You know what... Just get back in the van you three, we still got some travelling to do before we reach the hotel."

Carrie and Aileen let out another giggle, much to the annoyance of their husbands, before they climbed into the back again along with Nick.

Nick could already feel a new sexual tension hanging in the air when they returned to their seats. He had regained his energy and the ladies were all cleaned up and fresh again. He wondered what the rest of the trip had in store for him.

The first fifteen minutes or so were uneventful in the back. Nick casually chatted with the two ladies about this and that, occasionally

getting interrupted by the two grumpy males in the front to throw them some more snacks or an additional bottle of water.

One thing he did notice was that his mother and grandmother couldn't keep their hands off him. They caressed his legs and arms or wrapped their own around his shoulder or waist, never really letting go of him as if they wanted him to do something naughty.

He loved that the three of them could be so close now after all the hurtful denials and the not caring attitudes that his father and grandfather gave the woman he held very dear and himself. He knew that after this vacation, heck, after this ride to their destination, that their lives would drastically change. An incestuous relationship with not only his mother but also his grandmother had been a deep, dark twisted fantasy of his for a long time, a fantasy that was growing shape very quickly.

"You know sweetie, your mother has a really dirty, naughty girl personality locked away under that perfect housewife persona of hers." Said Aileen as she rubbed her grandson's chest gently.

Nick turned his head towards his mother who was blushing heavily, her head becoming as red as a tomato. She also nervously fiddled with her fingers, probably knowing that something was about to happen.

"She shared some very naughty things with Grandma... Naughty things she wants to do with her sweet boy..." Aileen turned Nick's head back to her, seeing an equally red flush on his face as well. "Do you want to know what she said to me in the restrooms sweetie?" She asked with a foxy tone.

Nick gulped and shook his head very slowly after a bit of thinking about the possible options himself.

Aileen let out a giggle and leaned towards Nick until her mouth was close to her grandson's ear. "She told me that she wants her baby boy to fuck her, right here in this van, on the backseat behind her husband's back..." She whispered seductively.

Nick gulped again and could feel his cock already swelling to full mast once more, his own mother really wanted to cross the final line with him, and right here on the spot of all places.

His grandmother then surprised him. She unlocked her seatbelt and immediately straddled his lap, her legs on each side of his, her massive breasts a few inches away from his face and her hairy pussy already pressing up against his erect cock.

Carrie let out a soft gasp as she watched her mother-in-law straddling her son without any hesitation, she really went on with the fantasy she had described to her in the restrooms at the petrol station. She could feel her arousal growing with the second, her pussy already contracting and moistening.

"Truth be told sweetie... Grandma also got really aroused by your mother's fantasy... So... Do you... Do you want to fuck Mommy and Grandma? Make love to us while our neglecting husbands are so close?" Asked Aileen with a whisper, her nipples hardening while she slowly gyrated her pussy against her grandson's rigid member.

Nick looked up to his grandmother's sparkling eyes through the cleavage of her breasts, knowing that there was no way for him to say no, even when there was a chance to get caught.

"Y-yes Gran... I want to... I want to fuck you and Mom... I've dreamed about it for so long. Fucking you both while Dad and Grandpa are so close... I don't know why but it arouses me even more... I want to love you both like they should have been doing all this time."

Aileen smiled and relaxed herself on top of him. "Then make love to me and Mommy sweetie... Do whatever you want to me... I am your woman now..." She whispered, surrendering and offering herself to her grandson, seeing the love and lust in his eyes.

The first thing he did was bringing up his hands up to the bust of her summer dress, with a quick motion he stretched it forward and pulled it down, releasing his grandmother's marvelous tits with a bounce and a jiggle.

Nick licked his lips as saw the pair of tits he fantasized about so long right in front of his eyes. He leaned forward and started to suckle on one of her diamond-hard nipples, quickly switching between both of them to equally appreciate the sensitive nubs.

"Oh God! sweetie!" Moaned Aileen as she felt and watched her grandson suck on her glorious breasts. As a reaction she used one hand to push his head against her tits harder while her other rested on his shoulder to maintain balance.

Nick's tongue and mouth ravaged between the two globes. Sucking, kissing and licking her nipples, painting the soft flesh with his saliva as his tongue squirmed around every nook and cranny. At the same time his hands dropped down, raising the dress up to her waist before grabbing a handful of her jiggly butt-cheeks.

Aileen's hairy pussy was now in the open and rapidly wetting as it mashed against her grandson's thick meat-stick. Her labia ran across his shaft before resting on top of his cockhead, her lips molding around it and wetting the fabric of his shorts.

The added pressure of Nick's hands kneading and pushing her ass in all directions increased her arousal greatly, the sounds and feel of him slurping on her meaty breasts and the fact that his erect cock was prodding against her forbidden entrance helped pretty well as well.

Carrie watched in amazement as her son pleased her mother-in-law, seeing her sweet boy turning into such a sexy, hungry stud made her heart beat abnormally fast. She had already freed her own breasts from their entrapment and was now laying back against the backseat, pleasuring her wet, aroused pussy with both her hands while her eyes were glued onto the grandson/grandmother pair.

After sucking, grinding and kneading his grandmother for a while Nick decided that he was ready for the final stage. He slipped one of his hands off Aileen's ass to pull his shorts down, freeing his throbbing cock from it.

Aileen let out a muffled yelp as she felt the bare skin of her grandson's cock-shaft resting against her soaked pussy lips, softly sawing back and forth so that her labia molded around his shape.

They were now so close to incestuous intercourse that she couldn't take it anymore. She pushed herself up a bit with the aid of Nick's shoulders, her hungry and dripping pussy now hovering above her grandson's flesh-arrow.

Nick let out a stifled moan as he felt his grandmother's juices dripping down onto the head of his cock, mingling with his forming precum before trickling down along his shaft. Aileen slowly lowered herself until her lips started to spread open around the head of her grandson's cock, inviting it inside to her treasured place.

She looked down one last time to meet with Nick's glistening eyes and his flushed face. "Fuck me sweetie, sink that fat cock of yours into Grandma... Show me how much you love me." She moaned.

Nick then placed his hands onto her ass again before slowly pushing her down onto his spear. He started to moan again as he felt his grandmother's pussy invading his cock inch by inch. Her walls

clasping around his shaft, sucking vacuum as if her cunt wanted to devour him whole.

Aileen had to cover her mouth with both her hands as an unending moan of pleasure started to emit from her. Her eyes shot open as she felt her grandson's thick cock invading her, claiming the tight insides of her inch by inch until it finally came to rest against the door to her womb. Her cervix suckled onto the tip, feasting itself on his spurts of precum.

Grandmother and grandson were now fully connected, fully connected in a forbidden incestuous way that both of them had dreamed and fantasized about for so long. This was the pleasure Aileen had begged her husband for, for so long. And today she was given that pleasure, by her own stud of a grandson, Nick.

"H-hold m-me s-sweetie! G-Grandma I-is..." Blabbered Aileen through her moans. Her body started to shudder and convulse as her pussy walls molded around the thick cock that was inside of her. She was having a climax from just putting it in. Her juices seeped out of the tight gap where they were connected and soaked her grandson's balls, legs and the backseat underneath them.

Nick was not in a position to say much in return as he was being smothered by his grandmother's tits. He held onto her tight, just as she had asked. He could feel her pussy contracting around his cock like mad, he had sex before but this time it was on a whole other level.

After a short bit of calming down his grandmother started to slowly bounce up and down. Their bodies softly slapping together as Aileen started riding her grandson. His cock hit all the right spots inside of her, making her moan uncontrollably again.

"Gran... This is incredible..." Said Nick as he kneaded her ass, guiding her a bit with his own movements. His eyes switched between

his grandmother's flushed, erotic face and the pair of voluptuous breasts that bounced in front of him.

Aileen noticed his stares so she brought up her hands and cupped her tits, offering them to her hungry grandson. "You can do what you want with them sweetie, Grandma likes her tits sucked while being fucked." She purred seductively.

She didn't have to tell him twice as he immediately went along with her suggestion. Nick claimed both her pillowy fun-bags again and hungrily suckled on her hard, sensitive nipples as his cock plunged in and out of her greedy cunt.

Aileen squealed and cooed as she was being pleased by her grandson, a big smile on her face and tears of happiness in her eyes.

She expertly slammed down onto his lap, sometimes gyrating her hips to stir his cock inside and other times taking in just a few inches so her pussy muscles got to work his cockhead. Her sweaty tits were now soaked with saliva, her nipples stinging out of excitement because of the mouth that clasped around them, suckling, kissing and gently biting them.

Nick hips started to move too, slowly ramming upwards every time Aileen came down. This resulted in him fully penetrating her as they perfectly synched up with each other. Their juices splattered around their lower bodies with every slap that they made.

"Yes! Yessss! Fuck me sweetie!" Moaned Aileen as she used her hands once more to steady herself with the use of her grandson's shoulders. She gasped for air softly each time his cock invaded her fully and rammed against her cervix. Her own grandson had the perfect cock to fit into her cunt.

Carrie was now totally hypnotized, taking in the sight of her mother-in-law, her son's grandmother fucking the shit out of each other. The added risk of getting caught by their husbands made her nervous but very excited at the same time. She could hear, between the moans and bodies slapping together, that the two in front were listening to music. She hoped that it was loud enough for them to not hear the incestuous sexual acts behind them.

"Fuck Gran... You are so sexy, feeling so good... I love you!" Moaned Nick between his suckling and fucking. His hips now pistoning up and down like he was on auto-pilot, his hands kneading Aileen's jiggly ass and his mouth feasting on her twin mammaries. He also loved the feeling of her pubic hair brushing against his sensitive skin each time she slammed down onto him.

A few minutes went by like this, non-stop incestuous fucking with both of them moving in various ways to give each other the pleasure they sought. But all good things must come to an end, both Aileen and Nick could feel their orgasms starting to bubble up rapidly.

"Nick... Oh!... Grandma is... Urgh!... Going to cum!" Moaned Aileen as she felt her body starting to convulse again, her hungry pussy clamping and sucking vacuum around his cock, wanting to milk him so his explosion would set off her own.

"Oh shit! Ugh! Me... Me too Gran, I'm gonna cum too!" Moaned Nick in return as he too felt his grandmother's unrelenting cunt choking his wiener with everything it got.

Aileen took a few more deep penetrating slams onto Nick's cock before she quickly leaned forward, cupped her grandson's face and deeply kissed him full on his lips. Not only out of love but also to dampen their moans as they came.

And cumming they did.

Nick's hands and fingers dug into Aileen's juicy ass as his cock slammed one last time deep into her. He then started to unload shot after shot of his thick seed straight into his grandmother's womb, his whole body bucking upward as he had the orgasm of a life time.

Aileen could feel her grandson's hot seed blasting into her baby chamber, his orgasming moans trembling through their mouths. This was the final push for her as well as her body started to wildly buck, shake and tremble. Her female juices started to squirt and seep, mixed with the Nick's baby batter, out of her fully stuffed cunt. Her eyes rolled back in her skull as she too had an orgasm like never before.

Carrie herself could feel an immersive shock running through her body as she saw her son and mother-in-law climaxing together. Small squirts of her own nectar blasted out of her pussy that she was heavily stimulating with her hands. She knew that she couldn't take it any longer, she wanted her son to fuck her too, right here and now, whatever consequences they may had to face if they were discovered.

Aileen slowly slipped off her grandson after a while, his cum coated cock releasing with a loud plop as she let herself fall down onto the open leg space between the camping equipment and the backseat they sat on before their fuck session. She gasped heavily as she felt the still warm seed running out of her contracting cunt. She brought her trembling hand up to her pussy and scooped out an impressive wad of semen, slowly bringing it up to her mouth before tasting it.

She let out a satisfying moan as she licked and sucked her cum covered fingers. "Oh sweetie, you taste so delicious... You made Grandma a very, very happy woman." She purred, looking at her grandson who was recovering himself as well. She then noticed that his cock was still rock hard, pointing straight up in the air, softly throbbing as new precum started to form at the tip.

Aileen let out a soft giggle before quietly speaking to Nick. "Sweetie... I think your mother is in dire need for the touch of her baby boy..." Her eyes moving from Nick to Carrie.

Nick snapped out of his recovering state and slowly followed his grandmother's eyes, what he saw made his cock tremble even wilder, his heart started to beat into overdrive and his body heating up all over again.

Carrie was lying on her back on the backseat, one leg spread on top of it and her other onto the floor. Her head resting on the armrest at the end, her glistening, lust and love filled eyes fully focused onto him. One hand slowly working through her soaked pussy lips and the other pinching away at her erect left nipple.

"Baby please... Please come and fuck Mommy... Make love to Mommy baby... I can't wait any longer." She softly moaned over and over again, waiting for her son to make incestuous love with her.

Nick said nothing as he slowly crawled over to his mother, his unbelievable cute, sexy and hot mother that was begging for him.

He crawled until his body was on top of hers, their sweaty skins coming into contact, his cock sliding over her pussy mound and thighs, leaving trails of precum, her glorious pair of tits mashed against his chest with their hard nipples poking into him.

Carrie smiled at her son like an angel before cupping his face with her soft hands and bringing it closer to her own. They watched each other for a few seconds when their foreheads came together, seeing the love and lust sparkling in each other's eyes. Slowly their lips met each other, starting a passionate and love filled kissing session.

"So cute..." Whispered Aileen to herself as she watched from the side with a huge grin on her face. She felt a shock of happiness running

through her as she saw a mother and son showing each other their deep forbidden love in such an incredible way.

Carrie and Nick's bodies connected as if one, rubbing and caressing each other from head to toe as their mouths and tongues hungrily made out in every way possible, sometimes gentle and calm and other times dirty and rapid.

Nick let out a soft moan as he felt one of his mother's soft hands wrapping around the girth of his rock-hard cock, carefully stroking it in every right way, a way that only a mother is able to do so. She jerked him off while sliding him over her thighs, her pussy mound, through her soaked labia, against her ass cheeks and puckered asshole, coating it completely with her motherly juices.

It was like she was preparing him for first time sex, making him feel comfortable and showing him every way before their love making would start off. And it was first time sex in a sort of way, a first time for both of them to engulf into the pleasures of incestuous love making.

Carrie then released their intense kiss that had already lasted for a few minutes. Their eyes met again, already acknowledging that both of them knew that it was time. Carrie nodded and so did Nick in return, no words were said, just their soft breathing and their fast beating hearts produced sound at that moment.

She slowly guided her son's penis to her forbidden entrance, aiming and pushing his cockhead inside just a smidgen, her lips molding around it before letting go of him. A soft moan emitted from her mouth as she felt his throbbing cock being on the verge of fully penetrating her.

"It's up to you now baby... Make love to Mommy, show me how much you really love me... Make Mommy your woman baby... Please..." Whispered Carrie with an emotional tone to Nick.

And so Nick did, he gently pressed forward, inch by inch into the warm, motherly vagina that he came from all those years ago.

Both he and Carrie moaned in sync, he feeling her vagina walls, muscles and juices all coming together to pleasure him in such a way he never felt before. And she feeling the rigid, pulsating, rock-hard, grown-up cock of her own son invading her deepest depths, hitting every sensitive spot with perfection.

And finally, when the son reached the bitter end, his mating organ pressing against his mother's cervix, the door to her womb, the womb where he came from, they both exploded.

Nick had his second orgasm from just putting it inside of her, inside of his own mother. The dream of him making love to her had come to reality, and that reality had send him over the edge as soon he was fully inside of her. Fresh ropes of thick seed squirted into her womb, filling up her cunt further with every throb his ejaculating cock made. He could feel his head spin from this unique sensation, he had never experienced something like this before, not with his former girlfriend and not even when he broke the taboo with his grandmother.

For Carrie it was the same, as soon as her own son fully entered her she couldn't control it any longer. Her whole body convulsed and thrashed around, her juices seeping out of pussy, her eyes rolling back into her skull as her son blasted his child-birthing seed deep into her womb. A dream being fulfilled and a unique experience richer. Nick was the perfect man for her, her own flesh and blood, her precious baby boy had now claimed her, there was no way she could ever go on without him by her side from now on.

"Mom!... Mom!... I love you!" Moaned Nick through his gasps for air as he came.

"Oh my baby! I love you too!" Responded Carrie with an equal impressive, love filled moan through her own gasps for air.

Their lips found each other again, starting another love filled kissing session as they had to recover from their intense climaxes.

Aileen sat back against the big pile of camping equipment, her legs spread and her hands slowly working her cum and juice covered pussy. Her daughter-in-law and grandson had her full attention.

Nick's cock remained rock-hard as his semen flowed around it, claiming his mother's insides. He was so bent on making her feel good that there was no way for him to grow soft before giving his mother a proper fuck. He felt like Superman, never knowing that he would be able to keep going after two already incredible orgasms.

After regaining some lost strength, he immediately started to move his hips back and forth again, slowly plunging in and out of the gooey, sloppy mess that was his mother's cunt. His sperm and her juices squirted out with each backward thrust, scattering all over their lower bodies and the backseat.

"Yesss baby, fuck Mommy!" Moaned Carrie as she felt her son pumping his cock in and out of her slowly. Her legs wrapped around his waist as a reaction, wanting to feel her boy inside of her as deep as possible.

Nick gently fucked his mother, his balls slapping against her bright, pinkish asshole every time he fully inserted himself. The sounds of their bodies slapping together were accompanied by very dirty sounding squishy noises, produced due to the incredible amount of mixed female cum and sperm that literally flowed in and around their sexes.

Both mother and son moaned as they went on with their incestuous fuck, their bodies grinding, gyrating and slamming together in all kinds of different ways. Every part of their sexes were being stimulated. Nick also loved feeling his mother's big tits jiggling and bouncing tight against him under his chest. The satisfied smile, the moans and look on her face also added more stimulation to him, she was happy again, happy and in love after being denied for so long.

"So tight Mom! You are... Oh! The absolute best Mom!" Moaned Nick as he fucked into his mother, feeling his cock being sucked inside like a vacuum after every thrust.

"Ooooh! You too baby! Mommy... Ugh! Mommy loves that big, fat cock!" Responded Carrie as she did her best using her pussy muscles to milk her son. Every time she felt his cockhead ramming against her baby room she squirted a little. She lovely watched her son's contorting face, his sweat dripping off him and onto her as he fucked her with passion.

Aileen had moved up a little and sat on her knees next to Carrie, she took her daughter-in-law's hand into hers as she watched in amazement, her eyes fixated on Carrie and her grandson's faces. She felt Carrie squeezing her hands as she was being railed by her son.

"Carrie darling, is it everything you hoped for? Is your baby boy doing a good job of loving you?" Asked Aileen with a sultry tone, smiling as she felt Carrie's soft hand clenching hers.

Carrie slowly moved her head to look at Aileen, her eyes sparkling with tears of pleasure. "Oh Mom! It's... Ooooh! It's everything I... Urgh! Everything I hoped for! He's so goooooood!" She moaned in return.

"Mom! Mom!!!" Were the only words that came out of Nick's mouth as he hungrily nailed the woman of his dreams. He upped his pace a bit

faster and harder, his mind was set on giving his mother another incredible orgasm, one she deserved to have.

Their bodies slapped even harder together, skin rippling and turning red from the hard impacts. Juice squirting and scattering everywhere, the backseat even started to creak from the hard fucking it had to endure.

Carrie had tried her best so far to keep herself quiet but she was on the verge of breaking because of the way her son manhandled her. Her moans grew louder with every pound into her craving cunt, her words of encouragement filthier and nastier. She was on the verge of not giving a fuck anymore whether her husband would hear them or not.

She quickly signaled to Aileen, shaking her head from left to right, her mouth slightly open with a trickle of drool running out. She made brief eye contact with her mother-in-law which said everything.

Aileen quickly stood up, turned around and stuck her head over the large pile of camping equipment. "Honey, could you be a dear and turn the music up a bit louder, you two have the full experience over there while we only have the small speakers behind us." She asked with a slightly flushed face as her grandson's freshly deposited sperm trickled down her legs.

Patrick slowly turned his head in mild annoyance. "You know, that is probably the best suggestion you had today so far. We have been hearing all kinds of sounds coming from back there... What the hell are you three up to anyway?" He said.

After that specific question Aileen's heart started to beat rapidly, had they figured out what was going on? All kinds of scenarios ran through her head as she tried to figure out a response.

But before she could answer her husband spoke again. "You know what, don't even bother to explain. You know, me and Marc were just discussing important 'man' stuff over here and I swear you woman have the perfect timing of interrupting everything. You want louder music? Well, here you go! Now stop bothering us!" He then turned the music volume up, muting the erotic sounds of a mother and son fucking their brains out even further.

A small grin of satisfaction crept onto Aileen's face, they both had no clue what was happening. Carrie and Nick had now free reign to continue with their incestuous fucking. She turned around with a cheerful spin, not even bothered with her husband's attitude, and gave a confirming wink to Carrie who was now gripping tight onto her son's body as he crushed his cock into her tight, soaked pussy.

As soon Carrie saw her mother-in-law's confirming wink she went all out. She now also wrapped her arms around her son's body, pulling him even closer and deeper inside of her. "Fuck me baby! Fuck Mommy hard! Pound my tight, wet, nasty, incestuous son cum wanting cunt! Fuck meee!" She screamed at Nick, showing a total different side of her.

Nick was surprised, hearing all these kind of words coming from his usually motherly mother. But that didn't change his mind from giving her what she literally begged for. "You want me to fuck you hard Mom? You want your own son to fuck your heavenly pussy with his incestuous cock?! Then I will Mom! I Will fuck you into the next dimension!" Responded Nick aggressively, his mother had flipped a switch in his brain.

He lunged forward and kissed his mother hard, his whole body now hammering away with everything he could. Every thrust was met with a loud slap, scattering bodily liquids, the now loud creaking of the backseat, his mother's nails digging further into his back and their combined moans of pleasure that vibrated through their mouths. This was nasty, hard incestuous fucking at its best.

A thick white cream started to seep out of Carrie's well fucked cunt, slowly running down along her asshole before dripping onto the backseat and soaking into it. Every time Nick's pussy pounding penis almost slipped out of her a new flood of the thick cream came with it, only to be partially rammed back inside, and splattering over their lower bodies, when his cock penetrated her deep again.

Nick could feel his mother's pussy taking him inside as if it wanted to get impregnated by him, her cervix swallowed away at his cockhead every time he was fully inside of her as did her walls. It felt like his cock was about to get ripped off, so tight was his mother, again, something he had never experienced before.

Carrie hungrily lapped away at her son, making out wildly with him. They kissed, licked and even bit away at each other as he was battering ramming her. And all through their animalistic fucking they never took their eyes off each other, her own were teared up and so were her son's, not out of sadness but out of love and lust.

She bounced her hips up and down to perfectly collided with her son's thrusts, resulting in the deepest penetration possible. His cock fit her pussy like a glove, it managed to hit her all of her sensitive spots.

Aileen was again sitting close next to them, one hand pinching her stinging nipples and the other ramming three fingers in and out of her pussy. She was left breathless as she witnessed something only from her wildest dreams, a mother and son fucking like animals while maintaining an extremely love filled vibe around them. She knew she wasn't far of cumming herself once more.

And the same applied for both Nick and Carrie, he could feel his mother's body starting to buck and shudder as her pussy strangled his cock like a vice. And she could feel her son's pounding prick starting to throb wildly and expand. This was it, their second intercourse orgasms together.

Nick buried his cock inside of his mother with three, hard and deep hitting pounds before letting it rest tight against the door to her womb. He then opened the floodgates and started to spew his thick, warm seed into her baby chamber for the second time, this time even more intense than the first. His cock and balls shook wildly with each explosion of jizz, he was filling her up so much that their combined juices started to trickle, squirt and seep out of the extremely tiny gap where they were connected.

Carrie had a dead man's grip onto her son when he started to unload into her. Both their mouths separated but no words or sounds came out, their climaxes were that intense. Her whole body bucked and shook madly as she was being inseminated for a second time by her own flesh and blood. She did everything in her might to keep him inside of her as deep as possible. Deep down in her mind, through her orgasmic bliss, she had wished that she was off the pills, to be impregnated by her own son. This thought intensified her orgasm even further.

Close next to them was Aileen who was riding out another orgasm too, she had fallen back on her ass and had opened her legs wide. Her hand and fingers circling on top her clit as her juices squirted out of her cunt.

It took a while before the three of them were back to their senses, it had taken at least ten minutes before they sort of recovered slightly. The whole, what should have been a relaxing trip, had taken its toll on them.

Carrie and Nick were still on top of each other, their bodies soaked in sweat, bodily fluids all around them and their hair wild and messy. They lovingly cuddled with each other as they whispered words of affection and love to each other, their eyes still remaining locked together.

"I want to be with you forever Mom... I just love you so much." Whispered Nick as he stared deep into his mother's sparkling eyes.

"Me too baby... Mommy wants to have you by her side for the rest of her life, I love you Nick." Responded Carrie.

Suddenly the rather loud music turned down, they were then greeted with Marc's voice shouting to them. "Five more minutes until we arrive at the hotel! Make sure you all gather everything that you need for the night and the morning because after I lock up the van I don't plan onto opening it again!"

"Oh my! How are we going to clean everything up now?" Said Carrie, panicking a bit.

Aileen smiled to her as she picked up the suitcase that was standing next to her. "I strategically placed our suitcase with all the towels in the back here with us, foreseeing that these... Uh, 'things' would be possible to happen. I don't think we can properly clean everything with them but I doubt that our 'attentive' husbands will bother to climb back here anyway."

Nick pushed himself up slightly and smiled at his grandmother. "Nice thinking Gran!"

Aileen also smiled at him before clapping her hands together. "Now get up dearies! I know we all would like another cuddle session but we got some work to do, and I'm not talking about only cleaning the backseat!"

Carrie let out a giggle as Nick helped her sit up. A thick, fresh load of her son's seed escaped her puffy pussy only to dirty the backseat even further. "Oh my! Sorry everyone!" She said before letting out another giggle.

The three of them laughed and then started the cleaning chore. It had been a rather special trip today, one that would stick with them for the rest of their lives.

"Aaah, I can't wait for a good proper pint of beer when we are in our hotel!" Said Patrick to Marc as he stretched himself outside of the van.

"Me too Dad! we definitely deserve that after our hard day of work, driving and keeping our eyes on the road." Responded Marc before turning to Nick. "Shame that you didn't take a seat behind us in the front Son... But hey, somebody has to keep an eye on those two!" The way he said it was obviously a snare to Carrie and Aileen, though they simply ignored it as they gathered their things for the night.

"Anyway Nick, would you like to sleep in our room tonight or..." Asked Marc, stopped by his son before even finishing his question.

"Nah, I'll stay in Mom and Gran's room. I got rather 'accustomed' to them during the trip here and besides, you snore like crazy. I rather listen to Mom and Gran's cute snores instead of those wood-sawing ones of yours." Responded Nick as he, unlike his father and grandfather, helped his mother and grandmother with their stuff.

"Wow! What a surprise!" Said Patrick. "Well, that means more beer for us so I'm fine with that. Marc, you really have to toughen up that boy of yours, it wouldn't surprise me if he was from 'the other side', if you know what I'm saying."

Marc grumbled something undecipherable as he shook his head.

Nick ignored his grandfather's dumb comment, only to be greeted by the love filled gazes and smiles of his mother and grandmother, knowing damn well that his grandfather had it wrong on so many levels.

After picking everything they needed they separated to their rooms, Marc and Patrick to theirs and Carrie, Aileen and Nick to theirs, but not before making a detour to the lobby to change their room to one with a single king-sized bed.

The rest of the day was fairly normal, they stayed in their rooms and used room service to bring them their dinners. Nick enjoyed spending this time with just his mother and grandmother, no annoying disturbances by his dad or grandfather which they were all glad about.

At night they went to bed early, exhausted from their own 'productive' day in the back of the van.

The three of them went to bed naked, Nick in the middle and on each side of him a beautiful older woman. Both Carrie and Aileen were curled up against Nick, their curvy, buxom bodies partly over his.

They chatted, cuddled and kissed for a while before sleep took over.

Nick dreamt about the possible thing he, his mother and grandmother would do once they would arrive at the camping grounds. And if the things in his dreams would become reality, then he had something to look forward to.

"Mhmmmm... Oh Mom... I love you!"

"Ooooh Carrie... My beautiful daughter-in-law... Mommy Aileen loves you too sweetheart, just as much as your stud of a son!"

Nick woke up to the words of his mother and grandmother, they seemed to be coming from right next to him.

He rubbed the sleep from his eyes, followed by letting out a yawn before turning his head slowly to his side where the sounds came from.

His sleepy eyes immediately sprung open as he took in the image that he was suddenly confronted with.

His mother was on top of his grandmother. Kissing each other intensely, their bodies wriggling against each other, their big tits mashed together and their already soaked pussies grinding on each other's legs.

He could see their tongues battle, swapping saliva, accompanied by moans of pleasure. Tits glistening from sweat as their hard nipples poked into each other. The pussies were he dumped loads of sperm in were producing a waterfall of juices which ran down their silk skins and onto the bedsheets.

This time his cock was not hard because of morning-wood but because the two most beautiful woman in his life were performing a lesbian sex display that would get any right minded man hard.

He snapped out of his gaze when he heard his mother's voice. "Good morning baby... Mommy and Grandma are having some morning fun... I-I was really horny when I woke up... And you looked so peaceful, sleeping so cute... So I didn't wake you up." She explained with a flush of red on her face.

"So she decided to give me, her mother-in-law some morning love instead... I told you that your mother has a 'special' side to her, didn't I?" Added Aileen before gazing her eyes towards her grandson's massive erection. "Mhmmm... Why don't you show us some 'morning love' too sweetie?"

Without any hesitation Nick was on his knees right away and crawled behind the two lovely ladies. He licked his lips as he was greeted with two perfectly heart shaped asses and two tight, juicy, nectar dripping cunts that were ready to be penetrated.

His cock throbbed up and down with his fastened heartbeat, a big wad of precum forming at the tip. Nick wanted to fuck them right away, they were already 'lubed' up by each other. He couldn't wait to plunge back into the two tightest, juiciest pussies in the world.

"Let's see what our BIG boy is going to do sweetie." Purred Aileen to Carrie before they started making out again.

Nick moved forward until his big, hard cock sawed between the ass cheeks of his mother's bubble butt. First he placed his hands on her round bum, he then guided his cock to her soaked labia, rubbed his cockhead up and down a few times and then slammed a homerun right away.

"Oh yes baby! Yesss!" Shouted Carrie, releasing her passionate kiss as she felt her son's schlong ramming inside of her until it fully filled her up.

Nick pistoned out of her like a mad man, pumping his mother's tight pussy with a smile on his face.

After a minute of fucking or so he pulled out, her lips greedily sucking onto his cock, not wanting to let go. He then aimed his juice covered

cock to the hairy pussy beneath his mother's and rammed it inside just like he did before.

"Oh yesss sweetie! Fuck Grandma's incestuous cunt!" Yelled Aileen as her grandson's impressive pecker rammed all the way to her womb in one stroke.

Again he fucked like a possessed person, his grandmother's juicy pussy clamping down on him like a vice.

Both woman moaned with pleasure as their son and grandson fucked them equally passionate, switching between the two after a few hard, deep fucking thrusts.

Their juices blasted out of their cunts, splattering and covering their bodies and the bed as Nick's thick throbbing cock invaded their hotboxes. They quickly returned to kissing each other while being filled up to maximum capacity.

"Ugh! You two... You two are my everything! I love you Mom and Gran! I love you two so much!" Moaned Nick as he slapped hard against their sweaty bodies.

The hotel bed creaked like crazy, their sloppy pussies making lewd squishy sounds and loud slaps from bodies crashing together, followed by shrieks, moans and dirty words of pleasure roamed through the hotel room. The three of them didn't care if they were heard by other's, this was exactly what they needed this morning, a hard, nasty incestuous fuck to start their day.

It came to Nick's mind that this was their first official threesome, something he would gladly do more in the future. He also hoped that he could just watch his mother and grandmother pleasure each other while he jerked off from the side. All these lingering, naughty thoughts made him even more vicious.

He rapidly slammed into the two females, plunging his raging cock into one tight, cock hungry pussy before switching over to the other one and then restarting the whole process. He loved hearing his mother and grandmother scream and moan out of pleasure between their kisses. He certainly was doing his job correct.

"Ooooh Carrie, you naughty Mommy! Look what a monster you have created!" Shouted Aileen through her moans as she looked her daughter-in-law deep in the eyes.

"A Incest loving son and grandson Mom! That's what WE created! Ooooh yes baby! Fuck our pussies with that thick cunt plunger of yours!" Shouted Carrie in return before mashing her mouth onto Aileen's once more.

The three of them fucked like rabbits for a couple more minutes before fate had decided that it was time to let loose.

Nick took his throbbing cock and rammed it between both of their pussies, his cock sliding over their pussy mounds and bellies as it also stimulated their erect clitorises that were mashed against the shaft that was slick with their juices.

Both Carrie and Aileen started to shudder and shake, the stimulation of feeling their big boy's sandwiched cock between their convulsing cunts became too much for them.

"Aaaaaah yesssss!" They shouted in union as they exploded. Their juices powerfully squirting out of their contracting pussies, splashing all over Nick's body and their surroundings.

This whole ordeal made Nick go over the edge as well, as soon as he heard their orgasmic moans and their warm juices hitting him he exploded himself.

Heavy blasts of his thick potent seed shot between the bodies of his beloved mother and grandmother. The first ropes blasted against the underside of their heavy, mashed together, breasts, the second load drowned their bellies with the warm substance and the final ejaculations scattered over their well-fucked pussies as Nick pulled himself free from the incest sandwich.

After cumming his brains out, Nick laid down back onto his original position when he had woken up. He breathed heavily as he stared at the ceiling, he could hear his mother and grandmother doing pretty much the same from beside him.

Slowly but surely both woman crawled back to their original positions as well. Carrie on her son's left side and Aileen on her grandson's right side. Their bodies were glistening from sweat and cum, they didn't bother to clean themselves as they cuddled up back to Nick, even he not caring that his own cum was now being rubbed onto him.

He wrapped his arms around the two most important woman in his life and held them even closer to him. A love filled tension hanging all around them, they were happy, happy and in love.

"Not a bad way to start off our annual camping trip, right sweeties?" Said Aileen after a while as she snuggled up to her grandson.

"It's everything I had hoped for... And so much more... Nick, baby... I love you, and you too Mom." Said Carrie, a little emotionally.

Nick passionately kissed both woman on their foreheads. "Mom... Gran... Thank you both for this... Let's stay together like this forever..." He said before all three of them turned quiet again, just relaxing and enjoying each other's presence.

About an hour later the three of them were in the shower together, washing each other clean with the occasional caress or kiss in between.

Nick had a field day already as he watched the two beauties wash each other and him, their big tits and juicy asses all shiny from the relaxing, hot shower water. This certainly wouldn't be the last of them showering together.

After their shower his mother helped him dry. As she ruffled his hair she suddenly spoke up.

"Oh Nick! I almost forgot to tell you, Jenny will probably come and stay with us for a week or so at the camping grounds." She said excited.

Nick sprung up a little. "Really?! That's great Mom, it will be just like before she left home to study!"

Jenny was Nick's older sister and just like his mother an incredible beauty. He and she always had a good sibling relationship and Jenny was more than often one of the participants in his wet dreams, just like his mother and grandmother were.

He thought about what had happened between his mother, grandmother and him in a short period of time. He then pictured his hot sister together with them, what if...

THE END...?

All right, after writing this story I'm really going to take a break like I said I would, I just had to write and publish this while it was stuck in my head. Also, open ending, so who knows, maybe we will see Jenny joining the party in the future...

And as always, please rate and comment if you would like to do so! I always appreciate it! Private messages are also appreciated; I enjoy getting responses from my readers!

Part II - In a Tent with my Cute Older Sister

Nick and his family arrived at the campsite around eleven in the morning, it was a bright, sunny day so excellent for them to construct the tents and to set up everything else.

The ride itself was like its past ordinary self, reminding Nick of the days before his mother and grandmother had committed incest and started a loving relationship with him.

The three of them were tired from their earlier activities in their hotel room, so they just cuddled up together on the backseat, talking softly with each other accompanied with the occasional touches and kisses. In the front were Nick's dad and grandfather, as usual arguing and talking about their fishing trip once they had set up everything at the campsite.

"And here we are peeps!" Said Marc proudly as he brought his Dodge Ram Promaster to a standstill on the spot that was reserved for them.

Aileen opened the sliding door and got out of the van, she stretched her arms and yawned before turning around to help her grandson and daughter-in-law with bringing out their bags and suitcases.

"Oh my! Looks like nothing has changed since the last time we were here, just as beautiful as I can remember." Said Carrie as she overlooked their spot, illuminated by rays of the sun. She always loved being on vacation on camping sites, the nature, the calmness of everything, for her it was a little piece of heaven right on earth.

"Carrie, work first, relax later. That tent is not going to set itself up you know?" Said Marc as he was busy carrying out his fishing rods from the van along with his father.

Carrie gave her husband an angry glare. "Look who's talking..." She said quietly.

She then felt a gentle but strong hand on her shoulder. "Don't worry Mom, you and Gran can take it easy and look around all you want. The tent is easy to set up so let me handle it." Said Nick with a smile on his face.

"Oh honey..." Responded Carrie lovingly, placing her small, soft hand onto her son's hand, she could feel butterflies roaming through her stomach all over again.

"You are such a gentleman sweetie." Said Aileen proudly as she gave Nick a loving hug from the side. "I know some certain individuals that could learn a lesson or two from you..." She added just loud enough so only Nick and Carrie could hear it, referring her words to her husband and son.

And so their camping trip started. Aileen and Carrie took a seat on their chairs next to their camping spot so they could go over everything they brought with them before making something to snack for everyone. Nick started on setting up the tent right away, and to his surprise his father and grandfather came to help him after a while, after they were done with their more important fishing equipment.

The tent itself was pretty big but easy to construct. It had a large main segment in the middle which flowed into two sleeping compartments on either side and both sides had space for at least three people. But because some of the occupants snored more loudly than others there was a particular mix-up.

Marc and Patrick would be sleeping on the right side, them being the culprits of the snoring of course. And Aileen and Carrie, along with Nick's sister Jennifer (Jenny for short), would be sleeping on the left side.

Nick had always slept in his own tent after he went through puberty, thinking that he was to 'cool' to sleep together with the grownups. But now that he, his mother and grandmother had developed an incestuous relationship he wouldn't mind to be sharing a side of the tent with them. But he knew that Jenny would be arriving sooner or later, and he rather had her sleeping along his mother and grandmother than to let her suffer on the other side.

After fifteen minutes or so the tent was standing strong and sturdy on its usual spot, only the inside of it was left to be decorated. Nick brushed his hands off before turning to his father. "And that's that... Say Dad, mind giving me a hand wi-" He tried to ask before he was cut off.

"Not now Nick, the weather is perfect so me and your grandpa have to prepare our rods for fishing immediately." He responded, shutting his son's question down.

"Yeah, I can almost hear them from here already! 'Patrick, Marc, please feed us those delicious worms!" Added Patrick, Nick's grandfather, thinking he was being funny which only resulted in laughs coming from his son.

Nick sighed and shook his head. "well, alright then, guess I'll set up my own tent myself." He responded before taking his tent bag from the van.

Aileen and Carrie had overheard their conversation and were shooting daggers towards their husbands from their eyes just like they did the day before. "Marc, can't you just give your son a hand? We will be here for at least two weeks, those fishes won't magically disappear, you know?" Said Carrie with an agitated voice, surprising both Aileen and Nick. She was speaking against her husband, something she had never done before.

Marc snickered and turned towards his wife. "Woman! What do you know about fishing? Besides, he's nineteen for Christ's sake! He doesn't need his daddy to set up his tent anymore!" He said as Patrick laughed in the background.

"You... You know what?! Enjoy your stupid fishing then!" Responded Carrie before she stood up from her chair and walked over to her son. "I will help you Nick since it's probably too complicated for your father!" She said loud enough so that everyone could hear it.

"You go girl!" Thought Aileen to herself as she giggled, proud to see her daughter-in-law standing up for herself and Nick.

Carrie placed her hand on Nick's back and gave him a gentle motherly rub. "I will help you sweetheart." She said before giving him a kiss on his cheek. "Thanks for setting up the tent for us baby, I love you."

Nick smiled at her, feeling her love making everything right again. "Thanks Mom... I love you too."

And so both Carrie and Nick worked together to set up his tent. Marc and Patrick were cut off from the world as they were focused on their

fishing rods and fishing equipment. Aileen was now busy with making some of her famous fruit snacks, an appetizer that everyone always loved as it was tasty and healthy at the same time.

Another fifteen minutes later his tent was done as well, when Nick turned around he noticed that there was no sign of his father and grandfather, his mother palmed her head and sighed.

Aileen came up to them with a plate full of her delicious fruity snacks. "Don't mind them darlings, they grabbed some of my fruity creations, picked up their fishing rods and left for the lake." She explained as Carrie and Nick served themselves to some of her snacks.

"Ugh! I can't believe it! I swear if he doesn't change his behavior sooner or later then I'm going to give him a smack right across his face!" Said Carrie angrily before taking a firm bite from her food.

Aileen giggled again. "You show him sweetie! God Carrie... It's such a relief to see you firing back some ammo at him. It seems that my dear grandson opened up a whole new world for you!" She said as she gave a wink in Nick's direction.

Carrie started to blush as she heard her mother-in-law's words. "I... I guess so Mom... Nick showed me how a true gentleman, a husband and a lover should treat his lady." She said softly. "I think it ignited a fire in me or something..."

Nick felt a certain proudness as his mother explained herself. He wrapped his arms around both their waists and brought them closer to him. He gave his mother a deep loving kiss on her lips and did the same to his grandmother, who had to stop herself from dropping the plate.

"I'm proud of both of you, they honestly don't deserve such loving wives. If I was married to either one of you, heck, even to both of you,

I would show you two all the love in the world because you two deserve it!" Said Nick as his hands rubbed both their behinds.

Both Carrie and Aileen started to blush even more intense as they cuddled up further to Nick, pressing their impressive busts into his sides.

"We know baby... That's why we love you very, very much... And believe me, we both are going to show you exactly how much in these two weeks..." Whispered Carrie seductive in his right ear.

"Yeah sweetie... Leave everything to Grandma and Mommy... We will show you just how much we truly love you... In each and every way possible..." Whispered Aileen just as seductive in his left ear.

Both women then leaned forward and gave Nick a lustful, loving kiss on his lips, sliding their tongues against them. Nick opened his mouth a bit so he could dart out his own tongue. Before they knew it they were French kissing each other passionately, sharing their incestuous love together. They knew that they shouldn't act like this in public but the camping spots around them were still empty and there was no one in their near vicinity. They kept the kisses going for a while before separating themselves, feeling all their problems washed away yet again.

Carrie and Aileen were busy inside of the large tent, decorating and installing all the things that needed to be inside of it, sleeping bags, pillows, clothes, etcetera.

Suddenly a very familiar female voice came from outside of the tent.

"Hey y'all! Anyone at home?!" Shouted Jenny as she made her way to the all too familiar tent of her parents.

Carrie and Aileen immediately made their way outside of the tent, knowing who the sweet and chirpy voice belonged to. It had almost been a year since Carrie had seen her daughter and Aileen her granddaughter.

"My beautiful baby girl!" Said Carrie emotionally as mother and daughter were reunited.

"Mom, Gran! I missed you both so much!" Said Jenny teary eyed as she gave her mother a hug of a lifetime, she opened her right arm and pulled her grandmother into their hug, resulting into a loving embrace between the three of them.

"We missed you so much sweetie! We're so glad that you will spending this vacation with us!" Added Aileen as she too returned the intense hug with plenty of love.

Jenny didn't want to let go of her mother and grandmother, as the loving hug continued she started to sob quietly. She had missed her family so much that she became a little homesick at her university far away, she already had made plans to move back again so she could be with her family once more. She would keep it a secret for now but at the end of the vacation she would discuss it with her parents.

"Aw baby... It's alright hon, Mommy is here for you..." Said Carrie in her most motherly way as she smothered her daughter's head with gentle kisses. She already had suspicions that Jenny had a lot of trouble adjusting to her new place far away, she always had been a clingy child towards her and Nick when she was younger and was very fond of having them around her.

After a bit longer she was her chirpy self again, the hug ended and the women separated. Jenny rubbed her eyes before she took a good look around their camping spot. "Mom... Where are Dad and Grandpa?" She asked.

"Um... Well, they went fishing as soon the tent was up... You know how they both are honey..." Answered Carrie quite sad, hoping that Marc would have been around to greet his only daughter.

Jenny rolled her eyes while pouting her face. "Ugh... So typical of the both of them, I see that nothing has changed with them..." She said.

"Oh sweetie! You missed your mother standing up to your father, you should have seen his face! He didn't expect your mother to turn into such a fierce creature!" Said Aileen proud.

"Oh Mom... It was nothing special really... Just looking out for my baby boy." Said Carrie as a blush started to appear on her face.

Jenny averted her shocked eyes upon her mother. "What? You really grilled Dad?" She then took a step forward and held her mother's face in her hands. "Who are you and what have you done to my Mom?!" She said jokingly.

Her actions only made Carrie blush even more which resulted in Aileen giggling again.

"Say you mentioned Nick... Where is he anyway?" Asked Jenny after she had let go of her mother's face.

"Oh, he went to the toilets, he had to go really bad afte-" Tried Carrie to say before her daughter darted off towards the toilet and shower facilities.

"Thanks Mom! See you and Grandma in a bit again!" Shouted Jenny over her shoulder.

Aileen took Carrie by her waist as they both stared after the quirky girl running off to meet her little brother. "I bet she missed Nick the most sweetie, which is not a coincidence at all." She said.

Carrie wrapped her own arm around Aileen's waist as well. "No it's not Mom, after all, he has been her best friend since they were little..." Responded Carrie.

Both women turned around and went back to finishing the inside of the big tent.

Jenny had always been fond of her little brother, she always wanted to be the best big sister in the world for him ever since she met him after he was born. They grew up incredibly close, even with the four-year age gap between them. They were best friends, helping each other in each and every way, whether it was about personal struggles or work and school related things, they always sought one another for advice.

One particular event was when Nick was bullied at school, his bullies threatened him and took his lunch money. So instead of going to teachers or his parents he went to Jenny, Jenny being his senior sister at the same school, took care of the problem in no-time after hearing about it.

Her solution costed her a week suspension but her little brother's bullies never were bothering Nick again as she had given them a week suspension straight into the hospital.

Her love for Nick was so great that she sometimes felt incredibly love-stuck when she was around him. Of course she had never mentioned

it to Nick as she knew that society looked down upon something like that, it was her own little secret.

Nick slowly strolled from the toilets as he looked on his phone, hoping to see a message from his sister who should be arriving sometime on this day.

"Scruffy!!" He suddenly heard an all too familiar voice screaming his nickname into his direction, and there was only one person who called him like that.

His nickname came from when he had fallen into a puddle of mud after playing outside when he was a young boy.

He looked up from his phone and a smile crept onto his face as he saw his older sister running towards him with open arms.

He watched as the blonde haired beauty came closer and closer. He gulped when he noticed her big breasts bouncing up and down as she ran, followed by her wide, curvy hips and ass that swung side to side.

Nick had an attraction towards his older sister, she was literally a copy of his mother but only a younger version. Just like Carrie she was an unmatched beauty, although she was even a bit shorter than her.

Nick always called her his big little sister as he towered over her in length, and the big part would be applied to not only her age. Her non saggy, perky breasts were massive, even larger than those of his mom and grandmother. Her ass was incredibly juicy, jiggly and curvy, fitting perfectly on her short, sporty fit frame. Thanks to her

clothes, a short tank top which showed her tummy and cute pierced belly button, and a pair of short Daisy Dukes that hugged her ass perfectly, they were on full display. Her beautiful blue, sparkling eyes that were teared up a bit and her long, blond ponytail with dark streaks in it made her even more gorgeous.

As he braced himself for impact he wondered how she managed to run that fast with her cute little feet encased in her wooden platform heels.

"Scruffy!!" Yelled Jenny again before jumping straight into her little brother's arms. She immediately started to kiss him all over his face before burying her own face into his neck, new tears started to stream down her cheeks after finally being reunited again.

Nick hugged her hard as he too had missed her incredibly much. He could feel her massive breasts being mashed against his chest, he could smell her incredible sweet body odor coming from her. His cock started to twitch and slightly harden from just being close to his big sister.

But he knew that this wasn't time for him to get aroused by her. He gently kissed the top of his sister's head as one arm held her close around her waist while the other comfortably ran through her long, blonde hair.

"I missed you Nick! I missed you so fucking much!" Sobbed Jenny loudly into his neck.

Nick felt a lump in his throat as he comforted her, he had never heard her swear much and if she did then something really serious had to be going on. "I missed you too Sis... I couldn't wait to see you again after all this time." He said with a calm, soothing voice.

Jenny brought her face up so she could look her little brother deep into his eyes. Both siblings stood still for a while, just watching each other, seeing the love for each other glister in both of their eyes.

Jenny then suddenly leaped forward and mashed her lips onto those of her brother, kissing him deeply but not too long, it was an extremely affectionate non-sisterly kiss. She then calmly brought her face to his chest again and cuddled up to him. "I love you Nick." She whispered to him.

Nick smiled again and hugged her even more firmly. "I love you too Jen..." He responded.

"Shall we go back to Mom and Gran?" Asked Jenny after a while followed by a cute little giggle.

"Good idea, they might be wondering what's taking us so long." Answered Nick as they released their hug.

"Yeah, they might be thinking that we were having some 'FUN' together." Responded Jenny, being his all too familiar flirty older sister.

Nick gulped when he heard her say those words, thinking back to what his mother and grandmother were up to the day before. "Y-yeah, that might be a good idea." Said Nick nervously.

His response resulted in another giggle from Jenny who took his right hand with her own. Their fingers intertwined and they walked back to the tent hand in hand. Both siblings felt each other holding hard, as if they didn't want to let each other go.

Aileen and Carrie were taking a break in their chairs outside of the tent after being finished with everything that had to be done.

"Oh look Carrie, if that isn't the most adorable thing in the world!" Said Aileen as she pointed her finger behind Carrie.

Carrie turned around to see her son and daughter holding hands, chatting with each other as they slowly walked back to their camping spot. She could feel her body warm up from seeing the two of them so close again, it was as if they were little all over again.

"Oh gosh Mom... They look so cute together! Almost... Almost if they were a couple of lovers!" Said Carrie excited.

Aileen giggled again after hearing her daughter-in-law's response. "You know... Maybe they did something more than just simply reuniting with each other, they were away for quite a while..." Said Aileen teasingly.

Carrie quickly turned again, her face flushed red. "Mom!" She said a bit embarrassed.

"I mean, it's not as if we had any complaints or trouble getting it on with him, didn't we?" Said Aileen teasingly again, somehow seeing her granddaughter and grandson having the same relation with each other as she and Carrie had with Nick.

"Shhhh Mom! We can't let Jenny know about... About that!" Responded Carrie red-headed, shushing her mother-in-law down. She then quickly turned around again as Nick and Jenny came closer. "At least... Not yet..." She mumbled to herself.

"Aaaah home... Sweet... Home!" Said Jenny as she plopped herself down in one of the other chairs around Carrie and Aileen. "This is

exactly what I need after that long trip. Nature, quietness and my family!"

"Can I serve you ladies with some refreshing drinks?" Asked Nick as he made his way to the cooler, being thirsty himself after setting up everything.

"Me and Grandma will have some wine darling." Said Carrie before turning to her daughter. "You want some too honey?" She asked.

"No thanks Mom, maybe later. What I need now is some cool water, that would make my day." Answered Jenny.

Nick grabbed the requests for the ladies and a bottle of water for himself. He made his way back to the chairs, gave everyone their drinks and dropped down into his own chair.

The four of them got close into a circle and started to talk about all sorts of things. Mostly about Jenny and how their lives were at home. It felt good for all four of them, like their family was truly one again. Although Marc and Patrick weren't present, the four of them felt right at home and frankly, both Carrie and Aileen felt a lot better that their husbands weren't near them.

Later on the day they were busy with setting up the barbeque once dinner time arrived closer and closer. They still hadn't heard anything from Marc or Patrick all this time.

Just as Carrie was about to send a text to her husband her phone jingle went off. She grabbed the phone and opened the text Marc had send her.

Hey, the fishes are biting mighty fine so we will be staying longer, possibly even at night. Don't worry us about eating, we met up with

some other happy campers who had a barbeque with them. They invited us to eat with them so we got that covered. Say hi to Jen from both of us if she has arrived! See you all later.

Carrie could feel her anger welling up again, she deleted the message and threw away her phone into her bag. "Asshole!" She said to herself quite loud.

"Mom? What's wrong?" Asked Jenny concerned who sat close to her.

"Your father, that's what wrong! Goddamnit! He does not even have the common courtesy to greet his own daughter which he hasn't seen for nearly a year! And now he and Grandpa are so interested in their stupid fishing that they possibly stay the night." Responded Carrie fierce and annoyed.

Jenny placed her hand on her mother's thigh and rubbed it gently. "It's okay Mom, just... Just let him be, I will see Dad and Grandpa in the morning... We are here to relax so don't let it get to you."

Aileen and Nick were busy with the barbeque but they quietly overheard everything Carrie and Jenny were saying.

Carrie placed her own hand on her daughter's and held it firmly. "But it does get to me baby... It has been like this for so long, he keeps ignoring me... Me, Nick and Grandma... And now even you..." She whispered to Jenny quietly, feeling that tears started to well up in her eyes.

Before she knew it she was being embraced by her daughter. "Don't let it get to you Mom... If it truly has to be like this than I rather stay with the three of you... You know me and Dad never really saw eye-to-eye, I mean, I still love him and Grandpa too but I... But I love you, Nick and Grandma way, way more... So please, don't let it get to you

and enjoy the time we will be spending together." She whispered in return.

Carrie melted because of her daughter's word and held her close to her. "Since when did you become such a wise-ass honey?" She asked with a giggle as her free hand wiped away her tears.

"Always have been Mom, the last time nearly got me in jail, remember?" Responded Jenny, looking her mother in the eyes with a big goofy grin.

Carrie started to laugh and gently shoved her daughter back a bit. "God... I have missed you baby, all three of us."

"Damn right y'all missed me!" Said Jenny loudly as she placed her hands on her hips and struck a pose. "Say lil bro, are those burgers done yet? Big sis is in need of some food!" She asked as she turned towards Nick who was surprised by his sister's sudden outburst.

"Y-yes ma'am, one burger coming right up!" He responded, faking his over the top scared reaction.

All four of them started to laugh, knowing that this vacation would be just like old times sake. But this particular vacation would also be the one that would change their lives and relationships forever...

Jenny woke up from her deep sleep when she heard someone opening the tent.

The previous night they all went to bed early after their barbeque, all of them were dead tired from the day before. Jenny from her long trip and Carrie, Aileen and Nick from setting up almost everything.

"M-Mom?" is that you?" Asked Jenny as she rubbed the sleep from her eyes.

She could see somebody turn before seeing that it was indeed her mother.

Carrie crawled back into their sleeping quarters to talk to her daughter. "Good morning beautiful, we overslept a bit, it's almost eleven in the morning already!" She said.

Jenny smiled at her before opening her sleeping bag, giving her mother a good view of her curvy body only covered by her bra and panties. "Are you guys already setting up breakfast?" She asked.

"No, Grandma, Nick and I were about to hit the showers. Maybe you can start with setting up breakfast for the four of us if you want? You can take a shower after we return." Suggested Carrie.

"Sure, but what about Dad and Grandpa?" Asked Jenny.

Carrie sighed. "They are already fishing... Again! Apparently they made some new friends who invited them over to fish all day." She explained.

"Oh... Well, that means we will be spending time with just the four of us again, right? Maybe that won't be so bad at all!" Responded Jenny with a grin.

Carrie let out giggle before she gave her daughter a kiss on her soft cheek. "Take your time honey, you are on vacation now so take it easy, we will be back soon, okay?"

Jenny nodded and reached for her nightdress to get into before going outside. She heard her mother, brother and grandmother chatting as their voices became more distant.

She stretched herself out one last time before crawling out of the tent, putting on her flip-flops and making her way towards her father's van to get everything for their breakfast. She let out a sigh of relief when she felt the warm sun rays warming her soft, silky skin. "You gotta appreciate mother nature." She said to herself.

After getting everything ready for breakfast she sat down in one of the chair and just enjoyed the calming sounds of nature as she looked around the area. All other camping spots weren't occupied yet because the vacation period in this region would be starting later than theirs, as much as she liked to meet new people she couldn't deny that being the only ones present at the moment made it so much more relaxing.

After a few minutes she had a change of thoughts. "Mhm, since we are the only ones here I guess it won't be a problem for me to take a shower as well... I'll just lock Dad's van and close the tents before heading off to the showers, this way we can go and do something straight after breakfast." Said Jenny to herself.

She got out of her chair and walked over to her sleeping quarters to grab her toiletry bag together with a towel and to seal the tent. Once she had done that she returned to her father's van, locked it with the key and took it with her.

She stretched her arms again as she made her way to the showers. "A nice, warm shower is just what my body needs right now! But first a little detour to the toilets, sleeping out in the open always gives me

a full bladder in the morning." She said to herself again, enjoying that there were no eyes around to follow her every move as she had experienced before. Jenny always had a fair share of onlookers in the past because of her well-endowed body.

After a visit to the toilet she made her way over to the showers, once inside of the unit she noticed that only the large family shower was being occupied and running.

"Strange... Didn't Mom, Gran and Nick said that they all went to take a shower? I would have expected that three showers would be occupied..." She thought to herself. She then shrugged her shoulders and made her way to the free single shower next to the family shower. "Maybe I just missed them because of my toilet stop, hope that they don't need anything from Dad's van." She thought to herself again.

Inside she got rid of her nightdress with one easy movement before taking off her bra and panties. She then cupped her big breasts and gave them a little squeeze. "Girls, sometimes I despise you two being attached to my body but I wouldn't have it any other way." She giggled to herself before running her hands down to her hips, stroking her silky like skin that was still warmed up from the sun.

Just when she was about to turn on the shower in her stall she caught a voice moaning over the sounds of falling water from the family shower next to her.

"Oh Mom, It's so good!"

"Shhh sweetie! Even if we are the only ones around here at the moment you have to be careful! You know what they say, the walls have ears!"

Jenny's jaw dropped when she heard those two all too familiar voices, there was no doubt that one belonged to Nick and the other to her grandmother.

"Mhmmm... Yes baby, I know it feels good for all of us, but try to be quiet hon, Grandma is right and we have to be careful."

"Oh my God!" Thought Jenny to herself as she quickly brought one hand up to her mouth to silence her gasps.

Being the curious girl she is, and unable to not find out what was going on in the stall next to her she quickly, but silently dropped herself onto the tile floor. There was a pretty decent sized gap between the shower stalls that she would be able to look under, she was also lucky that the lights in the showers building casted her shadow to the other side of the stall.

Jenny gulped one more time before bending her knees and letting herself fall forward until she was able to directly look into the other stall, what she saw shocked her world.

Nick was leaning with his back against the side of the shower stall as her mother and grandmother were on their knees in front of him. She could see how her mother had her mouth full of her little brother's impressive sized cock while her grandmother suckled on his balls.

As the streaming water dropped down onto their soaked bodies she watched how her mother bobbed up and down on Nick's cock with steady speed, she occasionally released him to lick her tongue around his cockhead before plunging back down onto the meat-stick. As she focused her hearing she could hear them moan, moans that were oh so erotic and happy sounding.

She then watched as her mother let go off Nick's cock, reaching her right hand over to her grandmother's ass to give it a grope and sort of signaling to her that it was her turn.

Her grandmother immediately devoured the whole length of her little brother's cock, deep-throating him while she rested her hands on his hips for grip. Her mother lingered her head down and suckled on her grandmother's rock hard left nipple before coming back up to play with Nick's balls, cupping them, caressing them and then sucking on them like her grandmother did before.

Jenny felt her whole body shaking, but not out of disgust, but out of arousal. She had caught her little brother, mother and grandmother committing hardcore incest right before her eyes, the three people she loved most in the world were loving each other in such a way that was despised by society.

Unable to contain herself she brought one free hand up to her pussy, feeling that she was completely soaked. Her juices dripped out of her and ran down her thighs, she was turned on by the act of incest, more turned on than she ever had before.

She slowly slithered her fingers through her labia, feeling her sticky juices acting like a thick sort of glue. She whimpered to herself as her eyes kept on roaming over the three people right next to her. "Oh God... This is so wrong but... Oh God... Nick... Mhmmm..." She quietly moaned to herself.

She averted her eyes up a bit so she could see her brother's face, and seeing his face got her even more horny. Nick had his eyes closed, breathing heavily as soft hearable moans escaped from him. He had his hands on both his mother's and grandmother's heads, gently stroking them as they worked his hard cock.

Unable to look away she dropped her eyes back down, now seeing both her mother and grandmother working Nick's cock at the same

time. They both slid their lips up and down on each side of the impressive shaft, their tongues wrapped under it that even touched each other. Her mother's right hand was cupping her grandmother's big tit while her grandmother's left hand caressed her mother's thighs. She could see their womanly dew dripping down from their pussies onto the shower floor, only to be washed away by the streaming water. Her little brother was producing a steady amount of precum as well, drip after drip trickled out of his cockhead, most of it was lapped up by the two women but the occasional drip dropped down onto the shower floor too.

Jenny worked her pussy slowly, rubbing her lips gently with her sticky fingers. Her large tits were mashed against the tile floor; she could feel her hardened nipples poking against it. "Oh... Oooh Nick... Mom... Gran... What are you doing... Mhmmm..." She moaned to herself as she was hypnotized by the display of incest in front of her.

"Mom... Gran... Please, can we... Can we make love now?" Said Nick after a while.

Both women let go of the impressive cock and looked up at their son and grandson. A wicked smile filled with lust and love on their faces.

"Sure baby, Mommy wants that big cock back where it belongs..." Said Carrie seductive.

"Grandma too sweetie, give us some good pussy pounding, we both waited so long for us to do this again..." Added Aileen, sounding just as seductive as her daughter-in-law.

Jenny's eyes shot open again. "Are they... Are they going to have sex!? Is my little brother going to have sex with Mom and Gran!?" She thought to herself, feeling her arousal growing even further as her fingers started to slide harder and faster against her juice dripping cunt.

She watched as both women took a pose side to side, hands on the stall's wall and their asses stuck out towards Nick who was stroking his hard cock. They were facing away from Jenny so she had the full view of them without being able to get caught.

Nick took his position behind his mother, opened her legs a bit before rubbing his cock through her nectar dripping labia. "Do it baby, fuck Mommy!" Moaned Carrie as she felt her son's fuck-stick on the verge of penetrating her.

Without any hesitation he did as his mother asked, with one deep thrust he pushed his rock-hard cock deep into her pussy and started pounding her fast right away. Their bodies slapped together as Carrie let out squeals of lust.

Jenny couldn't believe what she was seeing, her own little brother was fucking the shit out of their own mother. She watched as her brother's cock rammed in and out of her pussy, her big tits swinging back and forth as they were visible from the gap between her mother's and brother's legs.

"Yes! Yesss! Fuck Mommy baby, give me that big fat cock of yours!" Moaned Carrie quite loud, throwing her schussing from before out of the way.

"Oh Mom! I missed this so much yesterday! I love you, I love making love to you!" Moaned Nick in return as his hands kneaded his mother's juicy ass while his hips smacked and rippled her skin. After a few more slams he leaned forward, cupped her tits and fucked her even harder and deeper.

"Oh baby yes! Mommy loves you too, Mommy loves getting fucked by you so much!" Said Carrie as she felt her son ramming his full length into her, his cockhead coming into contact with her cervix after each deep fuck.

"That's it Nick! Fuck your mother like she deserves to be fucked. But please don't leave Grandma waiting sweetie, Grandma needs to be loved too!" Moaned Aileen next to them as she worked her own juice spilling cunt with her right hand.

Jenny was now quietly moaning non-stop as her fingers plunged in and out of her pussy. "Oh Nick... Me too... I want it too... Come and fuck your big sister too..." She said to herself as she watched her little brother fucking her mother. Her thoughts about incest being wrong were thrown right out of the window as she could feel the obvious love that was surrounding the three of them, how could be something like this wrong? She lusted for it too, she wanted her brother, her sweet little brother she loved so much to do this for her as well.

Nick fucked into his mother a couple more times before releasing himself from her. He wasted no time as he quickly positioned himself behind Aileen and plunged deep inside of her right away.

"Ooooh yes sweetie! Fuck my pussy, fuck Grandma's pussy hard!" Moaned Aileen loud as she too was being assaulted by her grandson. Just like with Carrie their bodies slapped together loudly, streams of pussy juice mixed with precum squirted out of her cunt every time Nick pulled away before ramming in again.

Again Jenny had the view of her little brother fucking another family member, this time her grandmother. She squirmed as she watched his rock-hard cock appearing and disappearing in and out of the mature pussy he was fucking, just like with her mother she could see her grandmother's big tits bouncing back and forth.

"I missed you too Gran, you and Mom's pussies, both so fucking good! Oh God, I love fucking both of you!" Moaned Nick as he rapidly rammed his hips against his grandmother's juicy ass, and just like with his mother he bottomed out against her cervix with each deep thrust.

"Oh sweetie! Grandma loves you too honey! Keep fucking us forever and ever!" Moaned Aileen in return, feeling her grandson's cock invading her cunt. "Oh God sweetie! I bet... I bet you would like to fuck your sister too, don't you!" Said Aileen suddenly, hoping that this would cause a reaction from Nick.

Once more Jenny's eyes and ears shot open. Her grandmother just asked her little brother if he would make love to her too. The suspense of awaiting his answer stirred Jenny even further to stimulate herself, her hand was now gliding through her pussy and often pinching her erect clit.

Carrie too felt a shock of lust crashing through her body when her mother-in-law asked that specific question. Her legs started to shake as she visualized her own son and daughter having hot, steamy loving sex.

Just like with his mother Nick threw himself forward, cupped his grandmother's big tits and started to slam even deeper and faster into her. He then moaned his answer, not knowing that his sister was so close. "Yes I would Gran! I would love to fuck Jenny too, she's so beautiful and kind! I love her just as much as you two!" He almost shouted as if he was confessing a crime.

Hearing those very words coming from her brother was the straw for Jenny, her body started convulse and quake. She quickly rolled onto her back to the side before covering her mouth with both hands. Squirt after squirt of female nectar blasted out of her pussy. She was having the most incredible orgasm of her life because her little brother declared his love for her.

At the same time Nick was close to climax as well, he gave his grandmother a few more deep dicking thrusts before mentioning to both his mother and grandmother that he was about to cum.

Both women quickly got onto their knees in front of him, they cupped their breasts up and opened their mouths just in time as Nick started to unload rope after rope of thick seeds into their mouths and unto their bodies. They greedily lapped up as much of the male fluid as possible before swallowing it all down and then turning to each other.

Nick leaned back against the wall as he watched his mother and grandmother engage into an incredible erotic kissing session, swapping his left-over seed back and forth in their mouths.

"Oh God... Speaking about Jen... Shouldn't we return to our spot pretty soon? She must be wondering what's taking us so long..." Said Nick after turning off the shower, his breath still heavy from his climax.

"Oh my! That poor girl!" Said Carrie after releasing her incestuous kiss. Her motherly nature came rising up in her again right away, just after swallowing a steady amount of her son's seed.

"Oh shit! They expect me to be back at our camping spot waiting for them!" Ran through Jenny's mind as she heard them talk. She quickly, and quietly as possible, grabbed all her stuff and changed into her bedtime outfit again. Her pussy and thighs were still soaked so she quickly rubbed herself clean with the towel she had taken with her. Then she sneaked out of her stall, hoping not to alert them.

She could hear the three of them talking and the sounds of clothing being rustled around so she knew that they hadn't hear her leaving. She quickly returned to their tent, opened up the van, got herself decent and got rid of her toiletry accessories. She then plopped down into one of the chairs, letting out a deep sigh as millions of thoughts ran through her head about what she just had witnessed.

About five minutes later Nick, Aileen and Carrie returned to the tent, acting like if nothing had happened.

"Sorry for taking so long honey!" Said Carrie as she walked up to her daughter before giving her an apologetic kiss on her head. "There were some difficulties with the showers but they should be fixed by the time you will be taking one." She added.

"Oh well, that's a bummer I guess. I didn't mind though; I was just enjoying the sun right here." Responded Jenny, knowing damn well what really had happened. She felt a small shock of lust running through her body when her mother kissed her, knowing where that mouth had been a few moments ago.

"Hey Sis! What about we all go to take a swim in the lake after you had your shower?" Asked Nick happily, totally blind that his sister had seen everything. "We might even spot Dad and Grandpa fishing!" He added.

Jenny looked up to her brother and smiled at him. "Yes sure, I can use some cold, clean water to rinse my body some more. I mean, there are certainly various HOT moments each and every day here." She responded.

Carrie then returned with her phone in her hand and sighed. "Well, about spotting your father and grandfather... We won't be seeing them near the lake. They went way upstream with those new 'soulmates' they got acquainted with." She said with a disappointing voice.

"That son of a bitch..." Said Aileen as she angrily stared off into the distance, shocking her grandchildren as they had never heard their grandmother swear like this. (Apart from when she was getting fucked by her grandson a few moments ago)

"I bet Patrick is behind this, he always had a knack for wrapping Marc around his finger... Say sweetie, did they mention if they stayed for the night... Again?" Asked Aileen.

Carrie shook her head. "No Mom... But I have a feeling that that certain message will be coming later today..." She answered.

"Then we are on the same line sweetie... Kids, I hope you don't mind having dinner and the night to our four selves again." Asked Aileen to her grandchildren.

"No! Not at all!" Responded Nick and Jenny at the same time, they then looked at each other and started to laugh. It was somewhat a little quirk of them to answer questions at the same time.

Aileen cheerfully clapped her hands and smiled at her grandchildren and daughter-in-law. "Alright, so let's get this breakfast started, I'm sure we are all very hungry about now."

"More than you know Gran, more than you know..." Answered Jenny with a small grin on her face.

The rest of the day was a fun packed one, sure, Jenny had the event that happened in the morning burned into her brain but she was having a great time nonetheless. They went swimming in the lake, they took a walking route through the dense forest surrounding the camp site and even met a loving elderly couple that had been living in the area for over forty years that told them all kinds of things that they were able to do in the upcoming days.

She felt right at home again, home again together with her family even though her father and grandfather had been 'missing' for the last two days. She knew that the rest of her vacation would be a blast, even so much that she wanted to tell her mother about her plans to come back home again a lot sooner than she intended to.

After a long, active day they had another tasty, barbeque dinner at their camping spot, still being the only ones that camped in the area. Jenny shared more of her stories while she was away and so did her brother, mother and grandmother. It just felt right for the four of them to be together.

It didn't take long before the four of them were exhausted from the eventful day. As soon everything got dark they said their goodnights and went off to bed, hoping that the next day would be just as fun.

Jenny went to bed with double feelings, not being able to get rid of the scene she had witnessed right before her very eyes in the morning. She felt that her body had been aroused through the whole day, her pussy slightly wet because she was so close to the people she loved most in the world, knowing that the three of them were in an incestuous relationship. She sighed to herself before she cuddled up in her sleeping bag, hoping that the night would be kind to her.

Nick woke up in the middle of the night as he heard the zipper of his tent open.

"Wha... What's going on?" He asked sleepily.

"It's me, little brother..." Said Jenny as she crawled into her brother's tent as fast as she could, armed with her pillow and sleeping bag.

"S-Sis? What's going on?" He asked again.

Just before Jenny could respond he was awoken further by a loud thunder coming from outside.

"Eek!" Yelped Jenny as she lunged herself forward unto her brother.

"Umpfh!" Produced Nick as he felt his sister's curvy body crash into him. He then started to laugh softly. "Ahah! So that's what's going on, still can't sleep through thunder without being close to your little brother, Sis?" He asked.

"Oh... Shut it, dummy!" Answered Jenny as she quickly turned around on top of her brother to close the zipper again.

Jenny had always been afraid of the thunder. At home she would get into bed with Nick which comforted her immensely and allowed her to sleep safely through the night because he was by her side. Her father was sceptic about the whole ordeal but Carrie thought it was sweet and cute, if it helped her to relax and sleep, why not?

Nick too had never any problems with it, he thought that it was cute, his cool big sister that had beaten up his bullies was afraid of thunder. He didn't mind her sleeping with him as he rather enjoyed her warmth next to him.

Nick sat up and opened the zipper of his sleeping bag all the way down until it was possible to flip it into one large blanket. "Gimme your sleeping bag Sis." He asked to Jenny as his eyes adjusted to the dark.

"Why?" She asked as she clenched her pillow close to her body, still being jumpy from the thunder.

"So I can spread it open as well. Then we both lie under it just like we did at home." Explained Nick.

"Oh! Right!" Responded Jenny rather excited, she crawled to the side while still clenching onto her pillow, watching and waiting as her brother made up their 'bed' inside of the small tent.

"And voila! Feels comfy as hell!" Said Nick as he made his way on top and under both spread sleeping bags, he then opened up his sister's side and invited her over. "Come here Sis, I will make sure that nothing bad will happen to us." He said jokingly.

Jenny started to blush because of his words. "Y-yes, I'm coming..." She said quietly as she scooted over and crawled into their improvised bed. She laid down her pillow and rested her head on it, her body turned away from her brother.

Both Nick and Jenny were still wide awake after a few minutes, they listened as the approaching rain started to drip louder and louder onto the tent. Suddenly another loud thunder blasted right above their heads, illuminating the whole tent with its flash.

"Eeeeeek!" Yelped Jenny again as her body lunged itself backwards against her brother.

Nick, who was lying towards his sister, was once more greeted by her curvy, soft body crashing against his own.

"That sure was a big one, wasn't it Sis?" He said again after letting out a cheeky laugh.

"S-shut up a-and h-hold meeee!" Sobbed Jenny as she pushed herself even harder against her brother.

"Alright you big baby." Said Nick as he gently wrapped his right arm around his sister's waist while the other reached over her head to

grab her pillow. He felt her body shake a bit, stirred by the loud thunder that had just gone off.

Jenny immediately felt safe and warm in her brother's protective arms, she cuddled up further to him and let out a satisfying sigh.

It didn't take long before both siblings realized that they were close, very close together. A certain nervousness started to dwell onto both of them.

Nick inhaled his sister's strawberry like smell coming from her long, blonde hairs that were right in front of his face. The smell had a soothing, calming and relaxing effect on him. He could feel her soft, silky skinned body rubbing against his own as he only slept in his boxers. His cock was wedged between her juicy ass cheeks while his right arm rubbed over her tummy and against the undersides of her massive breasts. It didn't take long before he started to get aroused, thinking back to what he confessed to his grandmother and mother in the shower stall. She was right here, his beautiful older sister, right in front of him in his caring arms.

Jenny too could feel a sensation of love and lust running through her body as her little brother held her close to him. His strong arms and hands gently caressed her body, calming her but also making her hornier with each and every second that went by. She could feel the beat of his heart beating against her back, going faster every few seconds. And then there were their lower regions, she could feel that his cock was wedged right between her ass cheeks, slowly coming to life and pressing harder against her.

As if they responded to each other's touch she could feel herself getting wet, her nipples hardening from the soothing touch of her brother. Nick also didn't know that his older sister's night attire only consisted of her nightdress today since he couldn't get a good look at her earlier when she entered the tent.

Before going to her brother's tent, Jenny had gotten rid of her bra and panties on purpose, knowing that he wouldn't say no to her. She had decided that she wanted it too, she too wanted to feel and experience her brother's love. She didn't care what society thought of incest, she loved her brother and he loved her just as much. If he could give that love to his own mother and grandmother, then why not her as well?

Jenny started to move her hips carefully, moving them up and down and left and right gently. She could feel her brother's cock getting sandwiched between her ass, feeling it's heat spreading over her bum as it grew larger and larger. She softly moaned and licked her lips as she teased her little brother.

Once Nick felt his sister moving his cock back and forth with her ass he couldn't hold himself anymore, he started to breath heavily as his arms clamped themselves around his sister's perfect body. His right arm pushed up against her soft, perky breasts due to their movements, this revealed to him that she wasn't wearing a bra at all.

Just as his sister he started to push his hips up and down, sliding his cock along her ass crack. The two soft pillow like cheeks had his cock totally trapped between them, the stimulation he felt was incredible. As bold as could be he moved his left arm around her waist as well, but with this one he grabbed a handful of his sister's big right tit.

The sudden action resulted in Jenny letting out a cute little moan that he could hear, he then knew that she wanted to do this as much as he did. He could feel her hardened nipple pressing into the palm of his hand, only being covered by the thin fabric of her nightdress.

Brother and sister gently rocked back and forth, both breathing heavy due to their intimate movements. Jenny's pussy was now a sopping mess as juices leaked and ran down her thighs onto the sleeping bag below them. Nick too was producing precum which he

spread all over his sister's ass, sliding it up and down on her soft, heavenly skin.

"N-Nick...?" Whispered Jenny to her brother after a while.

Nick gulped before responding. "Y-yeah Jen...?"

Jenny remained quiet for a while before whispering again. "I... I saw you in... In the shower with Mom and Gran..."

Nick stopped his movements completely when Jenny had revealed her secret, he tried to push her away from him, having a sudden change of heart as he didn't want to hurt his sister's feelings. "Oh God... Jenny... I'm sorry I... I... You must think we are sick!" He responded a bit panicked.

Jenny quickly turned her body around and held onto her brother, pulling him back towards her. "N-no Nick... Listen I..." She tried to say but Nick rambled on.

"M-Mom was lonely... A-and Gran too... Sis, please don't... P-please don't think bad of us." Nick tried to explain everything to his sister, scared that she would be angry with all of them.

Jenny knew that words weren't going to help so she resorted to another method. She grabbed the back of her brother's head and pushed it towards her own. Their lips came together in a fierce, passionate kiss. Gone was her brother's resistance the very moments their mouth came together. She pushed her tongue forward, sliding it into her brother's mouth who acted right away upon her actions. The two siblings passionately French kissed each other as moan after moan escaped from them.

After what seemed to be an eternity they released their incredible kiss. Jenny could see the glistening of her brother's eyes in the dark as she observed him. She grabbed onto his body again, pulling him even closer before whispering again.

"I want it too little brother... I want you to make love to me too... I grew so excited and hot when I saw you fucking Mom and Gran with such love and lust for them." She started to kiss the inside of his neck before whispering to him again. "I missed you so much Nick... And after seeing 'that' this morning I realized how much... I want to go back home again, to stay with you, Mom and Gran... So please, give me the love you gave to them as well... I love you Nick..."

Nick was frozen on the spot upon hearing his sister's words. "I... I..." Was all he managed to produce with his voice before he felt his sister's finger pressing softly against his mouth.

"Shhhh... It's okay little brother... Just let... Just let big sis take care of you, okay?" She whispered cutely.

He then felt his sister moving her body further down under the sleeping bag blanket, kissing gently along his body until she arrived at his crotch. He could feel his sister's soft hands pulling down his boxers, releasing the trapped beast of a cock that was still rock-hard and throbbing.

Jenny let out a giggle when the impressive meat-stick almost smacked her in the face. She licked her lips as she could smell her brother's strong body odor. She then opened her mouth and wrapped her lips around her brother's thick cockhead, tasting his tasty precum for the first time.

"Ughhnn! Oh... Ooooh Jenny!" Squirmed Nick as he felt his cock being sucked by his older sister, the older sister he always had a crush on since he was a child. He couldn't describe what he felt, just as with his mother and grandmother he could feel something unique.

Jenny gave him a blowjob in such a different way but it felt just as good as the two other females.

Jenny felt her brother's body tensing up as she took him deeper, sucking a few extra inches of his hard shaft into her hungry mouth. She let her tongue expertly ravage alongside of it, spreading her saliva mixed with his precum all over it.

She threw her right arm up to seek out one of her brother's hands, to hold him lovingly while her left hand fondled his balls while she remained bobbing up and down on his cock.

Nick grasped her hand and intertwined his fingers with hers, holding onto her for dear life as she gave him another incredible, exclusive blowjob experience.

He felt how her nails gently scratched his balls while her tight, wet mouth slurped up and down on his pole. With his other hand he sought out his sister's tits again, this time sliding them under her nightdress so he was able to knead her soft, bare flesh.

Jenny let out a moan of pleasure when she felt her brother's strong hand cupping her left tit, kneading it in such a way that fired her up even more. Stream after stream of sticky female nectar trickled down her thighs and legs, her steamy pussy was working overtime now.

Fueled by her brother's attention she pushed herself further down onto his cock until she felt it pushing back against her throat. She wasn't able to take it completely like her grandmother but she knew that she was giving him incredible pleasure. She now bobbed her head back and forth hard, feeling his cockhead ramming against the back of her throat after every full move forward. Her saliva splattered around as she gagged and gurgled on her little brother's big fat cock.

Nick's eyes rolled back in his skull as he was being pleased to the extreme, the combination of the blowjob, the sounds and the fact that his own cute older sister was giving him that experience made sure that his upcoming orgasm started to bubble up faster than ever.

Jenny moaned loud as she sucked her brother's cock, her trembling voice giving him even more pleasure as it vibrated his whole shaft. She had forgotten about the thunder, about the rain and all of her surroundings. Her brother had her full attention and she would be giving him her very best.

She could feel that his cock was throbbing wildly, knowing that he wasn't far off his climax. She wanted to taste every single drop of his cum so she started to work him even faster. Her left hand carefully kneaded his ball-sack while her mouth remained bobbing up and down onto his cock. She gyrated her tongue around his cockhead teasingly when she would almost let go off him.

"Ooooh Jen... Jen I'm so close!" Announced her brother before his body started to spasm out of his control. His own sister was sucking him so good that he felt reality fading away.

Jenny gave him a few more deep sucks before latching her mouth around the head of his cock, greedily sucking it vacuum. She had released both her hands which were now holding tight onto her brother's hips, keeping him from falling onto his back.

"Chummin... Jen! Chumming!" Blurted Nick out before his seed started to blast out of his tightly trapped cock.

Jenny was fed shot after shot of her brother's thick creamy potent seed. She swallowed him hard as felt his cum shooting deep down her throat. It took at least fifteen spurts of jizz before he started to calm down. After the deed was done she let go his cock, which still remained hard to her surprise. She licked her lips, licking up all the remaining seed of her brother before moving back up again.

Nick was panting hard, lying on his back on the sweat soaked sleeping bag. He just had experienced the most incredible blowjob of his life, one that his own sister had given him.

Jenny started to giggle when she saw her little brother recovering from her sudden assault. "Told ya, big sis would take care of you!" She said cutely.

Nick started to laugh softly through his breathing. "Oh Sis, just you wait..." He responded.

"What was that?" Asked Jenny as she scooted closer towards her brother.

"I said... Just... You... WAIT!" Responded Nick loudly as he lunged forward and pushed his sister onto her back.

"Eeeek!" Yelped Jenny playfully, a bright smile on her face as her little brother tackled her onto her back.

Nick wasted no time as he pulled his sister's nightdress all the way up, revealing her busty, curvy body to him in its full glory, his eyes had adjusted to the darkness well enough to see every nook and cranny, plus the light of the few lanterns outside illuminated the tent just a little bit.

Jenny giggled again as she held her arms up, allowing her brother to undress her completely.

Once they got rid of the pesky nightdress he was ready to go. He leaped forward and latched his hungry mouth upon his sister's massive tits. His hands cupped the sides, pushing them up while his mouth licked, slurped and sucked all over the magnificent twin globes.

He slithered his tongue around her areolas before nibbling on her hardened nipples, he gave the left a few sucks before turning to the right and then repeating the process all over again. He licked them, gently bit them and sucked on them as if he was a baby.

Nick always had dreamed of feasting onto his sister's beautiful bust and today was his lucky day. He was busy with them for at least ten long minutes, worshipping them with everything he could.

Jenny moaned and moaned erotically through the whole ordeal. Her hands running through her brother's hair as he did everything in his might to pleasure her tits. She loved it, she absolutely loved committing incest with her dear little brother and she knew that this was the beginning of something much bigger.

After feasting on her tits Nick trailed down her body with kisses just like she did to him before, and just like her he went under their improvised blanket. Nick could feel the heat and the sweet smell emitting from his sister's hot box as if it was luring him.

He pulled his arms under her legs and gently opened them wider, giving him full access to her moist cunt. He started to kiss her inner thighs first, already tasting the sweetness of her juices as she was literally soaked everywhere down there.

He suckled on her silk skin, trialing his tongue back and forth along her thigh before he switched between legs. He kept on licking and kissing her just before reaching her pussy, teasing her so incredibly hard.

"Oooooh Nick... What are you doing to meeee! Just eat my pussy dummy! Eat your big sister's tight pussy!" Moaned Jenny loudly, her hands running through her long blonde hair.

After that amazing blowjob he couldn't let her in the dark. Nick brought his mouth to her pussy and gave one long lick from bottom to top through her juicy labia, and at the top he rested a bit to gently nibble on her erect clitoris.

"Yesss! Just like that baby brother! Lick my pussy!" Moaned Jenny in return after her brother's sudden action.

Nick then started to eat her pussy like he meant it. He licked through her slit rapidly, poking his tongue deeper inside of her after every finished up and down motion. Her taste and smell were so incredible that he lapped up every trickle of juice he came across.

He switched his movements up by attaching himself to her clit while letting the fingers of his right hand running over her slit, gyrating her lips open and close, stimulating her as hard as possible.

He could feel her body tremble and shake as he worked her delicious cunt, he was treated with spurts of juice every time he poked into her clit with his tongue.

"Ooooh God, Ooooooh Gooooood!" Moaning Jenny as she started moving her hips on her own, gyrating them into the opposite direction of her brother's mouth and fingers.

Nick slurped, sucked and licked at an impressive rate to keep up with his sister's movements. His tongue now back deeper into her tight pussy while his fingers trapped her clit between them, vibrating it back and forth.

Jenny's mind was going crazy as her brother orally satisfied her, something she had never experienced before. She brought one arm down under the improvised blanket, pushing her brother's head harder onto her pussy with her hand. With her left she was kneading her big tits, occasionally pulling onto her hard nipples.

Nick almost ran out of breath because of her pushing him down onto her but he couldn't care less, he knew that he was pleasuring her to his full extent, he wanted to make her happy, to make her cum her brains out which she so much deserved.

His tongue slithered and lapped through her pussy like a hurricane, every nook and cranny was being explored expertly while his fingers remained stimulating her stiff clit. He was amazed by the amount of juices she managed to produce, his whole face was covered and the sleeping bag under them was soaked in it.

Jenny could feel an electric, orgasmic bliss running through her whole body after another full minute of intense pussy eating. She was going to cum and she was going to cum hard.

"Nick! I'm cumming, I'm gonna cum baby brother!" She moaned as she felt her whole body bucking up and down, all her erogenous zones exploding at the same time.

Nick then felt his sister's legs clamping around his head, trapping him right onto her pussy which he was still devouring, he knew that this was it and prepared for his sister's climax.

"Cumming!" Moaned Jenny one last time before her floodgates opened.

Nick almost choked on the generous amount of female cum his sister served to him, he lapped away at her convulsing cunt as much as possible, the rest of the tasty nectar blasted all over his face and onto the poor sleeping bag.

Jenny squealed as she bucked, shook and trembled from the intense orgasm. It was so intense that her opened mouth started to drool, unable to produce any words at all.

Finally, her legs gave in and opened up. Nick came up and gasped for air, the same way his sister was doing after her climax slowly faded away. They both breathed heavily as they both had to recover from what just happened.

Nick slowly pulled himself up again, along his sister's body until his head was wedged between her neck and shoulder. They both could feel their hearts beating rapidly, signaling to each other with the same speed.

Jenny slowly wrapped her arms around her brother's sweaty body, holding him close as she cuddled her cheek against his head.

"Holy... Shit... Well Sis... Did that do the trick for you?" Asked Nick between his breaths that collided against his sister's neck.

"Baby... That was the most amazing orgasm of my life... And my own baby brother made me cum like that..." Responded Jenny quietly, followed by a soft giggle.

Nick pulled himself up until their sweaty foreheads were touching each other. "Jen I... I wanted this for so long... Ever since we were kids I... I always was attracted to you..." He confessed as he looked deep into her eyes, being able to see them sparkle through the darkness.

Jenny smiled before bringing her hands up to cup his face. "Sweetheart... You don't have to explain anything, this was meant for us, it was destiny for us to get together like this..." She whispered to him before her lips found his once more.

Slowly and gently they started to make out, no rush, no worries, nothing. A loving, romantic incestuous act between a brother and sister that had deep feelings for each other.

After a while they separated their kiss.

"Say Nick... Didn't you mention to Gran and Mom that you... wanted to make love to me, right?" Whispered Jenny to her brother adorably.

Nick started to blush, which wasn't possible for Jenny to see. "Y-yeah, I might have said something like that..." He responded.

Jenny giggled again at his answer. She then brought her mouth close to his left ear and whispered: "Well... What are you waiting for my brother stud? You have been rubbing and poking your hard cock onto my pussy mound for quite a while now..." She then giggled again before gently sucking on Nick's earlobe.

Nick was so caught up in their romantic kiss that he hadn't even noticed that his cock was raring to go again, he could feel himself pushing his hips up and down, his cock sliding over his sister's warm body, just above her pussy leaving streaks of renewed precum.

He immediately reached for his cock with his right hand and positioned himself to the entrance of his sister's sacred treasure, he slid his cockhead through her wetted lips a couple of times before he prodded himself against her incredibly tight vagina. Just as he was about to put it in he felt his sister's soft, tiny hand grasping onto his cock as well.

"Nick before we start... Please be gentle with me, okay? It's going to be my first time that I have sex with someone..." Said Jenny, breathing rapidly after saying her words.

Nick couldn't believe his ears; his amazingly attractive sister had never made love to someone. "Jen... Are you still a virgin?" Asked Nick surprised.

He felt her hand softening around his cock before she spoke to him. "Uh... Yes, and no I guess... I broke my hymen after playing with one of my toys but there has never... There has never been a man inside of me... I wanted my first time to be with someone I truly loved... And I think that moment is tonight..."

Again Nick was surprised, Jenny had a few boyfriends before but he was truly going to be the first, and probably the only person to make love to her. Realizing his sister's words made his whole body warm up with happiness.

"I... I will be gentle Jen... I will show you how much I truly love you." Responded Nick before leaning down and giving his sister a loving kiss.

Jenny cupped his face again and kissed him back. She then wrapped her arms around her brother's neck and relaxed her body. "Thank you Nick... I love you... Now please, make love to me little brother..." She whispered to him.

As soon as those words had left his sister's mouth he pushed forward, slowly and gently into the vagina that belonged to his older sister.

Both Nick and Jenny gasped when they felt themselves indulging into incestuous intercourse.

Nick knew that if he would have been unexperienced in sex that he would have blown his load right away at this very moment, her pussy was tight, probably the tightest pussy he had ever felt.

Jenny could feel her brother entering her body with a lot of resistance coming from her. She could feel her vagina walls grasping around the pulsing meat that was being shoved inside of her oh so slowly. It was

unbelievable as she experienced things she had never felt before, and it felt really, really good.

Nick paused his movements for a second and leaned down towards his sister to kiss her again. She immediately responded to his moves and kissed him deeply in return. He wanted it to be as comfortable for her as possible. He then started to push himself deeper inside, inch by inch as their lips remained locked together.

Along her tightness she was also very wet, perfectly lubricated to be penetrated by her brother's stiff cock. The farther he entered her the more active they both became, Jenny started to gyrate her hips slowly the further her brother sank into her, sweet little moans escaped from her mouth as her brother's cock reached and touched all kinds of new places. One arm now rested behind her brother's head while the other caressed his back, Nick's hands were busy with stroking through his sister's hair and caressing her left cheek. Their kiss was still going strong, now evolved into a French kissing battle.

After about five minutes Nick managed to fully penetrate his sister. Their groins were mashed together and his hard cock was nudged against the entrance to her womb, just like with his mother and grandmother he was a perfect fit.

They stopped their long lasting kiss and positioned themselves again, forehead to forehead so they could see into each other's eyes, even if it was a bit dark. Nick let out a soft moan as he realized that he was buried deep into his sister, he could feel her pussy literally molding around his cock, and the feeling of her massive tits with their hard nipples poking into his chest was nice as well.

"Oh God... Nick, we really are one now..." Whispered Jenny as she felt her brother cock fully encased in her pussy.

Nick smiled at his sister. "Jen... I'm going to move now, okay?" He whispered to the beauty under him.

Jenny's eyes sparkled with love and lust as a small smile crept unto her face. She nodded yes, "Yes Nick, make love to me..." She whispered in return.

And so, after hearing his sister's approving words he started to slowly saw in and out of her. He could feel her nails digging into his skin as soon his cock worked itself in and out of her tight pussy.

"Oh... Ooooh Nick... Yes... So good..." Moaned Jenny cutely as their foreheads and eyes remained locked together.

"You are so incredibly tight Sis... This is the best pussy I have ever felt in my life." He moaned in return.

Nick could feel her vagina grasping onto his cock like a vice, especially when he almost fully pulled out of her. Her lips would mold themselves around the ridges of his cockhead, demanding for it return deep into her deepest depth once more.

Their bodies softly slapped together, easy deep penetration resulting into their combined juices splattering around their nether regions. Jenny's juices seeped out of the tight gap where they were connected and trickled down along her tiny puckered asshole before falling onto the already dirtied sleeping bag.

Brother and sister were now in an incestuous cycle, repeating movement after movement just to truly feels each other's love. Both their eyes sparkling with lust and love as they mated, two bright smiles on their faces as brother made love to his sister.

Jenny's legs automatically started to wrap themselves around her brother's waist, wanting to feel him as close and deep as possible. She slowly rocked her own body back and forth in perfect sync with

her brother's thrusts. She mewed and cooed adorably throughout their loving session, a brand new world opening to her.

Nick felt a brand new experience as his sister now worked together with him, he was fucking her in such an angle that he could feel himself riding her vagina walls. The textures of it grasped around his cock and rubbed him in all the right spots, his own older sister had a pussy to die for.

They remained making love like this for at least ten minutes, ten long minutes of tender loving, their eyes never leaving each other's sight. Their movements did gradually speed up over time, Nick was now fucking his sister with a solid pace, their bodies slapping louder together and their moans and breathing becoming harder.

He could feel her majestic tits wiggling and wobbling against his chest, stimulating himself and his sister even further. Also her hard clit rubbed against his lower belly every time he fucked into her, he knew that his sister would be feeling that for sure.

And feeling it she did, both her hardened nipples and clit stung almost painfully from arousal and the way her brother's cock guided itself through her pussy sent shocks of pleasure through her whole body.

Jenny couldn't control herself longer and leaped forward, crashing her lips onto those of her brother once more, she hungrily lapped away at his face as her nails scratched all over the skin of his back.

Nick returned the animalistic kiss with just as much vigor, swapping his saliva with her as their tongues battled and their moans roamed through each other's mouths. His hands were now grasping away at her thick, jiggly ass.

Another five minutes went by before they separated their lust filled kiss.

"Please fuck me harder now Nick, fuck your big sister's pussy hard and fast! Show me how much you truly want me little brother!" Moaned Jenny loud towards him.

Nick smiled to her before he pushed himself up, pulled his arms under each of her smooth, silky legs and opened them wide so he could start to fuck her hard, just as she wanted.

His hips started to slam hard against his sister, his cock fucking her hard, deep and fast. Their bodies slapped together loudly, overshadowing the thunders that went off above their heads.

"That's it! Yes! Just like that little brother! Fuck meeeee!" Moaned Jenny as she watched her brother fucking her hard and nasty, her whole body shaking from the hard impacts she had to endure. She licked her lips seductively while her hands mashed at her bouncing breasts once more. The feeling she went through now was euphoric, the best she had ever felt.

"So. Fucking. Good!" Moaned Nick towards her as he watched his sexy sister play with her large tits. His eyes averted from her face, to her bouncing tits and to her tight, juicy pussy that swallowed him whole as if he was made for her.

They both knew that their mother and grandmother probably would be hearing them right now but they couldn't care one bit. They were there for each other now, making each other feel the love they deserved to feel.

Nick decided to change their routine a little bit after fucking each other like animals for another five long minutes.

He flipped Jenny onto her side, surprising her with the sudden change. He used his right arm to hold up her leg into the air while the other slipped under her body to cup one of her massive tits. He started fucking her in a spooning style, just like how they started this night in his tent.

Jenny squealed out of excitement and twisted her body so that she could see her brother's face huffing and puffing as he slammed into her. She used one arm to push his face even closer to hers, wanting to see his eyes again as he fucked her. The other clamped right on top of her brother's hand so that they were now both caressing her massive mammaries.

"I love you Nick! I love youuuu! Fuck me, fuck me, fuck meeeee!" Begged Jenny as she enjoyed being manhandled by her little brother.

Nick said nothing in return, letting his actions speak louder than words. His rock-hard cock slammed in and out of her grasping pussy, all the way back to the door to her womb. With every move backwards their combined juices blasted out of Jenny's tight cunt, only to be partially rammed inside once he thrust forward again.

Jenny's pussy was now red and puffy, as well as their skins that had been smacking against each other for the past twenty minutes. They had made love and were now fucking with passion, both brother and sister experiencing the full sibling incest course.

But as always, good things must come to an end and both Jenny and Nick were reaching theirs faster than they knew it, even after another five long minutes of non-stop, hard spoon fucking action.

"Niccckkk! I'm going to cum again! I'm going to cum so hard again!" Moaned Jenny loud as her head shook from left to right, her body shaking and shuddering.

"Me too Sis, I'm going to cum as well!" Responded Nick as he felt his whole body tensing up for the grand finale.

Jenny pushed her brother's face close to hers again. "Cum inside baby brother, fill me up with your delicious spunk and please... Please kiss me when you are about to fill your older sister's pussy up!" She begged him, her eyes tearing up because of how good she felt.

Nick pumped balls deep into his sister a couple more times before holding her tight, his cock buried fully inside of her and him seeking his sister's soft lips. Just as they started to kiss he started to unload into her.

Rope after rope of his thick cum was blasted into her baby chamber, completely filling her up to the brim. His body shuddered and his balls stung painfully as his sister's cunt almost ripped his cock off, draining his cum reservoir until it was completely empty.

Jenny's body started bucked up and down, cumming hard as soon the first spurt of jizz blasted inside of her. She moaned loudly through her kisses while her body kept on shaking and trembling. She could feel her orgasm ripple from her toes to her head non-stop, over and over again with each salvo of sperm being shot into her.

And then it was over, Nick rolled onto his back, gasping for air while taking his sister with him. She rolled with him and was now lying on top of her brother, his cock still deeply locked inside of her. Their heartbeat bumped at the same rhythm as they both needed time to calm down from their climaxes.

Nick wrapped his arms around Jenny, who slowly but surely crawled further up until their faces were close again. She leaned forward, almost too tired to move and kissed her brother sweetly. He kissed her back so they could both show each other their affection, even when they were dead tired.

After a few minutes they stopped their soft, loving kiss. Jenny cuddled up to her brother before whispering to him. "That was... So beautiful Nick... I... I just can't believe that we finally did this... I love you..."

Nick leaned forward a bit to give her another sweet kiss on top of her head before speaking himself. "A dream coming true Sis... I love you too, so much... But..."

Jenny knew what he was going to ask and answered before he could say it. "It's safe Nick, I have been on the pill since forever... Mom made sure to bury that deep into my brain..." She then let out a cute little yawn, balancing on the verge of falling asleep.

Nick only smiled after her answer, with one free hand he reached over to the spread sleeping bag that they had kicked away during their love making and pulled it over both of them. He gave his sister another kiss on top of her head. "Goodnight princess..." He whispered to her.

"Goodnight... Lover..." Responded Jenny with a whisper as well. They then fell asleep in each other's arms, the thunder above them long gone.

Carrie and Aileen were both wide awake in their own tent next the one where their son and grandson, and now their daughter and granddaughter as well, were sleeping in.

Aileen rolled over towards Carrie and prepped herself onto her shoulder before speaking.

"Sweetie, I think we need to have an urgent word with the kids in the morning." She said.

A few seconds of silence went by before both women started to giggle.

"Yes Mom, I guess we do." Said Carrie in return.

THE END...?

And that's the end for this second installment! As always, please rate and comment if you would like to do so! I always appreciate it! Private messages are also appreciated; I enjoy getting responses from my readers!

Once again, open ending. I'm fairly sure that a third, which will possibly be the final, part will arrive in the near future, no release date, it will arrive once it is finished!

Part III - In a Tent with Mom, Sis and Grandma

Hi everyone! And welcome to the last part of the 'Family Camping' Trilogy! Make sure to read the pervious instalments to understand the full story. The epilogue is told from Nick's perspective, the rest is in third person as usual. Also, these stories take place in the same world as my previous series, see if you can find the little easter egg. (Hint: It's somewhere at the end)

Anyway, relax and enjoy!

"Carrie! Goddamnit woman, wake up!" Shouted Marc as he shook his wife's leg back and forth, hoping to wake her up from her deep sleep.

The aggressive pushes finally worked as Carrie woke up slightly panicked.

"What?! What is going on?" She said as she quickly sat up, the sleeping bag covering half of her body.

"Finally! Look Carrie, something happened with the company back home so me and Dad have to return right away." Said Marc annoyed as he ruffled through his wallet.

Both Marc and Patrick owned a large company that focused on expanding company properties back home, the company also being one of the reasons why Carrie and Aileen had to spend most of their time alone or with their children and grandchildren. Both Marc and Patrick were workaholics and showed more love to their work than their own family.

"Company? Marc, you are on vacation and we both know that there is enough personnel back home, you even made sure that there wouldn't be any problems." Responded Carrie as she was now fully

awake. "Besides, you haven't even seen your daughter since she got here, you can't do that to her, to us!"

Aileen had woken up as well, she too took a sitting position before rubbing the sleep from her eyes. "Sweetie, what's going on here?" She asked. Her question was quickly ignored as Marc interrupted her.

"Who is the one that pays the bills Carrie? And the one that made this vacation possible in the first place? Me! Not Mom, not Nick, not Jenny and especially not you!" Shouted Marc, clearly annoyed that his once so obedient wife showed another side of herself. "I'm not going to discuss this with you, some things happened that we personally need to address them whether you like it or not!"

Carrie could feel her anger boiling up to eruption. "How can you say those things so blatantly? For fuck's sake Marc! We are your family, not some random shmucks from wherever! And I do think we need to discuss this right here and right now, I'm getting sick of you ignoring us, controlling us as if we are some puppets dancing to your desire!"

Aileen kept herself quiet but looked at her son with as much anger as her daughter-in-law, she had placed her hand on Carrie's leg to comfort her a bit. She couldn't believe how fierce Carrie had become over the last few days, standing up for herself and those dear to her.

"Oh cut the shit Carrie! Besides, Nick and Jenny rather be with 'Mommy' anyway, isn't that how it always has been?!" Responded Marc, ignoring most of his wife's words as he managed to find the credit card inside of his wallet, he took it out and flicked it towards her. "Here take this, it has enough money on it to last the remaining two weeks. We left the additional camping equipment outside so do whatever you want with it."

In one of the smaller tents outside were the two siblings overhearing their parents fighting each other with words. Nick and Jenny had also woken up from the sudden ruckus outside, both of them still

naked and hugging each other. Nick hoped that his father didn't notice Jenny not being in the tent with his mother and grandmother as he surely knew that he would explode even further if he would find out that they were sleeping together again.

Jenny on the other hand hugged her brother close to her, small tears in the corner of her eyes as she overheard her father speaking about both of them, especially what he said about her. It was true that they weren't the closest daughter and father in the world, but she still loved him despite his flaws, but hearing him say all these things felt as if a dagger was being stabbed into her heart.

Nick felt his sister shuddering and knew that this was hitting her pretty hard. He pulled her closer and kissed the top of her head while he gently rubbed his hands over her body to comfort her further. "It will be over soon Jen..." He whispered to her.

"Don't you dare to leave us here Marc! And the same goes for your father, I know he is hiding inside the van like a coward! It was supposed to be a family vacation, all of us together!" Shouted Carrie after Marc who was already on his way to the driver's seat.

"Woman! You are here with your 'precious' family! Shit happens Carrie, so get over it!" Responded Marc in return before climbing into the van. He smacked the door close and started the engine right away.

Carrie and Aileen had made their way out of their tent. Carrie was on a war path, anger exploding inside of her because of her husband's and father-in-law's attitudes. But before she managed to intervene they already took off. "Fuck you Marc!" She screamed towards the van as it raced away, tears now streaming down her cheeks.

Aileen too was angry with her son and husband but she remained calm, her daughter-in-law and grandchildren needed her in her comforting and motherly way although she wouldn't mind smacking

Marc and Patrick over the head right about now. She walked up to Carrie and pulled her in for a tight hug, stroking her hair as she softly cried. "Just let it go sweetie... I'm here for you..." She whispered to Carrie.

Aileen had experienced this behavior from her son and husband so many times that it became normal for her, but she knew that things would be changing after their vacation had ended, something she would personally attend to. They had crossed a final line, and when someone managed to cross that final line Aileen would not remain the sweet woman she always was.

As the two women hugged they could hear the zipper from Nick and Jenny's tent open up. It didn't take long before the two siblings made their way outside.

Carrie turned her head, seeing her son coming out of the tent first followed by Jenny who was holding hands with her brother. As soon as she saw her daughter's puffy, red eyes from crying she couldn't hold herself anymore.

Aileen let her go and watched as Carrie ran up to her daughter, seeing the two of them embrace into each other's arms. Jenny started to sob again as she apologized to her mother, thinking that she was the cause of her father's behavior because she came to visit them and therefor stirring up the fights and discussions they had.

"Shhh baby girl, nothing is your fault... Things have been changing between your father and me, nothing happened because of you baby..." Whispered Carrie to her daughter in her motherly, loving way.

Nick watched a few seconds before walking towards his grandmother, giving his mother and sister their time together.

Aileen held her arms open and gave her grandson another one of her loving hugs. "You okay sweetie?" She asked lovingly.

"Yeah, I'm fine Gran... Just can't believe Dad would say those things to Mom like that, about her, you, and me and Jenny... I swear I would have-" Responded Nick before being cutoff.

Aileen interrupted her grandson. "It's okay Nick... I know you would do that for us, but he and your grandfather are gone now... So just... Just forget about them... Okay? Now go, go and comfort your mother and sister, they need you." She then cupped his face and gave him a deep, loving kiss on his lips.

Nick returned the kiss before releasing himself from her hug, he nodded and smiled at her before turning around and making his way towards his mother and sister.

Aileen sighed and turned around as well, overseeing all the stuff that had been left behind for them. "Don't worry sweeties, we are going to have two incredible weeks of vacation, just the four of us together..." She said to herself.

An hour later the four of them were having breakfast, the tears were shed and the unhappy vibe and depressed moments were traded in for smiles and happiness. They knew that with the department of Marc and Patrick that their vacation would be even better than before, mostly because they could now freely express their love for each other.

"Oh yes, you sure know how to crank up the volume sweetie! Your mother and I could hear the whole concert! Music to our ears!" Said Aileen with a big smile on her face towards her granddaughter.

Jenny shyly shook her head out of embarrassment as she covered half of her bright, red flushed face with a croissant she was nibbling on.

"It sure was Mom! Nick, baby, you really know your way around the women in our family, don't you?! Not only Jenny's screams of pleasure were cute but your moans as well!" Added Carrie with an equally large smile on her face.

Nick gulped and rubbed his head as he looked up into the cloudless sky, trying to advert his gaze away from the two giggly, teasing women.

Carrie and Aileen had been fishing for, and sharing, all the juicy details from what had happened last night between the siblings for the past fifteen minutes during their breakfast. Jenny had explained to them what encouraged her to act upon her feelings after catching her brother, mother and grandmother in the heat of the moment during her shower visit.

The whole talk about incest seemed to be just so natural to them, no signs of jealousy, repent or disappointment were heard or seen. Jenny was happy that they had no problem with sharing the love that Nick had for all of them. Their family, at least the four of them, were now closer than ever before.

"Alright! Alright! Enough teasing and making fun of us!" Exploded Jenny after a bit longer of hearing her mother and grandmother talking about her and Nick. She gulped down the last piece of the croissant and turned her face into a pout, her cheeks still blushing red.

Carrie and Aileen giggled one last time before stopping their teasing shenanigans.

"We just think it's so sweet and cute that you and your brother have so much love for each other honey." Said Carrie, meaning every word of it.

Aileen nodded. "Something I have speculated for a long time, ever since I saw you two growing up so close." She added.

Jenny sneakily averted her beady eyes towards the two women opposite of her. "Well, I certainly did NOT expect you two to become THAT close to Nick. I know you both love him very much but... But then I saw you two attacking him like a bunch of hungry cougars in the shower... It made me... It made me..."

"Wet?" Said Carrie, interrupting her daughter.

"Oh my God! Mo-om!" Yelped Jenny, her face lighting up red even more than before.

Both Aileen and Carrie started to giggle again.

"Nick... Sweet cutie little brother, help your poor big sister out!" Said Jenny, making puppy dog eyes towards Nick.

Just like her he was seeing red as well. "Uh... S-so what did Dad and Gramps leave behind!" He responded to the group, switching the topic around.

"Well..." Said Aileen as her eyes turned towards the pile of camping equipment left behind by her son and husband. "As you can see your father and grandfather weren't really considerate and easy going with the things they left behind. At least it contains the bags and the equipment for our tents, plus the gas-burners for cooking with additional gas cans. I still have to rummage through the rest of it." She explained.

Carrie fiddled with her fingers as she listened to her mother-in-law. "Oh gosh! Cooking!" She suddenly yelped.

Nick, Jenny and Aileen twisted their heads towards Carrie. "Food and drinks! They took it with them! We still have the cool box in our tent but the one filled with all the food and drinks was in the van..." She explained. "And with them leaving we also have no transportation; the first supermarket is at least ten miles away from here..."

"Shit... That means we have to walk to get our supplies, over the mountains and through the forest... Don't they have some stuff at the reception of the camping site?" Asked Nick.

Carrie shook her head. "They had in the past, but not anymore..."

"Maybe we can help you out." Came an unknown voice from behind their camping spot.

The four of them turned themselves around to see who the voice belonged to. It happened to be the elderly couple they met the day before. "Good morning dearies." Said the sweet old lady who was hand-in-hand with her husband next to her.

"Oh! Hiiii!" Shouted Jenny in her most girly voice as she waved her hand towards the couple. She had a good talk about the environment and the surrounding areas with them when the four of them met yesterday.

The man and woman smiled at her before the man spoke up. "I'm sorry for intervening your conversation but when we heard you talking about your problems we couldn't ignore it."

The older woman looked at Carrie and Aileen and explained further. "During our morning walk around the lake we were alerted by a sudden ruckus coming from the camp site, in particular, from the very spot where you all reside. I assume that man shouting towards you was your husband, miss...?"

"Carrie ma'am, and these are my children, Nick and Jenny, and my mother-in-law Aileen." Answered Carrie. "Oh and yes... That despicable man happens to my husband..." She added somewhat silent.

"You poor thing... All of you, I can't understand why someone would speak like that against their family!" Said the woman. "But where are my manners, I'm Margret and this is my husband John." She followed with.

"Nice to meet you, again." Said Aileen as she smiled to them.

"Likewise!" Responded John as he and his wife walked up to the group. "So I overheard you all talking about not having transportation?" He asked.

Nick spoke up first. "Yes sir, our old man took the van that was supposed to be our ride back home and to get our groceries. I guess he didn't think of that when he left all hotheaded."

Jenny shook her head. "I still can't believe that Dad would be able to do something like this..." She whispered quietly.

Margret brought her hand upon Jenny's shoulder and gave her a gentle, comforting rub. "Don't worry dearie... I think me and my husband are on the same line of thinking, aren't we dear?"

John smiled and hugged his wife. "We sure do honey!"

Margret nodded and faced Carrie and Aileen again. "Why don't you use our car to get around and to buy your groceries?" She suggested.

"Oh ma'am, we surely couldn't ask you to do that for us." Responded Carrie, polite as ever.

"Oh nonsense! Besides, that car has been standing still for too long anyway, at our age we don't travel that much anymore so I would be glad for someone to give her a spin!" Said John with a big smile on his face.

"We want you all to have a great vacation over here, especially after what you all have been through this morning. So please accept our offer, being close and happy with family is something really dear to us." Added Margret as she looked up to her husband with sparkling eyes.

John looked back at her before giving her a gentle kiss. "You took the words right out of my mouth Si- uh... Sweetheart!"

"Well we can't refuse such a gentle offer when you mention it like that." Said Aileen as she looked at Carrie.

Carrie smiled and nodded. "All right... Margret, John... Thank you so much for your generosity, it's nice seeing a husband and wife so happy and close together for once."

"No need to thank us dearie... besides, your time will come too, I'm very sure of that! You have wonderful children and a loving mother-in-law at your side!" Responded Margret.

Carrie smiled at her before Jenny interrupted the scene. "Can Nick and I drive to the village and get our groceries Mom? I want to see if they got more stores over there!" She asked.

"Don't ask me hon, ask Margret and John, it's their car." Responded Carrie.

"Sure you two can! They have more than just a supermarket so I think you will have a good time when it comes to shopping." Said John.

Nick sighed. "Have mercy on my soul..." He whimpered as his sister pulled him out of his chair and hooked their arms.

John and Margret laughed as they watched the two siblings. One overly excited and the other regretting that John had informed his sister with the magic words that are 'stores' and 'shopping'.

Carrie and Aileen slumped down in their chairs after John and Margret said their goodbyes and Nick and Jenny accompanied them to their house off the camping site.

"You know Mom; I think Margret was right. Us being together here, just the four of us without my dear husband and his father seems like a godsend." Said Carrie.

Aileen smiled at her. "Believe me sweetie, I think it's for the best like this. Besides... Think about all the things we can do now, freely, without any disturbance by others..."

Carrie knew exactly what her mother-in-law was talking about. "Shall we... Shall we go on with what we discussed last night?" She asked quietly.

Just thinking about what they had discussed made Aileen's pussy moist. "Sweetie, I like the way you think... So let's do it..."

Both women got out of their chairs, Aileen walked up to Nick's tent while Carrie walked up to Jenny's tent. In a matter of minutes only the large family tent remained standing, tonight they would all be sleeping together for the first time, the first of many.

Not only had he the luck to accompany his shopaholic older sister, Nick also was the designated driver of the car that John and Margret had entrusted them with. But he didn't really mind driving as it was an automatic, the roads were so empty he could hold his sister's hand all the way to the village, and Jenny wasn't about to let go of him.

"You know, going shopping is not the only reason I wanted to go to the village together with you." Said Jenny as she watched out of the passenger's window, holding her brother's hand firm but gently.

Nick snickered. "Oh really? What else do you have in mind dear sister?"

"Think about it dummy, nobody knows us over there!" Responded Jenny.

"So?" Asked Nick, not realizing his sister's point.

Jenny turned her head to her brother, a pout like expression on her face. "So? So we can act like a couple of course! We can hold hands, cuddle and kiss each other like lovers without someone knowing or judging us!"

"Oh yeah! Jesus, I was so careful with us being this close that I even didn't realize what you meant... So can we scrap the shopping part, apart from getting groceries?" Asked Nick with a goofy smile.

Jenny wiggled her finger towards his face with her other hand. "Uhuh little brother, we won't scrap anything, but we sure can add something." She said before giving her brother a loving kiss on his cheek. "We can add how your big sister is going to smother you silly while we are over there."

"Alright you convinced me, I love shopping with my sister!" Responded Nick followed by a laugh.

Jenny giggled from his answer and leaned up for another kiss and a teasing lick on his earlobe.

She sat down on her seat again, returning her sight on the beautiful outdoors. "Say... Do you think Mom and Dad are going to get a divorce?" She asked.

Nick had to think for a few seconds before answering. "Honestly, I think something like that might happen. I mean after that shit he pulled today, and the way Mom has been acting as of late by not taking shit from him anymore I highly doubt that this going to end well between them."

"You know; I feel terrible that I was on the other side of the country while Mom had to endure Dad's behavior like this, she never mentioned it to me whenever we called or Skyped. Maybe things would be better between them if I was around as well..." Responded Jenny sadly.

Nick tightened his grip on his sister's hand before speaking. "Dad is just being Dad, running the company with Grandpa has changed him for the worse, he rather stays away from home than to be around..."

So don't blame yourself Sis, if there is one to blame it is a Dad, and Gramps in a certain way as well."

"Yeah I guess so... I talked with Gran and her situation doesn't seem that much different from Mom's... I just don't understand why Dad and Grandpa act this way, I mean in my book Mom and Gran are the perfect housewives, loving, caring and beautiful."

Nick snickered again. "So do I Sis... I honestly have no clue what is going on in their heads... But I do know that we should enjoy the next two weeks of us four together, so don't let it get to you, we will cross that bridge once we get home."

Jenny squeezed her brother back and sighed with a satisfied tone. "You sure have become a wise-ass little brother, but that makes me like you that much more..." She whispered as they almost arrived at their destination.

The rest of the village trip of the two siblings was calm and relaxed. They enjoyed the village for a small two hours. They shopped, visited sights and occasionally cuddled and kissed like lovers without having to be afraid of getting caught. They returned to the camping site in the early afternoon, the sun was burning and this particular day seemed to be the perfect start for the rest of their vacation.

"Uhm... Jen? Where are our tents?" Asked Nick to his sister as they walked up to their spot, seeing their small tents gone and only the big family tent remaining.

"How should I know? I was with you all the time silly!" Responded Jenny with a slight giggle. "Oh look! It seems that they blew up the large outdoor air mattress, exactly on the spot where our tents were." Added Jenny.

When they came closer they saw their mother coming out of the large tent.

"Ah finally, there are my savior children with the food and drinks!" Said Carrie as she walked up to them and smiled.

Jenny reached forward and gave her mother one of the grocery bags. "Uh Mom... Where are our tents?" She asked slightly confused.

"All packed up and resting in our storage unit! A.k.a. The side of tent where your father and grandfather were sleeping." Said Aileen as she came walking back from the toilets.

Nick rubbed his head. "Okay... And why?" He asked, just as confused as his sister.

"Because, my dear children, you two will be sleeping together with Mommy and Grandma for the rest of the vacation..." Explained Carrie with a slightly flushed face.

Jenny and Nick started to turn red as all kinds of scenarios started to play in their heads.

Aileen couldn't help but to giggle. "Look how adorable they are, already picturing all the dirty things we will be able to do together!"

"G-Gran! Don't say those things so loud!" Yelped Nick.

"A-actually... It kinda was my idea... I hope you two would like us sleeping all together since we all got... Well... Closer..." Said Carrie quietly, looking a bit shy.

"Y-yes... We would like that Mom... Right Nick?" Asked Jenny.

"I... I think I have no problem sleeping together with three beautiful women..." Answered Nick.

Aileen clapped her hands and snapped Carrie and her children out from their confused states. "Good! Now get rid of those groceries and out of those pesky clothes! It's bloody hot so I blew up that large family mattress so we can all work our tans and relax, that's what we are on vacation for, right?" She said as she walked up to the tent and zipped open the door. "I already collected our bikinis from our suit cases ladies, so if you would accompany me inside we can get our change on."

"Nick, I can see that you came prepared and are already wearing your swimming trunks. Would you mind getting us some cold drinks?" Asked Aileen again while Carrie and Jenny made their way inside of the tent.

Nick smiled at his grandmother. "Sure Gran, you ladies do your thing and I will make sure everything is up and ready when you all come back out."

Aileen blew her grandson a kiss. "Good boy, it won't take long sweetie, so make yourself comfortable." Were the last words she said before making her way into the tent as well.

Nick did what his grandmother asked and walking towards the mattress before he knew it, waiting patiently for the ladies to return while sipping on his cold beverage.

He wondered what was taking them so long as he kept on hearing the occasional giggle and rustling of clothes. "Women and clothing..." He thought to himself before plopping down onto the large mattress.

"Might as well wait for them while catching some sun." He whispered to himself as he laid back, equipped his sunglasses and closed his eyes while the warm rays comforted him.

Five more minutes later he could finally hear the tent open again.

"Come on Carrie, there is nobody else out here but us!" He heard his grandmother say.

"Yeah Mom, only us and Nick are out here. You would think that your shyness would be at an all-time low by now after doing 'those' things to your own son!" He heard his sister say followed by a giggle.

"Alright, alright! I'm just not used to go out tanning like this..." He heard his mother say, responding to his sister and grandmother.

Wondering what was going on he placed his arms behind his neck so he could look up slightly by pushing his head up a bit. What he saw opened his sunglass covered eyes wide and made his cock respond out of excitement.

The three busty beauties were topless, the only thing that they were wearing were tiny thong like bikini bottoms that showed off their juicy asses and tight pussies in full detail. Their breasts firm and heavy, already covered by a glistening layer of sweat hung right out in the open. Nick could now easily see and compare the tits of his beloved family members, some slight differences here and there but they all made his mouth water and his cock harden with the second.

He watched as his grandmother showed the other girls a particular bottle that had some kind of oil in it.

"Sweeties, this is a very special sun tan lotion! It's combined with a special oil that will treat or bodies right in each and every way, it's

also all natural so no chemical substances added!" Said Aileen proudly as she squirted some of the oily sun tan lotion on her bust before handing the bottle over to her granddaughter.

Jenny gladly took the bottle and squirted a generous amount of it on her massive breasts before applying an equally large amount on her mother's boobs.

Nick let out a whimper as he watched the women he loved so much rubbing the oil all over their tits and the rest of their bodies. His cock started to tent in his swimming trunks as his eyes kept glued on the scene in front of him, little did he know that his grandmother's eagle eyes had already spotted him and his arousal.

"Here sweetie, let me help you with those hard to reach places. You can help your mother in the same way." Said Aileen with a rather seductive tone towards Jenny and Carrie.

Jenny giggled. "I can help you both since I'm in the middle! Mom? Can you do the right side of my body while Gran does the left?"

Carrie smiled at her daughter. "Sure honey, I don't want any of us to get burned so we need to properly 'oil' each other up!"

The way his mother said her words shot a tingle through Nick's body. But the shit really hit the fan once the girls had their hands all over each other's bodies. He watched as their hands roamed over their flesh, rubbing, groping and kneading each other to spread the oily substance that made their bodies sparkle like they were a bunch of goddesses, which they were in his eyes.

He could swear that he could hear all three of them moan occasionally as they worked each other over. His cock was now full mast, throbbing back and forth and straining his swimming trunks while his eyes didn't ever leave the scene right in front of him. He was

so focused on the entire thing that he forgot that they were mere inches away from him and probably already were alerted of his state of arousal. Of course Aileen was the first to comment on it.

"Oh my... Looks like somebody is already very, VERY! Appreciative of our oiled up bodies sweeties." Said Aileen even more seductive followed by licking her lips.

Both Carrie and Jenny averted their eyes towards Nick after they heard Aileen and were confronted with Nick's raging boner. Like mother like daughter they started to blush at the same time, letting out cute little mewls as they observed the swimming trunks covered throbbing cock. Apparently they were so focused on oiling each other up that they hadn't noticed Nick sporting an incredible erection.

Nick could only gulp when he watched the three most beautiful women in the world staring at his erected pole, He could see the lust and love in their eyes as they sparkled with desire. They had caught him red handed in his spying act.

"Oh my... Baby... Did we do that you? Just by exposing our half naked bodies?" Said Carrie, teasing her son a bit as she knew damn well what they were able to do to him.

"Little brother... Isn't so little at all... Just look at that beast, it's so... Inviting..." Added Jenny after her mother's words, following into her teasing footsteps.

"Well sweeties, since we already helped each other... It seems to be only fair to 'help' my darling grandson as well, right?" Said Aileen as one of her hands cupped and kneaded an oily tit.

She then gently took her granddaughter's hand with the other and Jenny did the same to her mother when she felt her grandmother taking hers. The three women slowly walked up to Nick, their breasts

jiggling and swaying with every step, until they reached the foot-end of the large air mattress.

"Nick, honey, move up a little bit..." Said his mother, her eyes switching between his face and his tall standing cock.

Nick said nothing and only nodded before pulling himself up a bit further, making place for the three ladies to accompany him on the mattress.

Before he knew it they were lying right on top of him, their busty bodies splayed against his lower parts, their large oily tits pressing onto his legs and their faces an inch or five away from his tenting covered cock. Jenny in the middle, Carrie on the left and Aileen on the right all looking flustered and horny as hell. He threw his sunglasses off so he could admire them all natural, Goddamn, he was one lucky son-of-a-bitch in this position.

"Oh my God... It looks so big up close like this... I wasn't able to see it in the dark last night but damn... Little brother, you are packed!" Said Jenny as she carefully poked her finger against her brother's throbbing shaft.

Carrie agreed with her daughter. "You can say that your brother is quite blessed in that department... It makes Mommy very happy to see you respond to us like this baby..."

Aileen giggled before speaking. "Wait until you see it in full glory sweetie, then you will understand why your mother and I always think about Nick in the back of our minds..."

Jenny went quiet for a few seconds before looking her brother in the eyes. "Nick... Can I see it?" She asked sweetly.

Nick gulped again before giving her a short, slightly nervous nod.

Jenny smiled cutely at him as she placed her fingers under the waistband of her brother's swimming trunks.

"That's it baby... Expose his beautiful hard cock to us..." Whispered Carrie in her daughter's ear, encouraging her further. Her shy persona was out of the door again, the naughty incest loving Carrie had returned on the scene.

And slowly, teasingly slow, she pulled her brother's swimming trunks down until his raging boner was on the verge of release. Jenny bit her lip before giving his trunks the final needed pull.

Three incredibly erotic moans and sighs escaped from the girls when Nick's rock-hard cock sprung free from his entrapment. The stiff pole waddled back and forth for a bit, a large drop of precum already oozing from his slit, his veins pulsing out of excitement.

Jenny watched the reveal with an 'O' face while Carrie and Aileen licked their lips again.

"Wow..." Whispered Jenny as she felt her nipples getting hard and her pussy releasing its juices. Her face was flushed red again, not only out of excitement but also because of the hot sun.

Carrie ran one hand to the base of her son's cock and grasped it tightly but caring, holding it still to give her daughter a better view.

Aileen used one free hand to carefully trail her soft fingers around her grandson's balls and used her nails to gently scratch his sack.

Just like Jenny they both could feel their arousal rocketing sky high, their nipples getting hard and their pussies drowning in their juices. The tiny thongs did nothing to keep their nectar inside and before the girls knew it they could feel it trickle along their thighs and onto the mattress and Nick's legs.

Of course Nick was now a horny mess as well. His body trembled out of excitement and his precum trickled down the sides of his shaft and onto his mother's fingers. It was like a dream came true, his beautiful mother, sister and grandmother were praising his cock and giving him gazes that were full of love.

"Well... Go ahead honey... Grandma and Mommy had their fair share of your brother's big cock many more times than you, so it's only fair for you to... 'start'..." Whispered Carrie with a seductive but motherly tone to her daughter, and a very sneaky, sexy wink towards her son.

Jenny bit her lip once more but didn't hesitate to taste her brother's cock again, now in the open outdoors where the sun shined bright, the soft wind blew through the trees and the birds sang their songs.

She leaned forward and erotically, but slightly clumsily, took her brother's cockhead into her tiny mouth. She redid the moves she made on her brother from the night before, knowing that he liked it. Her tongue spiraled around the head while she softly sucked on it at the same time.

"Oh God... Jenny..." Said Nick followed by a moan.

"That's it darling, show your brother how much you love him... Suck that big cock of his..." Said Carrie as she closely watched her daughter giving her son a blowjob, something that made her pussy convulse.

Aileen was in the same boat as she watched her cute granddaughter taking in the head of her brother's cock. She knew that Jenny still had to learn a lot to get on her or her mother's level but the passion she emitted and showed aroused her greatly. "Just like that sweetie... Taste his seed... Smell his masculinity... Give him what he wants and needs from us..."

Hearing both their words made Jenny work her brother's cock even further. She started to bob up and down taking additional inches of his shaft into her saliva soaked mouth. Her soft moans vibrating through every fiber of his penis. Her eyes were staring deep into his as she sucked him off, showing him the affection she had for him.

Carrie and Aileen slowly worked their hands on Nick's cock as he was being blown, Aileen cradled his balls a little more forceful while Carrie slowly jerked the hand that was around his girth up and down just a smidgen.

Nick felt like he was being attacked by three hungry succubi, and he had no problem with that.

Jenny took different angles of approach as she bobbed up and down to the middle length of the cock that had taken her virginity. She loved the taste, the smell and the fact that she was pleasuring her brother.

After a few more minutes of sucking she let go of his cock with a loud plop, a string of saliva hung from his cockhead to her lips. She wasn't going to hog him for herself, they would be equally loving him because that is what they all agreed on.

"Good work darling, but watch Mommy closely, she can learn you a thing or two..." Said Carrie as she was next in line to suck on her son's thick cock.

Jenny smiled at her mother, still not believing to see this sight of her right before her very own eyes. But the fact that her mother would be sucking on her own son's cock aroused her greatly.

Instead of sucking she was going to do something new for her son. Carrie closed her eyes and smothered her son's cock with gentle kisses, sucks and licks, all of them at particular spots of his penis. She kissed him on his veins, licked the underside of his helmet precisely and sucked on the skin of his shaft.

Nick moaned loud and shuddered with every move his mother made, this was something he had never experienced before and he immediately loved it.

"See that sweetie? That's how good your mother is... Watch her close, learn from her..." Whispered Aileen in her granddaughter's ear as they both watched Carrie working her son's cock.

Carrie left trails of saliva, tasting her son's precum and her daughter's saliva that his cock was soaked in. The feeling, taste and smell of taking in the liquids of both her children made her nipples and clit sting painfully in a good way.

She carefully nibbled on the skin of his shaft before covering it with kisses. She took long, hard pressed licks with her tongue from bottom to top, before prodding her tongue on his cock slit.

"Fuck Mom... This incredible..." Mumbled Nick before moaning loud again.

Carrie had a big smile on her face as she worked her son's cock.

Her actions went on for a few minutes as well before she passed the torch to the final female of their incestuous group. "You taste lovely baby..." She said to Nick before giving his cockhead a final deep kiss.

Nick shook his head as if he was disorientated from the intense pleasure, but with a satisfied grin on his face which made Jenny giggle again. He knew what was probably coming next as his dear grandmother hadn't had her turn yet.

And he guessed correct when he felt his grandmother's throat taking in his whole package until her soft and full lips were pressed against his groin. Aileen wasted no time and ferociously started to deep-throat her grandson, she was hungry and she wanted to devour him.

As violent as it seemed she did it rather gentle. There were no obscene sounds, no gagging and not a lot of spit flying around. Aileen was a beautiful experienced woman and her actions showed it, only for her grandson she would do this and she loved every second of it.

Jenny watched wide-eyed, along with her smiling mother, as her grandmother sucked her brother's cock in such a way she had never seen before. She knew that she tried it as well the night before but without success. It was hard for her to even take two thirds of his cock inside of her mouth while her grandmother easily swallowed him whole.

Nick was in heaven for the third time as he felt his grandmother's experienced mouth sucking and swallowing him with passion. Her tongue swirled around his cockhead and shaft while her throat muscles clamped around his entire length. He continuously moaned and pushed his hips up as a reaction.

"That is something only Grandma is able to do honey... But maybe, with enough experience and guidance, we will be able to pull it off in the future as well..." Whispered Carrie in her daughter's ear as they watched Aileen deep-throating the thick piece of meat.

Once more, after a few minutes Aileen released the saliva and precum coated cock from her warm, tight mouth and throat. She let out a cute giggle when she saw her grandson's contorted face. They sure did a number on him.

As if they were synced together all three of them attack the glistening, throbbing cock at the same time. Jenny claimed her brother's cockhead again while Carrie ran her tongue along his shaft, now tasting Aileen as well. Aileen went further down and suckled on his balls while her tongue slithered around his sack.

"Oh shit... Fuck... Mom... Sis... Gran!" Moaned Nick, now being extremely close to being send over the edge. "I can't take this any longer... Ugh!... I'm going to cum!" He shouted quite loud.

But just before he was able to start spewing his seed he felt his mother's hand taking a firm grip around the bottom part of his cock, holding him tight to prevent him from climaxing. Jenny and Aileen had moved off his cock and licked their lips to taste all the juices.

"Mom?!... Why?!..." Whimpered Nick, almost losing consciousness from not climaxing.

Carrie stroked her son's sweaty chest with her other hand, showing her motherly and caring side before speaking. "Sorry baby... But we want to try one more thing before you can cum... I promise that I won't stop it that time..." She said with an apologizing tone, her face slightly concerned.

Nick gasped for air a few times. "O-okay Mom... Of course I trust you, all of you... It just felt so good!" He said to his mother.

Carrie smiled and slowly released her grip on her son's cock. "I know baby... Don't worry, I have no doubt that you would like this as well."

After saying her words, she got up and placed herself onto her son in a sixty-nine position, her wet dripping cunt close to his face. Instinctively Nick reached out to his mother's delicious pussy only for his hand to be patted away by Carrie.

"Tonight... Tonight you can do what you want with us baby... But for now just relax and let us do this for you, okay?" She said to him sweetly.

Nick pulled his hand back and nodded. "Okay Mom..."

Both Jenny and Aileen shifted forward on his legs until the three women were in a triangular position, one in every corner and all surrounding his cock.

Nick wondered what they were planning but believing in his mother's words it had to be something good.

"Oh gosh! This is so exciting! You think he will enjoy this Mom?" Asked an overly happy Jenny.

Carrie let out a giggle before responding. "I have never done something like this before but I cannot imagine it not feeling good for him, and for us as well, we all have very sensitive breasts.

"That's why I brought that slick, oily sun tan with me. The slippery feeling will drive our dear boy to his breaking point." Added Aileen, already looking forward to the results. "Alright sweeties, just like we discussed it, on the count of three, two, one, GO!" She shouted.

And at the exact same time the three women crashed their oiled up, heavy, perky, full breasts onto Nick's cock. All three of them moaned

loudly when their tits came together, their hard nipples poking in each other's flesh.

But the person who moaned the loudest was Nick as he felt his cock being engulfed by the soft and warm pillow like treatment. He was treated to a bombastic, three-way incestuous tiffuck.

The girls immediately started to shake and move their voluptuous breasts in all directions while putting pressure onto Nick's now saliva, precum, sweat and oil coated stiff cock. He automatically started to push his hips up and down, literally fucking their breasts together with them.

"That's it baby! Fuck our tits! Fuck them until you spray all your delicious seed over us!" Shouted Carrie as she was lost in an almost orgasmic like bliss.

The sounds of slick, slapping flesh on flesh accompanied with moans and mews of pleasure surrounded their camping spot. They were lucky that no one but them were able to experience the incestuous act.

It felt as if he was fucking the warmest, tightest and wettest pussy he had ever felt. Every part of Nick's cock was covered with heavenly soft breasts flesh and the stimulating effect from all their warm bodies coming together was something out of this world.

All three women breathed heavily, tingles and shocks of pleasure running through their bodies from head to toe, their eyes glued on the thick meat-stick in the middle, or what they were able to see of it as they pressed and moved their oiled up tits all around.

"I never ever knew that this could feel sooooo good!" Moaned Jenny as she experienced a brand new act of sex. She loved the pressure from her brother's cock and her mother's and grandmother's breasts

pushing into hers. She yelped every time their rock-hard nipples managed to come into contact with one another.

"Oh Yes! The women of our family always had super sensitive breasts, I'm glad to see that it applies to all of us!" Said Aileen as she focused on giving her daughter-in-law, granddaughter and grandson equally as much attention.

It didn't take long before Nick's cock started to expand and throb even harder. He knew that this time he wouldn't be able to hold it inside anymore, he was going to explode and mark and paint his relatives with his hot, thick seed.

"Oh fuuuckkk! I'm going to cum!" He shouted as he threw his head back, ready to open the floodgates.

"Cum baby! Cover Mommy with your thick potent seed!" Moaned Carrie loudly.

"Me too baby brother! Blast it all over your slutty big sister!" Followed Jenny.

"All over our tits sweetie, give us everything you got! Paint Grandma's tits with your semen!" Shouted Aileen as last.

Nick pushed his body up one last time and exploded. Rope after long rope of thick seed blasted out from the titty trap sandwich, it scattered in long streaks, small splatters and dribbles all over his mother, sister and grandmother.

All three of them moaned loudly when they felt the warm, potent cum being blasted all over their chests and faces. Nick's orgasm was so intense that his cock spurting his cum all around, giving each girl an equal amount of his sperm.

His cock and their cleavages had turned into a gooey, smelly mess of semen, sweat, saliva and other bodily fluids. Strings of his seed hung between each of the titfuck participants' tits like they were chain linked together.

"Mom! Gran! This was amazing, I can't believe we made Nick cum like that!" Shouted an excited Jenny, her eyes sparkling with pride and happiness.

"You bet we did sweetheart! Another sexual experience with my grandson that I can take of my list!" Said Aileen just as excited.

After she made her son cum his brains out Carrie returned to her motherly and concerning state in a matter of seconds. She quickly spun herself around so she could care for her son. "Baby that was amazing!" She said happily only to discover that Nick was down for the count. She watched as her son had drifted off asleep, softly snoring as his sweaty and exhausted body laid under her.

She gently got off him and laid by his side for a bit while Jenny and Aileen were still discussing the whole experience. She stroked his hair and removed the sweat from his face with a towel. She then leaned forward and gave him a deep loving kiss on his lips. "I love you darling... You changed my look on life and I have you to thank for that... Rest well my beautiful baby boy... Tonight you can make love to Mommy..." She whispered into his ear before she started to clean him up further.

Nick woke up and stretched his body like a cat, he felt like he had run a marathon. He twisted his head and could see that he was still on the mattress were he had experienced something truly incredible. The only thing that had changed was the large parasol that was

standing close next to him, blocking the intense sun rays from his body.

"Back in the world of the living baby?" He heard the familiar chirpy voice of his mother asking him.

Nick pulled himself up and was greeted with the sight of his mother, dressed in a virgin white summer dress that showed off her curves, tending to the barbeque.

"Jesus... How long was I out?" Asked Nick before letting out a yawn.

"Almost two hours, we made sure you wouldn't burn alive while you were off to dreamland." Said Jenny who was preparing the table with cutlery and plates.

Nick snickered. "I must say I rather enjoyed what you all did, a good way to get me sleeping, wouldn't mind for it to happen every day."

"Equality little bro, next time it's your turn to put us to 'sleep'" Responded Jenny.

"So tonight? Right Mom?" Said Nick teasingly.

He started to smile when he watched his mother turn her face away from him slightly, a new red flush forming on her face. "We will see baby..." She said softly.

Nick still couldn't believe how different his mother was once she was in 'heat' and how she was now. It was as if she had split personalities.

He stood up from the mattress and walked over to his sister and gave her a hand with preparing their table before they both sat down into their chairs next to each other.

He spotted his sister watching him so he simply turned his head. "Hey beautiful." He said to her, simple and effective.

Just like her mother Jenny turned her head slightly and started to blush.

"You two are so cute together, acting all shy. You should have seen how you two behaved a few hours ago!" Said Nick teasingly.

Jenny gave her brother's shoulder a bump with her fist. "S-stupid... That was in the heat of the moment... You know that I'm your cute older sister when we are not making love." She answered shyly.

Nick took his sister's hand and held it gently with his own. "You are always cute Sis, just like Mom and Gran. Whether we are making love or not that doesn't matter, I'm just glad you all are the way you are."

Well, maybe his grandmother wasn't so modest and shy as his sister and mother. She usually loved to tease him by flashing him different parts of her body wherever they went, no shyness with her at all.

"Say, where is Gran? I don't see her around." Asked Nick.

"Oh she went to the toilet and then moved on to invite our guests." Answered his mother as she too plopped down in her own chair opposite of her children.

"Guests?" Asked Nick again.

Jenny nodded. "Margret and John of course, it's to thank them for lending us their car."

"Oh! Of course, I think they will like that. I don't think they see or meet many other people but they seem to be very fond of us." Said Nick, reaching for a cold bottle of water in front of him.

"You know, I don't know what it is but when we talk with them or they are around us I feel like I can talk to them about everything, and I mean 'everything'. It's just the way they are together, always holding hands, always giving each other compliments, they must really have a deep bond with each other." Confessed Carrie while adding ingredients into her salad bowl.

"Now that you mention it... They also look very alike wouldn't you say?" Said Jenny before adverting her gaze onto her brother again. "Maybe... Maybeeee... They are brother and sister?!"

Nick almost choked on his drink while Carrie started to giggle.

"Isn't that a bit far-fetched Sis? I mean not everyone is like the four of us and I don't expect to meet other like-minded people as easily as that." Responded Nick to his sister.

Jenny gave him a smug grin. "Never say never little brother!" She said before holding her brother's hand tighter. "But besides that, I... I wouldn't mind growing old with you like that, all lover-dovey together until the end of time..."

"Awww, you two are so cute and romantic together!" They all heard a voice saying from behind them, the voice which belonged to Aileen.

She walked up behind Nick, wrapped her arms around his neck and placed her large breasts right on top of his head. "But... You wouldn't mind taking your mother and grandmother along for the ride as well, do you sweetie?"

"N-no way I would leave both of you behind!" Responded Nick with confidence.

Aileen giggle and kissed him on the cheek before moving to her own chair next to Carrie and sitting down onto it.

"I assume everything went okay Mom?" Asked Carrie.

Aileen nodded. "They were very excited and happy to hear that we would like to invite them to a barbeque, they should be here in about thirty minutes."

"A fine replacement for Dad and Grandpa!" Said Jenny without remorse.

Carrie nodded. "A fine replacement indeed..." She whispered to herself.

The barbeque that day was incredibly fun. Margret and John were two of the kindest people they all had ever met, and they were full of exciting and funny stories they gladly shared with them. After living for over forty years in the area they knew all the ins and outs of their surroundings.

They both hoped that the family would return to this place after their vacation had ended, and Carrie made it pretty evident that those

plans were in the works already inside of her head. Aileen and her children gladly backed her up with her plans.

After the barbeque they stayed for quite a while just before it got dark. Jenny and Nick guided them back to their rather impressive home before returning to their camping spot. Carrie and Aileen had already cleaned everything and went inside of the tent to the sleeping compartment they now all shared, everyone agreed to get some shut eye early because they had plans for the next day.

Nick, still sticky from sweating all day, decided to take a shower before he would go to bed. So he was the only one out while the ladies prepared themselves inside of the tent.

Under the shower he thought back to the words his mother had said to him earlier that day; 'Tonight... Tonight you can what you want with us baby' he quoted. But was something really going to happen? They all seemed to have sleeping on their mind rather than making love.

Nick sighed as he turned off the shower. "I doubt they are up to it for tonight, but hey, we still have a lot of nights to go..." He thought to himself before drying his body.

He then made his way back to the tent through the dark. As he zipped open the main middle part of the tent he could hear giggles and soft moans coming from their sleeping compartment, he wondered what was going on.

He climbed inside, zipped the outer door closed and got rid of his toiletry bag and towel before he zipped the door to the dimly lit sleeping compartment open. What he was greeted with made his eyes pop, his jaw drop and his cock harden into a steel beam instantly.

He saw how his mother and sister, both fully naked, lying half on top of each other making out. Their already glistening juicy pussies rubbed on each other's legs while they both cupped each other's tits.

They ended their passionate kiss before Jenny spotted her brother and gave him a very naughty, sexy stare while Carrie lowered her mouth onto her daughter's massive tits. "M-Mommy and I already started... Ooooh!" She moaned.

Jenny threw her head back followed by another loud moan while she pressed the back of her mother's head with one hand while the other pulled the erect nipple on her other breast.

Suddenly Nick's shorts and boxers were pulled down in one go and before he could register what happened he felt his rock-hard cock getting swallowed whole.

He let out a loud gasp and looked down to see his grandmother, also fully naked, bobbing up and down on his cock, sucking it furiously and skillful.

Unable to say anything he used one hand to take ahold of Aileen's head to guide her back and forth with the pace he wanted her to blow him. He heard and felt her moans vibrating his cock when he wrapped her long gray silvery hair in his hand before pushing her onto his cock. His eyes quickly made their way back to his mother and sister, just in time to see them making out again while their hands rubbed each other's juice spilling pussies.

Never in his wildest dreams had he expected this to happen right in front of his eyes, the three most beautiful women in the world involved in an incestuous sex act, and he was the final chess piece that was now added to the game.

Aileen slurped and sucked fast, saliva trickling out of her mouth when she reached her grandson's groin before smearing it back all along the length of his shaft. Her pussy juice dripped out of her cunt and not only because she was blowing her grandson, but also because he was guiding her rather aggressively while still remaining his gentle side.

Carrie and Jenny were now fully focused on each other; nature was taking its course. Mother and daughter kissed, sucked, nibbled, bit and licked all over each other's bodies. Neither Carrie or Jenny expected them to love each other like this, but when the balls started rolling they were hooked. And best of all was that they knew that Nick was watching them, observing them like a kid in a candy store that had its sight set on one particular product, two in this case.

His mother's words ran through his head again; 'Tonight... Tonight you can have what you want with us baby'. And with that his hungry, animalistic side came out.

He pulled his grandmother off his cock, who was rather surprised by the act, pulled off his shirt and kicked away his shorts and boxers. Now fully naked he laid down and took Aileen with him who moaned out of excitement, not knowing what her grandson was up to.

Nick spooned her from behind, lifted one leg and held it the air while the other guided his throbbing cock right to her soaked snatch. He rubbed it through her labia a couple of times before slightly pushing inside and holding it there. He then moved that arm under his grandmother's body and took ahold of one of her big tits, firmly grasping and caressing it.

Aileen threw her head back slightly so she could look her grandson in the eyes, she could see they were full of hungry lust, deep hunger for incestuous fucking. "Oh sweetie, my beautiful strong boy!" She moaned.

Nick brought his head close to his grandmother's ear before he spoke up. "I'm going to fuck the three of you hard Gran, I'm going to make you all cum before planting my seed deep inside of your wombs. Tonight I'm going to make you MINE."

Aileen's whole body shuddered after her grandson's words, a small orgasm shocking her body simply because of the way he said it. "Then claim Grandma sweetie, fuck Grandma's pussy hard, just like you are going to fuck your mother and sister!" She said in return, her voice trembling with anticipation.

Without any warning he plunged his cock into his grandmother until his cockhead crashed against the door to her womb in one hard thrust.

"Ooooh Gooooood!" Shouted Aileen wildly as she felt her grandson's cock claiming and invading her. But Nick didn't leave it there, he immediately started slamming into his grandmother with hard, fierce fucking thrusts. Her big tits swayed back and forth as her sweaty skin rippled with every thrust.

Nick clamped onto his grandmother's body for dear life, holding her close and kissing the side of her face and neck while his pelvis smacked against her. Her big jiggly ass was being pounded vigorously while his hand switched between the big swinging tits, sometimes mauling away at the flesh and other times to yank her nipples.

Their combined liquids splattered around their lower bodies, dirtying not only them but also the tent and the sleeping bags under them. Her vagina squeezed the invading cock with everything it got as it rammed in and out of her.

"Fuck me fuck me fuck meeeee!" Shouted Aileen on the top of her lungs, lost in a continues orgasmic bliss that made Nick only fuck her harder.

Carrie and Jenny were now scissoring each other's cunts so they could remain getting pleasure while watching their son and brother fucking their mother-in-law and grandmother. They continuously moaned as their tight pussies and erected clitorises stimulated each other greatly.

Nick was bent on making his three lovers cum their brains out, he also wanted to fill them up with his seed to dish out an equal amount of loving. He just hoped that he was up to the task, his fierce, animalistic hunger gave him the confidence and strength to do so.

He gave his grandmother a few more spooning fucks before changing his strategy, he rolled onto his back, cock still wedged deep into Aileen's cunt, and took her with him. Now she was on top of him just like his sister was the day before.

Aileen gasped for air as her pussy clamped around Nick's throbbing man-meat. But Nick didn't waste any time and started pounding up into her, one arm holding her tight around the waist while the other remained on top of her large, firm breasts. Aileen's head laid to the side against her grandson's head, tears of pleasure streaming down her cheeks while she mewed, moaned and begged to be fucked harder. She used her long legs to steady herself, and to slam down in sync with her grandson's fucking.

His thick cock crashed in and out of her well-fucked pussy, his balls swinging up and down. A thick creamy mess of girl cum combined with Nick's juices seeped out of Aileen's cunt. Her hands and fingers clenched firmly onto the sleeping bag under them to prevent her from falling off her grandson.

"That's it, that's it, THAT'S IT sweetie, pump Grandma's pussy! You are going to make Grandma cum so hard!" She shouted as her sweaty body crashed up and down.

Nick too could feel that his first orgasm, of the possible three, was coming up. He remained fucking his grandmother hard and fast, not giving both of them the time to calm down.

Jenny licked her lips as she watched her brother's cock disappear and reappear from her grandmother's tight, juice slimy cunt. She wanted to be next, next to be claimed, fucked and inseminated by her brother.

Carrie could see, and feel, that her daughter was about to lose herself. It was something that turned her on immensely, that her own daughter lusted so much for her son just like she did. She already expected to be the last tonight but that was fine with her, she wanted her time with her son.

Suddenly a loud scream blasted out of Aileen as she started to cum, a thick spray of pussy juice blasted out of her cunt while her body convulsed and shuddered. "F-fill m-meee up... Sweetie..." She blabbered as she almost passed out.

And her wish came true when Nick slammed into her cunt a few more times before holding the full length of his cock inside of her, nuzzled against the door to her womb.

"Cumming!" He shouted before his cock started to spew his thick potent seed deep into his grandmother. His balls contracted painfully with each spurt of cum, he was completely filling up his grandmother to the brim.

After a long minute he released his grip from Aileen, who rolled off his sweaty body while gasping for air. She fell onto her back next to him, her pussy contracting and pushing out large globs of pearly white cum.

Nick pushed himself up a bit and focused his eyes on those of his sister, his cock still standing as hard and strong as before but now slicked with his own and his grandmother's juices. He held his hand out towards her, inviting her to be the next one to get entangled in some incestuous fucking.

A big smile appeared on Jenny's face, her eyes sparkling with lust and love. She quickly separated from her mother, her mind now fully focused on Nick, and straddled herself into a cowgirl position on top of him. She quickly leaned forward and gave her brother a deep passionate kiss. "I love you." She said after pushing herself back up again.

"I love you too." Responded Nick as one hand stroked her juice covered thighs while the other pointed his cock straight towards the dripping waterfall that was his sister's tight, leaking pussy.

But before they started to get into the groove they watched as their mother crawled beside them and spread Aileen's legs gently. "I think my baby boy deposited some of his delicious seed in you Mom, allow me to clean you up a bit." She said seductively, making sure everyone heard it. She then lowered herself and started to eat her mother-in-law out, her tongue scooping up her son's warm seed and Aileen's juices before swallowing it all down her hungry throat.

Aileen shot wide awake again and instinctively rested her hands on top of Carrie's head. "Eat my cunny darling, feast yourself upon our love liquids!" She moaned loudly.

The incredible erotic display lit the fire in both Jenny and Nick. Nick looked up to his older sister and nodded. Jenny did the same and with a lip-biting smile she lowered herself down onto the stiff pole that was aimed for her cunt. Both she and her brother moaned loudly when he entered her fast and fully. Her pussy suckled onto his cock as if it was claiming it for itself.

Nick used his hands to cup his sister's soft, meaty ass-cheeks and started to rock his hips into her. Jenny placed her hands on her brother's chest to hold herself up as she too worked her hips up and down.

"Fuck me little brother! My pussy is all yours baby!" She moaned as her bright, sparkling eyes were locked onto his.

Nick only smiled as he switched his view between her pretty face, her massive bouncing tits and her tight pussy swallowing his cock. She gyrated her lower body, changed speeds and did all kinds of other things to make every fuck unique which all felt incredible. He loved the fact that his sister was letting out little coo's, mews and giggles as she bounced on his cock. She was loving this just as much as he did.

He also couldn't believe that this all was truly happening. He was fucking his older sister hard while his mother was sucking his freshly deposited cum right out of his grandmother's well fucked pussy. He had only read about these kind of acts in stories on a site called Literotica, which was one of his sources for his incestuous fantasies back in the days. But he wouldn't need those anymore, maybe he could write some stories of his own experiences now that he was engaged in an incestuous quartet relationship?

He snapped out of his thoughts when he felt his sister's cunt grab his cock like he had never felt before, her head was thrown back and her hands were on the floor behind her. She was working his cock extremely hard now and it was like he was watching a goddess. Her long blonde hair hung down like a wavy curtain while she growled and moaned all kinds of horny sounds. Her full, perky mammaries jiggled and shook hypnotizingly good while her pussy squirted out spurts of juice all over his belly.

His hands roamed all over her sweaty body, mauling her ass, caressing her fit belly before moving them up to grope and squeeze

her big tits. He also pounded harder up into her, almost throwing her off because of the deep impacts.

He fucked her like this for a few minutes before Nick wanted to switch it up just like he had done with his grandmother. He gave her a few harder fucking thrusts before he clamped his hands around her wrists and pulled her forward onto him.

Jenny squealed when her brother violently pulled her onto him. Her big breasts squashed against his chest while her face fell to the side of his neck, her long blonde hair covering their sides.

Nick brought his knees up and placed his feet flat on the floor before resuming his thrusting. He could now fuck hard into her while holding her in place and close to him by wrapping his arms around her back.

As soon as he pumped his cock all the way through her birth canal he was greeted with his sister's beautiful sweaty face and eyes staring at his own. "F-fuck m-me brother... Ooooh yesss... pound my slutty pussy goood!" She moaned in short bursts before mashing her full lips onto those of Nick.

Nick hungrily kissed his sister back while his body started to slam up into her even harder. He smacked her so hard that their skin started to burn and turn red because of the intense friction, her meaty ass-cheeks jiggle and shook with every hard impact.

Carrie had pulled herself up and was now cuddling with Aileen, both their busty, well curved sweaty bodies close together as they watched Nick fucking his sister into next year.

"Just look at that beast darling, it looks like your son was made to love us..." Whispered Aileen to Carrie as she caressed her back with her soft hands.

"I honestly don't think you are far off the truth Mom... I love my babies..." Answered Carrie as snuggled up to her mother-in-law.

Nick and Jenny's tongues were engaged into an epic French kissing battle while their bodies kept on slamming against each other. Jenny went from losing her virginity (Sort of) to fulltime hard incestuous sex in the short time span of a single day, and she absolutely loved it. She loved feeling her brother's caring hands roaming her body, his tasty saliva mixing with hers, his hard cock invading her most sacred parts. She knew that this relationship was going to last forever.

But one thing that wasn't going to last forever were their upcoming climaxes, being this intimate with each other rapidly brought up their need to cum.

Jenny's body started to tremble as she came closer and closer. Nick's cock started to throb wilder and wilder as he too came closer, his balls giving him the familiar stings, signaling his need to cum.

"Just fill me up baby brother! Bathe my pussy in your hot seed! Cum for your sister!" Moaned Jenny after releasing their kiss while she cupped her brother's face with her hands giving him such a begging look that he couldn't hold himself any longer.

Nick gave her a few final thrusts and then pushed his sister hard onto his exploding cock, making sure he was fully inside of her. "Cumming again!" He screamed before rope after rope of hot sticky semen were shot straight into the baby chamber of his older sister. With every shot he bucked up and down, his body convulsing like crazy.

Jenny's mouth gaped open but no words came out, her eyes rolled back into her skull as she could feel the warmth of her brother's seed splashing inside of her. She came so hard that after a few more spurts

her vagina squeezed out his cock forcefully, drenching it with her juices that rocketed out of her.

Nick's throbbing cock shot out a few more strands of seed that landed on top of his sister's ass before his body went limp. The siblings both gasped for air, Jenny lying on top of her brother's body, still shuddering a bit from the explosive climax.

Carrie and Aileen kept still as they witnessed the ending of wonderful brother/sister incest.

After two minutes or so they could hear Nick again, calmed down a bit. He gently and carefully helped his sister off him to his other side. Placing her on her back as she still breathed heavily, just as with Aileen a large quantity of semen slowly trickled out of her gaping pussy. Nick couldn't believe that he had managed to cum this much again.

He breathed a few more times before he felt someone grabbing his hand, he turned his head and looked straight into his mother's sparkling eyes. That's right, he still had to go for one more round.

"Baby, come with Mommy to the other side of the tent..." She whispered to him sweetly.

Nick smiled at her and gave her a small nod. He then crawled after his mother while holding hands.

"Well... Somebody has to clean this mess up, isn't that right sweetie?" Said Aileen towards Jenny's direction, licking her lips as she observed her granddaughter's beautiful pussy soiling the floor with warm seed.

Jenny turned her head and gave her grandmother a faint smile.

That smile was enough for Aileen to crawl over to her granddaughter. Just like Carrie did to her she opened up Jenny's legs and dived down to eat out her cunt.

Jenny let out a soft, cute mew as she felt her grandmother lapping away at her pussy. She relaxed her body and experienced something brand new once more.

Nick and Carrie had arrived at the other side of the tent. Carrie dropped herself down on her back and showed her beautiful, busty and curvy body off to her son. "Like what you see baby? Mommy loves her stud son admiring her body..." She whispered to him seductively.

Nick gulped as he watched his mother twisting her child birthing hips and playing with her big tasty tits. He could feel his arousal growing inside of him yet again, but there was a small problem that he had it difficult to get fully hard for a third time. His cock was still semi-erect but it somewhat hurt to get it harder. He looked down and turned his head away slightly embarrassed and disappointed.

Carrie, being the concerned mother she always is, noticed it right away. "Baby, what's wrong?" She asked slightly concerned.

Nick sighed before answering. "Mom I... I have trouble... Getting hard again..." He whispered to her. He watched as his mother stayed silent for a few seconds and started apologizing right away. "I-it's not because of you Mom! I swear, it just becau-"

Carrie had pushed herself up in the meantime and covered her son's lips with her fingers. "Shhh sweetheart... I'm not disappointed or mad baby, here... Come lie down with Mommy..." She said as she returned on her back again and held out her arms.

Nick accepted her request and carefully laid down onto his mother, a familiar tingle running through his body as he felt her tits pressing into his chest and her wet pussy molding around the shaft of his cock, yet still he had difficulties to get fully hard.

Carrie smiled at him as she caressed his cheek with one hand while the other gently ruffled his hair, a thing she had done since Nick was a little boy, it always calmed him down.

"Just relax for a bit honey... Besides, you shouldn't be surprised that you can't get hard again right away. You already filled your grandmother and sister up to the brim, not an easy task..." She whispered to him kindly.

"Yeah but... I... I don't want to leave you out Mom... You deserve to be loved just as much as them..." He responded while enjoying his mother's warmth and touch.

Carrie let out a cute little giggle before she kissed her son gently on his lips. "And you will love Mommy in a bit baby... Just give it some time..." She whispered reassuring.

"You know these last few days have been one of the happiest in my life, along with the birth of your sister and you... I never knew that we all would get this close together, but now I wouldn't have it any other way..." Confessed Carrie.

Nick smiled at her. "I know what you mean Mom... I have always loved you, Jen and Gran but after getting together like... Like this, those feeling raised up to another bar... I hope we can stay together like this forever..."

Carrie answered right away. "I know we will baby; I don't know why but my motherly instinct tells me that everything is going to be all right..."

They watched each other deep into the eyes, enjoying each other's presence before Carrie spoke up again.

"My motherly instinct tells me something else as well..." She whispered to him, her eyes now sparkling with love.

Nick placed his forehead onto his mother's. "And what does it tell you mother..." He whispered back.

Carrie watched her son for a few long seconds again. "Do you know why I pulled you onto me like this baby?" She asked.

"Enlighten me Mom..." He responded.

Carrie brought her mouth close to her son's ear. "Because I love the missionary position the most... Some say it's boring but I love to look my lover in the eyes, to kiss him whenever possible and to feel his cock reaching my deepest depth... And... And to feel his seed squirting deep into my womb to impregnate me, to fertilize my ovulating eggs... To make a baby inside of my belly..."

Nick pushed himself up a bit, eyes wide looking into those of his mother's, his smiling mother's eyes. He could feel his cock harden again, the pain and difficulties were gone as soon his mother mentioned the words impregnate, fertilize and baby.

"Nick... Baby... Once we get home I will stop using the pill... I always wanted a third child and I want you to be the one who knocks me up... To give me what your Father refused... But only... Only if you want it too." She whispered to him.

Nick gulped as he heard his mother's wish. His cock was now fully erect again, rubbing over his mother's pussy mound, leaving trails of

sticky precum. It had been one of his darkest fantasies, to impregnate his own mother. And here she was, offering him the thing that he had secretly lusted for, for so long.

"I... I want that Mom... I want to make love to you... And to impregnate you with our child." He whispered back to her, resulting in his mother pulling him down onto her, their lips coming together in a fierce kiss.

Carrie threw both her legs up, crossing her son's waist as she positioned her drooling pussy for deep missionary fucking. She then ended their kiss and cupped Nick's face. "I love you baby." Was the only thing she said before one hand trailed down, grabbed her son's cock, slithered it through her soaked labia before aiming and pressing it right on her entrance.

"I love you too Mom." Was all Nick said before he pushed forward, burying himself deep into the cunt where he came from all those years ago. Their lips crashed together again in a hungry kiss while Carrie's hands caressed her son's back, her nails scratching along his sweaty skin.

Nick started to give it everything he got, he was going to fuck her like he would before impregnating her. Hard, strong and loud slapping slams roamed through the tent and the outside as a mother and son indulged into a hard incestuous fuck.

His cock hit every sensitive spot inside of Carrie's tight motherly cunt. He scraped her walls at every angle and every hard fucking pound resulted in his cockhead slamming against the door to her baby chamber. The sticky substances drooled and scattered out of the place where they were connected. Their tongues greedily swapped their combined saliva's as they kissed like long lost lovers, their eyes remained open, never losing each other's sight.

Carrie moaned and moaned at an equal rate just like her son did. Every fiber of their bodies rocked and shocked with deep nestled feelings and love for each other. This particular act of incestuous sex was more intense than the one on the backseat of Marc's van, more intense than in the hotel and the one in the showers. Mother and son were now completely connected, a connection that would last forever.

"Wow... Gran just look at them go... It's as if they are possessed or something." Said Jenny as both she and her grandmother watched Nick and Carrie, comfortably cuddled up together under one of the sleeping bags.

"I hope we can get that close to Nick too one day..." She added.

Aileen let out a giggle and kissed her granddaughter's cheek. "Sweetie... Believe me, both you and I are on that same line with him as well. What we are seeing now is just something Carrie desperately needed, to be loved by someone again who deeply cares for her, who doesn't see her as a house appliance object but as the beautiful, kind woman she is..."

Jenny looked up to Aileen and returned a sweet kiss. "I love you Gran..." She whispered.

Aileen giggled again and cuddle up tighter with her granddaughter. "I love you too sweetie..."

Nick was still slamming into his mother with unbelievable strength. He thought about changing positions but he was going to give it to his mother how she liked it. So he placed his feet onto the floor, raised his back a bit further and started to slam into her suckling pussy even deeper.

The feeling was so intense for Carrie that she had to let go off their kiss to moan and scream. "Fuck me baby! Pound Mommy's pussy!"

Make your mother your wife!" She blurted out as her son smashed into her.

His mother's pleas encouraged Nick so much that his movements became even more vigor. "I will Mom! I will make you my wife! I love you!" He screamed back at her as his cock plunged in and out of the tight, sloppy, gooey mess that was his mother's pussy.

Carrie's nails drew blood from her son's back, her legs now wrapped around him so tight that it felt as if she would crush him. The same could be said for Nick, he was fucking her so hard that it felt as if he would break her into a million pieces. But neither of them felt any pain, only pleasure, love and lust.

Nick gritted his teeth as his throbbing, expanding cock slammed into his mother's soaked, suckling, puffy pussy. Every thrust made their skin ripple and their sweat and juices scatter all around. They both could feel that the end was near, and they both could feel that they would be cumming at the exact same time.

"Oh God baby! A few more, just a few mooooreee! Mommy's going to cum!" Announced Carrie, almost losing her mind.

"Fuck! Me too Mom, a few more and then I will pump you full with my seed, then you will truly be mine!" Shouted Nick in return.

And so he did, as if it was a countdown he gave her exactly ten more, deep incestuous fucking thrusts before all his brakes broke. "Cumming Mom!" He yelled one last time.

"I'm cumming too baby!" Answered Carrie with just as much passion.

And at the same time mother and son came together. The son pumping spurt after spurt of his child birthing seed deep into his

mother's womb, pumping in so much that the combined gooey mess started to seep and squirt out of the sides of her invaded pussy. The mother yelled and screamed blood and thunder, her cunt wringing every inch of her son's cock as her own pussy started to squirt out nectar in unbelievable amounts. They had done it, they came together like never before and their promises were met. Carrie now belonged to her son, and Nick belonged to his mother.

They both collapsed back onto the floor, strength fading out of both their bodies. Nick rolled off Carrie and onto his back next to her, he still managed to find her hand and held it tight. He could feel his mother squeezing him in return, no words were need to be said, their touch told them everything.

Jenny and Aileen crawled towards the mother and son couple, ready to help them clean up and to help them to the middle of the tent so they all could sleep together. They had debated to eat Carrie's pussy out once Nick was finished but they knew, and saw, that Carrie was out for the count, besides, it was always an option for in the future, right?

Once they had cleaned up, and helped Carrie and Nick to the middle, they wrapped each other in each other's arms. Nick in the middle, his mother and grandmother to either side and his sister in the middle, half on top of him.

They fell asleep like this, all exhausted from their first night together. A night that surely would be repeated in the future, a night of many because they would be together forever.

And that's how everything changed in my life. I regret nothing that had happened during that vacation, to be more precise, it changed my life for the better. Mom, Gran and Sis are deeply in love with me just like I am in love with them.

Of course, you all must be curious about what happened for the rest of those days camping, and what happened after that.

We eventually stayed at the site for a week-and-a-half since Mom and Gran wanted to leave earlier because they claimed that they needed to do 'something'. We made love a lot during those days over there, whether it was one-on-one, two-on-one or everyone together, it was amazing. We fucked, made love, and just overall enjoyed each other without having to worry about anything else. I have even watched Mom, Gran and Sis fuck each other while I just looked on and jerked off, it was amazing to see them together from an outside like perspective, of course they 'relieved' me of my 'pressure' once they were done themselves.

You also must be thinking how the hell did we leave the camping site without any sort of transportation, together with all our equipment before Dad and Gramps managed to pick us up?

Well, that's where Margret and John came into play. After bonding more with them they told us that the camping grounds were property of their daughter and her husband who ran the camping itself. After telling us our story, the story that they already partially knew regarding Dad and Grandpa, they had no problem to lend us one of their cars.

Mom booked another week of stay before we left to go back home so we could return the car and enjoy another week of camping there when everything was solved.

Once home shit really hit the fan between Mom and Dad, and Grandma and Grandpa. Mom and Gran had found out that Dad and Grandpa didn't return home to attend to their so called 'problems' with the company, but to go on a long hunting and fishing trip with the fellows they had met on our own camping trip.

Me and Jen had never seen Mom and Gran in such scary and furious states, they truly didn't take any shit from their soon to be ex-husbands anymore. Before we knew it they were both divorced, free from the grasps of their former husbands. Dad had to pay Mom a hefty amount of cash every month and so did Grandpa have to do towards Gran.

Mom and Gran decided to move to another state and into a new house, together with me and Jen so we could start our lives over with a fresh, clean slate. This was a win-win situation for all of us, especially the fact that nobody knew who we were was a plus.

Jen and I introduced ourselves as newlyweds, with Mom and Gran as Jen's mother and grandmother (Which was one-hundred percent true :p) who would live with us due some 'certain' circumstances. We were greeted with much enthusiasm by our new neighbors, friends and co-workers (Jen managed to find a job in a nearby hospital after graduating, she often told me that she suspected that her bosses, Judith and Cynthia were in incestuous relationships as well, I just responded by saying that maybe that was the reason why they all worked together so well.) and overall everything was just as we had wished for.

So, that's about it for now. Our lives are great, our love for each other is still going strong and we all wouldn't have it any other way.

.....

Oh! Almost forgot about this. Mom did get knocked up by me, she is caring our baby daughter for a month or two by now and everything is looking fine!

Also, Jen is ovulating next week and she made it perfectly clear to me that if I was up for it, that I would be the designated daddy for her child.

How could I say no to my dear sister?!

THE END.

I hope you enjoyed my three-part series of a relationship between Nick and the women in his family! (Be sure to read them all if you haven't done so, it's worth to experience the full story, trust me!) And as always, please rate and comment if you would like to do so! I always appreciate it! Private messages are also appreciated; I enjoy getting responses from my readers!

Until next time!
