
A GHOSTLY
ENCOUNTER

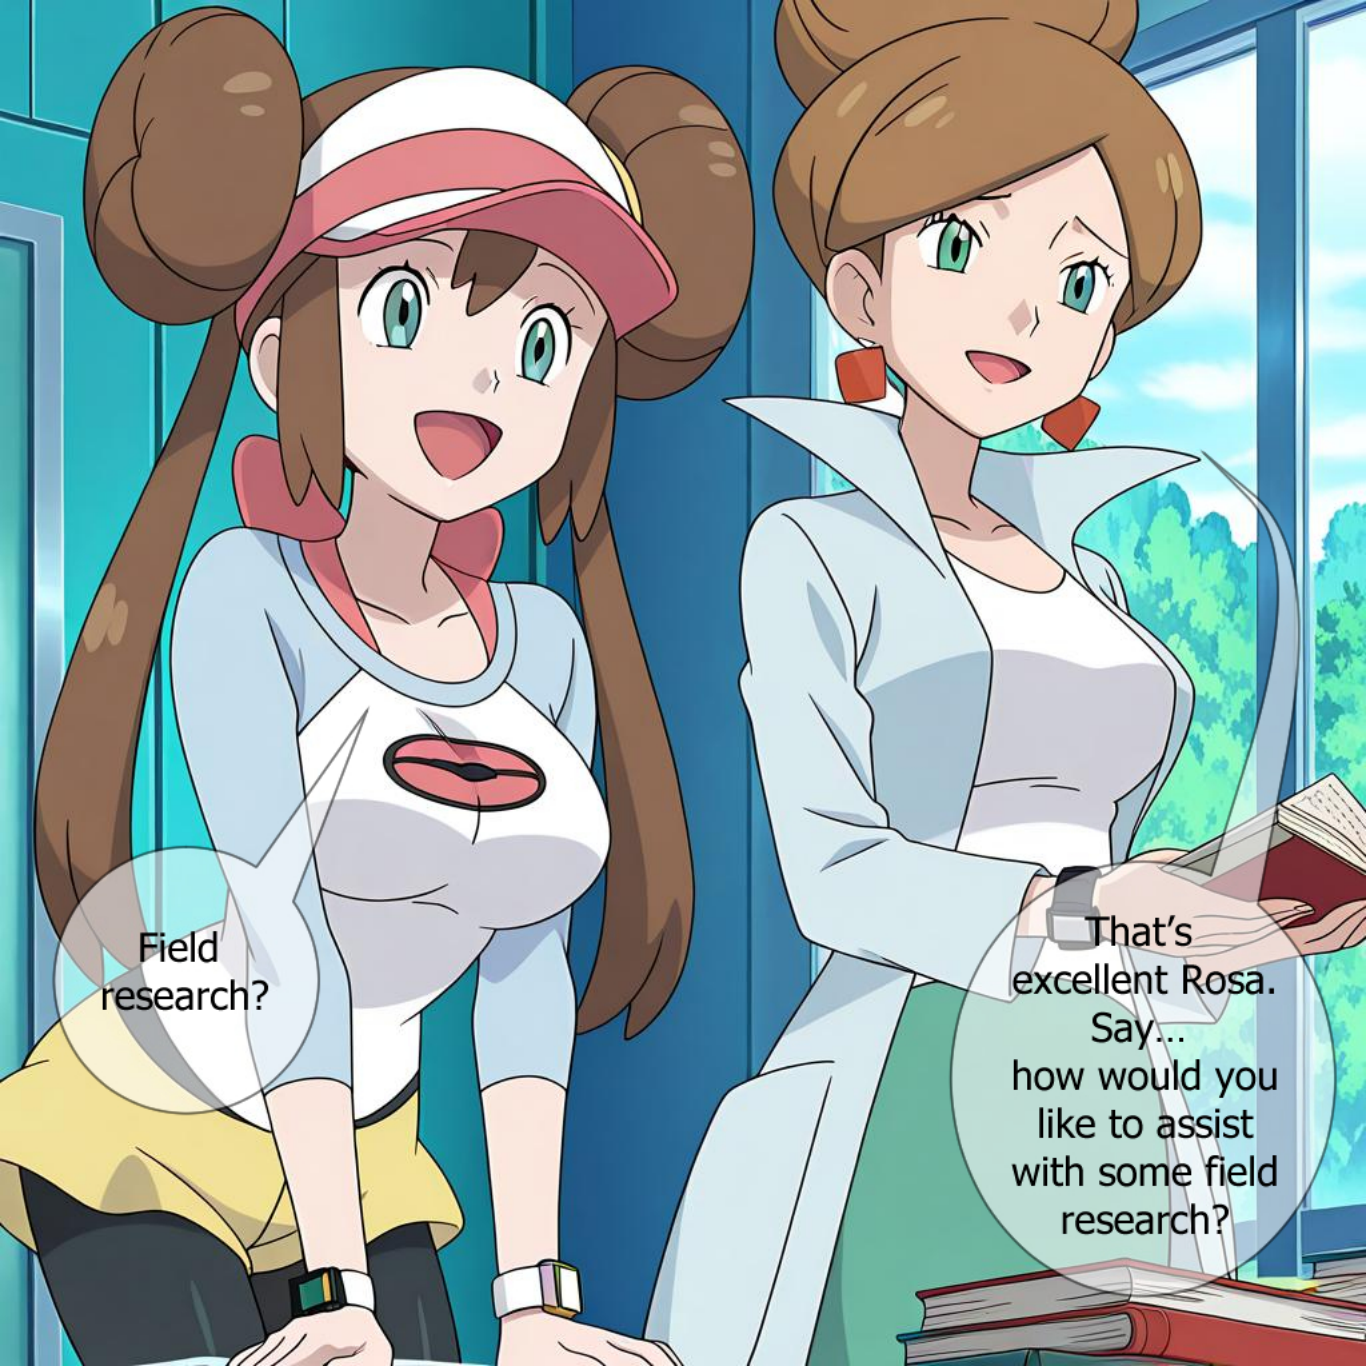

Why is it that Ghost-types remain such a mystery? This won't do at all

I know!
I remember
Skyla telling
me that she heard
a weird rumor
about an
abandoned building
that was
home to
ghost type
pokemon

Professor Juniper! Long time no see. What's up
Skyla, I need your help. I'm chasing leads on Ghost Pokémon. Have you heard of any active sightings

Oh,
you'll love this.
There's an
abandoned house
in the forest
past Mistralton.
People say
it's haunted
lights, whispers
shadows in
the windows.
Creepy stuff

Professor Juniper! Look I've made so much progress with my Pokédex entries!

Field research?
That's excellent Rosa. Say… how would you like to assist with some field research?

There's an abandoned house in the forest. I believe Ghost-types are active there. Skyla will meet us as well
Alright... I'll go

There you two are. Ready for a little adventure?

Alright follow me. The forest's this way

Are you guys keeping up?

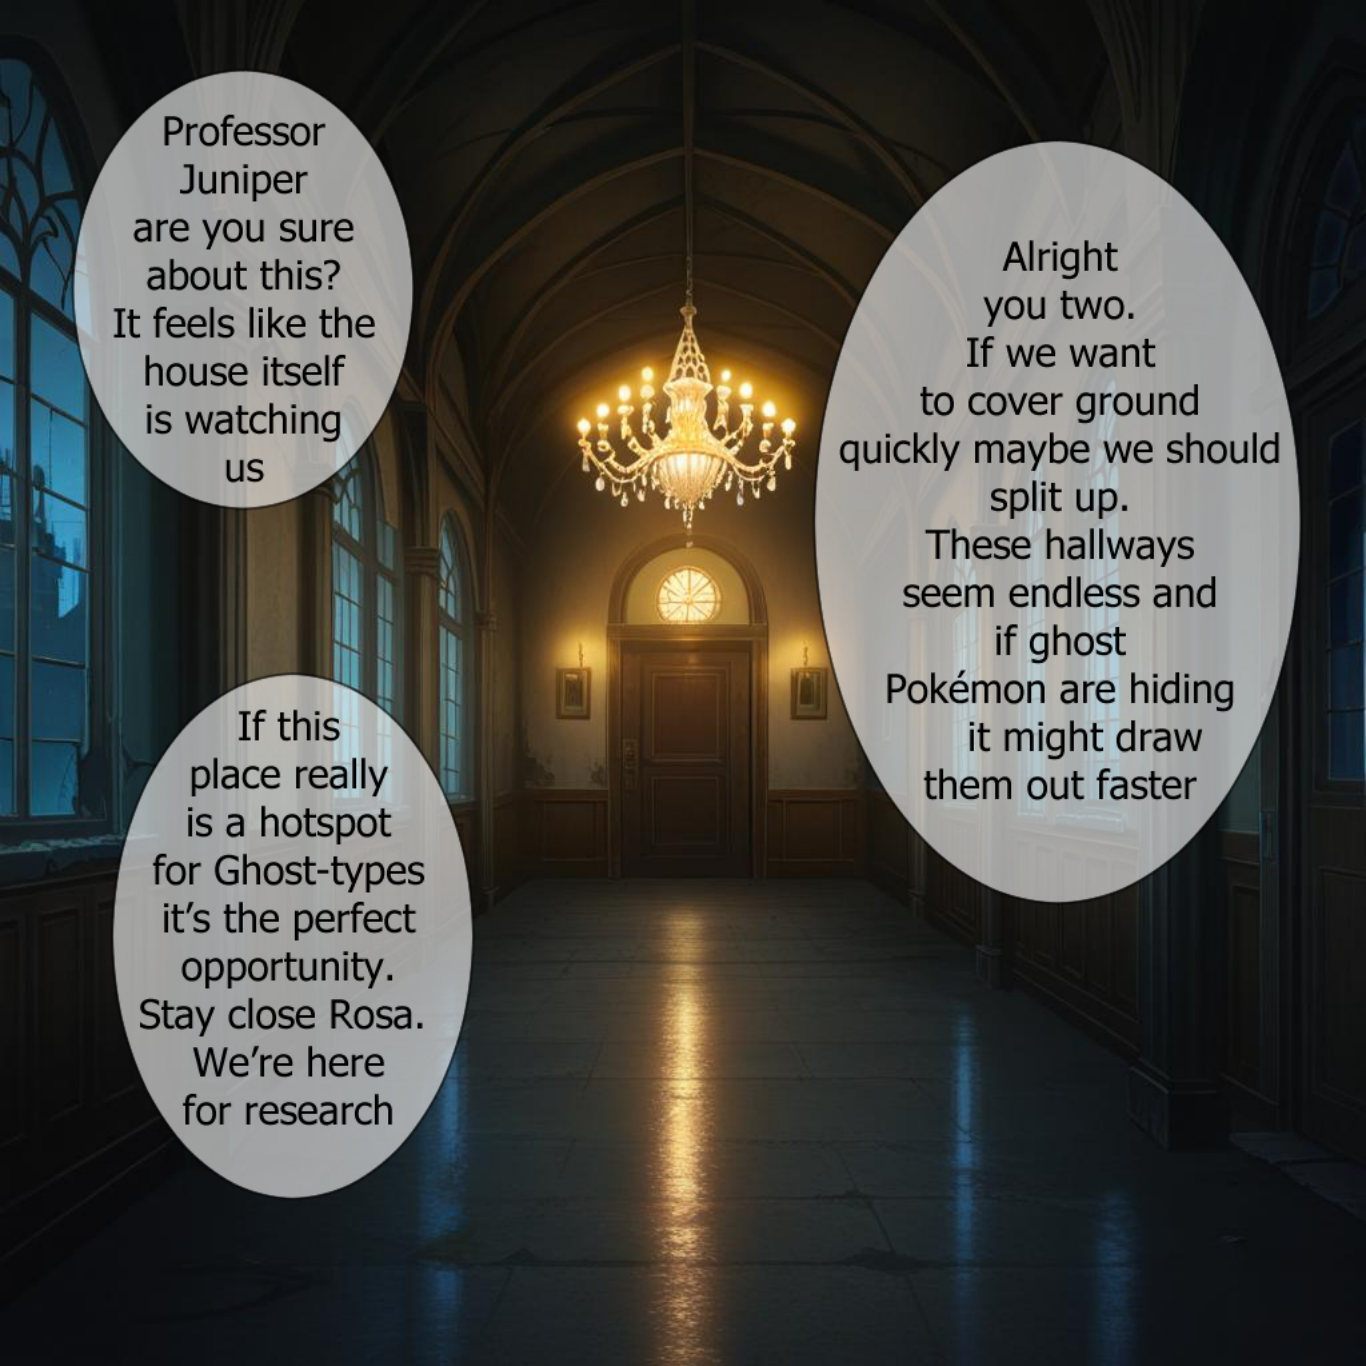

How much longer do we have Skyla?

We are almost there just a little bit more and we should reach the forrest and then the house is not far away

Perfect…
Just what
I was
hoping for.

A-are we really going inside that?
This place feels... wrong

What's the matter? Don't tell me you have cold feet after coming all the way here?

Professor Juniper are you sure about this? It feels like the house itself is watching us
If this place really is a hotspot for Ghost-types it's the perfect opportunity. Stay close Rosa. We're here for research
Alright you two. If we want to cover ground quickly maybe we should split up. These hallways seem endless and if ghost Pokémon are hiding it might draw them out faster

Unstable temperature… faint traces of spiritual energy…
No… it’s different. A presence?

I feel as though something is indeed watching my every move

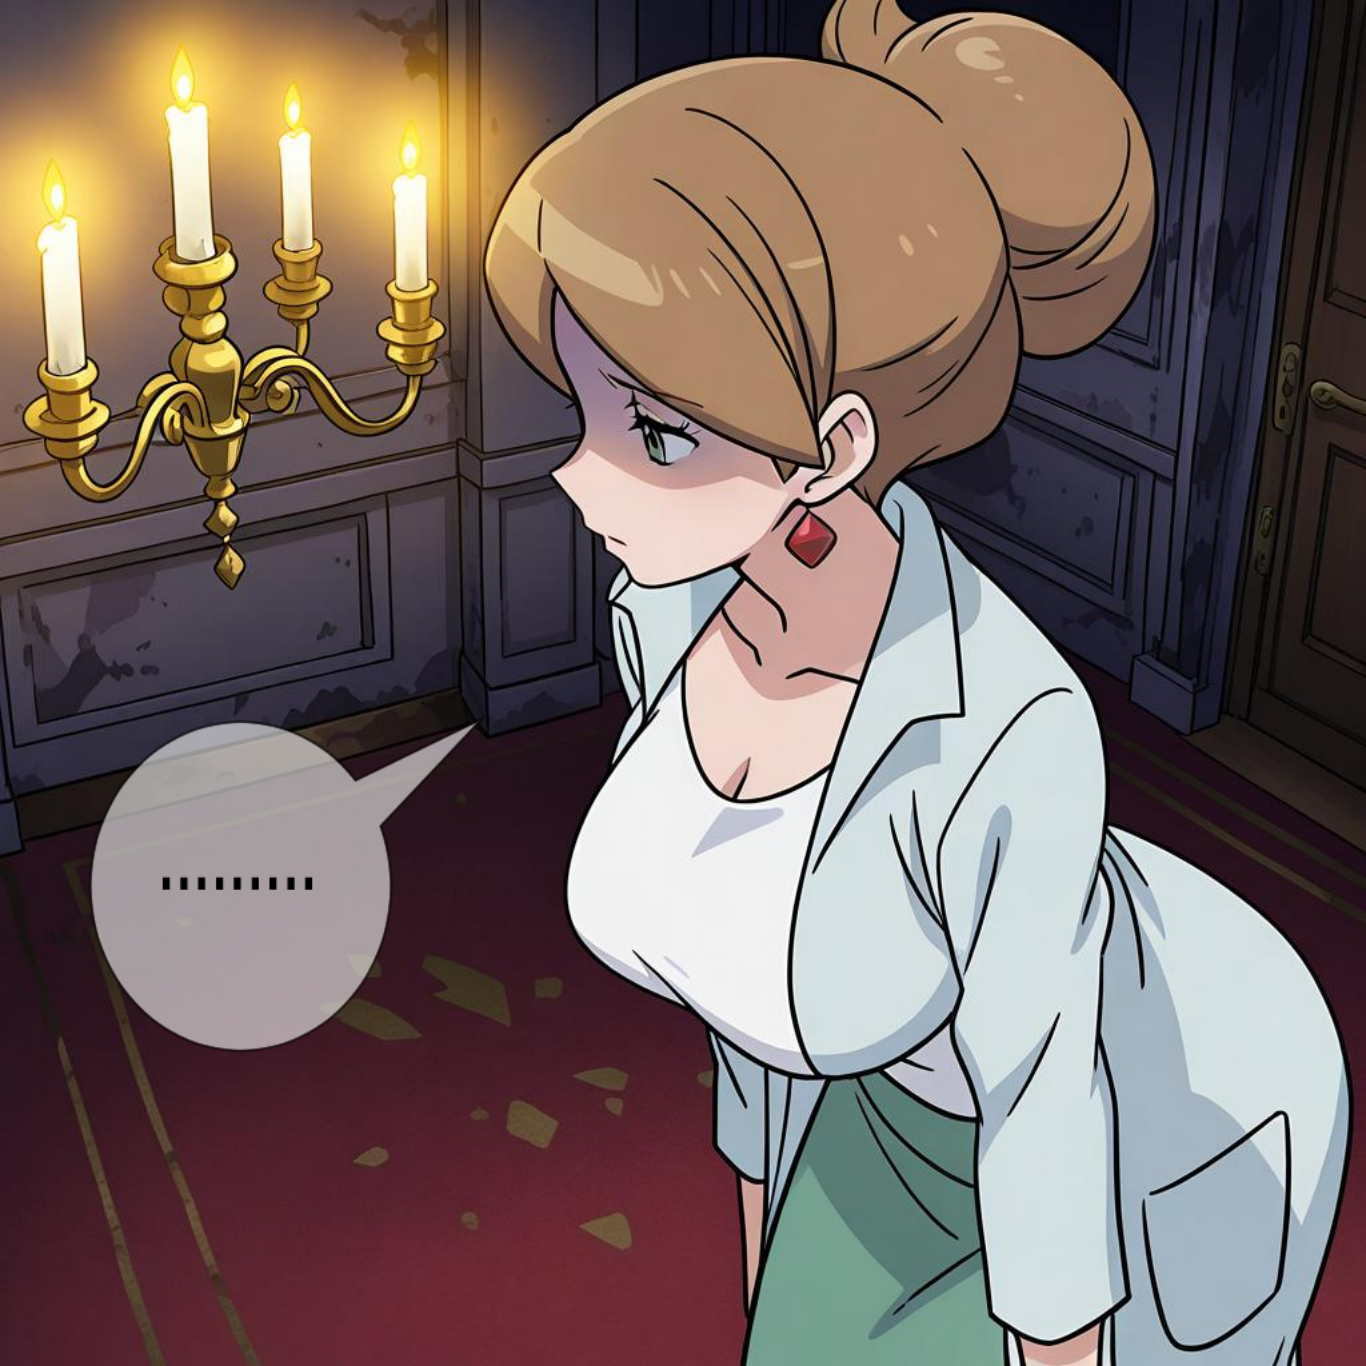

I need to calm down this is for my research

Calm down Juniper! This is your chance there is a ghost type right behind me if I can communicate with it I might be able to learn more about it's origin

W-what?!

Wait...
It feels like...
something's
inside me...

I feel...
Weak
I think...
I'm getting
possessed...
By that ghost
type
pokemon
I can't...
Stay awake
... I'm loosing
conciousness

Ahhh... now this feels nice. A nice warm human body to play around with

Mmm... now these are quite the prize

So soft...
so heavy...
this body is
perfect

And this...
Ass of hers...
Is even better

Heh...
I wonder if Gastly and Haunter have found some new bodies yet

It would be such a shame for me to be the only one enjoying myself

Huh…
a playroom?
Didn't expect
to find this
in a place
like this

Guess even haunted houses used to be homes... This isn't so bad. Yes it's creepy but I've seen worse

Yeah... nothing to worry about at all

Wh-what
the hell...?

"H-hey...! Something's... grabbing me
My... my breasts! t's playing with them!

N-no!
Get off me!

Damn it...
I can't
stop it

Please
stay back!

Please... Don't do what I think you're about to

I felt it
...it just went inside my body

Leave my body it's mine... It doesn't belong to you...

Ahh!

Now this body is all mine

I really hit the jackpot this body is incredible I've never seen a human female with breasts this big before

I can't wait to show Gengar and Gastly my new toy

Juniper?
Skyla?
Are you
guys... okay?

I hope both of them are doing okay somthing about this place seems malevolent

Rosa!
Thank heavens
you're okay

I'm also glad you're okay professor... But aren't your hands a bit... too low?
Ohh dear Rosa! I'm soo happy to see you

Stop this at once! There is no way you can be the real professor Juniper
Ohh... You've matured soo nicely Rosa

Whoever... or whatever you are leave the professor's body right now and let go of me this instant
I guess you're not as dumb as you look Rosa

I don't mind letting you go for now after all you can't escape this place anyway
Plus the moment one of my ghost friends gets their hands on your body it's all over for you

I need to get out of this place and get help

You got this Rosa! You have to save your friends

Huh?
..Why did the temperature suddenly drop?

I need to find a way out of here fast

Huh...?
It felt like something cold just entered my body!

I can't move my body!

Please don't tell me that cold feeling just now was a ghost entering my body

Arghh!
... Please
I need to save
... The others
you... Can't
do this!

A new fresh body to have fun with

Sorry girl but you are not saving anyone I promise I'll enjoy your body to the fullest

I'll say this fantastic body is wasted on a goody two shoes like you

I'll be sure to put this body to better use

Now to find my fellow ghosts and enjoy ourself with our new bodies

Ohh my! Seems like someone got quite the new form

I guess I just got lucky this time ... But that girl's body aint half bad either

Seems like the two of you have settled into your new forms very nicely I must say
