Daenerys has called Missandei to meet within the throne room of Meereen, over recent rumors.

What have you heard?

Khaleesi, there are rumors of a demon like hound in these halls.

They say that the beast is an omen from Ghiscari legend, the other rumor is that you are with child.

Is that so? I see rumors spread like flame to forests even in Meereen.

But there is another matter I wish to discuss with you.

Yes, Khaleesi.

Much better.

Now, for the matter of Meereen and Slaver's Bay.

Khaleesi, you are a werewolf too?

I shall make you Lady Regent of these lands.

My Queen, I am not of noble blood.

Nobility means nothing anymore, as a Werewolf only loyalty matters. But to ensure Loyalty and to become Lady of Meeren... you must become a werewolf like me.

Yes, let him give you his gift.

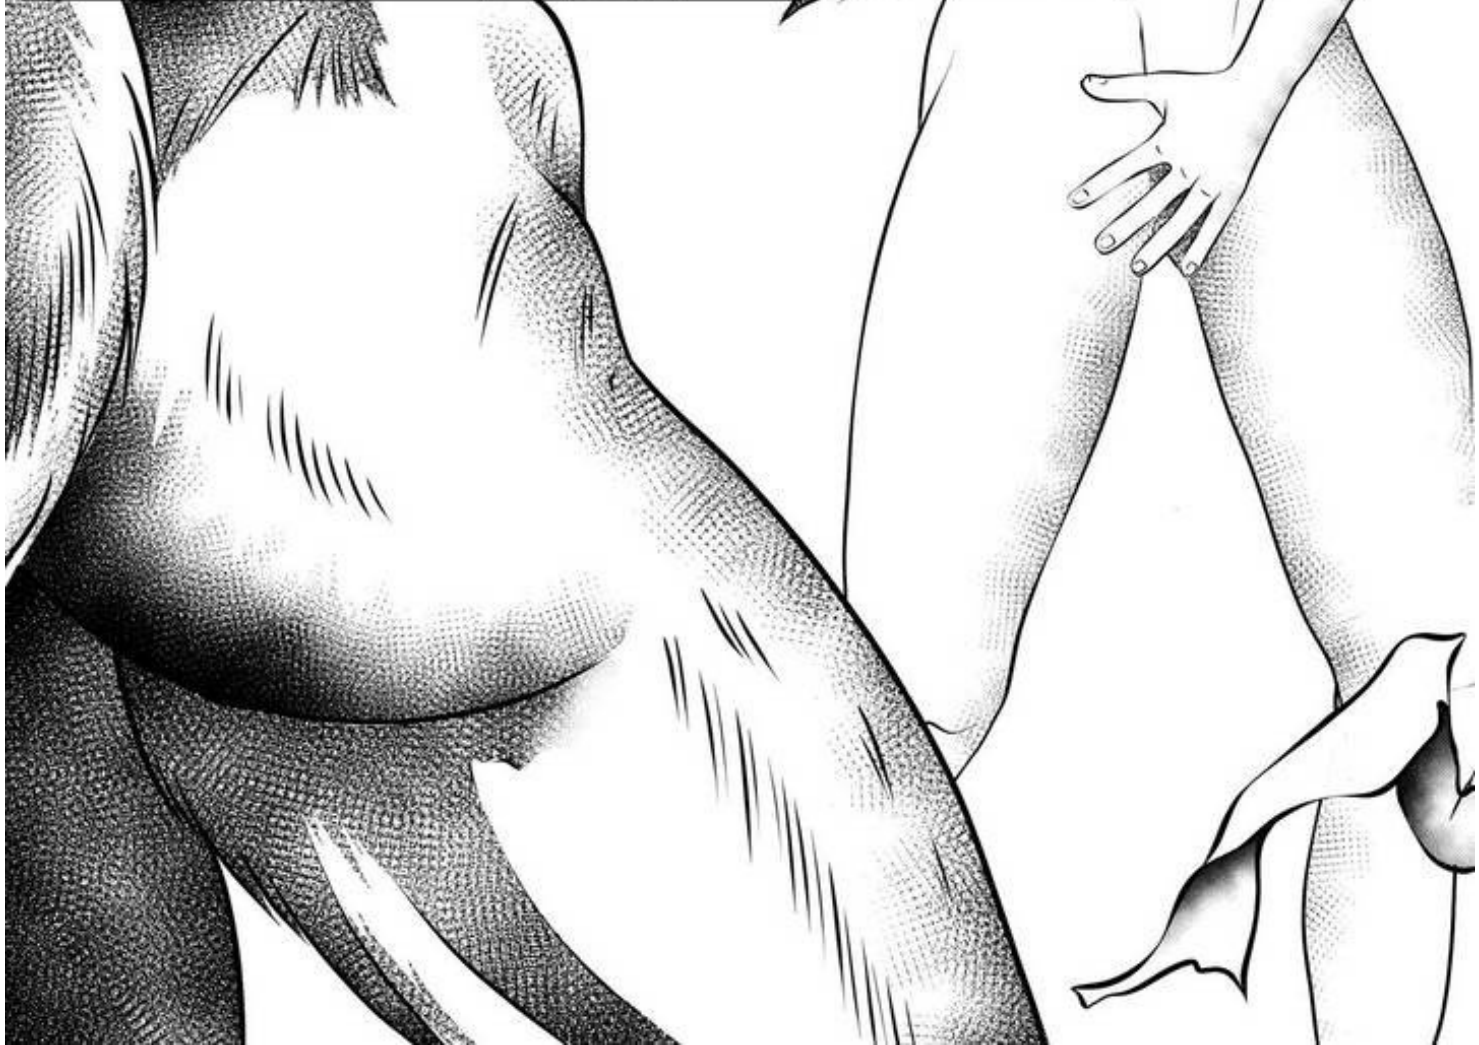

A Werewolf like you?

AAAAHHH!!
Nooooo!!

(CRUNCH)

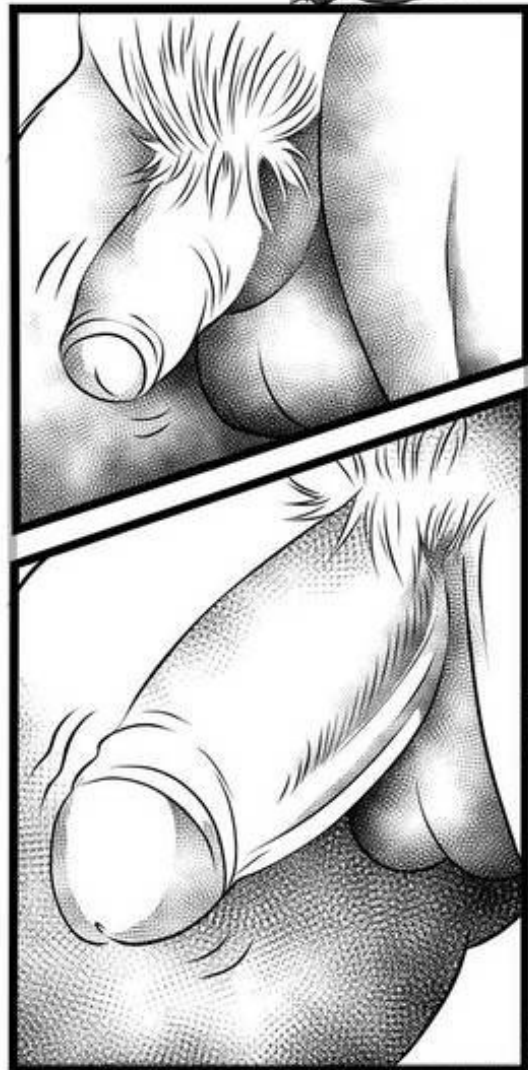

It is time a new Dynasty ruled these lands in the name of my Kingdom

AWWWWWWOOOOO

Missandei's Werewolf transformation continues as she falls under her bestial lust to the male.

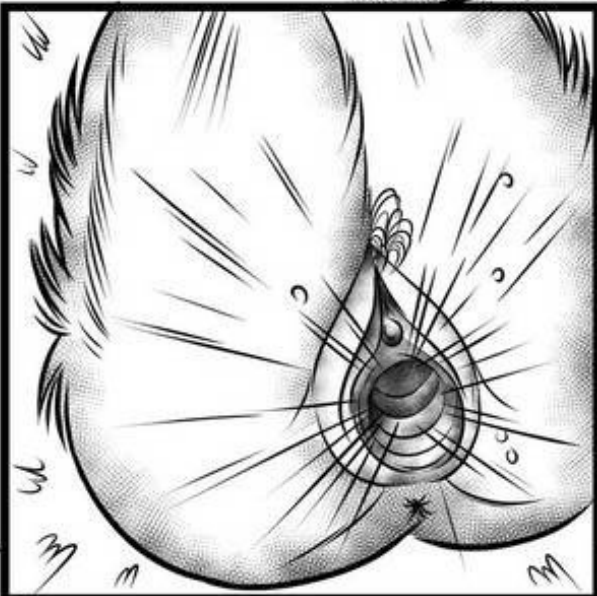

My Shewolf from Naath, you will lord over these lands and bare my child.

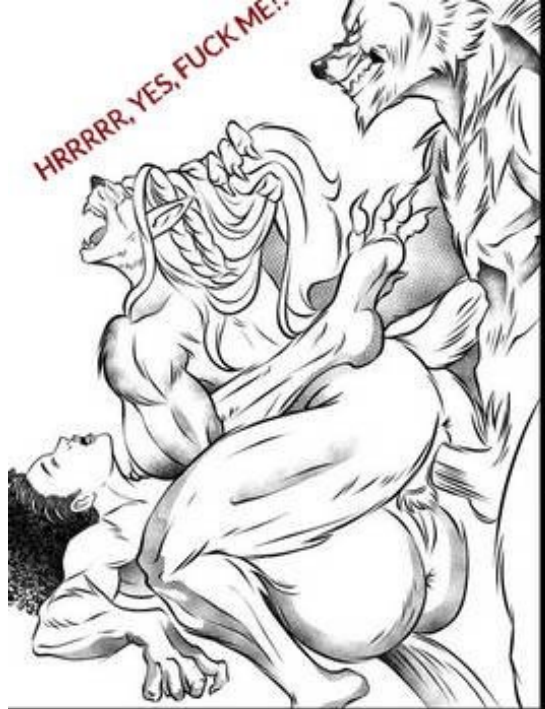

Just like your Queen, you shall be my wife.

Yes, breed me, I am a beast that needs to be fucked.

HRRRRR, YES, FUCK ME!

Khaleesi, how....

(FLOSH, FLOSH)

Filled with lust, the Werewolf fucked Daenerys and Missandei all night, filling them with his seed.

UHNN, UHNN, U

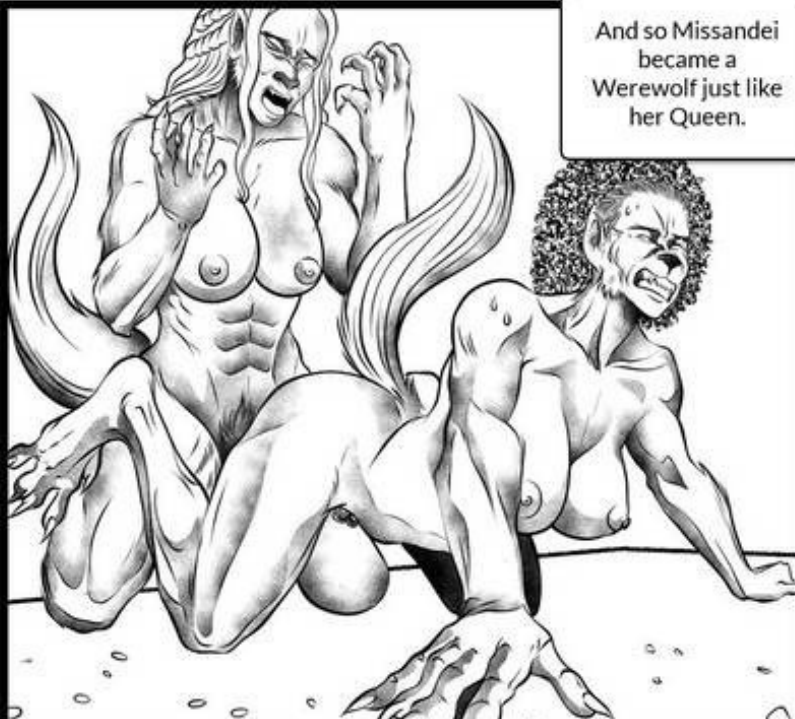

URRRRRRR

GRRRR

Your seed is always thick, your Queen is more than satisfied.

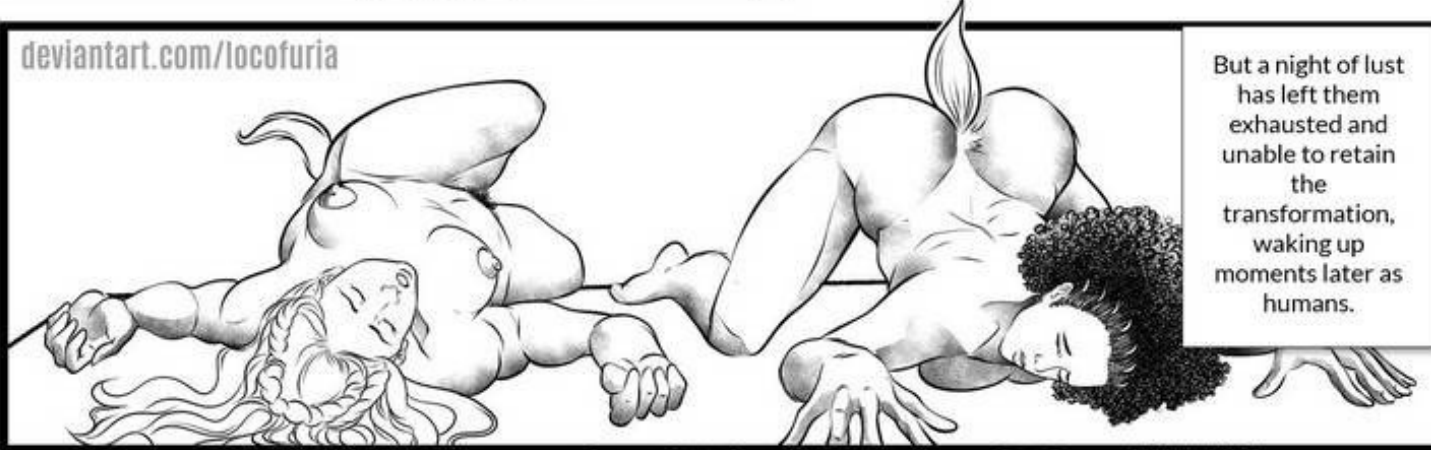

And so Missandei became a Werewolf just like her Queen.

Already changing back? But it is not sunrise.

But a night of lust has left them exhausted and unable to retain the transformation, waking up moments later as humans.

This is how we will conquer Westeros, by finding ladies to join our pack. With pack Loyalty, the backstabbing will end.

I have no interest in ruling the Iron Throne only the pleasure of my shewolves, what ever you say My Queen and Lady Missandei I shall obey.

Our loyalty to each other is too strong for the most silver tongued nobleman.

I do feel a closer connection to you my Queen, this plan could work. But where would we start, Dorne? The Reach? The North?

The End.
