

Hacked

The universe is hackable, and so is your body!

By TgedNathan

This fella right here, is my best friend Matt, he is what you can call a 'Genius'. He scores the best of the best and invents the craziest stuff!

**Matt, 25 years
Likes: pizza**

Hey!

Once at a party, he heard of a popular stupid theory that reality was just a simulation. Normal people would be intrigued, but Matt went ofcourse further and spend god how long on a device to prove this theory but also to hack it!

Pretty weird right?

yeah...

**AARGH!
COME ON!
YOU STUPID BUG!**

When he finally had crack it, he wanted to show me and ask if I belive him now. I ofcourse said:

chuckle

He then made an smile on his face and said:

The moment he pressed the button, my hand begin to feel small shocks, when I looked at it I saw small blocks and pixels forming at my hand.

I thought that was the end of it but then...

Huh... what is...

My whole body felt huge electric shocks. It did so much hurt, like every part of my body was being ripped apart and replaced by something else.

Is that...

I noticed that Matt didn't took his laptop that he used to change my body.

EW...

That creepy nerd has a thing for blondes.

However I couldn't understand the code he was using. I saw weird variables like 'oldconsciousness' and others...

But then I saw that Matt also put himself in the function that gave me a pussy.

Aha!

I thought of giving Matt a taste of his own medicine!

Alright... erm.... Consciousness is that... cupsize is 35F?! Great... Let's see...
