BY TSF AI

I need to hurry and regroup with the others

Thankfully it seems that there are no hostiles in the area

Bet
Mercy and
the others are
waiting for
me to race
right back

There you are you cocky and foolish girl

The target has been spotted you are free to engage her now

So she really is by herself

A foolish girl indeed

I hope the others aren't too worried about me rushing off on my own

Huh!?
I just felt
an erie
presence get
closer to
me

WAIT!
You're Reaper
but why are
you here

I'm afraid
it's too late for
questions
girl

I can't believe I came all the way out here to hopefully find a test subject

Of course there wouldn't be any people around in this abandoned place

Maybe
I should just
test my invention
on one of my
colleagues
at the lab

How dumb could I be to think I would just stumple upon the perfect test subject...

HUH!

Isn't that...
She's that
one agent from
Overwatch

Tracer!
What the hell is she doing all the way out here?

Wait!
Isn't this
a golden
opportunity
to test
my latest
invention

Hehe!
I can't wait
to wear
that body
of yours

Seems like my Invention works just as I had intended

Now I simply just have to put her on and see the result

My body perfectly fits into her empty body

I really am a true genius

Only her head is left and then I will be wearing her entire body

Argh!
Okay noted!
The face is
a lot harder
to wear and
adjust

ARGHH!
A little more
I can feel it
taking shape
perfectly

Phew!
That was way more intense than I thought it would be

It feels like I finally managed to align the face perfectly

Wow!
My voice
sounds higher
and I even have
a cute and
cocky sounding
accent

Now that I look and sound just like Tracer! No one would suspect me of being a researcher from Talon

I'll be sure to put this fine and well trained body to very good use

So this is what it feels like to touch female breasts

Damn!
This ass
is soo
big

Mhmm...
This bodysuit she wears is truely skin tight

Cheers for the fantastic ass love!
Hehehe! I guess the cavalry is well and truely right here

Lets
not get too
distracted
shall we

With my invention and this body I can easily infiltrate Overwatch

and destroy them from the inside

Some time later at Overwatch HQ

Thanks to Tracer's memories finding this place was a cake walk

Hi there Tracer! How was the mission? Too easy I bet

I already ran into another agent! Calm down just act like Tracer

I wish
I could have
gone with you
to beat up
some of those
noobs

Cheers love!
I appreciate
the thought

Next time
I'll race
you to the
battlefield

Sounds fun but even though I hate loosing I don't think I can beat you in a race

C'mon
I'm sure you
and your mech
can put up
a good
fight

Seems like Tracer is not the only one in Overwatch with a nice ass

SLAP
Wow!
I didn't
know your
ass was
this big
D.Va

AHHHH

Hey!
I never said
you could slap
my ass Tracer
what has gotten
into you?

Huh!?
Wait Tracer
hold on
why are you
pointing
that thing
at me?

Nothing
to worry
about D.Va
I'm just going to
borrow
your body
for a bit

Wait...
You can't be
the real Tracer!
Who the hell
are yo....

Huh...
My face and body... Feel strange and.... Numb... I feel weak

Hehehe!
Thats another
Overwatch
agent
collected

I wonder if I can wear her over Tracer

Argh!
Why is Tracer's clothes so tight this bodysuit is tough to get out of

Alright
time to see
if it's possible
to wear multiple
bodies at
one time

Tracer's legs fit perfectly! So far so good

Arghh!
I forgot how annoying the face is to align perfectly

It feels
like I'm close...
Just adjust it
a little more...
Almost
there

It sounds like my voice changed so it should be fine now

Phew...
I think that
should do it
for the
face

Everything
feels fine
and there seems
to be no immidiate
problems with
wearing two
bodies at the
same time

But
let me take
a proper look
at my new
body before I
make any
unnecessary
assumptions

Her body seems to be normal with no changes... Unless her hips weren't this thick before

Mhmm...
Her breasts
are about
the same size
as Tracer

so I can't
tell if they
changed
or not

Oh yeah!
This ass
feels different
from the one
I slapped
earlier

BY TSF AI

Overwatch will be no more once I've collected all of their agents for myself

To Be Continued?
