Beverly Crusher was born Beverly Howard on October 13, 2324, in Copernicus City, Luna.

Her ancestors were Scottish-Americans. Following the death of her parents when she was very young, she lived with her grandmother, Felisa Howard, on Arvada III, a colony planet, until a moon collision caused the planet to flood, forcing its evacuation. Resourceful Felisa, with her granddaughter's aid, used herbs, grasses, tree chemicals, and roots as medicines when synthetic medicines ran out for the injured.

It was her grandmother's career as a healer and Beverly's own caring, high intelligence, and sensitivity that largely sparked Beverly's lifelong interest in medicine and healing the sick and wounded. The Arvada III disaster solidified Beverly's decision to be a doctor.

During the events of Frontier Day 2401, Beverly joined her former Enterprise-D senior staff in uncovering the unholy alliance between Changelings and the Borg Queen and stopping their plot to take over Starfleet. Following those events, Beverly rejoined Starfleet and, with help of Miles O'Brien, found a way to not only remove all traces of Borg modified DNA in Starfleet Personnel but to also screen for Changelings using transporters. Beverly was promoted to Admiral and took over as Head of Starfleet Medical again.

## WESLEY CRUSHER SPEAKS OUT

*I love my Mom Admiral Crusher but as a Admiral in Starleet I just don't think she should be exposing herself like this.. I do not like to see my mom like this I mean I don't go looking for her nude photos but its hard when they are plastered everywhere you go. I see them in the mens bathrooms, the on line galactic search engine has them everywhere just out there for everyone to see. I hear Quark even has a holo program now to meet the admiral nude and in person and you can live out any fantasy you want with her for a few strips of gold pressed latinum.*

*Honestly mom its time to act your age and stop showing off your naked body to the galaxy.*

## A QUICK WORD WITH ADMIRAL JEAN-LUC PICARD

*We caught up with Admiral Jean -Luc Picard and he had this to say..*

*Admiral Crusher has always been a beautiful woman and we do have one son together. We had lost contact over the years and were brought back together by fate. We did eventually go our separate ways again and I will always have love and admiration for her. I always get one question when talking to new people and the answer is this....*

*"Yes I did tap that ass" In fact I drilled it like I was mining dilithium ore to be more specific"*
