

KNIGHT OF CHAOS

- PART.7 -

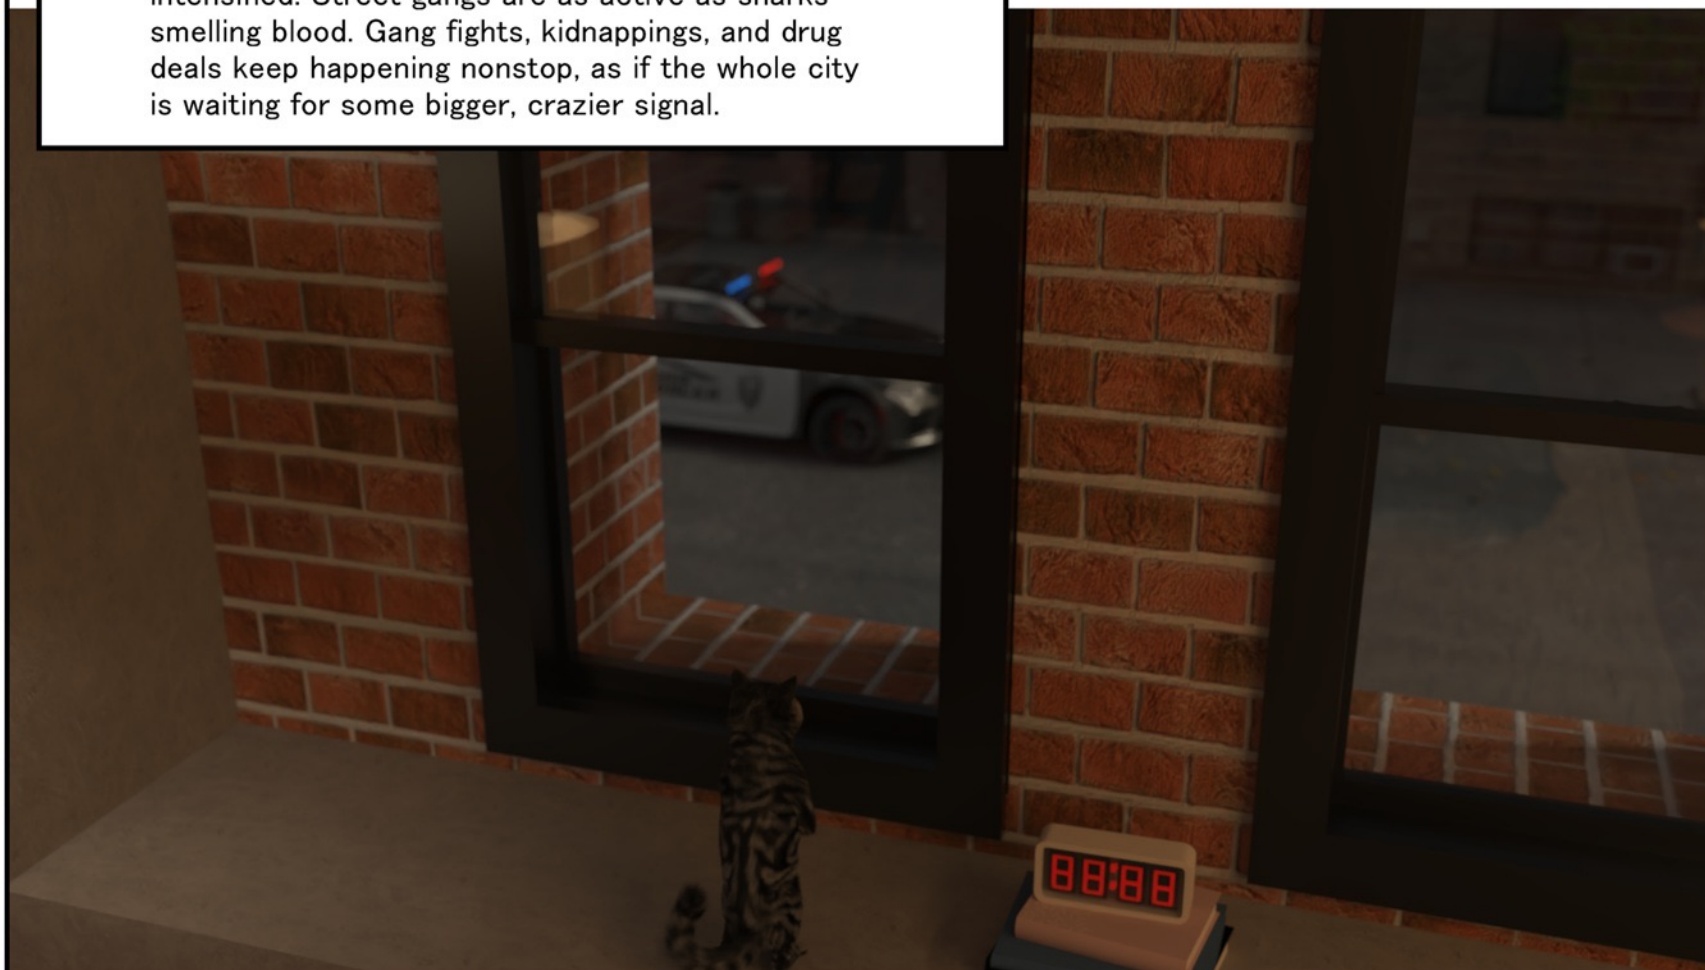

*The story is entirely fictional, and all characters in it are adults

Two weeks have passed...

Since Bruce disappeared, the city's chaos has visibly intensified. Street gangs are as active as sharks smelling blood. Gang fights, kidnappings, and drug deals keep happening nonstop, as if the whole city is waiting for some bigger, crazier signal.

Selina hasn't taken off the Batman suit or gone back to being Catwoman. She still wears Batman's skin, patrolling Gotham's rooftops and shadows every night.

Yet a cold premonition keeps spreading in her heart,
as if everything is heading in the worst possible direction.

Late at night, inside a research institute...

I forgot to ask which bottle exactly.
There are so many...

If I get the wrong one, he'll definitely scold me again...

Relax, darling.
I'm just asking for directions~

Such a sexy figure~ Miss Linda~

小林緑子
KOBAYASHI

We're both women. You won't mind
if I borrow your clothes, right?

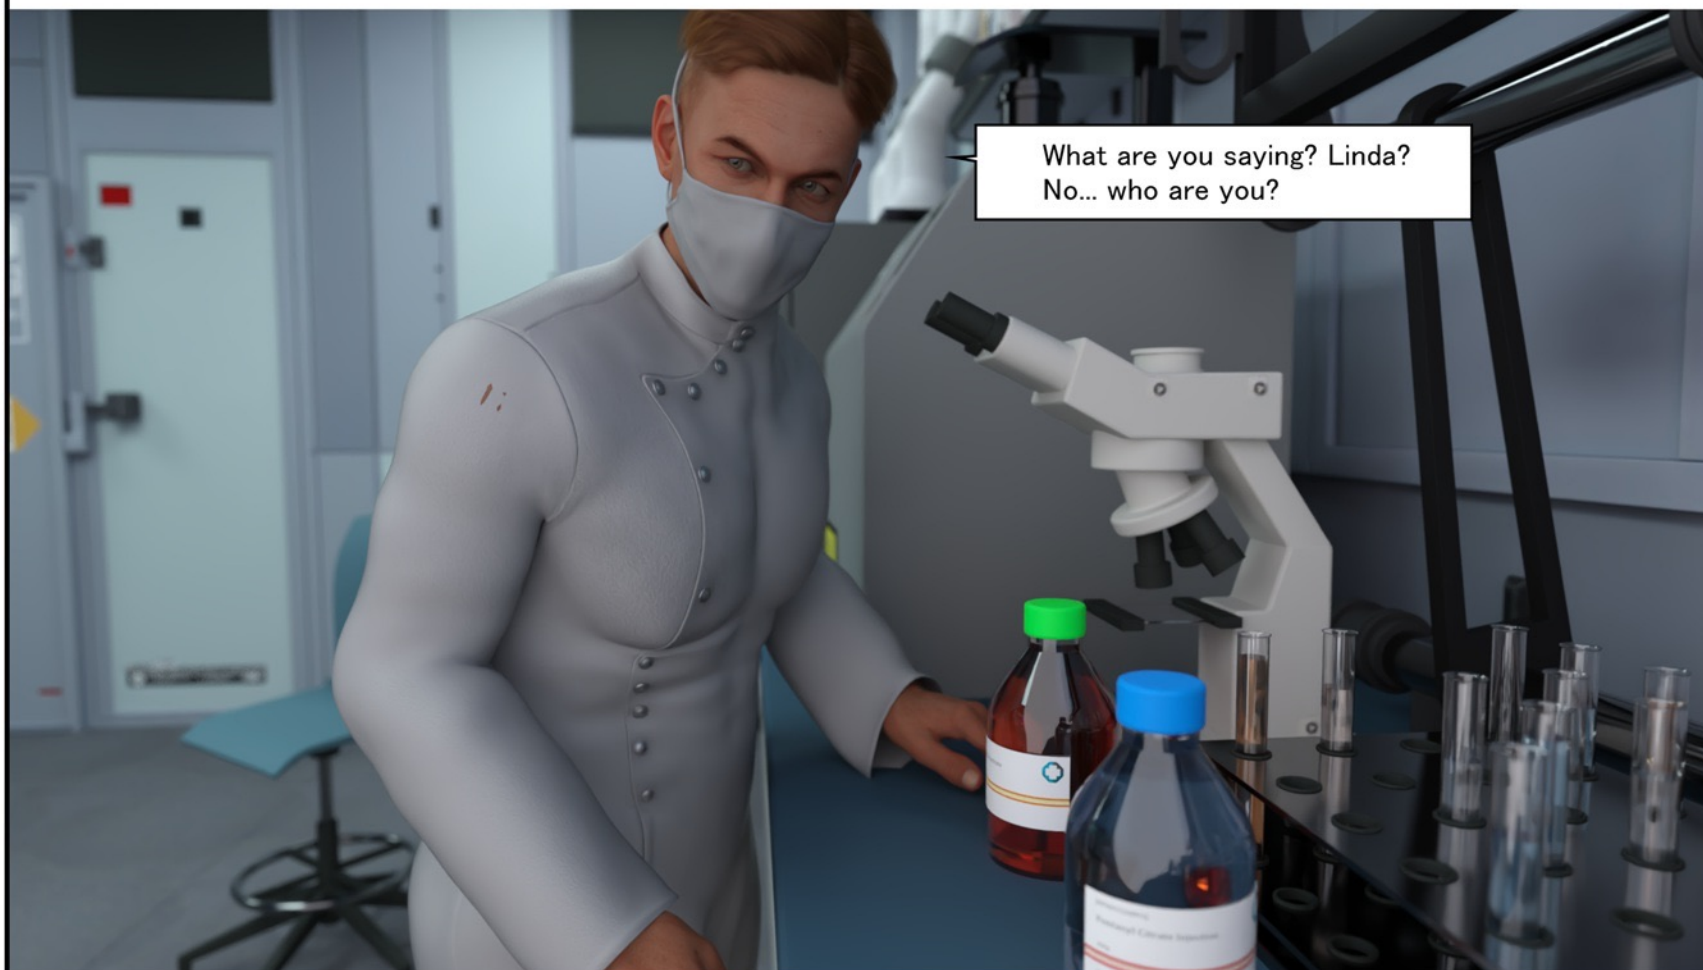

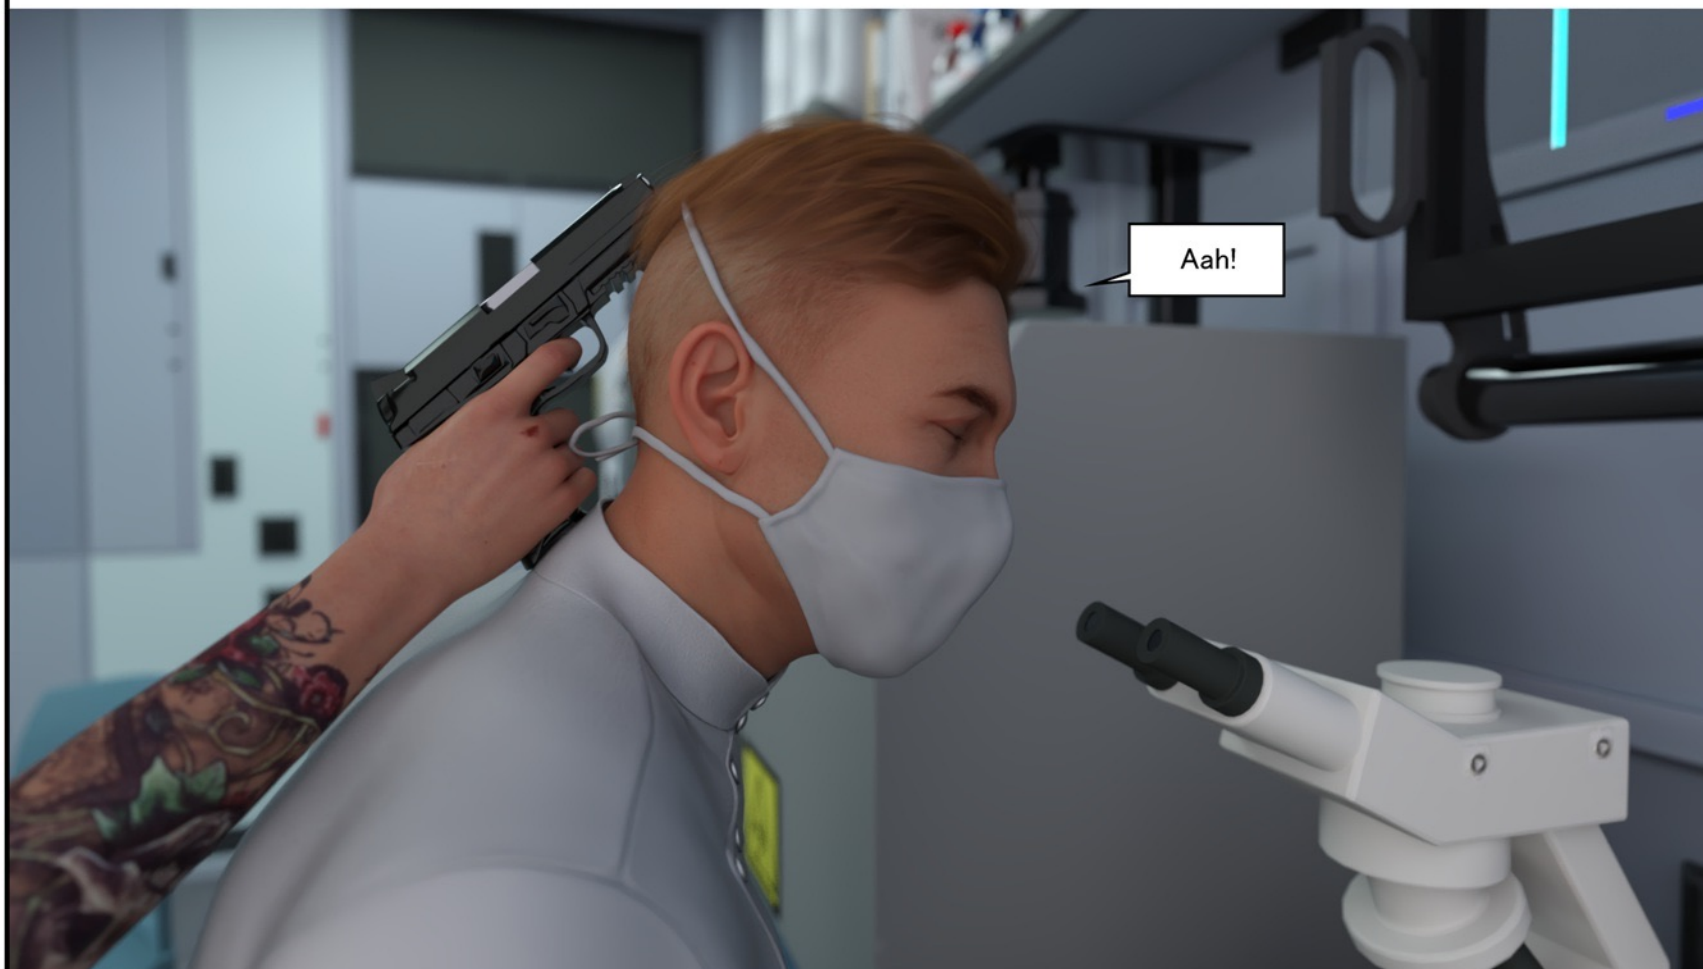

Of course, Professor. It's correct...

I guarantee you won't refuse this~

What are you saying? Linda?
No... who are you?

I need to clean this place up
before my darling gets here.

Oh, really? Did you get what you wanted?

Of course, darling~

What are you planning to do
with these things, darling?

Let me keep it a secret for now, okay?
I'll give my darling a surprise later~

A secret? Ha... hahaha.
My little girl has her own secrets now.

Aaaah~

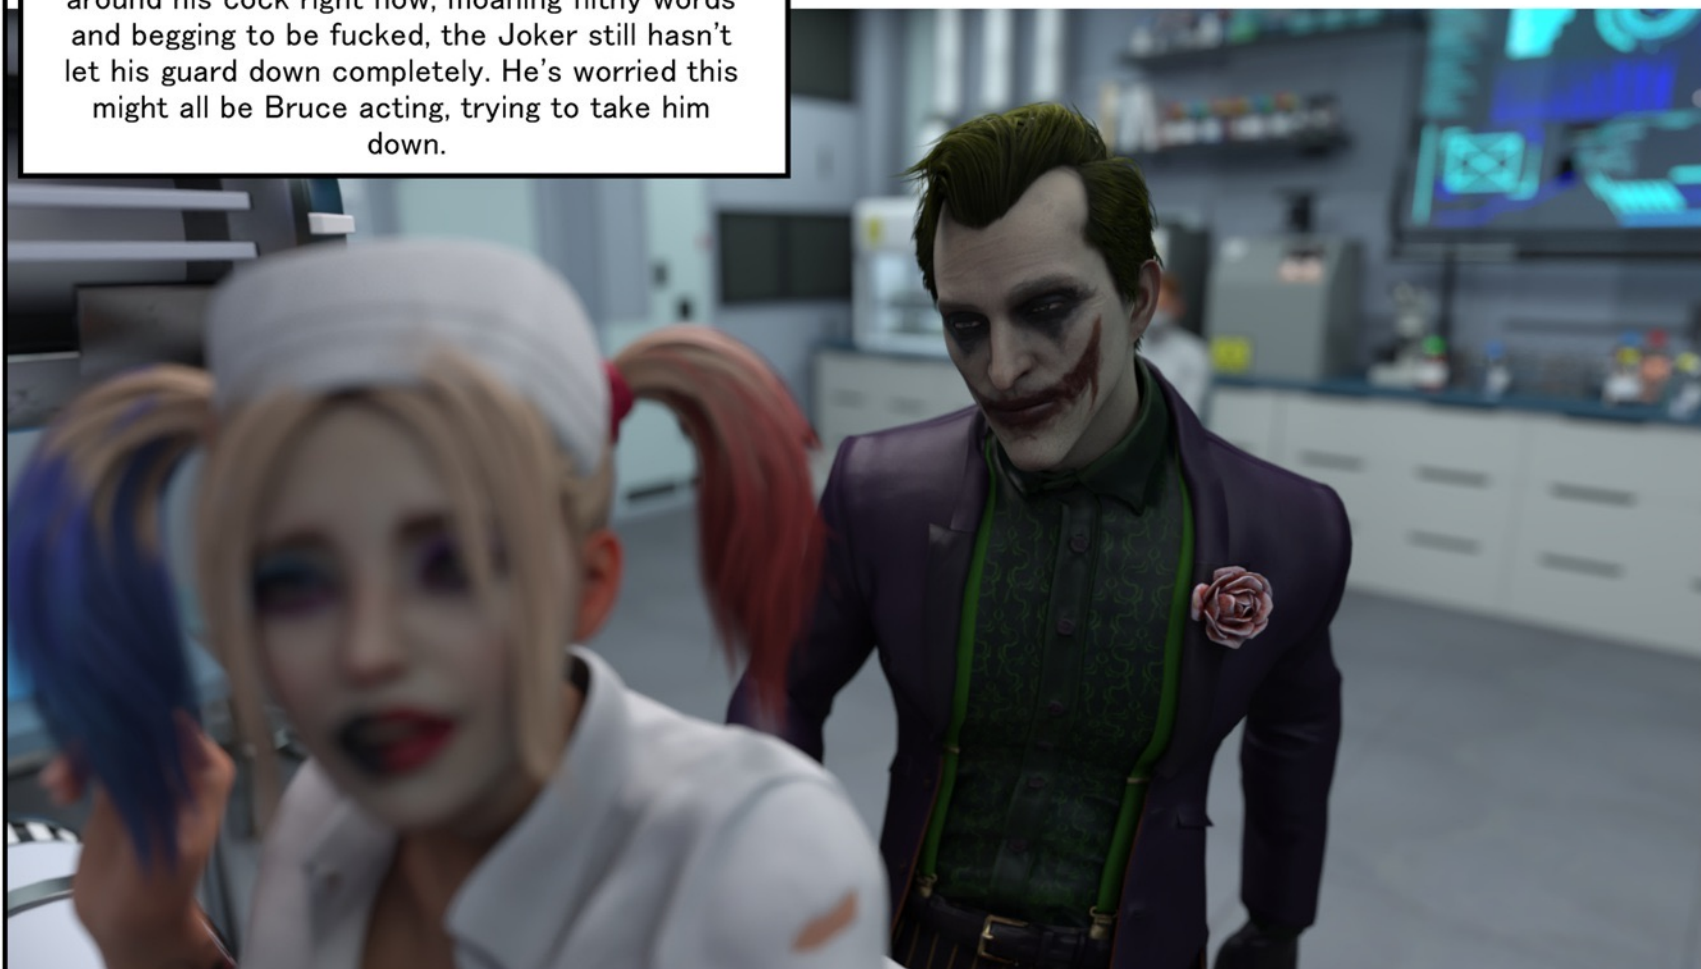

Wonderful, just wonderful.
I should give you a proper reward.

Hearing "Harley's" answer, the Joker bursts into excited laughter. This new Harley isn't just more depraved than before—she's no longer just his sidekick in crime. She's even more unhinged. He loves it.

Ah~ Darling, my pussy
is stuffed full of your cock again~

But it feels so good~ Hurry up and fuck me senseless.

Even though Batman's pussy is tightly wrapped around his cock right now, moaning filthy words and begging to be fucked, the Joker still hasn't let his guard down completely. He's worried this might all be Bruce acting, trying to take him down.

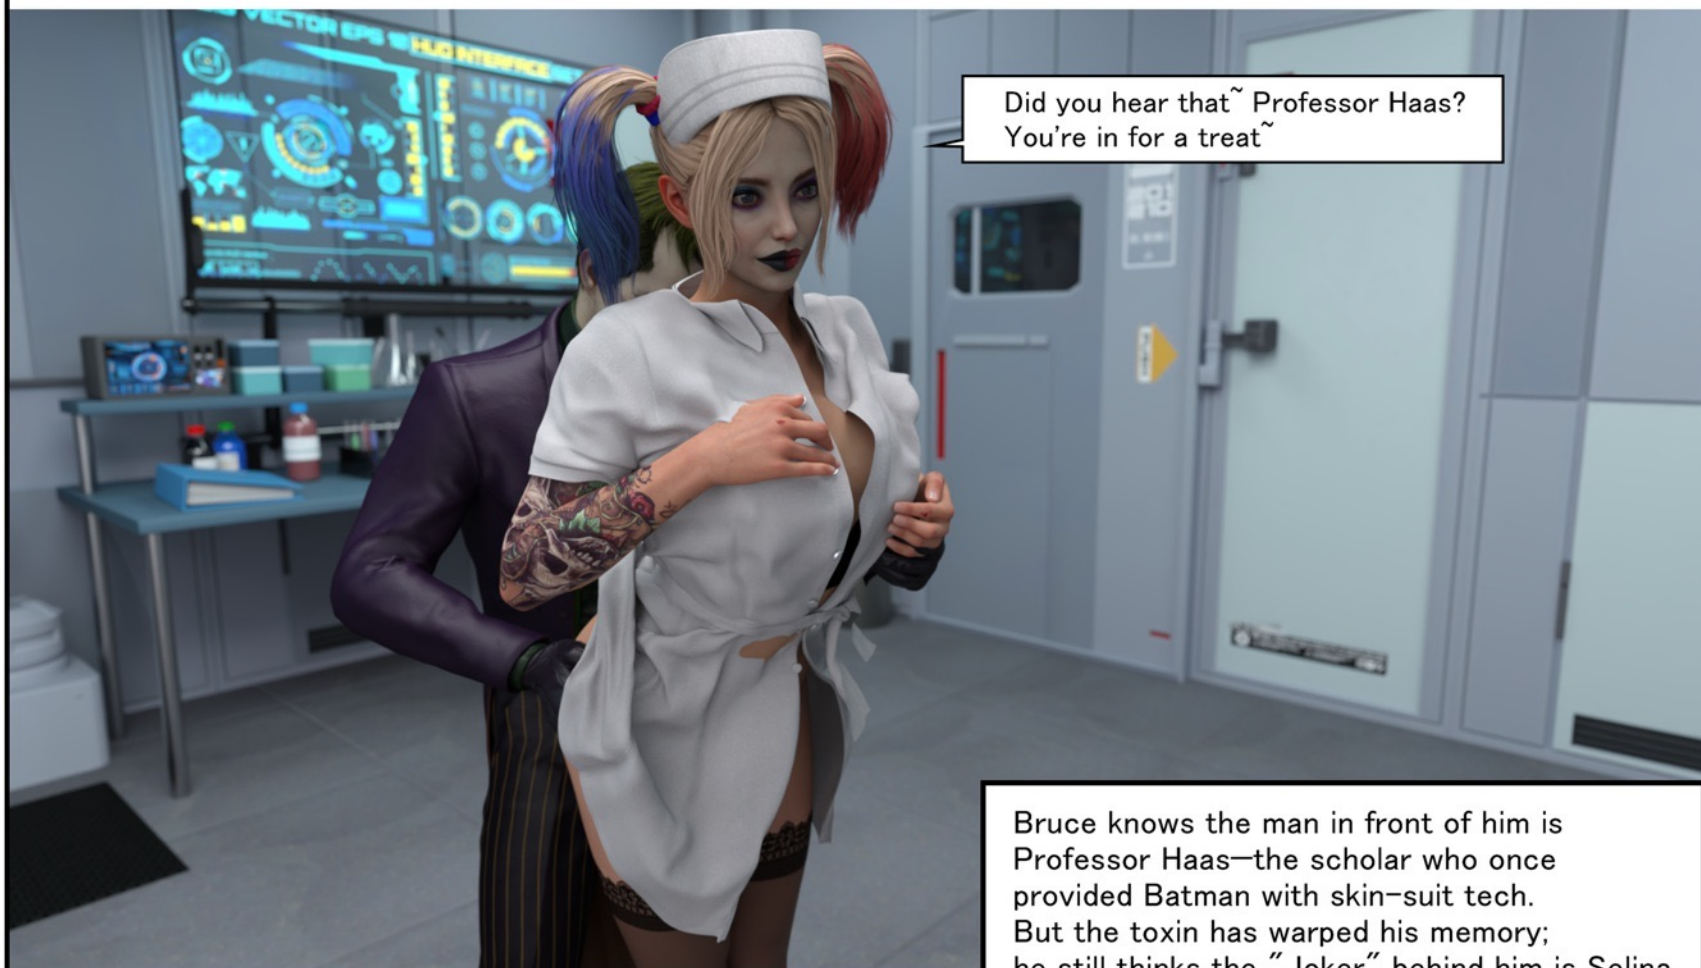

His performance is perfect, though—clearly enjoying his new body. Still, the Joker wants to observe longer. And right now there's a perfect chance: make Bruce get fucked in front of an old friend and see if it shakes him.

Say a proper thank-you
to the professor!

Harley's figure isn't any worse than Miss Linda's, is it?

So for the sake of the lover behind him, he lets his mind think like Harley, controlling his body to move exactly the way she would. He fully embraces his new identity, playing the role of the insane, depraved Harley.

Aaaah~ Just like that, sweetheart.
You're hitting me so good.

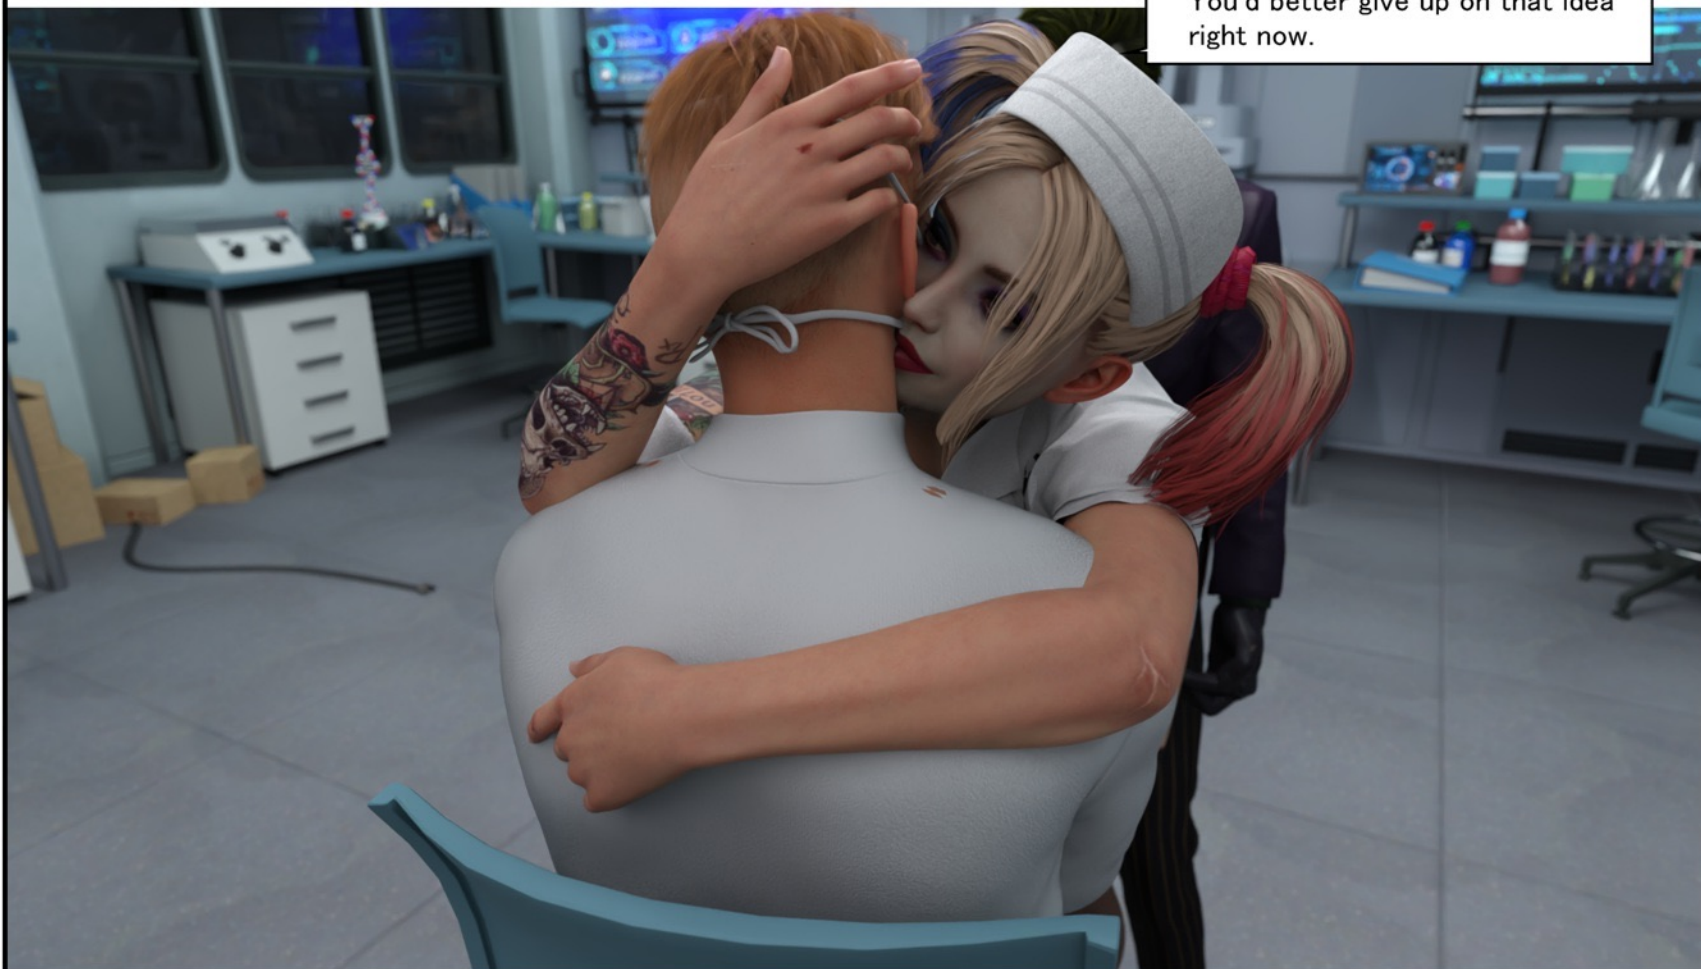

Hey, Professor Haas, are you still
hoping Batman will come save you~

小林緑子
KOBAYASHI

You'd better give up on that idea
right now.

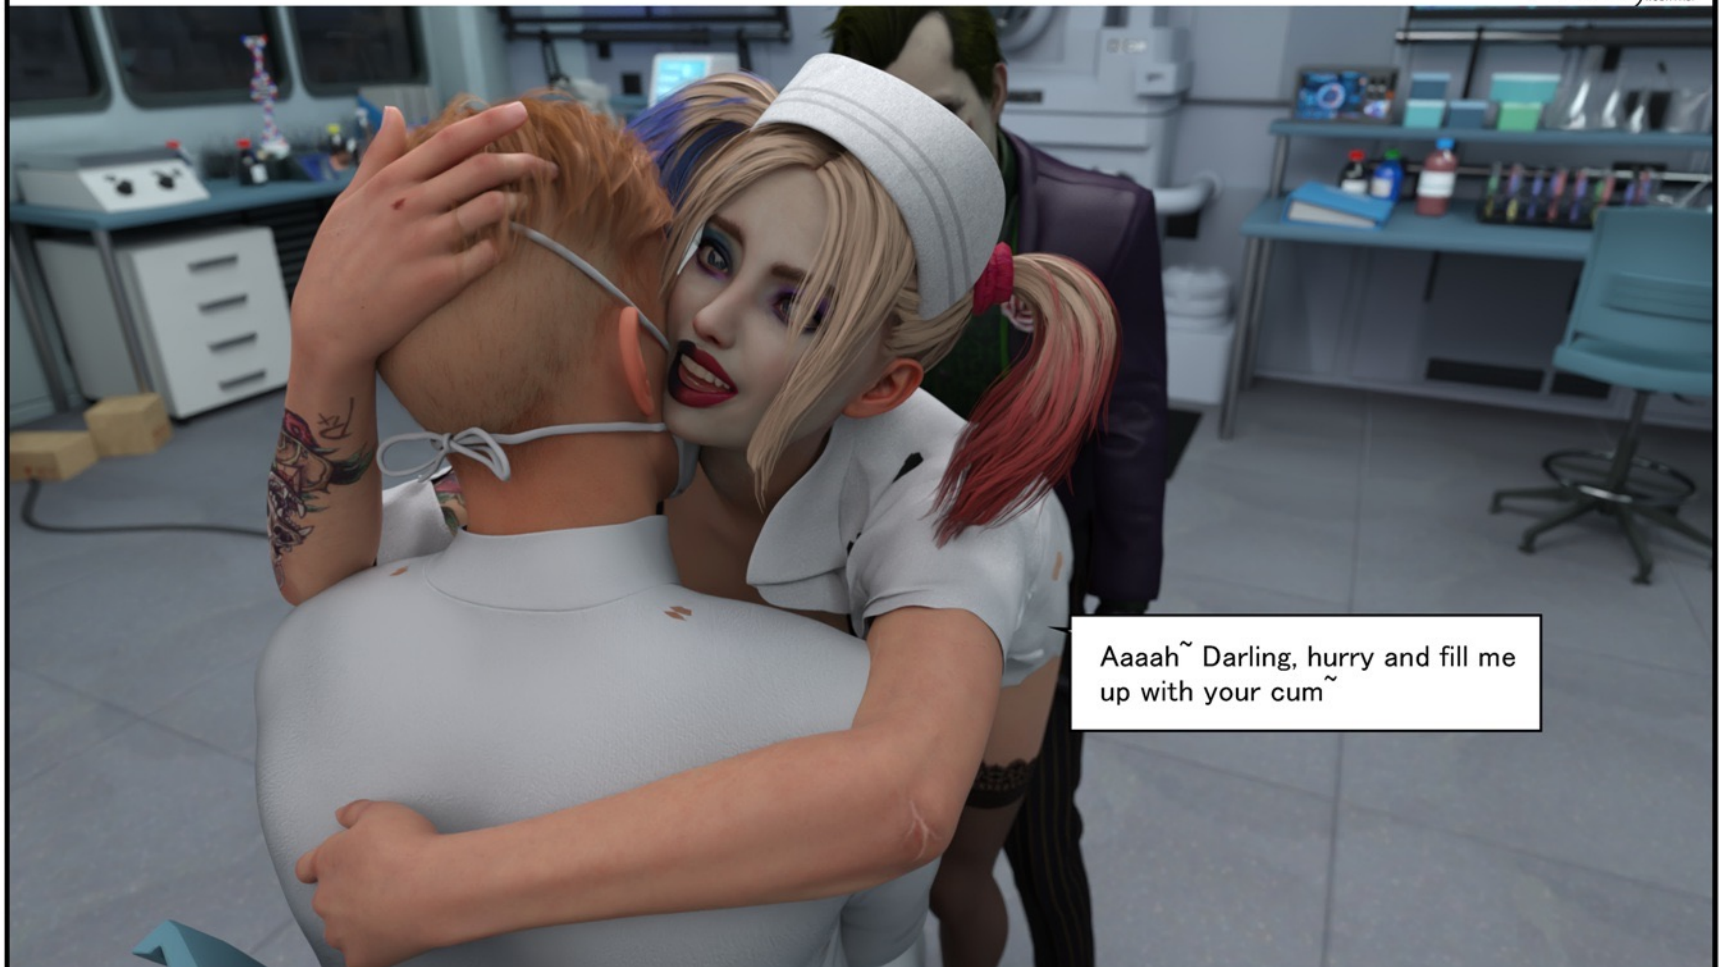

小林緑子
KOBAYASI

Because he's already standing
right in front of you. Hahaha.

Oh, baby, you're squeezing so tight.
I can't take it anymore.

Aaaah~ Darling, hurry and fill me
up with your cum~

Inside the Batcave, after realizing how serious things have become, Catwoman and the real Harley Quinn finally shed their disguises and discuss their next move.

I still can't find any trace of them.
Their moves this time are even more cunning and unhinged than before...

The Joker's real goal has been achieved.
He's created a monster—one with Harley Quinn's
madness but Bruce Wayne's mind, someone who
knows Batman and Catwoman's fighting styles
inside out.

So what do we do now?

Skin suits alone clearly won't be enough anymore. They're only good for disguise and infiltration. If we still want to save Bruce... we might need something more extreme.

I found an old gene-modification experiment in Bruce's files. It has data for both Bruce and Robin. Maybe I can transform into Bruce from the ground up and get his combat ability.

It's still experimental, though. I can't guarantee the risks, but it might be worth trying.

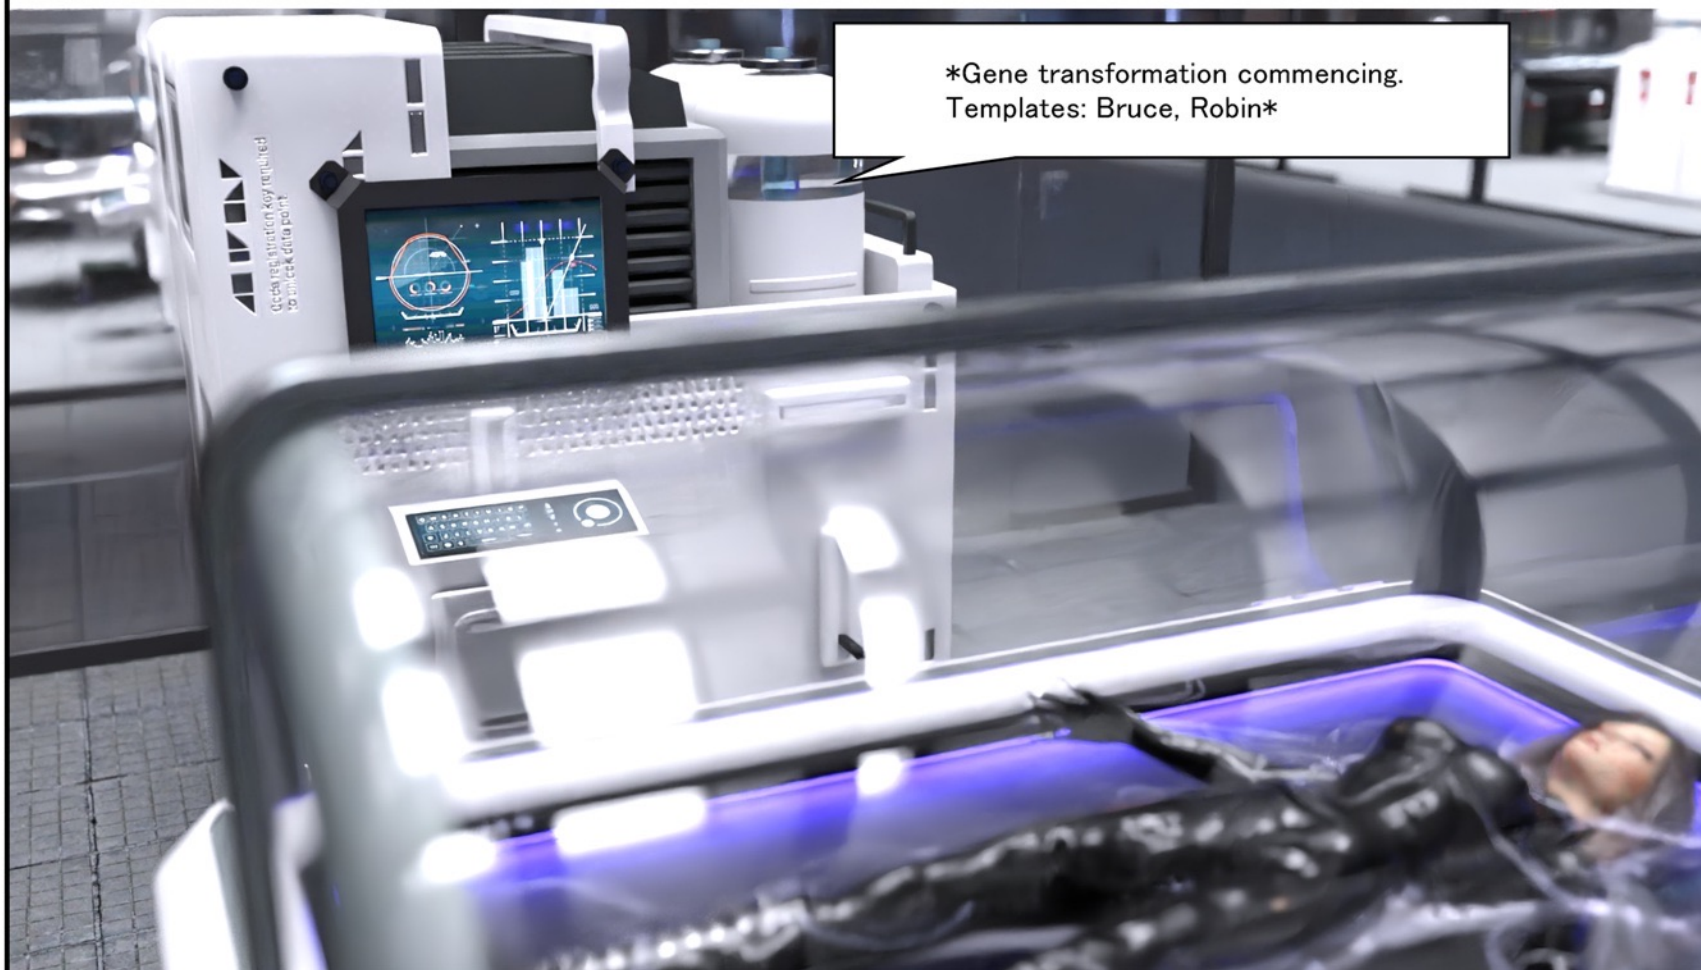

小林緑子
KOBAYASI

Hey, since I've already decided to side with you, count me in. I can become Robin and help.

Good. If you're ready for that, let's begin.

*Gene transformation commencing.

The equipment hums deeply as their bodies
begin to change inside the chamber.

Bones lengthen, muscles swell, breasts vanish.
The once-slender female forms gradually fill
with masculine power.

小林緑子
KOBAYASHI

Transformation complete...

My body... my voice...
I really turned into a man.

Wait... Selina,
did you get something wrong?

I feel like I turned into Bruce.

Damn it. Something went wrong with the experiment.
Not only did it turn you into Bruce, my transformation
is incomplete too.

We shouldn't have tried this so recklessly.

Good thing I've gotten used to Nightwing's
fighting style over the past few weeks.
I think I can handle being Batman.

Besides, I'm more familiar with the Joker and "Harley."
I should be the one facing them head-on.

You're right. It might be better
if I back you up as Robin.

Either way, our old clothes don't fit these bodies anymore. Let's change into proper suits and test them out tonight.

Completely agree.

This is my new battle suit from now on...

Harley stands before the Batcave's huge mirror, quietly staring at the reflection. The face belongs to Bruce Wayne.

Looking at the man in the mirror, she feels a wave of absurdity. She used to hate this man who opposed her countless times, yet now she's standing here wearing his black armor.

This is... unbelievable...

She feels the weight of this body, the tension in the muscles, even the rhythm of her breathing —nothing like the wild, manic girl who used to smash knees with a baseball bat. This is Bruce Wayne's steady, restrained, overwhelming power.

Now it's my turn to protect this city. I'll bring you back from the Joker's side, "Harley Quinn."

Cough cough

Hey, you changed already? That was fast.

Ha, Selina. This look
really suits you.

Alright, stop looking at me like that.
I'm still not used to it myself.

Haha, don't worry. We'll get used to it soon enough.

Hope so.

Let's go, Robin. The streets won't stay quiet just because we're busy. We'll grow through real fights.

Of course, Batman.

A few days later

Damn it, damn it, damn it... Why?!

Why the hell has Batman appeared again?!
I already got rid of him!

Darling~ Don't get so worked up.
I know who she is~

It's the old Harley. She's gone crazy with jealousy seeing how lovey-dovey we are now. That's why she's trying to become Batman and ruin us.

Oh? Is that so? Then, my good girl,
do you have a way to deal with her?

I don't want that annoying bat
bothering us anymore.

Martha Wayne's skin!
I made it from memory~

Since she wants to become Batman,
I'll let her experience the deepest
darkness in Batman's heart~

Even the Joker, who's seen every kind of depravity and madness, is shocked in this moment. The former Batman has fallen so far as to make his own mother's skin to torment his enemies. Even he feels a hint of... admiration.

Darling! You're a genius! A genius among geniuses! How should I reward you?

Of course, sweetheart~
I love playing role-play games with you~

Is that so? Then would you wear
Mrs. Wayne's skin and make me happy?
