

Mommy's Cocoon of Love

By Klrxo

“Baby, we need to make some cummies before you go to sleep. Have you made any cummies today? I didn't think so. Come sit down on your bed for mommy.”

“Good boy. Now take out your boner for me. Show mommy how hard and thick it is right now. Oh, there's a big boner... nice n stiff for mommy. Look at how purple your knob is, baby. That means your stiff boy-boner is aching for release. Now put some boner-lubey on it...get it nice n slippery for mommy's hand. There you go...make it nice n hard and shiny with boner-lubey for mommy.

Mmm, you know the routine. Mommy's gonna squeeze it up n down, from your knob to your nut-sack, baby. I wanna milk out all those cute little cummies and let em spray high into the air. Would you like that, baby? Do you wanna throw some long, thick cum-ropes into the air for your mommy? Mm, yes, my boy has a strong prostate. It sends that cummy-load right up the barrel of his love-pistol and shoots them way up into there, right baby? Good boy.

Ok, let mommy close and lock the door. We don't need your father walking in. Dads don't need to know about mommy-son special time. They just wouldn't understand. They'd probably just get angry and jealous if they knew about all the special attention mommy was giving her baby's boner. Daddy wouldn't be happy at the way mommy pulls out all her baby's cummies and coats her sparkly wedding ring in boy-goo. That's why he doesn't need to know. It's our special secret.

Would you like mommy to crawl into bed with you, baby? Would you like to create a nice, warm, cocoon of love under your blanket with

mommy. We could hug and moan and squirm, while mommy helps her baby make some cummies. It could be like our own private boner-stroking wrestling match under the blanket. Would you like that? Mmm, I knew you would.

Would you like mommy to get naked first? Would you like me to shed my robe, so we can both be naked together in our special love-cocoon? Ok, baby, let me untie my sash and slip out of this robe for you.

You're so cute. Your eyes always get so big when you see my huge mommy-boobs naked. I know they're a lot to look at. They used to be an H-cup, but since I gave birth to your sister I haven't the slightest clue what cup-size they've swollen to. Probably to some letter in the middle of the alphabet. I haven't nursed your baby sister yet tonight either, so my breasts are incredibly swollen right now, baby. They're engorged with warm tit-nectar, so I have to warn you...they might leak all over your cute little body while we do our love-snuggles. You don't mind that, do you, baby? I didn't think you would.

What's that? You're right, mommy doesn't have any hair down there. Most mommies like to shave their pussies, because we know that a lot of boys like it that way. Do you like mommy's shaved pussy, sweetheart? My hairless cunny? My mound of Venus? Do you like how thick my outer lips look? Do you like how they come together to form a deep cuntal slit. I figured you would.

Oh, you wanna see mommy's big bubble butt too, huh? Here you go. Hey, don't pull on that boner. That's mommy's boner. That's for her to stroke on tonight, not you. I know your horny, baby. That's why mommy's here for you.

Come on, let's crawl inside our pleasure-nest together. Let's get cozy, so mommy can do the stroking, and milk those cummies out of your aching boner.

I see you staring at my big dangling tits, while I crawl towards you, young man. Probably fantasizing about being smothered by my gaping cleavage, aren't you? Let me bring them down onto you. Is that what you want?

Mm, that's good. Sprawl onto your back, my prince. Let your beautiful mommy-queen nuzzle up against you and play with your big pink dragon. Mmm, just like that. Does that feel good, baby? Do you like mommy's huge, squishy breasts plastered against your upper chest like this? Yeah? Can you feel my fat, rubbery nipples prodding against you? Can you feel how hard and aroused they are? Mm, mommies just love to hover over their boy while beating their boners, so you can stare up into our beautiful eyes while we say all sorts of naughty fucking things to you.

Now, let mommy pull your comforter over the top of us...like this. There now, isn't this nice, baby boy? A special place for our naked bodies to be alone together. Our own little private cocoon of pleasure. A cozy nest for momma-bird to help her baby-bird make some juicy cummies.

Mmm, let mom tenderly drag her long nails down your chiseled chest. Let me tease you before I begin stroking, baby. Oh, my boy is so handsome, just like his father used to be before he got old and boring.

No, no...I still love your father, honey. It's just that...well, he just doesn't do it for me sexually anymore. Our libidos exist on two totally different planets and he needs a stupid fucking pill for his dick to even get hard these days. I know, isn't that hilarious? I mean, can you

imagine not being able to get a rock-hard erection just looking at this voluptuous body. I'm sure you know nothing about that. Every time I'm around you I can see that stiff slab of meat in your pants. Always rock-hard for mommy, aren't you, baby? Fully erect and ready for mommy's naughty hand.

Let mommy squeeze your nuts first. Oh, they're so big n full of boy-sperm. You could impregnate an army of moms with this cummy-load, baby. Mmm, don't you worry about a thing. Mommy's here and she know just to empty these tanks.

Did you use some boner-lubey for mommy? Did you get your stiff penis nice n slick for my hand, baby? Ohh, you did, didn't you? Oh, honey-bunny...it feels so thick and hard and slippery in my hand, just like it always does. You really want mommy to give you a good yanky-wanky, don't you? You want her to milk that creamy ball-juice out good and hard for you tonight, don't you, Tiger?

Mmm, how's that, baby? Does that feel like a good cock-stroking rhythm for mommy to start with? You know I'll gradually speed up as we go. Oh, honey, you're shuddering. Don't get too excited yet, my love-munchkin, mommy's just getting started. We don't want cummies to start pouring from your piss-slit too soon, do we? We need them to boil and swell-up inside your nut-sack first. Mommy wants to drive you absolutely wild before you start exploding sticky cum out your pisser. That means lots of teasing...and kissing...and rubbing all over your young body. Mommy wants to bathe her boy in mind-blowing pleasure.

There you go, love...hump your cute little ass from the mattress. Pump that hot boner up into mommy's hand like it's a pussy. A wet,

tightly-squeezing cunt hole for my boy's stiff penis. Do you like the way mommy's stroking the entire length of you? Pulling and tugging you from your balls to your knob. Ohh, mommy's tight hand feels good slipping over the spongy bulb of your glans, doesn't it, baby? Mm, I know it must, because you're leaking out all sorts of pre-cummies. Mommy likes that, because it let's her know that her boy's turned-on...that he likes having his stiff cock stroked this way. It's important for mommy to beat her boy's horny erection just the way he likes it. She also likes your pre-spunk, because it helps lubricates her cock-strokes. It makes her circled fist stay nice n slippery, just like a wet pussy would be if you were fucking it, baby. That is what you imagine while you're being masturbated, isn't it, love? That you're alone with a big breasted girl and that she's bouncing up and down on your cock, like a whore? Momma-bird likes to twist her hand like this in cork-screw motion. She knows it adds wonderful friction around the meat of your tender cock. We moms are experts in giving hand-jobs. We know just what our boys like. Speaking of that, I think I'll pull on your throbbing peter just a little bit faster now.

What's that, baby? You can feel mommy's sticky tit-nectar trickling out of her fat nipples? Mmm, does that feel good on your chest, baby boy? I bet it would taste good to my little boobie-bear too. Would you like to latch your lips around mommy's nipple, baby? Would you like to suck on one of your mom's big squishy jugs, while she strokes you?

Ohh, there you go, sweetheart...suckle at mommy's milky breast. Pull out all that tit-honey and drink it down. Mmm, mommy likes that. Her boy is such a skilled little tit-sucker. It makes my shaved pussy tingle and smolder with juices. It makes mommy fantasize about fucking a young, juicy dick like yours. It makes me wanna yank on your stiff boy-boner even harder, baby.

Ohh, yes, pump those hips! Hit that pussy, baby! Hit it like the handsome, talented young cunt-fucker you are! Imagine a woman on top of you...riding your erection. Imagine her huge, fat tits leaping up and down her chest, bouncing and rippling up above your eyes.

Feel her pussy around you, sweet boy. Feel her cunt-lips slapping against your cock-base. Feel her hot pink walls clasping you, dragging along the meat of your tender pink dick. Oh, you love sweet pussy, don't you, baby. I bet you can smell mommy's aroused cunt hole. I know I can smell it. Isn't it wonderful, baby? That sweet, musky aroma of wet pussy sweeping through your nostrils. This is how a mommy-son love-cocoon should smell, a wonderful mixture of boy-sperm and wet vagina. Mmm, it just makes your cummies boil in your fat nuts, doesn't it, baby?

OHH! Don't cum yet, honey-bun. Mommy's not ready for your cummy-load quite yet. A little bit of jizz bubbled out, but that's ok, just let it run down mommy's hand. It's normal for smaller spurts to come out during a good milking, just as long as you don't lose your entire cummy-load this soon. I can feel your boner pulsing in my hand though. It loves being stroked by mommy's experience hand, doesn't it? My boy adores having his stiff peter yanked on, while he nurses on mommy's huge milk-engorged tittie. I can hear you gulping it down, baby boy. I can hear you slurping and gulping on all that milk that's spurting from mommy's milk-ducts. That's why boys your age love to have pregnant mommies, isn't it? So you can rub your boner all over mom's big round belly and suck on her giant, milk-swollen tits. Mmm, pregnant mommies are built for young boys to get off on.

Oh, what a whimper that was! Are you feeling good, baby? Is my little love-muffin's boner tingling in mommy's hand? Is it ready to make some hot cummies? Are you ready to cover your mommy in sticky

goo, sweetheart? Oh, you can just squirt your cummies all over mommy's big-titted body, ok. We don't want you blasting them all over your blankets and making a mess. Then how would you sleep? Hose your load all over mommy. Mommy-bodies are made for Boys to cum on. Of course, I'll have to take a shower after and wash it all off. I can't crawl back into my marital with all your slimy baby-makers coating my body, can I? I would sure like to though. Mommy would love to go to sleep feeling her baby's fresh, gooey spunk running down her body. If daddy saw that though, he wouldn't understand. He would never understand that special mother and son connection we have. That his wife's duty is to capture every drop of their son's cum."

Oh, baby...are you ok?! Catch your breath. You can't lay under mommy's squishy tit nursing for too long, sugar...you'll suffocate yourself. There you go, kiss and lick all over my soft breasts, feel how wonderfully heavy and spongy they are on your face. Wow! You are throbbing so hard, Tiger! Would you like mommy to do her special count-down to cummy-ejaculation time? Yeah? OK, here we go, baby...

Ten! Hump your hips. Meet mommy stroke for stroke. Feel the hot pussy around you, baby, beating against your cock-base.

Nine! Feel your glans slipping through my tight, clasp hand. Mommy loves you. Get your cummy-load ready for her.

Eight! Feel your sperm-load brewing in your balls, baby boy. Let them swell up and prepare to fire through the shaft of your cock. Mommy adores your cummies, baby. Get ready to spray them all over her body.

Seven! It's ok to squirm beneath mommy. She knows she's giving you tremendous pleasure right now. Moan and thrust and squirm all you need to, baby. Mommy's here. She knows what you need!

Six! Feel the pussy. Feel it slip along the big muscle of your cock. Enjoy all the wonderful heated cuntal oils that are secreting onto you, baby. Enjoy the way they're bathing the satisfying stiffness of your boy-prick.

Five! You're getting close now. You're getting close to having your cummies milked out. Kiss mommy. Kiss me while we writhe and hump together. Oh, baby, we love each other SO much!

Four! Fuck me, baby! Fuck mommy! Fuck her straight up the pussy and touch my womb with your cock-knob. Fuck me hard up the tube I birthed you out of. Oh, baby...you're whimpering! Hold on...we're almost there! We're almost to cummy time.

Three! Hold me tight! Squeeze mommy! Smother your head down between my sloshing breasts. That's it, my little snuggle bug...fuse our bodies together as one. Mommy is rubbing her aroused pussy with her free hand. Let me experience this wonderful orgasm with you."

"Two! You're nearly there! Fuck hard, baby! Show mommy what a fuck-hound you are. Show her what a stud she's raised. How much bigger and better you are than your wimpy-dicked father. Make me wanna cuckold him and be completely yours! Mommy's here...fuck me!"

One! Yes...yes! Let's cum together! Cum with mommy! Cum with mommy's hot pussy!"

Ohh, baby! Ohh, so much cum! You nutted your cummies out all over mommy, like a good boy, didn't you? Mmm, I'm so proud of you.

Mmm, maybe tomorrow night mommy will stay longer. Maybe we'll stay in our love-cocoon all night, would you like that, baby? We could kiss and roll all over your mattress, and mommy could pull cummy-load after cummy-load out of your boy-boner. Does that sound fun? Maybe...mommy would even sheath your stiff boy-cock in her hot pussy, just so you can see what it feels like to be buried to your balls in wet vagina. I know you'd like that. Goodnight, my young prince. Dream of your heavy-titted queen tonight. Dream that you're fucking her as hard as you can and making her cum, ok? I love you, baby. Goodnight!
