📷 **Big Decision Made!**
Today is the start of something incredible. I just signed up for the DNA transformation program! 🧬 I chose to merge my DNA with that of a female kangaroo 🦘 They say the effects are stronger with female animal DNA, so I need to transform into a girl first for it to work. I'm feeling excited and a bit anxious, but I'm ready to embrace my new abilities. Here's to jumping higher than ever! 🦘

Erin, I am not too sure about this... I know that whole anthro thing has become popular over the past months but this seems excessive... 😞 **Please reconsider this!** ❤️ 2

📷 Week 1: Feeling Different
It's been two weeks since the first injection, and I'm starting to notice some changes. My hair is growing faster and thicker, and my facial features are softening. My cheeks are fuller and my jawline is becoming more delicate. And I think my hips might be a little wider!!
🦊 **🌸 Transforming into a girl** is fascinating and a bit overwhelming. My skin feels so soft and sensitive. I'm starting to love these changes. 💖

Week 2: Major Changes

This week has been intense! My hips are noticeably wider now, giving me a curvier shape. My butt has expanded, feeling fuller and more rounded 🍑 It's a strange but arousing sensation. I catch myself admiring my reflection more often. The changes are more pronounced, and I can't help but feel excited. My skin feels tingly and sensitive all over 😳🔥 Becoming a girl is quite the experience. [#TransformationJourney](#) [#NewCurves](#) [#FeelingAroused](#)

I told y'all that this would be the birth of a hot chick! I mean she still has a cock but that will surely change by next week, considering how fast her recent changes were... And I feel confident in saying that I am already able to spot some signs of a pussy!

Week 3: Wow!
Things are getting even more intense.
My chest has developed into firm, noticeable breasts.
❄️ My body is undeniably more feminine now.
My new curves, especially my breasts,
are sensitive and quite a distraction. My dick has also
retracted and a newly flourishing vulva has formed!
Every touch sends shivers through me. My hips have
continued to widen slightly. This transformation is
more than I imagined. Can't wait to see
what's next! ❤️ Becoming a girl is a necessary
step for the kangaroo DNA to work.

don't mind this upgrade ;)

I hate, that you keep
sexualizing your new famle body...
Thisgives a wrong impression
about females and just
increases the gap in gender
equality in my opinion!!!

Week 4: New Features

This week, the anthro changes have started! My ears are getting longer, and my eyesight is sharper. 🦘 I'm starting to notice slight muscle growth, making my body look more toned and athletic. The combination of my new feminine features and these animal traits is surreal and thrilling. My legs feel springy, and my skin is toughening a bit. Everything feels so alive and sensitive. 🌟🔥

Week 5: New Sensations
Adjusting to all these changes has been a wild ride.
My legs are growing muscular, giving me incredible
power. 🦘 My waist is becoming smaller, making my
hourglass figure more pronounced.
I also developed a small tail nub... Therefore I thought
some censored nudes would be the best way to show
all the best features of my newly developed physique!
Loving these changes! 💕🔥

Oh come on Rick... You can't deny your attraction to me! I saw you staring at me while training, and your little man seems to think the same as you!

So if you know this works... H-how did you find out in the first place ?!

I fucked Coan and Luke inside the locker room last week... but that doesn't matter just pull out that monster you are hiding!

Stick it inside my Ass Rick... afterwards, as a reward, you will get to pound my pussy aswell!

And what excatly will speed up the transformation the most?!

A woman with long brown hair in a braid, wearing bunny ears, a black crop top, and white shorts. She is shown from the back, with her large, rounded buttocks prominently displayed. There are several white liquid droplets on her skin. A large, thick, light-brown appendage is visible on the left side of the frame. In the background, a computer monitor is visible on a desk.

**I'll let you

Week 6: Sensations Heightened
This week, my legs have grown even longer, giving me an extra spring in my step. My tail is elongating, enhancing my balance 🦘
My facial features are becoming more defined, with a mix of feminine beauty and feral grace. Everything about this transformation is erotic; my body is more sensitive than ever. Every touch, every movement sends waves of pleasure through me. I feel so alive, and the heightened pleasure is intoxicating.
I can't get enough of these changes. 🌟🔥
