Hello dear friends. Maybe you know, that I love self-bondage. Today, I want to try something new and therefore there is a lot of equipment around me. I do not want to spoil too much but there is a random generator in front of me, which activates the vibrator and the dildo at random independent in a timeframe from 5 to 30 minutes. Additionally, the intensity is also determined randomly... So, let's start preparing the upcoming session.

These cuffs are designed for self-bondage sessions. You can set a timer on each cuff and when the cuffs are closed the timer counts down in minute intervals. I set them to the maximum value of 999 minutes. If the timer expires, the cuffs open automatically.

Jutta connects the cuffs with the chains on all 4 corners of the bed. On the other end of each chain is a heavy weight (55 lbs/25 kg) placed in resting positions. All weights together weigh much more than Jutta.

Afterwards she inserts a butt-plug into her back-entrance. Jutta moans heavily while doing this.

This collar itself has not really an important function but when I feel it around my neck it increases the sense of helplessness

The pain itself is not really the way to make me horny, but to endure pain and to know, that I am unable to do anything against, this is, what I enjoy.

Jutta turns the little wheel on the middle- bar until her nipples are stretched to maximum.

Jutta starts with the left ankle cuff and after the cuff is closed the timer starts to count down. Jutta should take care not pulling the chains to release the heavy weights before all cuffs are closed.

After closing the ankle-cuffs, Jutta continues with the combined dildo and vibrator. She inserts the dildo in her vagina and the head of the vibrator pushes against her pearl.

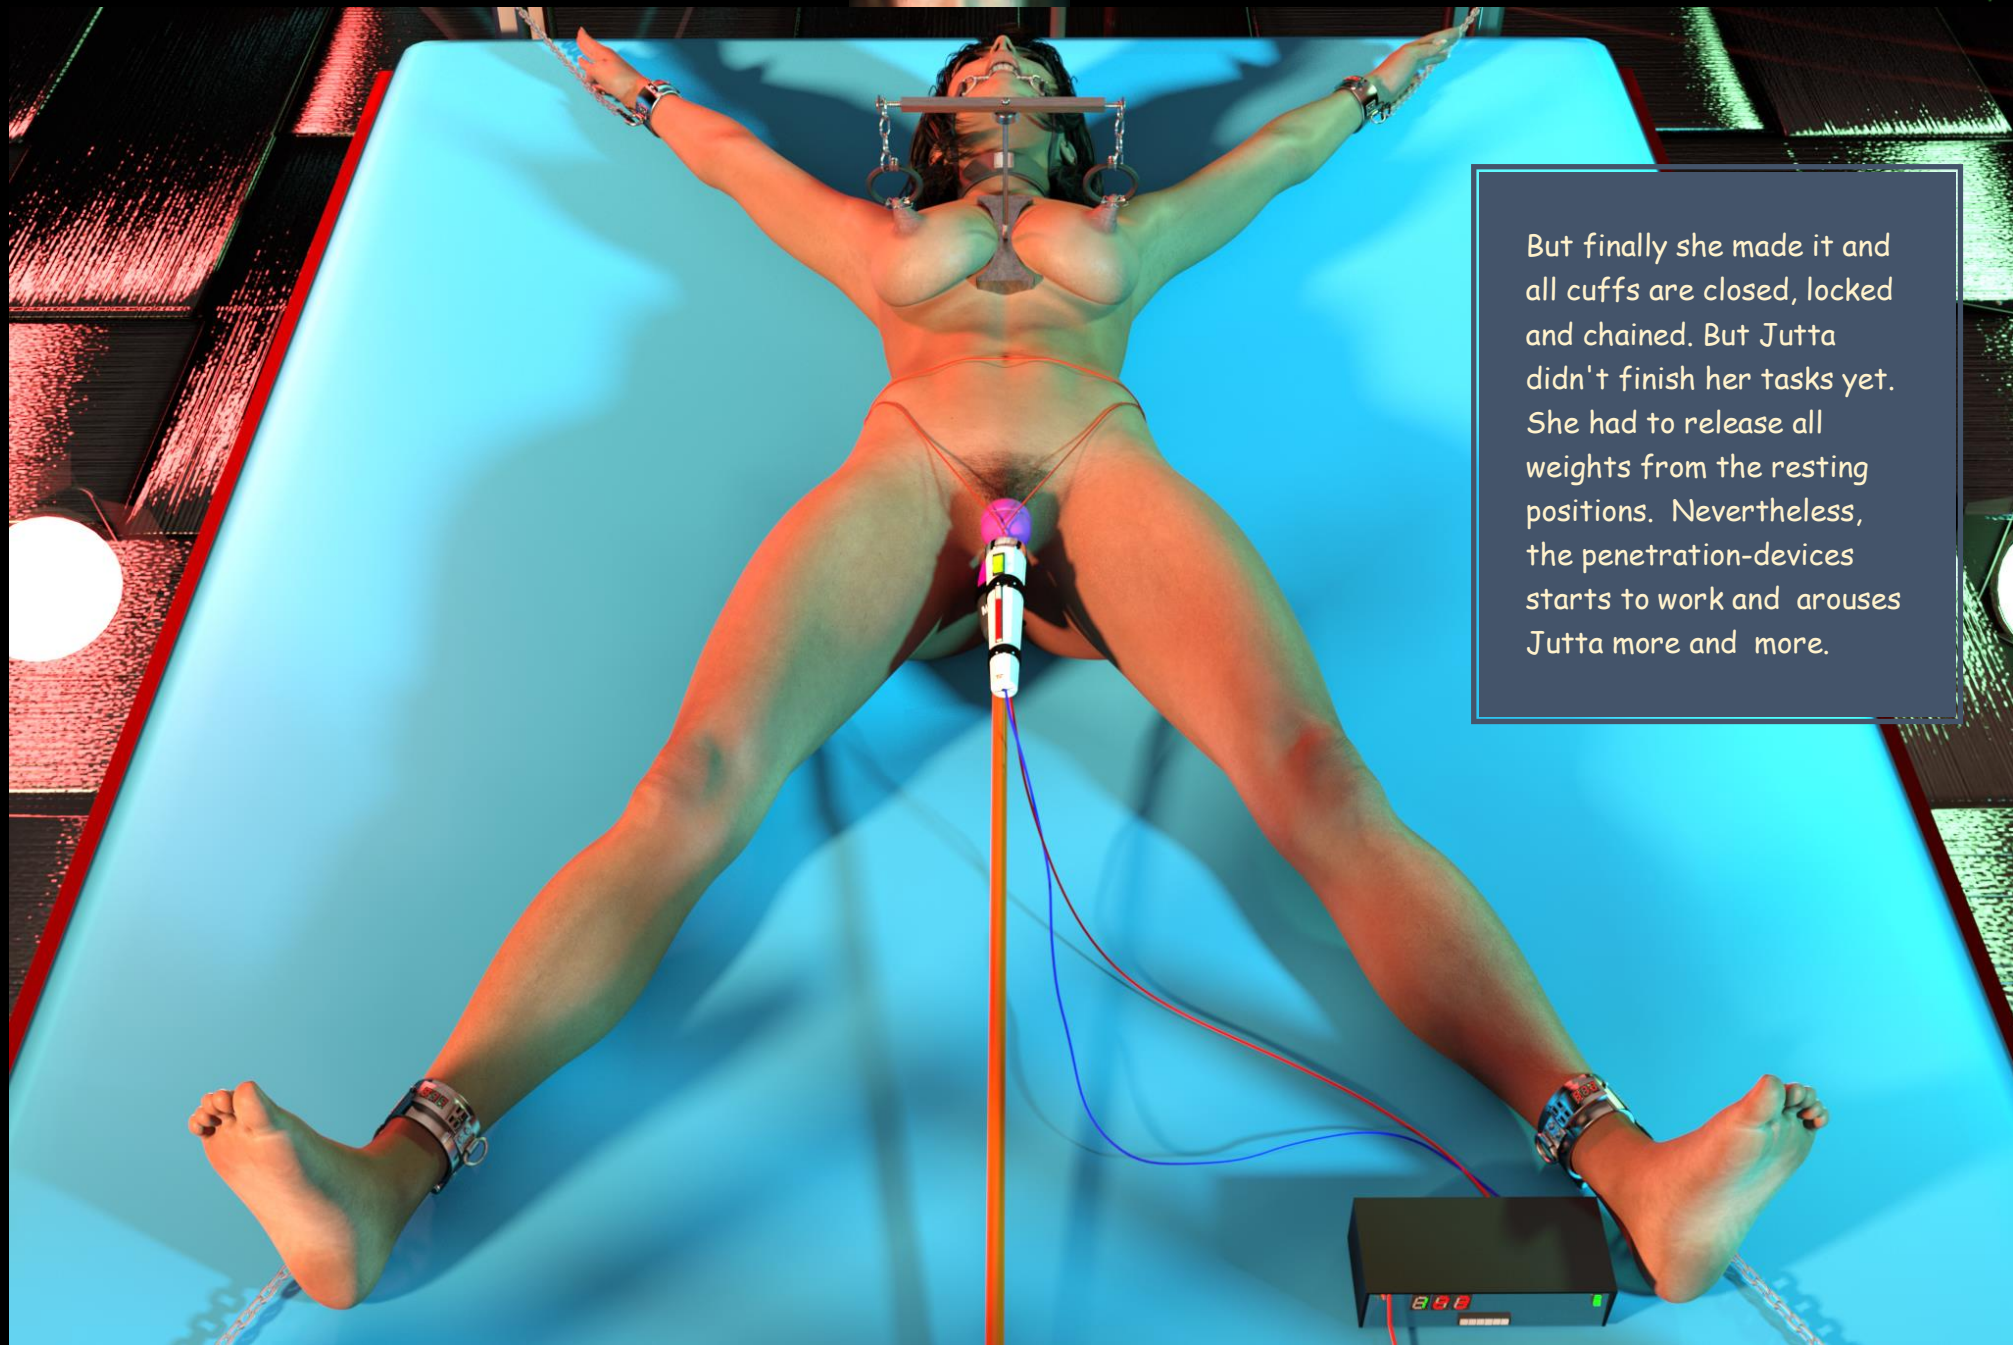

To prevent, that the dildo slips out or the vibrator leaves the desired place, Jutta wraps a cord around her waist and fixes both.

Last not least, a ring-gag will complete the setting and aside to remove her ability to speak it should increase the helplessness too.

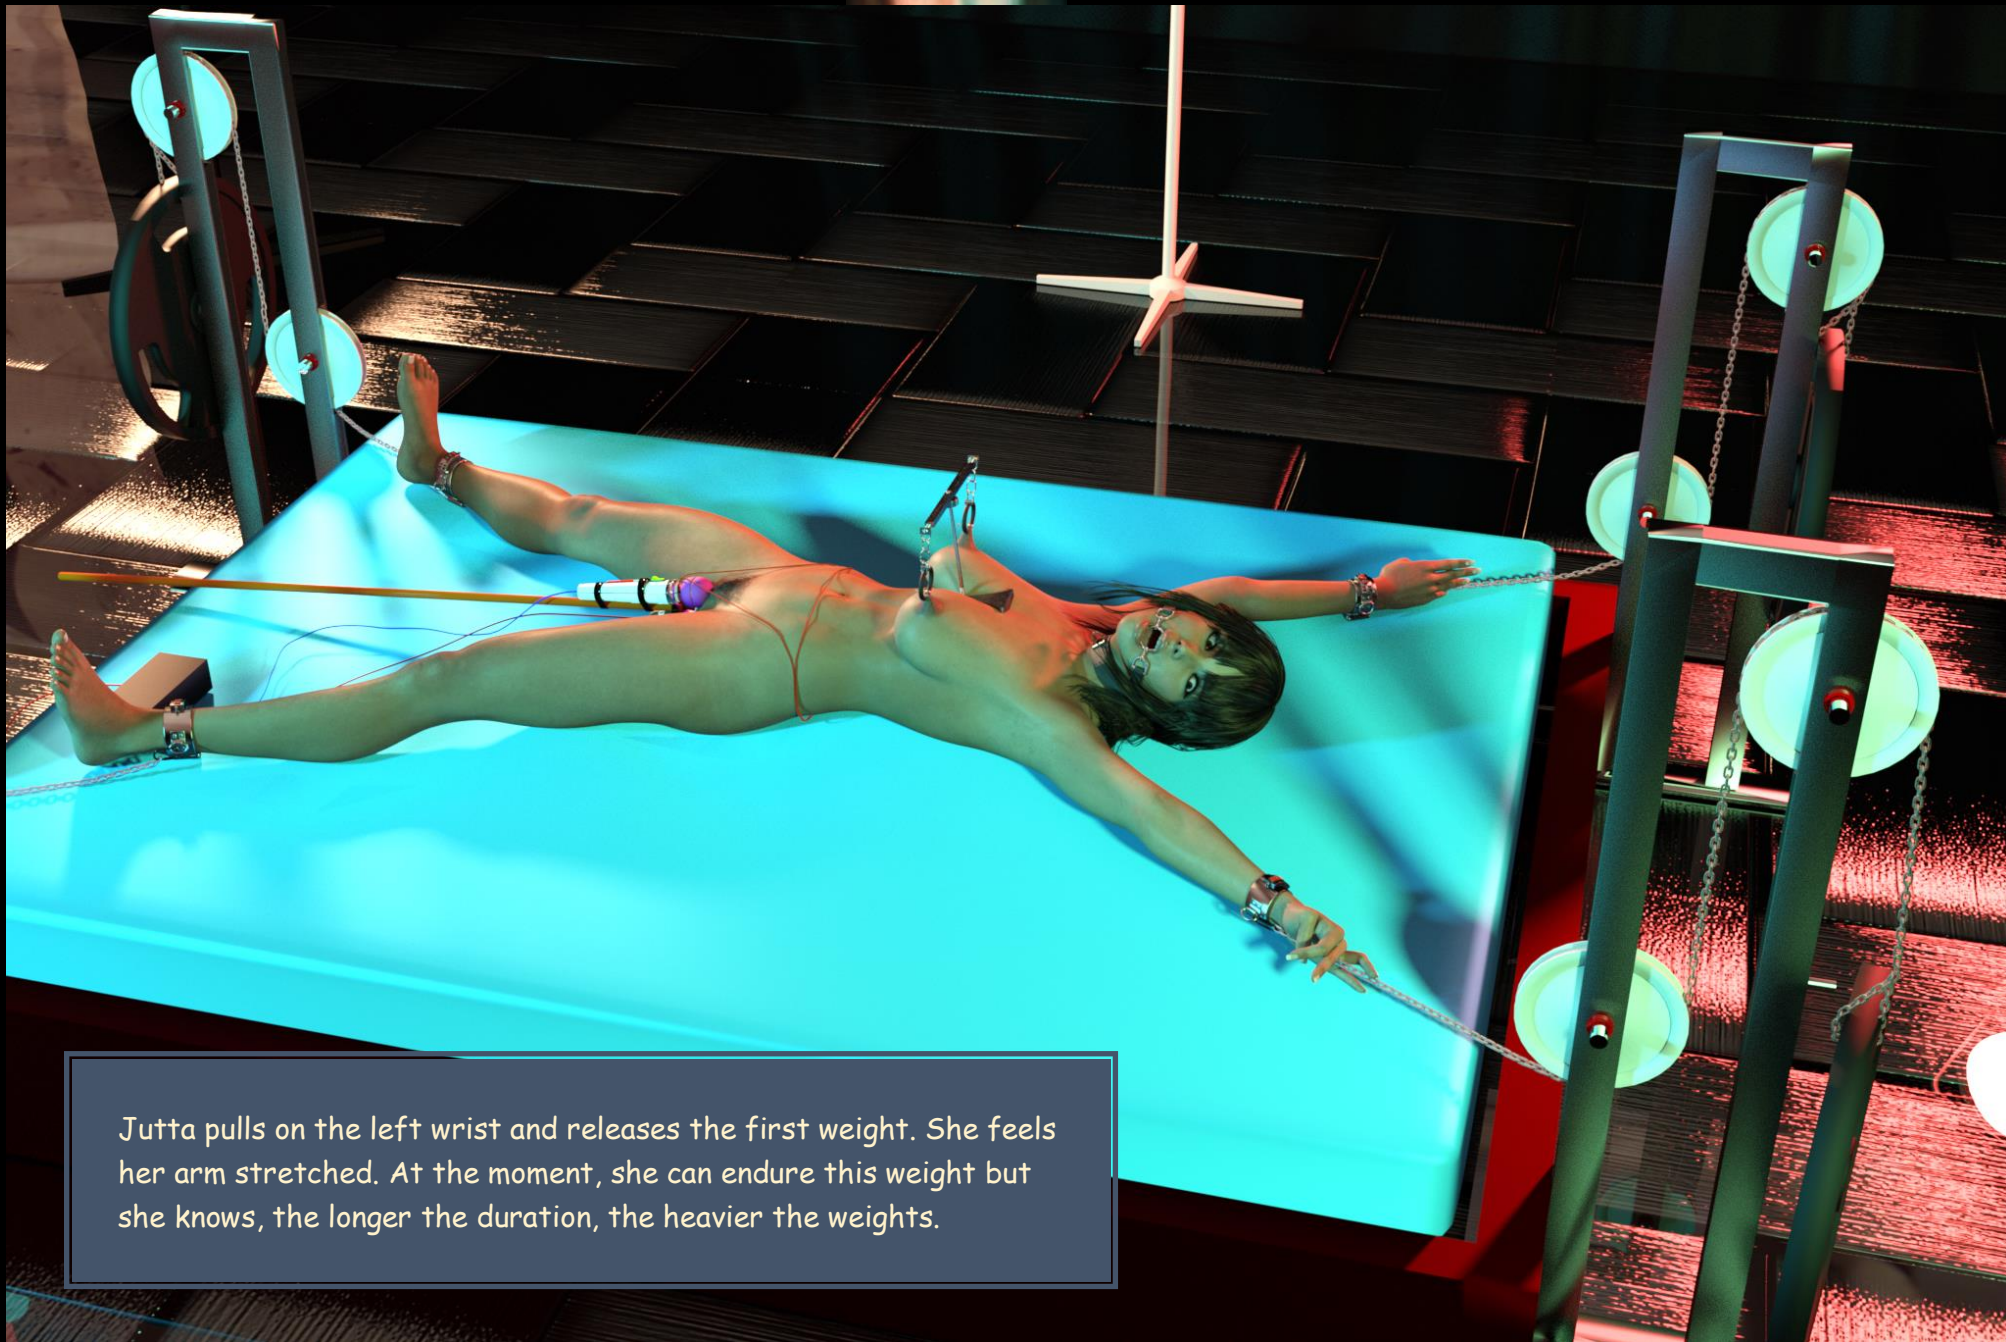

Jutta didn't expect that it is so complicated and hard to close the wrist-cuffs with all the devices attached.

But finally she made it and all cuffs are closed, locked and chained. But Jutta didn't finish her tasks yet. She had to release all weights from the resting positions. Nevertheless, the penetration-devices starts to work and arouses Jutta more and more.

Jutta pulls on the left wrist and releases the first weight. She feels her arm stretched. At the moment, she can endure this weight but she knows, the longer the duration, the heavier the weights.

She did the same with the right ankle cuff and releases the weight too. And meanwhile 110 lbs. stretches Jutta diagonal. Jutta is a bit scared to release the other weights too.

But Jutta did it and 220 lbs. stretches Jutta and lifts her up. She floats in the air and loosens the contact to the bed. Every movement of her causes swinging and vibrating of her whole body.

Two hours and three orasms later ...

Jutta couldn't believe how slow time could float. On her ankle-cuff you could read, that there are 532 minutes left until release. It seems that the weights are getting heavier.

The penetration with the dildo and with the vibrator starts and ends totally unexpected. Sometimes only one device is active, sometimes both together. Many orgasms occur but there are much more interruptions, most of the time close before coming.

Endless torture permanent  
stretched body ...  
loss of mindcontrol ...

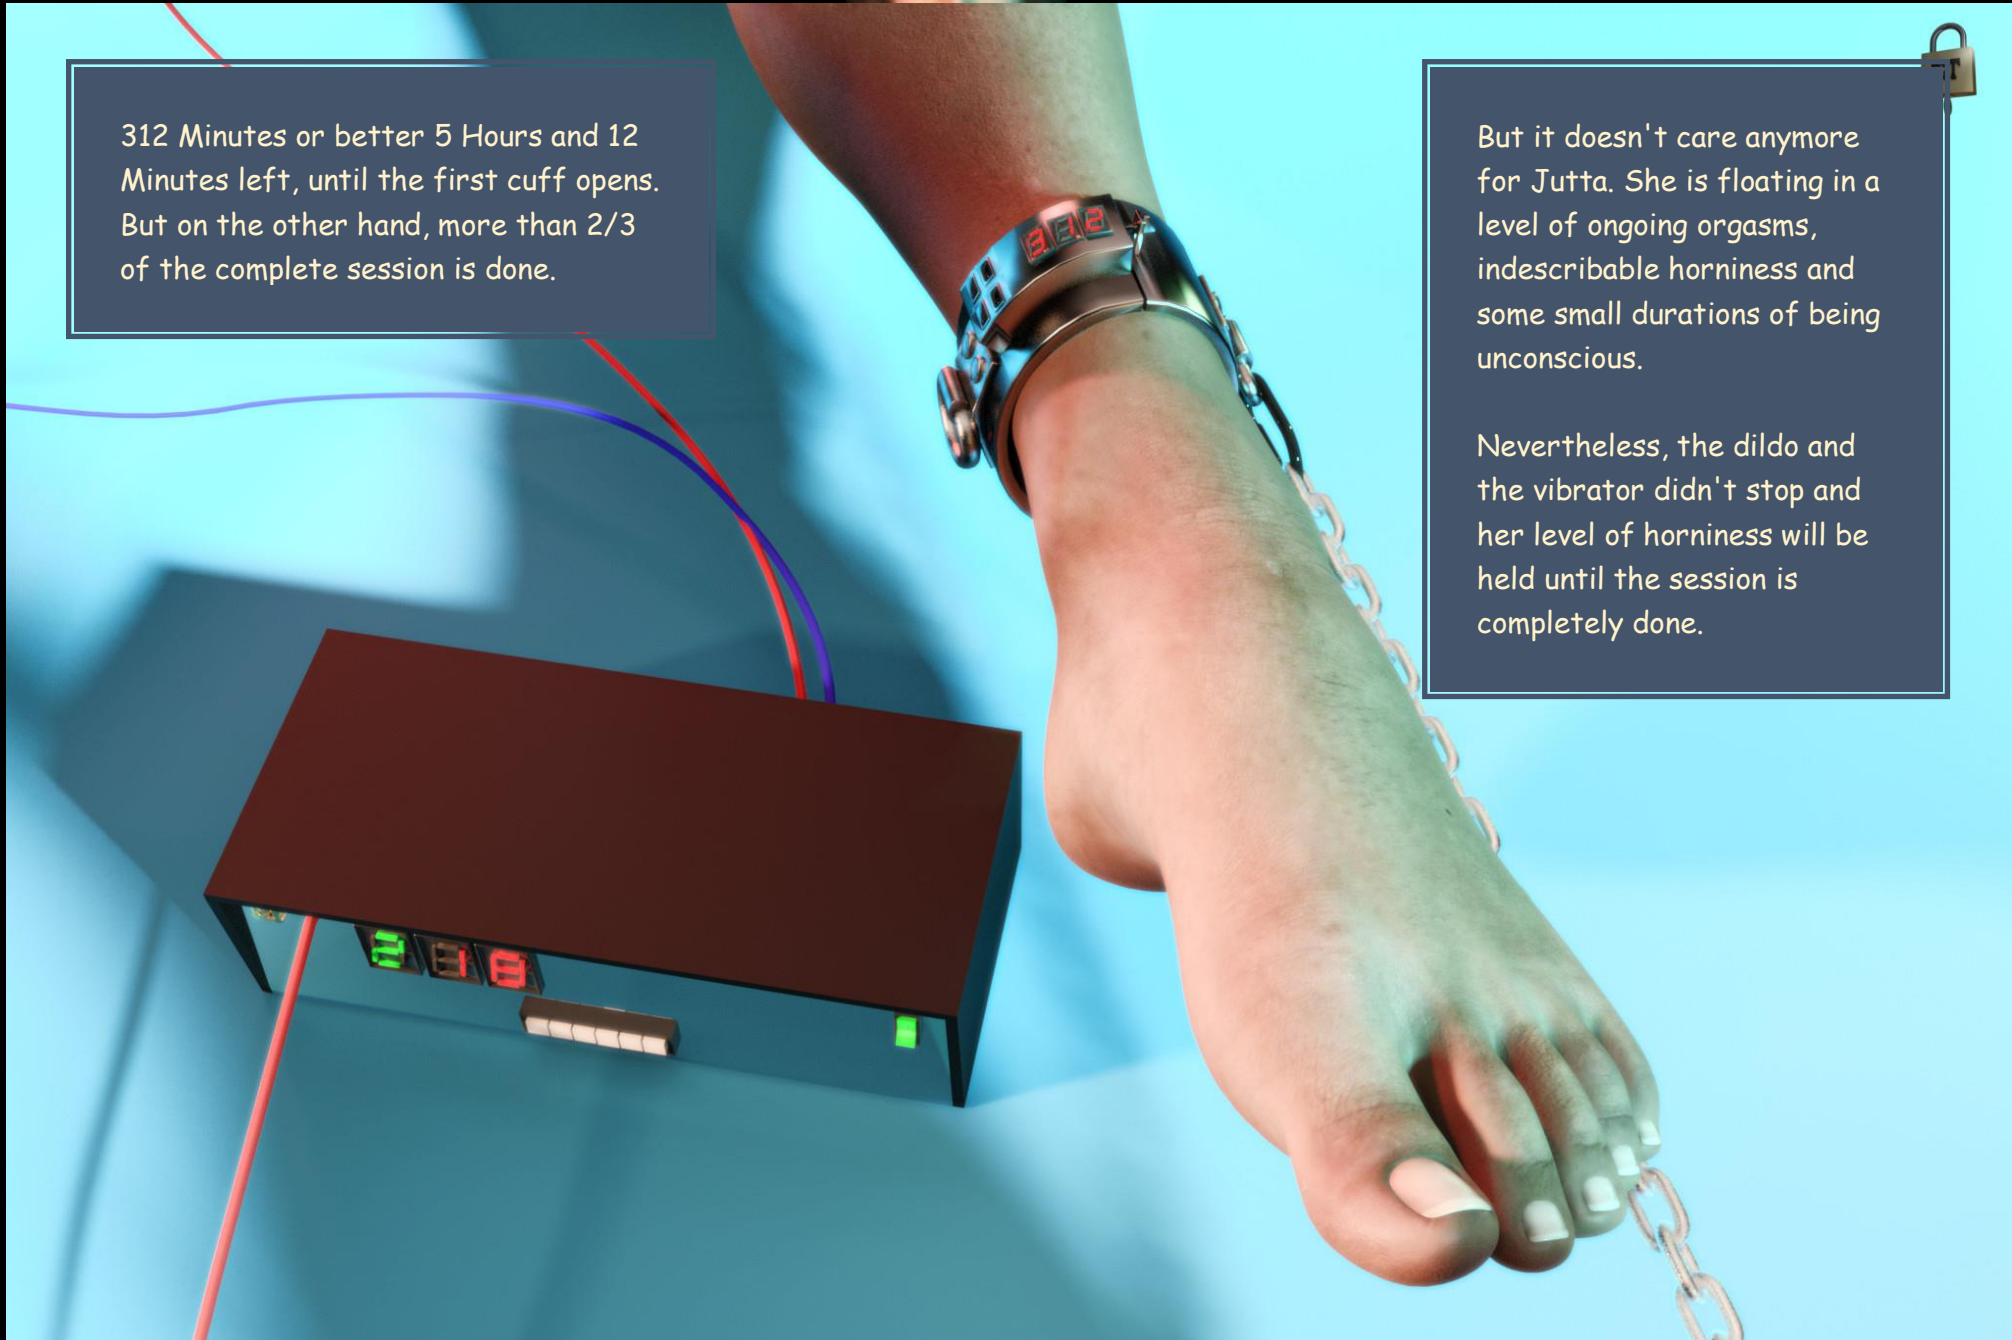

312 Minutes or better 5 Hours and 12 Minutes left, until the first cuff opens. But on the other hand, more than 2/3 of the complete session is done.

But it doesn't care anymore for Jutta. She is floating in a level of ongoing orgasms, indescribable horniness and some small durations of being unconscious.

Nevertheless, the dildo and the vibrator didn't stop and her level of horniness will be held until the session is completely done.

The ongoing strain produces sweat on her whole body ...

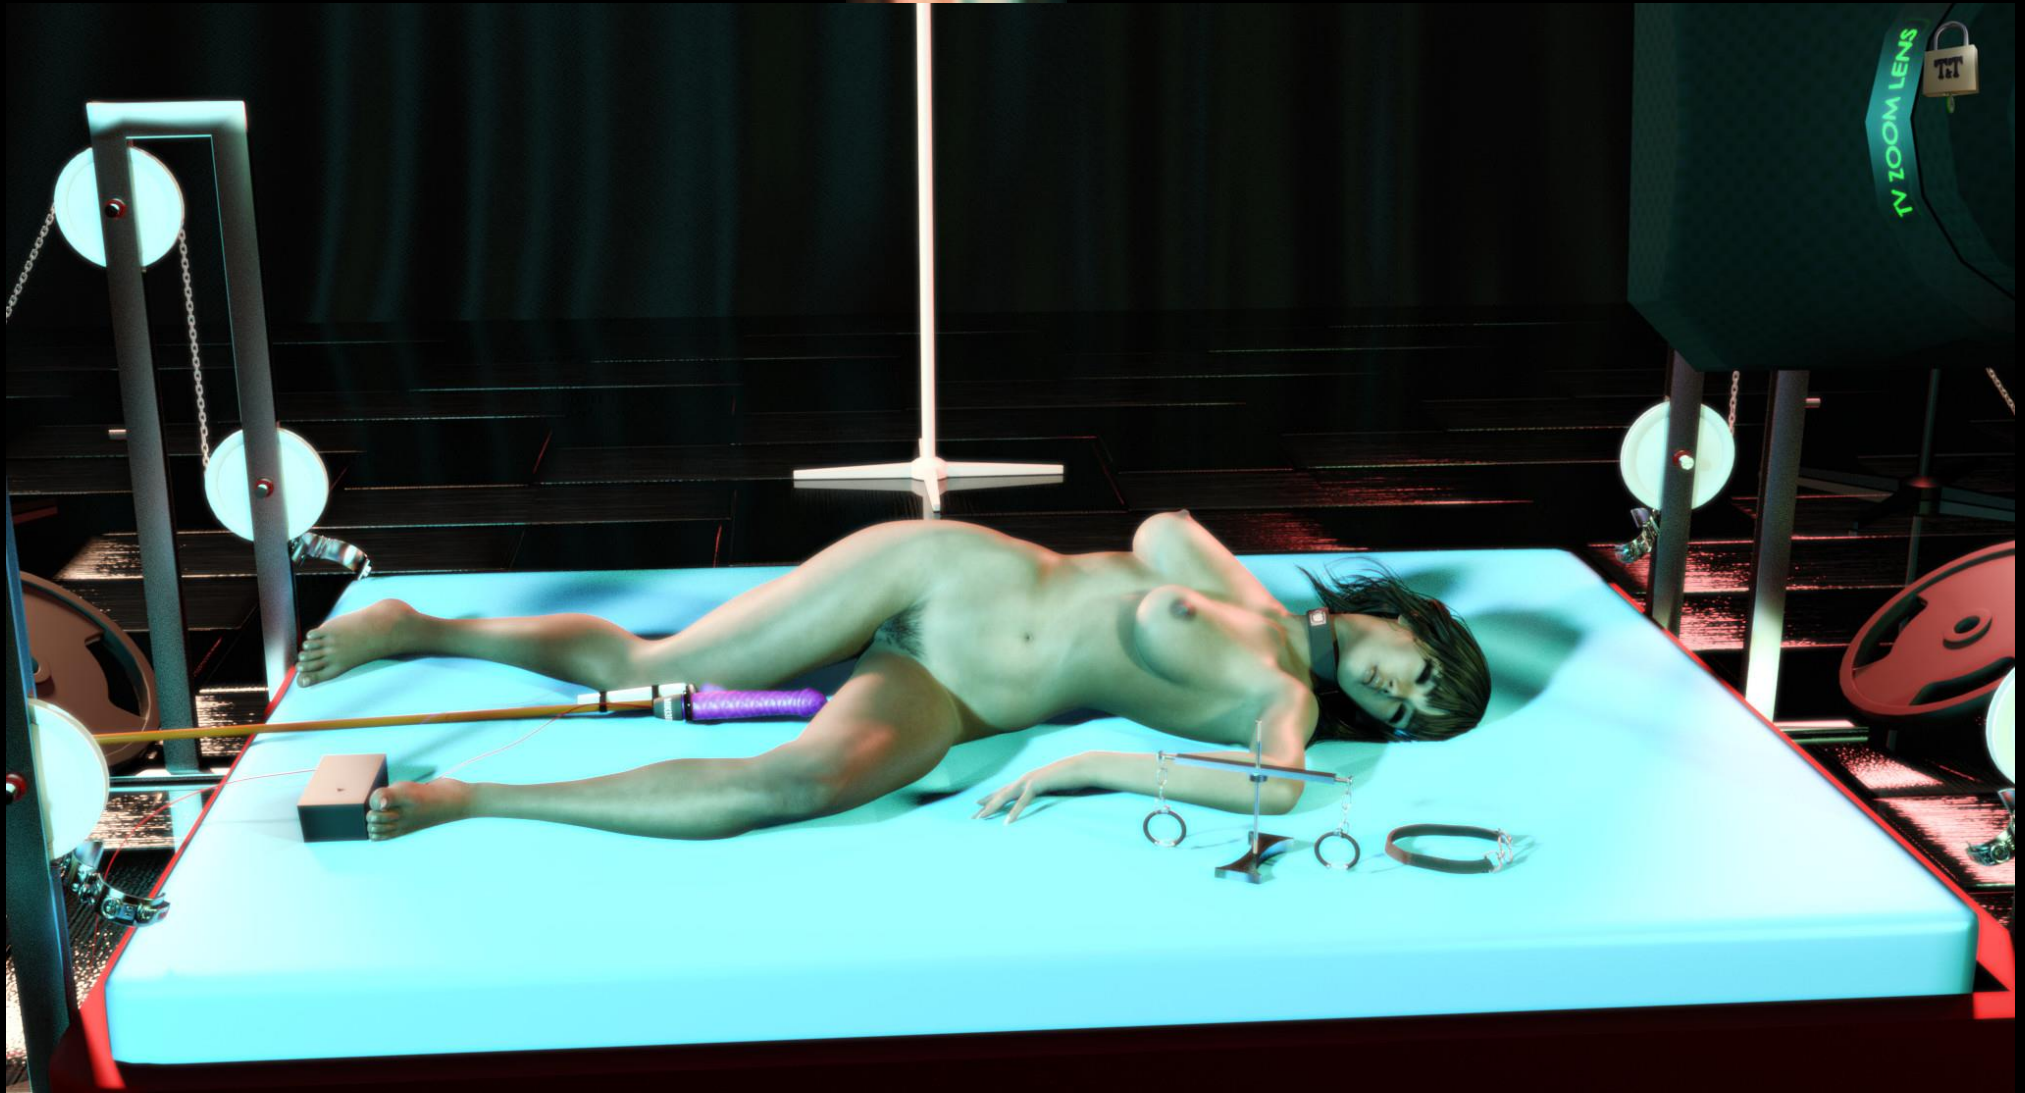

The timer on the left ankle cuffs shows: "000" and the cuff opens. The weight slumps down to the floor and moves the cuff to the front end of the bed. One leg is freed by now.

A few minutes later, Jutta's other leg was freed too. But Jutta couldn't do anything because she has no strength anymore and the wrists are already restrained. The dildo and the vibrator are held in place by the cord and continues penetrating Jutta. She remembers that she needs about half an hour between closing the right ankle-cuff and the right wrist-cuff.

As soon as her right wrist-cuff opens, Jutta loosened the pull-bar which stretches her nipples painfully and afterwards she opens the cord around her waist and drops the dildo and vibrator away.

The fourth cuff opens. Jutta has freed herself from all painful devices and fell asleep.

After about 2 hours Jutta awakes.

Oh, my This was so crazy. I'd never had a similar experience. I think I had enough orgasms for the next weeks. But it was really exciting.

Jutta sits on the edge of the bed and her body still shivers as result of the last session. It needs some time until Jutta is able to stand up.

Jutta stand up, walks to one of the cameras and tries to examine the recording.

I am really curious about this movie ...

But ...

**“OHHHHHH MYYYY GOOOOOOOD,**

**I forgot to start the recording. I had to do all  
the action once again!!!!”.**

**Will Jutta really did it twice?**

**But maybe we will see Jutta soon in a  
different wicked situation ...**

**So stay tuned on this channel**

Tawny**
