Hello, Hexxet here,

This is the **Preview version** of “Welcome to the Master Control Program”. The full version is an interactive story where you decide how to use the MCP and how to change the people around you... or fuck up in doing so :P. Anyway, the preview version only contains 1 Ending/Path out ~29. All but one options have been grayed out on the pages where there are decisions - making the preview version linear.

All girls depicted in this story are changeable/fuckable in the full version except for the girl standing around when going for the elevator.

Morning. I have a meeting with Mrs. Benson...

Ah, yes. You are that IT guy, right?

Go right in. Mrs. Benson is waiting for you.

Next

This is Catharine Benson, my Boss and CEO of the whole company where I work.

Ah, there you are. Please, come in.

You've reported that you were short-staffed down in IT, correct?

Yes, Ma'am.

With Jack on vacation and Erik leaving the company, I'm currently alone down in IT.

Next

Well, I admit that I did not give this problem the attention it deserved so far.

But I've finally hired somebody to help you out.

That's great news, Ma'am!

Next

This is my daughter, Clarissa.

She had a year of computer something in school.

And she knows her way around Word and Powerpoint.

Yawn
Hi.

Next

A woman with blonde hair, wearing a blue suit and a white shirt, stands in an office. She is looking directly at the camera. The office background includes a desk with a computer monitor, keyboard, and mouse, and a filing cabinet. There are three speech bubbles and a 'Next' button overlaid on the image.

Err... ma'am...
with all due
respect... But
that's not really
the skillset that...

Let me stop you
right there. It's
high time for
Clarissa to get to
know the
company.

And IT is as
good a place as
any to start.

Next

So, just let her do something.

I'm sure she can help out somewhere.

She's a smart girl.

Great!
Have fun
Sweety.

I... Yes
ma'am... I'll
show her
the works...

Next

A short time later. In the basement where the IT department is located. I try to speak to my new assistant...

Next

So... err...
Clarissa. Let's
see what I have
for you...

Do you know
anything about
Java or C#?

Those are the two
main programming
languages used in
here.

Or do you know
anything about
hardware?

Ring

Next

giggle

Listen, buddy.
I don't give a
fuck about any
of this.

I don't intend to
lift one finger
around here.

And if you can't
deal with that I'm
gonna tell my mom
that you guys are
just lazing around
down here all day.
Comprendé?

You'd better
stop lazing
around and
answer that
phone.

I... err...
that...

Next

The audacity!

But what can I do? Her mother does not appreciate the IT department in the slightest, even though it's us keeping this company secure and running in the cyber age! So, I don't need to second guess whom she'd believe... and I do what I usually do... I pick up the goddamn phone...

Simmons here. My Computer is not working.

Yes!

Stop bullshitting me and get your ass up here, ASAP!

Hello, IT.
How can I help you?

Is it turned on?

Are you sure it's plugged in?

sigh
Yes, ma'am. I'll be with you in a moment.

Where does this program come from?

I better get going.
Miss Simmons is
rather impatient
when it comes to
IT problems...

Though most of
the time she is
the problem...

Oh, dear.
What am I
even doing
here?

Gulp
This... must
be some sort
of AI image
program?

Not bad.
That could
really be her!

Let's go!

Talk to Clarissa

Okay... I need to go upstairs and have a look at Miss Simmons' computer.

Wanna come with? Get to know the business?

LOL.
I'm good.
Bye bye.

sigh

Let's go!

PC locked

Frustrated I take the elevator to the upper floors after I lock my PC. It takes a while, and I meet various co-workers who more or less ignore me until I finally arrive in Miss Simmon's Office.

Hello Miss
Simmons.
Sorry it took me
some time to get
up here... I...

Hi there,
honey!

going on?!

Next

Oh, don't be shy about it. It's fine!

It's what I'm here for.

And don't worry. Company policy covers a 30-minute fuck break.

Next

I stand there dumbfounded as Miss Simmons starts playing with my fly. Stroking my cock through my pants until she fishes it out. It's rock-hard already.

Next

Somebody's excited!

Don't worry. I'm gonna take good care of you.

Now off with those clothes. Fucking in a suit is just uncomfy!

Next

There you go. Not that bad, is it?

Your cock feels really big inside!

me Jessica. No
need to be so
formal.

I... yes.
Thank you for
that... Miss
Simmons.

Next

On my way back down to the IT basement suddenly some dude addresses me...

Err...
what?

Yeah... ha-
ha... she...
is...

Don't worry
man! We've all
been there.

Yo! Walk of
shame?

Sometimes work
just gets to you.
And Jessica is a
damn good fuck.

That guy... and probably others know Jessica as a hooker... Nobody seems to find it strange that there is a hooker working at this company... **The MCP!**

Hello, Hexxet here,

This is my second interactive PAI Book. It's a lot different from OF:BF since I really tried to get that master Control program to life... which was a bit hard as it offeres so many options to change reality around you. Therefore, this PAI-Book turned into a lot of Endings with rather short paths (compared to OF:BF).

If this story is liked I might continue from one of the endings onwards 😊.

More PAIs and of course my regular 3D Comics can be found on my Patreon and in my shops. Some free PAIs can be found on my homepage.
