

Chapter IV "Point of no return" (Part 16)

...Both girls did a great job today. A pleasant fatigue spread over Anna's body, which had strengthened in recent months. Looking forward to a cool shower, she hurried to undress quickly... Accidentally, Anna's gaze rested on her friend's chest. She had never seen Linda naked before, although sometimes she paid attention to her round breasts, which which were so deliciously protruded from her sports bra... Linda noticed this gaze, and quickly realized that now is a great time for the offensive...

- Anna, as I watch, you like my little boobies?

Anna was a little taken aback: - Quite an unexpected question, I never thought about it...

- Well, I saw how you looked at them ...

- Yes Linda, they look great, you're lucky ...

- Lucky? what do you mean, honey?

- I wanted to say that nature and God rewarded you with a beautiful body...

- Ha ha, yes you're almost right, Dr. Listerman is really God!

- Sorry... Who?

- Dr. Listerman, a plastic surgeon, he has long been working with our club. He "rewarded" me 4 years ago. Till now as new. Ha-ha))...

Anna was even more confused...

Chapter IV
"Point of no return"
(Part 17)

- Do not be afraid, honey! Come and touch them! ...
- ...Awfully embarrassed, she walked over to Linda and gently laid her tiny palms on her friend's neat boobies...
- Well, what can you say? True masterwork?
- Oh, it's so unusual... Without noticing that, the young girl continued caressing Linda's breasts... Somewhere beneath her belly, Anna felt warm...
- I see you really liked it?
- ...Anna withdrew her hands, as if she'd touched the bare wire... and embarrassedly added:
- Yes Linda, they are really cool...

Chapter IV "Point of no return" (Part 18)

- Really? Ok, tomorrow I'll ask Michael to contact Listerman...

- What for?

- For you, honey, just for you!!! The doctor will make you candy. All the boys around you will fall!

- Linda, stop. This is too much! Don't you think? I understand about hair and manicure! But the boobs is too much! I think we went too far! And in general it's a big sin to interfere with the human body... When the silicone chicken was shown on TV, my mother always crossed herself... And how, after all this, will I look into her eyes?...

...For the first time, Linda saw how this fragile girl was angry...

- But, but... Anna, you promised to help me?

- Do not I help you? I appear at the university only a couple times a week!!!... but every day these dances and training! I forgot when I held the book the last time! And now there is a new story! Do you want to make me like a whore?!!!!...

...Linda started crying ... The old fox knew that tears would not leave tender-hearted Anna indifferent...

Chapter IV "Point of no return" (Part 19)

...Half the night, Anna tossed and turned in bed... For some reason it was stuffy, and young girl even took off the bra, left only in her night shorts. She did not want to sleep at all... Morning stupid conversation did not want to get out of her little head... Emotions subsided and now the girl was ashamed that she yelled at Linda. "And what came over me? What a shame !!! ... I must certainly apologize tomorrow!"...

...Anna switched on the light and went to the large mirror, which was weighed in the corner of her small room. Her tiny breast in reflection was looking very sad, compared to what she saw today in the locker room...

"I'm so ugly along with Linda! Even I do not know why she needs such a goner in the nightclub...No, after all, I must apologize to Linda, a poor, poor woman, she is so kind to me... Let it be as she wants! And my mother may not even notice, I'm not stupid, I'll figure something out how to hide everything..."

...Anna tenderly touched her nipples and again felt the warmth at the bottom of her stomach. A familiar sens... She once again remembered Linda's classy breasts, this velvet skin... somewhere between her legs began to boil...

Chapter IV

"Point of no return"

(Part 20)

...Silly Anna tried to put out the fire, touching her virgin pussy with her tiny manicured fingers... But as we know, the wind can extinguish a weak fire, but a strong flame will flare up even more...

- What kind of obsession is this???!!!!...

...She seemed to be doing something completely bad, but she could not stop... Suddenly, like a powerful charge of electricity hit her body, penetrating deeper and deeper, climbing into the most secluded corners, clouding her mind... Anna moaned sweetly... Yes, it was the first orgasm in her life... She was almost 21 years old...

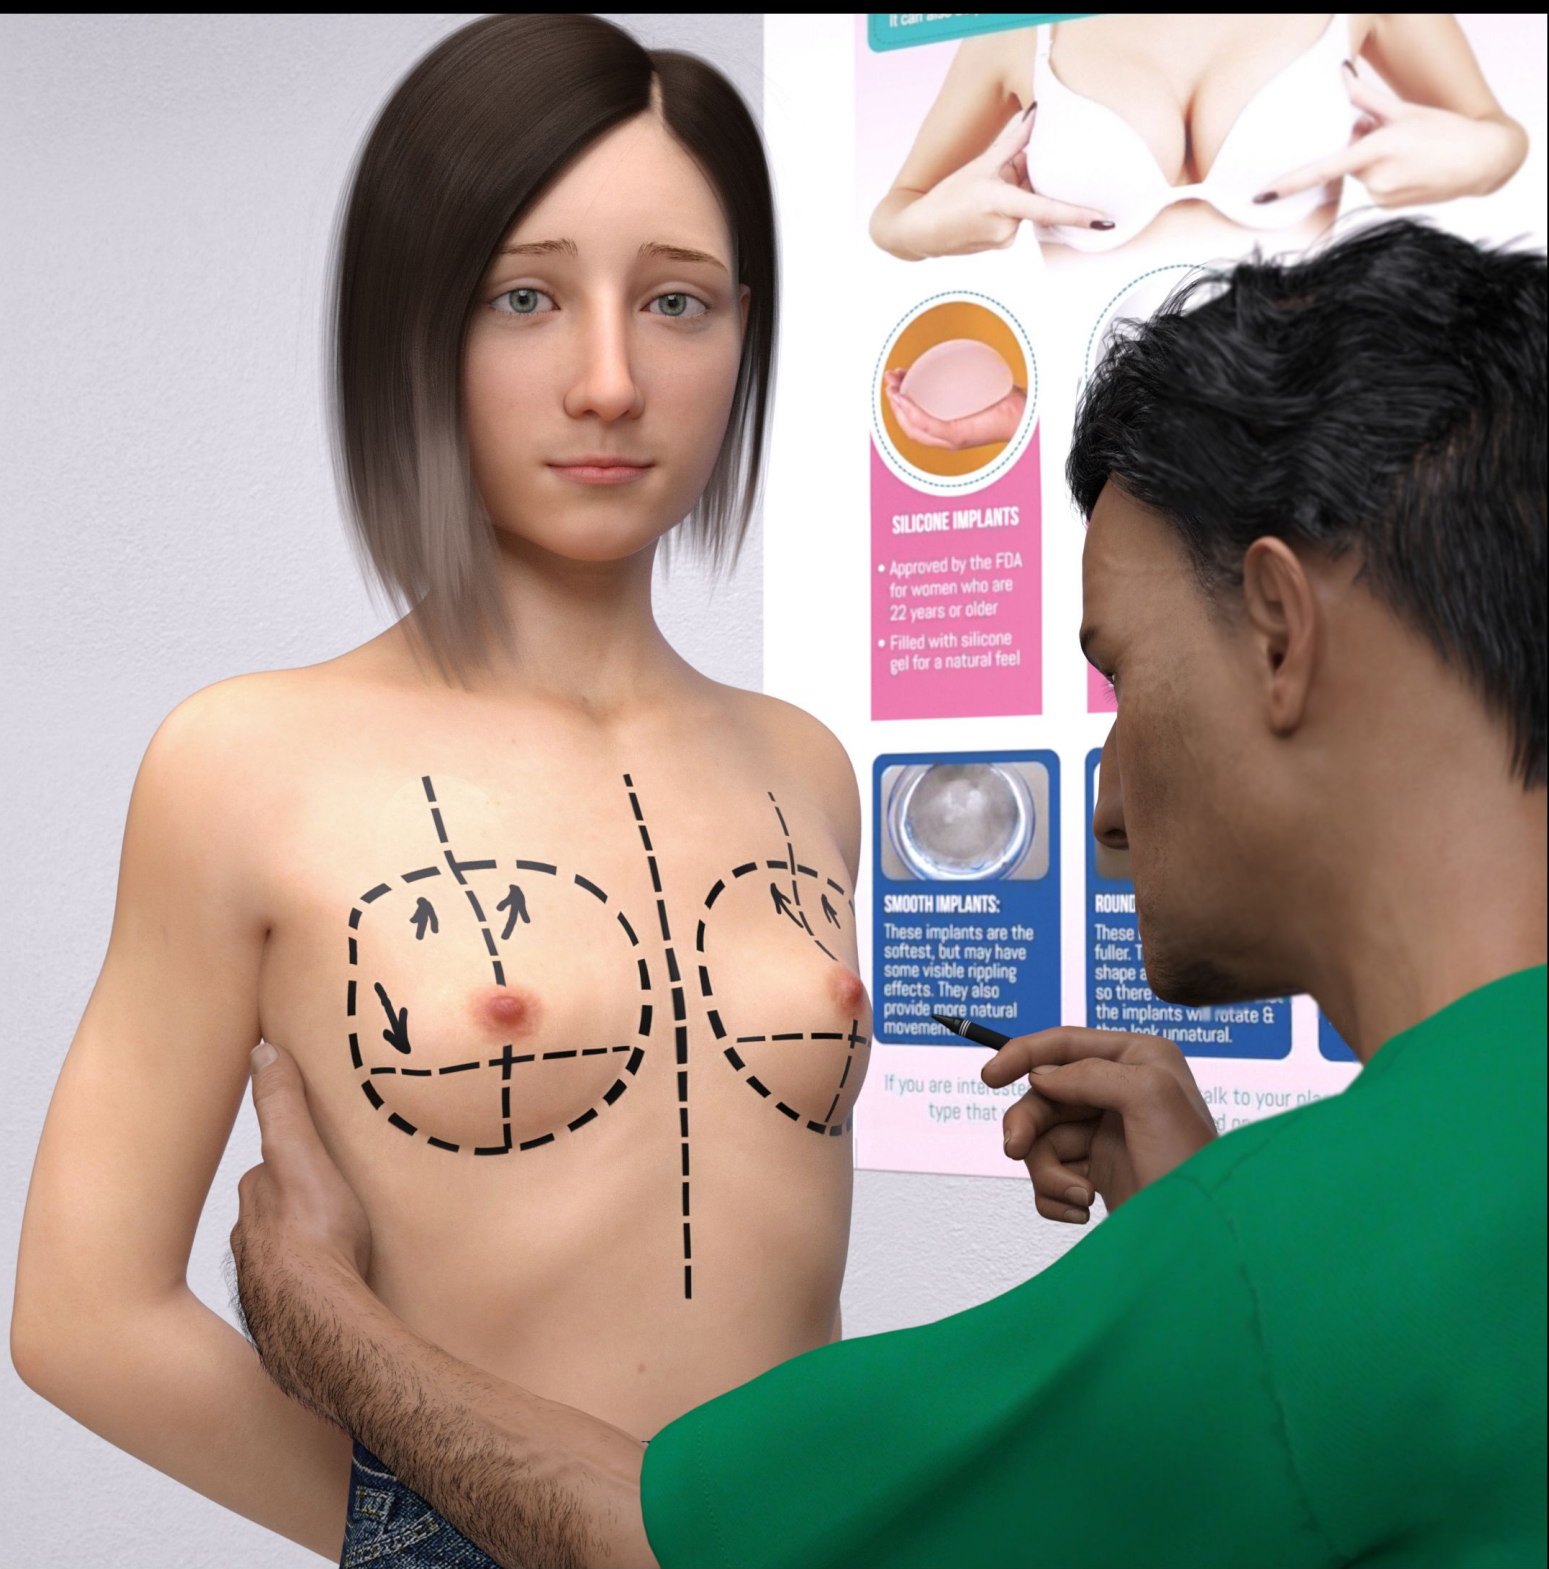

Chapter IV "Point of no return" (Part 21)

...Anna was again ashamed, she thought she was flying into the abyss, in which the gates of hell opened and draw in her innocent soul... But the sweet aftertaste of a previously unknown feeling did not give her shame completely fill her mind... Breathing hard, Anna lay down for a couple of minutes and fell asleep. Neither the stuffiness nor the switched on light disturbed her any more. She slept like a little angel, but at the same time she unclenched her legs, like an old experienced whore...

.. Like a tree sprouted from a seed between the boards of an old fence, and because of this growing not upwards but somewhere in the side, Anna's sexuality could not develop normally in conditions of a poor provincial town and puritan education of her pious mother... Now her body, filling with the right hormones, quickly made up for lost time... and this unexpected orgasm was just the first swallow...

GO GO, Anna!!! Don't stop!

Chapter V "Initiation" (Part 1)

...In the office of Dr. Listerman, despite the spring coolness outside the window, the air conditioner was working at full power... The unhappy Anna was shivering, but not so much from the coolness as from the excitement... At school she often had to undergo a medical examination, but it was so long ago! Anna-child was absolutely fearless, she was never afraid of any doctors and even injections, although all the doctors in the town were friends of her mother... There's been so much water under the bridge... Today it was an unfamiliar office, an unfamiliar man. She stood naked in front of him...

...Dr. Listerman, despite his affability, for some reason scared our little girl... His strong hairy hands touched her teenage figure, with professional movements drew on the chest some lines... He was talking something about new trends in plastic surgery, about the types of implants and something else like that. Linda, who was sitting next to Dr., was clearly interested in this chatter. But Anna did not listen to him at all...

...She was locked up inside her little world, generated by thousands of read pages... She remembered the poor little Fantin from the Les Miserables... "Yes, this fallen girl also sacrificed her body for the sake of saving a loved one...", - Anna still felt that everything that was happening with her had some noble purpose...

Chapter V "Initiation" (Part 2)

...Doc. explained that at the first surgery it willn't be possible to place implants of large size. He does not want to jeopardize a patient's health, especially such a fragile girl. Maximum that he can do is B-C cup, not more...

- Of course, of course Mr. Listerman, we fully trust you, - Linda nodded and looked at the Doctor with undisguised admiration, she was very fond of professionals, no matter what they were doing, whether plastic surgery or car repair...

- Doctor, and these implants are different from those that you put me, my were smooth...

- Yes, textured implants are now used much more often, they get better in the body, but at the same time they are not so pleasant to the touch. But for me the patient's health is a priority!... By the way girls you still have not decided on the form. Round visually make the breasts noticeably larger, but they do not look as natural as teardrop-shaped...

- Anna, honey, what do you say? Which ones do you want?...

...Linda's question pulled the girl out of the half-asleep... - Linda, I, I do not even know, I think you better understand this, decide for yourself, you know in these questions I'm complete zero...

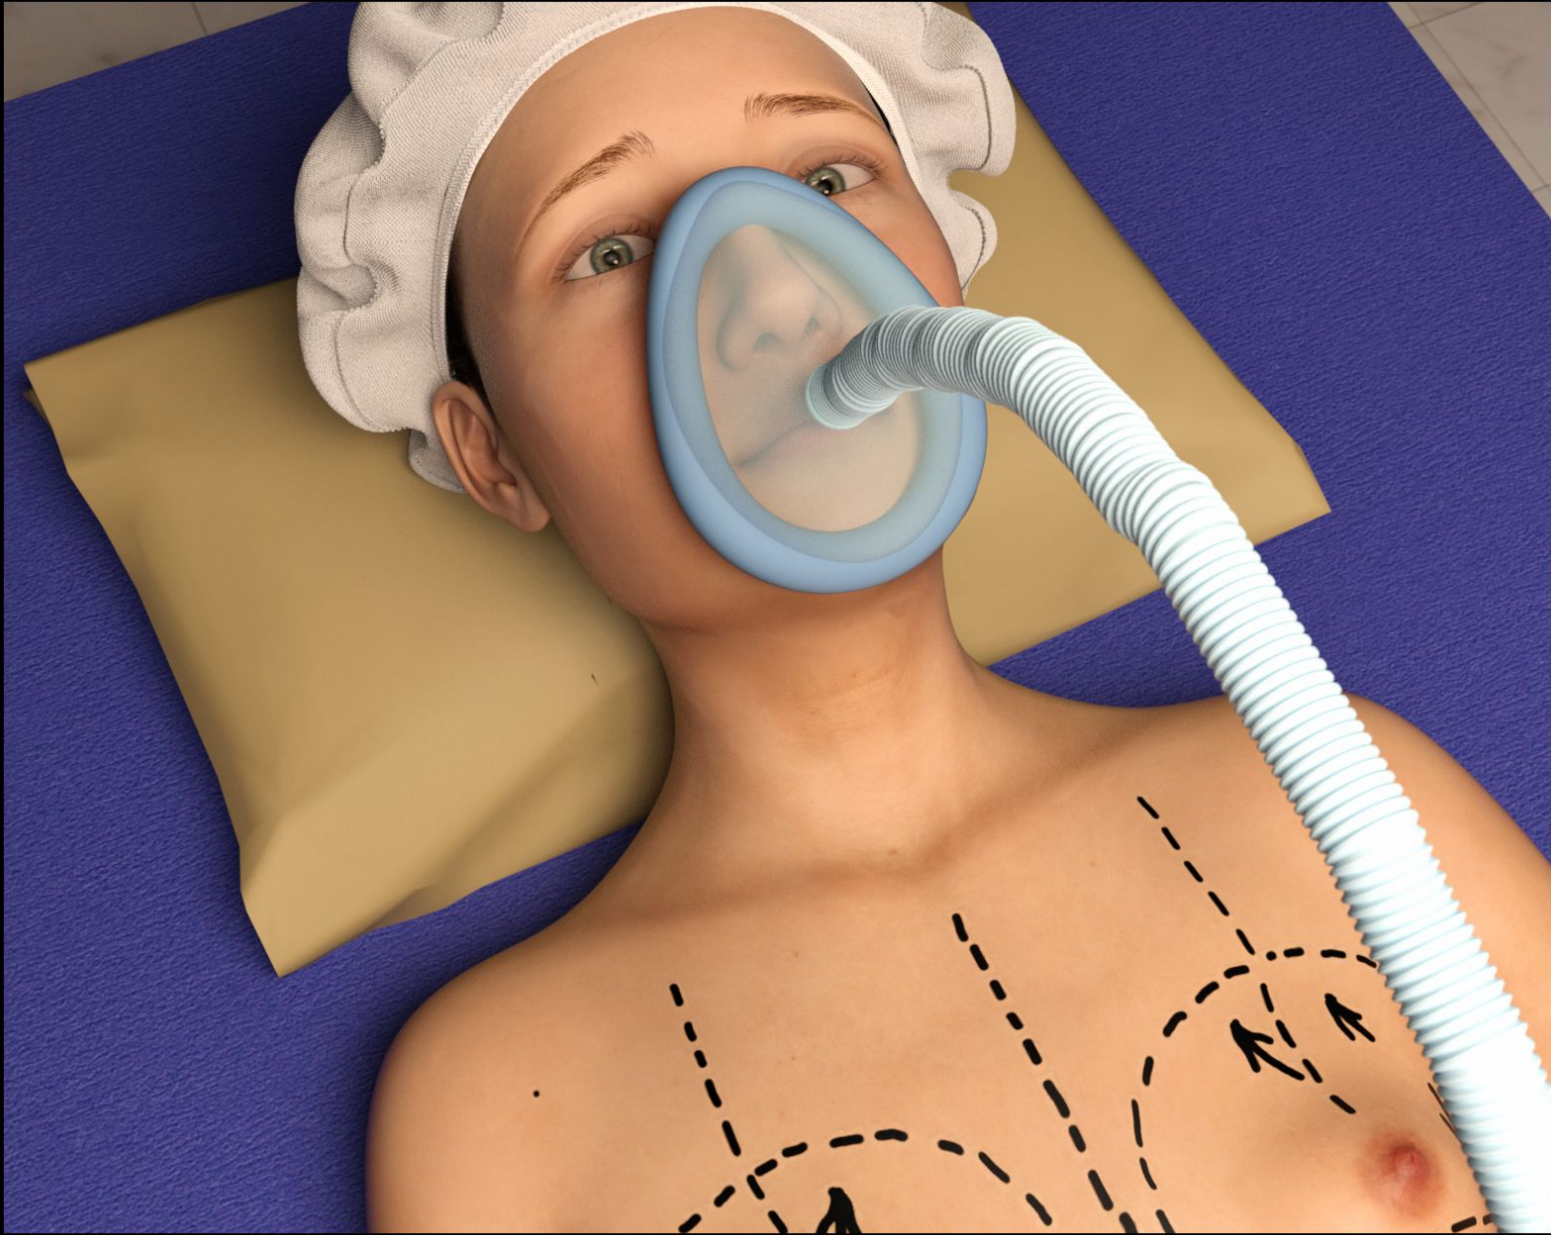

Chapter V "Initiation" (Part 3)

- Girls, personally, I advise you to stop on the round ones. Even at small sizes they will give the most noticeable effect...

...Linda nodded willingly: "Anna, I believe, that the doctor is absolutely right ... let's see how it will look on you..." ...Linda gently applied the implants to her little friend's chest... Anna shuddered a little from the touch of cool material to her nipples, but the sensations were rather pleasant. Unexpectedly for herself she liked it.

- Yes Linda, in fact it would be nice, well, at least they look neat and touch pretty cool... Especially if the doctor advises, let's choose these round...

Chapter V "Initiation" (Part 4)

..The realization that all this is happening with her, and not it's not an evil dream, a joke or just a funny game, came to Anna only on the operating table... Reality fell upon the girl with a powerful snow avalanche, causing panic. Yes, our strong, noble Anna was frightened: "Oh my God what I got involved in!!!" ... She wanted to run, run home to her mom, to bury her face in soft mother's cheek, hide forever from this accursed city ... "Mom, Mommy..." ..Anna wanted to move, but the narcotic gas was already penetrating deeper and deeper into the lungs... body no longer belonged to Anna... another breath... and then there was only darkness...

Chapter V "Initiation" (Part 5)

...The lids that weighed a few pounds did not let Anna go back to this world of living light, and it was unbearable... Attaching a mad effort our girl managed to open her eyes with great difficulty... Linda was sitting next to her, yes! her friend did not leave her alone... Even a slight movement of the fingers caused a feeling of sickness. In the area of the breast, two hot coals were pushed under the skin... Anna was dying, well, at least it seemed so to herself... Yes, she wanted to die as soon as possible, so as not to suffer anymore... Until today, our girl did not even suspect what anesthesia is...

- My sweet, I know this feeling, drink these pills and you will soon be much better, - Linda's voice seemed to come from a distant corridor, despite the fact that she sat a few inches from the bed... Anna did not have enough strength to answer... the hospital room was turning into carousel... As soon as she swallowed the tablets, she fell into complete unconsciousness again...

Chapter V "Initiation" (Part 6)

...In less than a week, Anna was already galloping about her room like a 5-year-old boy, whom his father promised to take fishing... Yes, she looked not quite healthy, but the energy in her young body would be enough for five adult men... Lying in bed without any deal was a torture. It would seem that you can read books, eat fruits and enjoy life, but no! She wanted to get back to physical exertion quickly, she wanted to stretch, jump, dance... she even missed her hated heels...

...Compression underwear had already been removed, and she wanted to know as soon as possible what the "wizard doctor" had done to her...

Chapter V

"Initiation"

(Part 7)

...And although she was very much skeptical about this Linda's entire, Anna really liked the result... Touching her new balls has caused pain so far, but it was already quite tolerable... "Damn it ! this is really cool. Linda was right! Now, now I look more like a woman and not a bone teenager!... And my mother does not notice anything clearly under the jacket! In vain, I was worried because of this!... But now I can to tease and anger these cockered sluts at the university..." The last thought a little embarrassed Anna: "Why did she suddenly remember them? Some kind of pettiness on her part ... They are just silly little fools. Yes, yes just fools. But I'm not silly. I'm a smart busty bitch", - Anna foolishly giggled. And again she was frightened of her thoughts ...

Chapter V "Initiation" (Part 8)

... In the morning, Anna, after an old habit, walked with a wet rag over all the rooms and did not find Linda in the apartment... "Well! While I'm alone, I can practice a little on the "fire pole... He-he... "Fire pole" - I was such silly.." ...This "little" has turned into 2 hours... Anna did not even notice how the hostess returned...

- Linda look at me! Wohoo!!!

- Baby, stop! Why did you get out of bed?

- But, Linda! I'm so tired to be unused. I already feel myself like a helpless little shit!

- Wait, Anna! The doctor recommended that you shouldn't work out until the stitches are healed.

- You are such a bore, "mistress mentor"... I feel even better than before the surgery, a couple more training sessions, and you yourself will take lessons from me!

- I'm so glad to see you in a good mood, honey. I like such a playful Anna. But, please, let's have a rest, today is enough. By the way, An, I ordered sushi for dinner.

- Hoorah!!! sushi! Thank you! Thank you! Thank you! You can't even imagine how I want to eat!...

Chapter V "Initiation" (Part 9)

...It was about 6 pm, and the "Go Go" night club was still closed to visitors... Yes it may seem a little strange, but for those few months, which Anna has spent together with Linda, she had never been here... She barely imagined how this all looks alive... In fact, Linda was not in a hurry to bring our bookworm in the club, fearing that this little fish can at any moment jump off the hook: it's one thing for training and rehearsals, but a real scene can scare this puritan. Yes, she has a lot of enthusiasm, but still does not understand where she got herself into. The atmosphere here was "a little different" from the university's intillegent gatherings: drunken perverts, noise, music, smoke, alcohol... How will Anna behave? ...But it seems that she liked this place... Anna with genuine interest watched the interior of the club. Infinite sequins, soffits, carpets, mini scenes, poles, poles, poles... All this was so unusual, so exciting, so different from what she used to see in her boring gray life...
