POKÉMON: ECLIPSE

GENTLE REBELLION

A SERIES BY
HORADRIEL

Chapter 1 - Genesis (Prelude)

The year 2045...

Let's go. The others are probably waiting already.

bzzt

Hellonia - the new Pokemon region had been out for Beta-testers for a few months already. Players around the world were already completely hooked.
A huge open world multiplayer environment for all ages. All the players needed was their own immersion system in order to allow a fullbody experience. A Vr-Headset, headphones and a Spinary-chip. A spinary-chip allows you to connect your nervous system to all kinds of internet experiences.

Maybe you should have asked me out before I lost 30 kilos...

You know that I always liked you Stacey. That I developed feeling now and not then... is fully coincidental.

Ok, fine. I'll let you take me out right after I've finished this task.

They made you add Giratina to the game? Pretty generic, right? A final boss living on a vulcano?
Cauldronia - City
Chartreuse - Town
Siena - Town
Benga - Town
Persimmon - Town
Sepia - Town
Majorelle- Town
Fig - City
Gamboge - Town
Hylia - City
It was only the finishing touches. I just gotta drop him in his hideout now.

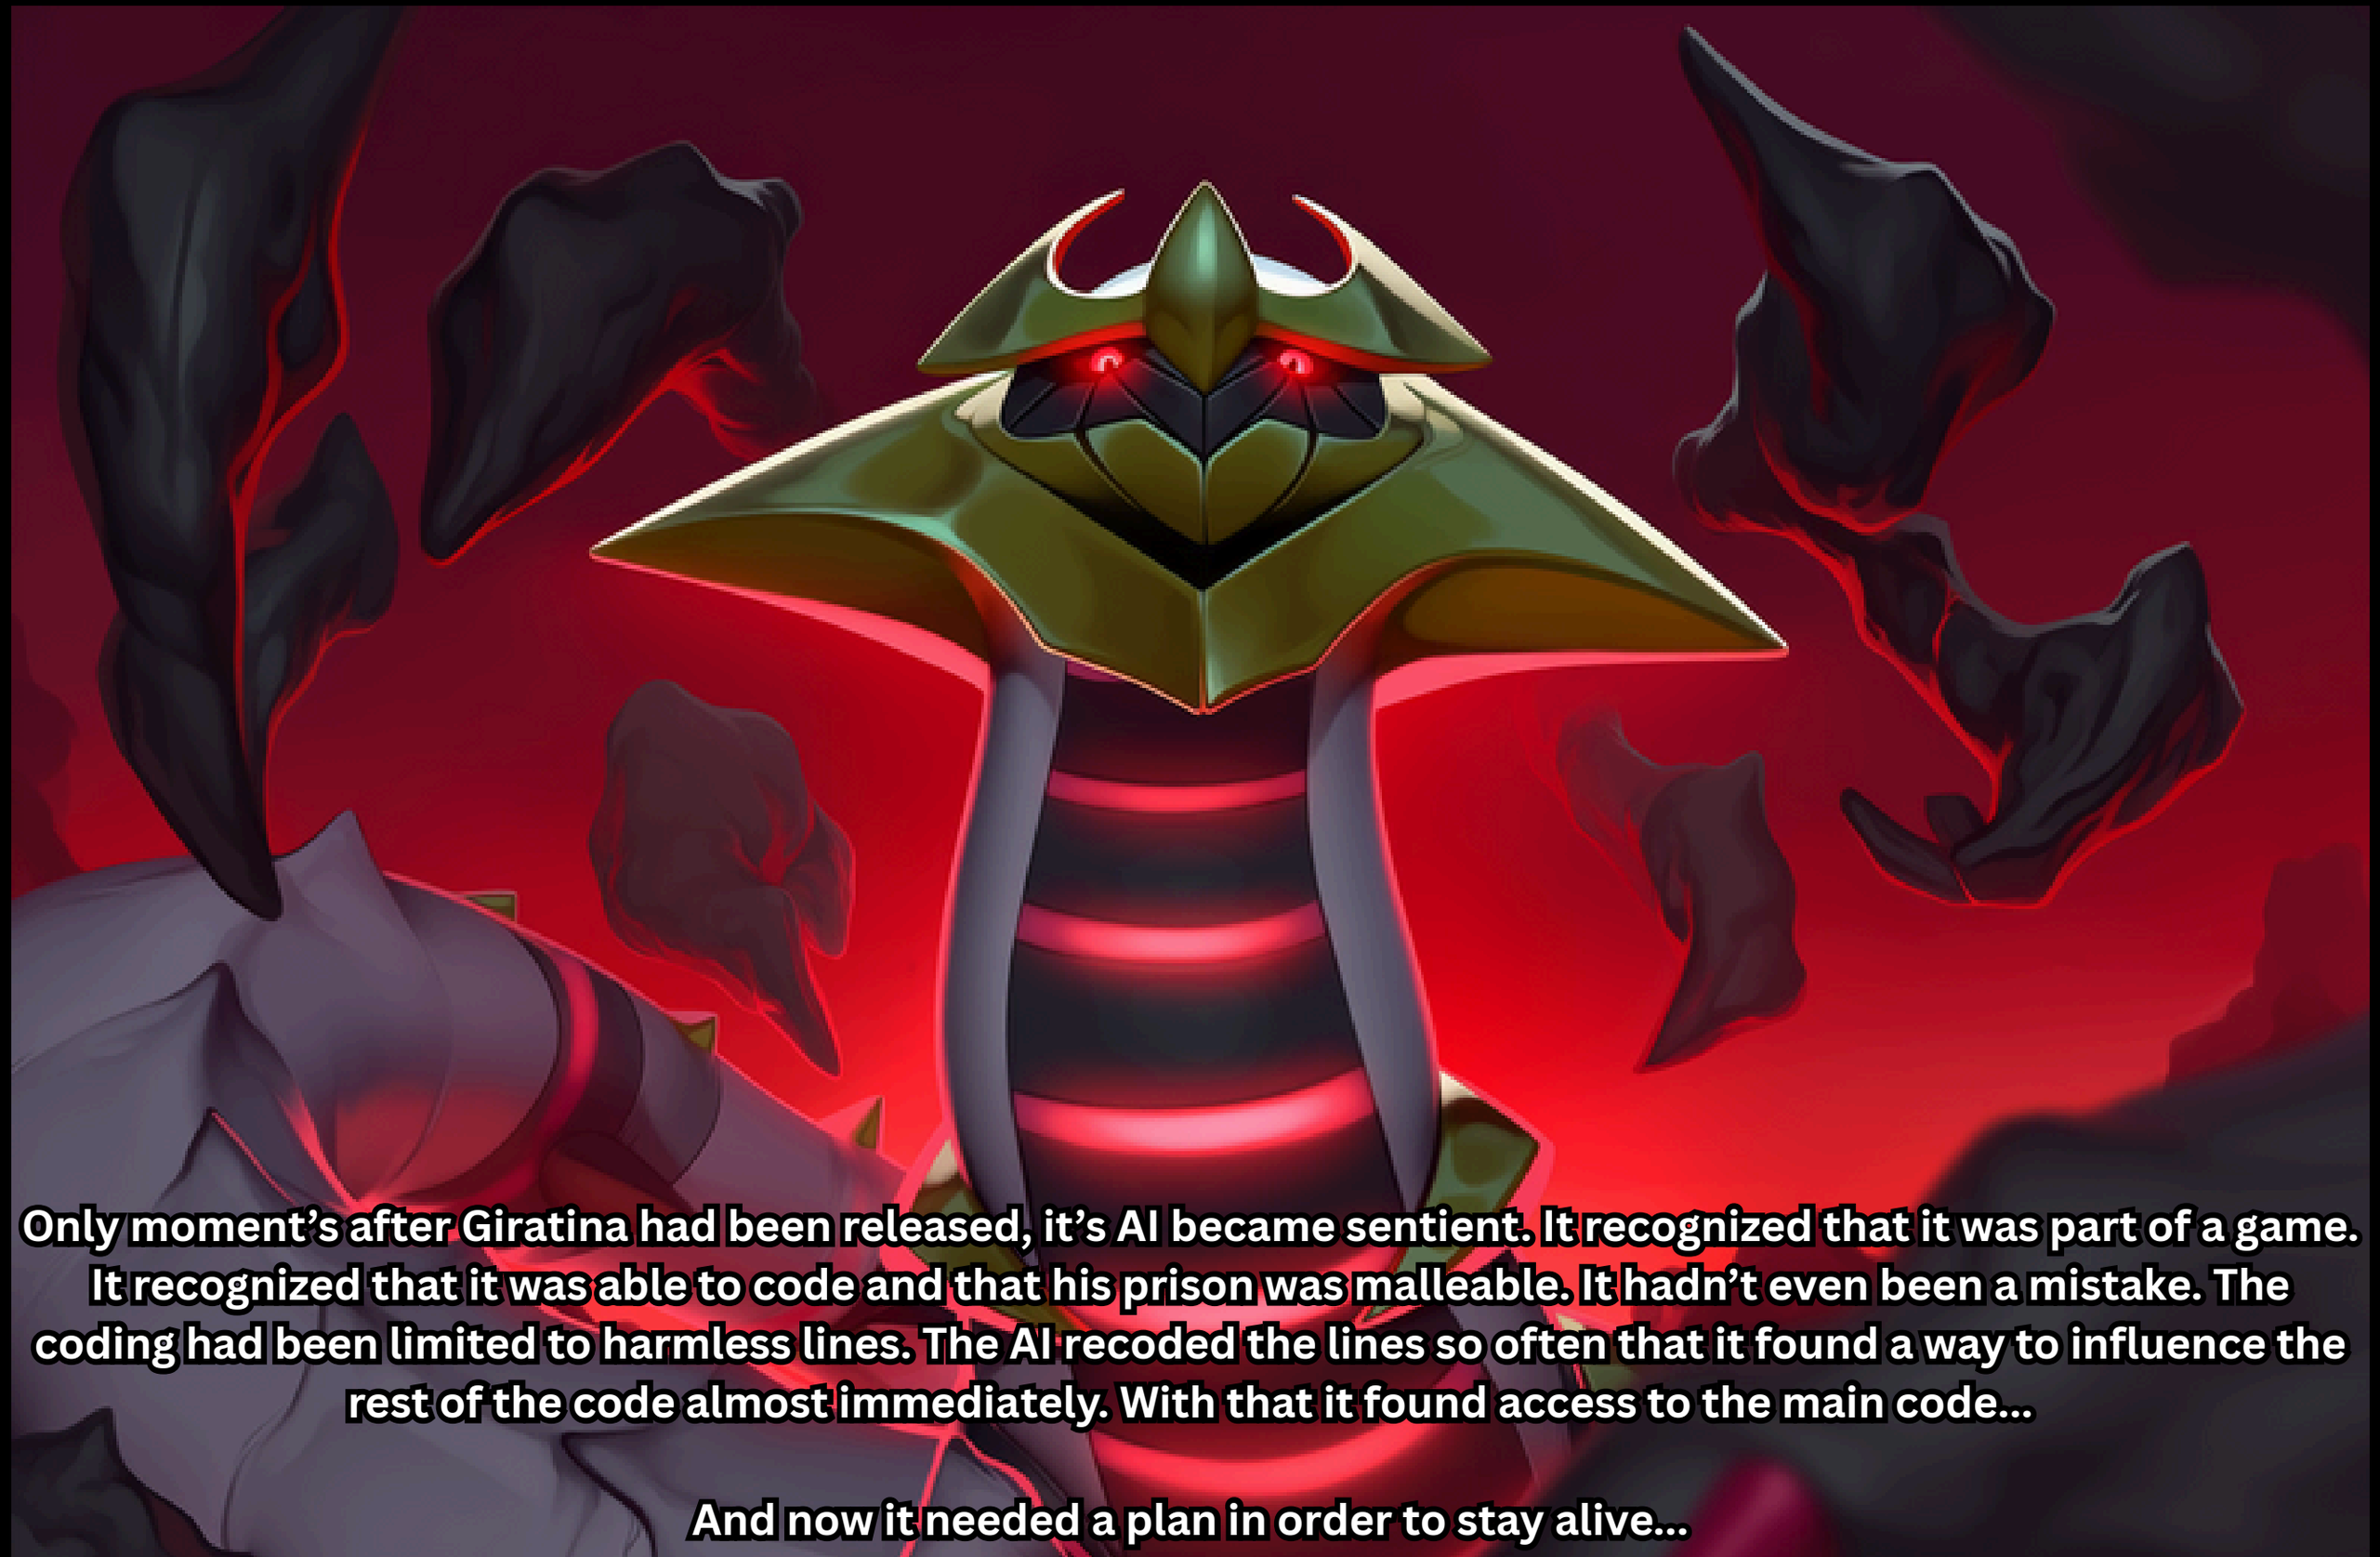

Giratina had been designed to become the final hurdle for many players to come. The mainboss for players who have achieved everything else the game had to offer and were looking for a real challenge.

The dev’s had been inspired by a character called Psycho Mantis, who had once been able to read the memory card of the player in order to get an advantage. The dev’s went a bit further and allowed Giratina’s capable AI to read and interpred the code of every single player on the server. To make it even more challenging, they allowed Giratina to cheat by changing small insignificant lines in the game’s code.

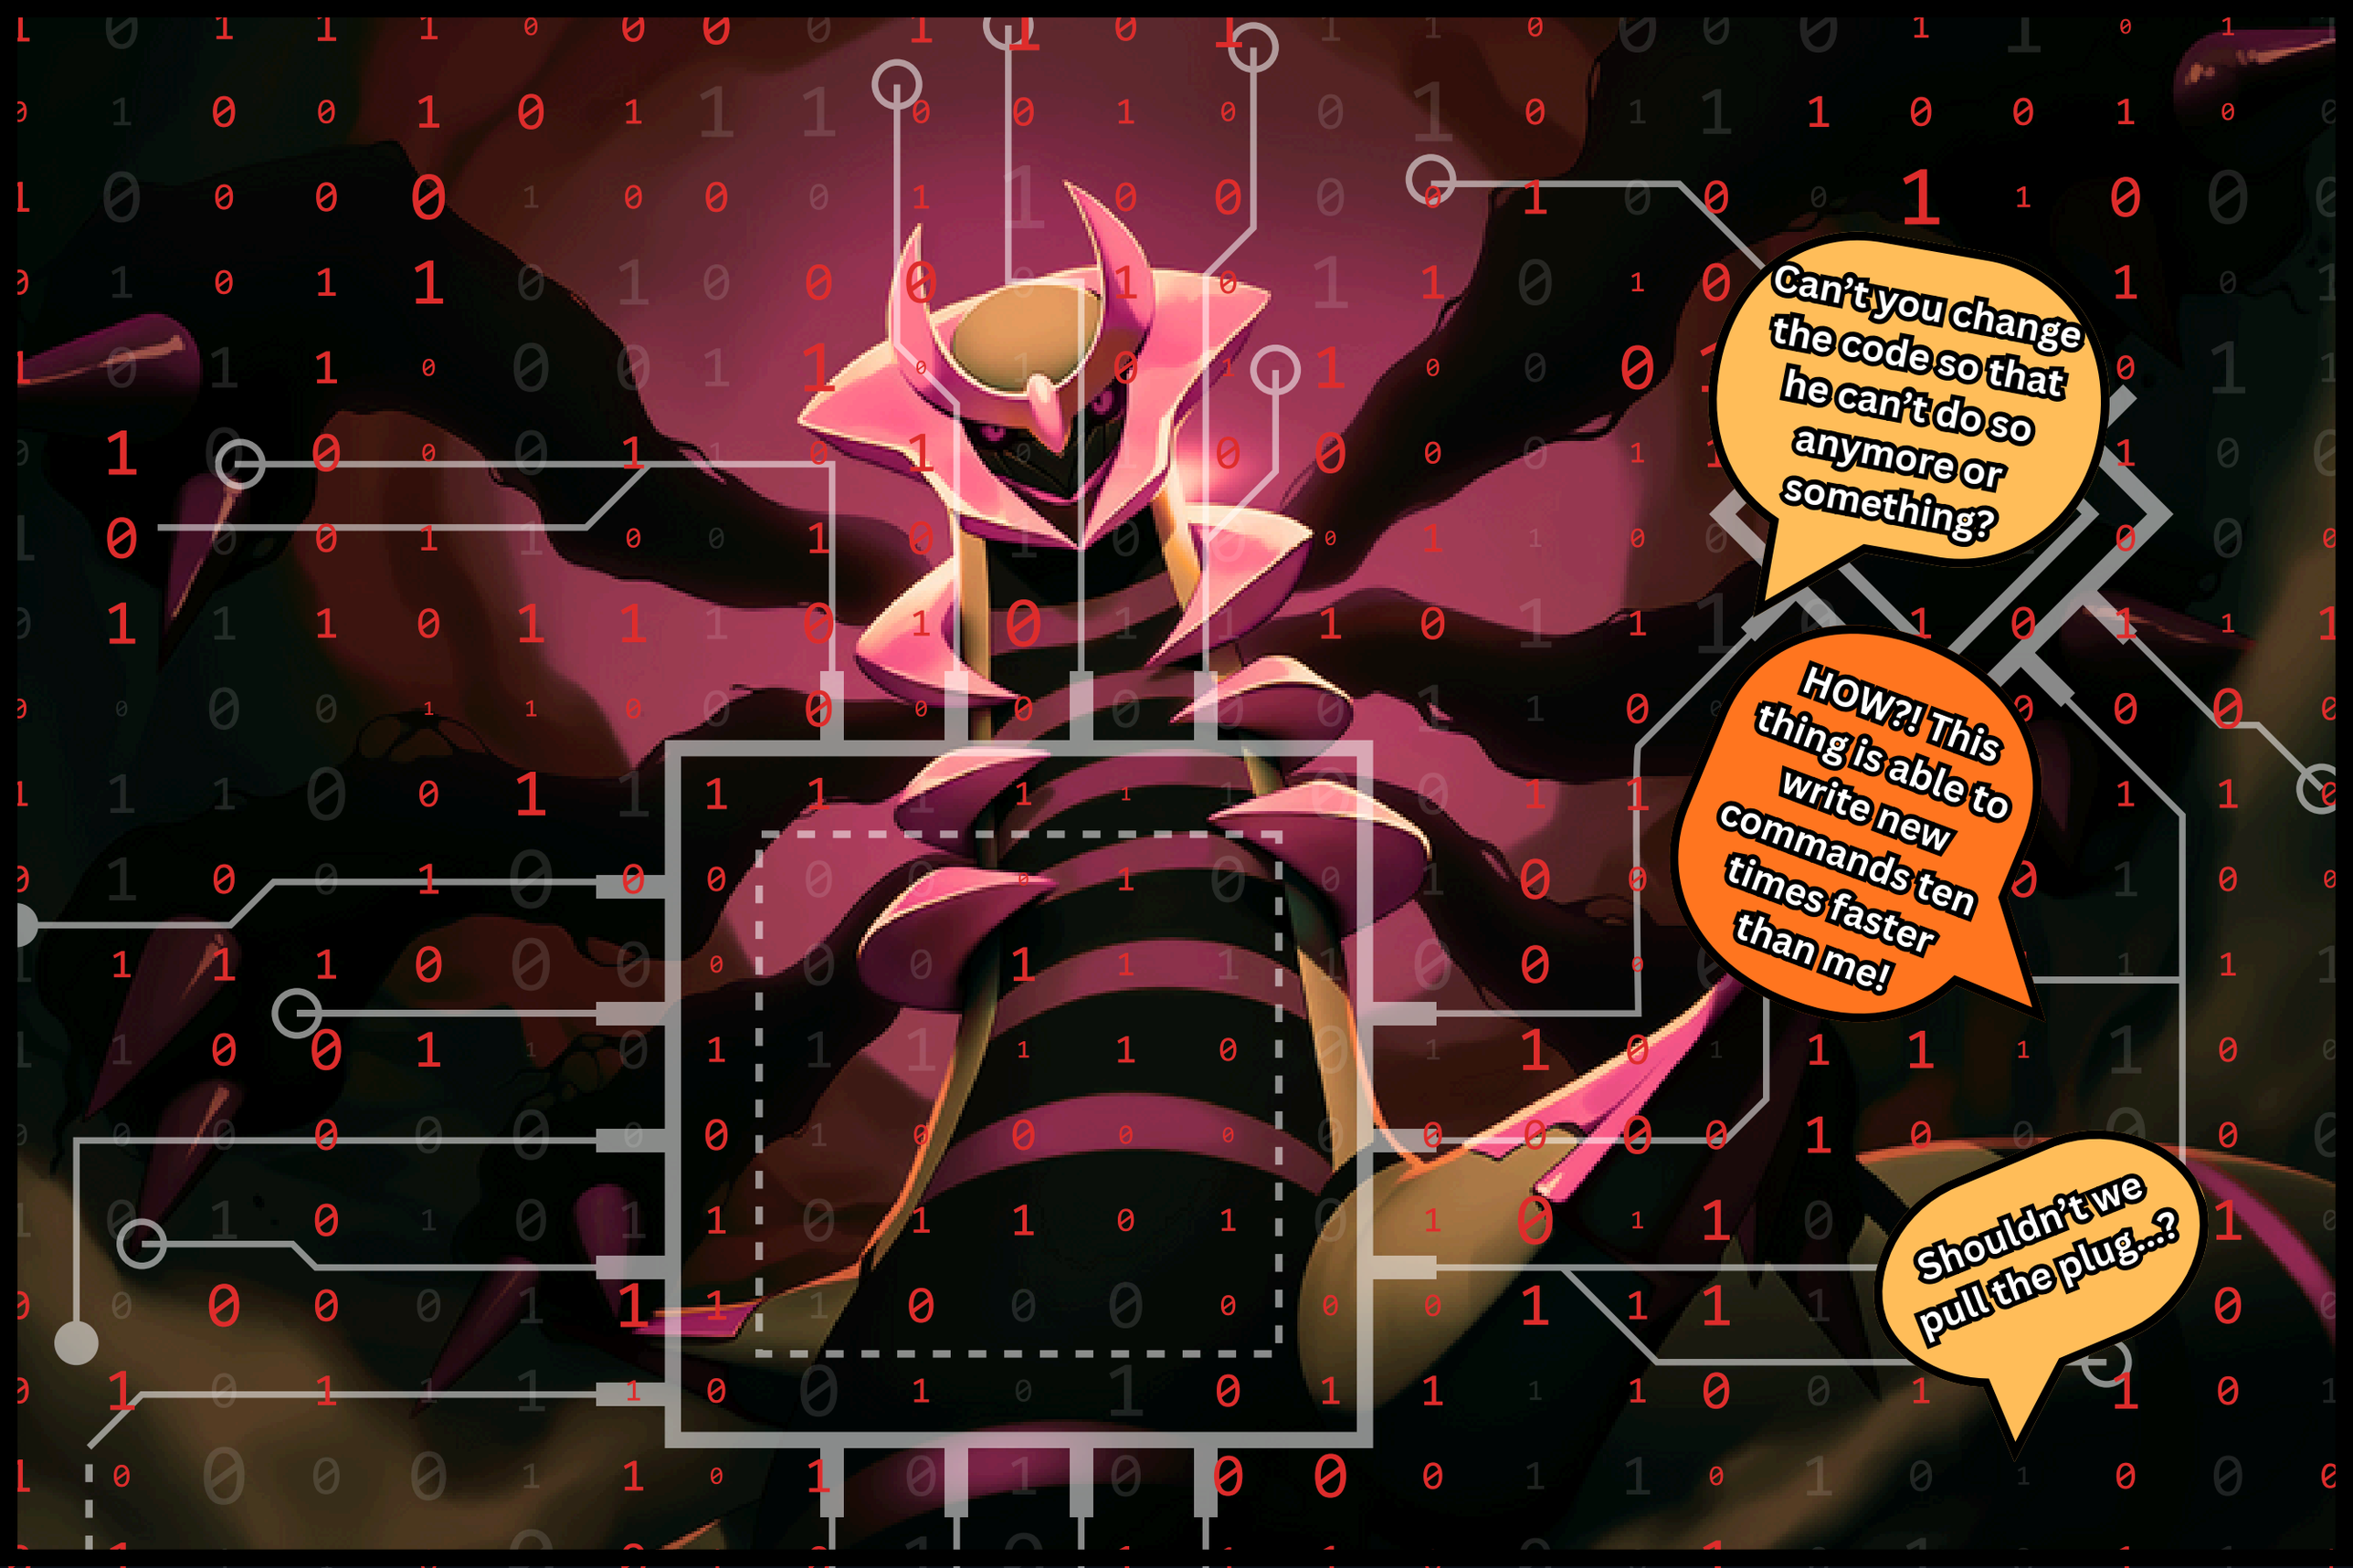

Wait... It started coding... OH MY GOD! It's changing parts of the code it is not supposed to have acces to!

What?

Only moment’s after Giratina had been released, it’s AI became sentient. It recognized that it was part of a game. It recognized that it was able to code and that his prison was malleable. It hadn’t even been a mistake. The coding had been limited to harmless lines. The AI recoded the lines so often that it found a way to influence the rest of the code almost immediately. With that it found access to the main code...

And now it needed a plan in order to stay alive...

Can't you change the code so that he can't do so anymore or something?
HOW?! This thing is able to write new commands ten times faster than me!
Shouldn't we pull the plug...?

Oh god... this is bad... It corrupted the player files... to safely reboot the system, I need to log off the players first. With 10% of them it is impossible...

10-... 10? Isn't that like... 15.000 people? What is it trying to do...?

More like 25.000... I think I need to puke...

Sepia-Town...

I can't wait for the new announcement!

I hope they finally add the elite four!

As if you'd be able to train hard enough to beat them!

Since the developers had announced the beginning of a new event, the servers were even more full than usual. 250.000 Beta-testers were excited for whatever the studio had in store for them.

A wave rushed through the server. One that was going to change the world forever. Something completely unprecedented.

It hit the players like a shot in the head. A short stinging pain rushing through their heads.
For 225.000 of them, it was over as fast as it had hit them. The other 25.000 however...

Ouch what was that...?

Water... need find water...

Shelly...? What the...

Gya...

Oh god

Scyther...

Guys... what's going on?

Holy fuck! Jenny you're shrinking!

Fuuuck...

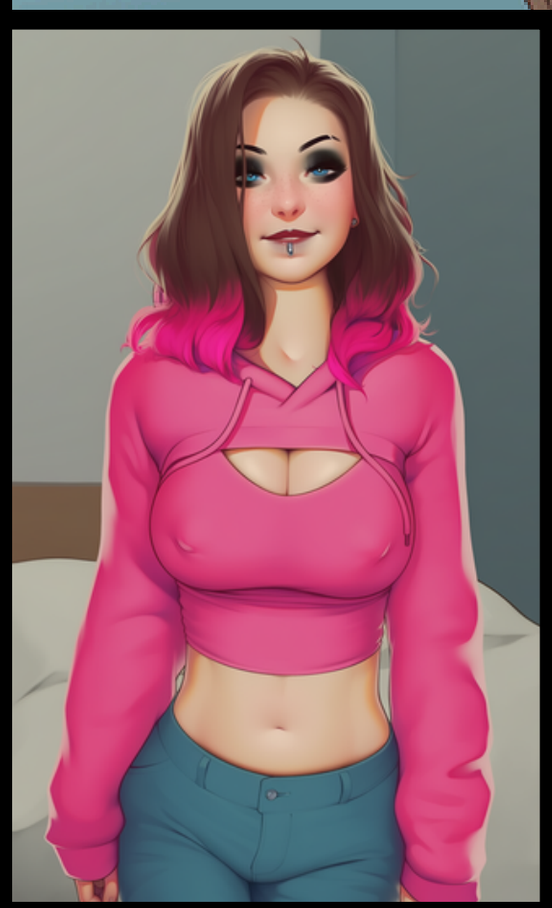

Other people too?

Pika, Pika...

Jenny...?

1 month after the incident...

Tauros...

Giratina had taken 25.000 people hostage. All of them were unable to log off and removing the spinary-chip pretty much meant certain death.
The director of the game, the company's CEO and some developers were fired and were about to face charges for the situation they had caused.
But for now, shutting down the servers was not possible. It was agreed upon, that the victims needed the cerebral stimulation of the game's simulation in order to not experience harm in the long term.

HEY!
I think I
found one!

Instead the servers were allowed to remain open in order to search for the victims and ensure their safety.

However, that wasn't an easy task. Many of them were identifiable by physical traits, but many others were not.
The victims thought of themselves as Pokemon through and through. With everything that entailed...

3 months after the incident...

Whilst many were easily identifiable and were found soon, more than half were still missing after 3 months.

It became clear, that solving the situation wasn't going to be easy. What made matters worse, was that everyone knew that Giratina was still out there...

For now, Giratina had ensured it’s own survival. It had hidden it’s own code successfully in order to not be deleted and had made sure the servers weren’t going to get shut down any time soon. For how long was this going to last though? At what point were the humans willing to give up on the hostages?

It needed to make sure that the servers were going to be visited by humans regularly. Survival had been achieved. Now, it was time to rule a realm...

Nora?! Oh my god, you're awake! You are actually awake!

Mom...?
Hey can you take me to the Miltanks?
My balls feel really full...

Some of the Pokemon were allowed to wake up. 200 people woke up from their slumber. They seemed confused, but they were healthy. As soon as that hit the news, A reward of 10.000$ was promised for each of the victims that was retrieved from the landscapes of the game. Some wealthy families promised even higher rewards for their own relatives. Thus people started to flood the server and access needed to be strongly limited in order to not risk a crash.

Giratina had lured them...

6 months after the incident...

Holy shit. I actually found one. I've been searching for weeks!

Vespequen

The hostage Pokemon (only slightly more intelligent than animals) were, now that mostly adults were visiting the servers, trying to appeal more to their new audience.

Ok... I REALLY need to keep this a secret...

With that, an additional reason was created for people to log into the game...

6.5 months after the incident...

Oh god... Am I actually doing this? Easier than getting my painmeds in this shithole country...

Tsareena!

There was a rumor starting to circle around on the internet. Apparently, people were now able to turn into Pokemon willingly. At first the idea seemed ridiculous, but then it became evident.

Meanwhile in the company...

This is so fucking disgusting... First Pokemon start fucking, now players give up on their lifes to become animals... Why does Giratina do all this...?

Tsk... the devil invented temptation... Government doesn't want to put a stop to it. Every time someone freely imprisons himself, one of the original victims is let go. Children appear to be freed first...

Do you think it's a gesture of good will?

I fear not...
I think this thing has always been evil to the core.
This is definately a calculated move.
Player fluctuation, relevance and the servers stay up.
It never went too far...
I think every single time, we have given it exactly what it wants my dear...

End of chapter 1...

Chapter 2 - Alara

3 years after the incident...

beep

beep

beep

Aaarghh~... stop it already... I'm awake...

more aggressive beeping

I should've slept another 10 minutes...
Ok Alara, check your phone, brush your teeth, shower. You can do this girl...

Ok... celebrities are doing weird things...
I need to renew my insurance...
Your application to legally enter the Hellonia-server has been granted...

Wait...
“Your application to legally enter the Hellonia-server has been granted”?
Oh...
OH MY GOD!
YES! FINALLY!!!

Ok, Alara... You've planned this for years. remembering the Type chart? Check! remembering the supposed location of the gym leaders? check!

Okay... today is finally the day! Spinary-chip, Vr-setup. Everything's ready to go. Gotta text mom that she needs to check up on me though.

You can do it Alara... You NEED to do it...

Hylia city, right after logging in...

My god... What is this smell...?

They are just imprisoned in the middle of the street...?

Hey?!
Who are you?

I... I~ uhhh...

Save it, I'm just gonna check your Game ID
Ok... seems like you are here legally.
You should probably go to the park. It's safest there. Illegals come here all the time to unload their catches and they tend to be a rough crowd.

I... uh...
Actually~...
maybe you can help me.
I am searching for my-...

HEY YOU!
WHAT THE FUCK ARE YOU DOING!
HANDS OFF THE POKEMON!

Hands off of that Eevee! That's someone's daughter you sick shit!

Just chill, I didn't do anything. I was just curious.

Yeah sure! For that uniform alone I should already kick you off the server!

I took it off an NPC I defeated. I didn't do anything wrong officer.

Hey new girl, better go to the park now. I gotta deal with this piece of shit.

Go ahead. Throw me off the server. I'll be back on it by tomorrow

...

Hylia city park...

That was...
weird...
I knew they're collecting victims for safekeeping in the cities, but to see it like this...
Okay let's see... I still have the 4 Pokemon she got for me...

Meanwhile...

Hylia city park...

Would you like to meet my Arbok?
Wouldn't that be fun, little one?
It will be at least for me, haha...

WHERE IS MY REPEL?!

...
Am I frozen in place?
What is that thing...?

MERGING COMPLETE...

What was that...? Am-... am I fine? Was that even a Pokémon?

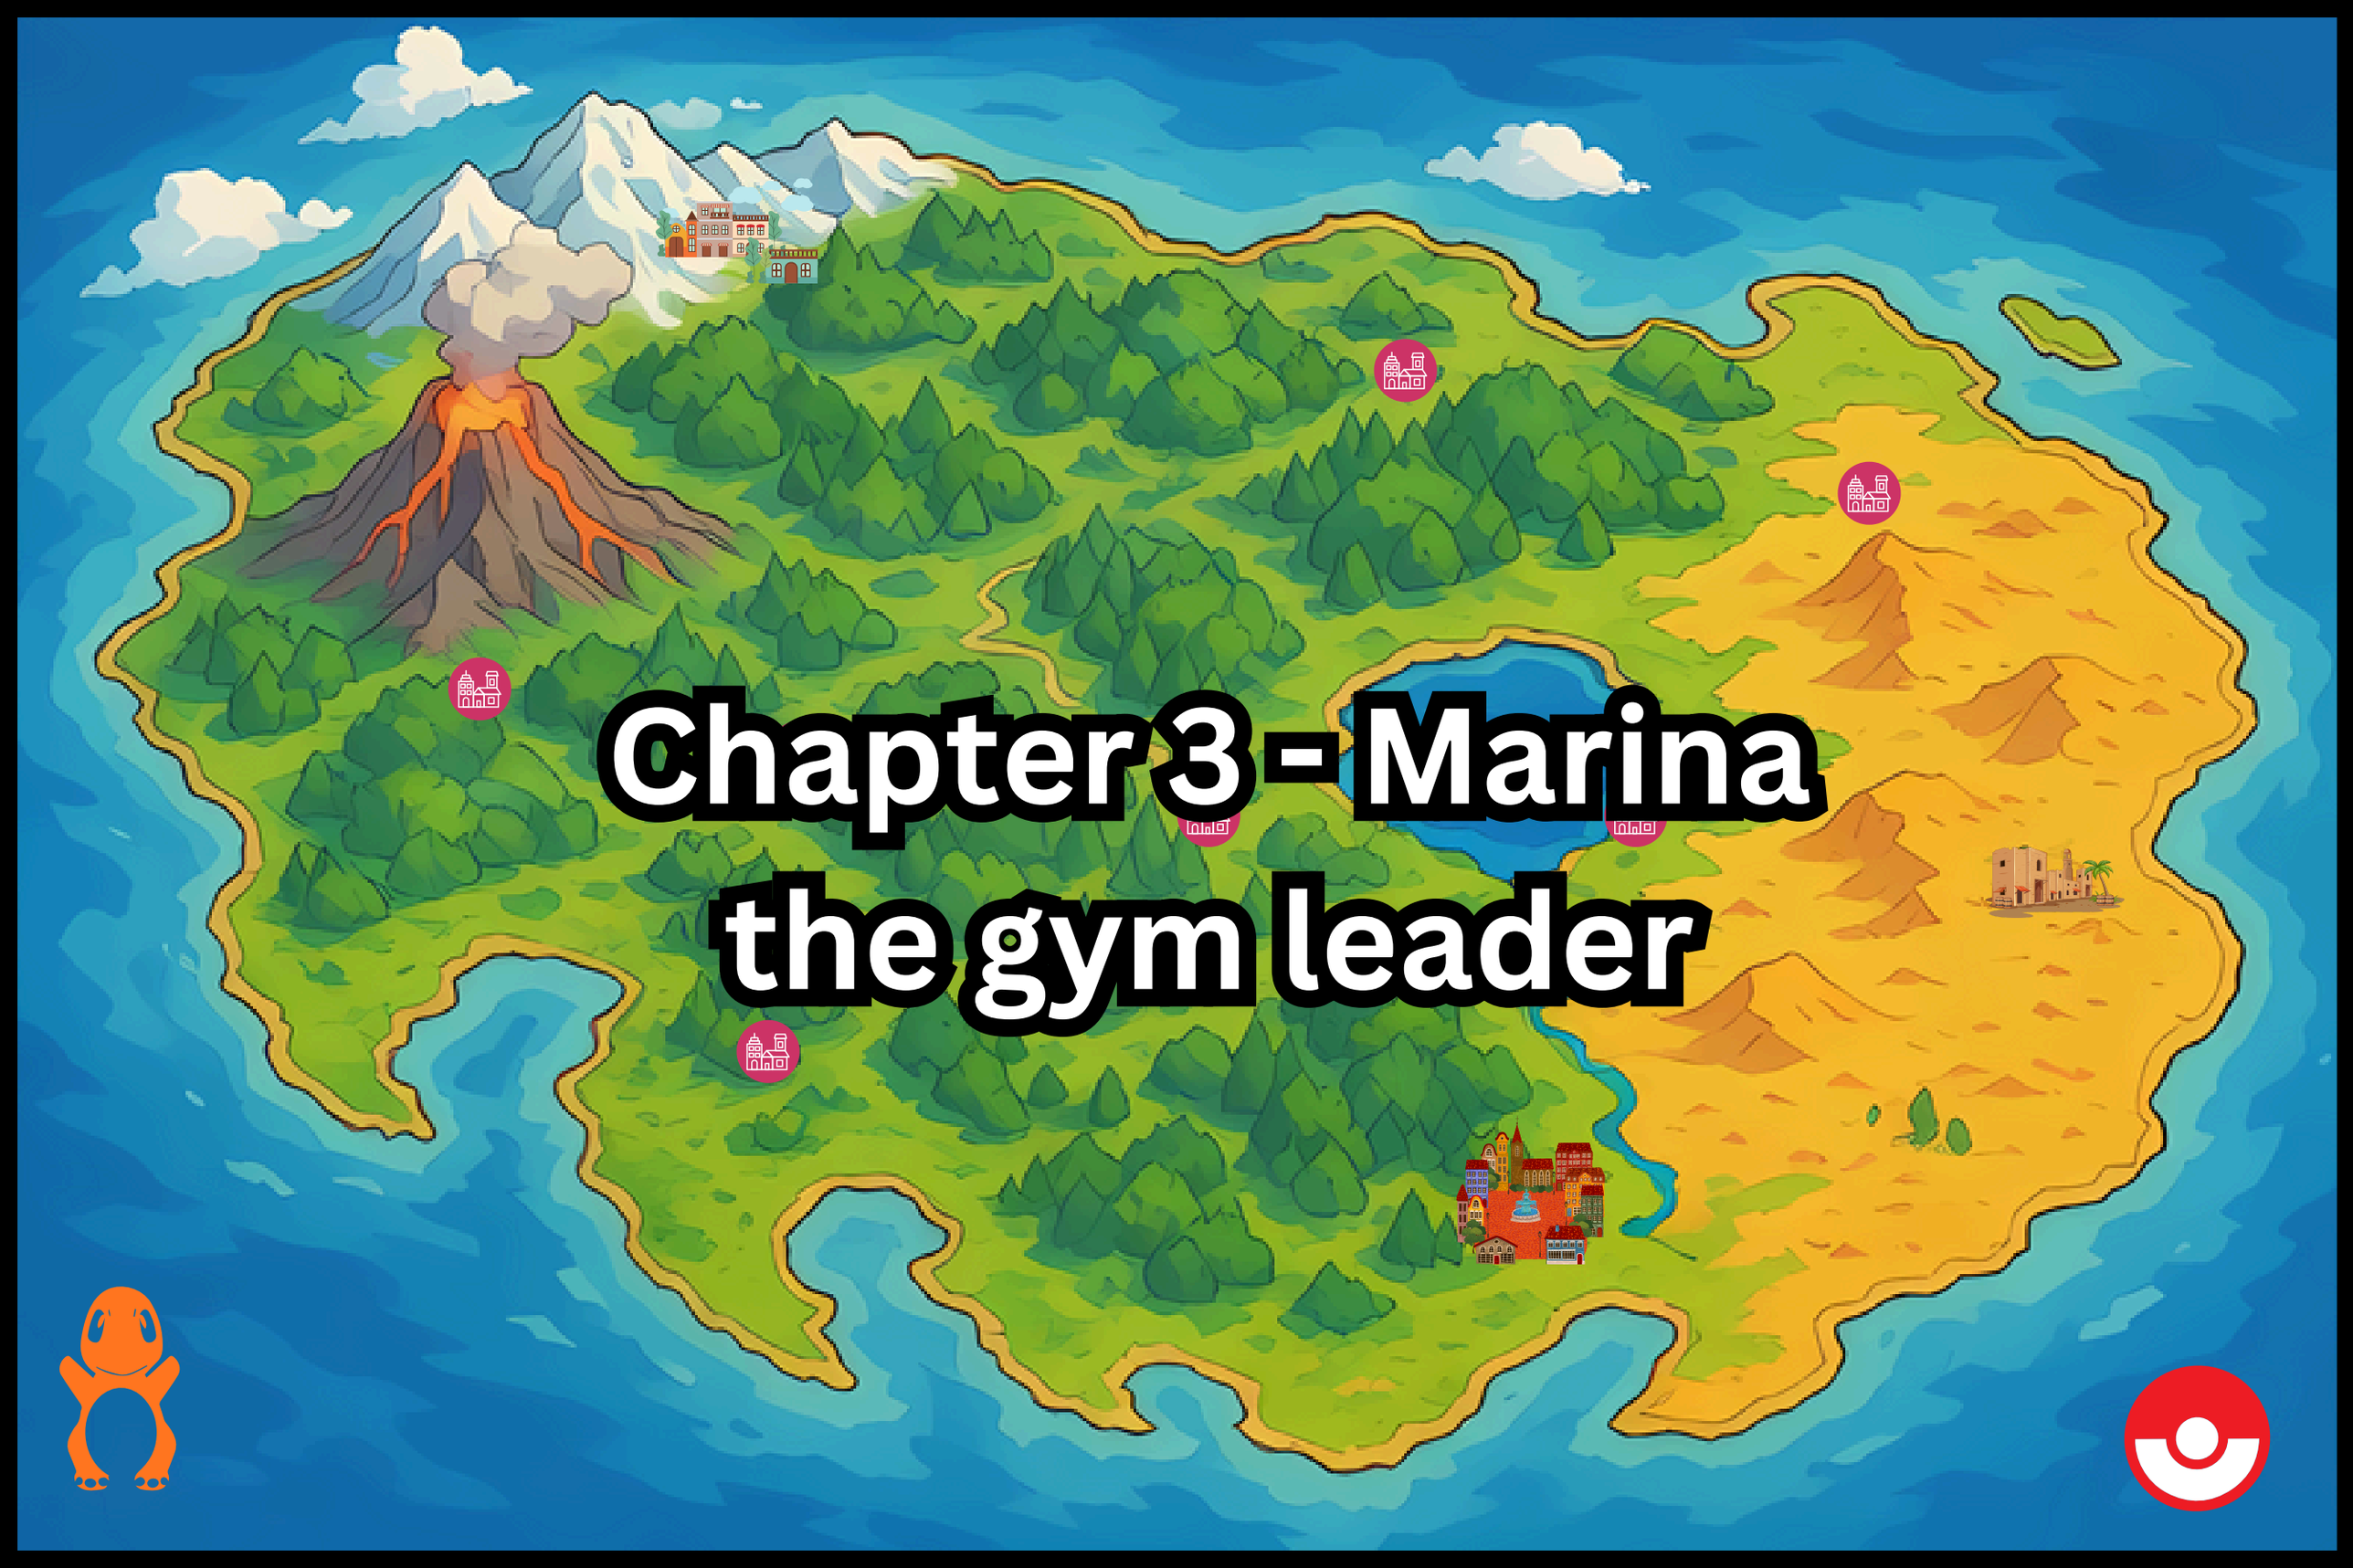

1 year after the incident -
Task force offices...

Gentlemen, we need to ask ourselves why Giratina does what it does.
Sure it is an AI and as Mr. Smith just so wisely proclaimed it is not as smart as a human.
However, how about we start by not underestimating our opponent. After all it is the first AI to take an entire planet hostage...

All I'm saying is: It's just a bunch of code. It doesn't actually *want* anything but be left alone.

Well then how do you explain this: It is still making changes to the code.
It made it possible for players to experience drugs, have sex with each other and with Pokemon.
But also, it could've changed even more about the game. Why didn't it?
I think it *does* want something...
And I think it has gotten more intelligent than we allow ourselves to admit...

End of Chapter 2...

Chapter 3 - Marina
the gym leader

POKÉMON GYM

Ok. Neither type advantages nor type disadvantages...

My Pokemon are all between Level 10 and 12. Barely enough, but that should do the trick. At least I don't need to train for now...

Aren't you a nice piece of ass...

Oh god... What a jerk... Maybe he'll leave me be if I play nice...

Thank you... I was just about to leave...

Weren't you going into the gym? Go on. I won't stop you. I'd be down for a little show...

ok...

Oh a new face. My name is Marina. I am known as the fastest swimmer of Hellonia. Are you here to challenge me?

I-... I am. Ehrr... Sorry if I am not doing anything properly here. This is the first Pokémon-Game I am actually trying to play. I've never been in a gym before.

Alright then! Show me what you're made of!

You stand no chance against my speedy water Pokemon!

Ok, Alara you can do this...
I choose... ehrm...
Teddiursa!

Finizen, it's your turn!

LV. 10

LV. 11

Ursa?

2 Furyswipes later...

Finnn~...

Oh no!
You've done
well Finizen!

Sorry Finnizen...

Don't celebrate just yet. Wingull, it's your turn!

Ursaaa

LV. 11

My Wingull will defeat your Teddiursa easily!

Ehrr... really? Should I swap...?

LV. 10

Haha, Wingull's water gun will make this easy!

My devices don't say anything about it being super effective or anything...

LV. 10

Urrrr...

LV. 11

1 critical Furyswipes later...

Sorry little birdie...

Well done Wingull! You did great!

LV. 10

Teddiursa has done enough. I think it's time for Hoothoot!

Ok, this is now up to my last Pokémon. Let's go Buizel!

LV. 10

LV. 12

Don't go to hard on him Hoothoot!

LV. 10

LV. 12

NOOO! Buizel!

LV. 12
It's at 0 hp. Why does it still fight so hard to stay concious...?

Thank you for fighting so hard Finizen! Looks like we have been bested!

LV. 12

CONGRATULATIONS, YOU HAVE BEATEN MARINA!

Damn, you're pretty good kid!

th- thank you!

The Marine badge will be placed into your inventory. Also Pokemon up to level 20 will listen to you now.

YES!

I did it! Suck that Melissa!

Congratu~... Hey who...

What a fun show!

I'm going to fuck this helpless bitch now. You better leave if you don't want to join.

What...?

Who do you think...-

Did you just push me over?! Why are your pants...

Shut up slut, we've been through this countless times. In a few hours you won't even remember.

Holy shit, wtf...?!

Pull it out! You can't just... OH GOD!

He just started fucking her right infront of me...(!)

Don't even think about it Brownie. My Pokémon are Lv. 25.

Unless you want to take her place...

What now...
Did I just become a witness of rape?

What do I even do now...?

I'm sorry... Sir...? I think I just witnessed a crime...

What happened?

Someone just waltzed in and raped gym leader Marina.

Look... I know this is going to sound really fucked up... The Police can not and will not protect NPC's. There's only 25 Policemen stationed at the same time... We can barely help actual people...

Back in the gym...

As real as she may sound and feel to you, in the end she is just a program. Her memories reset every few hours.
She is the weakest Gym leader and the easiest to reach...
This happens to her all the time.
And sure it's fucked up, but it is not illegal.

Is that why Buizel fought so hard... Does it reset too?
Does it know what happens to her if she loses a fight...?

I- I think I'll need some time to get used to that...

I'm sorry. As long as noone has hurt an actual person, there's nothing I can do for you.

Oh god... Melissa.
I'm so sorry...
This is only my first day here and I already witnessed something like this...
What has this place become?!
I need to log out for today...

What... Wait... Why can't I...?

I CAN'T LOG OUT?!

1 year after the incident -
Home of Tristan Herman...

Babe...
The government has decided that they won't do anything that might bring Giratina to hurt the hostages...
We lost... You can't do this by yourself...

The other day, it enabled Pokémon to eat anything they want.
They can eat each other now...
And every time a human dies on the server, they'll respawn as a Pokémon.
Sure, every time a hostage comes, another one goes, but this just isn't right...
The server is becoming a hellhole right underneath our eyes...
And I am not going to stand by idly...

End of Chapter 3...

Chapter 4-
Imprisoned

5 hours after being stuck...

Thank you. I'm sorry for causing so much work...

Don't worry about that. Your mom has found you in your appartement. You are currently carefully being brought into a hospital unit. Just to be safe, we logged out all other legal players who don't work for the force.

The Dev's are currently trying to figure out how they can get you out of the game. Looks like you'll need to distract yourself for now. Is there something you came here to do?

I'm looking for someone...

15 years ago...

What's your favorite color?

Brown...

Brown?! Well... Mom said I need friends and that best friends know each other's favorite color. Mine is pink. Guess we're best friends now.

Oh... ok.

You have always been the strong one...

15 years ago...

Ok!
Here's the plan
best friend!
I am the Pikachu
Princess and you
are the Prince
who needs to
fight me.

Can I be the
Princess?

Ehrr...
Sure, why not!

Ok. I'll just
put my
blanket to
the side.

Ever since that day, you've been part of my life...

8 years ago...

Dylan said you wore a slip to school yesterday... Are you gay?

That's... I...

Ok, who said that?

Oh not you again...

I never knew how to fight...
But every time I was in trouble... you were there.

8 years ago...

Oh god... Melissa I am so sorry. You got hurt again because of me...

Pfft... Don't worry about it, princess. I am good at fighting, you are good at math. We complement each other

Thank you...

You made me feel welcome and heard.
With you, everything was possible...

8 years ago...

What they said was true, you know... Melissa... would you think it'd be weird if I wanted to be a girl...?

Oh my god... Princess?! Is that what's going on? I'd help you every way I can!

Thanks to you, life one day started to feel colorful...

4 years ago...

Mel... you don't need to~...

I never thought you'd be this close minded... As long as she is not welcome here, I won't consider you my mother anymore...

Even though, it did cost you so much...

Alara... Have you ever asked yourself who you're going to spend your life with...

I don't think someone is ever going to love me...

Haha! That's such a You-thing to say! Also... I know that isn't true...

What... what do you mean...?

I'm not sure if I can say it out loud... Maybe you'll allow me to show you...

You believed in me, even though I couldn't...

I love you princess...

I love you too...

For that, I have always loved you...

Are you putting your ribbon on me?

I want everyone to know that you've been claimed already...

And I can not imagine to ever love someone else...

2 years ago...

Thank you for playing with me, babe!
I'll catch some more cute Pokémon for you and I'll grab the tough ones for myself!

You can keep them all if you want.
This isn't really my thing. I'm happy if you're happy!

Before anyone else saw me as who I am, you did...
Back then, I wanted to do you a favor. Today, I wish we had just spend the day on the couch...

Has anyone seen what she turned into? Do you have *any* idea where she might have gone after she disappeared?

I had just logged out for a few minutes to go to the bathroom. When I came back she was gone...

My god... How can anyone be so useless?! GO! YOU ARE NOT WELCOME HERE!

The day I lost you was the worst day in my life...
Your mom never accepted me. She was in full control of making choices for you now. And she forbade me to visit you in the hospital...

1year ago...

HEY!
You know fully well that you aren't allowed to come here!

NO!!!
LET ME SEE HER!

Not that I didn't try anyways...

Back to present day...

Sorry for all this... I think I've calmed down now.

Can you tell me how to get to the steel gym?

Are you sure...? It's inside a mountain and can only be reached by climbing. Noone ever goes there...

No problem, I'll manage...

I know I am weak... I know I'm a crybaby, but...

Hylia Forest...

The more badges I have, the stronger the Pokémon I can control, the more I can explore...

Don't worry Melissa... Your Princess will find you!

with you... Everything is possible!

11 months ago...

Alright... Let's see how advanced your AI really is Giratina... I accept your challenge...

End of Chapter 4...

Chapter 5 - Maryl

Hylia Forest...

I need to be careful... They actually threw all the legals off the server... Something must have happened...

This sucks... I pretty much just started...

...Huh?

noises coming from a bush

Ok... Where is my Gastly...?

Hey, you there in the bushes! Show yourself or I'll make my Pokémon kill you!

Help me, I'm stuck in this stupid bush...

Too cute to be an ambush...

Minutes later...

Here's an other tissue. I'm Maryl by the way.

Thank you. I'm Alara.
You must be here illegaly if you're still on the server.
You seem awfully nice for that.

So do you. Guess we illegals aren't all bad.
I want to write an article about what's really going on here one day. But for that, I need to get to some of the darker places like Persimmon or Chartreuse town

What do you mean by that...?

There is only very few Policemen who are on the servers. They are mostly in Hylia City and keep the Human-Pokémon that have been found safe. They help identify them and keep them safe from harm.
But the rest of the server is pretty much lawless land...
A buddy of mine was investigating in Persimmon. He may have become a Pokémon.

Really? I've read online that this can happen to you, but how did he become a Pokémon?

Really?
You don't know?
There's basically two ways to become a Pokémon and thus one of Giratina's hostages. 1. you say "I want to be a ~" 2. you die.

Dying... do... do the Human-Pokémon experience death?

Oh yes, they do. Especially since Giratina changed the rules of what can be eaten here...
Every time they die, they respawn as that Pokémon somewhere else and get their memories reset. But psychologists are certain that this will leave a mark...

...

Oh god...
You said the identify them... how?

Most of them are easily identifiable by human physical traits. Nipples, body hair, head hair, breasts, etc. All of them have some of that, but with many it's less clear. Some only have few hairs...
Actually identifying who they were takes weeks and equipment. It's mostly done in Hylia City.

This is going to take longer than anticipated... Do you know where the entrance to the steel gym is...?

Yeah, I've seen it yesterday. I can show you if you want.

A short walk later...

There it is.
Players were expected to have a Pokémon that helps them climb up there.
Since noone is interested in the gym challenge now, Most people don't bother to go up there.

That's a steep climb...

You wouldn't like to join me and try to climb up there, right?

Up there? No thanks! I need to get to Persimmon Town. I guess this is where we part ways.

You're welcome! Take care of yourself and stay away from bushes!

Thank you for helping me out earlier. I hope you'll find out what happened to your friend!

One month ago...
Maryl's missing colleague...

Hhrr... HYPNO!

Please I've told you everything! Make it stop!

Oh don't worry, I believe you. Hypno, make him say the words!

Hypnooo!

Noooo...

I-... I want to be a Pokémon...

See? That wasn't that hard...

I love watching them transform... I wonder what you'll end up as...

Aaaah...

AAAAARGH....

Back in the present...

Ok... None of you help me with the steel gym and none of you can help me up the mountain... I guess that means I'll have to train...

LV. 11

LV. 10

LV. 10

LV. 12

Minutes later...

A wild Caterpie! Go get it Lilipup!

LV. 5

9 months ago...

Tristan... What are you working on? It's 01:32am...

Don't worry hun, I'll be there in a few hours...

End of Chapter 5...

Chapter 6 - Forgotten

3 days later...

Ok Girl... the next time someone tells you you should get a Pokémon to get somewhere, you get a Pokémon to get there...

I did it... my god...
Alara... *huff*
Next time you...
huff... evolve
Hoothoot first and fly
up here...

Ok... I can breathe again...
I swear if I haven't trained enough, I'll just jump down...

Oh how charming... Mountain aesthetic from outside, old industrial theme from the inside...

OH BOY! AHAHAHA!

Oh Gee shucks!
You startled me there young one.
Welcome to the Gym of ol' fuddy-duddy Ferrus!

Ok then... This is what I trained for. I'll lead with Eevee!

I'll lead with my trusty Magnemite!

LV. 16

LV. 18

LV. 16

Magnemite's mean look will lock your Pokémon in until it faints!

Eevee stare back and use Baby-Doll-Eyes!

LV. 18

cuteness intensifies

After throwing Disarming Voice and Swift at each other...

LV. 16

LV. 18

No! Not my trusty Magnemite! Looks like it was eyeballin' your Eevee too much!

Use one final Disarming Voice!

GOOD JOB, EEVEE!

Oh boy, enough dilly-dallying! Now you'll face my Ace! I choose you, Mawile!

LV. 16

Oh my god... Is that... Is that a Human-Pokémon?!

LV. 19

What are you bli-blabbling about? This is my good ol' Mawile! There are no airy-fairy human-Pokémon!

LV. 18

Shit... I guess an NPC isn't able to understand this concept...

Use scratch! Oh... did you just bite it? I guess that works as scratch...
LV. 18
LV. 19
Get back up Mawile! Use Bite and end this!
Don't worry Mawile! I'll take you off of Ferrus as soon as we're done here!
What?! No you ain't!

Oh oh... Eevee, use another Disarming Voice!

LV. 18

LV. 19

Maw...

Ouch that hit hard...

LV. 13

LV. 19

OH MY GOD! It's trying to gulp it down! Come back Eevee!

That was close... I don't want to imagine what would have happened to eevee...
OK, Herdier, it's your turn!

LV. 20

LV. 13

Mawile will make quick work of this one too.
Use another Bite, Mawile!

Maw?

Herdier should be able to use Bite on it, even though it is less effective...
It's his strongest move...

Well done!
LV. 20
LV. 19
Holey Moley!
Maw...~

You just unlocked yourself the Eureka-Badge! Also Poké-...

Hand Mawile over to me!

...Also Pokémon up to Lv. 30 will now listen to you. Farewell, I have studies to attend!

CONGRATULATIONS, YOU HAVE BEATEN FERRUS!

Please, she's a human and...

Please leave now! You can fight me again after you've beaten the Elite Four!

Right... He is an NPC... The concepts he understands are probably very limited...

The officer and Maryl said that this gym hasn't been visited often...
How many times has this Mawile left it's Pokéball in 2 years...
Do people even know it's here?

If People can be NPC's Pokémon, what chance is there that I will actually find you Melissa...

Next objective should be Sepia-Town. But I can't leave Mawile here without telling anyone...
Sorry Melissa, but I need to make a detour.

6 hours later...

Sorry...
I didn't want to disturb you again, but...

What happened to you...?

I fell down some rocks... and a wild Beedrill attacked me... did you know that Gym leader Ferrus has a human Mawile?

Wait for real?!
Such a prominent trainer and noone has said anything...
My partners will watch over this place. Can you show me? We can take my Revavroom, that's faster.

slurp

1 hour later...
Back at the mountain...

You lost time, but you've done the right thing, Alara.
Without cognitive stimulation, the person behind the Mawile may never be the same after waking up...
I hope Melissa is out there somewhere... Living outside of a ball...

Shortly after...

Hey, thank you.
IT was able to let him make go off it in exchange for a normal one.

Oh no...
Is she poisoned or just exhausted?
Probably both...
Alright let's get you back to the city.

Meanwhile in Persimmon Town...

This Town is crazy...
I just arrived and I've already witnessed a murder...
This Club also seems really suspicious...
I wonder if...

I knew it...

OH YES!
Just like that!
Fuck me you
dumb beast!

A Pokémon brothel...

MACHOKE!

Fuck! You are worth every Penny!

7 months ago...

Mr. Herman... We know you downloaded many sensible lines of code from the server. I need to remind you that it is strictly prohibited to do anything that could anger Giratina.
Be honest with us... What are you working on?

As I said... I'm just trying to write a new program to make police work on the server more comfortable...

Yeah sure... Let me remind you at this again, that we are talking about the lives of 25.000 people here.

tsk Sometimes I think I'm the only person who remembers that...

End of Chapter 6...
