

Bunny & Tentacles 2  
part a.

From the title, I can guess who is the one to sent this to me.

2 months earlier, I caught a disease that can't be cured by human technology, and with no money left.

For those entangled with carnal desire

One month past since the treatment of tentacles has been carried out, and I received an unsigned package today.

In this era, such school-swimsuits are no longer used. I would be the seeded for tentacles for a month. They brought me back and let tentacles' embryo born in my body.

What the...

It clings to my skin, that's a bit disgusting.

I have no choice, but to apply for the treatment method of tentacle clan's hospital.

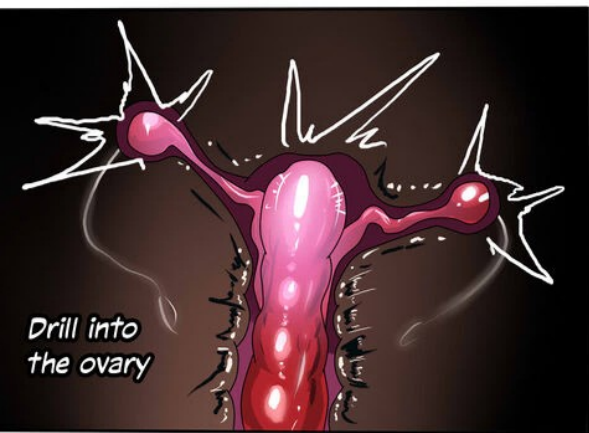

They must be estimating the course of my illness to decide the time to send this.

Is it alive? It's crawling ...

Drill into the ovary

That's all?

Umm, hmm...

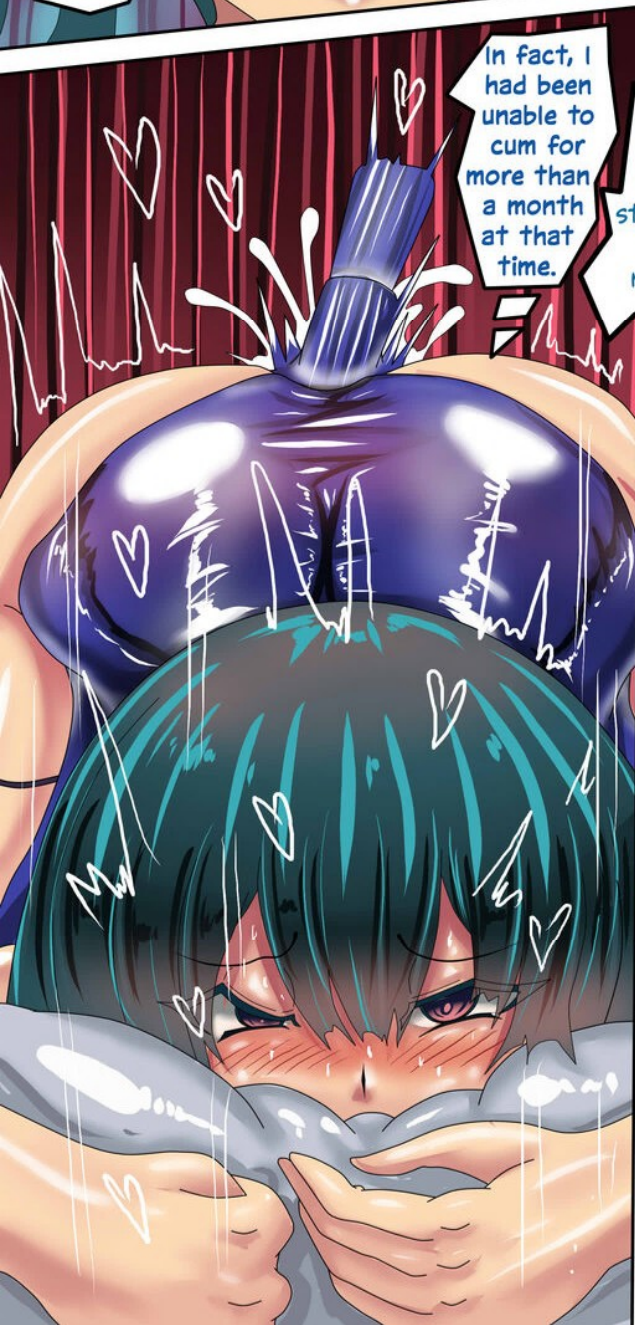

No...

What, wait!!

extend

It's in?!

In fact, I had been unable to cum for more than a month at that time.

That stimulate too much!

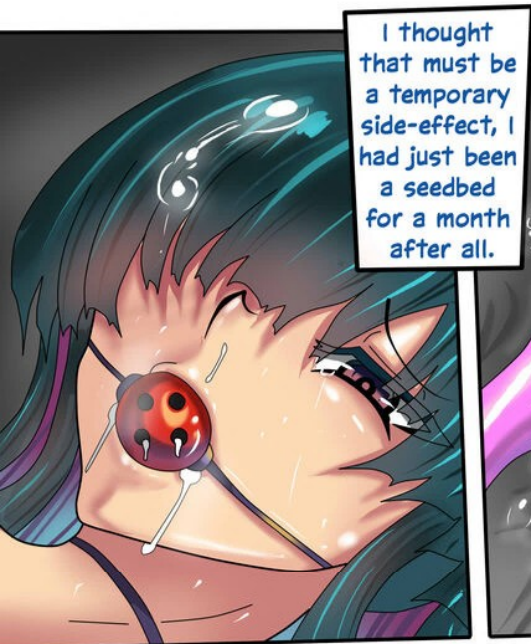

Don't drill into my ovaryyyy!!!

I can't remember anything after I wore that clothes.

My illness was cured by tentacles, what's more, I also got a lot of money.

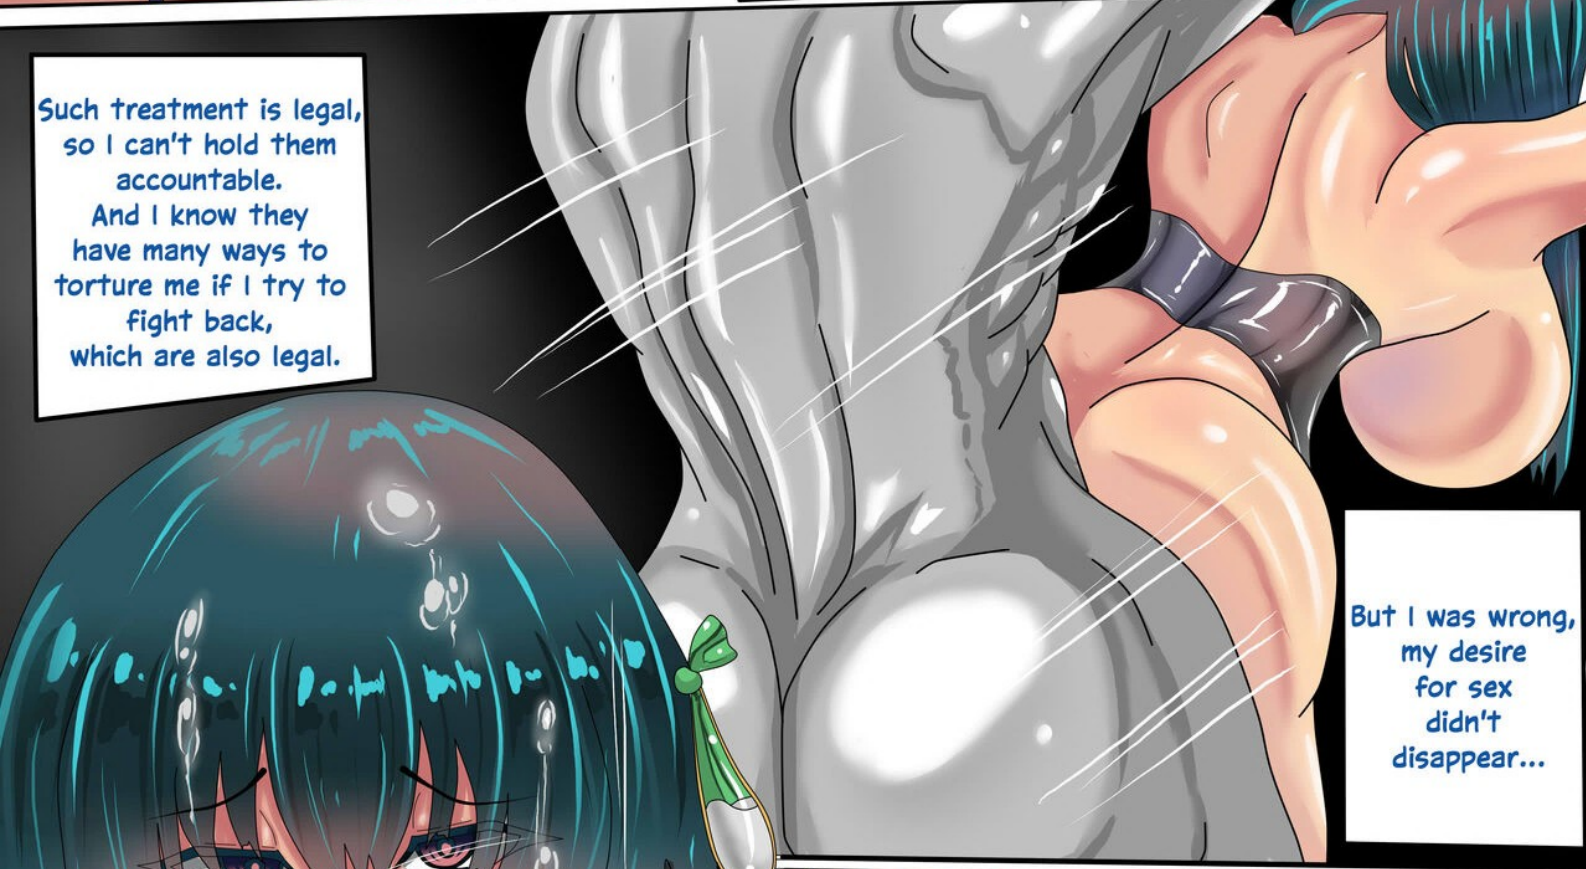

A month passed before I woke up in that white room.

I thought that must be a temporary side-effect, I had just been a seedbed for a month after all.

However, after that, I have been thinking about having sex anytime ceaselessly.

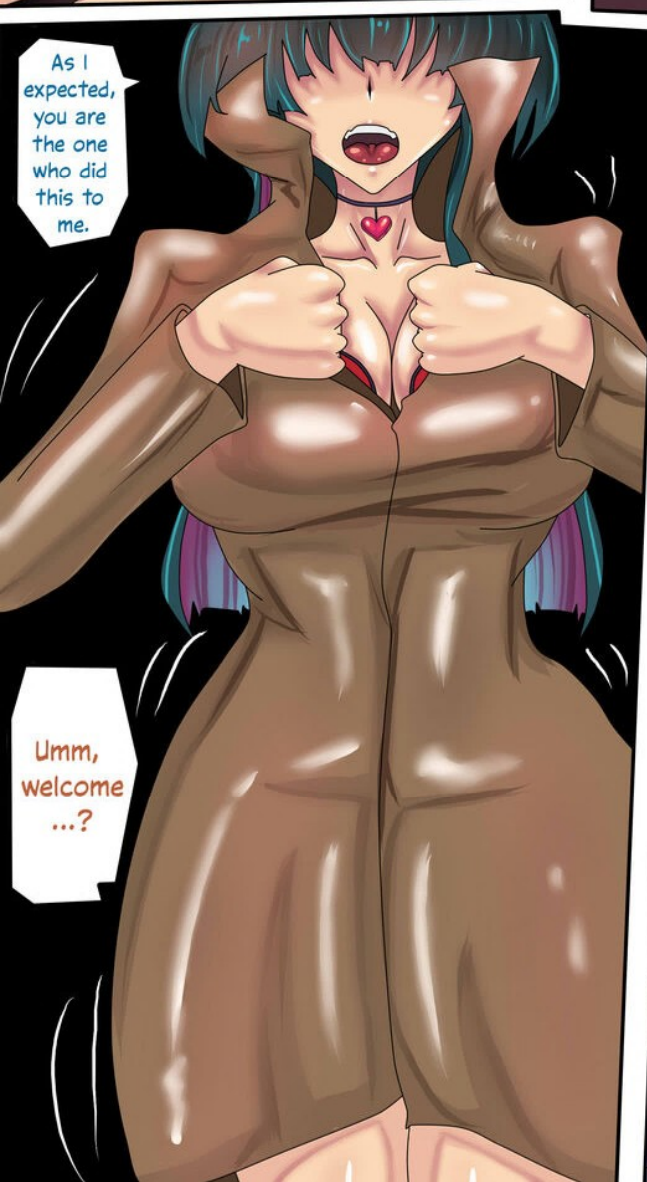

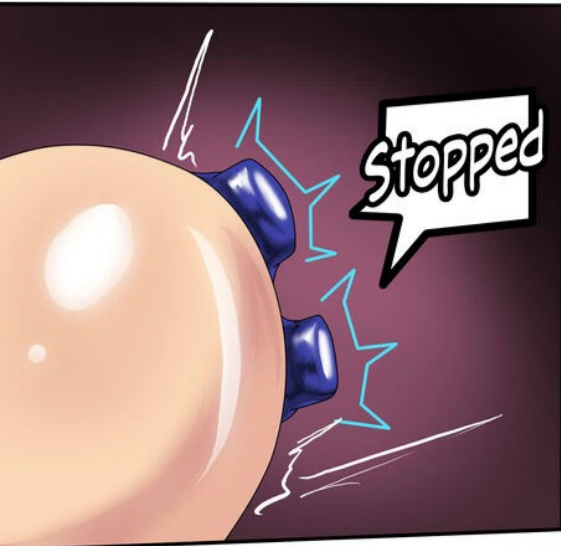

Such treatment is legal, so I can't hold them accountable. And I know they have many ways to torture me if I try to fight back, which are also legal.

But I was wrong, my desire for sex didn't disappear...

Neither sex toys or dicks can make me cum. I realized that this is the price.

Boss, check out!

Umm, welcome ...?

It's time for fitting installation. You will be unable to move at that time, so the part for your uterus must be carefully handled.

The golden breast plug will stimulate your breast to produce milk, which will be removed after one month.

What did you put into my breasts? Please set me free.

I must not stimulate it, or it may really imprison me. I'm taken in!

In order to prevent you from resisting, I will give you personal freedom after installation.

Don't be a bitch that only think about your sexual desire, what if our customers want other services?

When I want to ask for help, something will stuck my vocal cord.

SEX DOLL MODE

falling down

I feel I'm becoming a bitch...

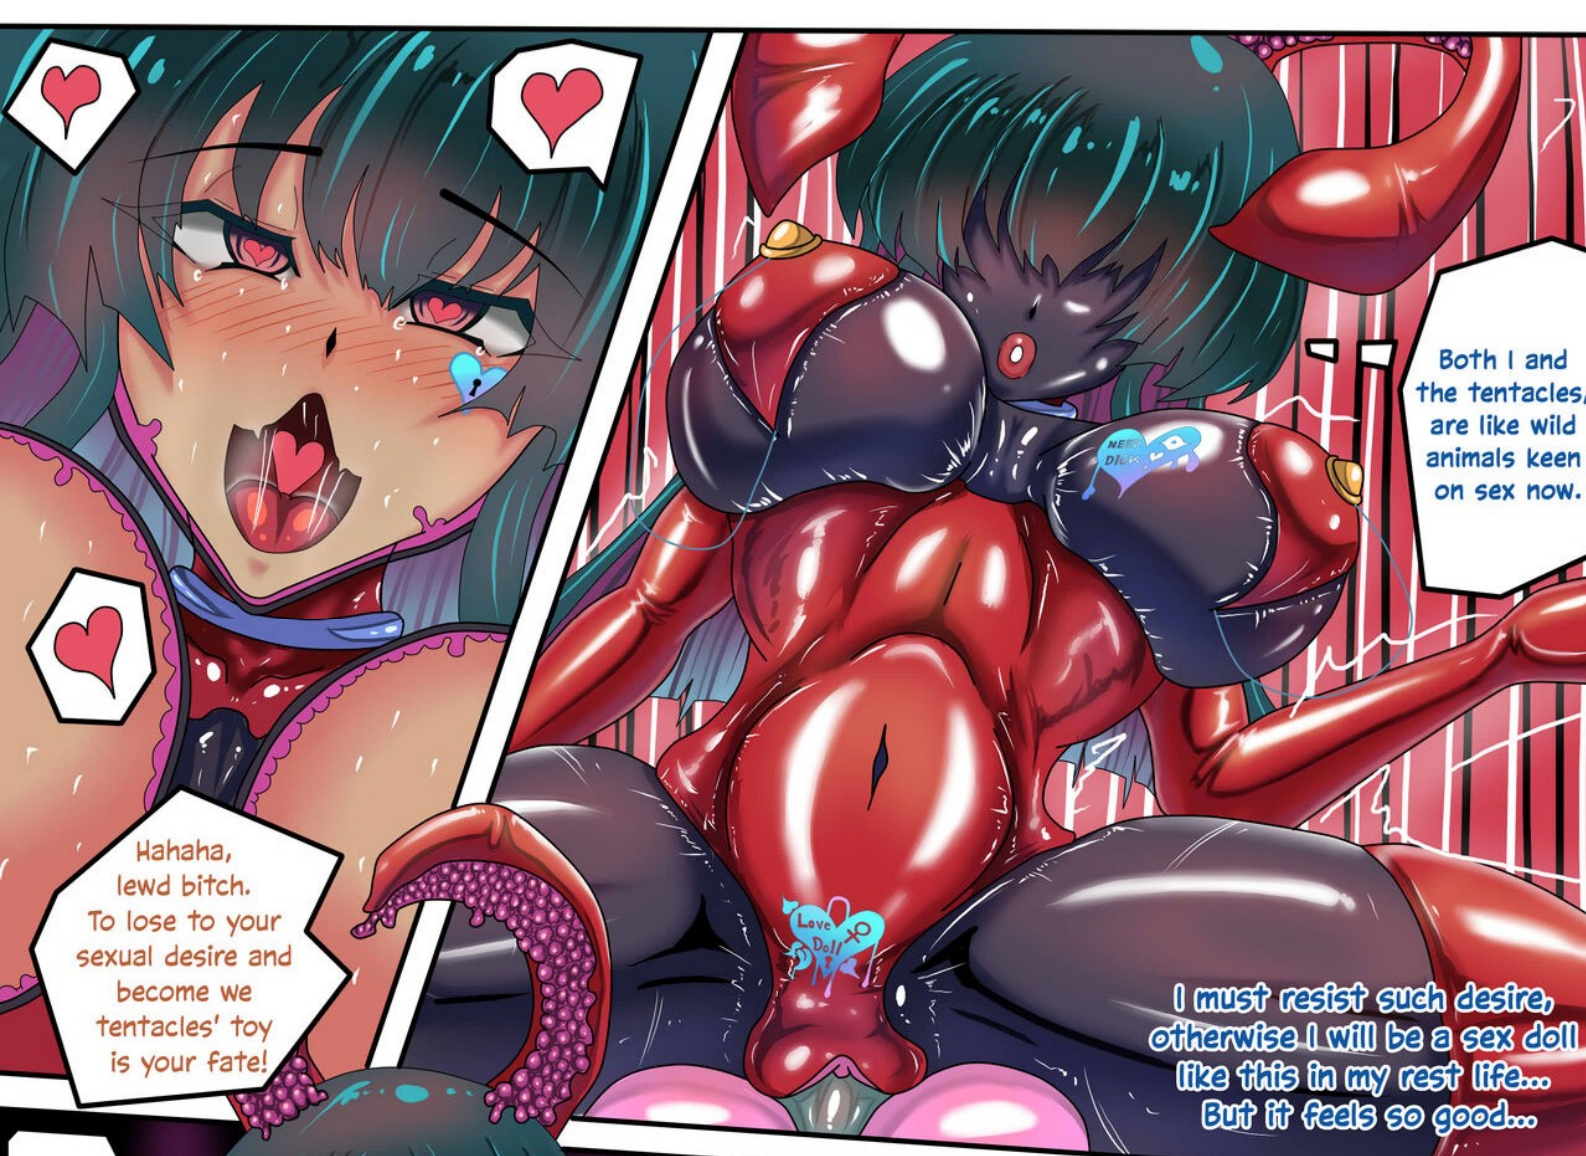

Maybe I will be unable to get rid of the addiction of tentacles even after I'm saved...

It feels good, it is sticking into my body.

The tentacle uterus is stimulating my body and dick...

Both I and the tentacles are like wild animals keen on sex now.

Hahaha, lewd bitch. To lose to your sexual desire and become we tentacles' toy is your fate!

I must resist such desire, otherwise I will be a sex doll like this in my rest life... But it feels so good...

Master, I'm back!

TURN TO [SLAVE PERSONALITY]

No, it takes over my body!

I remember! I was brain-washed!!!

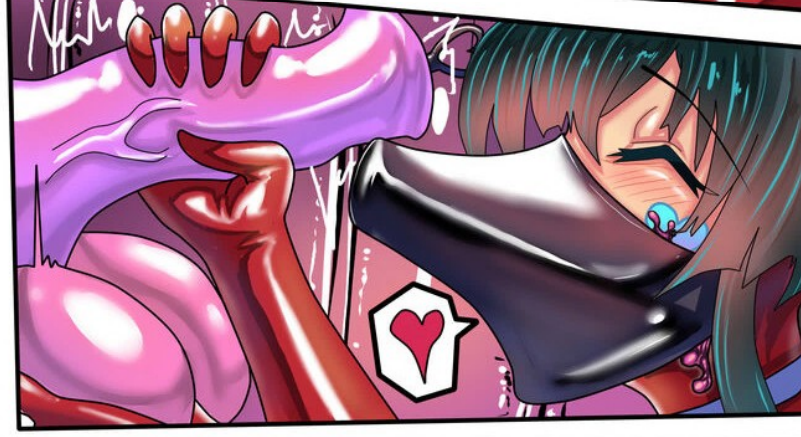

Do you really think that the police will save you by the day they come? I've already implanted a slave personality into your body.

The memory of the slave personality filled the blank part in my mind of this month. Those erotic scenes and my naked body is replaying again and again in my eyes.

My own personality is also influenced during this time. My thought, behavior, and language habits are also transformed into the style that Tentacle Noble Asimov like.

In the following days, I still keep my self-consciousness, but my body is controlled by that slave personality

The slave personality is using my body to serve different customers.

Which makes all the police believe that I volunteered to do this.

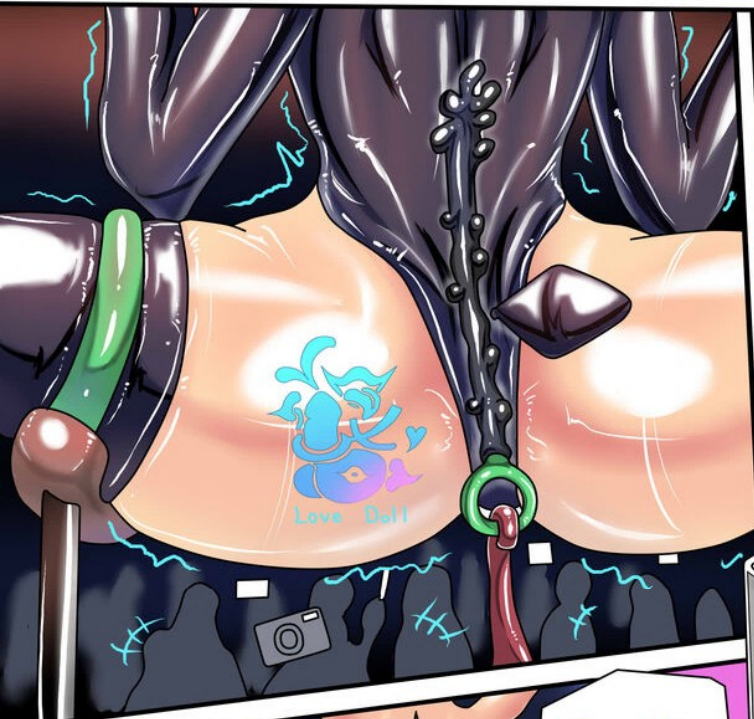

Have a good rest. It's time to get her fully trained.

competition of Tentacle Esophagus Production

This kind of esophagus tentacle is our new products, which is widely used, such as curing colon cancer. They can also help the host to absorb new elements. These features can be used for military and medical, and of course adult purpose too.

Welcome to this event! We have players from many medical or seedbed companies.

Their esophagus tentacle is switched into the special mode, which can help them give birth as long as they're drinking semen!

Let me go! Damn it, they are liars.

The rule is simple: The first one to give birth to enough number, can win the award.

Of course, as a erotic event, we have special punishment for the last one. Although the game has not started yet, we have got lots of orders from the gov-hospital now.

Since here is a public place, I have one and only chance to call for help...

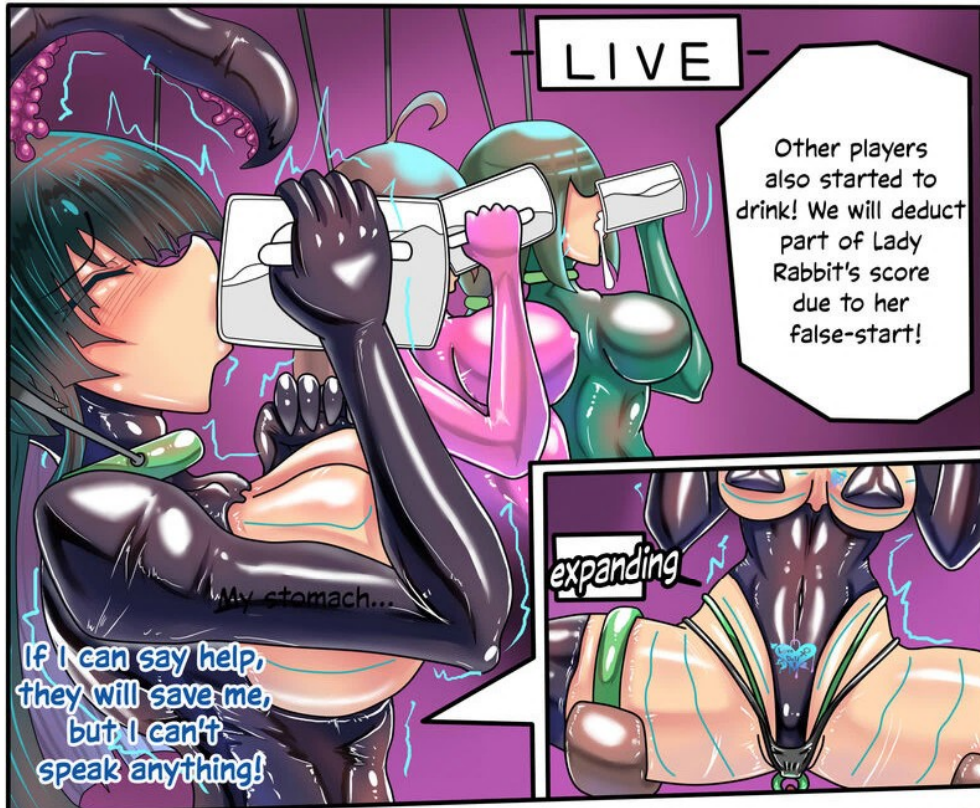

Nice, the government is in, I can get help!

My vagina is locked from cumming, it is terribly itchy...

tightening

LIVE

Other players also started to drink! We will deduct part of Lady Rabbit's score due to her false-start!

If I can say help, they will save me, but I can't speak anything!

Lady Rabbit is the first player of this challenge, she is drinking so fast!

Hel...! Ummm...!!!

My stomach is filled with semen, and I can feel it becoming solid...

Umm!

Hel... Umm...!

Don't pull it, I'm dying!!

Umm BB

cough

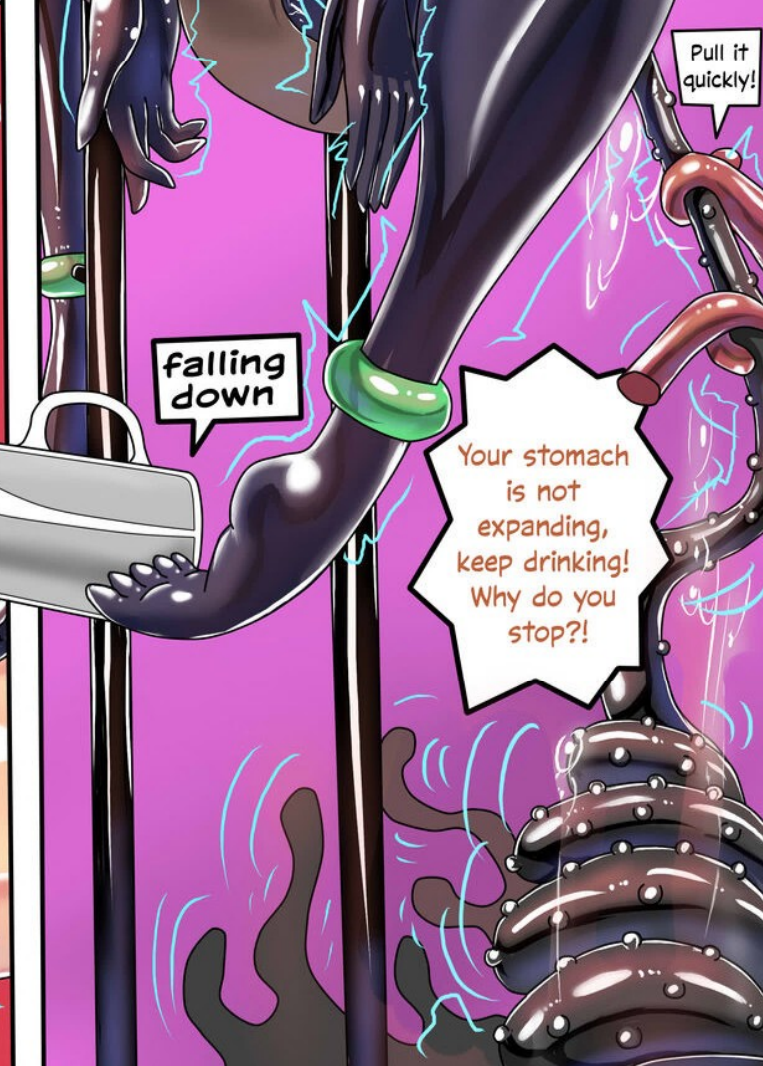

AAAAH, I'm gonna dying...

Start delivery!

I really hate those novice who comes only for reward.

According to the rule, you will be forced to keep drinking and delivering after you got unconscious.

Your performance is too bad, Lady Rabbit.

Ahh, I just lost my consciousness, don't fill the semen into my mouth!

Damn it, the semen for this game is expensive! Have more training before you come here OK?

Pull it quickly!

falling down

Your stomach is not expanding, keep drinking! Why do you stop?!

Now is the punish-stage, which everybody is looking forward to!

And the last one is Lady Rabbit, which is from the same institution with MissNyan.

The champion is MissNyan, and it is the second time for her to win the prize!

Oh... I'm in a coma again. I must ask for help now...

Wait, let me answer a phone call first.

The first place, MissNyan, seedbed operation and management office

The crowd is too noisy, and my throat is filled with semen. I can't shout loudly!

My vagin is near my limit, and my transformed body is falling into the whirlpool of pleasure

My body is out of strength and I can't even raise my hands. But I must stop them, otherwise...

Ehhh!!! A large asshole plug? What do they want to do?!!

XL size asshole plugs installed

suddenly falling down

Ladies and gentlemen, attention, the last part of this punishment will be excellent!

Get ready...

Use all the semen for the production this time.

I really want to unplug that annoying lock, but my hands are controlled by the tentacle clothes **unplugged**

Ahh!

I can't resist at all...

A huge tentacle is fixed in my stomach.

One... Two... Pull it out! Fantastic! Even the metal bracket is also bent.

branching

Don't pull that out, it will make me break down! No...

Ahh, I can't shout my words out.  
That bastard wants me to die?!

We still have a lot of semen stocks, I think we must be serious to the request from the government.

That's great. It is not an easy job, we will pay to Lady Rabbit's bank account after this event over.

No, stop!  
Let me go!!!

NEXT

Anyone help me  
.....?

Hel...Hel...  
Help me.....

Keep going  
she says~

I'm the boss of her institute,  
I'm sure I know her thoughts.

What is  
Lady Rabbit  
saying?

Elise is tortured constantly, but she fails to ask for help. Under the control of the tentacle clothes, she can't cum by herself. Only the tentacle dick can give her freedom of pleasure. Due to the cum-limit lock, she is eager to orgasm and she is nearly crazy in such situation. Having no chance to escape, she finally make an agreement with the tentacle that she must finish the task to get an orgasm.
