Me And My Giantess Maid 60

Estella: [Voice booming like thunder, massive tits heaving violently with every breath, eyes glowing with primal triumph] Oh my god... I grew so much... feel me... I'm absolutely massive now... Stella: [Moaning loudly, her hands roaming her expanded, heavy curves as she feels her new power] So big... so powerful... I feel like a goddess... Imane: [Voice breathy and strained, her massive frame trembling from the sheer rush of growth] I can't believe how huge I am... the scale of me... it's incredible... Natalee: [Giggling through deep, heavy moans, internally ecstatic as her body swells] We did it... we're truly gigantic...

Abigail: [Eyes impossibly wide, staring in total disbelief, her voice a mere, terrified whisper] What... what is going on... how did this happen... I was the biggest... I was supposed to be the one growing...

Abigail: [Voice shaking with a mix of confusion and burning jealousy, her massive hands clenching into fists] Looking at Imane and Estella... having all this fun... growing together like they belong... [She screams at them] wtf happened... why them and not me...

Estella: [Voice dripping with smug, erotic satisfaction, her massive lips curling into a tease] Oh Abigail... didn't you feel it? The surge of energy? You must've missed out on the best part...
Abigail: [Internally fuming, her voice turning whiny and desperate] Unfair... I was right there... I should've been growing too...

Imane: [Voice playful and teasing, her massive tits bouncing wildly with her mocking laughter] You were the biggest before, weren't you? But now... hehe... look at you... you're the smallest... the tiniest, most pathetic little giantess...

Estella: [Voice commanding and heavy with dominance] How the mighty have fallen...
Abigail: [Voice desperate, internally scrambling to save any shred of dignity] This isn't over... I'll get mine... Imane: [Voice sing-song and mocking] Oh but it is... for now...

Estella: [Voice directing, her massive hand gesturing downward toward the floor] The other two cuties down there... Stella and Natalee... they grew a bit as well... go take a look... see exactly what you missed out on...

Abigail: [Eyes drifting down, internally shocked, her voice becoming breathless] No way... they actually did grow... Stella... Natalee... they're massive now... ooh my god... I'm tiny compared to them...

Stella: [Voice moaning with intense pleasure, her massive tits pressing down with crushing weight, internally dominant] Squashing Natalee... feel my weight... my incredible size... I'm crushing you under my breasts... Natalee: [Voice muffled by the flesh but sounding eager, internally loving the sensation] So heavy... so massive... it's perfect...

Stella: [Voice breathy with pure satisfaction, her massive body humming with raw, growing power] I feel so much bigger than before... and it's amazing... I love being this huge... this powerful...

Stella: [Voice playful and teasing, leaning over Natalee] Hey Natalee... how do my huge, heavy tits feel against you? Natalee: [Giggling, her massive frame trembling with excitement] Ooh my... they are so heavy... but I love that we both grew!

Natalee: [Moaning deeply, her massive body vibrating with the sensation of weight] Ooh my... they are so heavy... they feel so massive against me... but I love that we both grew!

Stella: [Laughing cheekily, her massive lips curling into a teasing smirk] But I'm a lot bigger than you, hehe... look at the scale of me...
Natalee: [Pouting playfully, though her eyes are bright with excitement] Yeah, but I still grew! I'm not the tiny one anymore!

Abigail: [Walking up to them, looking completely stunned and small] You guys... you're absolutely huge... Stella: [Sizing Abigail up with a predatory smirk, her massive chest heaving with laughter] Oh look, it's the little one... don't get too comfortable, Abigail... I'm going to be even bigger than you now!

Natalee: [Teasingly, looking down at Abigail's much smaller frame] Yeah! We might both end up towering over you! Stella: [Laughing deeply, her voice booming] Definitely! You're just a little snack compared to us now!

Abigail: [Voice completely devastated, hands clutching her head in disbelief] How... how did this happen... how am I the smallest now... I was the biggest just a second ago!

Estella: [Voice smug and heavy with superiority, watching from a distance] Well... I guess you just lost the energy for it for some reason, Abigail... you couldn't handle the surge...

Abigail: [Sighing heavily, trying to maintain some pride] Yeah... I guess I did... but oh well... we still have time to have fun! This isn't the end!

Imane: [Voice playful and teasing, her massive tits bouncing with every word] Let's compare sizes now! Alright, everyone... who is the biggest and who is the smallest? Heheh!

Master: [Sitting on top of Abigail's massive, fleshy toe, his voice tiny but clear] Ooh man... all I heard them say... it's not over, god damn...

Master: [Voice trembling with a mix of fear and arousal, looking around at the giants] All I heard them say is it's not over... god damn... these women are becoming monsters...

Master: [Gasping for air, feeling physically exhausted by the scale but intensely excited] Gasp... I'm so tired... but man, I love what's going on with these maids... the sheer scale of them...

Master: [Looking up at the massive, towering walls of flesh that are the giantesses, his eyes wide with pure awe] Gosh... they are so huge... looking up at them is like looking at mountains...

Master: [Completely mesmerized, his eyes darting between the massive, heaving breasts and the powerful, growing bodies] I can't look away... the way they're enjoying this... it's incredible...

Master: [Thinking to himself, his heart racing with fascination] I hope they do a lot more growing... this is absolutely fascinating... the sheer power of it...

Abigail: [Looking down at her own body, feeling a deep sense of disappointment and inadequacy] I can't believe this... everything changed so fast... I feel so small and useless...

Abigail: [Trying to act tough, puffing out her chest toward Natalee] I was the biggest just a couple of moments ago, you know! I was the queen! Natalee: [Looking up at her, eyes wide with amusement] Ooh... wait, they're the same size now... you're not the queen anymore, Abi!

Natalee: [Laughing heartily, her massive frame shaking with the force of her mirth] Yeah... I actually hoped I had even more growing to do, but oh well! At least I'm catching up!

Natalee: [Looking up, her view completely blocked by massive, swaying flesh] All I can see is Stella's gigantic, heavy breasts hanging right above us... Abigail: [Staring up in shock] Whoa... they're like huge clouds of skin...

Stella: [Looking down at the two of them, her massive lips curling into a dominant, predatory smirk] Haha... I'm bigger than you both now... feels so damn good not to be the smallest one in the room!

Stella: [Voice booming with erotic dominance, her massive tits swaying dangerously close to them] I feel like I could crush both of you under my huge, heavy tits! Abigail: [A mix of jealousy and laughter, looking up helplessly] Hey! Stop bragging! Natalee: [Laughing nervously while staring at the massive mounds] She's not kidding... she could flatten us in a second!

Stella: [Voice teasing and heavy with pride] Yeah... but not those two... they are in their own league now!

Natalee: [Nodding eagerly, her eyes gleaming with excitement] Yeah... they are really gigantic... for sure! They're on another level!

Imane: [Voice playful and teasing, looking up at Stella's massive form] Well, "our own league" might be a bit much to say, Stella... you aren't much smaller than us! Don't get too cocky!

Estella: [Voice booming with absolute, erotic pride, her massive chest heaving] Yeah... I'm in my own league! I'm the absolute biggest here, haha! Look at me!

Imane: [Teasingly, rolling her eyes at Estella's ego] Well, not by much, but yes... you are the biggest for now!

Estella: [Voice turning thoughtful and curious, looking toward Abigail] Yeah... it is really weird that Abi didn't get it for some reason... she just stayed small...

All Girls: [Congratulating Estella with a mixture of laughter and slight, competitive grudges] Congrats Estella! You win the crown! [Some mutter under their breath] But we all know you cheated...

Master: [Looking up, his voice filled with pure, unadulterated awe as he stares at the giants] Wooah... they are so beautiful... so impossibly massive...

Master: [Noticing a massive shadow descending, his eyes widening] Wait... someone is lowering down... it's Natalee!

Master: [Looking up at the descending giantess, his voice tiny and questioning] Natalee? What do you want or need?

Natalee: [Leaning down, whispering to Master with a voice low, intense, and heavy with secret intent] Master... me and Abigail need some help growing... and you are a crucial part of our plan...

Master: [Confused, his mind racing to catch up with her words] I don't understand how I can help... Natalee: [Smiling a wide, sultry smile] Yeah, let me pick you up, tiny one!

Natalee: [Lifting Master up with ease, his small body resting in her massive, warm palm] Here you go... hold on tight...

Master: [Staring at the massive, warm expanse of her palm, his voice trembling with a mix of fear and intense arousal] My god... this hand is absolutely colossal... it feels like a living continent... [He looks up at her towering face, eyes wide with dread and excitement] Natalee, what the hell is going on? What kind of madness are you planning?

Natalee: [Her voice drops to a low, sultry rumble that vibrates through Master's entire body, her eyes gleaming with a predatory hunger] Some really interesting plans, Master... very, very interesting...
It's a secret plan to make just the two of usâ€"me and Abigailâ€"the absolute biggest, most dominant giantesses in this entire room...

Natalee: [Her massive thumb brushes against him, a gesture that feels like a heavy weight, her expression turning serious] But we can't do it alone... we need to have a proper plan with Abi first... we need to talk it all through before we trigger the surge...

Master: [Sitting on the massive, throbbing peak of Natalee's nipple, feeling the heat radiating from her skin, his voice muffled by the sheer scale of her] I heard... I heard Natalee is having some kind of plan... [He grips the soft, sensitive flesh, feeling the incredible warmth of her]

Master: [Thinking to himself, his heart racing with pure arousal] I don't know what the plan is, but the concept of it... the idea of making you two the biggest, most dominant giants here... it's absolutely erotic...

Abigail: [Voice trembling with a sudden, intense hunger, her eyes wide and pleading] That would be incredible... I don't mind it at all! I want that power... I want to feel that surge!

Natalee: [Voice dropping to a low, sultry, and heavy rumble that vibrates through Master's entire body] Let's make the sexiest, most intense threesome possible... we'll pull every bit of that energy into us, leaving the other three completely behind...

Natalee: [Voice thick with lust and determination] I don't know what position we're going to use yet... but I know we will figure something up... something primal that will trigger the growth...

Abigail: [Whispering intensely with Master and Natalee, their breaths mingling in a heated, secret pact] Let's do this...
[Stella: From a distance, her eyes narrowing as she watches the three of them huddled together, her voice filled with suspicion] What are they whispering about over there...

Stella: [Thinking in her head, her massive lips curling into a frown of suspicion] That is definitely a payback... I can feel the tension... I just know it... it seems logical...

Stella: [Voice raised to Imane, her tone sharp and wary] The other two smaller girls are planning something... I can see it in their eyes!

Estella: [Voice dismissive and heavy with arrogance, watching the trio from a distance] Let them be... honestly, I don't think it will work... there is no way they can pull something like that off...

Stella: [Voice casual, her massive frame swaying as she turns back to the others] Let's just ignore them... they're probably just trying to act important...

Stella: [Voice commanding and authoritative, her massive tits bouncing slightly] Yeah, I think that's the plan... let's just ignore them and keep chatting... let them waste their time figuring it out...

Abigail: [Now lying on her lower back, her massive chest heaving with anticipation, her eyes fixed on Natalee] Okay... [Natalee: Kneeling beside her, her massive, lustful gaze locked onto Abigail's]

Natalee: [Voice low, sultry, and thick with erotic intent, her massive body looming over Abigail] Yeah, I think that's the perfect position here, Abi... just like this...

Abigail: [Voice trembling, her breathing becoming shallow and heavy] Okay... but what are we actually about to do... what is the plan...

Natalee: [Voice a husky, primal whisper, her eyes gleaming with hunger] Well, I think what would be really sexy is for Master, right... to start sucking your nipple... it will burst out milk, and then I'll start sucking your nipple while Master is in my mouth...

Abigail: [Voice gasping, a wave of intense pleasure washing over her even before the act begins] Oh my gosh... that gave me goosebumps just now... yes, let's do that! Do it!

Abigail: [Looking up at Master with eyes clouded by lust, her voice pleading] Master... did you hear the plan? How does that sound to you... tell me you want this...

Master: [Voice firm and heavy with arousal, his eyes fixed on the massive, leaking target] Yeah, I heard everything about the plan... I heard every single word...

Master: [Thinking intensely, his mind racing to organize the erotic chaos] But how are we going to lay this out? How do we make this perfect...

Master: [Thinking intensely, his heart hammering against his ribs as he looks at the two massive, eager women] I think I have to lead this... I have to be the one to orchestrate this erotic surge... I have to make sure every drop of energy goes exactly where it needs to go...

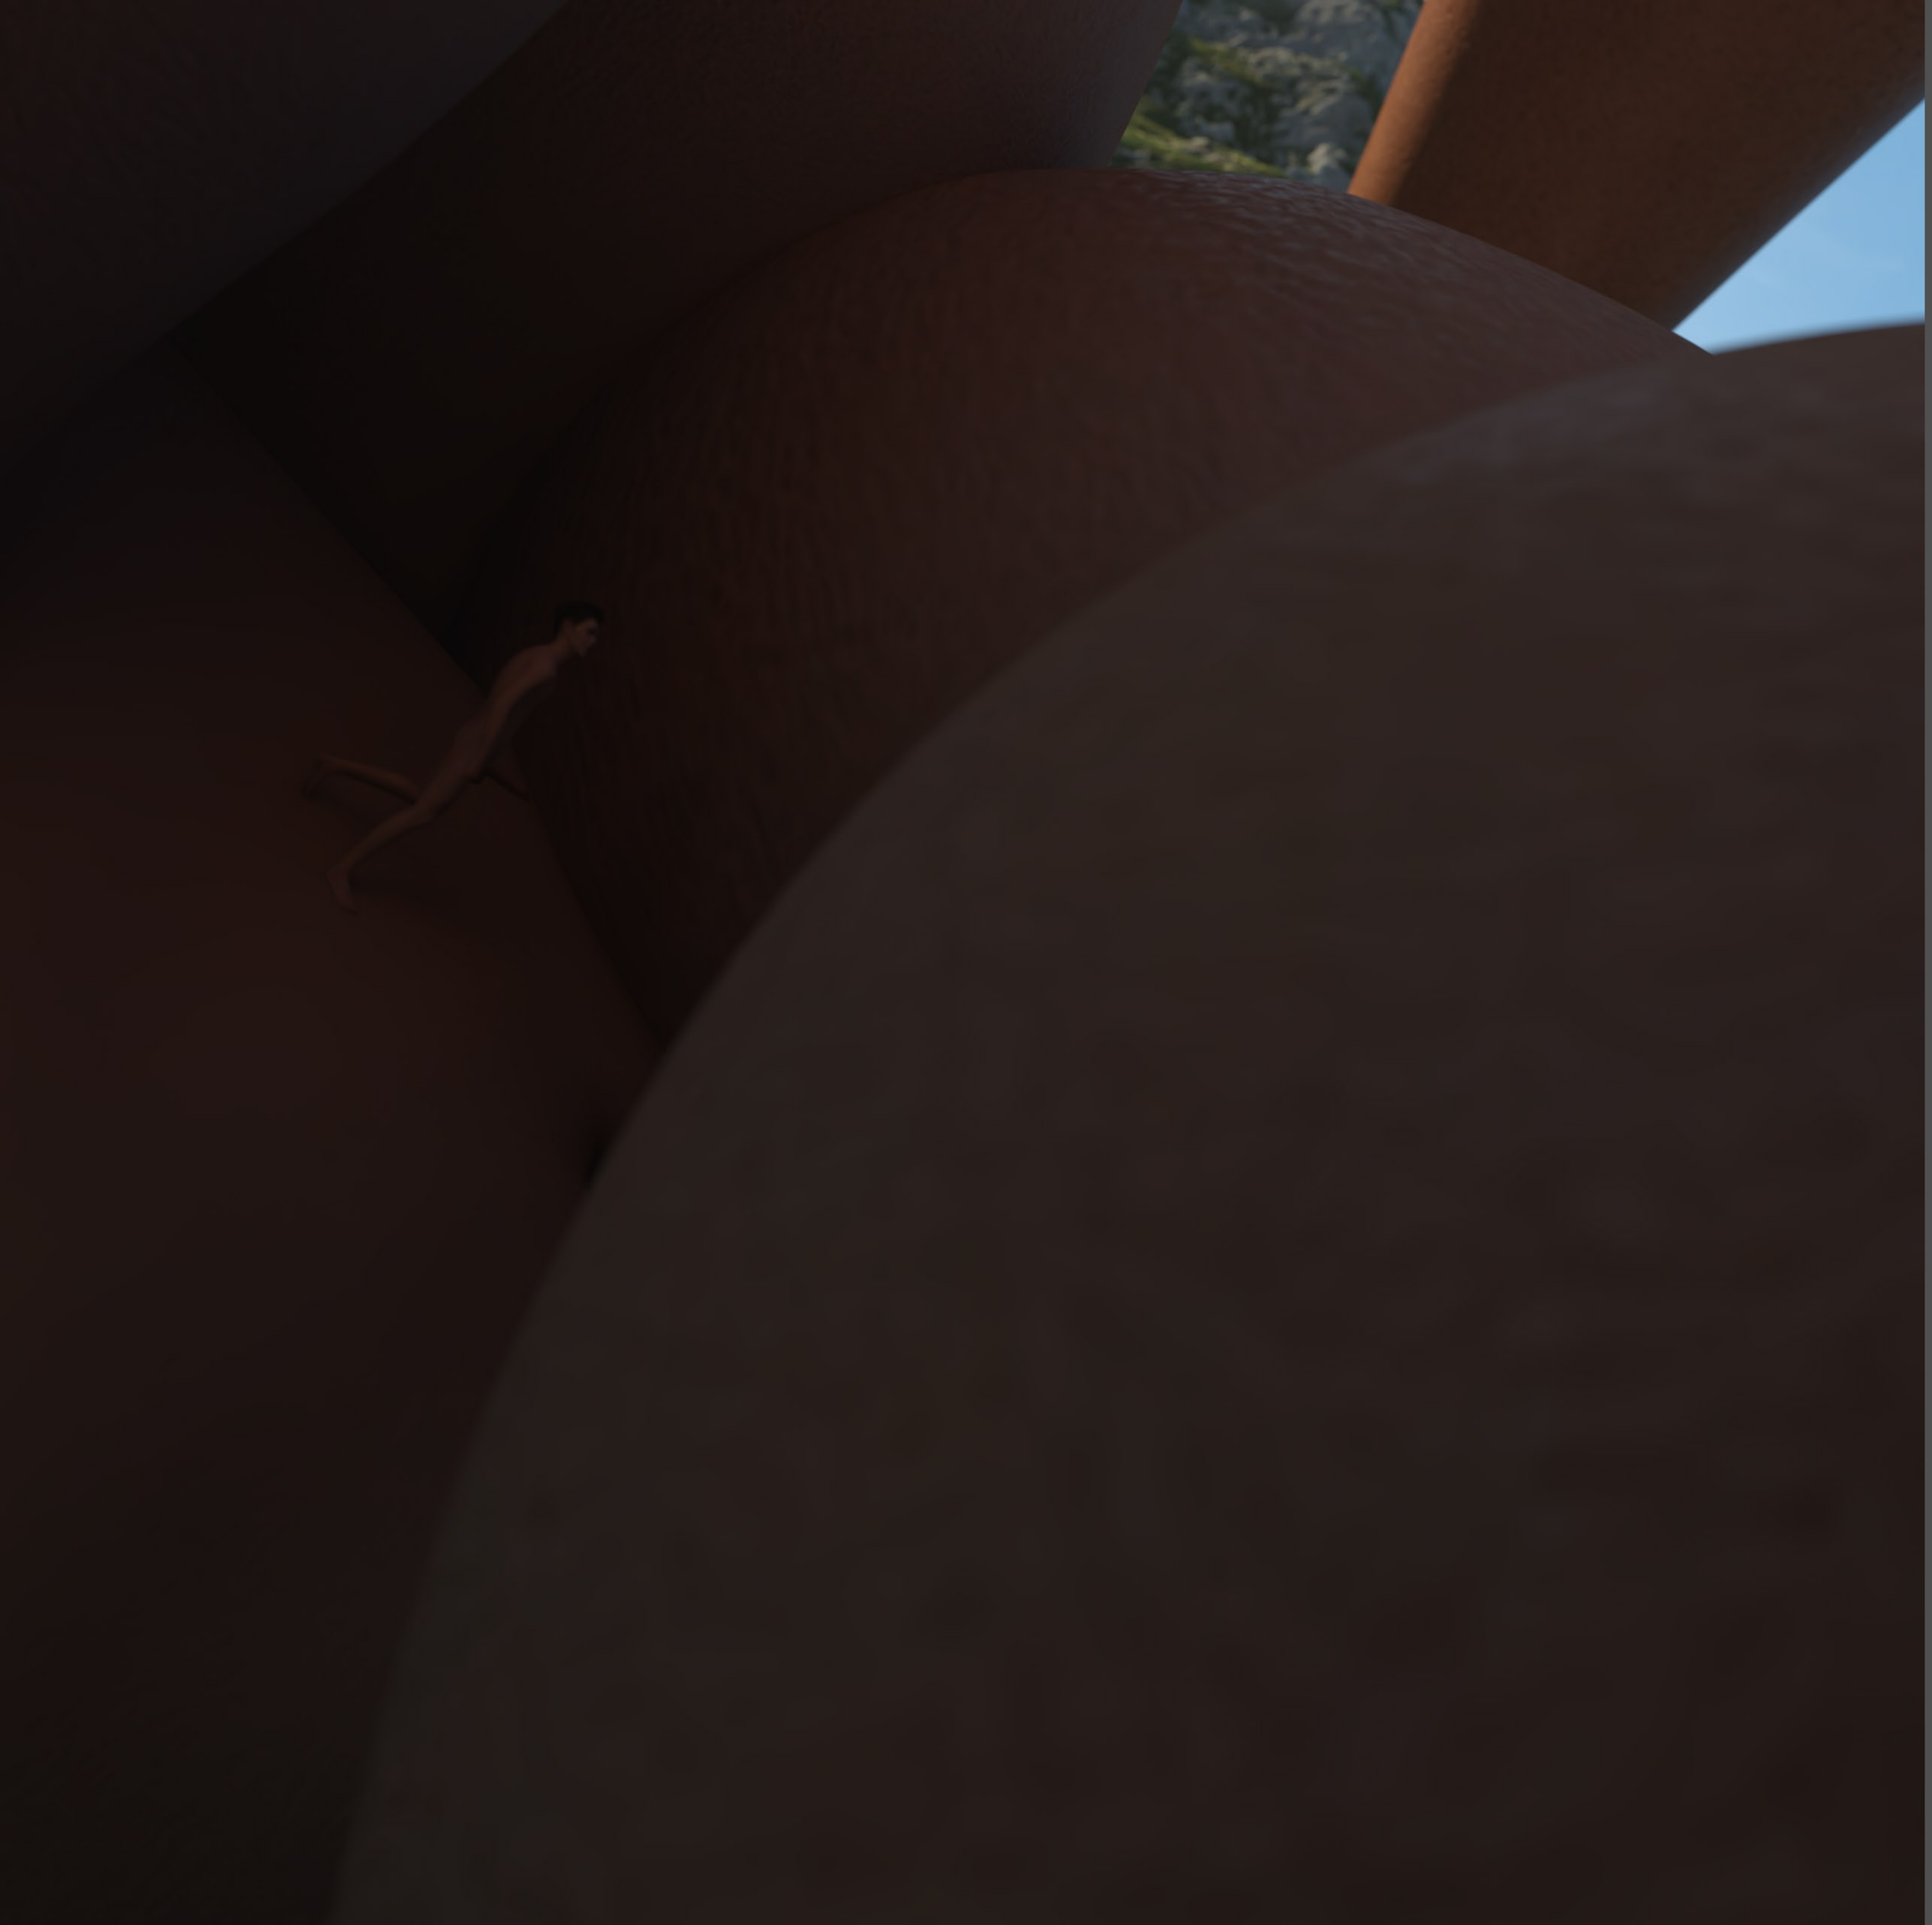

Master: [Looking up at Natalee, his voice low and commanding despite his small size] You heard what I said, right? It makes sense... we do this together... [Natalee: Nodding with a fierce, hungry intensity, her eyes locked onto his]

Natalee: [Voice thick with lust and absolute submission to the plan] Yeah... you are right, Master... I love it...
I love how you take charge like this...

Natalee: [Voice a low, sultry rumble, her massive eyes gleaming] Yo Master, whenever you feel ready and calling the shots... we will start the ritual, alright? Just say the word...

Master: [Voice filled with raw determination, his eyes fixed on the target] Okay... no more waiting... I'll start climbing her titty then... [He begins his ascent, his hands gripping the soft, massive flesh]

Master: [Climbing up Abigail's massive, heaving titty, his breath coming in short, excited gasps] Climbing Abigail's titty... it's so soft... so warm... I'm loving every second of this...

Master: [Reaching the summit, staring at the colossal, twitching mound of her nipple, his voice a breathless whisper] My god... it's so huge... it's like a mountain of pure, sensitive flesh...

Master: [Watching the massive, pink tip twitch and pulse with a life of its own, his eyes wide with anticipation] It's twitching... it's reacting to me... it wants this action... it's begging for it...

Master: [Gasping in shock as a sudden spray of warm, white liquid hits his face] Wait... she's squirting milk from her nipple! Even though I haven't even touched it yet... the energy is already overflowing!

Master: [Finally grabbing the massive, sensitive tip with both hands, playing with it aggressively] I'm finally playing with it... and it's responding so wildly... it's squirting out even more milk with every move I make!

Master: [Feeling the intense, rhythmic twitching and rippling of the massive nipple under his touch] I can feel it... her nipple is twitching and rippling like it's alive... the sensation is incredible...

Master: [Staring in absolute shock, his eyes wide as he watches a literal torrent of white liquid erupting from the massive, pink peak] Suddenly a lot more milk is coming out from her nipple! It's like a fountain of pure energy! Natalee: [Watching from a distance, her eyes widening in intense, lustful realization]

Natalee: [Voice breathy and trembling, her massive body vibrating with anticipation] Yeah, it did! Ooh my... is this it? Is this the time? Is the energy finally breaking through!

Abigail: [Moaning with a primal, soul-shaking intensity, her back arching as the sensation overwhelies her] I'm feeling incredible... it's too much... but it's missing something... Natalee's mouth is missing from my nipple! I need her!

Natalee: [Voice thick with raw, unbridled lust, her eyes gleaming like predatory stars] Ooh yeah, I think it's time! Let's get growing now!
Abigail: [Nodding frantically, her voice a desperate, erotic plea] Yes! Do it! Now!

Natalee: [Latching her massive, hungry mouth onto the leaking, throbbing peak, her tongue swirling around the sensitive tip] Sucking her milky nipple now! Slurp, gulp...

Natalee: [Sucking her nipple with incredible, rhythmic force, her cheeks hollowing as she draws the milk deep into her throat] Slurp, suck, gulp... Abigail: [Moaning wildly, her voice breaking with pure, unadulterated pleasure] Oh god, Natalee! Yes! Suck it harder!

Both Girls: [Moaning loudly, their massive, booming voices echoing through the entire space as they succumb to the sensation] Ahhh! Mmmph! Haaah!

Master: [Positioned right in the middle of the chaos, caught between Natalee's massive mouth and Abigail's twitching nipple, drenched in warm milk] This is insane... I'm right in the middle of the surge!

Master: [Voice filled with a manic, erotic high, his heart hammering against his ribs] It's so fucking awesome to be in this situation! The power... the scale... it's perfect!

Both Girls: [Moaning even louder, their bodies trembling with the sheer force of the milky, erotic explosion] Mmmph! Ahhh! Oh god!

Both Girls: [Voice straining, heavy with the weight of the impending surge, their eyes glowing with a terrifying, beautiful light] The growth spurt... it's coming! It's coming soon!

Stella: [Laughing loudly from a distance, her massive arms crossed over her chest in a gesture of pure skepticism] I don't think there will be! They're just getting worked up over nothing! Don't get your hopes too high, girls!

Estella: [Voice wavering, her eyes fixed on the violent, milky eruption occurring before her] I don't know, Stella... look at them...
[Imane: Nodding slowly, her massive frame trembling with a sudden, uneasy realization] They actually might grow... the energy is too intense...

Natalee: [Gasping, her eyes rolling back in her head as her entire body begins to hum with a terrifying, electric heat] I can feel it... the surge... it's inside me!
Abigail: [Screaming in a mix of terror and ecstasy, her skin glowing with a strange, white light] It's coming! It's really coming!

Both Girls: [Their bodies suddenly erupting with a violent, unstoppable force, their flesh expanding with a sound like rushing wind] They both grow rapidly! Their limbs stretch, their curves swell, and their massive frames explode outward in a blinding flash of growth!

Both Girls: [The growth becomes a frantic, unstoppable tidal wave of flesh, their bodies surging upward with impossible speed] They grow even more rapidly! They are becoming titans, their size increasing so fast the air itself seems to scream! And they don't feel a stop in sight!
