

When I was still a small boy, I had a best friend called George. We spend all of our free time together and were like brothers to one another. We were really inseperable

His father had to leave town, since he had found a new job somewhere else. I thought I was never going to see him again. It really broke my heart.

When I was in highschool, I had become a real womanizer. I was charming, athletic and good looking. Most of the girls in my class were into me.

That was how it was, until I met her...

Have we
dated
before...?

You don't
recognize me, do
you...?

The mysterious girl asked me to go to the park with her. She said that we knew each other and that we would need to talk in private.

I had been asked out on dates many times before, but this felt different.

I really couldn't remember who she was.

But then she suddenly said: "You knew me as George..."

You are not joking, right?

Does that mean that you are trans?

What name do you go by now?

No...

Yes...

Jenny...

I sat next to the most beautiful girl I had ever seen. I couldn't believe, that she was supposed to be my old childhood friend. As we sat on the bench, both of us barely said anything.

I really missed you Jenny...

You are the most beautiful girl I have ever seen...

I never forgot about you...

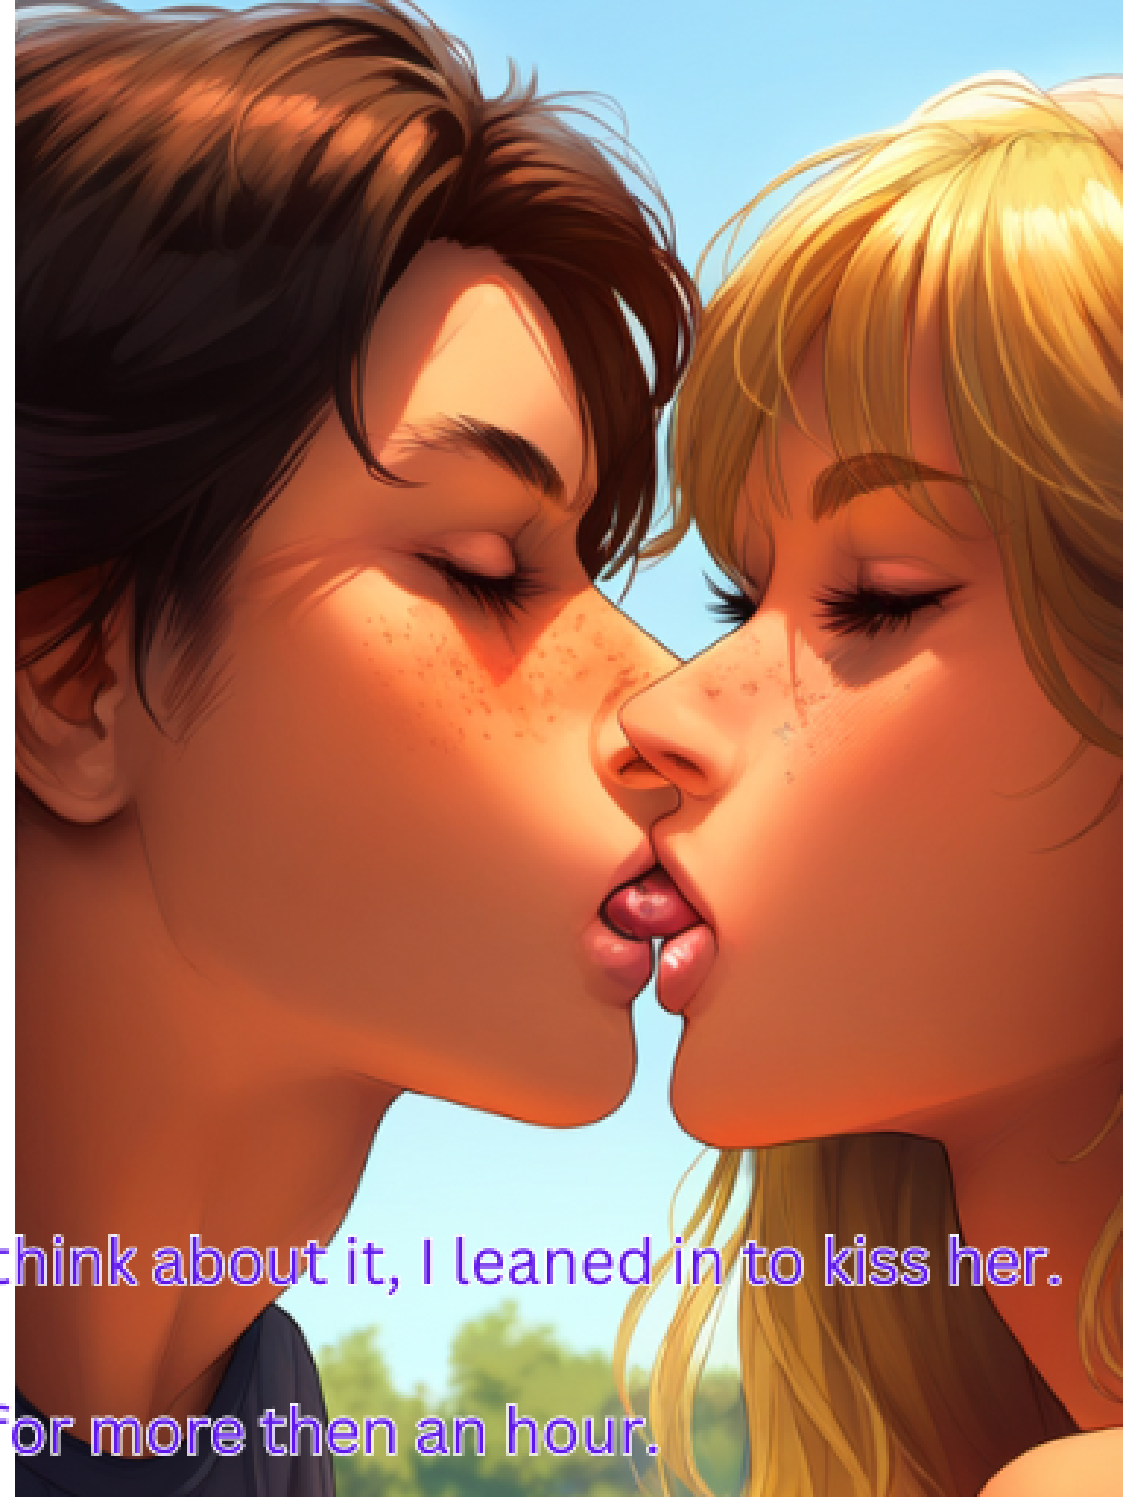

Really...?

I didn't know what was happening to me, but I really felt like I had arrived at home. I wanted to make and see her happy. It must have been hard for her and I would do everything in my power, to protect her.

Before we had another moment to think about it, I leaned in to kiss her.

Jenny and I sat there for more then an hour.

When I opened my eyes, I saw that she had an erection.
I was really surprised and stared at it.

I am
sorry.
Please
don't
think
worse of
me...

Wou...
would
you come
with me?

Jenny was embarrassed by the way I looked at her bulge.

She put her jacket back on and put her hands on her crotch to cover herself.

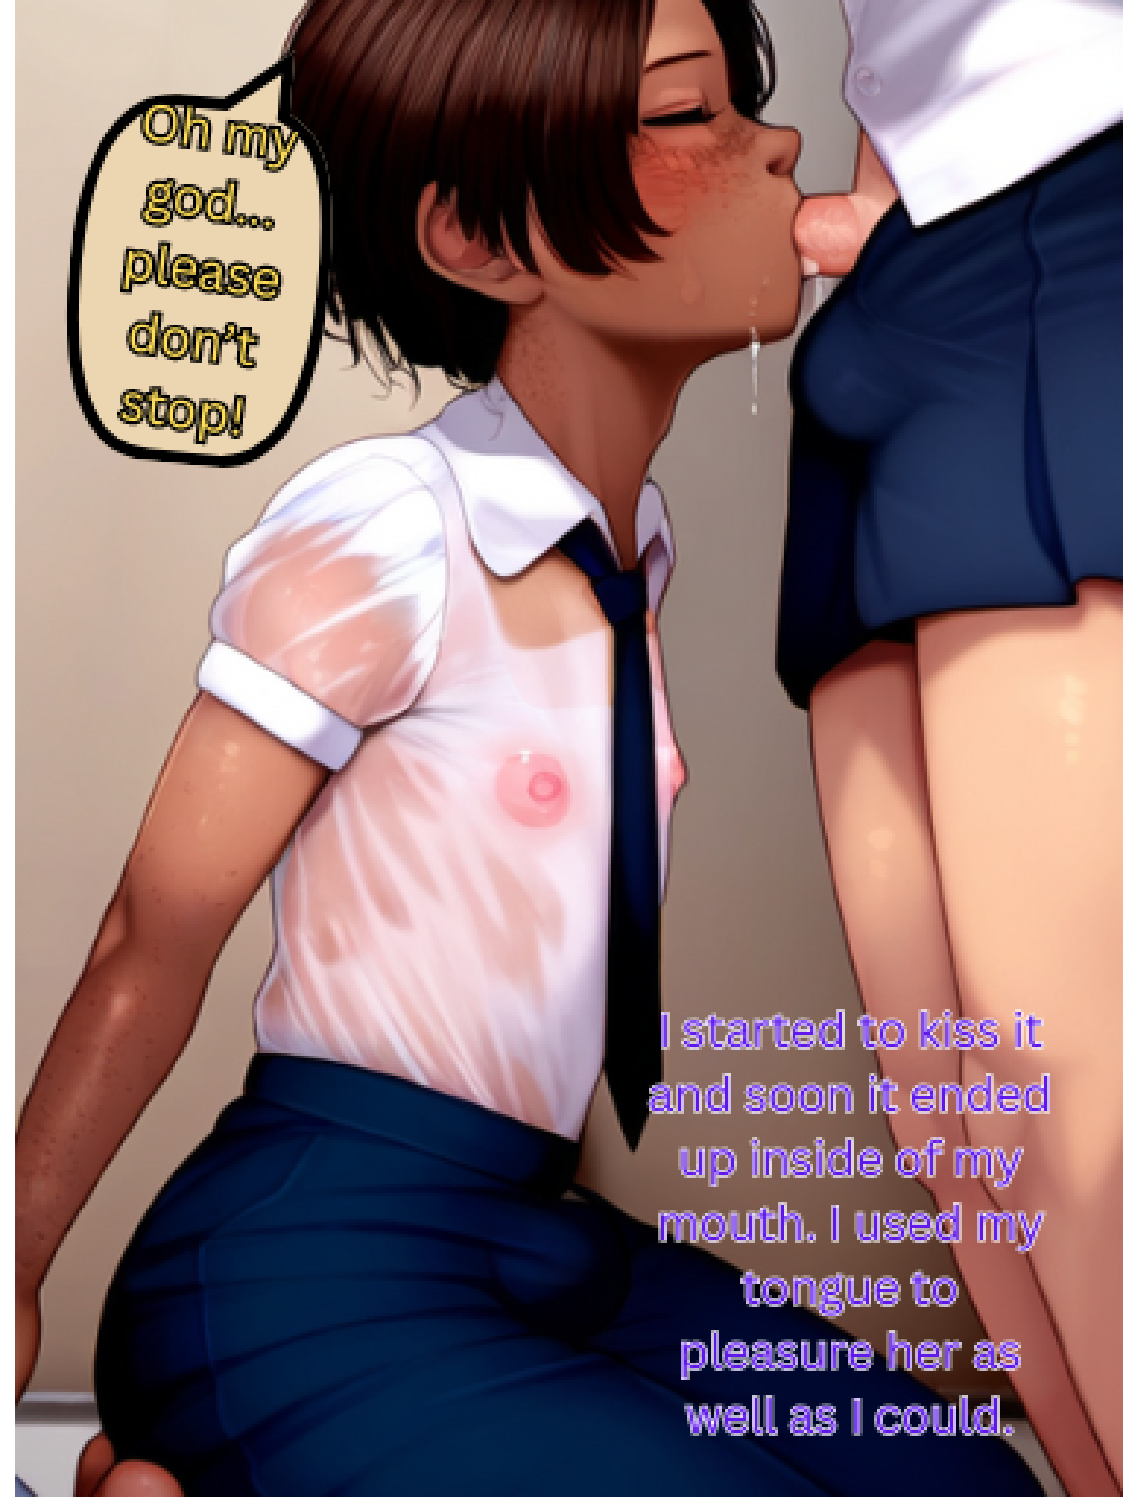

I had never felt this way before. I had had a few dates with different girls, but for the first time in my life, I had kissed someone with a penis.

I would've thought that I would be repulsed by that, but to my own surprise, I had never been that turned on before.

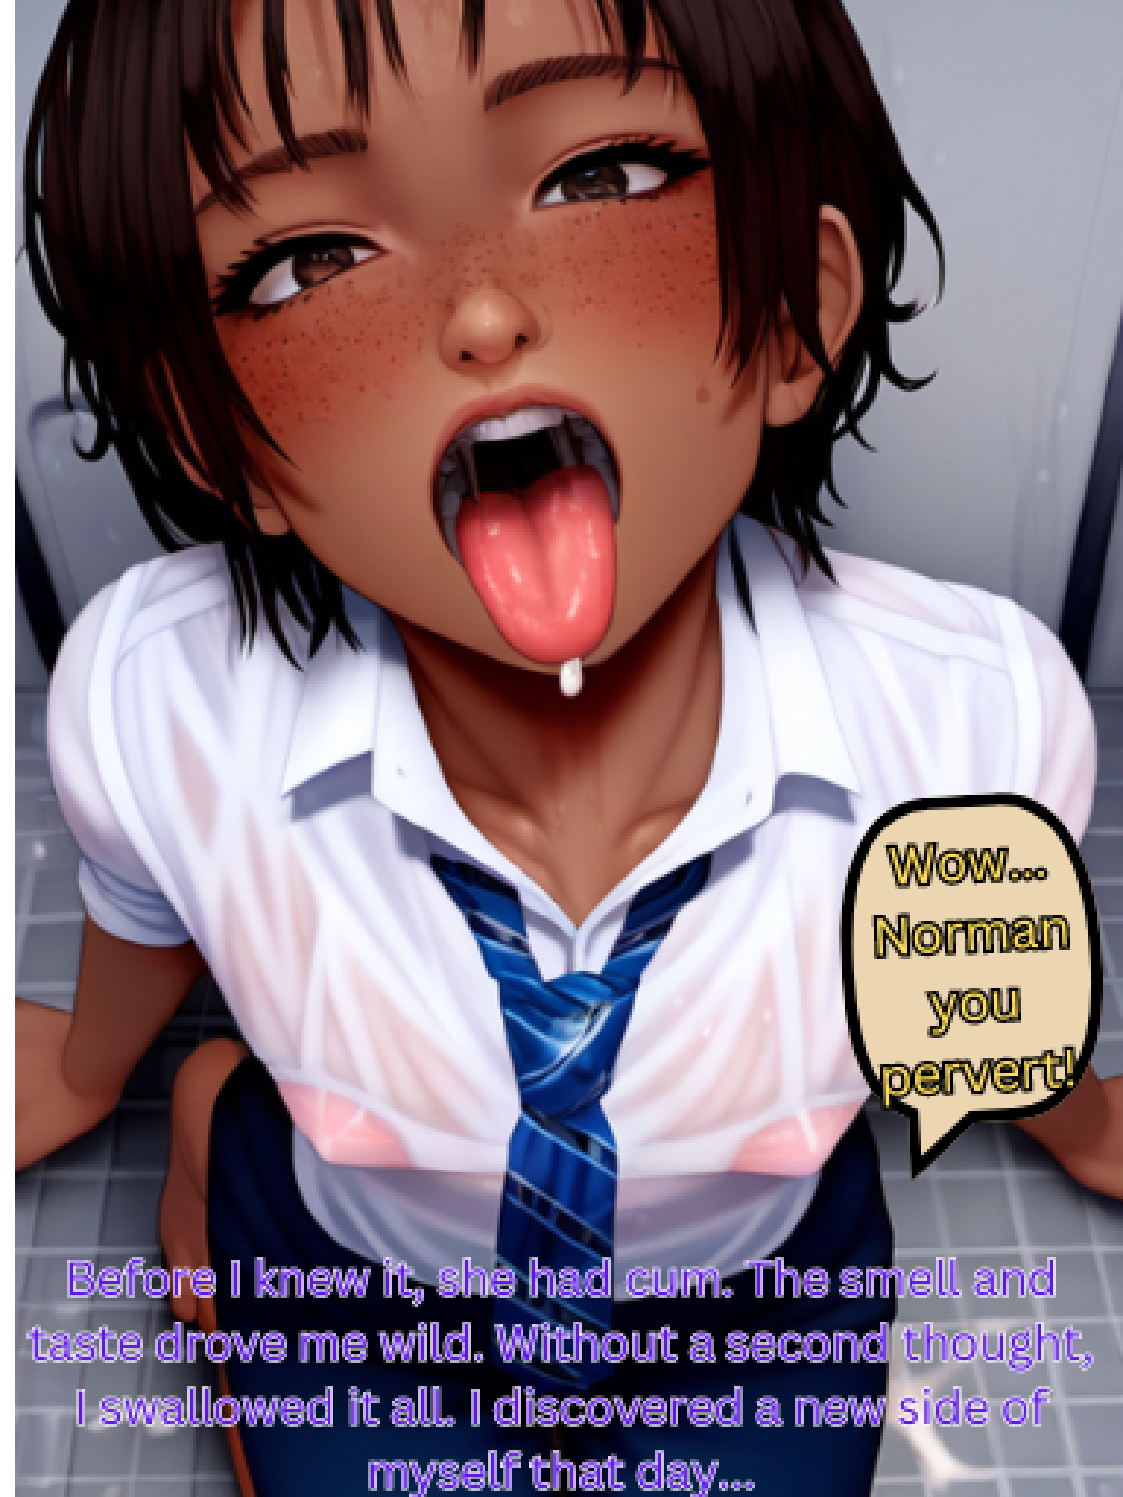

what are you...

I dragged her to the nearest bathroom and instinctively went down to my knees. Jenny was blushing, as I asked her to show me her penis.

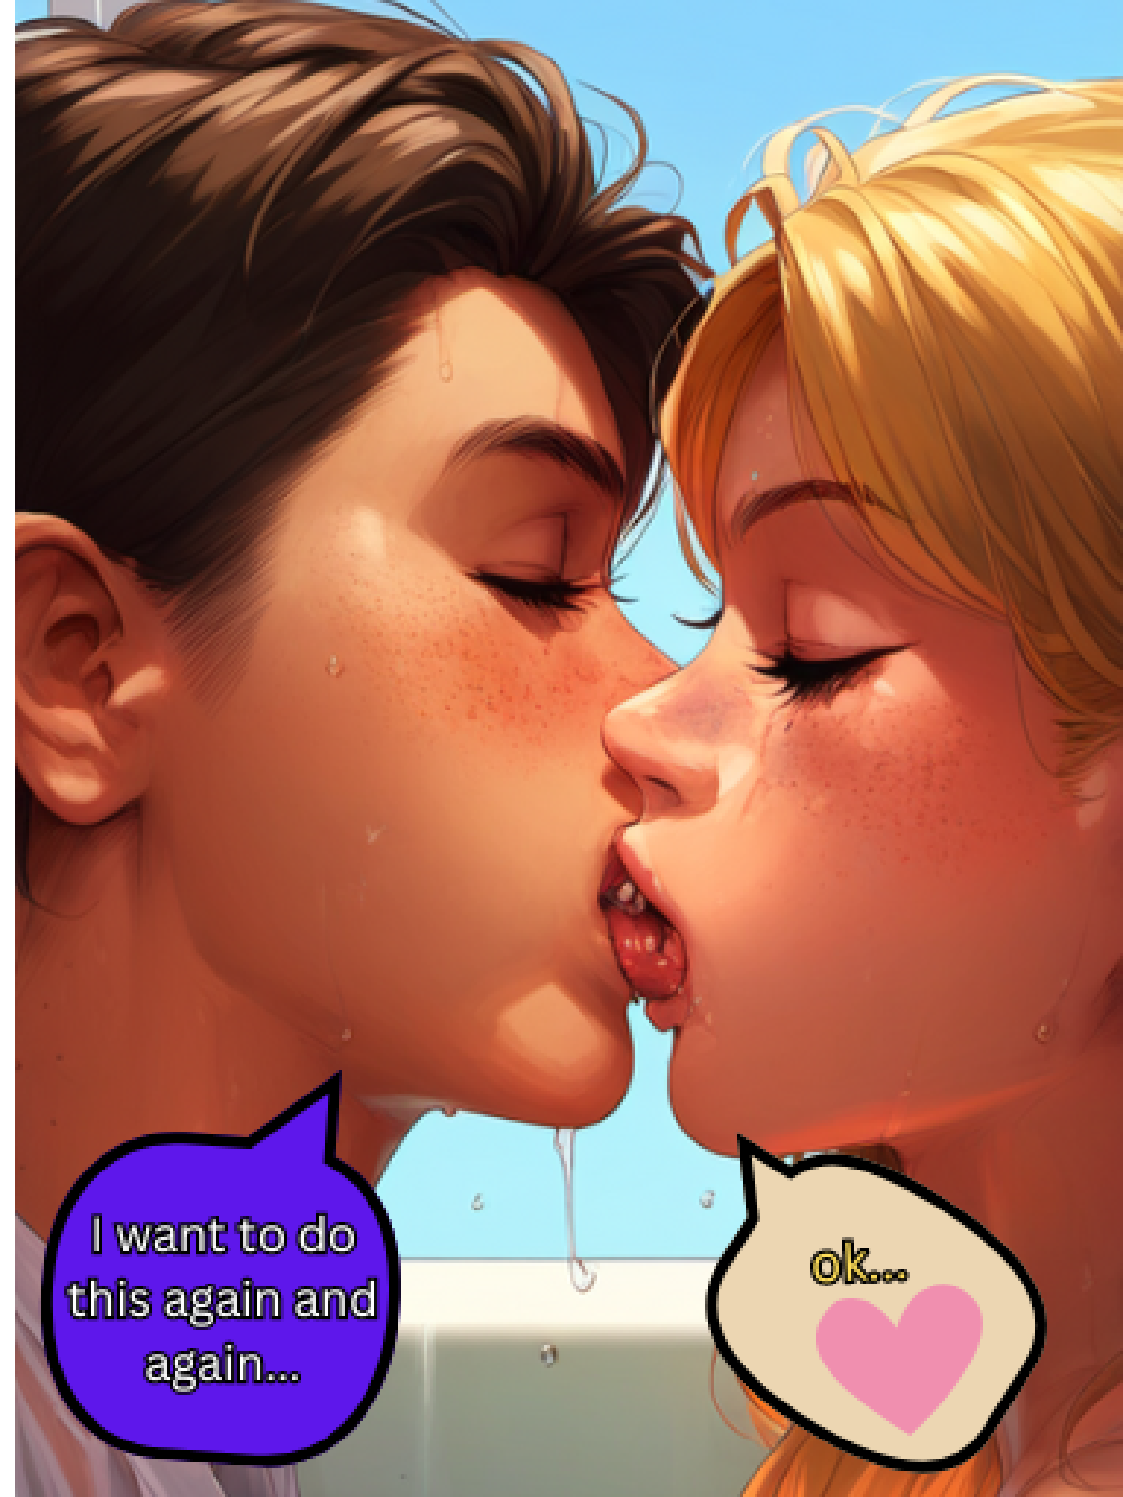

Oh my god... please don't stop!

I started to kiss it and soon it ended up inside of my mouth. I used my tongue to pleasure her as well as I could.

Before I knew it, she had cum. The smell and taste drove me wild. Without a second thought, I swallowed it all. I discovered a new side of myself that day...

Cmon Norm!
I want to show
you my room.

alright.

Later that day, Jenny invited me to her new appartement. Her parents paid for the place, so that she could study in her hometown.

You look stunning...

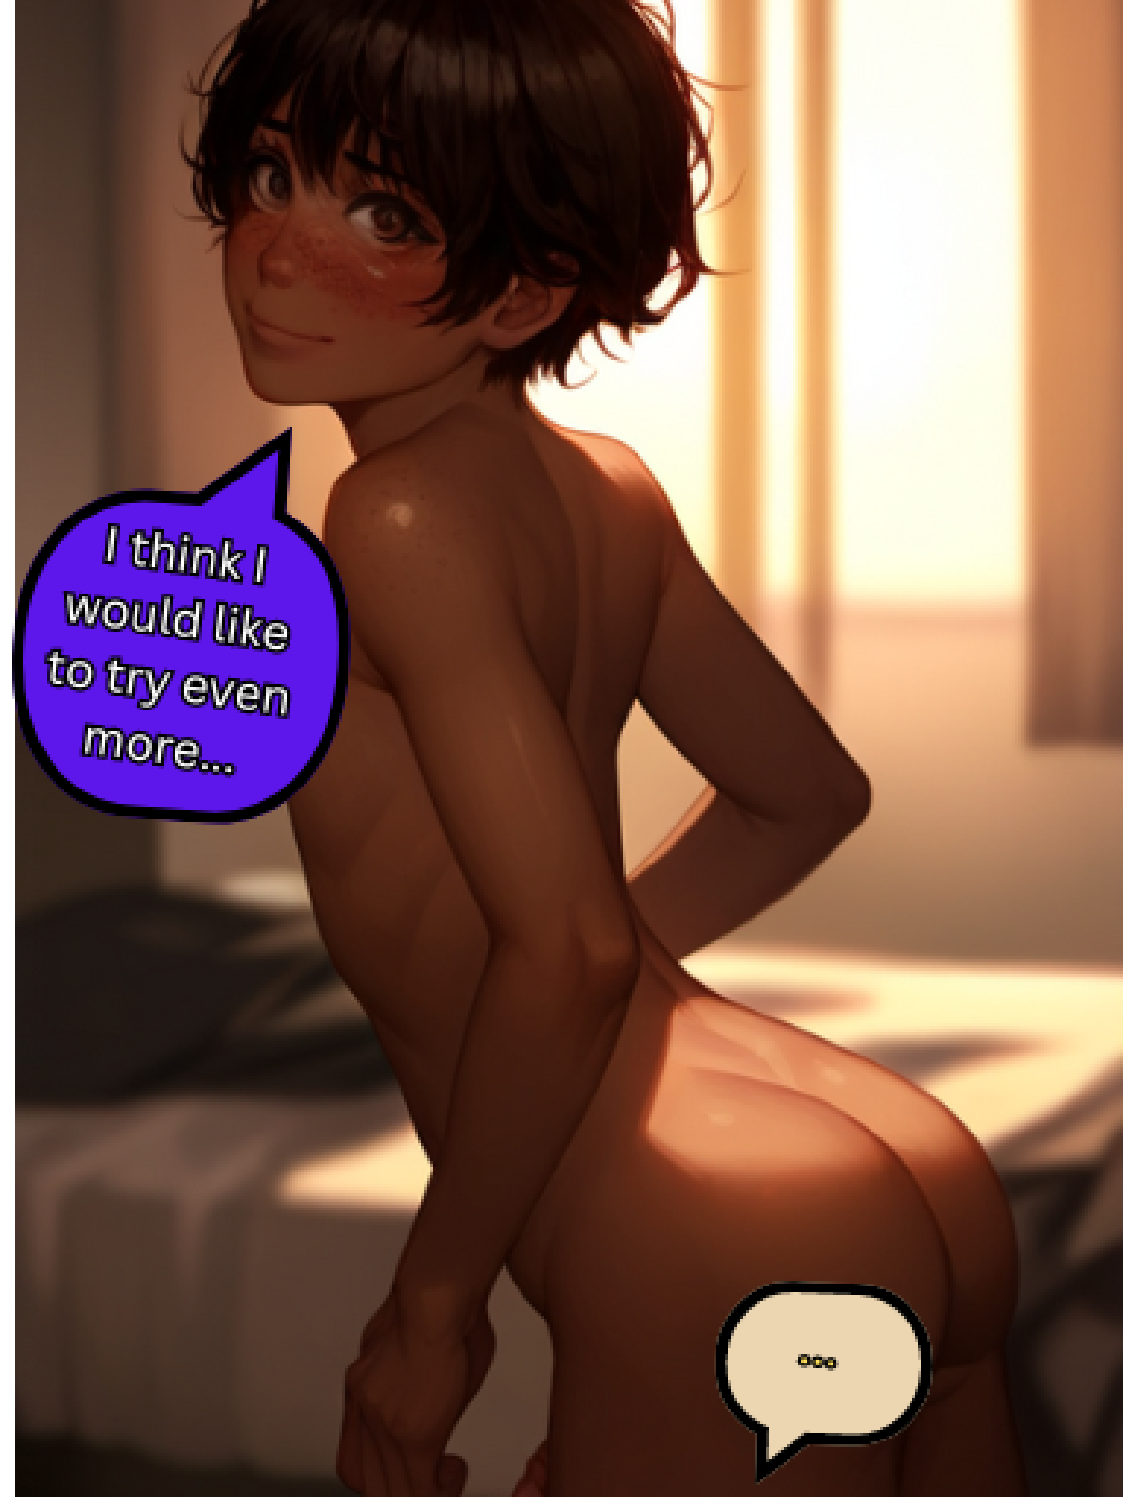

She asked me if I wanted to try crossdressing. My heart pounded as she styled me. After 30 minutes, I wore one of her dresses and we sat there in silence.

Is that...
because
of me...?
♥

I don't know
what you
have done to
me... I
haven't seen
her this lively
in years.

As we sat there I noticed the big bulge under her dress. I started to feel all hot again. Thinking about earlier, my mouth started watering.

you
feel so
good...

I love this...
do it
harder! ❤️

I had never had the urge to have sex with one of the girls I had dated. They had been attractive, sure, but this time it was different. I crawled on Jenny's bed. As I knelt there on all fours, Jenny undressed immediately and positioned herself behind me. When she started to fuck me, I experienced the greatest pleasure I ever experienced.

you look like you are glowing Norman, what happened?

Oh, nothing in particular...

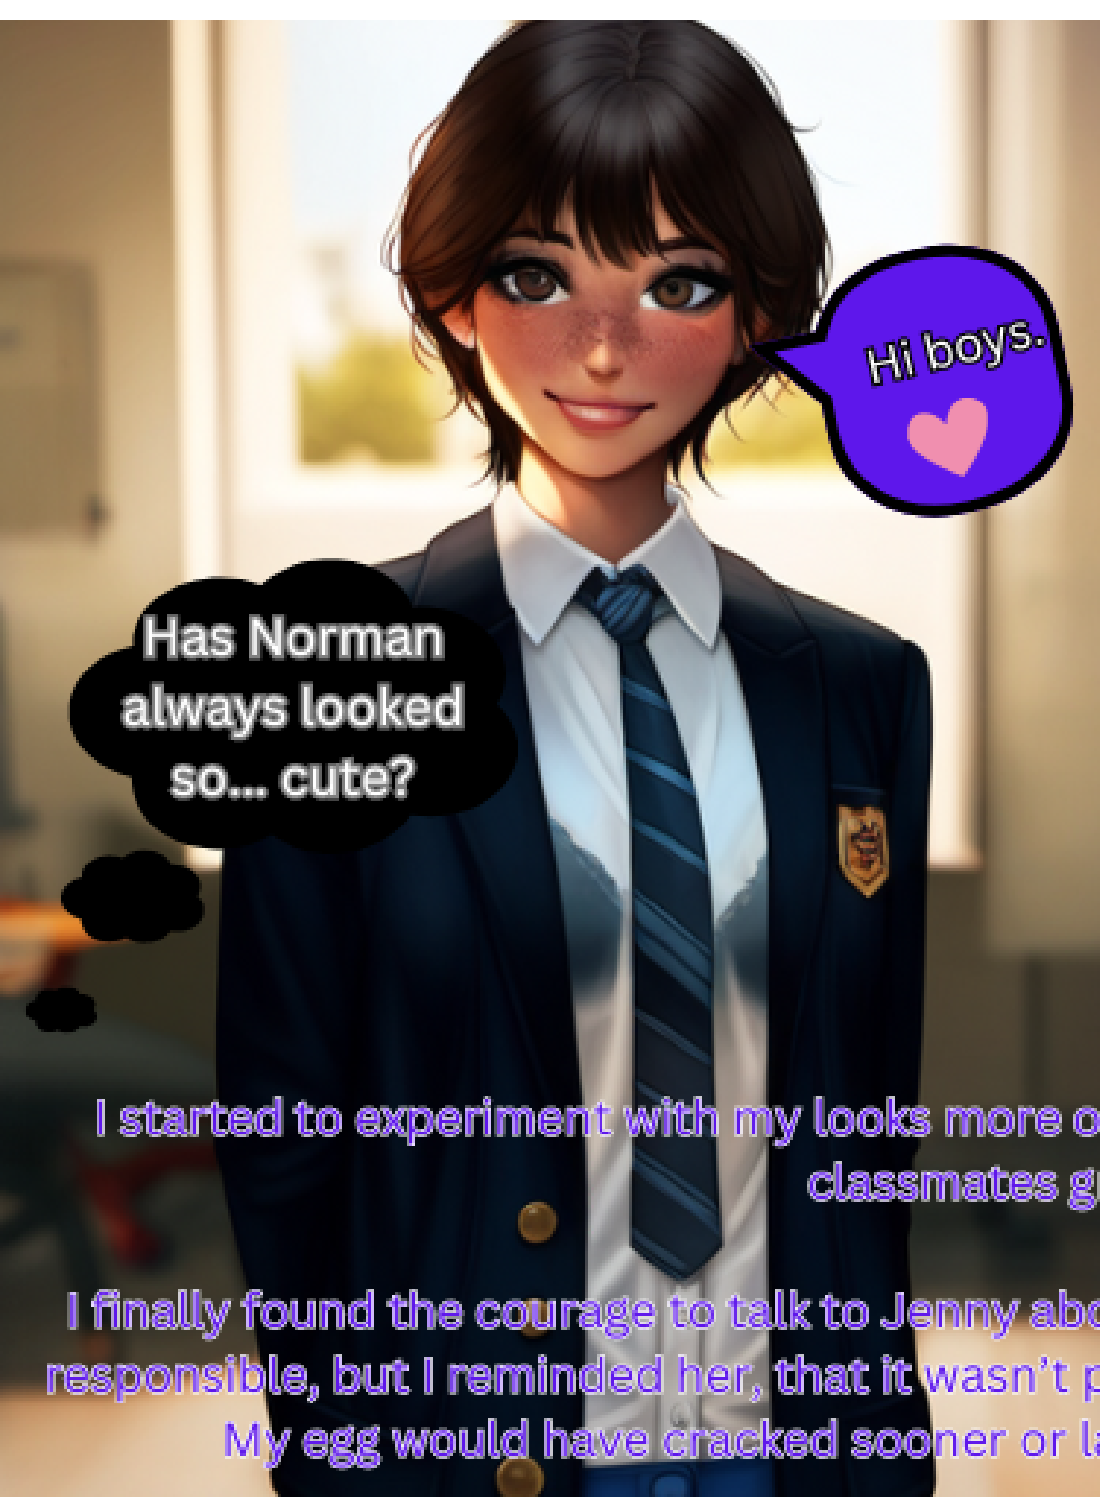

After that day, I started to inform myself about transgenderism. My egg had cracked and I wasn't sure, if I wanted to be Jenny's boyfriend after all. Something else seemed more suitable...

Have you done something with your hair?

I hope none of them notice my bra...

Without Jenny knowing, I bought estrogen pills and T-blockers online. I just wanted to see, what it would do to me...

I started to experiment with my looks more over the upcoming weeks. More and more of my classmates grew suspicious.

I finally found the courage to talk to Jenny about what I was doing. At first she felt like she was responsible, but I reminded her, that it wasn't possible to change someones gender by accident. My egg would have cracked sooner or later and she just made me realize sooner.

I love you

I love you too.

Jenny and I sometimes snuck out of our classrooms to have some alone time...

I still can't believe how happy this makes me...

keep going! I am close!

yum...
so salty
♡

You have
become
quite the
bitch
giggle ♡

doing this felt like I
was always meant to
be this way. I could
not have been
happier

I hope you
still got
something
left in you
big girl.

You are
so sexy
Norm...

Jenny was the best thing that ever happened to me. She was so validating to be around.

Fuck, H...annah

How about we go to the cinema on tuesday...?

You are so cute, but I already have a girlfriend... *giggle*

After 5 months, I stopped hiding my transition. the boys were always looking at my changing body. Some of them were really cute about it. If I had not already been in love, I am sure some of their advances would have been successful... ♡

they are reeeally attractive, but I am not interested

You are so lucky Hannah, even Mike and Henry want to go out with you...

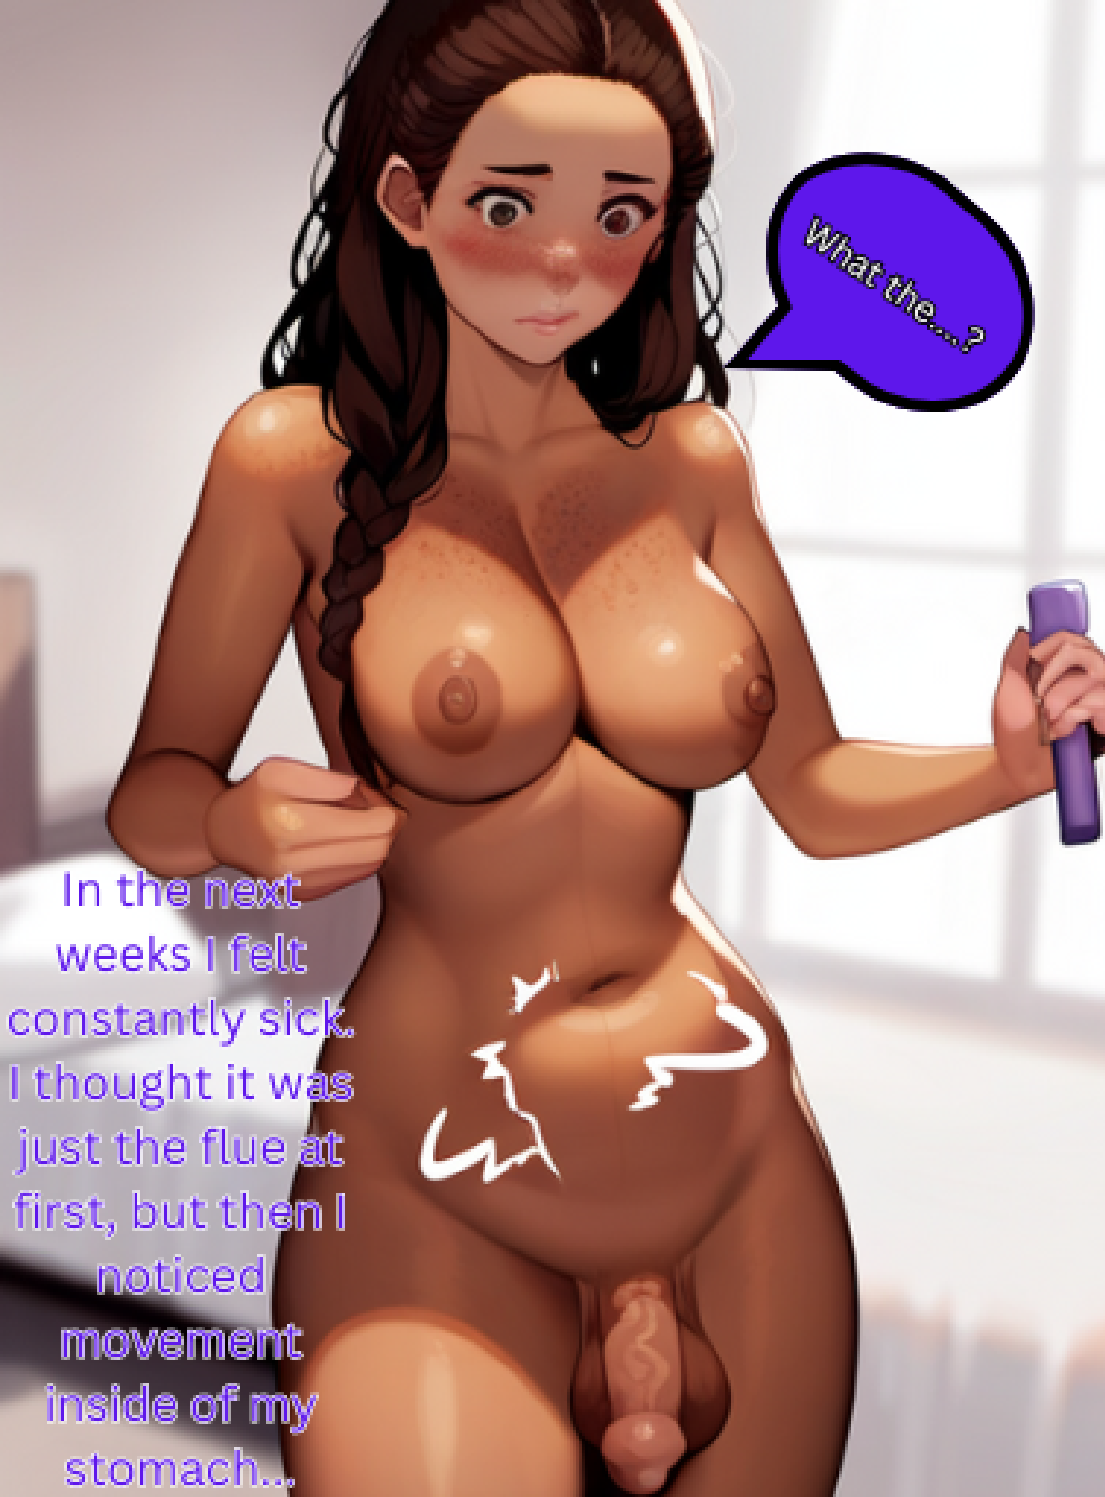

I had never been so
happy in my life.
Everything seemed too
perfect to be true...

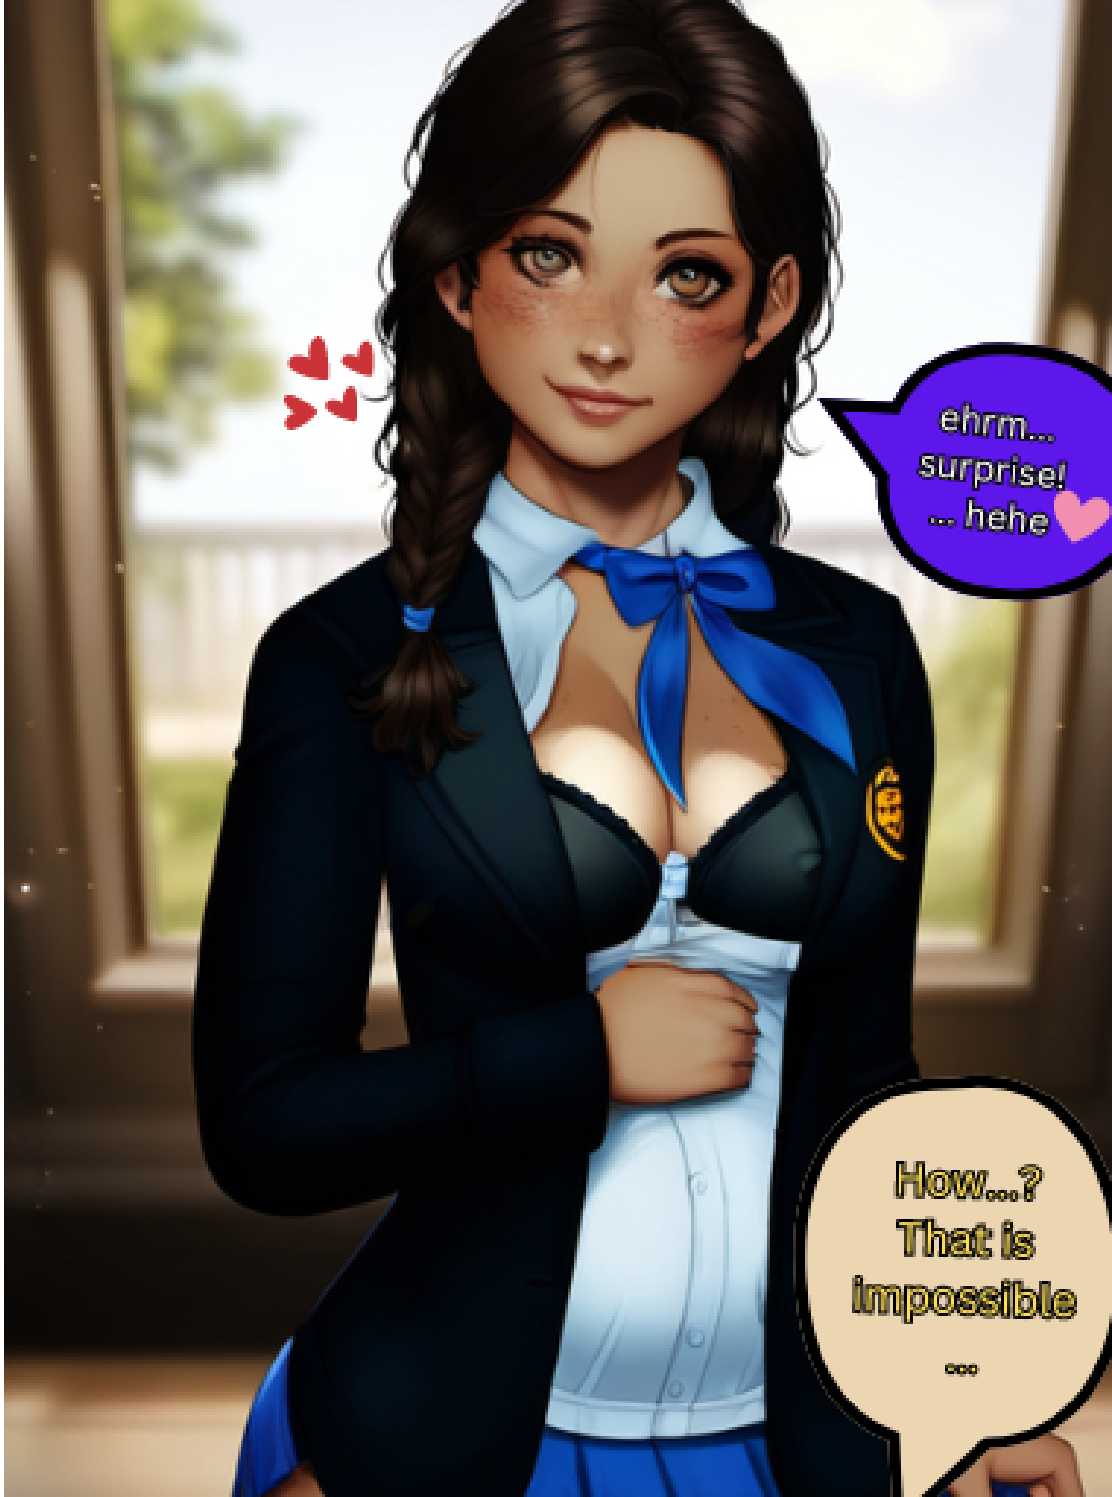

But there is always a
catch, I guess.

When Jenny emptied
her load inside of me
that night, like she had
done hundreds of times
before, something
strange happened inside
of my body...

What the...?

In the next weeks I felt constantly sick. I thought it was just the flue at first, but then I noticed movement inside of my stomach...

ehrm... surprise! ... hehe

How...? That is impossible ...

I love
you...
we can do
this!

I love you
too...
but this is so
complicated

My pregnancy really threw everyone off... Even our relationship felt like it was in danger. Jenny had never wanted to become a father and it took me a lot of convincing for her to accept, that both of us would be mothers. At the end of the school year, the pregnancy was almost over. Jenny still struggled with the idea of us being parents.

You have made me the happiest woman alive!

In the end, we decided, that it would be best for us to marry each other. We wanted to provide the best possible family for our child.

I ended up giving birth to a beautiful girl. We named her Sarah.

Hey, look Sarah!
Mommy Jenny is home

There are my two beautiful girls! ❤️

THE END
