

The story thus far... Queen Ombra has been turning her young male subjects into sissy sex slaves.

The neighboring Queen Lady Lucy has been harboring some Ombrian men to keep them safe from their evil queen.

She's dressed them up as young court ladies so Ombra's spies wouldn't recognize them.

She intends to wed them to Alex The Impaler in exchange for his army.

So sure of her victory, Queen Ombra invited all nearby royalty to Alex's wedding!
