PROJECT: V901-CX12-7B

Dear Reader,

Ohoho boy, welcome! This was one DOOZY of a year so far. I had planned to finish this months ago, releasing multiple products, doing comissions and even floating the idea for a patreon on Twitter.

Life had other plans and began a long campaign of pressuring me on a couple of fronts, work, family, and life events.

Luckily I have solved some of these problems after 6ish months? I am surrounded by some pretty smart and loving people who I can reachout to at any time.

Update over! I am happy to present to you my latest work!
Thank you for your vote of confidence, and please enjoy!

If you are feeling generous and wish to offer me additional support I have a Ko-Fi at:

ko-fi.com/theanon8919

Sincerely,

AN♥N8919

David since you will be taking over as team lead I wanted to give you a summary of the patient **REDACTED**. She has been of particular interest to me, as her genetic profile indicates she has a lot of unreleased potential.

I personally handled her orientation and she has been fully briefed on the potential benefits and risks of this trial. Legal met with her last week to finalize the last of the paperwork as well as do a walkthrough of the NDA (see attached).

So what does this mean for you and your team? Essentially, she has waived her right to share anything she learns or experiences while on PROJECT: CHIMERA in *perpetuity*. If she breaks this clause we have many forms of reprisal.

With this protection we no longer need to worry about collateral damage. I need you to give me something to really 'wow' the executive team so I want a more aggressive approach for V901-CX12-7B. I recommend condensing her 6 month program into a five dose regimen to be taken in a single day. It has a higher risk profile, but the patient should survive if we use the newest mutagen and infuse it with other genetic material.

I will leave the details to you, our goal is simply an increase in strength and stamina, if more mutations occur I consider that a win. Jensen has had some rather interesting theories so I have assigned him to your team along with his

DELL

Several weeks later the mutagen arrived
at V901-CX12-7B's home address.

The name behind the number was Senna Finn.
She was the perfect candidate. Young, healthy, and an
avid user of Genentech products.

She was so excited to participate in the trial
that she signed whatever disclaimers and agreements
the lawyers put in front of her.

She thought she was receiving a simple serum
that **might** improve her stamina and strength.

The idea of growing in front of her boyfriend,
Dan, was too enticing...

She knew she'd be breaking the NDA she signed but who cares!
Who would find out anyways?

She picked out one of her sexiest outfits, gathered up the Genentech
syringes and silently snuck into his room....

Today was the day she would surpass her boyfriend, and
she wanted him to be there to witness it all!

CARRIE?! WH-WHAT
ARE YOU DOING
IN MY ROOM?!

HMP LOOKS
LIKE YOU CAUGHT
ME DURING MY
WORKOUT!

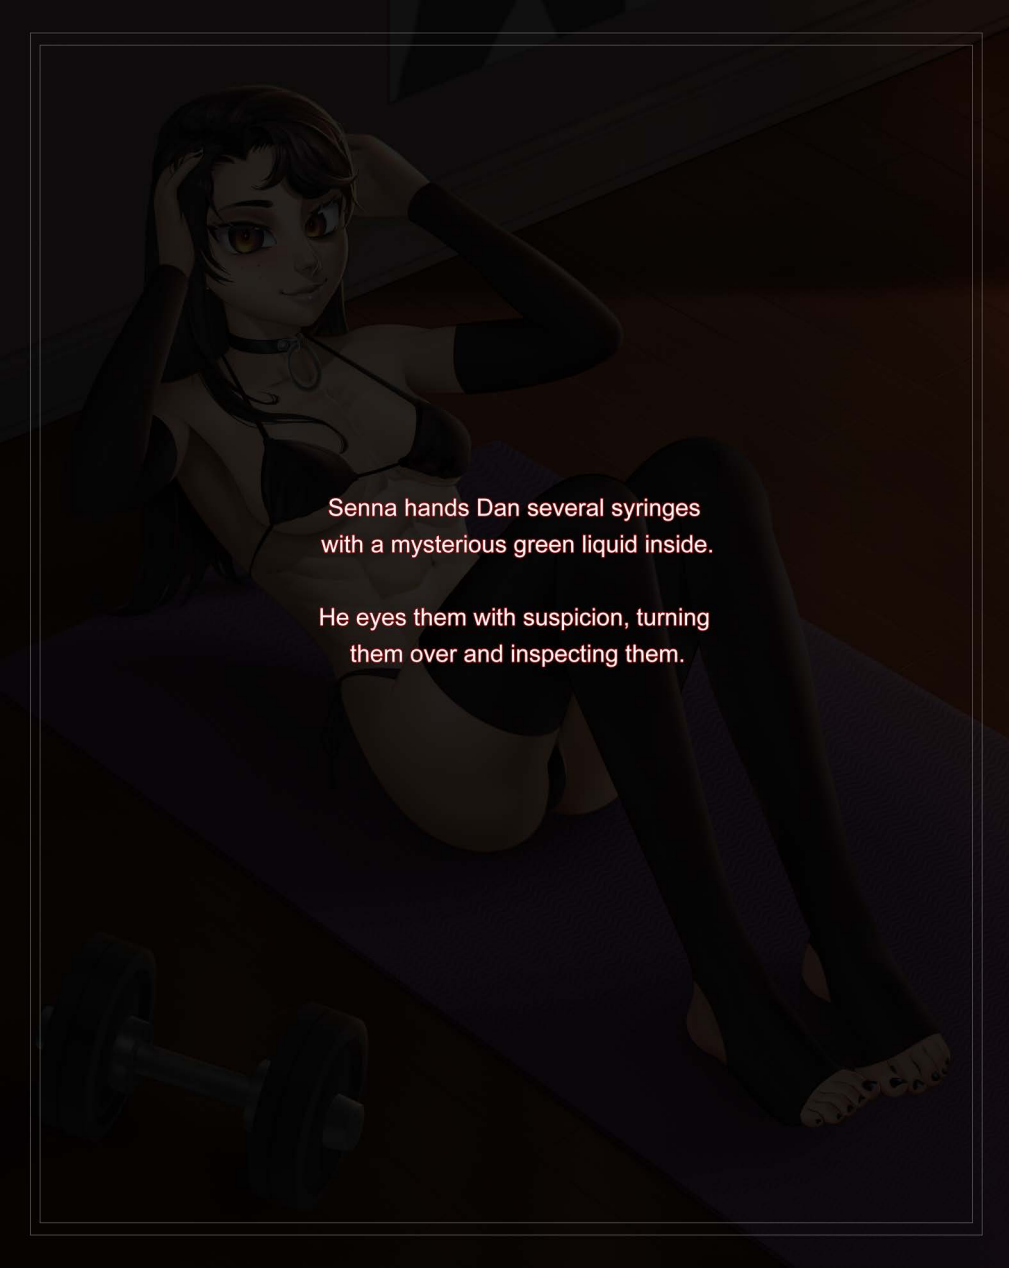

♡SINCE I'VE BEEN
SUCH A BAD GIRL
YOU SHOULD
PUNISH ME!
RIGHT? RIGHT?!♡

OH? I SEE...
WHAT DID YOU
HAVE IN MIND?

GLAD YOU
ASKED!

Senna hands Dan several syringes
with a mysterious green liquid inside.

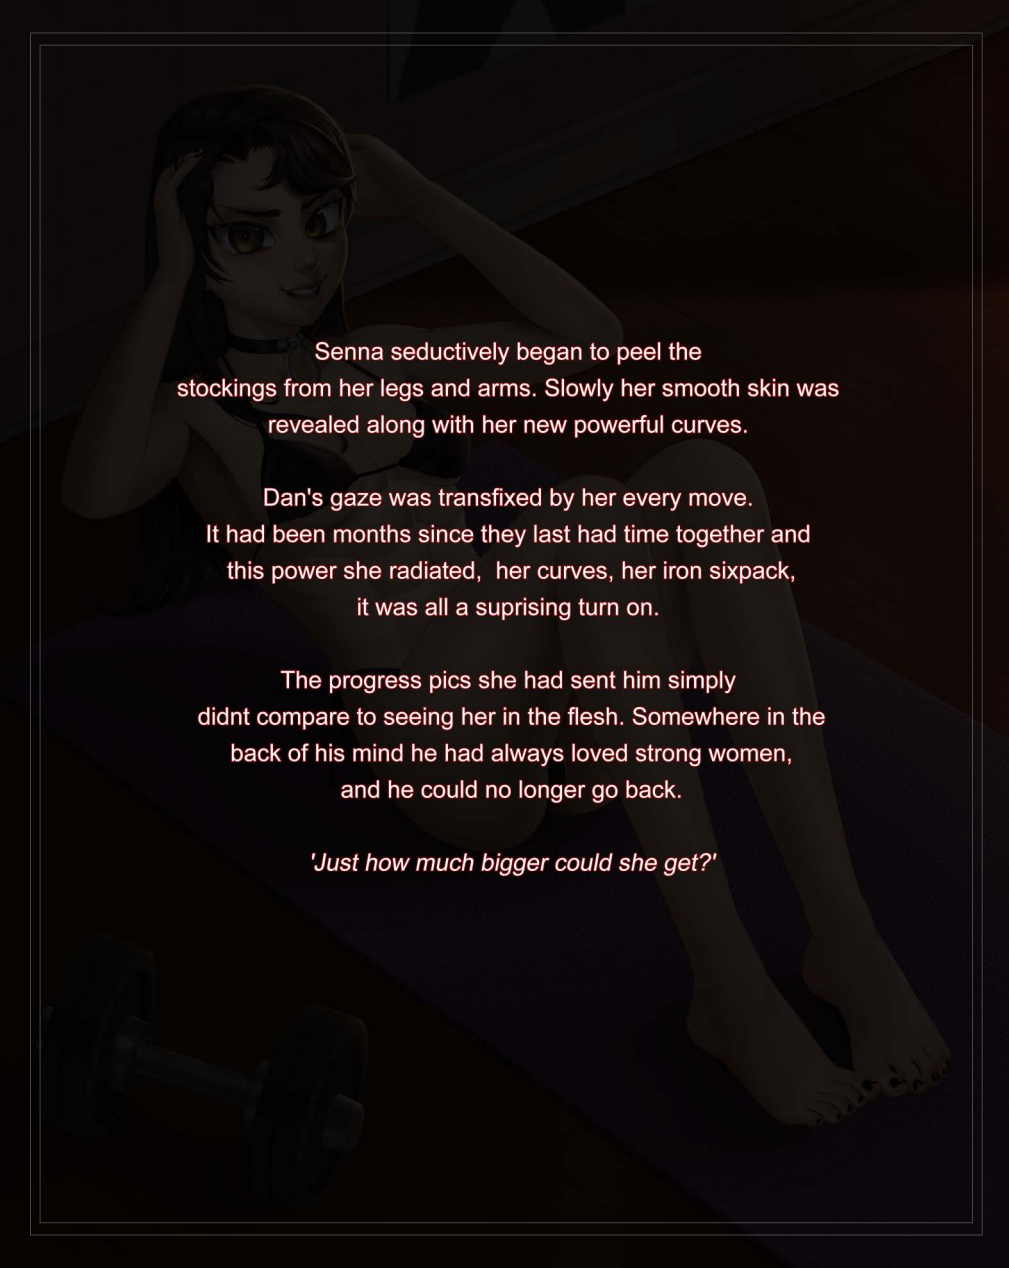

He eyes them with suspicion, turning
them over and inspecting them.

SENNA THIS IS--?
ARE YOU SERIOUS?

IT'S PERFECTLY
SAFE!

THIS DOESN'T EVEN
HAVE LABELS, WHERE
DID YOU GET THIS?

Senna seductively began to peel the stockings from her legs and arms. Slowly her smooth skin was revealed along with her new powerful curves.

Dan's gaze was transfixed by her every move. It had been months since they last had time together and this power she radiated, her curves, her iron sixpack, it was all a suprising turn on.

The progress pics she had sent him simply didnt compare to seeing her in the flesh. Somewhere in the back of his mind he had always loved strong women, and he could no longer go back.

'Just how much bigger could she get?'

HAHA! YOU ARE
TOO EASY TO PLEASE!

F-FINE! BUT YOU DON'T
HAVE TO CRUNCH THE WHOLE
TIME, Y'KNOW?

JEALOUS?

FEEL ANYTHING?

NOTHING! WHAT A
BLINCH OF BULL-

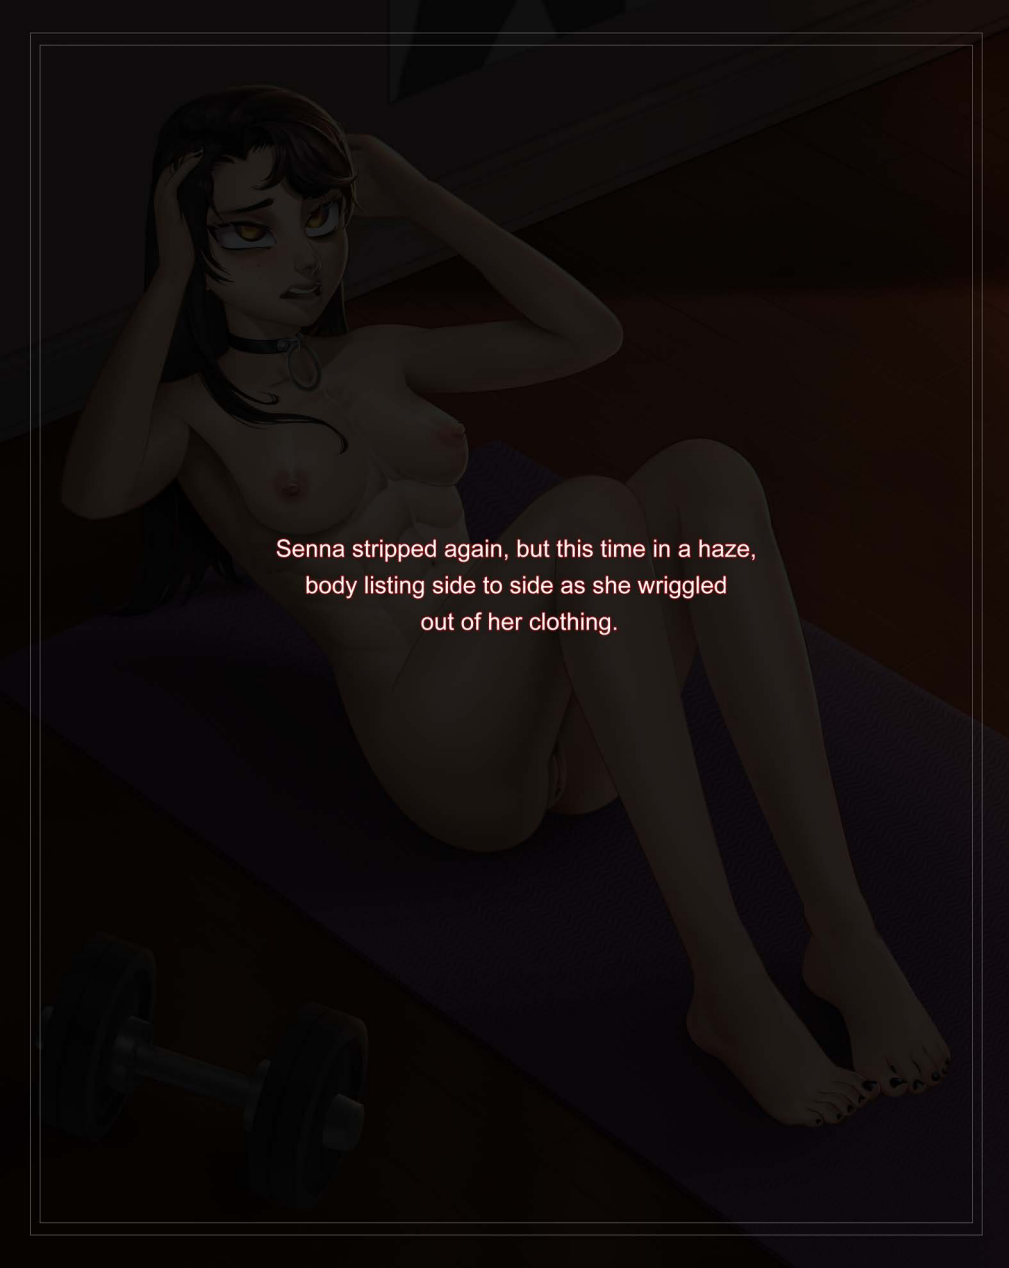

-SHIT?!

AH! JESUS!

SENNA YOU OKAY?

A dark, moody illustration of a woman with long dark hair and yellow eyes, lying on her side on a purple mat on a wooden floor. She is looking distressed, with her hands behind her head. She is wearing a black choker with a large ring. A dumbbell is visible in the foreground. The scene is dimly lit, with a strong shadow cast by the woman.

Senna stripped again, but this time in a haze,
body listing side to side as she wriggled
out of her clothing.

GLHKK!

?!?

NGH!!

....SO DO ALL
GENENTECH PRODUCTS
HIT THIS HARD?

HA! HAHA! WHAT?
NO... NEVER BEF-

♥PLEASE?♥

Dan was dumbstruck. She grew!
She actually grew right in front of him!

His primal instinct told him he should follow her
request and give her another injection. She wasn't in any pain,
hell her orgasim put most male pornstars to shame!

However he had a nagging feeling. Dan knew deep down
that she wasn't just getting stronger. She was changing.

If he gave her another shot, things would
never be the same again.

AH/♥

♥YOU D-DID IT!♥

YOUR EYES SENNA!
THEY ARE RED!!

EEEH?!!

WHA-!?!

CAT EARS! SENNA
WHAT THE HELL IS
IN THIS STUFF?!

IT WASN'T SUPPOSED
TO DO THIS!!

SENNA HOW DO WE
STOP IT?! SENNA!!

I DONT'~

\\ . o b l . i

I DON'T KNOW!

WE HAVE TO GET YOU
TO A HOSPITAL!

NO! **HYURK!**
NO DOCTORS!

YOU'RE AS HARD
AS A ROCK...

She was right. Her boyfriend looked down
and that's when reality set in. Straining against Dan's
denim jeans was an erection so hard it hurt.

Up until a few months ago he had no idea that
he had a muscle obsession. This however was on another level.
His girlfriend was now superior to him in everyway.

It terrified him.
It excited him.

SENNA, YOU
ARE AMAZING!

UHM..
T-T-THANKS...P
