

# Found at the Gym - Chapter 9

by aaabbbzzz

The next day Pete got to work. He carefully examined the shrinking device, feeling like it seemed to almost be in working order. Amber sat on the couch watching TV while her daughter Sara went out to get the last few things that the little man might need to repair their only hope of getting back to normal. Right on time, the giantess walked in to check on how Pete and her mom was doing.

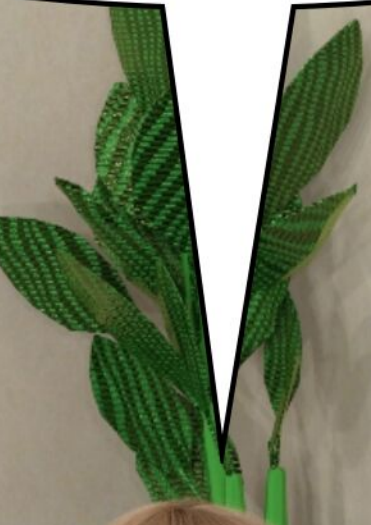

How is it going over there Pete? You look like you have some hope in your eyes. Have the parts I've brought over seem to be fitting properly? I can't wait to grow you and my mom back to normal.

Oh hey Sara, everything is looking great! The tiny part that broke off when it fell to the ground was actually easier to replace at my current size. I think all we need to do now it wait for it to allow the battery to charge the inner part of it. We might be able to use it later today if we're lucky.

Sara was really excited by what Pete just told her. The thought of getting things back to normal seemed like a dream, but it was becoming obvious that in time things would slowly get better. Seeing Pete's expressions gave her a lot of hope for the results later. She knew her mom Amber was getting tired of being so small and having to stay home. Her work was starting to get suspicious so fixing things later that day just felt like it would be good.

So you're saying it only needs to charge now? How long do you expect that to take. I want to tell my boss as soon as possible so I can return to work. I'm going to have a lot of stuff to catch up on when I get back. Is there anything we can do to make it charge faster?

Mom, you're going to have to be patient. When Pete fixed it the first time he was only able to grow himself a few inches. I think that if you're at least getting slightly bigger it's better than nothing.

Well actually this time it might charge faster than before. I replaced a piece that seemed like it melted a bit from being overused when we made Amanda a giant. I think if we try it later in the evening it should be enough for the both of us.

Did you hear that mom? I'm so happy for you! Everything is going to get back to normal sooner than we thought. I'm so sorry you've had to go through this, but I'm glad it's almost over. I have to get going for work, but I'll see you two later when I get off. You don't know how excited I am to see you back to your full size.

Okay okay I get it, I'm really happy too. Stop handling me like a child Sara. I don't want to get my hopes up until I actually see results. You have a good day at your job. Me and Pete will be just fine hanging out and waiting for you.

After giving her mom a hug goodbye, Sara began to walk towards the front door so she could leave for work. Amber liked what she heard about the device being repaired, but it was too early for her to actually believe in something so mysterious. It felt like magic how it worked in the first place, so until she would see it work for real she was skeptical. As she watched her daughter leave, she instantly started to get naughty thoughts. Pete and her were alone, and she wanted to take advantage of this time.

Hey Pete, what do you think about coming back to my room with me? Sara is going to be gone for at least a few hours and I thought last night was just so much fun. Why don't we take advantage of these last moments we have together at our current sizes? I just think that we really should.

I think that sounds like a great plan. There's nothing I can do with the device for now. All we need to do is wait, so I have some time to kill. Let's do this while we have the chance.

The little man was beyond excited with the offer from Sara's mom. They had so much fun together the night before, so having another chance with Amber was like a dream come true to Pete. He didn't think this thing they had going on would continue when they would be restored, so it was hard to pass up. Jumping off the table, he followed the half-sized woman back to her room, running to keep up with her gigantic body.

I can't believe we're doing this again. Last night seemed like it would only be a one time thing, but it feels so good to be here with Amber. Her pussy is so wet as if it really needs me.

Oh my god Pete, that feels so fucking good. Fuck me harder little man. You have no idea how crazy this drives me. All I can think about is you and your tiny body. Give it to me like you really mean it.

Pete didn't hesitate at all as the giantess demanded him to give her what she wanted. She moaned out loudly, not worried about her daughter being in the other room this time, as the little man pounded her from behind. Just like last night, their size differences didn't seem to matter much. Pete's shrunken cock still fit well within her tight pussy, and the thought of having him back there just made he wet. There was something about being stuck in this situation that made all of this more hot to her than usual.

Fuck yes! Fucking give it to me little guy. I can't help myself. I need to scream out. This feeling is beyond what I could ever imagine. It's like my wildest fantasies are coming true. Keep fucking me like that, I feel like I could die right here happy. You're going to make me cum already. Just a tiny bit more. Oh my god, that's the spot!

Amber came to her climax and moaned out until her body started to calm down. Wanting to continue to stimulate her, he switched off, moving his body up to her breast. He knew she wanted him to keep on fucking her, but Pete loved to stimulate nipples. As he pulled himself in, he dropped his head down on Amber's boob and began to play around with it. Having the tiny man explore her body like this was just another thing that Amber couldn't help feeling extremely horny about.

Pete.. what on earth are you doing? Why does that feel so good coming from a tiny mouth like yours? You sure know how to satisfy a woman. This has been a lot of fun, but we should probably get back out to the living room before my daughter gets home.

But before we do, I want to reward you first for being such an excellent lover. As much as I'd love for you to keep fucking me, I think I'd like to give you something special instead. I can tell just how much you love spending time with me and my giant curvy body. It's too bad playing with our sizes is so risky or we could do this more in the future.

Pete was placed down onto the bench as Amber looked down at him with a seductive smile. He could tell that she was up to something and that she was dedicating this time to him. She slowly ran her fingers along his tiny body as she slightly backed off to give him a view of her naked body. The little man could not take his eyes off her as she playfully posed right in front of him.

What do you think of my body Pete? Do you love just how big my ass is compared to you? Any man would be jealous of you if they saw us together like this. There would be no other way to get close to a butt this big if we were our normal sizes. This is a great opportunity to have some fun and just enjoy the moment, don't you agree? Now sit still for me so I can take care of your little body.

Without giving Pete a warning, Amber sat on the bench, smothering Pete's face underneath her gigantic ass. She used her hands to hold her weight up, giving the little man a chance to fight back if he wasn't enjoying it. But Pete was actually liking this. Having Amber's giant ass pressed into his face wasn't what he expected, but he was enjoying it. Her dominance still felt playful, so there was no need to worry. It was just an experience he had to do his best to take advantage of.

Pete was trapped, but he didn't seem to struggle. Amber's enormous ass was just enjoyable to be under. Since being shrunk he had never had the chance to feel what it would be like to be so close to such a giant butt. The way the older woman was playing with his tiny body was beginning to turn Pete on. There was no way to hide his growing erection from the horny mom who continued to toy with him.

A 3D rendered nude woman is sitting on a bed with grey bedding. She is looking towards the camera. A speech bubble is positioned in the upper left quadrant of the image, containing text. The background shows a modern bedroom with a bed and a vase of purple and white tulips on a nightstand.

I see this is getting you excited isn't it Pete? Well we're going to have to take care of this wont we. Do you like how it feels when I rub my soft fingers around your shaft? Just let go of your control and allow me to please your tiny body. I know you would love it if I continued to play with you like this. Don't be afraid to enjoy it as much as you

The shrunken man was having a hard time believing this was actually happening. Amber shifted his body down, bringing his head right next to her wet pussy as she continued to stroke his hard penis with her tow fingers. Pete was loving the situation he was in. It felt like nothing else mattered in this moment except to just let her continue to control his body. He sat still, allowing her to continue until Amber suddenly stopped and got off the bench.

What did you think of that Pete?  
I could tell you seemed to like it more than I thought you would. I thought you might of struggled to get free, but it made me feel good to know you loved it so much. Your cock just seems to be raging hard right now. You know I'm here to take care of that for you. Why don't you continue to lay back for me so I can keep on playing with that little thing.

I want to suck you off Pete.  
Don't even try to hold yourself back. I'm  
expecting you to blow your load in my mouth  
for me. I bet this is one advantage of being so small.  
My tongue can swirl around your dick so easily. My  
lips are going to press up on you and control you  
until you cum. Please let me take care of  
you.

There's  
no way this is real. Is this  
what she really wants to do? I don't  
think I'll be able to handle myself long.  
She's turning me on so much. Why  
didn't I run into her the first time  
I was shrunken?

Without giving him any more time to imagine, Amber dropped her head down and started to slurp on Pete's shrunken hard on. He felt his body shut down as the feeling of her mouth on his cock took over. It seemed like nothing mattered in this moment. He didn't even think about growing back to normal as this was just a dream come true in so many ways. For once he wasn't just captive to a cruel giantess. He was getting his tiny body taken care of in the best way possible.

Moments passed with Pete's dick inside Amber's mouth until he couldn't take it any longer. She could feel him getting closer and closer, but instead of slowing down she picked up her pace. In no time Pete felt his body release, cumming on Amber's tongue as she sucked on his penis until every last drop was gone. The little man felt like he had gone to heaven as his powerful orgasm came to an end.

Wow Pete, that

was great. How are you feeling?

You seem to of enjoyed that as well. It was so fun to give you a blowjob at this size. Putting my mouth on your cock was just insanely satisfying. What do you say we get dressed and head back to the living room now. I'm not sure when Sara will be back, but I want to be settled in way before then. Hopefully we'll be able to use the device when she gets home. It was fun spending this time together but it's important we get back to a normal life.

Amanda and Libby waited in Libby's bedroom. After being abused continuously over at Amanda's loft, Rachel finally decided to bring them over to Libby's instead, just to be safe as she felt like someone would come looking for Amanda there first. Libby didn't have many people to contact so it felt like her place was a better choice. They patiently stayed put on the bed like they were asked to. Rachel had finally trained the two shrunken girls to be obedient to her, after having them misbehave many times. Neither of them wanted to be punished anymore so they knew they had to just give the giantess what she wanted when she would ask.

In walked Rachel, who seemed to be dressed in some risque lingerie. The tiny girls immediately felt scared as it looked like the giantess wasn't just here to check in on them. Rachel wanted to have some fun of her own. Since the other night she had started to get addicted to the dominance she had over Libby and Amanda. It felt empowering to her to get revenge for Pete on the women who treated him so badly. The power that came along with it also turned her on in a way that made it hard to resist playing with them.

Why hello down there my little pets. I'm glad to see you both decided to be good and wait where I asked you to. It's a shame because I was looking forward to punishing one of you. I guess it's okay though because you seem to be figuring out your place. Either way, I still plan on having some fun with you girls. Just because I don't need to punish you doesn't mean I'm going to let you off the hook for all the horrible things you've done in the past.

Rachel came over to the bed and knelt down next to the shrunken women. She stretched her arm above her head and closed her eyes with a smile on her face. The giantess was already getting wet thinking about naughty things she wanted to do with the tiny girls. All Libby and Amanda could do was look up in fear, knowing they had to obey her commands or be punished with an even harder or more humiliating task. They were helpless before her.

Crawl on over to my foot like the little worm you are Libby. I'm glad that you are more behaved than Amanda over here. Why don't you show me that this is where you belong and that there is no reason to use you for other things. If you can grovel at my toes then I may forgive you and allow you to devout your life to them. Isn't it a better choice than becoming my sex toy or something worse? You have this option if this is what you would prefer.

As for you Amanda, I still haven't decided on what the best use for you would be yet. You've been causing a lot of problems so far, almost like you don't realize just how much smaller you are than me. I know you might of felt a power trip when you were in charge, but that's not the case anymore. You will do whatever I ask you to, and you will compete with Libby to do a better job. We'll start with my feet and if I'm not satisfied we'll think of something else.

As Rachel continued to scold Amanda, she looked over to see Libby passionately performing her task. She lifted Rachel's foot and stuck her tongue out to run it up and down her toes. Luckily for her the stockings blocked reaching her bare skin, making the task easier. The giantess laughed at the tiny woman, enjoying her devotion to the job she was given. Libby didn't want to be here, but it seemed to be a better option than what the evil girl might think of. She continued to lick and kiss until Rachel moved the two girls down to the floor.

Alright ladies, I think we should dive right in. I'm getting incredibly horny, thinking about the power I have over both of you. But we wont jump right into that unless you disappoint me. We'll start with each of you bowing down to your goddess. You will worship me like your life means nothing. All that matters is pleasing me, because if I'm unhappy, then things might get difficult. I'm expecting the best effort for your sakes. Now, why don't we begin so I can see just how dedicated you girls will be.

Catching her off guard, Rachel shoved her heel into Amanda's face. Instinctively, she used her mouth to kiss the bottom part of her toes. The tiny girl felt lucky that these shoes were fairly clean. However, it was still a humiliating position to be in. Amanda didn't want to be abused like the other night. Feeling threatened by the giant woman, she wanted to dedicate what she needed to in order to keep Rachel happy. But Rachel was just getting started. As she removed her shoes she placed her two feet in front of the shrunken girls for the next part of her game.

Great job so far you two. Am I sensing a bit of fear coming from you Amanda? I hope my threats were able to reach the deepest part of your mind. Fear should drive you to do a better job. You ladies feel amazing down at my feet. At first I was really confused as to why you did this to your shrunken subjects, but being here now really changes my mind. Why don't we pick up the pace a little more? I'm liking your efforts, but we need to see just what you're capable of.

Rachel allowed Amanda and Libby to have a chance before getting upset with them. After giving it some time, she just wasn't completely happy with Amanda's performance. Libby seemed to be dedicated, but there was something about Amanda that seemed off. Her efforts were just not cutting it for the giantess. Like she warned her earlier, Rachel thought punishment would be the best way to snap her into shape. Using her foot, she stepped on the shrunken girls head and pressed her into the rug. The tiny girl screamed out, begging for the giantess to forgive her laziness.

Unfortunately for her, the giantess stood up and began to display her dominance over the shrunken girl. Amanda had no hope to fight back against Rachel's overwhelming power. She scolded her and focused her attention on the tiny woman as Libby turned her back and closed her eyes. She felt lucky that it wasn't her being punished, but scared that this was her new reality with the girl who seemed so nice at first.

Do you call that a fucking foot massage you worthless little pest? I know you can do better than that. I can feel the passion and dedication from Libby, but not from you. If you think you're going to be as lucky as her you'll need to do better than this. Hopefully my smelly foot will get the right message into your head.

Back at Sara's place, Pete had prepared the shrink ray to finally be used on Amber and himself. Sara closely examined the device, excited to finally grow the two back to their normal sizes. For once, Amber was smiling back at her daughter, happy to go back to the way things were. They set the device to the proper setting and stood in front of Sara so they could begin. Now was the moment of truth, whether or not Pete's repairs worked or not.

Okay guys, this is it. I hope being small wasn't the worst experience of your life mom, but at least it's over now. I know Pete has been through a lot so I can't imagine how eager he is to grow back. I hope to see both of you back to your normal heights after I pull this trigger. I know you're the genius behind this Pete and I trust your judgment. Let's hope everything is functional.

I don't want to wait another moment honey, hurry up and fire that thing at us. We're both so ready to finally be done with this. I wouldn't wish this on my worst enemy.

Without waiting another moment, Sara aimed the shrink ray at Pete and her mom and pulled the trigger. A flash of light came out, hitting both their bodies. Unlike before, they were happy to be hit with the beam. Pete flexed in excitement as Amber got scared for a second. Within an instant their sizes had changed. What came next was not what they were expecting.

It didn't seem like the device functioned as Pete thought it would. Strangely, Amber had grown bigger, while he had shrunk smaller all with the same setting. Something must of messed up somewhere. Instead of being back to her normal size, Amber was now over 10 feet tall. All while it seemed like Pete had shrunk back down to only a few inches. When she looked over to her side to see the little man she was completely in shock by his new size.

Oh my god  
mom, you're gigantic!  
What the hell happened? Are  
you okay, I'm so sorry, I don't know  
what I might of done wrong. This  
isn't what was supposed to  
happen.

Look at me? Look at Pete!  
He's so much smaller now honey. I'm  
fine, but I can't imagine getting shrunk when  
he was already so tiny. There must of been a  
problem with the setting after fixing it. If we're  
able to grow me this big I'm sure we can  
figure out something at least.

Amber stood up to her full height so she could see just how much taller she was than her daughter now. Sara was shocked to see her mom tower over her, but Pete was even more surprised looking up at the giantess. It made her nervous to feel so big, as her head almost reached the ceiling of her home. Before she started to freak out, she thought of this just being temporary. The device was able to change her size from small to large, so she had to think about the best case where it would work out properly. Pete had the same type of feeling, even though he was so tiny.

It's okay Sara, try not to panic. The device works again at least! Just try it again on me with the same setting. Maybe something went wrong when it was growing your mom as well. We'll figure out how to fix it so we can get back to normal. We just have to feel relieved that it at least does what it's meant to. Go ahead and shoot me with it one more time, there should be enough charge leftover.

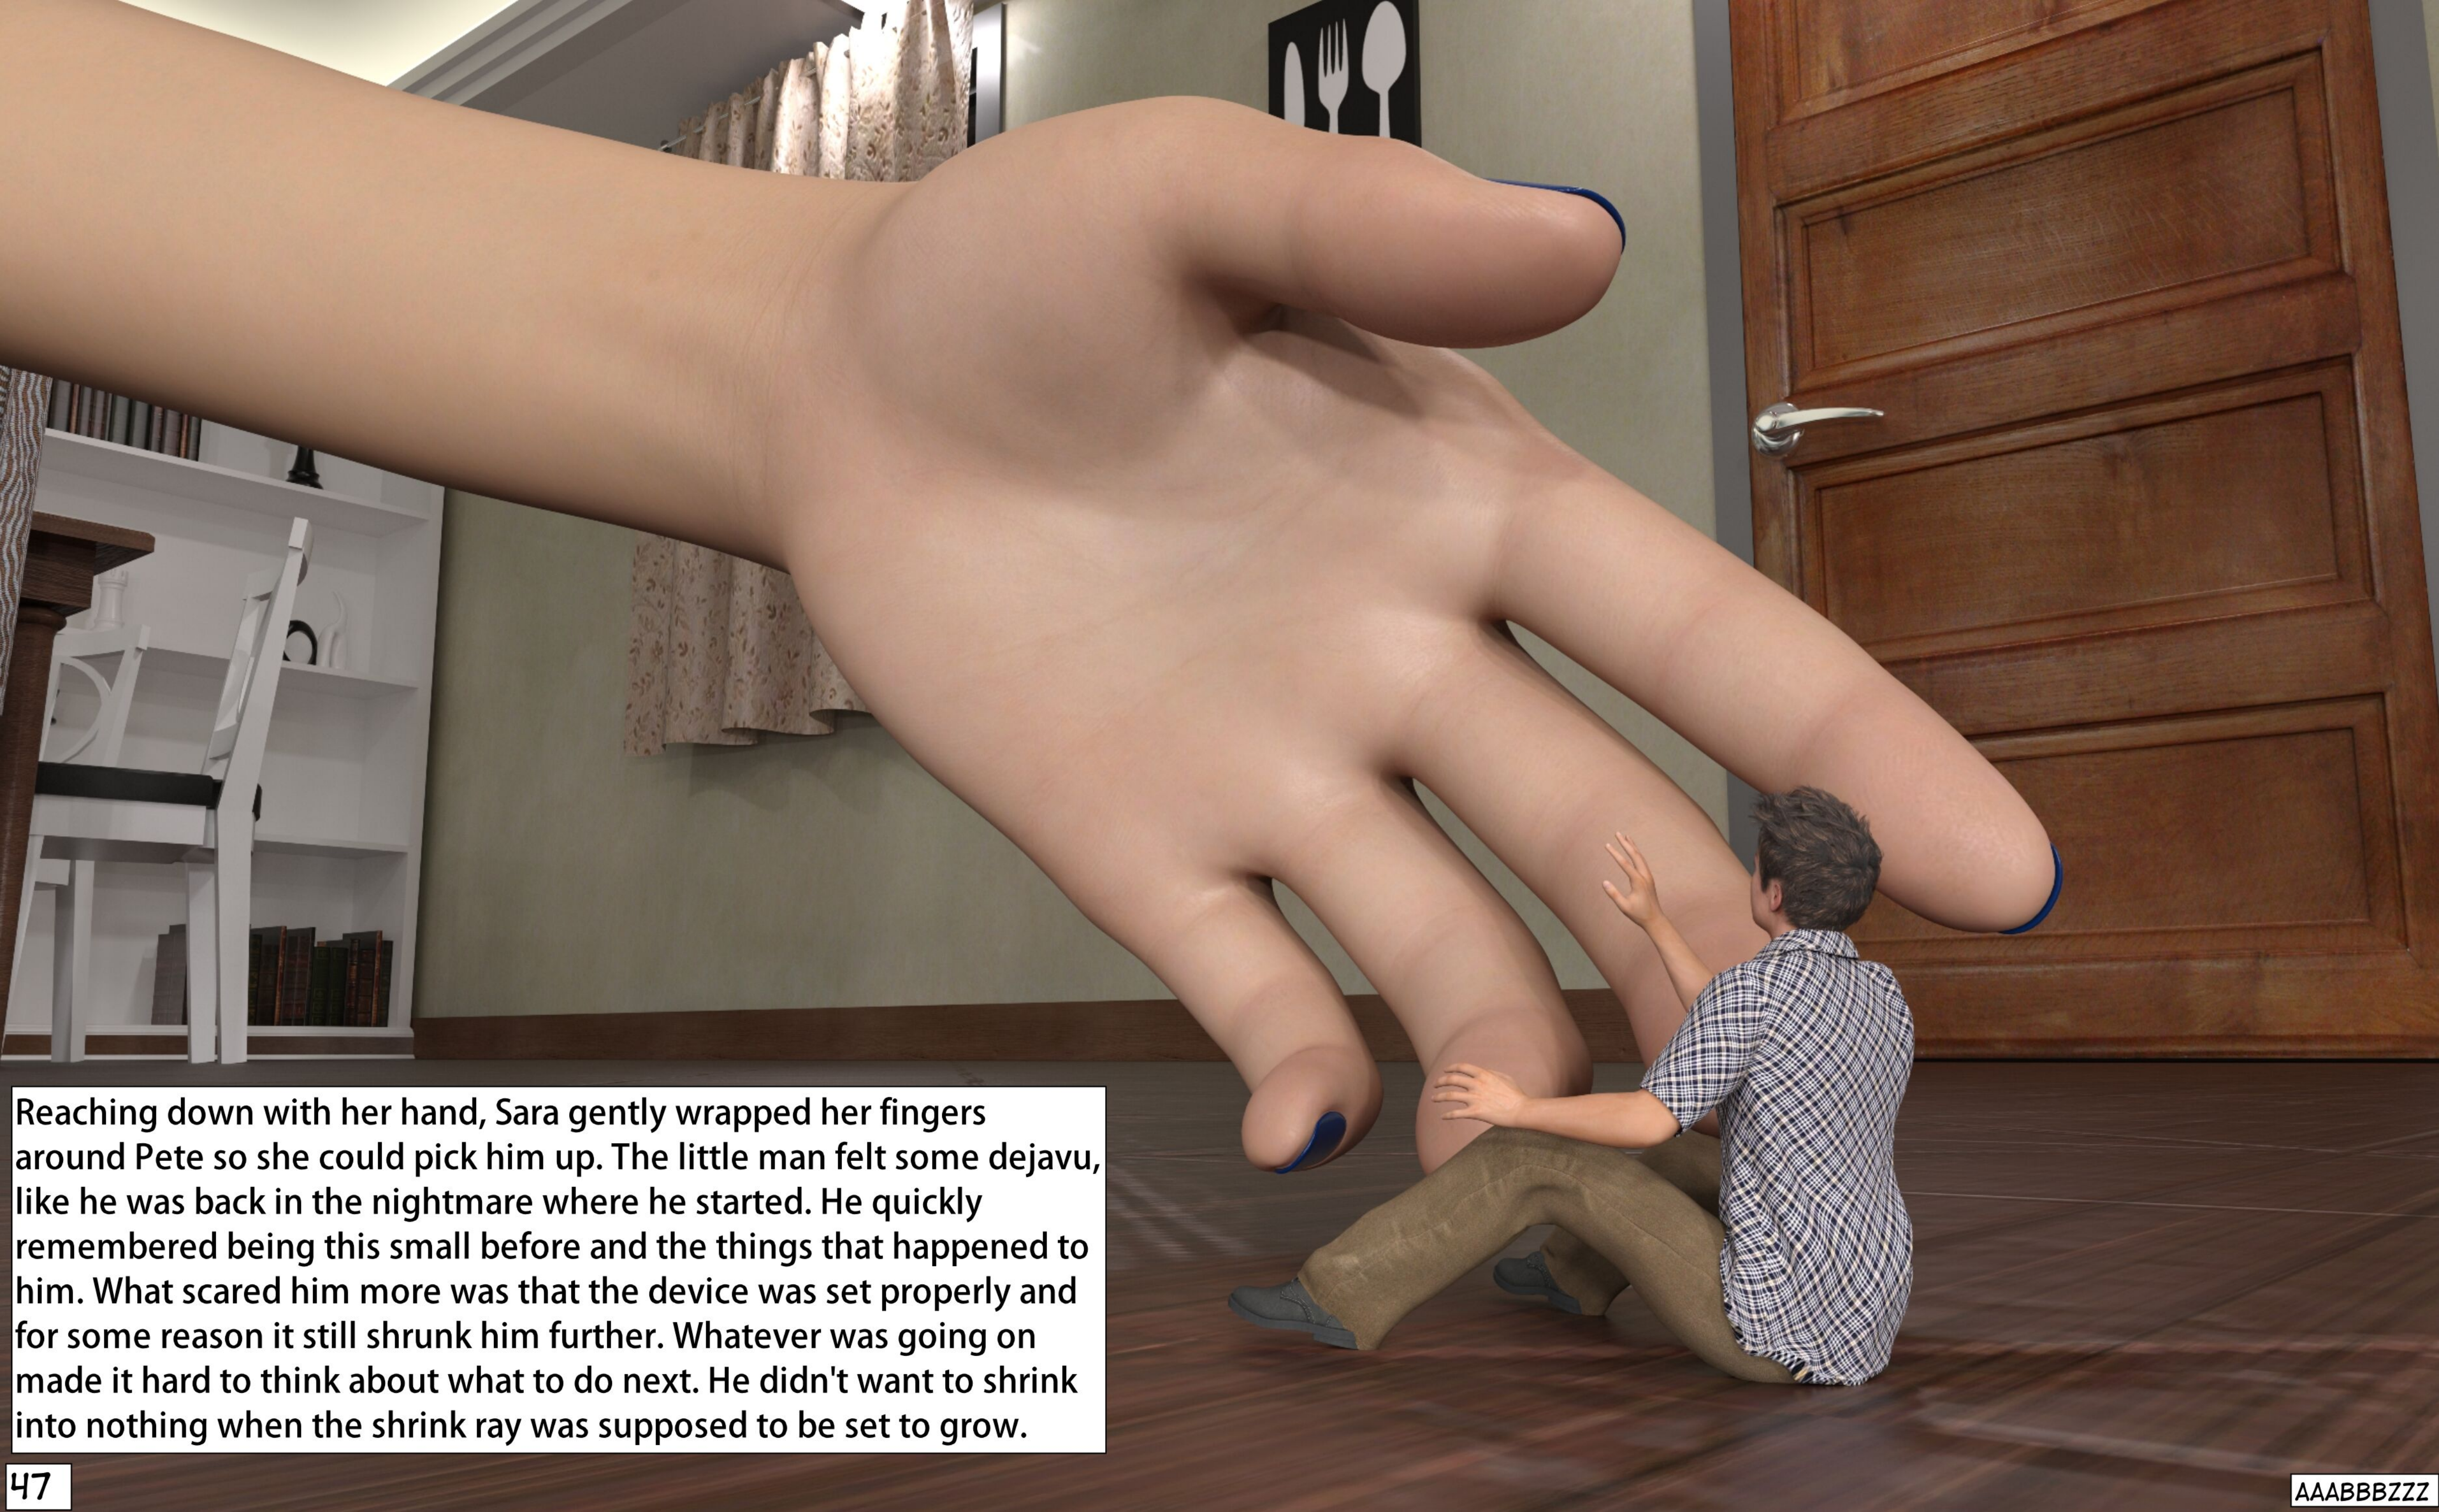

Sara heard Pete's words and decided to calm down. She knew he was right and knew that they could always continue to change their sizes. Aiming the device at him again, Sara pulled the trigger and fired the blast of light at the tiny man. Before she did she made sure it was set to the right setting so there wouldn't be any more problems.

What did you do Sara? He's even smaller than before! Oh my god, poor Pete, he's so tiny. He looks like nothing but a bug from all the way up here. I can't imagine how big I must look to him. Pick him up honey, I don't think we'll be able to hear him from down there. Maybe he has an idea on what is going on with the device.

Reaching down with her hand, Sara gently wrapped her fingers around Pete so she could pick him up. The little man felt some deja vu, like he was back in the nightmare where he started. He quickly remembered being this small before and the things that happened to him. What scared him more was that the device was set properly and for some reason it still shrunk him further. Whatever was going on made it hard to think about what to do next. He didn't want to shrink into nothing when the shrink ray was supposed to be set to grow.

I'm so sorry Pete, I was so excited to see you back to normal. This must be a nightmare. What do you think we should do? I feel worried about using the device on you anymore because I switched it to the setting you told me to. Are there any possible explanations for this?

I have no idea Sara. I hope there's not something wrong with my body chemistry that could be causing it to malfunction. I think the best idea would be to test it on Amanda and Libby. If it works out then I think it was just a fluke, otherwise I will need to repair it further.

It sounds like he's unsure mom. I'm going to go see Rachel and test the device on the other shrunken girls. I don't want anything to happen to you so I think we should just let you stay at this size for now. I know you still can't go back to work, but at least you're not so tiny like Pete.

That's fine Sara, I will be okay. We'll make the best out of it. Until we figure out what to do with Pete I don't want you to worry about me. I know this is unfortunate as well, but I'd rather be this big than the size I was before. I'll have to be careful watching Pete while you're gone.

What should have been a simple process ended up worse than before for Pete. When he had repaired the shrink ray previously he had got it to at least work properly. But now instead of growing him back to normal it shrunk his body down. It was also a mystery what would happen to Amber if it was used again. They worried that using the shrink option would only make her bigger. Handing Pete over to her mother, Sara left the house so she could test out the device on Amanda and Libby.

Meanwhile back at Libby's place, Rachel had taken her clothes off and started to play with the two shrunken girls on the bed. She was enjoying punishing Amanda for her lazy behavior. Dominating the tiny woman was turning her on more than she thought it would.

You feel so good down there Amanda. I'm actually happy you were so useless when I asked for my feet to be worshiped. Now you'll get when you deserve, and I get to have fun doing it too. Sometimes I wish you never learn your lesson, because this is just the best thing ever.

While this was going on, Rachel had Libby behind her still licking her foot. Since Amanda was the one that seemed to be slacking, all of the attention was turned towards her. Libby was happy to just do this task while the other shrunken girl was being punished. Worshiping Rachel's feet was a way better option than being smothered underneath her pussy. Unfortunately for the two women, the giantess was getting increasingly into this. Rachel wanted nothing but to use these little toys for her pleasure.

Come on  
Amanda, why don't you dig  
your face up in there? I'm still not  
feeling enough effort from you tiny thing. I  
could get a bit more rough with you if I  
wanted to. You better start satisfying me  
before I take matters into my own hands.  
Ah there we go. Lick my pussy you  
little bitch. Use that tongue to  
make me scream!

As this was happening Rachel did not hear Sara coming through the door. Her friend was in complete shock to see her naked and playing with the two shrunken women in this way. Rachel immediately stopped, worried that she was caught red-handed doing exactly what Libby and Amanda would do. It was embarrassing to be exposed in this way and she didn't know exactly how to handle it now that Sara knew what was going on here.

Sara I swear it's not what it looks like. You don't know what's been going on here. These girls have been defiant and have been needing some punishment. I was just trying to get them to learn their place. After all the cruel things they've done I didn't think it was right to let them treat us with no respect.

What the fuck Rachel? I know you're not like this normally. Has the power got to your head or something? This isn't how we wanted to handle this situation. Look at these poor little women, they're scared to death! I know they've done some mean things in the past, but it seems wrong seeing their faces. Can you get out of here and go get dressed so I can have a moment with them?

Without getting the chance to really explain herself, Rachel walked away from the situation in shame. Sara was very disappointed with her and the way she seemed to be handling the shrunken women. She thought she could trust her friend when it came to taking care of them and watching them in a way that wasn't cruel. For now she would think about what she had to say.

Sorry girls, I had no idea what she was doing with you two. Fortunately for you guys, Pete has done some repairs with the shrinking device so today is your lucky day. It's about time we all return to a normal life.

Sara didn't give them a lot of time to think about what she just said, but Amanda and Libby were excited by her words. When they saw the flash from the device they felt their bodies start to expand. This was a huge relief after just being used as Rachel's sex toys. Both of the women finally felt good after being held captive against their will for so long. When the light vanished, they were surprised to see what they looked like.

Amanda and Libby were both happily shocked to see themselves so big. Neither of them were exactly their full size, they were maybe a few inches shorter than normal, but it seemed good enough for them. Being able to go back to reality was the most important thing. Both of them eyed Sara and the shrink ray before being ordered to leave the room. Even though Sara felt bad for the girls, she didn't want to have to see them.

You two get out of here and get dressed. When me and Rachel leave here I hope to never see either of you again. You will not speak of this with anyone, do you hear me? We have the shrink ray and aren't afraid to use it again if we have to. I would rather not so I hope we don't have to cross paths again.

Before Libby and Amanda left the room they looked at each other and nodded. They turned around and attacked Sara before she had any time to react. Both women tried to hold Sara down, making sure she couldn't fire the device at either of them. Eventually, Libby was able to pull the shrinking device away from Sara's hands. They kicked her to the ground and aimed it right at her, threatening her to stay put.

Wait wait wait, what are you doing? I haven't done anything to you girls! Please give me back the device, I promise not to use it against you. I still need to bring it back to grow Pete. You two were just my first priority since I know it must of been hard being stuck here at a tiny size.

We're not giving this thing back again! Do you know how hard it's been to be so small and abused every day? It drives a woman crazy. You have no idea how long we've been waiting to get our revenge. It's your time to shrink little girl. You're about to see just how horrifying and terrible it is to be reduced to a doll.

Libby changed the setting and aimed the shrink ray at Sara and pulled the trigger. The defenseless girl screamed out for her to stop, but there was just no chance anymore. After being grown back to size, Libby and Amanda still wanted to get their revenge. Sara didn't do anything to them, but she was simply in their way and the one with the device, so they had to take it from her.

When the shrinking stopped, Sara was in shock to see the two naked women towering above her. For a second it felt like a dream, but unfortunately for her this was now her new reality. They each looked down at her with an evil smile on their faces. This sent chills down Sara's spine as she realized she really messed up this time. The shrinking device was right back in the hands of the two girls who would use it for their own pleasure. Libby reached down to pick up the tiny girl as she screamed for mercy.

Well well, weren't we lucky to have you do something so stupid. I didn't think we'd ever get such an easy chance like this to have our revenge, but thanks to you, you and your friends are now in danger. What do you say Libby, should we go shrink that bitch who was taking advantage of us? And after we deal with her we can go back for Pete.

I like that idea Amanda. Look at her beg us, it's so pathetic. You or your friend never treated us like humans when we were tiny, so why should I be any different? You're mine now little girl. Here Amanda, take the shrink ray and go get Rachel. I want to have my own fun with this one. We can always get Pete another time.

The thought of Amanda and Libby working together made the situation even more scary for Sara. She had hoped that there would be conflict between the two to give her a chance, but it seemed like they were putting their differences to the side in order to get revenge on the ones that hurt them the most recently. Sara knew that Rachel would be in a lot of trouble, especially after seeing what she was doing when she walked in. There was no way Amanda was going to be easy on her after being abused so harshly when Rachel was the one in control.

Back in the living room Rachel was thinking about what she would say to Sara. She had put her clothes on and was waiting on the couch for her friend to come back. Rachel wondered what she was asking the shrunken girls and if they were throwing her under the bus. Either way she felt guilty because she knew the way she was treating them wasn't right. The thrill of revenge was just a lot for her to resist. When the door opened, she saw Amanda grown to a normal height holding the shrinking device.

What the hell, what's going on Amanda, where's Sara? And how did you get so big? Wait, is that the shrinking device! It looks like it's working again! Why are you looking at me like that? I hope you're not angry for me giving you what you deserved.

Oh silly Rachel, you really fucked up doing those things to us. You'll see what happened to Sara soon, let's just say she was a little too trusting of us when she grew us back to normal. The pool girl thought we would just walk off without trying anything. Sadly for you and her, she was wrong.

Now it's your turn to feel the pain of being tiny and helpless! It's going to feel so good to fucking get back at you and your friend. You've treated us like worthless animals, and I can't explain to you in words how degrading that made me feel. You will get what you deserve for being such an evil bitch!

Wait Amanda, let's think about this. You don't have to shrink me! Let's just talk for a second and maybe we can work something out. I'm sorry for the things I did to you, you know how hard it is to resist that power. Why don't you just let me go and I won't say a word.

Not even considering Rachel's pleas, Amanda fired the device at Rachel to shrink her down just like Sara. She let out an evil laugh, feeling thrilled and powerful once again. The thought of getting her revenge was getting her excited. Rachel was now helpless against the power of the giantess who she just got done abusing. It was obvious that she would be punished a lot harsher than Sara would.

Now, that's better. Just look at how small you are now. Is it scary to be so helpless down on the floor? The quake each of my footsteps make must make you feel so insignificant. This is what it's like to not have any control tiny girl. You will be mine to do whatever I want with now. It's a good thing you gave me some ideas when you were the giant one. You're about to find out why I resisted so hard. It's so humiliating to be tasked with something so disgusting.

Amanda lifted her foot and hovered it above the shrunken girl. For a moment she took this time to stare down at Rachel. She loved to see the fear in her eyes as she screamed out, begging for the giantess to not do anything to her. It was nice to feel dominate once again, especially against the woman who treated her so poorly. After pondering for a bit, Amanda decided to finally bring her foot down to apply pressure to her tiny body against the ground.

What's wrong Rachel, do you not like being underneath my foot? How do my toes smell? I bet they must stink pretty bad because you never offered me or Libby a bath the whole time you were in control. I can't wait to finally get clean, but maybe I should punish you for a bit first. Go on, lick the bottom of my toes, just like earlier when you wanted me to worship yours. If you don't do a good job for me I'll just do exactly what you did to me. I think that sounds pretty fair don't you?

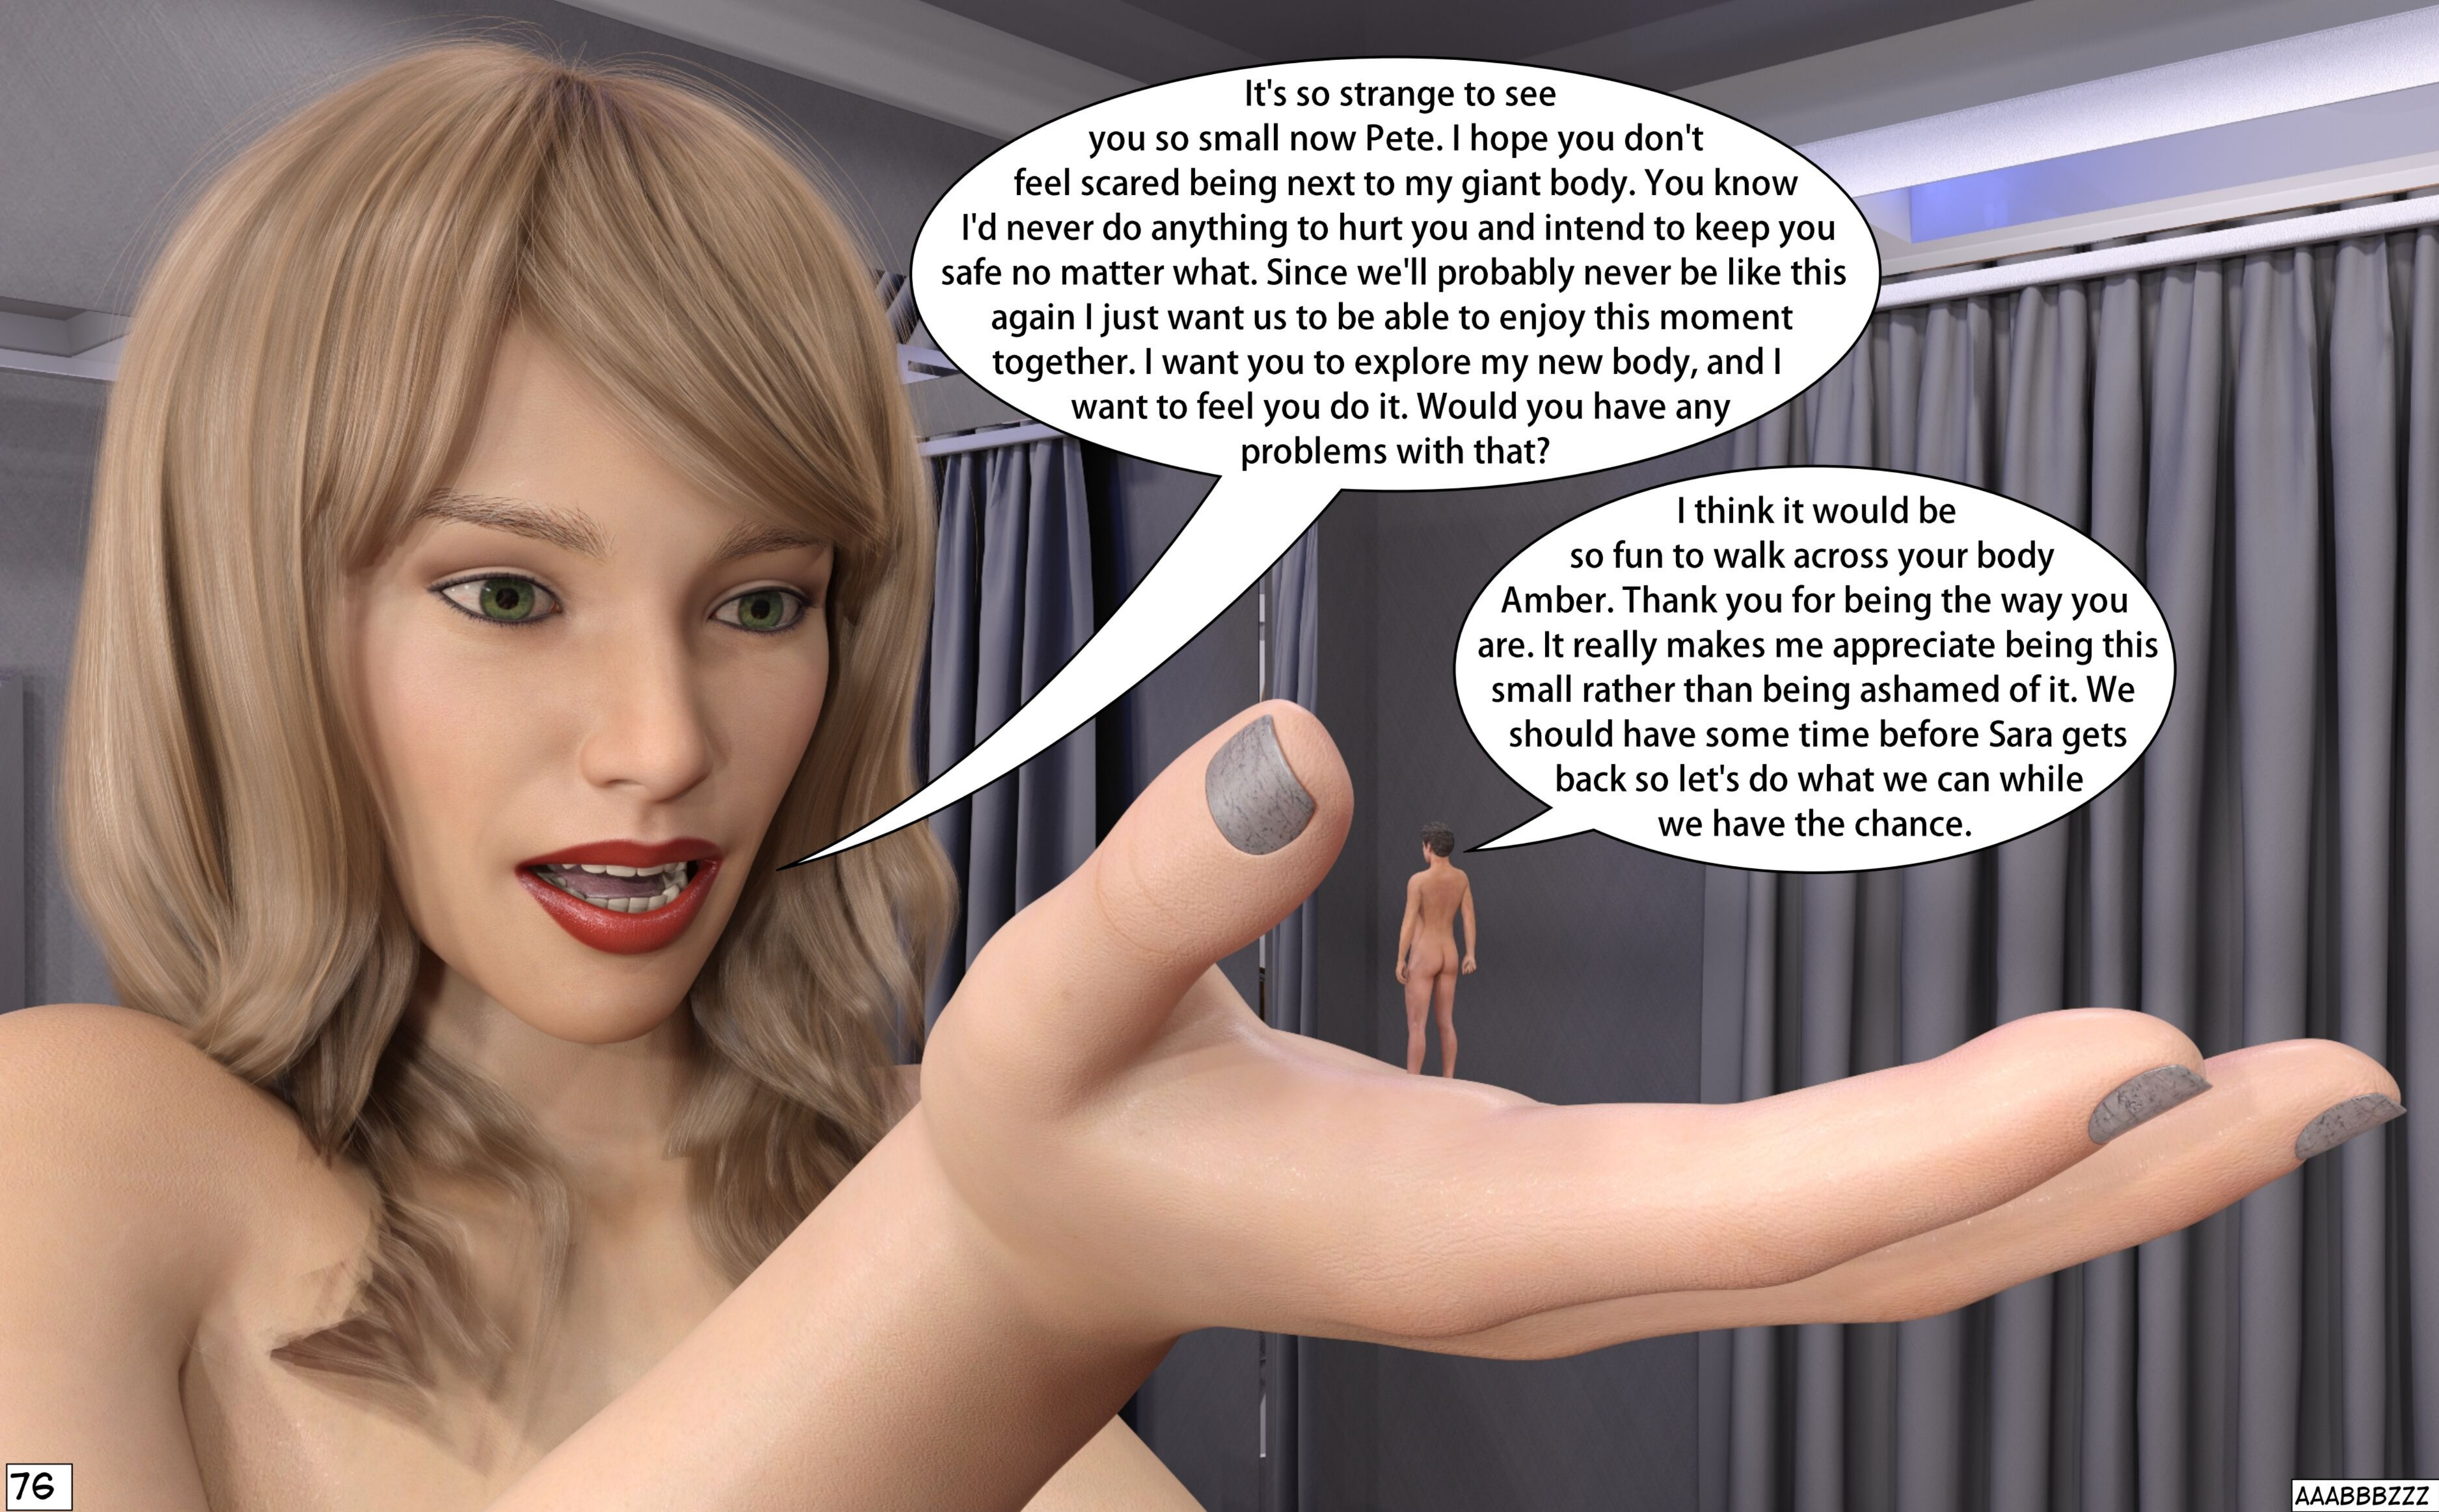

Scared of things getting worse, Rachel reluctantly started to get on with her task. The shrunken woman began using her tongue to worship the giant foot, all while trying not to gag from the strong odor. Amanda instantly felt amused by the tiny girl's efforts. She wasn't completely satisfied, but it felt amazing to be able to dominate her. In time she knew that she would have to train her new little pet to become a much better slave. For now she just wanted to enjoy this moment, knowing that things were going to turn for the better for her and Libby.

As soon as Sara left, Amber wanted to take advantage of her new size with Pete. She knew the little man would eventually fix the device, so she thought it would be fun to make the best of it for now. Sitting on her bed naked, she held the tiny man in her hand, while smiling down at him. Pete felt safe in Amber's hands. Even though he wanted to grow back to normal as soon as possible, he also found it nice to be able to spend time together at both their sizes.

It's so strange to see you so small now Pete. I hope you don't feel scared being next to my giant body. You know I'd never do anything to hurt you and intend to keep you safe no matter what. Since we'll probably never be like this again I just want us to be able to enjoy this moment together. I want you to explore my new body, and I want to feel you do it. Would you have any problems with that?

I think it would be so fun to walk across your body Amber. Thank you for being the way you are. It really makes me appreciate being this small rather than being ashamed of it. We should have some time before Sara gets back so let's do what we can while we have the chance.

Amber got herself off the bed and gently placed Pete down on the ground. He was in awe by how magnificent her gigantic body seemed to him at his tiny size. The giantess stood up and walked towards the open area of the room so she could lay down. Stretching herself out she prepared herself so Pete could venture across her. The thought of having the little man explore her body was making her wet already. She wondered how they could help each other out now that they were at such a size difference.

Pete approached Amber's foot, not worried about being humiliated or unable to deal with the smell for once. He knew the giantess just wanted to do what he was comfortable with, and her feet were giving off a nice fragrance. She must of washed herself really well before growing to the height she was at now. Climbing onto her big toe, Pete crawled up the sole of her foot before reaching her heel. From there he started to walk with an amazing view of her ass in his sight.

Your tiny body tickles me  
Pete. I don't know why it's so enjoyable to feel  
those little legs run across mine. It's a really interesting  
feeling. Why is this getting me so horny. You wouldn't be able to  
please me in the way you did before, but I really just want to touch  
myself to the thought of you exploring me. Something about it is  
just extremely hot to me. Don't you worry though, I want you  
to be okay and to have your fun as well. I'll defend  
you if anything bad ever happens.

When Pete came close to Amber's butt he had to stop for a second. He fell to his knees for a moment, shocked by the view of her perfect ass. Being so tiny and so close to her booty made him realize their differences in size more than anything before. He could also smell her pussy dripping and noticed it was moist. Pete had no idea how things were about to go with Sara's mom, but one thing he knew was that it was going to be naughty. Finally collecting himself, he stood up so he could approach her butt even more, ready to climb up those amazing cheeks.
