Jutta: "Hello dear ones,

it's been 4 years since I let you participate in a self bondage session of mine. I think it's high time to do a self bondage session again. Tawny has provided me again with her studio and all the equipment and everything is prepared. Unfortunately Tawny herself can't be there, because she has her exhibition in the other hall. But I hope you have a lot of fun with my performance.

By the way, I repeated the last Self Bondage session after I found out that it didn't work out with the recording.

Well then, into the pleasure."

Jutta: "In this session, I chose a well-known method with a block of ice for my release. Here you can see a large ice cube where the key was frozen together with the chain. As soon as the ice block is melted, and this takes a few hours, the key falls down and stays on the chain so that I can reach it with my hands and unlock my padlocks with it."

Jutta: "Well then, let's get started. First of all, get rid of the clothing, which is rather a hindrance to my project. Besides, it feels much better naked."

Jutta: "And for sure my panties are unnecessary and even hindering during this session, so away with them."

Jutta: "And for sure a self-bondage session includes an inflatable plug ... I think that feels sooooo good when you are also fully filled in the anus ....."

Jutta: "So, inside is the plug ... and now still pump up ... mmmmmh... that is sooo nice when you are completely filled. Shall I tell you a secret? ... Especially to the men who follow my session. When the plug is fully pumped, even a dildo that I insert in my pussy is felt much more intense because it presses more against my cavity wall. Oh yaaaa, I love it. And once more press .... Delightful"

Jutta: "Uhhhmmm .... I love these nipple clamps from Reika. Once you get used to the pressure, they are extremely exciting because they vibrate so beautifully. It's just a great feeling."

Jutta: "And I will wear this inflatable gag during the session. That means that I can't chat with you during the session. But I will put the gag on as late as possible and hang it on the frame for now."

Jutta: "And now, my dears, I have put you and myself on the rack enough and it is time for me to take my seat on the device. Oh my God, this is soooooo arousing ... and also that you watch me doing it. Very slowly I sit down on the dildo, which penetrates deeper and deeper into me. "

Jutta: "Oh my god, I didn't think that closing the ankle-cuffs is so complicated when you are sitting on a rigid dildo inserted deep inside me. But I manage it ... . And now let's close the first padlock ..."

Jutta: "Pheeeeew ... that was complicated but I did it and the ankles are now fixed to the bar and the cuffs are tightly closed.

Let me recapitulate that I haven't forgotten anything:

The key is hanging frozen in the ice block with the chain on the back ... the butt-plug is fully pumped up ... the dildo is deep inside me ... the vibrator is pressing against my pearl and still hooked up to the power while currently switched off ... the gag is hanging handy on the back ... the nippleclamps are filled with batteries and still inactive ....

OK, this looks good so far, that means I can close the clamp around the neck ....

Oh yeah ... this is soooooo hot ..."

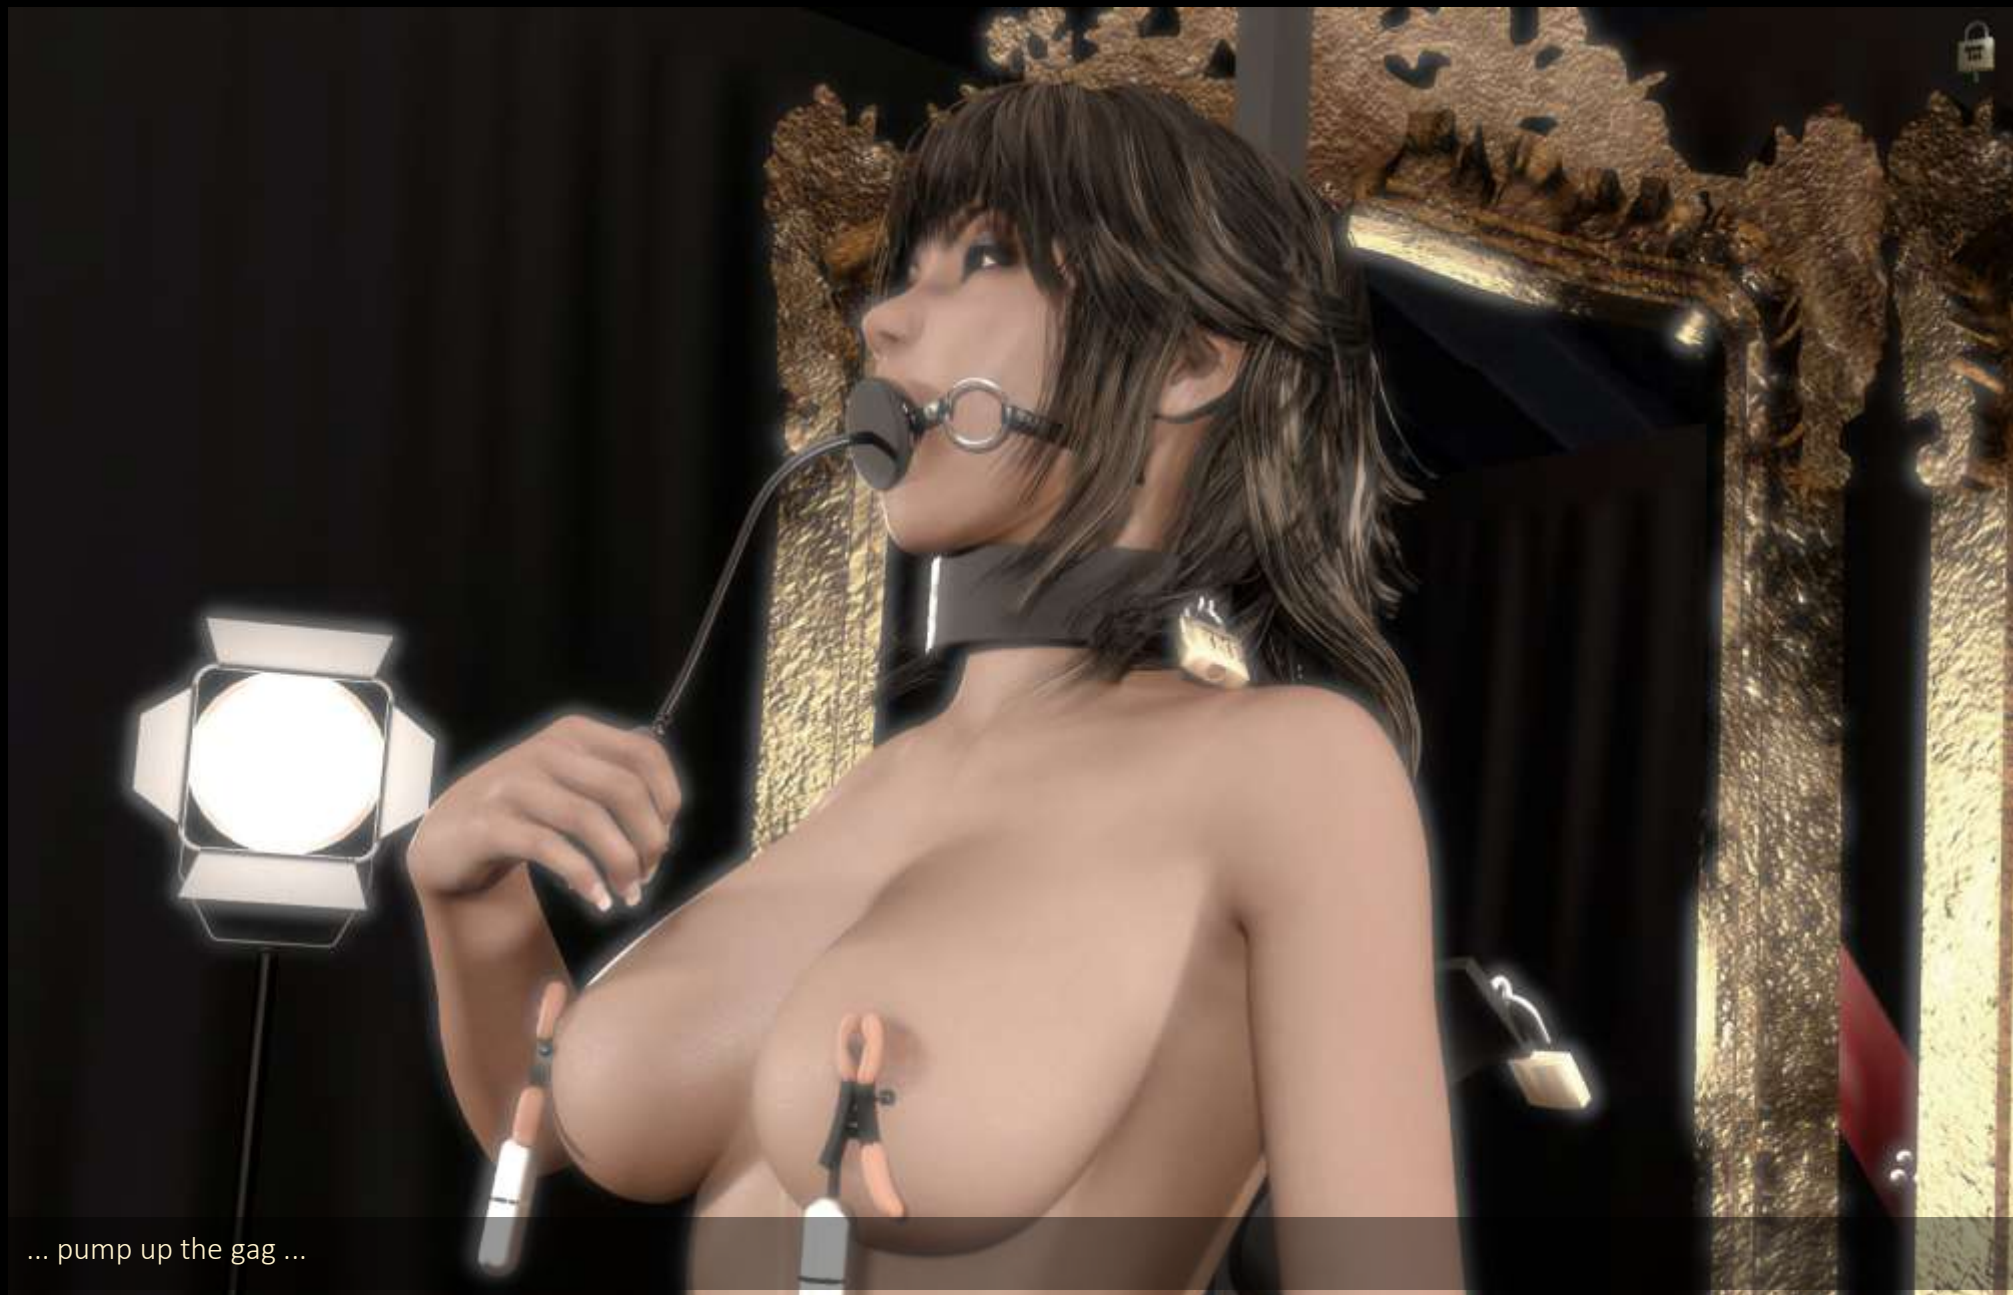

Jutta: "My dear friends, unfortunately I will not be able to tell you anything more now, because I am now putting on the gag. So more than moaning and 'MPF' sounds you will not hear from me. I hope you enjoy the following pictures as much as I will enjoy my situation."

Jutta waves to you with a smile and then puts on the gag ...

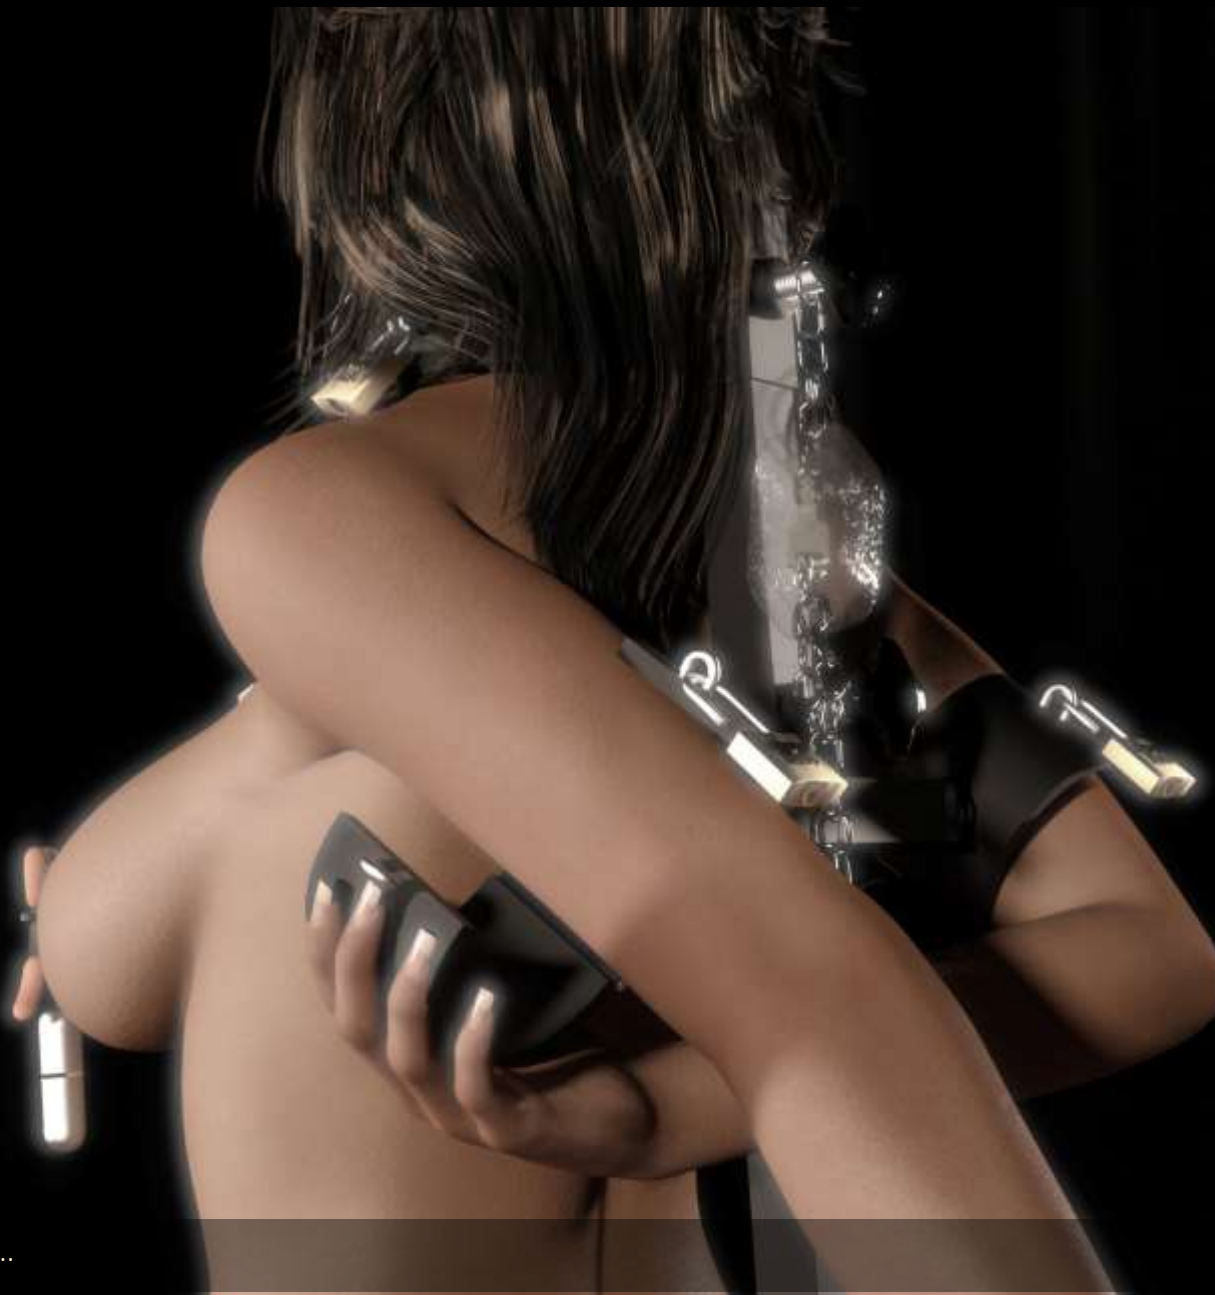

... and silence ;)

... pump up the gag ...

The next step on the way to Jutta's flight of fancy is switching on the vibrator, which is immediately accompanied by a tingling sensation all over her body and corresponding moans from Jutta.

... closing the left arm-cuff ...

Jutta still closes the 2nd arm cuff, which turns out to be relatively difficult, since she has already reached a high level of arousal by massaging her pearl with the Magic Wand. But finally she has also managed that and now nothing stands in the way of pleasure and Jutta can look forward to hours of the highest arousal.

Jutta is now completely helpless to the permanent penetrations of the device, where she has no possibility to escape this penetration. Her pelvis is so fixed by the dildo that she can only make small movements. In the holder of the vibrator is a pressure spring built in and even if she moves her pelvis, the pressure spring ensures that the head of the vibrator always presses against her pearl.

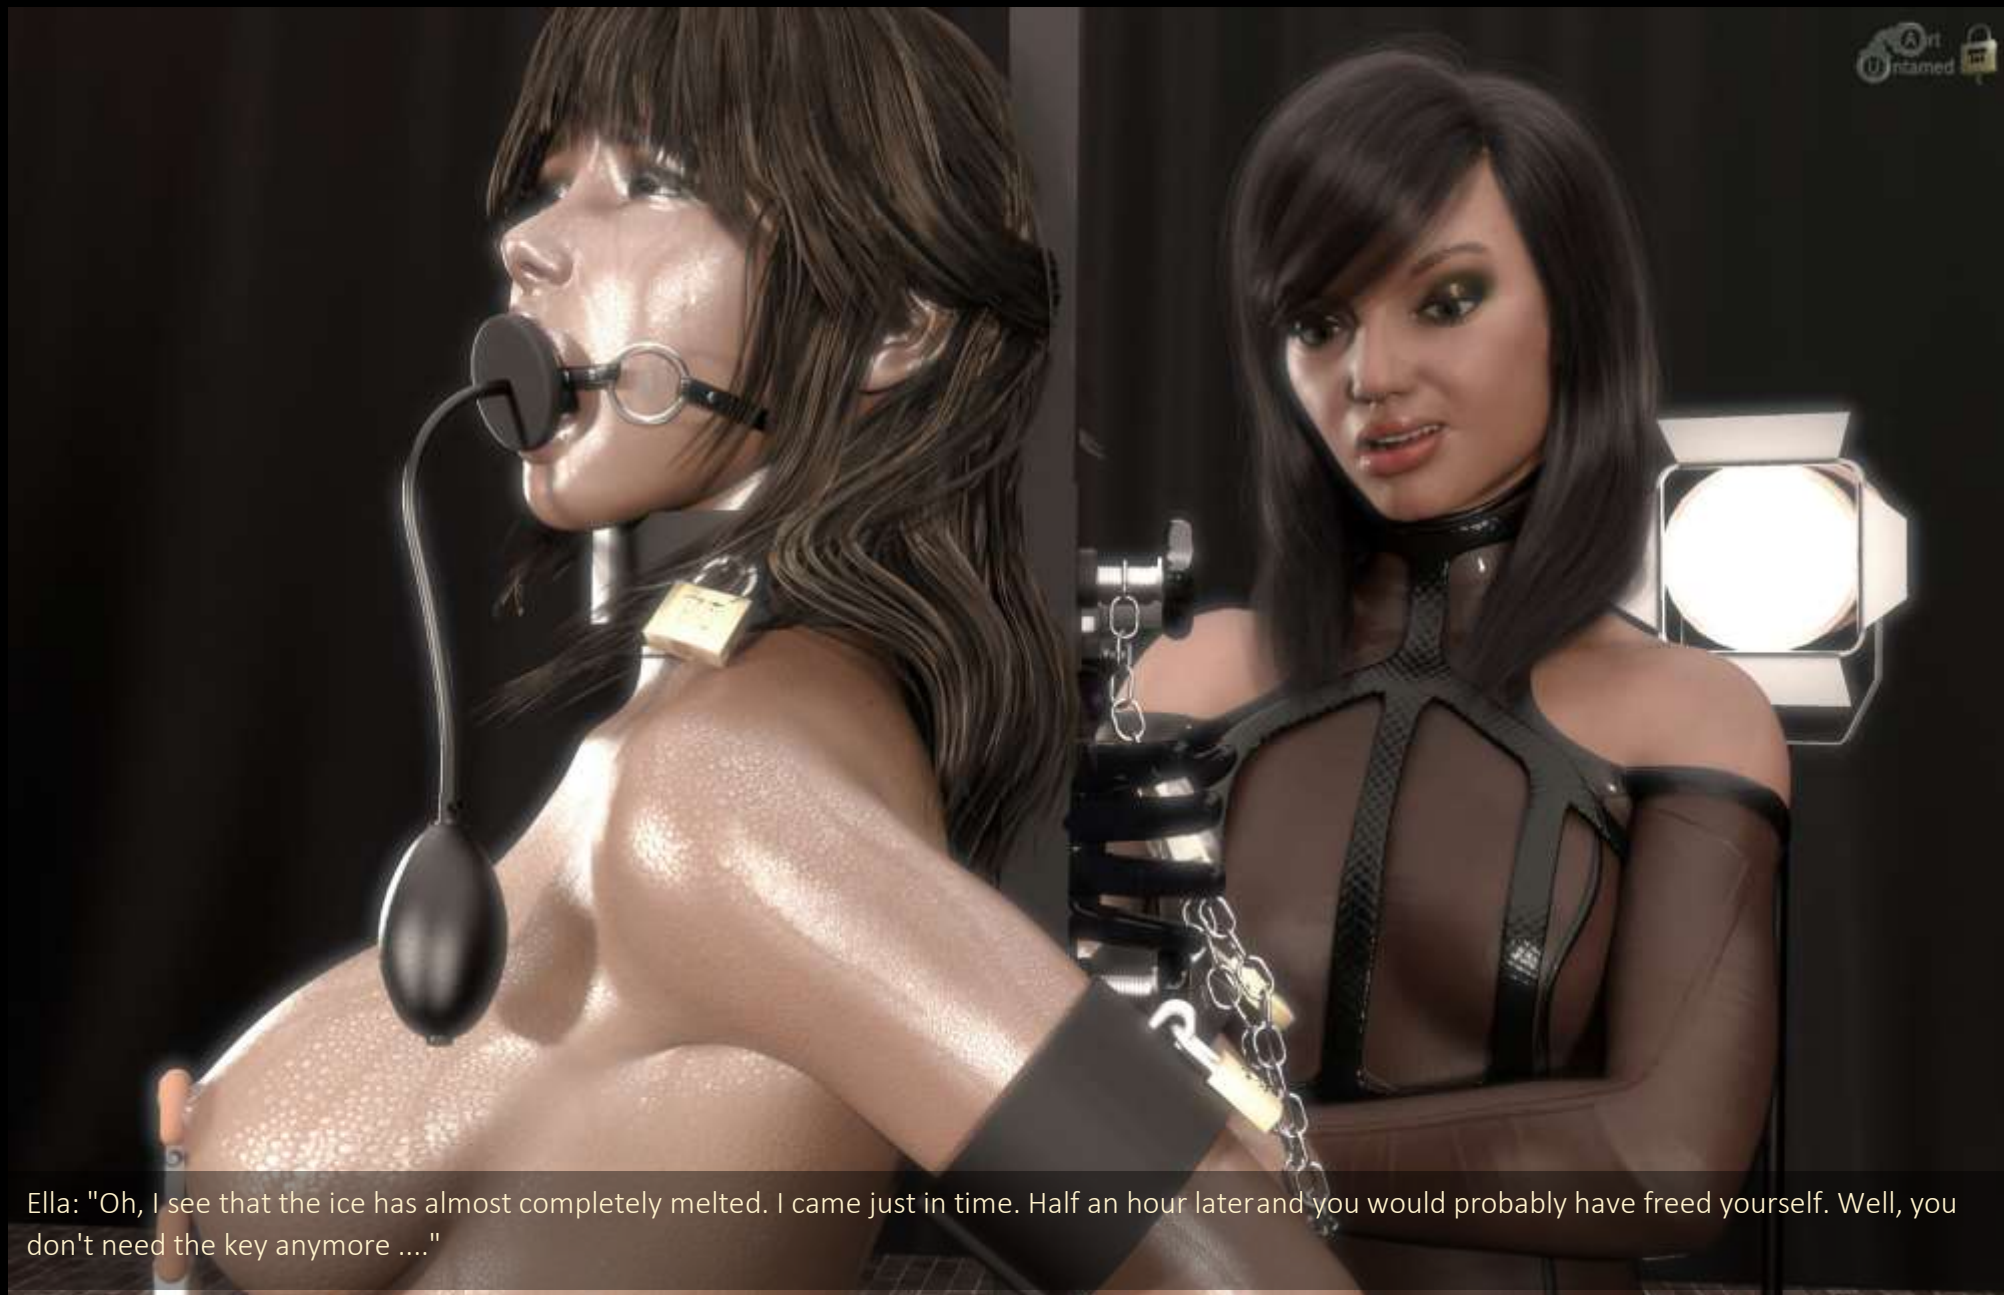

... some times later ...

.... infinite horniness

Ella: "Hi Jutta, Tawny told me that I would find you here and she also said that you probably won't be very responsive. She said you owe her a favor and that I should pick you up ..."

Ella: "Oh, I see that the ice has almost completely melted. I came just in time. Half an hour later and you would probably have freed yourself. Well, you don't need the key anymore ...."

Ella: "Before I take you to Tawny, I want to outfit you a little more with the things I brought. Let's start with the leatherblindfold ...."

Ella: "... Then I also brought you a nice wide leather belt. It will surely look good on you..."

Original only at:  

Ella: "... and on this belt we'll attach your wrists so your hands don't slither around so uncontrollably ..."

Ella disconnected Jutta's vibrator from the power and so Jutta got a little break from the continuous penetration.

Ella: "Jutta, you look great and now you are ready for our little trip ..."

Ella: "Dear viewers, unfortunately I have to disappoint you because I have to take Jutta somewhere else now. But maybe you accompany me?"

Ella takes Jutta to the loading dock of the studio where a pickup truck is waiting to load Jutta.

Ella gets a forklift and uses it to lift Jutta onto the back of the pickup.

To ensure that nothing happens to Jutta during the journey, Ella fixes the frame to the bed of the pickup truck.

Ella's mission was not only to get Jutta from A to B, but to take the opportunity to advertise Tawny's exhibition. And so Ella drives with Jutta on the back of the truck at walking pace through the whole city to attract the attention of as many passers-by as possible.

And, for sure, the publicity drive also goes at walking pace through the red-light district, which is also where most of the people interested in the exhibition are expected to be.

Arriving at her destination, Ella again fetches a forklift to transport Jutta to the designated site.

Jutta will be placed by Ella at her designated destination at a central point of Tawny's Exhibition. Then the vibrator is connected to a coin-operated machine and every time someone throws a quarter into the machine, the penetration time is increased by 5 minutes. After that the blindfold is taken off and you can see that the surprise for Jutta is visibly successful.
