MEDUSA TOWN I

Empress Sofia

I had never been to Medusa Town. Never seen the grimand dirt that was in this sinful town. I thought most of it was rumor but ounce I came to this city. I felt danger. I felt like I could die and it scared me.

But danger is what I came for. Medusa Town is a place where the law is run by the working ladies. Dangerous and beautiful ones. If you got the money your fantasies would come true with them. If you cross the line you are dead. Even the cops didn't enter this Town. It was a truce. I Saved my cash for some fun. I wanted something Kinky

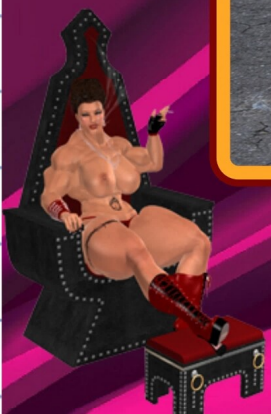

A girl walked up to my car. My hands started to shake. The girl had black hair Her breast were B cup but still very sexy. She wore Fish stockings and fucking my high heels. The lady behind her had a least Double D and was a red head.

- "How you doing stranger" B cup said in a sexy voice
- "I am looking for fun"
- "Well you came to the right place. Got the money"
- "Yes" I said
I showed her cash.

- "Big wad ... both of them. What you want"
- "Like a girl to rough me up ... in bed"
- "Hmmm got a the perfect girl for you darling" she said and got in the car.

- "Drive this way ... first time?"

- "Yes"

- "Well this girl. Here name is Sofia. She is perfect for you. She aints as gentle as me thought. You still ready"

- "Oh yes"

- "Fine darling.. Make a left"

I Arrived at a building soon after. She took me by a hand and brought me in. She brought me up stairs.

A tall, busty and muscular nurse came looking like a action figure. she was pushing a stretcher with a totally bruise man on it.

A huge feeling of fear and arousal stuck me like a lightning bolt. I was weak in the knees. And she was just the help

B

- "How rough you want it baby" She said
- "As hard as she can. As long as I come out alive"
- "Your funeral baby. Give me the money" She said
I Gave fishnet girl the money.

She went in and came out later.
- "Remove your clothes and go in"
I hesitated.
- "If I wanted to take your stuff..
Would have killed you"

I got undress and left my clothes. I walked in. The door shut down and locked behind me. The room looked like a cross between a Gym, a sex den and dungeon. There was heavy weight sets in a room, and dungeon bed that you could shackle someone too. It all mixed together in some intense power sex fantasy. A Latin Amazon had her back turn to me.

She cracked a riding crop across the palm of her hand. Her legs were long, sexy and very muscular. Her butt was big butt tight. She wore a G string and some boots showing off her sculpted calves. She had a tattoo over the belly. She towered over me at 6.2. The high inch 12 inch heels push that height even further. -"Well you're the little Punk who likes it rough." Sofia said

She turns around. She looked beautiful. She had sexy and juicy lips and a wild look in her eyes. Her tits were huge. Her nipples were big and pointy.

Sofia walked over to me and slammed a fist in my stomach knocking the wind out of me.

She grabbed my hair and kissed me. Her tongue jammed in my mouth and slammed her crotch in me and fondled me. My knees went weak as she started kissing me. Her other hand squeezed on my neck. I was in the hands of an expert.

5 minutes she let go of the kiss making me collapsed in her arms.

Sofia grabbed my ass and kissed me again.

She turns my cock into butter as she ran her smooth hands on me.

I came in her hands. She licked it off hand slowly. She was a sex animal.

A hard slapped went across my face then another and another. Tears started to run down my eyes.

-"Stop" I begged.
-"Come this
what you wanted.
Can see it in your
eyes. Yur mind"
She said

I was becoming slapped drunk from her constant slaps.
I wouldn't be able to stand if it wasn't for the fact she
held me up by my hair.

- "You find me sexy baby. You still find me hot."

- "Oh yes" I said

- "Does it hurt?"

- "Yes so bad. Don't think I can take it."

- "Does it turn you on? Does it turn you on I could do what ever I want to you.

That it is no rules here. That your life in my hands" she said

- "Y..yes"

She slammed me to the ground and started kicking me. Her kicks were cruel and precise. -"Stuttering shit" She said

She grabbed her riding crop and held me down by the back of my neck. She places her foot on the back of the neck and tore into my ass. My ass became bruise and red.

She smiles gleefully. This cruel Valkyrie soon had my ass bruise like a plum.

Tears flowed from my eyes. When I thought my body was broke she took me farther.

Sofia laughed like a mad woman while she was placing me in the fetish bed

She straddled me and took me inside her. Her pussy milked me dry. Her hands squeezed my neck and started choking me. Blood rush to my cock, making it hard as steel.

Air started leaving me. My eyes rolled back in my head.

Sofia put her head back as she moved. The shadows cast across her breast dancing around the room. She was like a goddess from this angle. A goddess of life and death.

She moan letting out a Banshee cry as she came on me. I started to cum.

She pulled out and erupted with a multiple orgasm. Her hand squeeze harder on my neck I passed out.

She woke me up and slammed a fist into my face drawing blood. She smiled. I was knocked out again.

I didn't know for how long. Sofia rode me and made me cum more times than I thought was possible. Hours passed. Lay motionless, bloodied and broken.

Thing she broke a few ribs and my arm. There was a smile on my face,

- "Toss this piece of trash out of here" She said.

The Muscle Nurse grabbed me & left Sofia's room.

Minutes later she dump me in between the garbage cans on the dark deserted street

Sofia...
I hope to
see her
again...
